What's so special about El Centro?
OPPORTUNITY
Can you think of better reasons to pick El Centro College?

The school that has earned a national reputation as well as the respect of the community offers new and exciting approaches toward degrees in a myriad of fields. Majors from traditional fields with courses fully transferable as well as majors from technical-occupational fields designed to give a student a degree and a job in one or two years make the curriculum at El Centro one of the broadest ranging in the country. The proof of the El Centro philosophy is in the classroom. For instruction is our business, though instruction isn't always or often in the traditional mold. Teaching at El Centro is based on the premise that we teach students, first, and then subject matter. Learning is a personal thing at El Centro—an exchange of ideas and not an indoctrination, a forum for discussion and reasoning. El Centro is the result of a well planned effort to provide the best college, the best education, available anywhere—bar none. The instructors were selected from a nationwide search. They are the basis of an earned reputation of El Centro excellence and also the roots of the innovative approach to learning which has become the trademark of the college. Simply, what all this means is that you would find at El Centro not only academic excellence but also an educational atmosphere you might not have experienced anywhere before.
Office doors are open. Instructors are willing and eager to help. Counselors concentrate on being a good friend as well as a guiding influence and source of help on any problem and not on forcing you into some program or course outside your interest. Students do not "sit at the feet of the master" as has long been the philosophy at the traditional "University." El Centro College holds a unique, even radical view about education—that it is best accomplished when teacher and student "come together" on an interpersonal level, that it is an individual matter and always a unique experience rather than the assembly line learning often dictated by numbers. So what kind of student attends El Centro College? We can best answer with a question. What kind of people live in Metropolitan Dallas? All types. Joe College, the promising student fresh out of high school looking for an education and some fun is enrolled here. But the student mix at El Centro does not stop with "student-type" which might be considered "typical." Some of Dallas' finest students are here. And so are some who have never been considered "college material" making good on a second chance provided by El Centro's innovative programs. Some thirty-nine students last year were sixteen or under. Eighteen were sixty or over. Fifty students were forty-one years old. One hundred and ten were thirty-four years old. About 3500 were eighteen to twenty-five. Some had long hair. Some had short hair. Some were businessmen trying to further their education, finish a degree, or learn a new job entirely. Some majored in English and studied the poetry of Keats who said that beauty was truth and truth, beauty, that that was all we knew on earth and all we needed to know. Some studied the philosophy of Descartes who said that all man knows is that-he exists: "I think, therefore I am." And some students studied mid-management and earned part of their credits on their jobs. And some students studied to be chefs, and some to be architects, and some to be computer operators, and some to be... the list goes on. And so the atmosphere within El Centro is unique, but its students are not much different from people on the other side of its doors who live and work and do all the things people do in a metropolis. For El Centro's students are as diverse and as exciting as Dallas. And what kind of people would you find as administrators and teachers at El Centro? Well, first of all, you would probably find them. (Which isn't the case everywhere.) El Centro's teachers have left the ivory tower. We have said that learning is our business. And our teachers get down to business with students, both inside the classroom and out. They hold the view that students are the only reason they are here and not the other way around. They are the cream of the crop, the finest teachers that could be hired, for they have an important job to do. El Centro College offers classes in many downtown office buildings for employees, classes in the County Jail for both inmates and jailers, and classes at both public and private high schools for advanced seniors. El Centro believes that we are here for one reason—to serve our students and in so doing serve our community. That's the important difference. And El Centro's philosophy doesn't end when you turn the page. It is reflected in people. Our personnel, whether, instructors or counselors or office staff, and even our students, reflect the concept of "community" which is more than a name at this community college. For at El Centro College, a close relationship exists among all those who make up the college and a very real feeling of community is achieved. El Centro, then, is a school with much to offer. Maybe more than any other college, it's a school that can offer you what you always thought a college should.
History & Philosophy

The Dallas County Community College District's four innovative educational communities are dedicated to a common goal—serving in the best possible way the complex, varied, and ever-changing educational requirements of a growing metropolitan community. Each of the district's four colleges—Eastfield, Centennial, Mountain View, and Richland—has therefore committed itself to providing every person in Dallas County a quality educational experience, whether the person is a youth setting forth toward a degree in medicine, an adult wanting to enrich his leisure hours with an interesting hobby, a student who wishes to spend a year or two preparing himself to enter a trade or profession, or a place for an employed person who wants to further his training in his occupational field. There is a place for the very bright high school student who is ready to undertake college-level training in advance of his graduation from secondary school, and a place for the high school dropout who has changed his mind about the necessity of education in today's complex, demanding society. There is, simply stated, a place for everyone.

Of primary importance to the district's goal is making certain that a student's educational program is tailored to his needs, abilities, and ambitions. The philosophy of the district is to create an educational program for an individual, rather than to try to squeeze or stretch an individual to fit an "educational mold." Every student is offered competent, intensive counseling to help discover his goals and special abilities. Continued guidance is available to a student's educational program if his goals change during his college experience. This emphasis on counseling, rare for some institutions, is a routine procedure at all district colleges.

The district officially became the Dallas County Community College District in 1972, when its philosophy and breadth outgrew the traditional "junior" college label. The new name more closely states the district's mission—to meet the educational needs of the entire metropolitan community. How do the district's colleges serve these educational requirements of such a complex family? The answer is found in educational offerings in four broad categories:

1. For the student seeking the first two years of work toward the goal of a bachelor's or higher degree, the colleges offer a wide range of courses which are transferable to senior colleges and universities.

2. For the student wishing to enter an occupation at a level above the bottom rung of the ladder, the colleges offer one-year and two-year programs of credit courses covering specific technical-occupational fields.

3. For the employed person wishing to improve his knowledge of his field, or train for a move into a new occupational field, the colleges offer a broad range of credit and noncredit adult education courses.
- For the person who simply wants to make life a little more interesting, there are community service programs offering a myriad of subjects on cultural, civic, and avocational topics. Dallas County voters created the district in May 1965 and approved a $41.5 million bond issue. The following year the district's first college, El Centro, opened its doors for the fall semester in the heart of downtown Dallas. In August, 1970, Eastfield College and Mountain View College enrolled their first students and the multi-campus district envisioned by the district planners became a reality. Richland College became the district's fourth college in the fall of 1972. In September of 1972, the voters of Dallas County approved the sale of an additional $85 million in bonds, thereby paving the way for the expansion of existing campuses as needed and the planning and construction of three more colleges. The first priority in the expansion program was the remodeling and enlarging of El Centro College. The construction got underway in late 1973, and is scheduled for completion by the fall of 1976.

- The addition of the new campuses—Cedar Valley College (1975), North Lake College (1977), and Brookhaven College (1978)—will round out the seven-campus plan of the Dallas County Community College District.
A building which celebrated its fiftieth birthday as a downtown department store now serves as a portion of the nine-story campus of El Centro. The ultra-modern structure, renewed in a project that won architectural awards and gained national publicity, will soon be joined by a $10.2 million addition, situated across the street and inter-connected to present structure. Completion is set for September of 1975.
Deans Don Greamer, Carl Nelson, Ruby Heard, President Don Rippey and Dean Robert Ware

hoist the model of the new El Centro downtown campus

and carry it through to offices, down the hall and to the elevator to the lobby

then into the cafeteria and deliver it to the students.
BOARD OF DIRECTORS
Dallas County Community College
Board of Directors: (standing)
Trustees Durwood Sutton, Loncy Leake, Mildred M. Montgomery,
Carle E. Welch and Jim Scoggins.
(seated) Vice-Chairman Mrs.
HELLO! If, by some odd set of circumstances, you should actually read this page, let me welcome you to El Centro College. If this isn’t your first enrollment, then welcome back!

Nobody reads a catalog; they aren’t even designed to be read any more than is a dictionary. We do hope, however, that it will be just as useful as a dictionary. Almost any question you have concerning our college can be answered by looking in the catalog.

General information such as how to enroll, how to graduate, how much it costs, etc., is found in the first section. Following this general information, the specific individual courses are listed and described. Remember — if all else fails, try the index!

All of the staff and faculty of El Centro are here to help you; if you succeed, we succeed.

Donald T. Rippey
President
Admission Requirements

General Admission Policy
Applications will be accepted any time prior to registration. Since registration priorities are assigned according to the date an application is received, applicants should plan to submit applications at least three weeks before registration. Applications received after this date will receive a lower priority. All applicants are limited in their selection of classes to those available when they register.

1. Beginning Freshmen: Students enrolling in college for the first time may apply if they are:
   a. A graduate from an accredited high school.
   b. A graduate from an unaccredited high school who is eighteen years of age.
   c. A non-high school graduate who is eighteen years of age and whose high school class has graduated.
   d. A high school student recommended by the high school principal. (See concurrent enrollment.)

2. Transfer Students: a. College transfer applicants will be considered for admission on the basis of
their previous college record. Academic standing for transfer applicants will be determined by the Office of Admissions based on the standards established by El Centro College. Students on scholastic or disciplinary suspension from another institution must petition the Committee on Admission and Retention for special approval. 3. Former Students: Former Dallas County Community College District students will be required to submit an application for readmission to any one of the District colleges. A student will not be readmitted to any college within the District if he or she has unsettled financial debts at any of the District colleges. 4. Non-credit Students: Students seeking enrollment for non-credit courses are directed to contact the Division of Community Service Programs. Exceptions to these requirements will be referred to the Committee on Admission and Retention. The following material must be submitted when all requirements of admission procedures are met; students are invited to an advisement session. This session may be conducted individually or as a group with a counselor; however, new students are expected to attend a Self-Assessment Lab for advisement. The Lab is designed to help students to make schedule choices for themselves upon assessment data available for each student and probabilities of success in courses.

Admission Procedures

The following material must be submitted to the Office of Admissions before a student's entrance file is considered complete: Dan application for admission an official transcript from the last school (high school or college) attended. Transcripts are required by El Centro's accrediting agency and are important for program advising in the counseling office. Students who are seeking a certificate or associate degree are required to submit transcript of all previous college work prior to the end of the first semester. Written proof from a medical office of — a negative tuberculin skin test or chest X-ray — a polio immunization if the applicant is under 19 years of age — a diphtheria/tetanus injection within the last ten years. This medical proof is required by state law (Senate Bill 27). 0

Advisement Procedures

Advisement procedures for foreign students are regulated by the President of the College and may require his permission for enrollment. Under present conditions, foreign students are not admitted until all admission requirements are complete. A personal interview with the foreign student advisor and special permission from the President of the College is required before admission can be finalized. In addition to the regular requirements, foreign students must demonstrate proficiency in English, provide evidence of financial ability, and meet with the foreign student advisor for general counseling concerning his potential for profiting from the educational programs of El Centro College. Admission procedures for foreign students are established by the President of the College and may require his permission for enrollment. Under present conditions, foreign students are not admitted until all admission requirements are complete.

Concurrent Enrollment

1. A limited number of high school seniors may be concurrently enrolled upon recommendation of the high school principal. 0 2. The colleges in the Dallas County Community College District have no geographical boundary restrictions for enrollment at any of the campuses. Admission requirements for all of the colleges are established by the DCCCD Board of Trustees and are the same for all District colleges. Students may enroll in more than one college at the same time.

Community Service

Short-term, non-credit Community Service courses are the district's answer to the community's challenge to provide educational opportunity for everyone. These courses reflect the interests and needs of the community and cover a wide variety of subjects, ranging from occupational training to personal entertainment and cultural enrichment. Instructors are leading professional men and women, college faculty members and experts in the course subject. There are no entrance requirements and class schedules are set for the convenience of the students.

Name, Address, and Social Security Number

1. Students are required to furnish the Office of the Registrar of any changes which occur in their name or address. 0 2. All applicants are required to furnish a social security number which is used as the student's identification number and to insure accuracy of student records.

Servicemen's Opportunity College

El Centro College, along with the other colleges of the DCCCD and in cooperation with other community colleges in the United States, participates in the Servicemen's Opportunity College. This program enables the serviceman to plan with the serviceman an educational experience regardless of his mobility pattern. For further information contact the Counseling Division.
Tuition and Fees

Tuition is charged on a sliding scale according to the number of credit hours in which a student is enrolled and his place of legal residence. Tuition for credit courses will be charged according to the following schedule:

*Nonresident student is hereby defined to be a student of less than eighteen (18) years of age living away from his family and whose family resides in another state, or whose family has not resided in Texas for a period of twelve (12) months immediately preceding the date of registration; or a student eighteen (18) years or over who resides out of the state or who has not been a resident of the state twelve (12) months immediately preceding the date of registration.

Tuition may vary from the above schedule for students enrolled in certain curricula or occupational programs:

- Fall or Spring Term:
  - A.D. Nursing and Licensed Vocational Nursing Programs: $4.00 per semester credit unit within the minimum and maximum amounts; minimum of $20.00 and maximum of $50.

- Summer Session:
  - A.D. Nursing and Licensed Vocational Nursing Programs: $10.00 per semester unit with a minimum of $25.00 and a maximum of $50.

Other programs such as Fire Protection Technology and certain technical occupational programs which fit the reciprocal agreement between the DCCCD and the TCCCD may have special tuition rates (see page 14).

Tuition is subject to change by the DCCCD Board of Trustees or the Texas legislature without notice.

Special Fees and Charges

- Laboratory Fees—(a semester, per lab): $2.00 to $8.00 per course
- Music Fees—(private lessons, a semester): $35.00 for 1 hour per week (maximum charge for one course): $20.00 for 1/2 hour per week
- Physical Education Activity Fee: $5.00 per course

Audit Fee

The charge for auditing a course is at the same rate as taking a course for credit regardless of the number of hours enrolled, except that a student services fee is not charged.

Credit by Examination

Examination fee of $15.00 per examination.

Refund Policy

The refund policy for El Centro College is based on the fact that student tuition and fees provide only a fraction of the cost of providing educational opportunities. When a student enrolls in a class, he reserves a place which cannot be made available to another student until he officially drops the class during the first week of the semester. Therefore, a refund will be made only under the following conditions:

1. No 100% refund is granted unless college error is involved.
2. An 80% refund of tuition and fees may be obtained through the fifth day of classes of a long semester. The first two class days of a six week summer session or a Fastrack semester are considered to be equivalent to five days of the long semester. (The Academic Calendar lists the last day to apply for a tuition refund in each term.)
3. Requests for a refund must be submitted before the end of a semester or summer session for which the refund is requested.
4. A refund of less than $4 for tuition and/or fees will not be made.

A student who feels that his refund request is due to an extenuating circumstance beyond the limits of the refund policy may submit a letter of explanation to the Refund Petitions Committee in the Office of the Dean of Student Services. Refund checks normally require a minimum of one month to process.

Additional Fees

Additional fees may be assessed as new programs are developed with special laboratory costs. These fees will always be kept to a basic practical minimum for the program involved. A graduation fee is not assessed students receiving a degree; however, each student will pay for cap and gown rental.
Degree Requirements

Associate in Arts and Sciences Degree

A total of 60 hours must be presented with an average grade of at least "C" (2.0). Courses numbered 99 and below may not be counted toward the 60 hours minimum. These 60 hours may be earned at any Dallas County Community College District college and must include: English 101-102, plus an additional 6 units of English. A minimum of 8 semester hours of a laboratory science (Ms: Majors are exempt from this requirement. Check listings under subject field) is required. History 101-102 and Government 201-202 (No substitutions allowed) is required. Twelve hours in Humanities: To be selected from Theatre 101, Art 104, Music 104 or Humanities 101 (3 hours)

In addition to the course requirements, each degree candidate must earn the last 15 hours as a resident student in the district colleges or as cruce 45 hours in residence. The degree will be granted by the college in which the student took the last 15 hours or where the majority of hours were accrued. No more than ¼ of the work required for any degree or certificate may be taken by correspondence. Course work submitted for graduation credit must be approved by the Director of Admissions. All students who expect to transfer to a four-year institution are urged to complete their four semester requirement in physical education during their freshman and sophomore years. A maximum of two physical education activity hours during their freshman and sophomore years. A maximum of two physical education activity hours may be counted as credit toward requirements for graduation.

Associate in Applied Arts and Sciences Degree

A minimum of 60 hours exclusive of those courses numbered 99 and below must be presented with an average grade of at least "C" (2.0). All of the prescribed requirements for the specific technical or occupational program for which the student is enrolled must be completed and for some programs, the semester hour total is over 60. A maximum of two physical education activity hours may be counted as credit toward requirements for graduation.

Associate Degree and Certificate Programs

Technical vocational programs are one-year and two-year courses of study designed to enable a student to enter his chosen occupational field as a skilled employee and his community as a culturally aware citizen. These programs are offered only after studies prove employment opportunities will exist at the time the student completes his program, matching the industrial community's requirements to the ambitions and goals of the student. This realistic approach to vocational education is made possible by the excellent cooperation of local industry, business and institutions who more and more are looking to the district's colleges for skilled personnel. In addition to training in a specific occupational field, the student's program includes courses in the humanities, English, history and other academic subjects to enable the student to better understand and participate in his community. Technical vocational courses are college credit courses and some are transferable in the event a student wishes to continue his studies at a four-year institution. The following Associate Degree and Certificate Programs are offered at Dallas County Community Colleges: El Centro—EC Mountain View—MV Eastfield—E Richland—R

- Accounting Technician (2 yr.) EC
- Accounting Technician (1 yr.) EC MV R
- Air Conditioning and Refrigeration (Certificate) EC
- Air Conditioning and Refrigeration Technology EC
- Apparel Design EC
- Architectural Technology EC
- Auto Body EC
- Automotive Technology EC
- Aviation Administration MV
- Avionics Technology MV
- Child Development Associate E
- Child Development Assistant E
- Construction Management and Technology E
- Data Processing Operator EC
- Data Processing Programmer EC MV E
- Dental Assisting Technology EC
- Dental Assisting Certificate EC
- Diesel Mechanic EC
- Digital Electronics EC
- Drafting and Design Technology EC MV E
- Drafting and Design Technology (Co-op) EC
- Electro-Mechanical Technology EC
- Electronics Technology EC
- Fire Protection Technology EC
- Fluid Power Technology EC
- Food Service—Operations EC
- Food Service—Office Skills and Systems EC
- Dietetic Technician EC
- Graphic Arts EC
- Horticulture—Landscape EC
- Interior Design EC
- Machine Shop EC MV
- Medical Assisting Technology EC
- Medical Laboratory Technician EC
- Medical Transcriptionist EC
- Mid-Management EC MV R E
- Nursing—Associate Degree EC
- Nursing—Licensed Vocational Nursing—Associate Degree EC MV R E
- Office Skills and Systems EC
- Operating Room Technology EC
- Pattern Design (Draping and Draping) EC
- Police Science EC
- Quality Control Technology EC
- Radiologic Technology EC
- Recreational Leadership EC
- Respiratory Therapy—1 year certificate EC
- Respiratory Therapy Technology EC
- Secretarial Science (Certificate) EC MV R E
- Secretarial Science (2 year) EC MV R E
- Services for the Deaf (1 year) EC
- Services for the Deaf (2 year) EC
- Teacher Aide EC R E
- Television and Radio Electronics EC
- Transportation Technology EC
- Welding, Industrial EC

Dallas County residents may enroll in the below-listed programs at the appropriate Tarrant County Junior College at the Tarrant County Resident's tution rate. This reciprocal arrangement does not apply to programs of instruction which are filled to capacity with Tarrant County students.

Programs

- Aviation Technology (aerial mechanic) South Campus
- Appliance Service South Campus
- Broadcast Communications Technology South Campus
- Civil Technology Northeast Campus
- Dental Hygiene Northeast Campus
- Fashion Merchandising Northeast Campus
- Food Marketing Northeast Campus
- General Clerical (one year) Northeast Campus
Procedure for Filing Degree and Certificate Plans

1. The student should request a degree plan from the Admissions Office upon completion of 30 semester hours. Transcripts of all previous college work must be on file at the time of the request for a degree plan. 2. A student following a 1-year certificate program should request an official plan during his first semester. 3. Application for the granting of the degree or certificate should be filed in the Registrar's Office prior to the college catalog calendar deadline. 4. A candidate for graduation in May is requested to attend the commencement program unless granted prior permission by the Dean of Students to graduate in absentia. 5. January and August graduates may attend the next commencement if they desire, but are not required to do so. Should the graduating student wish to attend, the Registrar's Office should be notified of his intention. 6. For information concerning graduation fee, see page 13 under “Additional Fees.” Instruction concerning graduation will be mailed to all candidates 30 days prior to commencement.

Certificate programs should request an official plan during his first semester.

Rules & Regulations

Regulations Policy

The regulations in this catalog are based upon present conditions and are subject to change without notice. The college reserves the right to modify any statement in accordance with unforeseen conditions. If in the event the application of these rules, regulations and procedures in this catalog causes a hardship on an individual, the case may be reviewed by a committee for action. The procedure is initiated in the counseling center.

Class Attendance

Students are expected to attend regularly all classes in which they are enrolled. Class attendance is the responsibility of the student. It is also the responsibility of the student to consult with his instructors when an absence must be excused. Instructors are given the prerogative of determining the excusability of student absences.

Instructors are required to report students to the Dean of Students for excessive absences. Generally, first excessive absence reports are made when absences have reached 1 consecutive hours or an accumulation of 6 hours. At this point, students are warned that failure to attend class may result in suspension from that class. Second excessive absence reports are filed with the Dean of Students when, in the opinion of the instructor a student's continued absences warrant his suspension from class. Students dropped for excessive absence will receive a grade of “W” in the class from which they are dropped.

Classroom Dishonesty

Dishonest work on tests, term papers, and examinations is a serious offense. Plagiarism (the act of using source material of other persons without following the accepted techniques of crediting) is never acceptable behavior in an academic community.

Dropping a Course or Withdrawal from College

A student must drop a class or withdraw from college in the following manner: 1. Obtain a drop or withdrawal form from his counselor and follow the procedure outlined by the counselor.

Change of Schedule

Request for change of schedule must be initiated through the student's counselor and will be determined on the basis of whether space is available in the class to which he wishes to change. The change action is not completed until it has been received and processed by the Registrar's Office with the instructor being notified of the change. No change action will be accepted by the registrar after the first week of classes.
### Auditing a Course

Any person 18 years of age or older may, with the consent of the instructor, enroll in the status of audit. This student may attend classes but not take the examinations or receive credit for the course unless he enrolls in the course again as a regular student. The same fee is charged for auditing as for credit. Procedures for auditing a course will be administered by the Registrar. No audits will be approved prior to the first day of the second week of classes in any semester. Most lab courses may not be audited. In the case of a student enrolled in collegiate level courses, the combined number of semester units in credit courses and audit shall not exceed eighteen.

### Recommended Academic Load

No student will be permitted to carry more than 18 semester units of course work or more than 5 classes plus physical education without permission of the Director of Counseling. Employed students are advised to limit their academic loads in accordance with the following recommendation. If a student carries a full college load (12 semester units or more), he should not work more than 20 hours per week. If he must work more hours, his credit unit load in college should be reduced proportionately. The recommended load limit for day or evening students who are employed full-time is 6 semester units of course work. The recommended load limit in a 6-week summer session is 6 semester units of credit. A total of 14 semester units of credit is the maximum that may be earned in any 12-week summer period.

### Scholastic Probation and Scholastic Suspension

The policies on scholastic probation and scholastic suspension apply to full-time students (12 semester units or more) and to part-time students when they have attempted a total of 12 semester units. These policies are based on a 4.0 grade point scale (see page 16 "Scholastic Standards"). The following criteria will be used to determine academic standing: 1. Students who have completed one or more semesters in a college will be placed on probation if they fail to maintain a 2.0 cumulative grade point average. 2. Students who have been placed on scholastic probation may be removed from probation when they earn a 2.0 cumulative grade point average.

### Transfer of Credits

Transfer credit will be given for all passing work completed at accredited colleges and universities. The Admissions Office will be responsible for the evaluation of all transfer credit.

### Waiving of Scholastic Deficiency

Any student pursuing an academic transfer program who wishes to transfer to a technical-occupational program may have his earned credits evaluated for the possibility of disregarding any grades of "I" or "W" as long as the student follows the technical-occupational program. The logic of this procedure is that many students do poorly while pursuing a course of studies for which they are not suited but make rapid improvement when faced with tasks more suited to their interests and aptitudes. This procedure is contingent upon the student remaining in a technical-occupational program. A change to an academic transfer program places the student under the original conditions of the academic transfer program including the calculation of a cumulative grade point average of all college credits earned. This procedure will apply both to El Centro College students and to students transferring from other institutions. The student who wishes to avail himself of this opportunity should state his intentions in writing to the Director of Admissions prior to pre-registration and should assume the responsibility of informing his counselor during the pre-registration advisement session.

### Credit by Examination

Credit by examination will be given in the following cases: a. The student who has completed at least 12 hours of credit and who earns a grade point average of 3.00-4.00 will be placed on the Dean's Honor list. Full time students who complete at least 12 hours of credit in military service-connected courses and who earn a grade point average of 3.50-4.00, will be placed on an Academic Recognition Roll. b. Any student who wishes to transfer to a technical-occupational program may take a section of the College level Examination Program or a teacher-made test. Only currently enrolled students may not be earned through credit by examination. Only currently enrolled students will have the semester hours earned through examination become part of their permanent record. c. Request for examinations should be made to a counselor who will provide the necessary petition forms and advise the student of the procedure. A student, whether part-time or full-time, will pay an examination fee of $15.00 per examination. This fee must be paid prior to taking the examination and is non-refundable.

### Library Obligations

Willful damage to library materials (or property) or actions disturbing to the other users of the library may lead to revocation of library privileges. Cases involving such damage will be referred for further action by the appropriate authorities.

### Library Obligations

Willful damage to library materials (or property) or actions disturbing to the other users of the library may lead to revocation of library privileges. Cases involving such damage will be referred for further action by the appropriate authorities. All books and other library materials must be returned before the end of each semester. No grades will be sent to students who have not returned all such materials or who have unpaid library fines. No transcripts of grades may be sent until the library record is cleared.

### Scholastic Standards: Grades and Grade Point Averages

<table>
<thead>
<tr>
<th>Grade</th>

</tbody>
</table>

Final grades are reported for each student for every course undertaken according to the following grading system:

### Honors

A full time student who has completed at least 12 hours of credit and who earns a grade point average of 3.00-3.49 will be listed on the college Honor Roll. Full time students who complete at least 12 hours of credit in military service-connected courses and who earn a grade point average of 3.50-4.00, will be placed on an Academic Recognition Roll. The Honor Roll, Dean's Honor List and Academic Recognition Roll will be published each semester.

### Credit by Examination

A person who believes he is qualified by experience or previous training may take a special examination to establish credit for a particular course. Depending upon the course, the examination may be a section of the College Level Examination Program or a teacher-made test.

### Settled of Debts

Any student pursuing an academic transfer program who wishes to transfer to a technical-occupational program will be reviewed by the Director of Admissions prior to pre-registration and should assume the responsibility of informing his counselor during the pre-registration advisement session.

### Dismissal

Students who have been suspended two regular semesters or students previously enrolled in college who are placed on scholastic probation will be placed on scholastic suspension. Students who have been suspended must file a petition for readmission. The conditions for readmission are established and administered by the Dean of Students.

### Incomplete Grades

Incomplete grades are given when an unforeseen emergency prevents a student from completing the work in a course. Division Chairmen must approve all "I" grades. Incomplete grades may not be earned through credit by examination.

Grade Points earned for each course are determined by multiplying the number of points for each grade by the number of credit units the course carries. Grade point values are computed by adding the total grade point values for all courses for which grade point values may be computed and dividing by the appropriate number of credit hours attempted during the study period. Incomplete grades are given when an unforeseen emergency prevents a student from completing the work in a course. Division Chairmen must approve all "I" grades. Incomplete grades may not be earned through credit by examination.

### Credit by Examination

A person who believes he is qualified by experience or previous training may take a special examination to establish credit for a particular course. Depending upon the course, the examination may be a section of the College Level Examination Program or a teacher-made test. Students will be allowed to earn as many credits through the credit-by-examination procedure as their needs require and ability permits. The last fifteen semester hours required for graduation in any degree or certificate program must be earned in residency and may not be earned through credit by examination. Credit by examination may be attempted only one time in any given course and a grade of "C" or better on the examination is required in order to earn credit. Only currently enrolled students will have the semester hours earned through examination become part of their permanent record.

### Request for Examinations

Request for examinations should be made to a counselor who will provide the necessary petition forms and advise the student of the procedure. A student, whether part-time or full-time, will pay an examination fee of $15.00 per examination. This fee must be paid prior to taking the examination and is non-refundable. Though great efforts have been made to interrelate our credit-by-examination program with transferring four-year institutions, final acceptance of credit by examination achieved for specific degree purposes is determined by that institution. For further information concerning graduation requirements, consult the Degree Requirement section in this catalog. Not all courses offered at El Centro are approved for credit by examination. A list of those credits which may be established through this method is available in the Counseling Center.
Student Services

Counseling and Guidance
Students and prospective students who have provided all necessary admissions information to the college will find a staff of professional counselors available to help them resolve questions of career choice, college transfer requirements, study skills, self-understanding, and other kinds of personal problems. Group and individual techniques are employed by the counselors to meet student needs. A partial review of additional materials and services available through the counseling center is listed for student information:

1. Psychological tests of personality, vocational interests and aptitudes
2. Technical and occupational information
3. Catalogs from a wide selection of colleges and universities
4. Registration information
5. Information about the general services offered in other divisions of the college
6. Tutoring services
7. Referral for students requiring therapy for psychological problems
8. Educational planning of courses to meet specific degree requirements

A staff of full-time counselors is available to the students of El Centro College. Faculty members also serve as program advisors to aid students in defining their educational goals.

Veterans Affairs
Services of the Veterans Affairs Office include counseling the veteran student concerning benefits, employment, housing, financial problems, and other practical areas of concern. When tutoring or remedial studies are indicated, arrangements can be made through the office to obtain extra financial assistance.

Division of Human Development
The instructional activities in the Human Development courses provide chances for students to explore the relationship between meaningful education and some of the dilemmas or questions commonly brought to college. “Why learn” and “how to learn” is put in a perspective of “who is to learn.” These courses are taught by counselors and student advisors and by instructors in Guided Studies.

Advisement
For students who have been admitted to the college, educational planning and advisement is provided.

Urban Progress with Education—A Mobile Counseling Project
The Mobile Counseling Service is sponsored by the Dallas County Community College District and the Talent Search and Special Services Branch of the U.S. Office of Education. The project is designed to offer extensive counseling services to persons from economically disadvantaged groups who may profit from further secondary or post-secondary education through the use of a Mobile Counseling Center. The project
The Health Center, located on the second floor, is maintained on campus to provide health counseling and education as well as emergency and first aid care. The Health Center is open from 8:00 a.m. until 10:00 p.m. daily Monday through Thursday and from 8:00 a.m. until 5:00 p.m. on Friday. Confidentiality of all findings is maintained, and no information is ever released without written permission from the student. A major function of the Health Center is the referral of students to the appropriate outside source for the correction of defects. Each student is responsible for his own transportation to referred sources. If the illness/injury is of such nature to necessitate an ambulance, it will be provided at the student's personal expense. Health education material may be secured from the Health Center. A small library is maintained containing health-related materials.

Campus Employment
Part-Time Employment. Typically, part-time employment is designed as a financial aid to assist students while they are in college through:
1. On-campus placement
2. Work-study programs
Efforts are made by the Office of Financial Aid and Placement for students to gain employment in clerical work, library work, laboratories, custodial work, selling, etc.

Federal and State Programs
Veteran's Benefits. The Veteran's Benefits Program for eligible students is coordinated by the Office of Admissions and Records located on the second floor and by the Veterans Affairs Office located in the Student Center. Veterans who are interested should contact the nearest BIA Office. Social Security Administration. Benefits under this program are available to students who meet the criteria set up by the Social Security Administration. The Office of Admissions and Records acts as liaison between El Centro students and the Social Security Administration.

Financial Aid
The Financial Aid Program at El Centro College is designed to function as a multi-purpose financial assistance service for students. A major objective is to provide assistance to students who, without such aid, would be unable to attend college. Basic to this philosophy is the belief that the educational opportunities of able students should not be controlled by their financial resources.

Where to Apply. Requests for information should be directed to the Director of Financial Aid, El Centro College, Main and Lamar, Dallas, Texas 75202.

When to Apply. Students who anticipate the need for financial assistance for college should complete an application well in advance so a realistic determination of their need may be reached. Previous to a Fall semester, the deadline for completing application and interview is 4 weeks prior to the first day of registration. Previous to a Spring semester, the deadline is 6 weeks prior to the first day of registration.

Financial Aid

not available in the library. All students are encouraged to complete the health history form as fully as possible so that the Health Center can best serve their needs.

Loans
El Centro College has several loan funds for students needing long-term as well as short-term loans. Students interested in making application for loans should apply at the Financial Aid and Placement Office. The Nicholas-Hazlewood Act Loan. A resident student of the state of Texas who meets the necessary requirements of the state and college may be eligible. Repayment must begin nine months following graduation, and the amount earned by the student from a work-study job on campus. SEOG amounts vary from $250.00 to $800.00 depending on need, total number of applicants, and funds available. Students must apply each academic year to be reinstated.

Dye Foundation Loan. A short-term loan designed to assist students with tuition, fees, books, and educational supplies. Repayment is to be made within
in certain law enforcement and correctional agencies. LEEP funds provide aid for direct educational expenses, and are of two types, as follows:
1. Loan. Loans are available to full-time students only, but either in-service or pre-service law enforcement students may qualify. A LEEP loan to in-service students may be canceled at the rate of 25% each semester of full-time public law enforcement service. In the case of pre-service students, the same cancellation benefit is available if the student is employed in an acceptable law enforcement agency following graduation.
2. Grants. Potential grants are available only to students who are employed full-time by a public law enforcement agency. Students enrolled either part-time or full-time may be eligible. Grant amounts are not to exceed the amount of tuition, fees, and estimated cost of required books. LEEP awards may be limited by funds made available to the college. For further information and applications, contact the Office of Financial Aid.

Hazardous Act. Students who have been officially accepted and are in at least half-time attendance in the Associate Degree Nursing Program may apply to the Office of Financial Aid. LEEP Scholarship awards are on the basis of exceptional financial need and are limited by funds made available to the college.
Basic Educational Opportunity Grant. (BEOG). Students who entered college for the first time during or after the summer of 1973 and are enrolled full-time may be eligible for this "entitlement grant." Applicable in many federal offices, as well as in the Financial Aid Office, and are mailed directly by the student to a central processing place indicated in the instructions. The student receives a Family Contribution Analysis Report which he brings to the Financial Aid Office for interpretation and determination of grant amount according to an objective table provided to him by the federal government for that purpose.
Supplemental Educational Opportunity Grant. This grant is authorized under the Higher Educational Act of 1965 and is designed to help students with exceptional financial need. To be eligible a student must prove such financial need and make satisfactory progress toward the completion of his educational goal. The amount of an SEOG award to a student is matched by another source, usually an amount earned by the student from a work-study job on campus. SEOG amounts vary from $250.00 to $800.00, depending on need, total number of applicants, and funds available. Students must apply each academic year to be reinstated.

Loans
El Centro College has several loan funds for students needing long-term as well as short-term loans. Students interested in making application for loans should apply at the Financial Aid and Placement Office. The Nicholas-Hazlewood Act Loan. A resident student of the state of Texas who meets the necessary requirements of the state and college may be eligible. Repayment must begin nine months following graduation, and the amount earned by the student from a work-study job on campus. SEOG amounts vary from $250.00 to $800.00 depending on need, total number of applicants, and funds available. Students must apply each academic year to be reinstated.

Dye Foundation Loan. A short-term loan designed to assist students with tuition, fees, books, and educational supplies. Repayment is to be made within
Community Association

The Community Association includes all segments of El Centro College—students, faculty, classified, staff, and administrators. All have a vested interest in the school and are therefore entitled, and urged to, participate in the operation of the college and the activities sponsored by the Student Activities Division. The Community Association allows the total college population to share in the decision-making process and is composed of the following elements: Town Meeting, Community Council, Ad-Hoc Committees, and Permanent Organizations.

Student Organizations

Information about participating in any organization may be obtained through the Student Activities Office located on the mezzanine. Most recognized organizations at El Centro College fall within one of the following classifications:

1. Co-Curricular Organizations—These co-curricular organizations are integral to the educational goals and purposes of the college. Certain procedures affecting student life are designated as the responsibility of such organizations and monies from the Student Activities funds are set aside to be used by these organizations in pursuing their responsibilities. Among the agencies are the Community Council, the Center Activities Board, and the Lyceum Committee.

2. Social Organizations—Such organizations exist for the purpose of providing fellowship, developing social relationships, and promoting a sense of community among students who wish to be involved in group social activities.

3. Service Organizations—Service organizations have as their primary function the pursuit of activities which will contribute positively to the school and to the community.

4. Professional Organizations—Pre-professional and academic organizations are joined by students wishing to pursue interests which will contribute to the development of career fields.

5. Scholastic Honorary Organizations—Scholastic honorary organizations offer membership to students on the basis of academic excellence and performance.

6. Special Interest Organizations—Such organizations are organized by students who are intent upon developing or broadening an interest in some particular aspect of their lives as human beings or students.

Off-Campus Job Placement

The Financial Aid and Placement Office maintains a listing of current job openings for the benefit of current and former students of El Centro College. Part-time and full-time jobs are posted on the illuminated bulletin board in the main floor lobby. In addition, the Business Division maintains a job board on the fourth floor, while the Division of Math and Engineering posts related jobs on the sixth floor board. Many of the jobs are located in the downtown area, and are convenient for El Centro students; but some jobs require transportation.

Student Activities

The Student Activities Program at El Centro College is responsible for providing the campus with a balanced program of cultural, social, and educational activities. Its goal is to offer a wide variety of co-curricular experiences which will assist the student in developing a rich concept of his life's potential. A varied program of activities open to all members of the Community Association is implemented through the coordinated programs of a number of organizations, each of which offers opportunities for the student to explore his interests. Members of the Activities staff assist in administering these activities.

Security Division

The department of Campus Security is required by state law to "protect and police buildings and grounds of state institutions of higher learning." Since all of the general and criminal laws of the state are in full force and effect within the campus community, specially trained and educated personnel are commissioned to protect not only the physical property of the campus community but also to protect the person and the property of campus citizens. The security officers are responsible for enforcing rules, regulations, and Board policies of the college, including a Code of Conduct for students. The department seeks to operate a student-oriented program which encourages face-to-face contact between students and security officers to facilitate the open exchange of ideas and to develop a tolerance for individual points of view. The Campus Security Office is located in the Student Activities area. A security officer may be reached any time the campus is open for educational activities by calling the campus operator: "O."
Tune In

El Centro College is offering four courses via television. These courses are Government 201, Biology 290 (Man an Environment), English 101 and Psychology 105. Content of and credit for these courses is the same as for similar courses taken on campus. Television courses include viewing of two 30-minute television programs on KERA-Channel 13 each week, plus reading assignments and study guide assignments. Students come to the El Centro College campus for an orientation session at the beginning of the semester, for one or two seminars (discussion meetings) and for three or four tests during the semester. These visits to the campus are normally scheduled so that they may be attended either in the afternoon or at night. Television courses may be taken in conjunction with on-campus courses or by persons who are taking no on-campus instruction.
In the following list of courses, the credit value of each course in semester units is indicated. The number in parentheses after the title gives the unit value for that course. The second parenthesis indicates the number of hours devoted to lecture and laboratory, respectively.

To make it possible for a greater number of courses to be offered at El Centro College, many courses in specialized fields are offered on alternate years only. The student should take this into consideration when developing his long-range program. Because students are concerned about the transfer of credit to other colleges, the following numbering system is designed to clarify which courses at ECC are parallel to those courses offered by colleges granting the bachelor's degree: Courses numbered 100 and above are considered comparable to lower division courses in state colleges and universities. All such courses are applicable to the associate degrees. Courses numbered below 100 are essentially developmental in nature and generally do not transfer; however, some four-year colleges may accept these courses for elective credit. Consult specific catalogs regarding these possibilities. The prerequisites for any course may be waived by the instructor and the Dean of Instruction.

| This course presents major historical developments and personalities which have shaped the Mexican nation, with emphasis on culture and customs. Begin-
two-dimensional materials. Use of line, color, illusion of space or mass, texture, and shape in composition. Required of all art majors. Open to all interested students. ☐

Art 111 Design I 3 Cr.
A study of basic concepts of design with three-dimensional materials, using mass, space, movement and texture. Required of all art majors. Open to all interested students. Laboratory fee required. ☐

Art 114 Drawing I 3 Cr.
A beginning course investigating a variety of media, techniques and subjects, exploring perceptual and descriptive possibilities with consideration of drawing as a developmental process as well as an end in itself. Required of all art majors, open to others who are interested. ☐

Art 115 Drawing II 3 Cr.
A continuation of Drawing I, stressing the expressive and conceptual aspects of drawing including the human figure within a spatial environment. Required of all art majors, open to others who are interested. ☐

Art 201 Drawing III 3 Cr.
Prerequisite: ART 114, Expansion of Drawing I stressing the expressive and conceptual aspects of drawing including the human figure within a spatial environment. Required of all art majors, open to others who are interested. ☐

Art 202 Drawing IV 3 Cr.
Prerequisite: ART 201, advanced standing and/or permission of the Division Chairman. An analytic and expressive drawing of the human figure, stressing study of movement and volume. Laboratory fee required. ☐

Art 205 Painting I 3 Cr.
Prerequisite: ART 110, ART 111, ART 115 or permission of the instructor. A studio course stressing fundamental concepts of painting with acrylics and/or oils. Emphasis on painting from still life, models, and the imagination. ☐

Art 206 Painting II 3 Cr.
Prerequisite: ART 205. Continuation of Painting I with emphasis on individual expression. ☐

Art 208 Commercial Illustration 3 Cr.
Prerequisites: ART 110, ART 111, ART 115 or permission of the instructor. An exploration of various sculptural approaches in a variety of media and utilizing different techniques. Laboratory fee required. ☐

Art 209 Sculpture I 3 Cr.
Prerequisites: ART 208. A beginning course investigating a variety of materials, techniques and subjects, developing the student's ability to use them. Projects involving basic solution to problems of the illustrator are investigated while exploring the elements he uses. Projects involving basic solution to contemporary illustration are developed. ☐

Biology 101 General Biology 4 Cr.
Prerequisite to all higher level biology courses and must be taken in sequence. Recommended for science majors. The first semester of the two semester sequence surveying in-depth the principle concepts of biology. ☐

Astronomy 101 Descriptive Astronomy 3 Cr.
A descriptive course consisting of a survey of the fundamentals of astronomy. Emphasis on the solar system, including a study of the celestial sphere, the earth's motions, the moon, planets, asteroids, comets, meteors, and meteorites. ☐

Astronomy 102 General Astronomy 3 Cr.
A course emphasizing stellar astronomy which includes a study of the sun, the properties of stars, star clusters, nebulae, interstellar gas and dust, the Milky Way galaxy, and external galaxies. ☐

Astronomy 104 Art Appreciation 3 Cr.
Films, lectures, slides, and discussions on theoretical, cultural, and historical aspects of the visual arts. Attempts to develop visual and aesthetic awareness, thus relating art to the student as an individual. ☐

Astronomy 105 Survey of Art History 3 Cr.
This course covers the chronological sequence of art from the pre-historic through the Renaissance. Explores the cultural, geophysical, and personal influences on art styles, offering the student a broader range of ideas which will enable him to relate the past to his own work and provide stimuli for his future works. ☐

Astronomy 201 Art 110 Design I 3 Cr.
A study of basic concepts of design, using
Biology, including a study of the cell, levels of organization, an introduction to metabolism, and evolutionary relationships. An introductory survey of the plant and animal kingdoms is included which emphasizes the classification and basic structure and function of the more important groups. Laboratory fee required.

**Biology 102**  
4 Cr.  
General Biology  
3 Lec., 3 Lab.  
Prerequisite: BIO 101. A continuation of BIO 101. Laboratory fee required.

**Biology 115**  
4 Cr.  
Biological Science  
3 Lec., 3 Lab.  
A presentation of selected topics in biological science for the non-science major including the cell concept, basic chemistry as it relates to biology, an introduction to genetics, cellular processes such as mitosis, meiosis, respiration, photosynthesis, and plant and animal reproduction. Laboratory fee required.

**Biology 116**  
4 Cr.  
Biological Science  
3 Lec., 3 Lab.  
No prerequisite. A study of selected topics of biological science for the non-science major including all systems of the human body, disease, drug abuse and aging, evolution, ecology and man in relation to his environment. Laboratory fee required.

**Biology 120**  
4 Cr.  
Introduction to Human Anatomy and Physiology  
3 Lec., 2 Lab.  
A two-semester course in anatomy and physiology, introducing the normal structure of the human body, its cells, organs, and systems, and the functioning of these units. This course serves as a foundation for present and future specialization for students of A. D. Nursing and Allied Health disciplines. Other students interested in the study of the functioning of the human body should consult a counselor.

No science background is presupposed. Through grounding in the basic chemistry of life processes, cell theory, genetics, embryology and anatomy and physiology will be provided. Coordination of body systems for integral functioning will be stressed. Laboratory fee required.

**Biology 121**  
4 Cr.  
Introduction to Human Anatomy and Physiology  
3 Lec., 2 Lab.  
Prerequisite: BIO 120 or permission of instructor. A continuation of BIO 120. Laboratory fee required.

**Biology 203**  
4 Cr.  
Intermediate Botany  
3 Lec., 3 Lab.  
Prerequisite: BIO 101 and 102 or equivalent preparation. A survey of the major plant groups with emphasis placed on morphology, physiology, classification, life cycles, evolutionary relationships, and economic importance to man. Recommended for science majors. Laboratory fee required.

**Biology 211**  
4 Cr.  
Invertebrate Zoology  
3 Lec., 3 Lab.  
Prerequisite: Eight hours of Biological Science. An intermediate level course surveying the major groups of animals below the level of the chordates. Consideration is given to the phylogeny, taxonomy, morphology, physiology, and biology of the groups involved. Relationships and importance to higher animals and man are stressed. Recommended for science majors. Laboratory fee required.

**Biology 216**  
4 Cr.  
General Microbiology  
3 Lec., 4 Lab.  
A study of microbes with emphasis on classification, growth, nutrition, metabolism, reproduction, and the genetics of microorganisms. Recommended for science majors and science-related programs. Laboratory fee required.

**Biology 217**  
4 Cr.  
Field Biology  
3 Lec., 4 Lab.  
Prerequisite: Eight hours of biological science. Survey of local plant and animal life in relationship to their environment. Aquatic and terrestrial communities will be studied with reference to basic ecological principles and techniques. Emphasis will be placed upon classification, identification, and collection of specimens in the field. Laboratory fee required.

**Biology 221**  
4 Cr.  
Anatomy and Physiology I  
3 Lec., 3 Lab.  
Prerequisite: BIO 102 or approval of instructor. Recommended for science majors. First course of a two course sequence. Structure and function as related to the human skeletal, muscular and circulatory system. Emphasis placed on the inter-relationships of these systems. Laboratory fee required.

**Biology 222**  
4 Cr.  
Anatomy and Physiology II  
3 Lec., 3 Lab.  
Prerequisite: BIO 221 or approval of instructor. Second course of a two-course sequence. Structure and function as related to the human digestive, nervous, respiratory, reproductive and endocrine systems. Emphasis placed on the inter-relationships of these systems. Laboratory fee required.

**Biology 290**  
3 Cr.  
Man and His Environment  
3 Lec.  
Selected topics affecting man and his environment will be treated through seminars, field studies, and special lectures. Recognized authorities and specialists from the many academic disciplines will be used as guest lecturers and resource persons. Man's responsibility to his environment, both biological and physical, will be the thesis of this course and its presentation will be interdisciplinary. This course is directed to all students interested in the environmental problems of today. (This course is offered on campus and via television.)

**Bookkeeping**  
See Business 131, 132
BUSINESS

Business 105  
Introduction to Business  
Provides over-all picture of business operation; includes analysis of specialized fields within business organization; identifies role of business in modern society. [3 Cr., 3 Lec.]

Business 128  
Data Entry Concepts  
4 Cr.  
Prerequisite: Satisfactory completion of BUS 130 or consent of instructor. Attention will be given to speed, development, verifying, program card coding and an introduction to data recording machines. Skills are developed through laboratory assignments using the keypunch machines. Class size is limited and individual instruction is stressed. Laboratory fee required. [2 Cr., 5 Lab.]

Business 129  
Advanced Keypunch  
1 Cr., 2 Lab.  
Prerequisite: One year typing in high school or satisfactory completion of BUS 173. A course designed to train students in the proper operation of keypunch machines. Keypunch procedures and the role of the keypunch operator in modern data processing are stressed. Laboratory fee required. [2 Cr., 2 Lab.]

Business 130  
Keypunch  
2 Cr.  
Prerequisite: BUS 131. Attention will be given to accruals, bad debts, taxes, depreciation, controlling accounts, and business vouchers. Bookkeeping for partnerships and corporations will be introduced. [3 Cr., 3 Lec.]

Business 131  
Bookkeeping  
3 Cr.  
Prerequisite: BUS 131. Bookkeeping as applied to practical business situations. Emphasis is given to the following: financial statements, trial balances, work sheets, special journals, adjusting and closing entries. A practice set covering the entire business cycle will be completed. [3 Cr., 3 Lec.]

Business 132  
Principles of Management  
3 Cr.  
3 Lec.  
Title: Principles of Management  
Prerequisite: BUS 131. A study of the process of management including the functions of planning, organizing, leading, and controlling. Particular emphasis on policy formulation, decision making processes, operating problems, communications theory, and motivation techniques. [3 Cr., 3 Lec.]

Business 133  
Personnel Finance  
3 Cr.  
3 Lec.  
A study of every-day financial problems encountered in managing personal affairs. Includes financial planning, insurance, budgeting, use of credit, home ownership, savings, investment, and tax problems. [3 Cr., 3 Lec.]

Business 150  
Management Training  
20 Lab.  
Prerequisite: Concurrent enrollment in approved Mid-Management Program. Supervised employment in the student's chosen field. Intended to provide practical experience for students preparing for careers in business management. BUS 150 will be offered the first semester. [4 Cr., 20 Lab.]

Business 151  
Management Training  
20 Lab.  
Prerequisite: Concurrent enrollment in approved Mid-Management Program. A continuation of BUS 150. BUS 151 will be offered the second semester. [4 Cr., 20 Lab.]

Business 154  
Management Seminar—Role of Supervision  
2 Cr.  
Prerequisite: Concurrent enrollment in BUS 150 and preliminary interview by Mid-Management faculty. Problem analysis and project development for students majoring in Mid-Management. Special emphasis is placed upon the development of management, goal setting and planning, leadership.
Business 160 3 Cr.
Machine Transcription 3 Lec.
Prerequisite: Credit in BUS 173 or one year of typing in high school. Intensive course in transcribing by recording machines using predicted business letters and other forms of business communication from a variety of professions, industries, and Government agencies. Training in use of major dictating transcribing machines with electric typewriters. Goal is development of employable skill. Familiarization with typewriter related equipment.

Business 161 2 Cr.
Office Machines 1 Lec., 2 Lab.
Office machines is designed to provide the student with a skill in the operation of such machines as adding machines, printing calculators, and electronic calculators. Emphasis is placed on using the touch system in both speed and accuracy for performing the basic functions, solving problems that require the use of special keys and controls, and solving application problems.

Business 162 3 Cr.
Secretarial Training 3 Lec.
Prerequisite: Credit in BUS 173 or one year of typing in high school. Special emphasis is given to the most frequently performed secretarial duties. Units of work include filing; skill in the use of duplicating machines, mail, telegraph, postal and shipping service, handling travel details and meeting arrangements. Duties of the receptionist and development of a desirable secretarial appearance and personality are studied.

Business 163 3 Cr.
Beginning Shorthand 2 Lec., 3 Lab.
Prerequisite: Credit in BUS 173 or one year of typing in high school. Introduction of fundamental principles of Gregg Shorthand. Includes development of ability to read, write, and transcribe shorthand outlines. Development of knowledge of mechanics of English.

Business 164 3 Cr.
Intermediate Shorthand 2 Lec., 3 Lab.
Prerequisite: Credit in BUS 163 or one year of shorthand in high school: credit in BUS 173 or one year of typing in high school. Application of principles of Gregg shorthand with development of ability to write and accurately transcribe shorthand notes at increased dictation speeds. Includes oral reading of shorthand outlines, speed building dictated and timed, transcribing of shorthand. Training to strengthen knowledge of English mechanics and reinforce typing skills.

Business 165 2 Cr.
Business Correspondence 3 Lec.
Prerequisite: Enrollment in the television and radio electronics program. This course consists of techniques and practices used for successful customer relations. Includes role playing and class demonstrations of various methods of writing and selling to the public.

Business 171 3 Cr.
Beginning Typing 1 Lec., 2 Lab.
Prerequisite: Credit in BUS 173 or one year of typing in high school. Further development of techniques. Emphasis will be placed on problem solving, increasing speed and accuracy in typing business forms, correspondence, and manuscripts.

Business 172 2 Cr.
Business Letters 2 Lec.
Prerequisite: BUS 201. Accounting procedures and practices applicable to partnerships and corporations;

the use of cost data, budgetary controls, analysis and interpretation of financial reports for use by creditors, investors, and management.

Business 203 3 Cr.
Intermediate Accounting 3 Lec.
Prerequisite: BUS 202. An intensive study of the concepts, principles, and practice of modern financial accounting. Included is a complete study of the purposes and procedures underlying the financial statements.

Business 204 3 Cr.
Advanced Shorthand 2 Lec., 3 Lab.
Prerequisite: BUS 220. Development of shorthand skills to meet the demands of office work.

Business 205 3 Cr.
Accounting 3 Lec.
Prerequisite: BUS 202. The theory and practice of accounting for a manufacturing concern. Detailed study of the measurement and control of material, labor and factory overhead for the job order and process cost system. Budgets, variance analysis, standard costs, joint and byproducts costing will be discussed.

Business 250 4 Cr.
Management Training 20 Lab.
Prerequisite: BUS 150-151; concurrent enrollment in BUS 254. Continuation of supervised employment in the student's chosen field. Intended to provide increased supervisory responsibility for students preparing for careers in business management. BUS 250 will be offered the first semester.

Business 251 4 Cr.
Management Training 20 Lab.
Prerequisite: BUS 150-151. Concurrent enrollment in BUS 255. A continuation of BUS 250. BUS 251 will be offered the second semester.

Business 254 2 Cr.
Management Seminar—Organizational Development 2 Lec.
Prerequisites: BUS 151, 155 and concurrent enrollment in BUS 250. A study of the organizational objectives and management of human resources including the various approaches to organizational theory as applied to the student's work experiences.

Business 255 2 Cr.
Management Seminar—Business Strategy, the Decision Process and Problem Solving (formerly BUS 253) 2 Lec.
Prerequisites: BUS 250, BUS 254 and concurrent enrollment in BUS 251. Business strategy and the decision making process applied to the first line supervisor and middle-management situations. Specific emphasis will be placed upon the application of the student's course knowledge and work experiences.

Business 262 3 Cr.
Advanced Shorthand 2 Lec., 3 Lab.
Prerequisite: Credit in BUS 164 or two years of shorthand in high school; credit in BUS 174 or two years of typing in high school. Further development of shorthand skills to meet the demands of office work.

Business 264 3 Cr.
Shorthand Transcription 2 Lec., 2 Lab.
Prerequisite: Credit in BUS 263; credit in BUS 271. Emphasis upon specialized transcription, mailing, and vocabulary building. Development of high-level skill in production work meeting office standards.

Business 276 2 Cr.
Advanced Typing 2 Lec., 2 Lab.
Prerequisite: Credit in BUS 174 or two years of typing in high school. Decision making and timed production of all types of business material are emphasized. A continuation of skill development and a review of typing techniques are also stressed. This course will demand accuracy at advanced speeds.
COMMUNICATIONS

Prerequisite: COM 131 or consent of instructor.

Enrichment of communication processes with emphasis on oral and written persuasion directly related to occupational training and work experience. Expository techniques of business letters and documented reports. Wide periodical reading.

Chemistry 101
General Chemistry 3 Lec., 3 Lab.
Prerequisite: DEV MTH 093 or equivalent.
Designed for science and science-related majors. The course includes the fundamental laws and theories dealing with the structure and interactions of matter and the use of these principles in understanding the properties of matter, chemical bonding, chemical reactions, the physical states of matter and changes of state. The fundamental principles are applied to the solution of quantitative problems relating to chemistry. Laboratory fee required.

Chemistry 102
General Chemistry 3 Lec., 3 Lab.
Prerequisite: CHM 101. Designed for science and science-related majors, this course is a continuation of CHM 101. The fundamental concepts introduced previously, together with additional ones, are applied to a variety of topics, including solutions and colloids, chemical kinetics and equilibrium, electrochemistry, and nuclear chemistry. Qualitative inorganic analysis is included in the laboratory work. Laboratory fee required.

Chemistry 115
General Chemistry 3 Lec., 3 Lab.
Prerequisite: DEV MTH 091 or equivalent.
Designed for non-science majors, the course traces the development of theoretical concepts and the evolution of these concepts in explaining various observations and laws relating to chemical bonding reactions, states of matter, solution, electrochemistry and nuclear chemistry. The descriptive chemistry of some common elements and inorganic compounds is included. Laboratory fee required.

Chemistry 116
General Chemistry 3 Lec., 3 Lab.
Prerequisite: CHM 115. Designed for non-science majors, this course covers organic chemistry and biochemistry. The important classes of organic compounds are surveyed with the concept of structure providing the central theme. The biochemistry section includes carbohydrates, proteins, lipids, chemistry of heredity, disease and therapy and plant biochemistry. Laboratory fee required.

Chemistry 170
Chemistry of Flammable Materials 3 Lec.
Enrollment is restricted to Fire Technology students. A survey of the chemical nature of matter with particular emphasis on volatile substances, pyrophoric materials, heat transfer reactions, spontaneous combustion, basic thermodynamics and related subjects. No laboratory fee.

Chemistry 201
Organic Chemistry I 3 Lec., 4 Lab.
Prerequisite: CHM 102. Designed for science and science related majors. An integrated introductory course in organic chemistry dealing with the fundamental types of organic compounds, their nomenclature, classification, reactions, and applications. The reactions of aliphatic and aromatic compounds are discussed in terms of modern electronic theory with emphasis on reaction mechanisms, stereochemistry, transition state theory, and technique of organic synthesis. Laboratory fee required.

Chemistry 202
Organic Chemistry II 3 Lec., 4 Lab.
Prerequisite: CHM 201. Designed for science and science related majors, this course is a continuation of CHM 201. Emphasis will be given to the further development of aliphatic and aromatic systems, polyfunctional compounds including amino acids, proteins, carbohydrates, sugars, heterocyclic and related compounds. Instrumental techniques will be used to identify compounds. Laboratory fee required.

Chemistry 234
Quantitative Analysis 2 Lec., 6 Lab.
Prerequisite: CHM 203. This course emphasizes the role of modern electronic instrumentation in analysis. Laboratory work includes infrared and ultraviolet spectroscopy, gas chromatography, potentiometric titration, and electrochemistry as analytical tools. Laboratory fee required.

COMPUTING SCIENCES

Computing Sciences 131
RPG Programming 2 Lec., 2 Lab.
Prerequisite: DP 133 or consent of the instructor.
An elective course to provide programming skills using the Report Program Generator. Emphasis will be on the language techniques and not on operation and functioning of the equipment. Program problems will emphasize card processing and will include Basic Listing, Multicard records and multi-file processing. Designed for programmers who need a familiarization with computers and the effect on their career. Fortran is especially intended for non-programmers who need a familiarization with computers and the effect on their career.

Computing Sciences 175
Introduction to Computer Science 3 Lec.
Provides a basic understanding of the computer and how it is used in a variety of applications. Covers the history of computer development. Vocabulary and broad concepts of design and function. Intended for non-programmers who need a familiarization with computers and the effect on their career.

Computing Sciences 176
Fortran Programming 2 Lec., 2 Lab.
Prerequisite: MTH 101 or DP 137. Designed to provide programming skills for those students who need to use the computer as a tool in solution of problems in their curriculum. Fortran is especially suitable for mathematical formulas and will provide valuable assistance for students in the math and science disciplines. Laboratory fee required.

Computing Sciences 230
Advanced Assembly Language Coding 3 Lec., 3 Lab.
Prerequisite: DP 231. Further development of programming skills using the Assembly Language instruction set of the System/360. Topics of study will include indexing, Indexed Sequential File Organization.
Table Search Methods, Data and Bit Manipulations

Techniques, Code Translation, advanced problem analysis, and debugging techniques. Floating point operations will be introduced. Laboratory fee required.

Computing Sciences 240 4 Cr.
Telecommunications I 3 Lec., 4 Lab.
Introduction to telecommunications concepts, including systems configuration of a teleprocessing network on a second generation computer, telecommunication facilities. DASD, on line control programs, terminal configuration, polling simulation. Laboratory fee required.

Computing Sciences 241 4 Cr.
Telecommunications II 3 Lec., 3 Lab.
Prerequisite: CS 240. Continuation of CS 240. Included concepts: basic telecommunications programming, terminal configurations, line conditions, synchronous transmission, asynchronous transmission and polling techniques at the central unit. Laboratory fee required.

DATA PROCESSING

Data Processing 133 4 Cr.
Beginning Programming 3 Lec., 4 Lab.
Prerequisite: Credit in, or concurrent enrollment in DP 137 or MTH 101. Conventional course to acquaint the student with the elements of programming computers using the COBOL language. Skills in program formulation, flow charting, coding, check out, and documentation are developed through laboratory assignments using the computer. Programs are designed to provide competency utilizing the language. Laboratory fee required.

Data Processing 136 4 Cr.
Intermediate Programming 3 Lec., 4 Lab.
Prerequisite: Credit in DP 133, 137 or MTH 101. Further development of skills and proficiency using COBOL including levels of total, group printing concepts, table build and sub programs, sequential and direct disk concepts, matching record and file maintenance concepts using disk. Advisory enrollment in DP 138. Laboratory fee required.

Data Processing 137 3 Cr.
Data Processing Mathematics 4 Lec.
The mathematics course is designed as an introductory course stressing ideas and understanding of principles of computer computation. Areas to be covered include the number system, punctuation system concepts, number bases, and the application of mathematics to technical and business problems and procedures.

Data Processing 138 3 Cr.
Data Processing Logic 3 Lec.
Prerequisite: DP 133. This course is designed to develop and explain the basic logic necessary for problem solving utilizing the computer. Areas covered include flowcharting standards, techniques for basic logic operations, solving levels of search and build techniques, types of report printing, conditional tests, multiple record types, sequential file maintenance, and introduction to system flowcharting.

Data Processing 139 3 Cr.
Technician 2 Lec., 4 Lab.
Prerequisite: Completion of, or concurrent enrollment in DP 137. Training in physical data handling techniques. Concepts that will include: integrity of data, organization of a data processing department, system data flow, and job data flow. Machines to be used: sorted, reproducer, interpreter, buffer, decalculator, and computer input/output devices. Laboratory fee required.

Data Processing 140 4 Cr.
Operations—Console 3 Lec., 3 Lab.
Prerequisite: DP 137 and DP 139. Computer operation from a console in a batch mode on a multi-programming third generation computer. Concepts to be included: third generation system concepts, librarian techniques, spelling techniques, use of peripheral equipment and its specific data organization, scheduling,
system starts, system communications, and JCL. Laboratory fee required.

Data Processing 231 4 Cr.
Advanced Programming 3 Lec., 4 Lab.
Prerequisite: DP 136. Provides additional language capabilities and third generation hardware concepts using the Assembly Language instruction set of the IBM 360. It will include an in-depth study of the Standard Input-Output Set and the Decimal Feature instructions. Data Structure, System Organization, Linkage Conventions and selected Macro-Instructions will also be presented. Laboratory fee required.

Data Processing 232 4 Cr.
Applied Systems 3 Lec., 4 Lab.
Prerequisite: DP 136, credit in, or concurrent enrollment in BUS 238. Introduces and develops skills required to analyze existing systems and to design new systems. Each student is required to complete a case study which involves all facets of system design from the original source of data to final report including flowcharts and documentation, fall semester offering only. Spring offered night only. Laboratory fee required.

Data Processing 233 4 Cr.
Operating Systems and Communications 3 Lec., 4 Lab.
Prerequisite: DP 231. The objective of this course is to acquaint the student with concepts of an operating system, and to provide him the technical knowledge required to work effectively in this environment. The development, functions of an operating system are analyzed, and training is given in the creation, operation, and maintenance of the system. Students will continue to develop programming techniques using the language of their choice in more sophisticated systems. Laboratory fee required.

Data Processing 236 4 Cr.
Advanced Cobol Techniques 3 Lec.
Prerequisite: Credit in DP 133, 136, or consent of the instructor. Advanced problem solving using the Cobol Programming Language. Special emphasis is given to Isam files using sequential and random processing techniques. Additional ANSI Cobol conventions will be covered including search, table lookup, sort, verb, report writer, as well as modular programming techniques.

DENTAL ASSISTING

Dental Assisting 130 4 Cr.
Dental Science 3 Lec., 3 Lab.
A study of professional practice as it has evolved to a profession. The growth and development of the dental association and the auxiliary association and the education of members.

Dental Assisting 131 4 Cr.
Dental Materials 3 Lec., 3 Lab.
A study of oral hygiene, the proper use of hand instruments for care and safety measures of all laboratory equipment. First aid for small to be seen by the naked eye. It

Dental Assisting 134 2 Cr.
Dental Prosthodontics 2 Lec., 2 Lab.
Prerequisite: "C" average in DAT 135, 137, 138. A study of the duties in dental laboratory procedures, care and safety measures of all laboratory equipment. Preparation for manufacture of die stone, investment and rubber base materials, sprueing injuries, patient histories, blood pressure, pulse, temperature, and respiration. A study of general and local anesthetics and the application of topical anesthetics. Preliminary inspection of the oral cavity and teeth and charting these findings. Learning the names of dental instruments, their purpose, when they are used and how they are cared for in dental operatory nursing. First aid as it applies to the dental office. Laboratory fee required.

Dental Assisting 138 2 Cr.
Dental Roentgenology 2 Lec., 1 Lab.
Prerequisite: "C" average in DAT 130, 131, 136. A study of the history, terminology, theory of the roentgen ray, care and safety measures of X-ray equipment, radiation hazards, and safety precautions of patient and operator. Use of open and closed cone techniques, types of dental film, exposing, processing and mounting X-rays. How to prevent faulty roentgenograms. Laboratory fee required.

Dental Assisting 230 3 Cr.
Dental Office Practice & Bookkeeping 3 Lec.
Prerequisite: "C" average in DAT 135, 137, 138. A study of detail of general office routine, dental health team responsibilities, receptionist and secretarial duties, bookkeeping, pegboard, insurance, bank plan, income tax forms, prepaid and postpaid dental plans, filing, clinical records, appointment control, inventory and supplies, office policies, laboratory prescriptions, and letter writing. Laboratory fee required.

Dental Assisting 231 2 Cr.
Advanced Dental Roentgenology 2 Lec., 1 Lab.
Prerequisite: "C" average in DAT 133, 135, 136. An in-depth study of physics as it applies to roentgenology, advanced techniques in intra-oral films, endodontic mouths, dental films and panoramic procedures. Laboratory fee required.

Dental Assisting 232 2 Cr.
Dental Radiography 2 Lec., 1 Lab.
Prerequisite: "C" average in DAT 133, 135, 136. A study of gross anatomy of the human teeth, terminology, the use of full dentition plaster casts, larger plaster teeth, drawing and wax block carvings so the student becomes familiar with each tooth, the relationship to each other, their function and place in the dental arch.

Dental Assisting 233 6 Cr.
Dental Internship 18 Lab.
Prerequisite: "C" average in DAT 133, 135, 137, 138. Students receive practical experience in dental clinics, dental school, and other health agencies in the community. Students rotate in clinics to give as much work experience as possible.

Dental Assisting 234 2 Cr.
Dental Orthography 2 Lec., 2 Lab.
Prerequisite: "C" average in DAT 230, 211, 232, 233. A study of all of the duties in dental laboratory procedures, care and safety measures of all laboratory equipment. Preparation for manufacture of die stone, investment and rubber base materials, sprueing injuries, patient histories, blood pressure, pulse, temperature, and respiration. A study of general and local anesthetics and the application of topical anesthetics. Preliminary inspection of the oral cavity and teeth and charting these findings. Learning the names of dental instruments, their purpose, when they are used and how they are cared for in dental operatory nursing. First aid as it applies to the dental office. Laboratory fee required.

Dental Assisting 235 2 Cr.
Dental Laboratory 2 Lec., 2 Lab.
Prerequisite: "C" average in DAT 133, 135, 136. A study of the history, terminology, theory of the roentgen ray, care and safety measures of X-ray equipment, radiation hazards, and safety precautions of patient and operator. Use of open and closed cone techniques, types of dental film, exposing, processing and mounting X-rays. How to prevent faulty roentgenograms. Laboratory fee required.
DEVELOPMENTAL STUDIES

DM 090 Developmental Mathematics 3 Cr. DM 090 is designed to develop an understanding of fundamental operations using whole numbers, fractions, decimals, and percents and to strengthen basic skills in mathematics. The course is planned primarily for students who need to review basic mathematical processes. It is the first step in the math sequence and includes an introduction to algebra. Programmed materials will be utilized so that students can progress at their own rate of speed.

DM 091 Developmental Mathematics 3 Lec. Prerequisite: DM 090 or equivalent. DM 091 is designed to develop an understanding of first year algebra. It includes special products and factoring, fractions, equations, graphs, functions, and an introduction to geometry. Programmed materials will be utilized so that students can progress at their own rate of speed.

DM 093 Intermediate Algebra 3 Cr. Prerequisite: One year of high school algebra or DM 091. Includes the terminology of sets, properties of real numbers, fundamental operations on polynomials and fractions, products, factoring, radicals, and rational exponents. Also covered are solutions of linear, fractional, quadratic, and systems of linear equations, coordinate systems, and graphing.

Developmental Reading 090 Techniques of Reading/Learning 3 Lec. DR 090 is designed to meet individual needs for proficiency in reading comprehension, vocabulary development, study skills, and reading for success in academic areas and career advancement. It emphasizes learning how to learn and includes reading/learning experiences developed to strengthen the total educational background of each student. DR 090 and DR 091 are offered in a laboratory setting employing varied instructional methods.

Developmental Reading 091 Techniques of Reading/Learning 3 Lec. DR 091 is designed to meet individual needs for proficiency in reading comprehension, vocabulary development, study skills, and reading for success in academic areas and career advancement. It emphasizes learning how to learn and includes reading/learning experiences developed to strengthen the total educational background of each student. DR 090 and DR 091 are offered in a laboratory setting employing varied instructional methods.

Developmental Writing 090 Writing 3 Lec. DW 090 emphasizes the diagnosis and correction of deficiencies in basic writing skills, spelling, grammar, vocabulary improvement, and principles of sentence and paragraph structure (as well as experience in organization for composition) are taught in a laboratory utilizing individualized instruction techniques.

Developmental Writing 091 Writing 3 Lec. DW 091 is a sequel to DW 090 and concentrates on the composition process; therefore, it is important to develop the student’s skills of organization, transition and revision. His program of composition will vary according to his individual needs, which may include brief, simple forms as well as more complex critical and research writing.

DRAFTING

Drafting 135 Reproduction of Process 3 Lec., 3 Lab. A study of equipment and processes used to reproduce technical art: graphic arts process camera, lithographic offset printing, diazo reproduction, blueprinting, photostating, microfilming, Xerox copying, silk screen printing, typography, xerography, engraving and others. A special section of the course is a study of the rapidly expanding field of computer graphics. Laboratory work includes the preparation of flats for the printing of a brochure. Laboratory fee required.

Drafting 136 Geographical Land Drafting 3 Cr. 2 Lec., 4 Lab. A study of the analysis and interpretation of maps, plans and profile sheets, cross sections, plotting surveyor's notes, traverses, plats and plans.

Drafting 182 Basic Drafting 2 Cr. 2 Lec., 6 Lab. A beginning course for students who have had little or no previous experience in drafting. The principle objectives are basic understanding of orthographic projection; skill in orthographic, axonometric, and oblique sketching and drawing; lettering fundamentals; applied geometry; fasteners; sectioning; tolerancing; auxiliaries; experience in using handbooks and other resource materials; and development of design skills. U.S.A.S.I., government, and industrial standards are
1. Semester you plan to attend:  
   - Fall 19__
   - Spring 19__
   - Summer 19__

2. Attendance will be.  
   - Full-time
   - Part-time
   - Day
   - Evening

3. Social Security Number __ __ __ __ __ __ __ __ (Do not submit this application without a Social Security Number. If you have never had a number assigned, contact your local Social Security Office.)

4. Print your full legal name. Do not use a nickname or an abbreviation.  
   - Mr.
   - Ms.
   - (Last) (First) (M.I.) (Maiden)

5. Print name, if different from above, that will appear on official transcripts from other institutions.  
   - (Last) (First) (M.I.)

6. Print Local Mailing Address:  
   - (No. and Street) (City) (State) (Zip Code) (Telephone)

7. Date of Birth:____________________  

8. Ethnic Background: (Mark One)  
   - Caucasian
   - Negro
   - Latin American
   - Oriental
   - American Indian

9. Have you taken the ACT (American College Test)?  
   - Yes
   - No
   - Where? __ __ __ __ __ __ __ __ When? __ __ __ __ __ __
   - Plan to take it __ __ __ __ __ __

10. Have you taken the SCAT Test?  
    - Yes
    - No

used. Emphasis is placed on both mechanical skills and graphic theory. □

Drafting 184 3 Cr.

Intermediate Drafting 2 Lec., 4 Lab.
Prerequisite: DFT 183. The instructional unit provides additional understanding of drafting problems, places emphasis on the design function and introduces several specialized drafting areas. This course includes the detailing and assembling of machine parts, gears and cams, jigs and fixtures, a study of metals and metal forming processes, drawing room standards and reproduction of drawings. The student is assigned to work that requires him to make complete and accurate detail and assembly drawings. Laboratory fee required. □

Drafting 230 3 Cr.

Structural Drafting 2 Lec., 4 Lab.
Prerequisite: DFT 183 and MTH 196. A study of stresses, the natural and elastic qualities of materials such as beams and columns, etc.; requires the student to develop structural plans, details and shop drawings of components of buildings to include steel, reinforced concrete, and timber structures. Emphasis will be placed on drafting of appropriate drawings for fabrication and erection of structural components. □

Drafting 231 3 Cr.

Electronic Drafting 2 Lec., 4 Lab.
Prerequisite: DFT 183. Develops skill in drawing and understanding of drawings used in the electronics industry. Topics include logic diagrams, schematic diagrams, interconnecting wiring diagrams, printed circuit boards, integrated circuits, component packaging, chassis design and current practices. □

Drafting 232 3 Cr.

Technical Illustration 2 Lec., 4 Lab.
Prerequisite: DFT 183. Instruction and experience in the rendering of three-dimensional drawings. Orthographic views and engineer's sketches are developed into isometric, dimetric, perspective, and diagrammatic drawings of equipment and their environments. Mechanical lettering, air brush re-touching of photographs, use of commercially prepared pressure sensitive materials and layout of electronics schematics are included in the course. Laboratory fee required. □

Drafting 234 4 Cr.

Advanced Technical Illustration 2 Lec., 6 Lab.
Prerequisite: DFT 232. An area of specialization is chosen and pursued in depth. Examples are pictorials for color separation printing, air brush renderings, letterforms for type and hand lettering, complex exploded views in isometric, perspective renderings, design of commercial displays, and art for slide presentations. Laboratory fee required. □

(See Drafting 183)

ECONOMICS

Economics 201 3 Cr.

Principles of Economics I 3 Lec.
The fundamental principles of macro-economics. Economic organization, national income determination, money and banking, monetary and fiscal policy, economic fluctuations and growth. Sophomore standing recommended. □

Economics 202 3 Cr.

Principles of Economics II 3 Lec.
Prerequisite: ECO 201 or consent of the instructor. The fundamental principles of microeconomics. Theory of demand, supply, and price of factors; income distribution; theory of the firm. Emphasis also on international economics and contemporary economic problems. □

ENGLISH

English 101 3 Cr.

Composition and Expository Writing 3 Lec.
Writing and reading activities designed to help the student write more clearly and effectively and read more enjoyably and efficiently. This course is offered on campus and via television. □

English 102 3 Cr.

Composition and Literature 3 Lec.
Prerequisite: ENG 101. Writing and reading activities in poetry, drama, the short story, and the novel designed to increase the student's understanding and enjoyment of good literature. □

English in the Sophomore Year (ENG 201, 202, 204, 205, 206, 210 and 215 and 216 are independent units of three credits each from which any combination of two will be selected to satisfy degree requirements in sophomore English. Student should consult catalog of the senior college he expects to attend for requirements in his major before choosing sophomore English courses.) □

English 201 3 Cr.

British Literature 3 Lec.
Prerequisite: ENG 102. A study of significant works of British literature from the Old English period through the eighteenth century. □

English 203 3 Cr.

British Literature 3 Lec.
Prerequisite: ENG 102. Study of important works from the Romantic period to the present. □

English 204 3 Cr.

World Literature 3 Lec.
Prerequisites: ENG 102. Reading and analysis of significant Continental European works from the Greek Classical Period through the Renaissance. □

Water Literature 3 Cr.

World Literature 3 Lec.
Prerequisite: ENG 102. Study of ten to twelve important post-renaissance works of continental Europe, England, and America. □

English 205 3 Cr.

American Literature 3 Lec.
Prerequisite: ENG 102. Study of the works of the important writers before Whitman in the context of their times. □

English 206 3 Cr.

American Literature 3 Lec.
Prerequisite: ENG 102. Reading and analysis of representative works from Whitman to the present. □

ENGLISH

Environmental Technology

Environmental Technology 101 3 Cr.

Environment and Man 3 Lec.
A one-semester course dealing with topics relating to man and his environmental role. Subjects will be treated through discussions, guest speakers, films, and field studies. Recognized authorities and specialists from many disciplines will be used as guest lecturers and resource persons. The thesis of the course will be man's responsibility to the environment and will be interdepartmental. The course is designed for all students interested in the environmental problems of today. □

Environmental Technology 102 3 Cr.

Environmental Geology 2 Lec., 2 Lab.
A survey of geologic materials and processes from an environmental viewpoint. Studies include man's adaptations and adjustments to the limits of the geologic environment. Environmental relationships are explored in laboratory and field studies. □

Environmental Technology 105 3 Cr.

Atmospheric and Water Environments 2 Lec., 2 Lab.
A survey of the atmosphere and hydrosphere from the environmental viewpoint. A description of normal conditions and studies of variations includes consideration of effects upon man and man's effects upon this portion of the total environment. Environmental relationships are explored in laboratory and field studies. Laboratory fee required. □

Seminar in Environmental Science 5 Cr.

Study: Eng 193 and 194. The course is designed to provide students with supervised field experience. Students will be placed in local industries, treatment plants, and laboratories in order to use current equipment and experience common procedures. □
Food Service Protection

Food Protection 131
Introduction to Fire Protection
3 Cr.
A course in the history and development of fire protection; the role of the fire department in the development of civilization; personnel in fire protection; introduction to general fire hazards; and a discussion of the problems and possible solutions for current and future fire protection.

Fire Protection 132
Fire Prevention Theory and Application
3 Cr.
Prerequisite: FPT 131. The development of fire prevention laws and ordinances for elimination of fire hazards; inspection organization, practices and procedures; theory and application of laws and ordinances in modern concepts of fire prevention.

Fire Protection 133
Fire Operations Strategy
3 Cr.
The aspects of tactics and strategy in extinguishing fires; pre-fire plans; organization of the fire ground, including techniques of using available equipment and manpower; a study of conflagrations and techniques of prediction of fire severity. Emphasis will be placed on the development of thinking skills in relation to crisis.

Fire Protection 135
Fire Protection Through Building Construction
3 Cr.
Prerequisite: Sophomore standing. Building codes and their necessity to fire protection; common concepts in building construction; elimination of the fire problems on the drawing board; relationship between building department and fire protection agencies; modern concepts of ordinances and laws for adequate regulation of building construction.

Fire Protection 232
Protection Systems in Industry
3 Cr.
Prerequisite: Sophomore standing. Attitudes prevalent in industry toward fire protection; development of fire and safety organizations in industry; relationship between private and public fire protection organizations; industrial obligations to communities in regard to fire and safety; current trends, deficiencies and possible solutions for fire protection problems facing industry today.

Food Service

Food Service 090
First Year Orientation
1 Cr. 1 Lec.
A study of the factors which influence the organization of a food service department in various types of group care institutions. Ethical responsibilities related to food service supervision are introduced. The functions of a good food service department are studied emphasizing the need for planning and administration of meals, food purchase, storage, preparation and distribution, sanitation, and safety.

Food Service 121
Food Service Equipment
2 Cr.
A lecture-demonstration course which deals with major food service equipment use, cleaning and minor maintenance procedures. Pre-preparation, preparation, refrigeration equipment are covered. Application of air conditioning, electricity, gas and plumbing fundamentals as they relate to food service facilities are covered.

Food Service 130
Basic Food Preparation
3 Cr.
A lecture laboratory course in fundamentals of quality food preparation and cookery with emphasis on the importance of the person to be served, and the provision of nutritionally adequate meals. Emphasis is on food preparation techniques, selection of equipment, and the effective utilization of time. Laboratory fee required.

Food Service 131
Advanced Food Preparation
2 Lec., 4 Lab.
Prerequisite: FS 130. Continuation of FS 130 with an introduction to large quantity procedures and basic food preparation management. Covered are basic cookery and procedure, safety and sanitation principles, selection of equipment involved in food preparation, with particular stress on high quality in relation to preparation techniques. Laboratory fee required.

Food Service 132
Food Purchasing, Handling and Storage
3 Lec.
A lecture course covering the study of quantity food purchasing policies and procedures, receiving and storage requirements, procedures and controls. The market availability of food supplies and the analysis of food quality and specification writing is covered.

Food Service 134
Food Service Sanitation and Safety
2 Lec.
A lecture demonstration course to acquaint the student with the basic principles of micro-biology and how to apply this knowledge to the need for personal cleanliness, efficient control, and investigation of illness caused by food contamination; sanitary practices in food preparation; proper dishwashing procedures; sanitation of kitchen, dining room, and all equipment; the use of cleaning materials and proper procedures in using them; garbage and refuse disposal. General safety precautions, including elementary first aid.

Food Service 135
Nutting and Menu Planning
3 Lec.
A lecture course in the study of food nutrients, their digestive and absorptive characteristics, and the relationship of food to development and maintenance of health. Study is made of the nutritional needs of all age groups with application to the planning of serving and interpreting menus to commercial and institutional food service operations, considering such factors as psychological needs and type of operation available equipment and personnel.

Food Service 136
Supervisory Techniques for Food Service
3 Cr.
A course designed to develop an understanding of basic principles in selecting, training, and supervising personnel in the total food service environment. It includes personnel policies, job descriptions, methods of teaching, preparation of schedules, and procedures for work improvement.

Food Service 138
Food Service Cost Control
3 Lec.
Prerequisite: FS 132 and MTH 130. A course covering the essential principles and procedures of effective food cost control which will enable the student to gain a firm understanding of these principles and then adapt them to any food service operation.

Food Service 140
Elementary Bakery Training
3 Cr.
This course covers the operation of the baker. Basic doughs, breads, pies, cookies, sweet and puff doughs are analyzed and produced in quantity. The proper handling of the pastry bag is stressed. Also covered are all types of fillings, butter creams, puddings, cakes, cake decorating and frostings. The use of proper flours to achieve desired product is stressed. Laboratory fee required.

Food Service 231
Food Service Financial Management
3 Lec.
A problem-solving course which deals with profit planning, cost analysis, break-even point analysis, budgets, income statements and balance sheets for commercial food service operations. Emphasis is also directed to cost management, ratio analysis and feasibility studies for food service operations.

Food Service 232
Quantity Food Preparation and Service
3 Cr.
Lecture-laboratory course offering field training study of quantity food procedures and techniques with emphasis on retention of nutritive value of foods. Kitchen organization and planning of quantity production, use of large and small institutional equipment, food cost control and the associated supervisory problems as related to institutional and commercial food service. Includes study and use of convenience foods. Laboratory fee required.

Food Service 233
Food Marketing
3 Lec.
A lecture course which introduces the student to the area of distribution of the finished product. It is geared to the consumer-oriented approach of the marketing concept. Emphasizes the sales and service techniques involved in the generation of markets and customers and in the development and distribution of customer satisfying foods and services.

Food Service 235
Advanced Quantity Food Preparation and Service
2 Lec., 8 Lab.
Prerequisite: FS 230. Continuation of FS 230 emphasizing the fundamental principles in planning and management of quantity food production and service under field training conditions. Practice in production of entire meal, including evaluation and controls. Study of quality food standards of various cost levels. Includes equipment planning and layout as well as maintenance of all types of food preparation equipment. Laboratory fee required.
Food Service 238 2 Cr.
Beverage Operations and Service 2 Lec.
A course dealing with beverage operations service as used in the commercial sector. Covered are the elements of basic bar operations, sales control, beverage service and profits. A detailed analysis of the organization of a beverage bar, wine cellar or catered beverage service. Upon completion of this course a student may qualify for the Certificate of Achievement from the Wine Advisory Board of California.

Food Service 237 2 Cr.
Organization and Management 3 Lec.
A study of the organizational structure of various types of group care institutions is made. Administration and tools of management, budget and cost analysis are emphasized.

Food Service 246 2 Cr.
Garde Manger Training 2 Lec., 4 Lab.
Prerequisite: FS 131. This course covers preparation of cold buffet and includes salads, sandwiches, ice carvings, lard sculptures, chaud froids hors'd'oeuvres, pates, cold fish, poultry, meats and game. The course also covers the accurate and proper set-up of the Garde Manger Station. Laboratory fee required.

Food Service 239 3 Cr.
Saucier Training 2 Lec., 4 Lab.
Prerequisite: FS 131. This course covers the preparation of basic soups, sauces, vegetables, garnitures, all meats, fish, poultry, and game. This course also covers the accurate and proper set-up of the saucier station. Laboratory fee required.

Food Service 245 6 Cr.
Food Service Work Experience I 2 Lec., 20 Lab.
Supervised employment in a food service operation or institutional food service facility. The weekly conference is designed to provide each student an opportunity to discuss in a group setting his or her learning experiences at an operational level.

Food Service 246 6 Cr.
Food Service Work Experience II 2 Lec., 20 Lab.
Supervised employment in a facility or health care setting other than one selected for food service 246. This will enable the student to gain experience in more than one type of food or nutrition service. In case of diverse operations moving from one department to another, will meet the intent of this course. The weekly conference will afford students the opportunity to discuss their experiences with invited industry representatives who are themselves involved in operating various types of food service facilities.

Food Service 242 3 Cr.
Nutrition Care I 3 Lec., 3 Lab.
Prerequisite: FS 135. A lecture-laboratory course in the application of nutrition knowledge in providing care for people. A study of how people eat and why they eat as they do, the racial and cultural aspects of food and nutrition, the socio-economic and psychological aspects of providing nutrition throughout the life cycle and techniques of interviewing and evaluating nutrition care. Laboratory fee required.

Food Service 243 4 Cr.
Nutrition Care II 3 Lec., 2 Lab.
Prerequisite: FS 242. A lecture-laboratory course with emphasis on the modification of nutrition care to accommodate individuals with cardiovascular disease, diabetes, weight control, multinutrients and other health problems requiring adjustments in food and nutrition intake. Laborator fee required.

Food Service 247 3 Cr.
Advanced Pastry Shop Training 2 Lec., 2 Lab.
Prerequisite: FS 140. This course covers the operation of the pastry shop. Covered is the analysis and production of French pastry, hot and cold desserts, pastillage, ice creams and ices, sugar fantasies, chocolate work, decorations with cream. Stressed are advanced techniques in continental pastries. Laboratory fee required.

French 101 3 Cr.
Beginning French 3 Lec., 2 Lab.
Essentials of grammar, easy idiomatic prose, stress on pronunciation, comprehension, and oral expression. Laboratory fee required.

French 102 4 Cr.
Beginning French 3 Lec., 2 Lab.
Prerequisite: FR 101 or equivalent. Continuation of FR 101 with emphasis on idiomatic language and complicated syntax. Laboratory fee required.

French 201 3 Cr.
Intermediate French 3 Lec.
Prerequisite: FR 102 or consent of the instructor. Reading, composition, grammar review and intensive oral practice.

French 202 3 Cr.
Intermediate French 3 Lec.
Prerequisite: FR 201 or equivalent. Continuation of FR 201 with reading selections drawn more directly from contemporary literary sources. Composition.

GEOGRAPHY

Geography 101 3 Cr.
Geography (Physical) 3 Lec.
A survey of the physical makeup of the earth: weather and climate, topography, plant and animal life, land and sea. Attention is directed toward the earth in space, use of maps and charts and place geography.

Geography 102 3 Cr.
World Geography (Economic) 3 Lec.
A study of the relation of man to his environment and his utilization of natural resources, dealing with problems of production, manufacture, and distribution of goods throughout the world. The aspects of primitive subsistence and degrees of commercialism are considered.

Geography 103 3 Cr.
World Geography (Cultural) 3 Lec.
Development of regional variations of culture, including the distribution of races, religions, languages, and aspects of material culture, with emphasis on origins and diffusion.

GEOLOGY

Geology 101 4 Cr.
General Geology (Physical) 4 Lec., 3 Lab.
Study of earth materials and processes for science and non-science majors. Includes examination of the earth's interior, magnetism, gravity, setting in space, minerals, rocks, structure and geologic processes. Laboratory fee required.

Geology 102 4 Cr.
General Geology (Historical) 4 Lec., 3 Lab.
Prerequisite: GEO 101. Study of earth materials and processes within a time perspective. For science and non-science majors. Utilizes fossils, geologic maps, and field studies to interpret geologic history. Laboratory fee required.

GERMAN

German 101 4 Cr.
Beginning German 3 Lec., 2 Lab.
Essentials of grammar, easy idiomatic prose, stress on pronunciation, comprehension, and oral expression. Laboratory fee required.

German 102 4 Cr.
Beginning German 3 Lec., 2 Lab.
Prerequisite: GER 101 or equivalent. Continuation of GER 101 with emphasis on idiomatic language and complicated syntax. Laboratory fee required.

German 201 3 Cr.
Intermediate German 3 Lec.
Prerequisite: GER 201 or equivalent of consent of the instructor. Reading, composition, grammar review and intensive oral practice.

German 202 3 Cr.
Intermediate German 3 Lec.
Prerequisite: GER 201 or equivalent. Continuation of GER 201 with reading selections drawn more directly from contemporary literary sources. Composition.
GOVERNMENT

Government 101 American Government 3 Cr. 3 Lec.
Prerequisite: Sophomore standing recommended. An introduction to the study of political science; origin and development of constitutional democracy (United States and Texas), federalism and inter-governmental relations; local government; parties, politics and political behavior. Satisfies requirements for Texas State Teacher's Certification. This course is offered on campus and via television.

Government 202 American Government 3 Cr. 3 Lec.
Prerequisite: CVT 101 and sophomore standing recommended. A study of the United States and Texas legislative process, the executive and bureau structure, the judicial process, civil rights and liberties, domestic policies. Other topics include foreign relations and national defense. Satisfies requirements for Texas State Teacher's Certification.

HISTORY

History 101 History of the United States 3 Cr. 3 Lec.
A general presentation of United States History, commencing with the European background and first discoveries. The pattern of exploration, settlement and development of institutions is followed throughout the colonial period and the early national experience to 1877.

History 102 History of the United States 3 Cr. 3 Lec.
Prerequisite: History 101 recommended. A survey of the unfolding of the United States History from the Reconstruction Era to the present day. The study includes social, economic and political aspects of American life and follows the development of the United States as a world power.

History 105 Western Civilization 3 Cr. 3 Lec.
A survey of the background for development of civilization in the West from ancient time through the Enlightenment, the Mediterranean World including Greece and Rome, the Middle Ages and the beginnings of modern history. Particular attention is paid to Renaissance, Reformation, the rise of the national state, the development of parliamentary government and the influence of European colonization.

History 106 Western Civilization 3 Cr. 3 Lec.
The unfolding of the pattern of modern western civilization from the Enlightenment to current times. A study of the Age of Revolution and the beginnings of industrialism; the nineteenth century and the social, economic, and political factors of recent world history.

History 110 The Heritage of Mexico 3 Cr. 3 Lec.
This course presents major historical developments and personalities which have shaped the Mexican nation, with emphasis on cultures and customs, beginning with the people who inhabited the country before the Spanish Conquest, the course leads to modern Mexico, emphasizing the historical relations between Mexico and the United States and the role of the Mexican-American in the contemporary United States. The student may register for either Anthropology 110 or History 110.

History 112 Latin American History 3 Cr. 3 Lec.
This course presents major historical developments and personalities which have influenced the course of Latin American history, with examination of Indian cultures, the conquistadors, Spanish administration, the wars of independence, relations with the United States and concludes with a brief survey of relevant contemporary problems.

History 204 American Minorities 2 Cr. 6 Lec.
Prerequisite: SOC 101 and/or six hours of U.S. History recommended. The principle minority groups in American society; their sociological significance and historic contributions. An emphasis will be placed on problems of intergroup relations, social movements and related social changes occurring on the contemporary American scene. The student may register for either History 204 or Sociology 204.

HOME ECONOMICS

Home Economics 101 Basic Design 3 Cr. 2 Lec., 4 Lab.
A study of the fundamental principles of art, design, and color as a basis for developing originality and an appreciation in the home and in clothing. Laboratory experiences enhance the development of creative abilities by the application of the fundamental principles. This course is for students interested in home economics.

Home Economics 102 Food Selection and Preparation 3 Cr. 2 Lec., 4 Lab.
A study of basic nutrition involving the function and value of various foods and the factors related to food selection and preparation such as cost, availability, and cooking methods. Laboratory experiences relate the application of the fundamental principles of food selection, preparation and services. Lab fee required.

Home Economics 110 Clothing and Home Design 3 Cr. 2 Lec., 4 Lab.
Prerequisite: AE 101 or ART 101. The study and advanced application of color and design to the costume and in the home. Designed for students interested in home economics.

HUMAN DEVELOPMENT

Human Development 105 Basic Processes of Interpersonal Relationships 3 Cr. 3 Lec.
A course in human development designed to explore interpersonal relations through a study of theory and concepts of small group processes and actual participation in the human experience. Students will be given an opportunity to participate in experiences planned to increase one's sensitivity to self and to others. A variety of activities are planned, partly by each class, designed to meet certain specific human needs of the students in the class. Open to freshmen and sophomores.

Human Development 106 Personal and Social Growth 3 Cr. 3 Lec.
A course which deals with human development from the standpoint of the interaction between a person and his society. Understanding of self, the influences of society contributing to the development of self, and the success of the individual within a society are investigated. Adjustment to family, school, and society is developed.

Human Development 107 Developing Leadership Behavior 3 Cr. 3 Lec.
Prerequisite: Consent of instructor. A course in human development designed to meet specific needs of students through participation in activities. The focus of this course will be on the development of group dynamics, leadership, and human relations skills. Students will be required to participate in the management experience of planning, execution, and evaluation of activities. The theoretical body of knowledge regarding leadership development and growth in group dynamics and management skills will be emphasized.

HUMANITIES

Humanities 101 Introduction to the Humanities 3 Cr. 1 Lec.
Through an examination of interrelated examples of man's creative achievements, the Humanities course attempts to enlarge awareness and increase understanding of the nature of man and the values of human life.
INTERIOR DESIGN

Interior Design 121 3 Cr.
Basic Color Theory for Interior Design 2 Lec., 4 Lab.
Prerequisite: Successful completion of or concurrent enrollment in INT 130. The study of color theory, color systems, and mixing techniques of transparent and opaque pigments. The practice of using values, tints and intensities. Basic color schemes and color psychology applied to INT 130 projects. ☐

Interior Design 122 3 Cr.
Color Theory and Illustration for Interior Design 2 Lec., 4 Lab.
Prerequisite: INT 121. Successful completion of or concurrent enrollment in INT 133. Interpretive rendering of materials and textures. Theory and technique to be applied to elevation and perspective projects from INT 133. Color scheme applied to total space concept. ☐

Interior Design 123 3 Cr.
Advanced Planning and Perspective 2 Lec., 4 Lab.
Prerequisite: INT 130. The student learns methods and principles of one and two point perspective. Orthographic, oblique and isometric projections are made of furniture studies. Advanced plans and elevations are incorporated into portfolio presentations. ☐

Interior Design 130 3 Cr.
Basic Planning 2 Lec., 4 Lab.
Prerequisite: Enrollment in Design Institute. Learning to use drafting instruments in drawing two-dimensional forms, floorplans, interior elevations, furniture layouts, and electrical plans. The reading of blueprints, use of architectural symbols, and printing are emphasized. ☐

Interior Design 220 3 Cr.
History of Interior Arts I 2 Lec., 3 Lab.
Prerequisite: INT 122. A study of the evolution of the interior arts and related architectural development from Egyptian through French. The student compiles a notebook of supplementary material. Lectures, slides, field trips, and reports provide research information. ☐

Interior Design 221 3 Cr.
History of Interior Arts II 2 Lec., 3 Lab.
Prerequisite: INT 220. Continuation of study of evolutions of interior arts. Learn English through Oriental with related architectural development. The student compiles a notebook of supplementary material. Lectures, field trips, slides and reports provide research information. ☐

Interior Design 222 3 Cr.
Interior Graphics and Illustration 2 Lec., 4 Lab.
Prerequisite: INT 122 and 123. Concurrent enrollment in INT 235. Traditional interior design problems are solved by the use of floor plans, elevations, furniture layout, electrical plan and a rendered two-point perspective. Emphasis is on preparation of different types of presentation boards. ☐

Interior Design 225 3 Cr.
Architectural Drawing I 2 Lec., 4 Lab.
Prerequisite: INT 130. Designing of a basic residential floor plan and delineation of all working drawings, plot plan, foundation plan, details, sections, and elevations. ☐

Interior Design 226 3 Cr.
Architectural Drawing II 2 Lec., 4 Lab.
Prerequisite: INT 130. Sketching three-dimensional objects from still life, human and architectural forms, with emphasis on freehand perspective. ☐

Interior Design 233 3 Cr.
Fabrications 2 Lec., 4 Lab.
Prerequisite: INT 122 and 123. The study of furniture upholstery, woods, finishes, frame constructions, materials, drapery making, wall coverings, plastics and metals. The course is geared for general understanding of technical methods rather than for learning craftsmanship. ☐

Interior Design 235 3 Cr.
Inner Space Composition and Presentation 2 Lec., 4 Lab.
Prerequisite: INT 122 and INT 123. The organization of all elementary principles of interior design for problem-solving assignments and formal presentation. Emphasis to be on preparation of material for presentation. Traditional residential projects. ☐

Interior Design 336 4 Cr.
Concepts of 20th Century Interior Design and Lighting 3 Lec., 3 Lab.
Prerequisite: INT 221 or consent of instructor and concurrent enrollment in INT 237. Concentration on 20th century and current developments in furniture design and various materials and arts and their application to interiors of all styles. Relative project assignments are made. A study of the various methods of effective lighting of the interior and exterior for both residential and commercial, and drafting of the electrical plan is included. Field trips to decorative showrooms and area houses and businesses establish. Student notebook required. ☐

Interior Design 237 4 Cr.
Advanced Principles of Interior Design 3 Lec., 3 Lab.
Prerequisite: INT 235 or consent of instructor and concurrent enrollment in INT 236. Organization of all aspects of interior and related exterior space by coordination of color and design involving all materials and principles in the form of professional problem-solving and formal presentation for contemporary design. Emphasis placed on contemporary residential interior projects. Field trips and student notebook. ☐

Interior Design 238 4 Cr.
Client Psychology Survey and Business Procedures 3 Lec., 3 Lab.
Prerequisite: INT 236 or consent of instructor and concurrent enrollment in INT 239. A study of designer and client relations. How to analyze and meet the client's needs by interview and survey. How to calculate the proper design and presentation to the individual client. Application of color psychology principles, guest speakers. In-the-field-on-the-job projects. How to use source catalogs and showrooms and local crafts and showrooms. How to estimate costs and make contracts. How to coordinate orders. Fabrications and installations. Studio organization and professional ethics. Field trips and student notebook. ☐

INTERIOR DESIGN 239 4 Cr.
Principles of Commercial Interior Design 3 Lec., 3 Lab.
Prerequisite: INT 237 or consent of instructor. Continuation of INT 237 with field trips to professional studios, showrooms and factories. Special emphasis placed on the study of commercial interiors. Both traditional and contemporary. Survey of the latest trends and materials with special project assignments making use of them. ☐

JOURNALISM

Journalism 101 3 Cr.
Introduction to Mass Communications 3 Lec.
A survey course designed to provide students with a panoramic view of mass media and an understanding of the role of mass media in modern society. Not restricted to journalism majors. ☐

Journalism 104 1 Cr.
Student Publications 3 Lab.
Introduction to the requirements on the student newspaper in one of the following journalism fields: writing, advertising, photography, cartooning, editing. Students are required to work at prescribed periods under supervision and must pass craft requirements. This course may not be taken for credit concurrently with JN 102 or 103. Credit limited to one unit per semester. May be repeated for a total of three units credit.

MATHMATICS

Mathematics 101 3 Cr.
College Algebra 2 Lec., 3 Lab.
Prerequisite: MTH 093 or two years of high school algebra and satisfactory score on proficiency examination. (Students registering for MTH 101 will be counseled individually by their instructors on the basis of background and placed in MTH 101 or MTH 102 as appropriate.) Introduction to set operations, real and complex numbers, and operations on them. A study of functions and relations most commonly needed, especially absolute value, polynomial functions, and rational functions, together with equations obtained from these functions which includes linear, quadratic, exponential, and logarithmic functions, and complex numbers. ☐

Mathematics 102 3 Cr.
Plane Trigonometry 3 Lec.
Prerequisite: MTH 101. Angular measure, functions of angles, derivation of formulas, identities, solutions of triangles, equations, inverse trigonometric functions, logarithms, and complex numbers. ☐

Mathematics 103 5 Cr.
Elementary Functions and Coordinate Geometry I 5 Lec.
Prerequisite: Two years of high school algebra or MTH 091. Study of the concept of function, polynomials of one variable, arithmetic and geometric sequences, combinations and the binomial theorem, rational functions, and polynomial functions of more than one variable, exponential functions, logarithmic functions, trigonometric functions, functions of two variables, and analytical geometry which includes conics, transformation of coordinates, polar coordinates, and parametric equations. ☐

Mathematics 106 5 Cr.
Elementary Functions and Coordinate Geometry II 5 Lec.
Prerequisite: Two years of high school algebra or Math 093. Study of equations and inequalities; functions to include: linear, exponential, logarithmic, trigonometric, functions of two variables, and analytical geometry which includes conics, transformation of coordinates, polar coordinates, and parametric equations. ☐

Mathematics 111 3 Cr.
Math for Business and Economics 3 Lec.
Prerequisite: MTH 093 or one year of high school algebra and one year of high school geometry or two years of high school algebra. A course designed for liberal arts students which includes the study of logic,
Mathematics 223
Calculus II
Prerequisite: MTH 222. The indefinite integral, definite integral, and applications, techniques of integration, improper integrals, and infinite series.

Mathematics 224
Advanced Calculus
Prerequisite: MTH 223. Multiple integrals, partial differentiation, vector analysis, series, and hyperbolic functions.

Mathematics 227
Mathematical Analysis I
Prerequisite: MTH 125 or equivalent. A continued study of techniques of differentiation and integration including logarithmic and exponential functions, parametric equations, polar coordinates, hyperbolic functions, and vectors.

Mathematics 228
Mathematical Analysis II
Prerequisite: MTH 227 or equivalent. A continued study of vectors, introduction to functions of several variables, multiple integrals, indefinite forms, and infinite series.

Mathematics 230
Differential Equations
Prerequisite: MTH 228. A course in ordinary differential equations concerned with first order equations, singular solutions, and miscellaneous methods of solution, including differential equations of first and higher order.

Mathematics 231
Technology 131
Prerequisite: MTH 195 or equivalent. Commercial, technical and more simple scientific uses of arithmetic, algebra, geometry and trigonometry. An effort will be made to tailor the course to fit the needs of the students enrolled in that section.

Mathematics 195
Technical Mathematics
Prerequisite: DM 091 or equivalent. A course designed for technical students covering a general review of arithmetic, a treatment of the basic concepts and the fundamental facts of plane and solid geometry, trigonometric functions, logarithms, vectors, and the solution of triangles.

Mathematics 202
Introductory Statistics
Prerequisite: Two years of high school algebra, or MTH 104 or MTH 111 or equivalent. Study of collection and tabulation of data, bar charts, graphs, sampling, average, correlation, index numbers, normal curve, probability, and applications to various fields.

Mathematics 221
Linear Algebra
Prerequisite: MTH 227 or equivalent. Study of matrices, linear equations, dot products, cross products, geometrical vectors, determinants, dimensional space, and linear transformation.

Mathematics 222
Calculus I
Prerequisite: MTH 121. Limits, continuity, differentiation of algebraic and transcendental functions, and applications, maxima and minima, antiderivatives and indefinite forms.

Medical Assisting
Technology 131
Seminar Applied Anatomy and Physiology
1 Cr.

Prerequisite: Concurrent enrollment in BIO 320-321. This course is designed to develop speed and accuracy in typing, skill in the use of transcribing equipment and the expansion of medical terminology. Practice transcribing medical reports and correspondence is emphasized.

Medical Assisting
Technology 230
Medical Transcription
3 Cr.

Prerequisite: "C" average in MA 131 and BUS 174. This course is designed to develop speed and accuracy in typing, skill in the use of transcribing equipment and the expansion of medical terminology. Practice transcribing medical reports and correspondence is emphasized.

Medical Assisting
Technology 231
Administrative Procedures
4 Cr.

Prerequisite: "C" average in MA 132, 135, and 230. This course is designed to develop speed and accuracy in typing, skill in the use of transcribing equipment and the expansion of medical terminology. Practice transcribing medical reports and correspondence is emphasized.

Medical Assisting
Technology 232
Directed Practice
4 Cr.

Prerequisite: "C" average in MA 231 and an overall "C" average in non-technical courses. This course is designed to develop speed and accuracy in typing, skill in the use of transcribing equipment and the expansion of medical terminology. Practice transcribing medical reports and correspondence is emphasized.

Medical Assisting
Technology 233
Seminar and Journal Club
3 Cr.

Prerequisite: Concurrent enrollment in MA 232. Problem solving and correlation of classroom theory and practice with work experience is an integral part of this course. Preparation and presentation of articles in current professional journals.

Medical Laboratory Technology
Lab
Technology 133
Hematology
4 Cr.

Prerequisite: Acceptance into the Medical Laboratory Technician program with an ACT composite score of 18 and concurrent enrollment in MLT 135. This course is designed to develop speed and accuracy in typing, skill in the use of transcribing equipment and the expansion of medical terminology. Practice transcribing medical reports and correspondence is emphasized.
Medical Lab Technology 135 3 Cr.
UrnalYSIS 2 Lec., 3 Lab.
Prerequisite: Acceptance into the Medical Laboratory Technician program with an ACT composite score of 18 and a math score of 18 and concurrent enrollment in MTL 133. This course serves to orient the student to the medical laboratory in addition to presenting the theory and laboratory procedures used in the analysis of urine.

Medical Lab Technology 138 4 Cr.
Immunology 3 Lec., 2 Lab.
Prerequisite: "C" average in MTL 133 and 135.
The basic theory and principles of immunology will be presented. Building upon this background, the laboratory procedures utilized in the serological and immuno-hematological examination of blood and serum shall be considered.

Medical Lab Technology 139 8 Cr.
Clinical Practice I 2 Lec., 33 Lab.
Prerequisite: "C" average in MTL 134 and an overall "C" average in non-technical coursework.
The student will be assigned to a hospital laboratory for supervised clinical practice in the areas of hematology, serology, blood banking and urinalysis.

Medical Lab Technology 220 4 Cr.
Medical Microbiology I 3 Lec., 2 Lab.
Prerequisite: Satisfactory completion of the first year of the Medical Laboratory Technician program. The fundamentals of microbial life shall be presented and building upon this background the methods and procedures used in diagnostic microbiology will be covered. These shall include the principle of aseptic technique, susceptibility testing of bacteria, quantification of bacteria in body fluids, and the isolation and identification of selected bacteria of medical importance. The normal body flora will be discussed and the association of the bacteria studied with disease in man shall be emphasized.

Medical Lab Technology 231 4 Cr.
Clinical Chemistry 3 Lec., 3 Lab.
Prerequisite: "C" average in medical lab technology 220 and successful completion of CHEM 202. A course devoted to the theory and procedures used in the clinical chemistry laboratory. Manual and automated methods will be presented in lectures and laboratory assignments.

Medical Lab Technology 236 4 Cr.
Medical Microbiology II 3 Lec., 4 Lab.
Prerequisite: "C" average in MTL 229. A continuation of MTL 229 which will include the study of the isolation and identification procedures for selected bacteria of medical importance, fungi, and parasites.

Medical Lab Technology 238 8 Cr.
Clinical Practice II 2 Lec., 33 Lab.
Prerequisite: "C" average in MTL 229 and 231 with an overall "C" average in non-technical course work. The student will be assigned to a clinical laboratory for supervised experience in diagnostic microbiology and clinical chemistry.

Music 101 3 Cr.
Freshman Theory 3 Lec., 3 Lab.
Development and cultivation of musicianship skills, especially in the areas of tonal and rhythmic perception and articulation. Introduction to the essential elements of music; introduction to sight-singing, keyboard, and notation.

Music 102 4 Cr.
Freshman Theory 3 Lec., 3 Lab.
Prerequisite: MUS 101 or consent of instructor. Introduction to part-writing and harmonization with triads and their inversions; classification of chords; seventh chords, sight-singing, dictation, and keyboard harmony.

Music 104 3 Cr.
Music Appreciation 3 Lec.
A concise survey of the basic elements of music and the music literature of Western civilization, particularly from the Baroque to the present. Relevant cultural influences upon the music of each era are observed.

Music 110 3 Cr.
Music Literature 3 Lec.
A course dealing with the characteristics of sound, the elements of music, performance media, and musical texture at sea in the music of recognized composers in the major periods of music history. Special emphasis is given to the music of late Gothic, Renaissance, and Baroque eras.

Music 111 3 Cr.
Music Literature 3 Lec.
Prerequisite: MUS 170. A continuation of the studies introduced in MUS 110. A study of the compositional procedures and forms employed by the creators of music. Attention is focused upon the music of the Classical, Romantic, and Modern periods.

Music 113 3 Cr.
Foundations in Music I 3 Lec.
Emphasis upon participation and the necessary skills for satisfactory performance in singing, playing an instrument, listening, creating rhythmic responses. Development of increasing ability to manage notation (music reading). Course designed specifically for the non-music major.

Music 114 3 Cr.
Foundations in Music II 3 Lec.
Prerequisite: MUS 113. A continuation of MUS 113.

Music 117 1 Cr.
Classical I 2 Lab.
Class instruction in the areas of basic musicianship and piano skills designed primarily for those with no knowledge in piano skills. Open to all students.

Music 118 1 Cr.
Classical II 2 Lab.
Includes techniques, skills, harmonization, transposition, improvisation, accompanying, sightreading, and performing various styles of repertoire. Open to all students.

Music 119 1 Cr.
Guitar Class I 1 Lab.
Class instruction covering the basics of guitar skill, designed primarily for those with limited knowledge in the reading of music or playing the guitar. Open to all students.

Music 121-140 1 Cr.
Applied Music-Minor 1 Lec.
Prerequisite: Consent of instructor. A continuation of freshman theory, including a study of larger forms, thematic development, chromatic chords including the Neapolitan sixth and augmented sixth chords, diatonic seventh chords with advanced voice leading, keyboard harmony and ear training.

Music 150 1 Cr.
Chamber Music 3 Lab.
Prerequisite: Consent of instructor. Open to all students of the college, the chorus studies and performs a wide variety of music with emphasis on the jazz oriented bigband styles of the 1960's.

Music 151 1 Cr.
Voice Class I 2 Lab.
A course teaching the principles of breathing, voice production, tone control, enunciation and phrasing. Two group lessons a week. Open to all non-voice majors.

Music 152 1 Cr.
Voice Class II 2 Lab.
A continuation of MUS 151 with emphasis on solo singing, appreciation and building of rhythm, stage development, and personality development. Open to all non-voice majors. Two group lessons a week.

Music 155 1 Cr.
Vocal Ensemble 3 Lab.
A select group for mixed voices concentrating upon excellence of performance. Membership is open only to members of the chorus through an audition with the director.

Music 160 1 Cr.
Band I 3 Lab.
Prerequisite: Non-wind instrument majors consent of instructor. The band studies and performs a wide variety of music in all areas of band literature. Required of all wind instrument majors.

Music 173 1 Cr.
Percussion Ensemble 3 Lab.
Select group of instrumentalists offering experience in one of the band studies and performing for small ensembles. Membership through audition with the appropriate director.

Music 175 1 Cr.
String Ensemble 3 Lab.
Select group of instrumentalists offering experience in one of the band studies and performing for small ensembles. Membership through audition with the appropriate director.

Music 177 1 Cr.
Chamber Ensemble 3 Lab.
Select groups of instrumentalists or vocalists offering experience in the reading and performing of literature for small ensembles. Membership through audition with the appropriate director.

Music 185 1 Cr.
Stage Band 3 Lab.
Prerequisite: Consent of instructor. The stage band studies and performs a wide variety of music with emphasis on the jazz oriented bigband styles of the 1960's.

Music 199 1 Cr.
Recital 2 Lab.
One period per week designed to allow students of private lessons an opportunity to perform before an audience. Required for all music majors and open to all other students. Credit for this course does not apply to the Associate degree.

Music 201 4 Cr.
Sophomore Theory 3 Lec., 3 Lab.
Prerequisite: MUS 101-102 or consent of instructor. A continuation of freshman theory, including a study of larger forms, thematic development, chromatic chords including the Neapolitan sixth and augmented sixth chords, diatonic seventh chords with advanced voice leading, keyboard harmony and ear training.

Music 203 4 Cr.
Sophomore Theory 3 Lec., 3 Lab.
Prerequisite: MUS 201 or equivalent or by consent of instructor. A continuation of theory 201, including a study of sonata-allegro form, ninth, eleventh and thirteenth chords, exploration of new key schemes, Impressionism, melodic, harmonic, tonality, and formal processes as they apply to twentieth century music with a comparable advance in sight-singing, keyboard harmony and ear training.

Music 211-214 2 Cr.
Applied Music Concentration 1 Lec.
Private instruction in the area of the student's concentration. Two half hour lessons a week. Open to students registered in music theory, ensembles, and other music major or minor courses. Fee required.

Music 251-270 3 Cr.
Applied Music-Major 1 Lec.
Private instruction in the area of the student's major or minor. Fee required.

Music 251-270 3 Cr.
Applied Music-Major 1 Lec.
Private instruction in the area of the student's major or minor. Fee required.
NURSING

Prerequisite: Admission to program. Concurrent enrollment in BIO 120 and PSY 105. The study and practice of basic nursing skills with emphasis on safety, comfort, body mechanics, nutrition, pharmacology, and historical and current trends. Laboratory fee required.

Nursing 120 6 Cr.
Nursing in Physical and Mental Health 3 Lec., 9 Lab.
Prerequisite: "C" grade in NUR 102 and concurrent enrollment in BIO 121 and PSY 201. A study of the family as it is influenced by pregnancy, delivery and postpartum, as well as the growth and development of the child.

Nursing 121 6 Cr.
Nursing in Physical and Mentally Ill 3 Lec., 9 Lab.
Prerequisite: "C" grade in NUR 132 and concurrent enrollment in BIO 121 and PSY 201. The study of the impact of illness both physical and mental and injury upon selected patients and their families and the role of the nurse in meeting the physical and emotional needs associated with selected disorders.

Nursing 220 9 Cr.
Nursing Care of the Physically and Mentally Ill III 4 Lec., 15 Lab.
Prerequisite: "C" grade in NUR 120 and NUR 121, BIO 120 and 121, PSY 105 and 201. A continuation of NUR 121 with increasing implementation of supportive and therapeutic nursing care to more complex patient needs including chronic mental and physical disorders and the teaching required of these patients and their families.

Nursing 221 4 Cr.
Nursing Care of the Physically and Mentally Ill III-III 3 Lec., 24 Lab.
Prerequisite: "C" grade in NUR 220. A continuation of organizing and providing total care for persons and their families with complex physical and mental health problems with emphasis on the refinement of skills as well as continued investigation of professional responsibilities and limitations. (Summer session, 1974, only)

Office Machines
(See Business 161)

PHOTOGRAPHY

Photography 110 3 Cr.
Introduction to Photography and Photo-Journalism 2 Lec., 4 Lab.
Introduction to photography and photo-journalism. The general mechanics of camera lenses and shutters, general characteristics of the photographic films, papers, and chemicals. Proper photographic darkroom procedures including enlarging, processing, contact printing, and exposing of photographic films and papers. Study of artificial lighting. Laboratory fee required.

Photography 111 3 Cr.
Advanced Photography and Photo-Journalism 3 Lec., 4 Lab.
Advanced photography and photojournalism. Utilization of everything taught in 110, with emphasis on refining techniques. Special emphasis on photographic communication.

P.E.

Physical Education 101 3 Cr.
Fundamentals of Health 3 Lec.
A study of personal and community health. Emphasis placed on causative factors of mental and physical health and the means of disease transmission and prevention. For majors, minors, and students with specific interest.

Physical Education 257 3 Cr.
Standard and Advanced First Aid 3 Lec.
Theory and practice in the standard and advanced courses of the American National Red Cross in First Aid safety.

PHILOSOPHY

Philosophy 102 3 Cr.
Introduction to Philosophy 3 Lec.
A survey course designed to acquaint the student with some of the fundamental problems in philosophy and with methods used to deal with them. Some principal views, both ancient and modern, are examined as possible solutions.

Philosophy 105 3 Cr.
Logic 3 Lec.
An analysis of the principles of logical thinking. An effort is made to apply logic's methods and tools to real life situations. Fallacies, definitions, analogies, syllogisms, Venn Diagrams, and other topics are discussed.

Philosophy 203 3 Lec.
Ethics 3 Lec.
Prerequisite: Three hours of philosophy or consent of instructor. A survey of the classical and modern theories of the moral nature of man, posing alternative views of his responsibilities to self and society. The course is designed to verify the ethical issues and their metaphysical and epistemological bases so as to assist the student toward sound application of ethical principles in his own life.

Philosophy 207 3 Cr.
History of Ancient Philosophy 3 Lec.
Open to sophomores only. This course is a historical examination of philosophy from Presocratic times to the Renaissance. Connections between the Presocratics, Plato, and Aristotle will be drawn. Stoicism, Epicureanism, and Scholasticism will be considered.

Philosophy 208 3 Cr.
History of Modern Philosophy 3 Lec.
Open to sophomores only. A continuation of PHI 207. Starting with the Renaissance, it examines western philosophical thought through the 19th century. Special emphasis will be given Continental Rationalism, British Empiricism, Kantian metaphysics and epistemology, and the Hegelian system as it is related to 20th century philosophies. Emphasis will be placed on the historical relationships existing between these schools of thought.

PHOTOGRAPHY

Photography 110 3 Cr.
Introduction to Photography and Photo-Journalism 2 Lec., 4 Lab.
Introduction to photography and photo-journalism. The general mechanics of camera lenses and shutters, general characteristics of the photographic films, papers, and chemicals. Proper photographic darkroom procedures including enlarging, processing, contact printing, and exposing of photographic films and papers. Study of artificial lighting. Laboratory fee required.

Photography 111 3 Cr.
Advanced Photography and Photo-Journalism 3 Lec., 4 Lab.
Advanced photography and photojournalism. Utilization of everything taught in 110, with emphasis on refining techniques. Special emphasis on photographic communication.
PHYSICAL SCIENCE

Physics 110  4 Cr.
Introduction to Physics
Prerequisite: Equivalent to 2 years of high school math, including algebra or equivalent.

Physics 111  3 Lec., 2 Lab.
Introduction to General Physics
Prerequisite: 2 years of high school algebra, including trigonometry or equivalent.
The first semester of a two-semester course designed for pre-dental, pre-nursing, and pre-pharmacy majors.

Physics 112  3 Lec., 2 Lab.
Introduction to General Physics
Prerequisite: Physics 110. A continuation of Physics 111.

Physics 131  3 Lec., 2 Lab.
Introduction to General Physics
Prerequisite: MTH 195 or concurrent enrollment in MTH 195.

Physics 201  3 Lec., 2 Lab.
General Physics
Prerequisite: Credit or concurrent registration in MTH 126. Principles and applications of mechanics, wave motion, and sound emphasizing fundamentals, problem solving, and units. Designed primarily for physics, chemistry, mathematics, pre-med and engineering majors.

Physics 202  4 Cr.
General Physics
Prerequisite: PHY 201 and credit or concurrent registration in MTH 127. Principles and applications of heat, electricity, magnetism and optics emphasizing fundamentals, concepts, problem solving, and units. Laboratory includes a one hour problem session.

Physics 203  4 Cr.
Introduction to Modern Physics
Prerequisite: PHY 202. Principles of relativity, atomic and nuclear physics with emphasis on fundamental concepts, problem solving, and units. Laboratory includes a one hour problem session.

POLICE SCIENCE

Police Science 134  3 Cr.
Criminal Evidence and Procedure
Prerequisite: CRIM 290.

Police Science 137  3 Cr.
Police Community Relations
Prerequisite: Completed Police Science 136 with a grade of "C" or better.

Police Science 140  3 Cr.
Introduction to Law Enforcement
Prerequisite: POL 140.

Police Science 141  3 Cr.
Police Organization and Administration
Prerequisite: POL 140.

Police Science 146  3 Cr.
Patrol Administration
Prerequisite: POL 140.

Police Science 241  3 Cr.
Police Role in Crime and Delinquency
Prerequisite: POL 140.

Police Science 243  3 Cr.
Juvenile Procedures
Prerequisite: POL 140.

Police Science 244  3 Cr.
Traffic Planning and Control
Prerequisite: POL 140.

Police Science 245  3 Cr.
Penology (Jail Operation and Management)
Prerequisite: POL 140.

Penology (Jail Operation and Management) 3 Cr.
Prerequisite: POL 140.

Traffic Law 3 Cr.
Prerequisite: POL 140.

Traffic Law 3 Cr.
Prerequisite: POL 140.

Probation and Parole 3 Cr.
Prerequisite: POL 140.

Probation and Parole 3 Cr.
Prerequisite: POL 140.

Probation and Parole 3 Cr.
Prerequisite: POL 140.

Juvenile Procedures 3 Cr.
Prerequisite: POL 140.

Traffic Planning and Control 3 Cr.
Prerequisite: POL 140.

Penology (Jail Operation and Management) 3 Cr.
Prerequisite: POL 140.

Traffic Law 3 Cr.
Prerequisite: POL 140.
Psychology 105 3 Cr.
Introduction to Psychology 3 Lec.
A study of basic problems and principles of human experience and behavior, heredity and environment, the nervous system, motivation, learning, emotions, thinking and intelligence. This course is offered on campus and via television. □

Psychology 131 3 Cr.
Human Relations 3 Lec.
A study involving the direct application of psychological principles to human relations problems in business and industry. Consideration is given to group dynamics and adjustment factors related to employment and advancement. The presentation will be tailored to fit the needs of the students enrolled in each section. □

Psychology 201 3 Cr.
Developmental Psychology 3 Lec.
Prerequisite: PSY 105. A study of human growth, development, and behavior, emphasizing the psychological changes which occur during the life pattern. The processes of life from prenatal beginnings to adulthood are treated in an integrated manner. Due attention is given to aging and its place in the developmental sequence. □

Psychology 205 3 Cr.
Psychology of Personality 3 Lec.
Prerequisite: PSY 105. A consideration of the important factors involved in successful human adjustment including child-parent relationships, adolescence, anxiety states, mechanisms of defense and psychoanalytic concepts. The course includes a survey of methods of personality measurement. □

Radiologic Technology

Radiologic Technology 120 1 Cr.
Applied Anatomy and Physiology 1 Lec.
Prerequisite: Admission to program and concurrent enrollment in BIO 120 or equivalency. Osteology of the upper and lower extremities, pectoral and pelvic girdles, thorax, and vertebral column. □

Radiologic Technology 121 1 Cr.
Applied Anatomy and Physiology 1 Lec.
Prerequisite: “C” average in RAD 120, 130, 131 and concurrent enrollment in BIO 121 or equivalency. Osteology of the skull, topographic anatomy of the body and location of organs in the body system. □

Radiologic Technology 130 3 Cr.
Radiologic Fundamentals 1 Lec., 5 Lab.
Prerequisite: Admission to program, High School biology or biology 115 and biology 116. A study of medical terminology, radiographic positioning, radiographic exposure and physics. □

Radiologic Technology 131 3 Cr.
Radiologic Orientation and Practicum I 12 Lab.
Prerequisite: Concurrent enrollment in RAD 120 and 121. The first seven weeks will consist of a course of office procedures, elementary radiation protection, history of x-ray, professional ethics, darkroom chemistry and film critique. For the remaining nine weeks, the students will be assigned to a Dallas area hospital for supervised practice in a radiology department in which an adequate variety and number of experiences are available. Students will work closely with experienced technologists, where they will observe and assist in handling patients as they undergo radiographic examinations. □

Radiologic Technology 132 3 Cr.
Radiologic Principles 1 Lec., 5 Lab.
Prerequisite: “C” average in RAD 120, 130 and 131. Continuing study of radiologic technology. The principle objectives in this course are a better understanding of principles of radiographic exposure, routine radiographic procedures and pediatric radiography, routine radiographic procedures pertinent to radiography, common radiographic procedures using contrast media and radiographic exposure and physics. □

Radiologic Technology 133 3 Cr.
Radiologic Practicum II and Film Critique 24 Lab.
Prerequisite: “C” average in RAD 120, 130 and 131. Students receive practical experience in a hospital radiology department. □

Radiologic Technology 134 1 Cr.
Radiologic Principles 1 Lec., 2 Lab.
Prerequisite: “C” average in BIO 121, 123 and 133. Continuing study of radiologic technology with emphasis on radiologic physics, surgical techniques and applications to radiologic and the use and maintenance of Portable x-ray equipment. Thirteen week course. □

Radiologic Technology 135 9 Cr.
Radiologic Practicum III and Film Critique 51 Lab.
Prerequisite: “C” average in RAD 121, 132, and 133. Students receive practical experience in a hospital radiology department for thirteen weeks. □

Radiologic Technology 230 4 Cr.
Advanced Radiologic Principles 2 Lec., 6 Lab.
Prerequisite: “C” average in RAD 134 and 135. Continuing study of radiologic technology. This course is a study of principles of radiographic physics, exposure II, radiographic positioning II, and intra-oral radiography, special procedures, journal club, and film critique. □

Radiologic Technology 231 6 Cr.
Radiologic Practicum IV and Film Critique 24 Lab.
Prerequisite: “C” average in RAD 134 and 135. Students receive practical experience in a hospital radiology department. □

Radiologic Technology 232 2 Cr.
Advanced Radiologic Techniques 1 Lec., 3 Lab.
Prerequisite: “C” average in RAD 230 and 231. This course is concerned with a study of medical and surgical diseases, radiation therapy, medical use of isotopes, radiation protection, equipment maintenance, journal club and film critique. □

Radiologic Technology 233 7 Cr.
Radiologic Practicum V and Film Critique 28 Lab.
Prerequisite: “C” average in RAD 230 and 231. Students receive practical experience in a hospital radiology department. □

Radiologic Technology 234 1 Cr.
General Review 1 Lec., 2 Lab.
Prerequisite: “C” average in RAD 230 and 231. This course is designed to review all subjects in radiology technology in order to fully prepare the student for the American Registry of Radiologic Technologists. Thirteen week course. □

Radiologic Technology 235 9 Cr.
Radiologic Practicum VI and Film Critique 37 Lab.
Prerequisite: “C” average in RAD 230 and 231. Students receive practical experience in a hospital radiology department for thirteen weeks. □

Reading

Reading 101 3 Cr.
Effective College Reading 3 Lec.
Reading 101 emphasizes comprehension techniques in reading fiction and non-fiction. Improved critical reading skills including analysis, critique and evaluation of written material are explored. Reading comprehension and flexibility of reading rate are stressed. In addition, advanced techniques in note-taking, underlining, concentration, and reading in specialized academic areas are developed. □

Religion

Religion 101 3 Cr.
Religion in American Culture 3 Lec.
A systematic examination of religion in American culture. Emphasis will be upon the interaction of religion with politics, economics, the military, education, the arts and other cultural phenomena. □

Religion 102 3 Cr.
Contemporary Religious Problems 3 Lec.
An analysis of the background and present expression of basic problems in religion, e.g., the problem of belief, the nature of religious literature, the existence of good, evil, human destiny and the relation of religion to society and the arts. Both Western and Eastern traditions will be considered. □

Religion 103 3 Cr.
Major World Religions 3 Lec.
Prerequisite: Sophomore standing or consent of instructor recommended. A survey of major world faiths, the course will concentrate on the basic texts of Eastern and Western religions and on the creative personalities of their founders. There will be some consideration of the problems of "objective" study of religions, of primitive religions, and of alternatives to major world religions such as astrology and atheism. □
RESPIRATORY THERAPY

Respiratory Therapy 120 1 Cr.
Anatomy and Physiology of the Cardio-system 1 Lec., 1 Lab.
Prerequisite: Admission to the respiratory therapy program. Credit for or enrollment in BIO 120.
Provides instruction, demonstration and discussion to develop the student's understanding of normal structure and function of the respiratory and circulatory system.

Respiratory Therapy 121 1 Cr.
Pathology of the Cardiovascular System 1 Lec., 1 Lab.
Prerequisite: Overall "C" average in RES 120, 130, and 131. Credit for BIO 120 and credit or concurrent enrollment in BIO 121. A continuation of RES 120 which contrasts the abnormalities of structure and function encountered in cardiopulmonary disease with normal structure and function.

Respiratory Therapy 130 3 Cr.
Introduction to Respiratory Therapy 3 Lec.
Prerequisite: Admission to the program. Concurrent enrollment in RES 120 and 131. Provides information and instruction necessary for understanding of personal, legal and ethical responsibilities of the respiratory therapist and for understanding the specific basic physical principles upon which equipment design and function and therapy are based.

Respiratory Therapy 131 1 Cr.
Clinical Laboratory 3 Lab.
Prerequisite: Admission to the program. Concurrent enrollment in RES 120 & 130. Provides an introduction to the hospital environment, instruction, observation in the hospital and practice in the laboratory of the patient care skills and basic respiratory therapy techniques. Laboratory fee required.

Respiratory Therapy 132 4 Cr.
Basic Technology 2 Lec., 4 Lab.
Prerequisite: Overall "C" average in RES 120, 130 and 131. Provides instruction in specific details of design and function of respiratory therapy equipment including maintenance procedures. Practice in adapting and applying equipment to patient care situations. Laboratory fee required.

Respiratory Therapy 133 3 Cr.
Clinical Practice II 12 Lab.
Prerequisite: Overall "C" average in RES 121 and 132. Cumulative grade point average of 2.0 or better. Provides practice in the administration of standard respiratory therapy procedures under supervision to hospitalized patients.

Respiratory Therapy 134 4 Cr.
Therapy Related to Disease 4 Lec.
Prerequisite: Overall "C" average in RES 121, 132, G.P.A. of 2.0 or better. Provides, through physicians and therapists' lectures, a graphic picture of the patient, the manifestations and evaluation of disease and the purpose of specific therapy.

Respiratory Therapy 230 4 Cr.
Technical Correlation 3 Lec., 3 Lab.
Prerequisite: Overall "C" average in RES 122, 132 and 134. Provides for a continuing study of respiratory therapy technology emphasizing advanced equipment and techniques used in critical care situations. Theory and application of volume ventilation, blood gases, pulmonary functions and medications. Laboratory fee required.

Respiratory Therapy 231 3 Cr.
Clinical Practice III 14 Lab.
Prerequisite: Overall "C" average in RES 133 and 134. Provides instruction and practice in respiratory care of patients in critical care and in the techniques of spirometry, arterial bloodgas analysis and other cardiopulmonary procedures.

Respiratory Therapy 232 3 Cr.
Seminar and Case Presentation 3 Lec.
Prerequisite: Overall "C" average in RES 230, 231 and 237. All degree requirements fulfilled or being fulfilled except RES 238. Provides physician directed in-depth study, presentation and discussion of case histories involving cardiopulmonary problems.

Survey and Critique of Current Literature 3 Lec.
Prerequisite: Overall "C" average in RES 230, 231, and 237. Provides opportunity for discussion of current articles related to respiratory therapy and cardiopulmonary medicine.

Respiratory Therapy 233 5 Cr.
Clinical Practice IV 20 Lab.
Prerequisite: Overall "C" average in RES 230, 231 and 237. Provides for participation in (1) preoperative evaluation, (2) observation of surgical teams and (3) postoperative management. Emphasis is on pediatric intensive care, management of acute and chronic pulmonary conditions and cardio-pulmonary rehabilitation.

Respiratory Therapy 237 1 Cr.
Post Clinical Analysis and Evaluation 1 Lec., 1 Lab.
Prerequisite: Overall "C" average in RES 233 and 134. With concurrent enrollment in RES 230 and 231. Provides direction and practice in the analysis of cases attended in RES 231 to determine the purpose of and response to therapy, and the verbal and written presentation of the analysis by the student.

Respiratory Therapy 238 5 Cr.
Departmental Management 3 Lec., 2 Lab.
Prerequisite: Overall "C" average in RES 232, 233, and 235. Cumulative grade point of 2.0 or better. Provides instruction, discussion and practice in problem solution related to respiratory therapy department operations. Opportunity for exchange of information with technical and educational directors will be provided in the hospital setting. Laboratory fee required.

Salesmanship (See BUS 230)

Secretarial Training (See BUS 163)

Shorthand (See BUS 163, 165, 263, 264)

SOCIAL SCIENCE

Social Science 131 American Civilization 3 Cr.
A course designed to provide the student with some historical perspective for understanding the economic, political, and social institutions of modern society. An analysis of courtship patterns, marriage and family forms, relationships and functions, and sociocultural differences in family behavior.

Sociology 101 3 Cr.
An Introduction to Sociology 3 Lec.
An inquiry into the nature of society and the foundations of group living, including institutions, with a broad presentation of the basis of social change, processes and problems.

Sociology 102 3 Cr.
Social Problems 3 Lec.
Prerequisite: SOC 101. A study of the background, emergence and scope of current group relationships in our society. Emphasis will be placed on problems of intergroup relations, social movements and related social changes occurring on the contemporary American scene. The student may register for either HIS 204 or SOC 204.

Sociology 205 3 Cr.
Introduction to Social Work 3 Lec.
Prerequisite: Consent of instructor required. Development of the philosophy and practice of social work in the United States; survey of the fields and techniques of social work; attention given to requirements for training in social work.

Sociology 210 3 Cr.
Field Study in American Minorities 3 Lec.
Prerequisite: SOC 101 or SOC 204. Assignments will be on a rotating basis to Indian, Black, and Mexican-American community centers to work under professional supervision in a task-oriented setting.
## SPANISH

**Spanish 101**  
Beginning Spanish  
3 Cr.  
Lec., 2 Lab.  
Essentials of grammar, easy idiomatic prose, stress on pronunciation, comprehension, and oral expression. Laboratory fee required.  

**Spanish 102**  
3 Cr.  
Lec., 2 Lab.  
Prerequisite: SPA 101 or equivalent. Continuation of SPA 101 with emphasis on idiomatic language and complicated syntax. Laboratory fee required.  

**Spanish 201**  
Intermediate Spanish  
3 Cr.  
Lec.  
Prerequisite: SPA 101 or equivalent or consent of the instructor. Reading, composition, grammar review, and intense oral practice.  

**Spanish 202**  
Intermedlate Spanish  
3 Cr.  
Lec.  
Prerequisite: SPA 201 or equivalent. Continuation of SPA 201 with reading selections drawn more directly from contemporary literary sources. Composition.  

## SPEECH

**Speech 105**  
Fundamentals of Public Speaking  

**Speech 109**  
Voice and Articulation  
A study of the mechanics of speech applied to improvement of the individual's voice and pronunciation.  

**Speech 201**  
Forensic Workshop  
A laboratory course for the preparation of speeches, readings, and debate propositions which will be presented in competition and before select audiences. May be repeated for one additional unit of credit.  

**Speech 255**  
Discussion and Debate  
A study of theories and application of techniques of public discussion and argumentation. Special emphasis on development of ability to evaluate, analyze, and think logically, through application to current problems.

</table>

**Prerequisite:** TRE 133. Presents the methods of troubleshooting, antenna systems, CATV, MATV, home installations of antennas, color and black and white televisions. Laboratory fee required.  

**Prerequisite:** TRE 134 or concurrent enrollment in TRE 134. The student is directed toward more complex problems and malfunctions of Television/Radio Servicing. Special attention is given to the use of techniques and equipment for the most economical solutions to difficult problems. Laboratory fee required.  

## TEACHER AIDES

**Teacher Aide Seminar I**  
2 Cr.  
Prerequisite: Open to all students. An introduction to basic skills associated with the preparation of graphic and projected materials and the operation of selected audiovisual equipment.  

**Teacher Aide Seminar II**  
2 Cr.  
This section of the seminar will provide the teacher aide trainee supervised laboratory experiences in classrooms under the direct supervision of a teacher. Basic principles of learning and motivation will be applied to the teaching.  

**Teacher Aide Practicum I**  
20 Lab.  
The practicum section will include supervised laboratory experiences in classrooms under the direct supervision of a teacher. Basic principles of learning and motivation will be applied to the teaching-learning situation.  

**Teacher Aide Practicum II**  
20 Lab.  
This section of the practicum will continue to provide the teacher aide trainee supervised laboratory experiences in classrooms under the direct supervision of a teacher. Basic principles of learning and motivation will be applied to the teaching-learning situation.
THEATRE

Theatre 101 1 Cr.
Introduction to the Theatre
A general survey designed to acquaint the student with the various aspects of the arts, plays and playwriting, directing and acting, the theatre, artists, and technicians.

Theatre 102 3 Cr.
Contemporary Theatre
A study of the modern theatre and cinema as art forms, with attention to the historical background and traditions of each. Emphasis is placed on a better understanding of the social, cultural, and aesthetic significance of these media in today's life. Includes the reading of a number of modern plays and viewing of specially selected films.

Theatre 103 3 Cr.
Stagecraft I
A study of the technical aspects of play production including set design and construction, stage lighting, makeup, costume, and related areas.

Theatre 104 3 Cr.
Stagecraft II
Prerequisite: THE 103 or consent of instructor. A continuation of THE 103 with emphasis on individual projects in set and lighting design and construction, including further exploration of the technical aspects of play production.

Theatre 107 3 Cr.
Acting I
Prerequisite: THE 103 or consent of instructor. A continuation of THE 106 with emphasis on problems of complex characterization, ensemble acting, stylized acting, and acting in period plays.

Theatre 108 3 Cr.
Movement for the Stage
A study of movement as both a pure form as well as its relation and integration with the Theatre Arts. The course will include movement as a technique to control balance, rhythm, strength, and flexibility. Movement will be explored as it is used in all the theatrical forms and in development of characterization.

Theatre 109 3 Cr.
Voice and Articulation
Same as SPE 109. The student may not receive credit for both THE 109 and SPE 109.

Theatre 110 3 Cr.
History of Theatre I
Survey of theatre from its beginning through the sixteenth century. Study of the theatre in each period as a part of the total culture of the period.

Theatre 111 3 Cr.
History of Theatre II
Development of the theatre from the seventeenth century through the twentieth century.

Theatre 115 2 Cr.
Mime
Prerequisite: Stage Movement, THE 106. Exploration of the expressive significance and techniques of mime.

Typing
(See Business 173, 174, 273.)

VOCATIONAL NURSING

Vocational Nursing 124 4 Cr.
Introduction to Nursing
Prerequisite: Admission to the program. Introduces the student to professional and vocational adjustments necessary for a career as a nurse; to the causes of disease and the importance of maintaining cleanliness; to the significance of mental health and the effects of mental illness; related studies in normal growth and development and genetics.

Vocational Nursing 125 7 Cr.
Fundamentals of Nursing
Prerequisite: Admission to the program. This is a course in body structure and function: the study of classification, calculation and administration of drugs with emphasis placed on their effects on the body, the study of nutrition and diet therapy; related studies of emergency and first aid care.

Vocational Nursing 126 7 Cr.
Basic Skills
Prerequisite: Admission to the program. The basic theory and practice necessary for beginning nurses are combined in a classroom-lab-hospital setting. After the first eight weeks the lab terminates and the student gains pre-clinical experience in selected hospitals in the Dallas area.

Vocational Nursing 127 10 Cr.
Clinical Practice
Prerequisite: VN 120, 125, 126. The application of theory in relation to supportive care including the physical, emotional and spiritual needs of the patient.

Vocational Nursing 128 5 Cr.
Medical and Surgical Nursing
Prerequisite: VN 120, 125, 126. A study involving specific medical and surgical conditions of the body systems, emphasis on the causes of disease and the importance of maintaining cleanliness; related studies of emergency and first aid care. A study of body structure and function: the study of classification, calculation and administration of drugs with emphasis placed on their effects on the body, the study of nutrition and diet therapy; related studies of emergency and first aid care.

Vocational Nursing 148 5 Cr.
Maternal and Child Nursing
Prerequisite: VN 120, 125, 148, and 127. A study involving specific medical and surgical conditions of the body systems, emphasis on the causes of disease and the importance of maintaining cleanliness; related studies of emergency and first aid care. A study of body structure and function: the study of classification, calculation and administration of drugs with emphasis placed on their effects on the body, the study of nutrition and diet therapy; related studies of emergency and first aid care.

Vocational Nursing 149 8 Cr.
Clinical Practice
Prerequisite: VN 120, 125, 126, 148, and 127. The application of theory with hospital experience in caring for patients with specific medical and surgical conditions.
El Centro College will offer courses during the 1974-75 school year in which students can work toward an associate degree or certificate in any of 26 technical-occupational programs.

Included in this section are curriculum patterns of the various programs. The patterns indicate the official course requirements for earning an associate degree in applied arts or sciences and for earning a certificate.
Accounting Technician
(One-year Certificate Program)

FALL SEMESTER
- Communications or English
- BUS 105—Intro. to Business
- BUS 131—Bookkeeping
- BUS 161—Office Machines
- MTH 130—Business Mathematics

SPRING SEMESTER
- Communications or English
- BUS 133—Bookkeeping
- BUS 173 or 174—Beginning or Intermediate Typing
- CS 175—Introduction to Computing Science
- Elective

General Information and Objectives
This program provides the student with a basic background for completing the accounting cycle which is the basic work of an accountant's assistant. The training a student receives is in the form of journalizing, posting, making a work sheet, preparing financial statements, adjusting and closing the books, and taking an after-closing trial balance. This program is available for both day and evening students.

Admission to the Program
Fulfill all requirements for admission to El Centro College.

Apparel Design
(Associate Degree in Applied Arts)

REQUIRED APPAREL DESIGN AND RELATED COURSES
FIRST YEAR

FALL SEMESTER
- PDD 130—Pattern Drafting & Draping
- DES 128—Introduction to Mass Production and Apparel Design
- DES 129—Industrial Garment Construction
- DES 135—Textiles
- DES 234—History of Costume

SPRING SEMESTER
- PDD 131—Pattern Drafting & Draping
- DES 136—Fashion Sketching
- DES 235—History of Costume

SECOND YEAR

FALL SEMESTER
- PDD 239—Creative Pattern Design
- APP 232—Design Development
- APP 237—Style Trends & Research

SPRING SEMESTER
- PDD 233—Creative Pattern Design
- APP 233—Design Development
- APP 238—Style Trends & Research

- Additional information about the programs may be obtained by calling the counseling center (746-2173), the office of the associate dean of instruction in charge of technical-occupational programs (746-2252), or the division office for the particular program. Course descriptions of all courses are included in another section of this catalog.

- Students who are changing majors and are now entering a technical-occupational program may wish to petition the Director of Admissions to waive all previous grades below “C.” Refer to Scholastic Rules and Regulations section of this catalog.
REQUIRED SUPPORT COURSES
Communications or English  
Psychology or HD 105  
BUS 105—Intro. to Business  
HUM 101—Intro. to Humanities  

Total Credit Hours Required 60

General Information and Objectives
The apparel designer converts the design idea into an industrial paper pattern used in the mass production of clothing. New style trends each season demand individual creative thinking to develop salable designs. Upon successful completion of the two-year Associate Degree Program the student enters a woman's wear or children's wear manufacturing company as an assistant in the Design Department. The following courses in the program are sometimes offered in the evening: DES 135, DES 136, POD 125, and POD 126.

Admission to the Program
1. Contact the Division of Fine and Applied Arts for a Design Institute Information Form and for the schedule showing when indicator tests are given.
2. Fulfill all requirements for admission to EI Centro College.

General Information and Objectives
This program is designed to prepare a person to translate the architect's conceptual designs into preliminary drawings and contract documents (working drawings). The construction industry needs technicians to serve as supporting personnel in the offices of architects, engineers, land developers, contractors, and various suppliers of building components and materials.

Admission to the Program
1. Fulfill all requirements for admission to EI Centro College.
2. Counsel with an adviser before entering the program and with the department chairman.

General Information and Objectives
This program, open to men and women, requires two calendar years of study. Upon completion of the program, the student is awarded an Associate in Applied Arts and Sciences degree and is entitled to write the National Test Pool Examination to qualify as a Registered Nurse (RN). Associate Degree nursing graduates qualify for beginning level staff positions as bedside technical nurses.

Admission to the Program
1. Fulfill all requirements for admission to EI Centro College.
2. Recommended ACT composite score of 16 or higher.
3. Conference with counselor.

General Information and Objectives

This program is designed to develop programming and related skills and to provide the student with competencies necessary for job entry in a commercial data processing environment. The program includes both classroom and laboratory work directed by experienced professionals using large, modern equipment. All classes are offered day or night in the Fall and Spring semesters. Some classes are offered during the Summer semesters.

Admission to the Program

1. Fulfill all requirements for admission to El Centro.
2. Recommended ACT composite score of 15 or higher.
3. Advice and consent of counselor.

Total Credit Hours Required 60

ELECTIVES RECOMMENDED:

- CS 175—Introduction to Computing Science
- CS 176—Fortran Programming
- CS 131—RPG Programming
- CS 240—Telecommunications I
- DP 236—Advanced Cobol Techniques

Total Credit Hours Required 64

General Information and Objectives

This program prepares the student for area employment in private dental offices and dental clinics with skills and understandings to enable the student to adapt quickly to the employer. In addition to classroom work, students receive clinical experience in dental clinics, dental schools and other health agencies in the community. Upon successful completion of the program, the student is eligible for the national examination by the Certifying Board of the American Dental Assistants. This program is only offered during the day.

Admission to the Program

1. Fulfill all requirements for admission to El Centro.
2. Recommended ACT composite score of 15 or higher.
3. Advice and consent of counselor.

*Other drafting courses may be substituted upon special approval.*

**General Information and Objectives**

This two-year program is designed to prepare the student for employment as a draftsman in the fields of electronic, structural, civil, mechanical, general drafting, and technical illustrating. In addition, most, if not all, of the courses may be used for transfer credit to several other institutions that offer the bachelor's degree in technology. The program is offered both day and evening. Many employers in Dallas provide part-time work for students while they are in school.

**Admission to the Program**

1. Fulfill all requirements for admission to El Centro College.

**General Information and Objectives**

The course work in this associate degree in-service program is geared to improve the fireman's professional qualifications in fire prevention, administration, supervision, and fire control techniques. Another objective is to promote an understanding of municipal government with emphasis on the fireman's role in today's society.

**Admission to the Program**

1. Fulfill all requirements for admission to El Centro College.
2. Should be currently employed in one of the organized fire departments of Dallas County.

- FS 236—Beverage Operations
- FS 238—Carde Manager Training
- FS 239—Saucier Training
- FS 245—Advanced Pastry Shop Training
- FS 231—Food Service Financial Management

REQUIRED SUPPORT COURSES

Communications or English | 6
American Civilization, American History, Government | 6
Sociology, Psychology or Human Development | 3

NOTE: Before completing this program, the student will be required to work a minimum of 480 hours in an approved work station—equal time to be spent in food preparation and supervision. Student may earn credit for prior approved work experience. Consult Department Chairman for such approval.

General Information and Objectives

The Dietetic Technician program trains men and women to assume responsible positions in the institutional field of food service such as hospitals, extended care facilities, nursing homes, school lunch programs, and college dormitories. Courses in nutrition and dietetics, basic and quantity food preparation, and institutional food service management are the core of this curriculum. All courses of this program are available both during the day and evening.

Admission to the Program

Fulfill all requirements for admission to El Centro College.

General Information and Objectives
A two-year program in which the student develops basic skills and knowledge necessary to function as a Medical Secretary, Administrative and Clinical Medical Assisting Technologist. Employment is available in the physician's office, administrative and clerical departments of hospitals and related offices in the medical field. This specialized training includes one summer of directed practice in the office of a physician and a local hospital. The curriculum is designed to prepare the student to sit for the National Board Examination which is administered by the Certifying Board of the American Association of Medical Assistants.

Admission to the Program
1. Fulfill all requirements for admission to El Centro College.
2. Recommended ACT composite score of 15 or higher.
3. High school courses in secretarial/business and biological sciences.
4. Conference with counselor and program coordinator.

General Information and Objectives
The Mid-Management program includes a cooperative plan with members of the business community whereby the student attends college classes in business and related courses and concurrently works at a regular, paid, part-time job in a sponsoring business firm. The program is available day and evening.

Admission to the Program
1. Applicants should demonstrate a sincere desire for a management career in business.
2. Fulfill all requirements for admission to El Centro College.
3. Personal interview with any Mid-Management Instructor.

Total Credit Hours Required: 79

*Students without 2 years of high school algebra will take MTH 093 and then MTH 101.

General Information and Objectives

This two-year program prepares the student to perform tests and related duties in a medical laboratory under the supervision of a medical technologist. Upon successful completion of the program the student is granted an Associate in Applied Arts and Sciences Degree and is eligible to take the National Certifying Examination for Medical Laboratory Technician, given by the American Society of Clinical Pathologists.

Admission to the Program

1. Fulfill all requirements for admission to El Centro College.
2. Contact the Division of Fine and Applied Arts for a Design Institute Information Form and for the schedule showing when indicator tests are given.

Total Credit Hours Required: 60

General Information and Objectives

This program is designed to meet the needs of those students who desire to enter the business world in a minimum of time. Intensive training in the basic office skills and systems is provided — including office machines, communications systems, records management, and other related business subjects. A general orientation to the business world is given. Personal development, human relations, business etiquette and ethics are also stressed. Courses are available in both the day and evening school.

Admission to the Program

1. Fulfill all requirements for admission to El Centro College.
2. Contact the Division of Fine and Applied Arts for a Design Institute Information Form and for the schedule showing when indicator tests are given.

Total Credit Hours Required: 62

General Information and Objectives

This program is designed to prepare technologists with understanding and skills in the field of x-ray. The student is assigned to a Dallas area hospital for practicum. Upon successful completion of the program, the student is granted an Associate in Applied Science Degree and is prepared to write the American Registry of Radiologic Technologists Examination.

Admission to the Program

1. Fulfill all requirements for admission to El Centro College.
2. Must have composite score of 15 or higher with heavy slant toward science.
3. High school courses in biology and math suggested.
4. Personal interview with liaison counselor and program coordinator.

General Information and Objectives
The one-year program (Step 1) is designed to develop skills in administering routine therapy in the treatment or prevention of cardiopulmonary complications. Successful completion of Step 1 will qualify the student academically for the Technician Certification Examination. Upon successful completion of the Respiratory Therapy (Step 1) program, selected students may enter the Respiratory Therapy (Step 2) program.

The two-year program has a two-fold objective: (1) to meet the needs of the community by providing persons with uniform competency in respiratory therapy; and (2) to meet the needs for professionally oriented personnel at the level of a registered therapist, instructor, or departmental supervisor. Upon successful completion of the two-year program, the student is eligible to write the American Registry Examination.

Admission to the Program
1. Fulfill all requirements for admission to El Centro College.
2. Recommended ACT composite score of 15 or higher for Step 2.

General Information and Objectives
This program is designed for those who desire to enter the business world as soon as possible in the stenographic field. Extensive training is provided in basic office skills and acquaints the students with the opportunities and responsibilities of a secretarial career. Courses are available in both the day and evening.

Admission to the Program
Fulfill all requirements for admission to El Centro College.

Total Credit Hours: 46

General Information and Objectives
This is a one-year program which meets the accreditation requirements of the State Board of Licensed Vocational Nurse Examiners. In addition to classroom and laboratory work at the college, clinical experience at various hospitals is part of the program. This course is offered only during the day.

Admission to the Program
1. Fulfill all requirements for admission to El Centro College.
   a. complete college application form (located in Registrar's office).
   b. complete college physical examination form (located in Registrar's office).
2. Fulfill all program requirements as required by the State Board of Vocational Nursing:
   a. complete program application form (located in the Allied Health Office—729).
   b. complete program physical examination form (located in the Allied Health Division Office—729).
   c. must have ACT score of 12 or equivalent.
   d. must be interviewed by program coordinator.
3. Both application forms, physical forms and ACT score must be completed by December 1.

</table>

The final examination period for each class which meets
at 5:30 P.M. or any hour thereafter will begin at the usual
class time during Examination Week, with these exceptions:
Classes which meet T, R should have the final examination
on Tuesday at the usual class time during Examination Week; after
5:30 classes which meet M, W should have the final exam-
ination on Monday at the usual time during
Examination Week.
