EL CENTRO COLLEGE
GROWING WITH DOWNTOWN DALLAS

El Centro College is the first of the seven campuses of the Dallas County Community College District. It offers an exciting educational challenge to students in its role as an urban community college.

Located at the “hub” of the District in the heart of a revitalized downtown Dallas, El Centro interacts with its environment to make education come alive. For example, a legal assisting class can get a first-hand look at the judicial system by visiting the Dallas County Court House just around the corner. A government class can sit in on a City Council meeting in nearby City Hall. Business instructors can co-sponsor a seminar on finance with a downtown investment firm. Apparel design students can model their fashions before representatives of the apparel industry and before a camera from a television station just up the street.

The city truly becomes a laboratory in which El Centro students can test their classroom experience, but it is also a place to have fun. Just a short walk away are some of the most exciting cultural experiences in Dallas, such as concerts in One Main Place Plaza and Thanks-Giving Square or free movies and lectures in the Dallas Public Library. There are also sidewalk concerts in the Akard Street Mall by the Dallas Symphony Orchestra and an annual Arts Festival in Old City Park. During October, the downtown area is alive with a variety of festivities and cultural events known as Cityfest.

El Centro is an integral part of all this activity around it. It offers theatre and ballet performances, lunch hour forums, and lectures by visiting authors, celebrities, and poets of national renown.

Particularly significant is El Centro’s special commitment to being one of the prime vehicles in Dallas to bring the arts to the downtown community. It is aided in this quest by such nationally recognized artists as Arthur Mitchell and Mercedes McCambridge. Founder and artistic director of the Dance Theatre of Harlem, Mr. Mitchell began El Centro’s dance program and returns to the College several times a year to conduct ballet master classes. Ms. McCambridge, a highly respected actress, has made a personal tradition out of working each year with El Centro’s drama students and appearing with them in a theatre production.

The academically outstanding student is welcome, as well as the student who was never considered “college material” but who can develop college skills through El Centro’s innovative developmental programs. Some students are completing their first two years at El Centro in anticipation of earning a four-year degree. Other students are hoping to break into the arts in the field of dance, theatre, photography, or painting. Still others are working toward an immediate career in one of 38 one-year and two-year technical/occupational programs, including data processing, fire protection technology, police science, interior design, architectural technology, and the largest and most comprehensive health occupations program of any community college in Texas.

In short, there is no “typical” El Centro student. The College is a community of people who represent cross section of the larger Dallas community.

Other programs also contribute to the events that make El Centro an exciting part of downtown. The nationally top-rated food service operations program sponsors an annual Culinary Arts Fair in which aspiring chefs exhibit gourmet dishes and demonstrate food preparation techniques. Apparel design students present fashion shows twice a year. Student organizations and academic divisions sponsor films, lectures, and presentations, ranging from conquering math anxiety to underwater photography to appreciating opera. Such events draw downtown workers as well as students.

Indeed, that downtown worker may be a student who is brushing up on shorthand or mid-management skills, taking a pottery course, or working toward a career change. El Centro places great value on offering people opportunities to meet a wide range of goals. The College consequently attracts a student body as diversified as can be found anywhere. Students fresh out of high school attend class with homemakers returning to college, professionals improving their career skills, and retired citizens finding new interests.
EDUCATIONAL PHILOSOPHY:
THE DOOR IS OPEN

Students find that the educational atmosphere at El Centro is based on the premise that learning is a personal matter—an exchange of ideas and not an indoctrination, a forum for discussion and reasoning, a coming together of teacher and student on an interpersonal level.

Office doors are open and instructors are willing and eager to help. Counselors concentrate on being a good friend as well as a guiding influence and source of help on any problem. Learning is an individual matter and a unique experience rather than the assembly line approach often dictated by numbers.

ACADEMIC CALENDAR, 1981-82

SUMMER SESSIONS, 1981

First Session
May 29 (F) Registration
June 1 (M) Classes begin
June 2 (T) Last day for tuition refund
June 3 (W) 4th class day
June 25 (M) Last day to withdraw “W”
July 3 (F) Independence Day holiday
July 5 (M) Graduation
July 6 (T) Final Examinations
Session closes

Second Session
July 7 (T) Registration
July 9 (R) Classes begin
July 10 (F) Last day for tuition refund
July 14 (T) 4th class day
Aug 6 (R) Last day to withdraw “W”
Aug 12 (W) Final examinations
Aug 12 (W) Session closes

FALL SEMESTER, 1981

Aug 17 (M) Faculty reports
Aug 18-20 (T-R) Registration
Aug 21 (F) Faculty development
Aug 22 (S) Saturday classes begin
Aug 24 (M) Classes begin
Aug 31 (M) Last day for tuition refund
Sept 4 (F) 12th class day
Sept 7 (M) Labor Day holiday
Nov 29 (F) Thanksgiving holiday begins
Nov 30 (M) Classes resume
Dec 4 (F) Last day to withdraw “W”
Dec 11 (F) Last day of classes
Dec 12 (S) Final exams, Sat. classes
Dec 14-17 (M-R) Final examinations
Dec 17 (R) Semester closes

SPRING SEMESTER, 1982

Jan 11 (M) Faculty reports
Jan 12-14 (T-R) Registration
Jan 15 (F) Faculty development
Jan 18 (M) Saturday classes begin
Jan 19 (W) Classes begin
Jan 25 (M) Last day for tuition refund
Jan 29 (F) 12th class day
Feb 18 (F) District Conference Day
Feb 19 (F) Faculty development
Mar 15 (M) Spring break begins
Mar 19 (F) Spring holiday for all employees
Mar 22 (M) Classes resume
Apr 9 (F) Easter holidays begin
Apr 12 (M) Classes resume
May 7 (F) Last day to withdraw “W”
May 14 (F) Last day of classes
May 15-19 (S) Final exams, Sat. classes
May 17-20 (M-R) Final examinations
May 20 (R) Graduation
May 20 (R) Semester closes

SUMMER SESSIONS, 1982

First Session
May 27 (F) Registration
May 31 (M) Memorial Day holiday
June 1 (T) Classes begin
June 2 (W) Last day for tuition refund
June 4 (F) 4th class day
June 29 (T) Last day to withdraw “W”
July 5 (W) Independence Day holiday
July 6 (T) Final examinations
Session closes

Second Session
July 5 (F) Registration
July 12 (M) Classes begin
July 13 (T) Last day for tuition refund
July 15 (R) 4th class day
Aug 9 (M) Last day to withdraw “W”
Aug 13 (F) Final examinations
Session closes

Accreditation
El Centro College is a member of
- The Southern Association of Colleges and Schools
- The American Association of Community and Junior Colleges
- The Association of Texas Colleges and Universities
- The League for Innovation in the Community College

El Centro is recognized and sanctioned by the Coordinating Board of the Texas College and University System and the Texas Education Agency, and is an Affirmative Action Equal Opportunity Institution.

I. GENERAL INFORMATION

HISTORY OF THE DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

The Dallas County Community College District is comprised of seven colleges located strategically throughout Dallas County. Together the colleges enroll approximately 75,000 students and employ over 1,900 full-time faculty and staff members. The growth of the District into an educational system with such impact was not by chance. In May, 1965, voters created the Dallas County Junior College District and approved a $41.5 million bond issue to finance it. The next year the District's first college, El Centro, began operation in downtown Dallas. Eastfield College and Mountain View College enrolled their first students in 1970, and the plans for a multi-campus district became a reality. Richland College became the District's fourth college in 1972. The voters of Dallas County approved the sale of an additional $85 million in bonds in September, 1972. This step provided for expansion of the four existing colleges and the construction of three more colleges. A key part of the expansion program was the remodeling and enlarging of El Centro College, a project completed in 1979. Construction of new facilities resulted in the opening of Cedar Valley College and North Lake College in 1977. Brookhaven College, the final campus in the seven-college master plan, opened in 1978.

DISTRICT PHILOSOPHY AND GOALS

Since 1972, the District has been known as the Dallas County Community College District. The name shows that the District has outgrown the term "junior college." The name also reflects the District's philosophy. The colleges truly are community institutions, meeting the varied educational needs of the growing Dallas County region. The primary goal of the District and its colleges is to help students of all ages achieve effective living and responsible citizenship in a fast-changing region, state, nation, and world. Each college is therefore committed to providing a broad range of educational programs for the people it serves.

The needs, abilities, and goals of each student are considered important. The focus is on creating an educational program for the individual rather than squeezing or stretching the individual to fit an "educational mold." The District therefore has a place for different kinds of students. There is a place for the young person setting forth toward a degree in medicine, and a place for the adult delving into an interesting hobby to enrich leisure hours. There is a place for the person preparing to enter a trade or technical field with a year or two of studies, and a place for the employed individual wanting to improve occupational skills. There is a place for the very bright high school student ready to begin college work in advance of high school graduation, and a place for the high school dropout who now sees the need for education in today's complex society. In short, there is a place for everyone.

How do the colleges meet the educational needs of such a varied family? The answer is found in four categories of programs:

1. For the student working toward a bachelor's or higher degree, the colleges offer a wide range of first-year and second-year courses which transfer to senior colleges and universities.
2. For the student seeking a meaningful job, the colleges offer one-year and two-year programs in technical and occupational fields.
3. For the employed person wishing to improve job skills or to move into a new job, the colleges offer credit and non-credit adult educational courses.
4. For the person who simply wants to make life a little more interesting, the colleges offer community service programs on cultural, civic and other topics.

Additional programs are available for the high school student, dropout, and others with special needs. The colleges help each student design the educational program that best meets individual needs. Every student is offered intensive counseling to define goals and identify abilities. Continued guidance is available throughout the student's college career in case goals and plans change. This emphasis on counseling, rare for some institutions, is routine at all District colleges.

DISTRICT RESPONSIBILITIES

To carry out the District philosophy, the colleges obviously must offer a range of programs and courses, including guidance services. These programs and courses must help each individual attain a high level of technical competence and a high level of cultural, intellectual, and social development. In addition, high professional standards for the academic staff must be maintained within a framework prescribed by the Board of Trustees. At the same time, the program and organization of each college must make maximum use of faculty and facilities. The colleges have a basic responsibility to provide educational and cultural leadership to the community. They must be sensitive to changing community needs and adapt readily to those needs. Individuals capable of continuing their educational development should be given the opportunity to improve their skills. Finally, to continue to meet its responsibilities in changing times, the college system must guard against stagnation. Creativity and flexibility are therefore fostered at the District level and on each campus.
LEAGUE FOR INNOVATION
The Dallas County Community College District is a member of the League for Innovation in the Community College. The League is composed of 16 outstanding community college districts throughout the nation. Its purpose is to encourage innovative experimentation and the continuing development of the community college movement in America. Membership commits the District to research, evaluation, and cooperation with other community college districts. The goal is to serve the community with the best educational program and the fullest use of resources.

EQUAL EDUCATIONAL AND EMPLOYMENT OPPORTUNITY POLICY
Dallas County Community College District is committed to providing equal educational and employment opportunity regardless of sex, marital or parental status, race, color, religion, age, national origin, or handicap. The District provides equal opportunity in accord with Federal and State laws. Equal educational opportunity includes admission, recruitment, extra-curricular programs and activities, access to course offerings, counseling and testing, financial aid, employment, health and insurance services, and athletics. Existing administrative procedures of the College are used to handle student grievances. When a student believes a condition of the College is unfair or discriminatory, the student can appeal to the administrator in charge of that area. Appeals to higher administrative authority are considered on the merits of the case.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974
In compliance with the Family Educational Rights and Privacy Act of 1974, the College may release information classified as "directory information" to the general public without the written consent of the student. Directory information includes: (1) student name, (2) student address, (3) telephone number, (4) dates of attendance, (5) educational institution most recently attended, and (6) other information, including major field of study and degrees and awards received. A student may request that all or any part of the directory information be withheld from the public by giving written notice to the Registrar's Office during the first twelve class days of a fall or spring semester or the first four class days of a summer session. If no request is filed, information is released upon inquiry. No telephone inquiries are acknowledged, all requests must be made in person. No transcript or academic record is released without written consent from the student stating the information to be given, except as specified by law.

STUDENT CONSUMER INFORMATION SERVICES
Pursuant to Public Law 178, the College provides all students with information about its academic programs and financial aid available to students.

STANDARDS OF CONDUCT
The college student is considered a responsible adult. The student's enrollment indicates acceptance of the standards of conduct published in this catalog.

GENERAL ADMISSIONS POLICY
The College has an "open door" admissions policy. It insures that all persons who can profit from post-secondary education have an opportunity to enroll. The College requires certain assessment procedures for use in course placement prior to admission to a certificate or degree program, but the assessment is not used to determine admissions.

ADMISSION REQUIREMENTS
Beginning Freshmen
Students enrolling in college for the first time who fit one of the following categories may apply for admission:

a. Graduates from an accredited high school or those who have earned a General Education Diploma (G.E.D.)
b. Graduates of an unaccredited high school who are 18 years of age or older.
c. Persons who do not hold a high school diploma or G.E.D. (but who are 18 years of age or older and whose high school class has graduated) may be admitted by giving evidence of an ability to profit from college instruction. Such admission will be on a probationary basis.
d. High school students recommended by their high school principal. The College admits a limited number of students in this category. The students are concurrently enrolled for a maximum of 6 hours of special study each semester. Students must continue to make normal progress toward high school graduation.

Transfer Students
Transfer applicants are considered for admission on the basis of their previous college record. Academic standing for transfer applicants is determined by the Registrar's Office according to standards established by the College. Students on scholastic or disciplinary suspension from another institution must petition the Committee on Admissions and Academic Relations for special approval. Contact the Admissions Office for further information.

Former Students
Students formerly enrolled in the Dallas County Community College District must submit an application for readmission to any District college. Students with unsettled financial debts at any District college will not be readmitted.
Non-Credit Students
Students enrolling for non-credit courses apply through Community Services.

International Students
The College is authorized under federal law to enroll non-immigrant alien students. International students are not admitted, however, until all admissions requirements are complete.

International students must:
- a. complete a personal interview with the international student counselor and receive approval from the College administration.
- b. present TOEFL (Test of English as a Foreign Language) test scores of 525 or higher.
- c. be proficient in English and provide a letter in their own handwriting indicating educational and vocational plans.
- d. show evidence of sufficient financial support for the academic year.
- e. complete a health information form.
- f. fulfill all admission requirements for international students at least 30 days prior to registration.
- g. enroll as a full-time student (minimum of 12 credit hours).
- h. complete one full year at the admitting institution if the student has already been accepted by other U.S. educational institutions. (See government form I-20)

Contact the Admissions Office for further information.

APPLICATION AND ADMISSION PROCEDURES
Applications may be submitted any time prior to registration, but applicants should submit materials at least three weeks before registration to insure effective counseling and schedule planning. Earlier application is desirable because the student's place in registration is determined by the date an applicant's admission file is complete. A late place in registration may mean that the student cannot register for some courses because they are already filled.

Applicants must submit the following material to the Admissions Office to have a complete admissions file:
- b. An official transcript from the last school (high school or college) attended. Students seeking certificates or associate degrees must submit official transcripts of all previous college work. The College's accrediting agency requires transcripts, and the College uses them in program advisement.
- c. Written proof from a medical office of (1) a negative tuberculin skin test or chest X-ray, (2) a polio immunization if the applicant is under 19 years of age, and (3) a diphtheria/tetanus injection within the last 10 years. This medical proof is required by state law (Senate Bill 27).

Once the above materials are submitted, the applicant is assigned a place in registration. All applicants may select only those classes available when they register. Students may enroll in certain courses at times other than regular semester registration. See Flexible Entry Courses in this catalog and contact the Registrar's Office for additional information.

TUITION
Tuition is charged on a sliding scale according to the number of credit hours for which a student is enrolled and the student's place of legal residence.

Tuition is subject to change without notice by the Board of Trustees or the Texas Legislature.

ADDITIONAL FEES
Additional fees may be assessed as new programs are developed with special laboratory costs. These fees will always be kept to a practical minimum. A graduation fee is not assessed, but each student must pay for cap and gown rental.

SPECIAL FEES AND CHARGES
Laboratory Fee: $2 to $8 a semester (per lab).
Physical Education Activity Fee: $5 a semester.
Bowling Class Fee: Student pays cost of lane rental.
Private Music Lesson Fee: $35 for one hour per week (maximum) for one course, $20 for one half hour per week.
Audit Fee: The charge for auditing a course is the same as if the course were taken for credit, except that a student service fee is not charged.
Credit by Examination: Fee of $20 per examination per course. **

* Available only to music majors enrolled for 12 hours or more.
** This fee can change without prior notice.

*The Dallas County Community College District Board of Trustees has waived the difference in the rate of tuition for non-resident and resident students for a person or his dependent, who owns property which is subject to ad valorem taxation by the District.

**The DCCCD Board of Trustees defines an Out-of-District student as: (1) a student eighteen (18) years of age or older who resides in a Texas county other than Dallas County; (2) a student who is less than eighteen (18) years of age whose parents do not live in Dallas County.

***A non-resident student is hereby defined to be a student less than eighteen (18) years of age living away from his family and whose family resides in another state, or whose family has not resided in Texas for twelve (12) months immediately preceding the date of registration; or a student of eighteen (18) years of age who resides out of the state or who has not been a resident of the state twelve (12) months.

The tuition schedule above is subject to change without notice by action of the District Board of Trustees or the State of Texas.
REFUND POLICY
Student tuition and fees provide only a fraction of the cost of education. When students enroll in a class, they reserve places which cannot be made available to other students unless they officially drop the class during the first week of the semester. Also, the original enrollment of students represents a sizable cost to the District whether or not they continue in the class. Therefore, a refund is made only under the following conditions:

a. No refund is granted unless College error is involved.
b. An 80% refund of tuition and fees may be obtained through the date noted in the college calendar. An 80% refund may be given through the first two class days of a six-week summer session or fast track semester. Refunds for Flexible Entry Courses are considered through completion of the second day of class from the date of enrollment.
c. No refund is given for advanced placement or College Level Examination Program (CLEP) tests.
d. A physician's statement must be submitted along with petitions when medical reasons account for withdrawal. Requests for refunds must be submitted before the end of the semester for which the refund is requested.
e. No refund of less than $4 for tuition and fees is made.

Refund Petition Forms are available in the Counseling Center and the Office of the Vice President of Student Services. Students who believe their refund requests are due to extenuating circumstances beyond the limits of the refund policy should state explicitly their circumstances on the Refund Petition Form. All requests for refunds are referred to the Refund Petition Committee. The Committee's recommendations are made to the Vice President of Student Services who notifies the student of the action taken. Refund checks normally require a minimum of one month from date of approval for processing.

RETURNED CHECKS
Checks returned to the Business Office must be paid with cash or a cashier's check within the time limits prescribed by the notification letter. An additional fee is added for returned checks. If a check for tuition payment is returned, the student's enrollment is considered void.

ADVISEMENT PROCEDURES
Individual assessment of skill levels is an important part of student success in college. Therefore, the District has provided an assessment process available through the counseling centers at each of the District colleges. Information gained from assessment is used to advise students in the selection of courses which can provide the best possible opportunity for academic success. All students are required to go through an assessment process and should schedule it prior to initial registration.

Developmental studies are available for students who need skill development in reading, writing, or math. Test data, transcripts, previous work, and counseling may be used to determine placement in this program.

COURSE PREREQUISITES
Prerequisites are established for certain advanced courses to help assure that students have sufficient background in the subject area to maximize their probability of success in the course. The College recognizes that certain related life experiences may also provide necessary background for success in these courses. Therefore, the division chairperson is authorized to waive a course prerequisite.

CHANGE OF SCHEDULE
Students should be careful in registering to schedule courses only for the days and hours they can attend. Students requesting class changes should contact the Registrar's Office during the time specified in the class schedule. No change is complete until it has been processed by the Registrar's Office.

NON-CREDIT STUDENT (AUDIT)
A person who meets the admission requirements of the District may, with the consent of the division chairperson and instructor, enroll in a credit course as a non-credit student. A non-credit student may attend class, but may not receive a final grade or credit for a course. An instructor may give an examination if he determines the examination is an essential component of the learning process. The fee for a credit course is the same for a non-credit student as for a credit student.

TRANSFER OF CREDITS
Transfer of credit is generally given for all passing work completed at accredited colleges and universities. The Registrar's Office evaluates all transfer credit. Transfer students admitted with a grade point deficiency cannot graduate until the deficiency is cleared by earning additional grade points.

Credits earned in military service schools or through the U.S. Armed Forces Institute are reviewed by the Registrar and credit granted if applicable.

DROPPING A COURSE OR WITHDRAWING FROM COLLEGE
To drop a class or withdraw from the College, students must obtain a drop or withdrawal form and follow the prescribed procedure. Should circumstances prevent a student from appearing in person to withdraw from the College, the student may withdraw by mail by writing to the Registrar. No drop or withdrawal requests are accepted by telephone.

Students who drop a class or withdraw from the College before the semester deadline receive a "W" (Withdraw) in each class dropped. The deadline for receiving a "W" is indicated on the academic calendar. After that time students receive a performance grade in each course.

ADDRESS CHANGES AND SOCIAL SECURITY NUMBER
Each student has the responsibility to inform the Registrar's Office of changes in name or address. Each applicant for admission is asked to furnish a Social Security number. This number doubles as a student identification number and insures accuracy of student records. If a student does not have a Social Security number, another number is assigned for record keeping.
DEGREE REQUIREMENTS
The College confers the Associate in Arts and Sciences Degree upon students who have completed all general and specific requirements for graduation. Each degree candidate must earn the last 15 hours as a resident student in the District colleges or accrue 45 hours in residence. The degree is granted by the District college at which the student took the last 15 hours or where the majority of hours were accrued. Correspondence work must be approved by the Registrar for graduation credit. No more than one-fourth of the work required for any degree or certificate may be taken by correspondence.

ASSOCIATE IN ARTS AND SCIENCES DEGREE
Students must have a minimum of 60 credit hours and a grade point average of at least "C" (2.0) to receive the Associate in Arts and Sciences Degree. These 60 hours may be earned at any District college. They must include:
- English 101-102 plus an additional 6 hours of English for a total of 12 credit hours in English.
- 8 credit hours in Laboratory Science (music majors will substitute Music 101-102 for this requirement).
- 12 credit hours of History 101-102 and Government 201-202. No substitutions are allowed. Only 3 credit hours of history or 3 credit hours of government may be earned through credit by examination. CLEP credit may not be used to meet this requirement.
- 3 credit hours in Humanities, selected from Theater 101, Art 104, Music 104, Humanities 101 or Philosophy 102.
- A maximum of 4 physical education activity hours may be counted as credit toward requirements for graduation. Courses numbered 99 and below cannot be included to meet degree or certificate requirements. Music 199, Art 199, and Theater 199 may not be counted toward the 60-hour minimum.

All students planning to transfer to a four-year institution may complete their four semester requirements in physical education during their freshman and sophomore year. Students are urged to consult the catalogs of the institutions to which they may transfer for their special requirements. These catalogs should be used by students and advisors in planning programs.

ASSOCIATE IN APPLIED ARTS AND SCIENCES DEGREE AND CERTIFICATE CAREER PROGRAMS
Students must have a minimum of 60 credit hours and a grade point average of at least "C" (2.0) to receive the Associate in Applied Arts and Sciences Degree. For some programs, more than 60 credit hours are required. All prescribed requirements for the specific Technical/Occupational Program in which the student is enrolled must be completed. These programs may also have other criteria in addition to degree requirements. See the Technical/Occupational Programs section of this catalog for a more detailed explanation.

The requirements for certificates are detailed under specific programs listed in the Technical/Occupational Programs section of this catalog. A "C" (2.0) grade point average is required. A maximum of 4 physical education activity hours may be counted as credit toward graduation. Courses numbered 99 and below may not be included to meet degree or certificate requirements. Music 199, Art 199, and Theatre 199 may not be counted toward the 60-hour minimum.

PROCEDURE FOR FILING DEGREE AND CERTIFICATE PLANS AND FOR GRADUATION
Students should request a degree plan from the Registrar's Office at the end of their freshman year. Official transcripts of all previous college work must be on file at the time of request for degree plans. Students following a one-year certificate program should request an official plan during the first semester of their enrollment. Application for the granting of the degree or certificate should be filed in the Registrar's Office prior to the deadline announced by the Registrar.

An annual graduation ceremony is held at the conclusion of the spring semester. Participation is ceremonial only and confers on a student no rights to a degree. January and August graduates may participate in the next commencement if they desire, but they are not required to do so. The Registrar's Office should be notified if the student wishes to participate. Instructions for graduation are mailed to all candidates thirty days prior to commencement.

Within five years of initial enrollment, a student may graduate according to the catalog requirements in effect at the time of first enrollment or any subsequent catalog provided the requisite courses are still being offered. If a student fails to complete within five years all requirements of the catalog in effect at the time of initial enrollment, then the student may be required to graduate under a later catalog at the discretion of the institution.

RECOMMENDED ACADEMIC LOAD
The maximum academic load is 18 credit hours of course work per semester or five classes plus physical education. Students must receive permission of the Registrar or the appropriate college official to carry a heavier load. Employed students carrying a full load (12 credit hours or more) should not work more than twenty hours per week. Students working more hours should reduce their academic load proportionately. The recommended load limit for day or evening students who are employed full-time is 6 credit hours.

The recommended load limit in a six-week summer session is 6 credit hours. A total of 14 credit hours is the maximum that may be earned in any twelve-week summer period.
CLASS ATTENDANCE

Students are expected to attend regularly all classes in which they are enrolled. Students have the responsibility to attend class and to consult with the instructor when an absence occurs.

Instructors are responsible for describing attendance policy and procedures to all students enrolled in their classes.

As a general rule, when absences become so excessive as to endanger the student’s class standing, the instructor will file a drop notice. The student is notified by a letter from the Registrar’s Office sent to the student’s address of record. The effective drop date is stated in the letter. A student who desires to remain in class must contact the instructor within the time specified in the instructor’s letter. With the instructor’s approval, a student may be reinstated. Students dropped for excessive absences prior to the published withdrawal deadline receive a grade of “W”. Students who do not attend class during the first twelve days of the long semester or the first four days of a summer session are dropped.

SCHOLASTIC STANDARDS: GRADES AND GRADE POINT AVERAGE

Final grades are reported for each student for every course according to the following grading system:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Interpretation</th>
<th>Grade Point Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4 points</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3 points</td>
</tr>
<tr>
<td>C</td>
<td>Average</td>
<td>2 points</td>
</tr>
<tr>
<td>D</td>
<td>Poor</td>
<td>1 point</td>
</tr>
<tr>
<td>F</td>
<td>Progress</td>
<td>Not Computed</td>
</tr>
<tr>
<td>I</td>
<td>Failing</td>
<td>0 points</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawn</td>
<td>Not Computed</td>
</tr>
<tr>
<td>CR</td>
<td>Credit</td>
<td>Not Computed</td>
</tr>
</tbody>
</table>

Grade points earned for each course are determined by multiplying the number of points for each grade by the number of credit hours the course carries. For example, a student who takes a three hour course and earns an “A” accumulates 12 grade points for that course. A student’s grade point average is computed by adding the total grade point values for all courses and dividing by the number of credit hours attempted during the same period. For example, a student who takes the following courses and earns the following grades has a grade point average 2.93:

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>2-hour course</td>
<td>A</td>
<td>8</td>
</tr>
<tr>
<td>3-hour course</td>
<td>B</td>
<td>9</td>
</tr>
<tr>
<td>4-hour course</td>
<td>C</td>
<td>6</td>
</tr>
<tr>
<td>Total Grade Hours: 12</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Total Grade Points: 35</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

For repeated courses, only the latest grade earned is included in cumulative grade point averages. Transcripts do, however, indicate all work completed in the District, even if the latest grade is lower than a preceding grade. When a student withdraws from a course being repeated, the cumulative grade point average is calculated by using the immediately preceding grade in the same course.

An incomplete grade “I” may be given when an unforeseen emergency prevents a student from completing the work in a course. The “I” must be converted to a performance grade (one with a grade point value) within ninety days after the first day of classes in the subsequent regular semester. If the work is not completed after ninety days, the “I” is converted to a performance grade.

An Incomplete Contract is used to convert an incomplete grade to a performance grade and states the requirements for the satisfactory completion of the course. The Incomplete Contract must be agreed upon and signed by the instructor, the student and the division chairperson and submitted with the final grade report. When an Incomplete Contract must be submitted without the student’s signature, the instructor must include a statement indicating that the student is aware of and in agreement with the contract.

The “P” grade (Progress) may be awarded when a student has attended class regularly and the instructor has evidence that the student has made significant progress toward meeting course objectives, but the student has not met those objectives at a level appropriate for a performance grade (A-F). “P” grade may be computed as an “F” grade at some receiving colleges and universities. To earn credit for a course in which the student has a “P” grade, the student must re-enroll in that course.

ACCEPTABLE SCHOLASTIC PERFORMANCE

College work is measured in terms of credit hours. The number of credit hours offered for each course is given with the course description. Acceptable scholastic performance is the maintenance of a grade point average of 2.0 (on a 4.0 scale) or better. Students may not be graduated from any degree or certificate program unless they have a cumulative grade point average of 2.0 or better, Grade points and hours earned in courses numbered 99 and below are included in computing a student’s scholastic standing, but they cannot be used to meet graduation requirements.

HONORS

Full-time students who complete at least 12 hours of credit and earn a grade point average of 3.00-3.49 are listed on the College’s Honor Roll. Full-time students who complete at least 12 hours of credit and average 3.50-4.00 are placed on the Vice President’s Honor List. Part-time students who take 6-11 credit hours and maintain a 3.5 or higher grade point average are placed on the Academic Recognition List. The Honor Roll, the Vice President’s Honor List, and the Academic Recognition List are published each semester.

SCHOLASTIC PROBATION AND SCHOLASTIC SUSPENSION

Full-time and part-time students who have completed a total of 12 credit hours are placed on probation if they fail to maintain a 2.0 cumulative grade point average. Students may be removed from probation when they earn a 2.0 cumulative grade point average. Students on scholastic probation who achieve either a cumulative grade point average of 1.5 or above or a previous semester grade point average of 2.0 or above are continued on scholastic probation. Students on probation who do not meet the requirements for continued probation are placed on scholastic suspension. Students on suspension for the first time may not register for the immediately following semester or summer session without special permission. Suspended students must file a petition for readmission. The conditions for readmission are established and administered by the Vice President of Student Services.
GRADE REPORTS

A grade report is issued to each student at the end of each semester and gives the grade earned in each course that semester. A transcript is the official record of college work and gives all grades earned throughout the college career. Transcripts are withheld from students who have not met financial or other obligations to the College. (See Student Codes and Expectations: "Financial Transactions with the College.)

WAIVING OF SCHOLASTIC DEFICIENCY

Any student in an academic transfer program may transfer to a career program. In such a case, the student may choose to have any grades below "C" disregarded. However, the procedure for disregarding low grades may only be exercised while the student is in a career program. If the student changes to an academic transfer program, the original conditions of the academic transfer program must be followed, including the calculation of a cumulative grade point average of all college credits earned. The procedure for waiving scholastic deficiency applies both to students of this college and to students transferring from other institutions. The student who wishes to use the procedure for waiving scholastic deficiency should so state in writing to the Registrar prior to registration and should inform a counselor of such intentions during the pre-registration advisement session.

TRANSCRIPTS OF CREDIT

Upon the written request of a student, the Registrar's Office will send an official transcript to the individual student or to any college or agency named. The transcript may be withheld, however, until the student has settled all obligations with the College. The first two requests for a transcript are filled without charge. Later requests are filled for a $1 charge.

CLASSIFICATION OF STUDENTS

Freshman:
A student who has completed fewer than 30 credit hours.
Sophomore:
A student who has completed 30 or more credit hours.
Part-time:
A student carrying fewer than 12 credit hours in a given semester.
Full-time:
A student carrying 12 or more credit hours in a given semester.

INSTRUCTORS

The faculty is comprised of outstanding professional educators who were chosen as a result of their recognized accomplishments as educators, business leaders, government leaders, and community leaders. All share with students the knowledge and practical insight gained from years of experience in successful careers and avocations.

LEARNING RESOURCES CENTER AND LIBRARY OBLIGATIONS

The Learning Resources Center (LRC) supports classroom instruction. It is a place where students can find books and non-print materials to supplement classroom learning or where—if they choose—they can actually take a course. The LRC helps students to learn in their own ways and at their own speeds. It provides books, slides, tapes, and films. The College has a growing collection of books on a wide variety of general information areas to support Academic Transfer Programs and Technical/Occupational Programs.

In addition, there are special collections of career materials and pamphlets. The library also subscribes to current popular and technical periodicals as well as to area and national newspapers. Classroom Resource Services is a part of the LRC and supports the instructional program. It is responsible for all campus audio-visual equipment and non-print materials used in the classroom or by individual students and for the production of instructional materials.

Willful damage to library materials (or property) or actions disturbing users of the library may lead to the loss of library privileges. Damage cases are referred to the appropriate authorities for further action. All books and other library materials must be returned before the end of each semester. No transcript is issued until the student's library record is cleared.
IV. EDUCATIONAL AND SPECIAL OPPORTUNITIES

ACADEMIC TRANSFER STUDIES
Students who desire to earn a bachelor's degree may complete the first two years at this college before transferring to a four-year institution. The academic transfer curriculum is coordinated with senior colleges and universities to facilitate the transfer of credits to these schools.

TECHNICAL/OCCUPATIONAL PROGRAMS
Students who desire to enter a chosen field as a skilled employee after one or two years of college work may enroll in one of the many Technical/Occupational Programs offered by the College. Technical/occupational courses carry college credit leading to a Certificate of Completion or an Associate in Applied Arts and Sciences Degree. These programs are established only after studies verify that employment opportunities will exist at the time the student completes training. The College attempts to match the community's labor requirements with the ambitions and goals of its students. This realistic approach to occupational education is made possible by the excellent cooperation of local industry, business, and public agencies. They increasingly depend on District colleges to supply skilled personnel. A continuous liaison is maintained with prospective employers to help place graduates and to keep the training programs current with job requirements. Recommendations for adding new programs to the College offerings are made periodically and are based on community studies which identify additional training needs.

CREDIT BY EXAMINATION
Students who believe they already meet the requirements of a course by experience or previous training may request credit by examination. The Counseling Center has a list of courses available through this method. The examination may be a section of the College Level Examination Program (CLEP), Advanced Placement Exams (CEEB), or a teacher-made test, depending on the course. The student pays an examination fee of $22.00 per course examination. This fee must be paid prior to taking the examination and is not refundable. The colleges credit by examination program is coordinated with similar programs of four-year institutions. Final acceptance of credit by examination for specific degree purposes is determined by the degree-granting institution. Students planning to use credit by examination to meet degree requirements at other institutions should check the requirements of the receiving institution.

Students must be currently enrolled at this college to receive credit by examination. Students may not request credit by examination in courses for which they are currently enrolled. Students may earn as many credits through examination as their ability permits and needs require, but the last 15 credit hours required for graduation in any degree or certificate program must be earned in residency. Credit by examination may be attempted only one time in any given course, and a grade of "C" or better must be earned in order for credit to be recorded. A student may use credit by examination for only three (3) credit hours to apply toward the degree requirements in history and only three (3) credit hours to apply toward the degree requirements in government.

NON-TRADITIONAL LEARNING
The College is committed to serve students and the community in the most effective manner possible while maintaining high standards of education. Students learn in a variety of ways and through a multitude of experiences; therefore, the College shall assess these learning activities and grant equivalent college credit according to the following guidelines:

1. A student must be currently enrolled in the College to receive equivalent credit for non-traditional learning.
2. Credit may be granted for non-traditional learning as it relates to specific courses offered by the college assessing the learning experiences. Credit will be awarded on a course by course basis only.
3. A student is required to complete at least 12 semester hours of course work with the District prior to awarding of equivalent credits for non-traditional activities. The "CR" grade is awarded for non-traditional course work accepted for credit.
4. Credit may be granted for occupational courses approved by the Texas Education Agency.

5. The number of equivalent credits awarded may not exceed the total number of credits required for the student's specific associate degree objective. No graduation, residency, degree or program requirements will be waived as a result of credits earned as provided by this policy.

Students desiring to take advantage of this opportunity should consult with the College Advocate For Non-traditional Learning for additional information. Students making application for assessment of prior learning through life experiences are required to enroll in a Human Development Course to facilitate the process.

FLEXIBLE ENTRY COURSES
In keeping with its commitment to meet individual educational needs, the College makes available Flexible Entry Courses. These courses are often self-paced, allowing students to work at their own speed. Students are cautioned to be aware of the time specified by the College as to when the course requirements need to be completed. Students may register for Flexible Entry Courses during the pre-semester registration periods or at regular times during the semester. Students should check with the Registrar to determine times for registration in these courses. Approval must be obtained for enrollment.

TELECOURSES
Students may take a variety of college credit courses via television. The schedule of telecourses varies each semester and may include courses in anthropology, astronomy, business, earth science, ecology, biology, English, economics, government, history, humanities, psychology, religion, and sociology. Content and credit for these courses are the same as for similar courses taken on campus. Telecourses include the viewing of television programs on KERA/Channel 13 and on cable, plus reading, study guide and writing assignments. Students come to the campus for an orientation session at the beginning of the semester, for one to four discussion meetings, for three or four tests, and for laboratory sessions in science courses having laboratories. These campus visits are normally scheduled for a time convenient to the students. Field trips are required in some courses.

Telecourses may be taken in conjunction with on-campus courses or by persons who are not enrolled in any on-campus courses. Students may register for telecourses by mail or through the regular on-campus registration process.
COOPERATIVE WORK EXPERIENCE EDUCATION

Students may enrich their education in certain career programs by enrolling in Cooperative Work Experience Courses. These courses allow students to combine classroom study with on-the-job experience at training stations approved by the College. Students must have completed at least two courses in their occupational major to be eligible for Cooperative Work Experience.

A full-time student (carrying 12 credit hours or more) must take two courses which relate to the student's work experience, and a maximum of 4 credit hours may be in Cooperative Work Experience. Part-time students (carrying under 12 credit hours) may take a maximum of 4 credit hours of work experience. They must be concurrently enrolled in a course related to their work experience (or a support course to be applied toward their occupational degree or certificate).

To enroll in a Cooperative Work Experience Course, students must have the approval of their instructor/coordinator. Course credit is awarded at the rate of 1 credit hour for each 80 hours of approved work experience during the semester. The 80 hours is approximately 8 hours per week during a fall or spring semester.

Additional information regarding Cooperative Work Experience may be secured from the Cooperative Education Office. The Technical/Occupational Programs having work experiences are indicated in the Course Descriptions Section of this catalog.

INTERNATIONAL STUDIES

Selected programs combine learning experiences with foreign travel. This travel-study is under the direct supervision of the faculty. These courses support specific learning objectives, and college credit may be earned by students who successfully meet the objectives.

HUMAN DEVELOPMENT

In Human Development Courses, students can explore the relationship between meaningful education and some of the dilemmas or questions commonly brought to college. "Why learn" and "how to learn" are put in a perspective of "who is to learn." These courses are taught by counselors and other qualified instructors. They offer academic credit which transfers to most surrounding four-year institutions. The courses in human development enhance the total curriculum and blend in with the total concept of the community college.

EVENING AND WEEKEND COLLEGE

In dynamic, growing communities such as those encompassing this college, people have continuing educational needs, yet many of them have work schedules and personal involvements which make it impossible for them to attend college during normal daytime hours. For this reason, evening and weekend college courses offer the same broad spectrum of programs available for full-time day students. Courses are offered both on campus and at selected community locations. Evening and weekend courses offer high quality instruction, excellent facilities, and a variety of student services, including counseling, health, library, bookstore, food services, financial aid, and recreation.

Instructors are selected from the College's own full-time staff, from outstanding Dallas area educators, and from other professional specialists interested in teaching. To enroll in the evening and weekend courses, contact the Director of Admissions. Information may also be obtained by contacting the Extended Day Administration Office.

COMMUNITY SERVICE PROGRAMS

Community Service Programs are an important element in the concept of the community college. They greatly expand the available opportunities for persons of all ages to participate in college programs and activities. And courses are offered throughout the year to meet a variety of community needs.

Community Service Programs are offered in the following categories:
- Continuing education opportunities for individuals who want to broaden their knowledge or learn new skills for different occupational fields.
- Cultural and community enrichment studies for groups and individuals seeking to enhance their quality of life.
- Personal entertainment and recreation for individuals wishing to explore new activities for personal growth and enjoyment.
- Resources for industry, government and professional groups needing to supplement their own training and development programs.

Community Service Programs offer short courses, seminars, workshops, and institutes. The type of course offering is determined by the nature of the material, instructional approach, and needs of the requesting individuals or organizations.

Generally there are no entrance requirements or examinations. Some courses may have age restrictions or may require a certain amount of experience for enrollment. Admission is on a first-come, first-served basis. All one need do to register is fill out the form and pay the fee. Classes and activities are held on campus and in a variety of locations throughout the community. Most classes and activities are conducted on weekday evenings, but many are also held on weekends and weekends.

Community Service Program instructors are professional men and women from the community who have proven experience in their fields. Their objective is to share their knowledge, insight, and experience, and to insure that students acquire a greater perspective of the subject and have a meaningful experience.

Although most Community Service Courses do not require textbooks, the nature of some special offerings do require the purchase of books or supplies. Students are notified of the need for texts and other materials at the first meeting.

Library privileges are available for Community Service students during the term they are registered. Contact the Community Service Office for further information.
CONTINUING EDUCATION UNITS (CEU'S)

Although no college credit is awarded for Community Service class participation. Continuing Education Units are transcripted for successful completion of most courses. The CEU, by nationwide definition, is "ten contact hours of participation in an organized continuing adult education or extension experience under responsible sponsorship, capable direction, and qualified instruction." The CEU is a means of recording and accounting for the various continuing education activities one accumulates over a period of years.

V. STUDENT SERVICES

The College is committed to providing opportunities for each individual student's total educational development. Specific student services are integrated with the instructional program of the College to address individual needs for educational, personal, social, cultural, and career development.

STUDENT DEVELOPMENT AND ACTIVITIES

The Student Development Office plans and presents programs and activities for the general campus population. Programs often are coordinated with the various instructional divisions to provide students with valuable educational experiences. Many programs and activities are offered to help the student develop life enriching skills. Other programs provide students with interesting and entertaining ways to spend leisure time on campus. The goal of all programs is to facilitate the development of cultured and well-rounded human beings. Student participation in the operation of programs is highly encouraged.

GUIDANCE AND COUNSELING SERVICES

Individuals may find the counseling services helpful as they make plans and decisions in various phases of their development. For example, counselors can assist students in selecting courses of study, determining transferability of courses, choosing or changing careers, gaining independence, and confronting problems of daily living. Confidential assistance is provided by the counseling staff in the following areas:

1. Career counseling to explore possible vocational directions, occupational information, and self-appraisals of interest, personality and abilities.

2. Academic advisement to examine appropriate choices of courses, educational plans, study skills, and transferability of courses.

3. Confidential personal counseling to make adjustment and life decisions about personal concerns.

4. Small group discussions led by counselors and focusing on such areas as interpersonal relationships, test anxiety, and assertiveness. Counselors will consider forming any type of group for which there is a demand.

5. Standardized testing to provide additional information about interests, personality and abilities needed in planning and making decisions.

6. Referral sources to provide in-depth assistance for such matters as legal concerns, financial aid, tutoring, job placement, medical problems, or psychological problems.

TUTORING SERVICES

For students needing special temporary assistance in course work, tutoring services are available. Students are encouraged to seek services through self referral as well as through instructor referral.

TESTING AND EVALUATION CENTER

The Testing Center administers various tests. Types of tests include:

1. Psychological tests of personality, vocational interests, and aptitudes.

2. Academic tests for college instructional programs. Many courses are individualized and self-paced, permitting students to be tested at appropriate times.

3. Assessment tests for appropriate class placement. These tests are very strongly recommended to insure student success.

4. Tests for selected national programs.

HEALTH CENTER

Health is the most fundamental human need, and a high standard of physical and mental health is a basic right of every human being. The Health Center helps maintain and promote the health of students, faculty, and staff. Services provided by the Health Center include education and counseling about physical and emotional health, emergency first aid treatment, referral services to community agencies and physicians, free tuberculin skin tests and other screening programs, and programs of interest to students and faculty.

Students are encouraged to make an appointment with the nurse to discuss specific health problems. No information on a student's health is released without written permission from the student, except as required by law.
SERVICES FOR HANDICAPPED STUDENTS

The Services for Handicapped Students Office offers a variety of support services to enable handicapped students to participate in the full range of college experiences. Services are arranged to fit the individual needs of the student and include interpreters, notetakers, tutors, mobility assistants, loan of wheelchairs, readers for the blind, and tape recorders. Handicapped students should contact the office at least one month before registration. The office will provide students with an orientation session and registration information. For additional information, contact the Services for Handicapped Students Office or the Counseling Center.

STUDENT ORGANIZATIONS

Information about participation in any organization may be obtained through the Student Development Office. The development of student organizations is determined by student interest. Categories of organizations include:

- Co-curricular organizations pertinent to the educational goals and purposes of the College.
- Social organizations to provide an opportunity for friendships and promote a sense of community among students.
- Service organizations to promote student involvement in the community.
- Pre-professional and academic organizations to contribute to the development of students in their career fields.

INTERCOLLEGIATE ATHLETICS

Participation on athletic teams is voluntary on a non-scholarship basis for students who meet requirements established by the Metro Athletic Conference. For more information regarding eligibility, rules, standards, and sports offered, contact the Physical Education Office.

INTRAMURAL SPORTS

The College provides a campus intramural program for students and staff and encourages participation. For additional information contact the intramural director in the Physical Education Office or the Student Development Office.

HOUSING

The College does not operate dormitories of any kind or maintain listings of available housing for students. Students who do not reside in the area must make their own arrangements for housing.

CAMPUSECURITY

Campus security is required by State law to "protect and police buildings and grounds of state institutions of higher learning." Because all laws of the state are in full force within the campus community, specially trained and educated personnel are commissioned to protect College property, personal property, and individuals on campus. Security officers are certified peace officers. They have the power to enforce all Texas laws and rules, regulations, and policies of the College, including the Code of Student Conduct.
VI. FINANCIAL AID

Students who need financial aid to attend college can apply for grants, scholarships, loans, or job opportunities. These aid opportunities are provided in the belief that education should not be controlled by the financial resources of students. Students needing financial assistance are encouraged to complete an application well in advance of registration for the semester they wish to attend. Early application allows the Financial Aid Office to prepare a realistic financial aid package.

Some of the grant, scholarship, loan and job programs available to students are outlined in the following paragraphs. Contact the Financial Aid Office for detailed information about any program.

**BEOG GRANT**

The BEOG Grant is a federally funded program designed to help undergraduate pre-baccalaureate students continue their education. The purpose of this program is to provide eligible students with a "foundation" of financial aid to assist with the costs of attending college.

All students applying for financial assistance through the College must apply for a BEOG Grant. Other types of financial aid may be awarded if the student applies and qualifies. Eligibility for BEOG Grant is based on "financial need" and satisfactory academic progress. Applications and additional information concerning the BEOG Grant Program are available in the Financial Aid Office and in the counseling offices of most high schools. The application process takes approximately four to six weeks. In response to the BEOG Grant application, a Student Eligibility Report (SER) will be mailed directly to the student. The student should immediately review the SER to make sure it is correct and bring it to the Financial Aid Office. The exact amount of the BEOG Grant award will depend upon the eligibility index on the SER and the number of hours for which the student enrolls. In order to be eligible, a student must enroll for at least 6 credit hours each semester. Students must apply each year.

**SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)**

The SEOG is a Federal program to help pre-baccalaureate students with eligibility based solely on need. The amount of a SEOG award depends on the individual student's needs, the total number of applicants, and funds available. The SEOG must be matched by other sources of aid, such as BEOG, College Work/Study Program, private scholarships, etc. To be eligible, students must enroll for at least 6 credit hours, make satisfactory progress toward their educational goal and have financial need. Students must apply each year for the SEOG.

**TEXAS PUBLIC EDUCATIONAL GRANT (TPEG)**

The TPEG is a State Program to assist students attending state-supported colleges. To be eligible, students must make satisfactory progress toward their educational goal and have financial need according to an approved needs analysis system. Grants are awarded by eligibility on a first-come, first-served basis. Students must apply each year for the TPEG.

**STATE STUDENT INCENTIVE GRANT (TPEG-SSIG)**

The TPEG-SSIG is a State program. To qualify, students must enroll and remain in 12 credit hours per semester, make satisfactory progress toward their educational goal, be enrolled in an undergraduate course of study (not possess a bachelor's or graduate degree), be a Texas resident, and have financial need. Grants are awarded by eligibility on a first-come, first-served basis. Students must apply each year for the TPEG-SSIG.

**HINSON-HAZLEWOOD COLLEGE STUDENT LOAN PROGRAM**

The Hinson-Hazlewood College Student Loan Program is a state operated, federally insured student loan program. To qualify, students must enroll on at least a half-time basis (6 credit hours in the fall or spring semester), be a Texas resident, and have financial need. Grants are awarded by eligibility on a first-come, first-served basis. Students must apply each year for the TPEG-SSIG.

**STUDENT EMPLOYMENT**

The College Work/Study Program is a Federal program to assist students through jobs both on and off campus. To be eligible, students must demonstrate financial need, be enrolled in 6 or more credit hours, and make satisfactory progress toward their educational goal. Students will generally work 20 hours per week. The Student Employment Program provides some jobs on campus for students who do not meet the financial need requirement of the College Work/Study Program. Students must be enrolled in 6 or more credit hours and make satisfactory progress toward their educational goal. Students will generally work 20 hours per week.

**SOCIAL SECURITY ADMINISTRATION**

The Social Security Administration offers benefits to students who meet its criteria. The Admissions Office acts as liaison between students and the Social Security Administration. Students need to contact the regional Social Security Administration Office regarding eligibility.

**BUREAU OF INDIAN AFFAIRS**

The Bureau of Indian Affairs offers educational benefits to American Indian students. Students need to contact the regional Bureau of Indian Affairs Office regarding eligibility.

**VOCATIONAL REHABILITATION**

The Texas Rehabilitation Commission offers assistance for tuition and fees to students who are vocationally handicapped as a result of a physically or mentally disabling condition. For further information, contact Texas Rehabilitation Commission, 13612 Midway, Suite 530, Dallas, Texas 75234.
VETERANS' BENEFITS PROGRAM
The Veterans' Benefits Program is co-ordinated by the Veterans Affairs Office of the College. Services of this office include counseling the veteran concerning benefits, Veterans Administration loans, Veterans Administration work study programs, financial problems, career counseling, and other areas related to the veteran's general welfare. When testing indicates that a veteran should enroll in developmental courses such as reading, writing, or math, the student may pursue these courses with no charge to his or her benefits. Tutoring services are also available to the veteran who is having learning difficulties in one or more subjects. The veteran student should be aware of some of the Veterans Administration guidelines. Violation of these guidelines causes complications in receiving monthly benefits or loss of those benefits.

1. Class attendance is mandatory. Failure to attend class results in suspension from class.
2. A veteran student who plans to enroll in developmental courses must be tested and show a need in basic skills before enrolling in these courses.
3. A veteran student enrolled in television courses must be pursuing more on-campus credit hours than hours taken by television.
4. A veteran student who has successfully completed credit hours at another college or university must submit a transcript from that college or university before applying for V.A. benefits. The transcript is evaluated and credit granted when applicable.
5. A veteran student must enroll in courses required for a degree program. Information on degree requirements may be obtained from the Registrar's Office.
6. A veteran student who withdraws or who is dropped from all courses attempted during a semester is considered as making unsatisfactory progress by the V.A. and may lose future benefits. A veteran student must also maintain a satisfactory grade point average as outlined in the catalog.

The above V.A. regulations are subject to change without notice. Students should contact the Veterans Affairs Office in order to be aware of current regulations and procedures.

HAZLEWOOD ACT
Under the Hazlewood Act certain veterans who have exhausted remaining educational benefits from the Veterans Administration can attend Texas state-supported institutions and have some fees waived. To be eligible, students must have been residents of Texas at the time they entered the service, have an honorable discharge and must now be residents of Texas. To apply, students must submit a Hazlewood Act application and a copy of their discharge papers to the Financial Aid Office.

ACADEMIC PROGRESS REQUIREMENT
Students who receive financial aid are required by government regulations to make measurable progress toward the completion of their course of study. For a detailed description of the requirements, contact the Financial Aid Office.

SHORT-TERM LOANS
The College offers students short-term loans. Normally, a loan would not exceed tuition, fees, and books, but check with the Financial Aid Office for further details. The loan must be repaid within sixty to ninety days or before the end of the semester in which the money is borrowed.

JOB PLACEMENT SERVICES
The Placement Office is available to assist any student in job placement, either on or off-campus. Job openings are listed in the Placement Office. The Placement Office also works directly with students and community employers to locate jobs and students qualified to fill them. Career placement assistance is available for students nearing the end of their course of study. In addition to listing full-time career opportunities, the Placement Office also assists students in developing resumes, preparing for interviews, and developing successful job search strategies.
VII. STUDENT CODES AND EXPECTATIONS

a. Purpose

It is the purpose of this Student Code and the Code of Conduct to enable students to become responsible members of society. The Code of Conduct is designed to ensure that students respect the rights of others and the community.

b. Inviolable Standards

Each student is expected to comply with all laws, regulations, and policies governing the campus. Violation of these standards may result in disciplinary action.

c. Definitions

For the purposes of this Code, students are defined as any individual enrolled at the college, including those who are temporarily or permanently absent.

2. Standards of Conduct

a. Basic Standard: The basic standard of behavior required of a student is as follows:

(1) To violate no municipal, State, or Federal laws, and

(2) To live in harmony with the established rules and regulations of the college.

b. Enumerated Standards: The following regulations are intended to promote the welfare of the student body and the college.

III. STUDENT CODES AND EXPECTATIONS

a. Purpose

It is the purpose of this Student Code and the Code of Conduct to enable students to become responsible members of society. The Code of Conduct is designed to ensure that students respect the rights of others and the community.

b. Inviolable Standards

Each student is expected to comply with all laws, regulations, and policies governing the campus. Violation of these standards may result in disciplinary action.

c. Definitions

For the purposes of this Code, students are defined as any individual enrolled at the college, including those who are temporarily or permanently absent.

2. Standards of Conduct

a. Basic Standard: The basic standard of behavior required of a student is as follows:

(1) To violate no municipal, State, or Federal laws, and

(2) To live in harmony with the established rules and regulations of the college.

b. Enumerated Standards: The following regulations are intended to promote the welfare of the student body and the college.

V. EDUCATION CODE SECTION 4.010 PROVIDES:

(a) No person or group of persons acting in concert may willfully engage in disruptive activity or disrupt a lawful assembly, movement, or other primary purpose of a school or institution of higher education of public vocational and technical schools.

(b) For the purposes of this section, disruptive activity means:

(1) Obstructing or restraining the passage of persons in an exit or entrance, or any building without the authority of the school

(2) Preventing or attempting to prevent by force or violence or the threat of force or violence any lawful assembly authorized by the school

(3) Preventing or attempting to prevent by force or violence or the threat of force or violence any lawful assembly in progress;

(4) Obstructing or restraining the passage of any person in an exit or entrance, or any building without the authority of the school

(c) Any person who violates any provisions of this section is guilty of a misdemeanor and upon conviction is punishable by a fine not to exceed $200 or by confinement in jail not less than 10 nor more than 30 days.
3. Disciplinary Proceedings

a. Administrative Disposition

(1) Investigation, Conference, and Complaint

(a) When the Vice President of Student Services receives information that a student has allegedly violated a Board policy, college regulation, or administrative rule, the Vice President or a subordinate delegated by him shall investigate the alleged violation. After completing the preliminary investigation, the Vice President may:

(i) Dismiss the allegation as unfounded, either before or after a hearing with the student; or

(ii) Proceed administratively under 3(b)(3). or

(iii) Prepare a complaint based on the allegations for a disciplinary hearing along with a list of documentary evidence supporting the allegations.

(b) The President may take immediate action in disciplinary actions to require a student to be present on the campus, and to attend classes, or otherwise alter the status of a student for violation of a Board policy, college regulation, or administrative rule, when in the opinion of such official the interest of the College would best be served by such action.

(c) No person shall search a student's personal possessions for the purpose of enforcing this code unless the individual's prior permission has been obtained. Searches of student vehicles or possessions shall be only authorized by law.

(d) Summons

(i) A student may be summoned to appear in connection with an alleged violation by sending him a letter by certified mail, return receipt requested, addressed to the student at the home address appearing in the Registrar's Office records. It is the student's responsibility to immediately notify the Registrar's Office of any change of address. The letter shall state the time and place at which the student may be required to appear.

(ii) If notice of summons is timely given as hereinafter provided, the Vice President of Student Services, at the discretion of the President, may administer such summons by mail or personal service. The letter shall specify a hearing date not less than 10 days after the date of the letter. If the student is under 18 years of age, a copy of the letter shall be sent to the parents or guardian.

(iii) The letter shall be sent to the vice president of the college before the Student Discipline Committee and present evidence to support any allegations of violations of Board policy, college regulations, or administrative rules. The Vice President of Student Services may be assisted by legal counsel whom in the opinion of the Vice President of Student Services the best interests of the student or the College would be served by such assistance.

(e) Notice

(i) The Committee shall notify the student of the date, time, and place for the hearing in writing. The letter shall also describe the nature of the charges, his rights to a hearing or waiver of the hearing, his right to appear in person or by counsel, and his right to present evidence.

(ii) To appear at a hearing or by legal counsel when the charges have been evaluated as minor violations or major violations.

(iii) To have his parents or legal guardian present at the hearing.

(iv) To know the identity of each witness who will testify against him.

(v) To cause the Committee to summon witnesses, require the production of documentary and other evidence possessed by the College, and to offer evidence and argue a case in his own behalf.

(vi) To examine and cross-examine each witness who testifies against him.

(vii) To have a stenographer present at the hearing to make a stenographic transcript of the hearing, and all evidence and testimony of the electronic means.

(viii) To appeal to the Student Faculty Board of Review.

(2) Board Composition

(a) The President shall appoint Boards of Review to hear appeals under this code. Each such Board shall have three members, the names of which shall be published in the College newspaper and be available to the public.

(b) The Chairmen of the Board of Review shall be selected in the following order: representatives of the College Council, the President of Student Services, and the President of the College Council. The appointment must be made in writing on or before the third day following administrative disposition. The Committee shall be composed of the full-time administrative officers of the College. The President shall be appointed by the President for each hearing on a rotating basis or on a basis of availability.

(b. Student Discipline Committee

(1) Comprisition

(a) When a student refuses administrative disposition of either a major or minor violation, he is entitled to a hearing before the Student Discipline Committee. This request must be made in writing on or before the third day following administrative disposition. The Committee shall be composed of the full-time administrative officers of the College. The President shall be appointed by the President for each hearing on a rotating basis or on a basis of availability.

(b. The Student Discipline Committee shall elect a Chairman from the three appointed members. The Chairman of the Committee shall have the authority to settle disputes, overruled motions, and objections to procedure, but a majority of the committee members may override the Chairman's ruling. All members of the Committee are eligible to vote in the hearing.

(c) Chairman: The Chairman shall set the date, time, and place for the hearing; and notify the parties concerned of the rights of the student to be represented by legal counsel, to present evidence and argument, and to the procedures of the hearing.

(d) The Vice President of Student Services shall provide the College with adequate hearings, discipline, and penalties on the accused.

(e) The Committee shall consider all evidence and testimony and make a determination of guilt and penalty. The Committee shall determine the appropriate penalty.

(f) The Vice President of Student Services shall present the case, and the student may present defenses. The Vice President of Student Services and the student may present rebuttal evidence and argument.

(g) The Committee shall vote the issue of whether or not there has been a violation of Board policy, college regulation or administrative rule, and the penalty determined. Each committee member concurring in the finding and penalty shall sign the statement. The Committee shall state in its statement its reasons for the finding and penalty.

(3) Evidence:

(a) Legal rules of evidence shall not apply to hearings before the Student Discipline Committee, and the Committee may adopt and give probative effect to evidence that would otherwise be inadmissible but which it deems common and commonly accepted by reasonable men in the conduct of their affairs. The Committee shall exclude irrelevant, immaterial and unduly repetitious evidence.

(b) The Committee shall recognize privileged communications between a student and a member of the professional staff of the Health Center, Counseling and Guidance Center, or the Office of the Vice President of Student Services where such communications were made in the course of performance of professional duty. Any such disclosure discussed understood by the staff members and the student to be confidential. Committee members may freely question witnesses.

(c) The Committee shall presume a student innocent of the alleged violation until he is convinced by clear and convincing evidence that the student violated a Board policy, college regulation or administrative rule.

(d) All evidence shall be offered to the Committee during the hearing and made a part of the hearing record. Documentary evidence may be admitted in the form of copies of extraneous, but by incorporation by reference. Real evidence may be photographed or described.

(e) A student defendant may not be compelled to testify against himself.

(f) Record

(i) The hearing record shall include a copy of the notice of hearing, all documentary and other evidence offered or received at the hearing, and all final orders, findings, and any other materials considered by the Committee and the Committee's decision.

(ii) Notice of appeal timely given as hereinafter provided, the Vice President of Student Services at the direction of the Committee shall hear the appeal and make a part of the hearing record. Documentary evidence may be admitted in the form of copies of extraneous, but by incorporation by reference. Real evidence may be photographed or described.

(iii) A student defendant may not be compelled to testify against himself.

(ii) Faculty Student Board of Review

(1) Right to Appeal

(a) In those cases in which the disciplinary penalty imposed was not the prescribed penalty, the student may appeal the decision of the Student Discipline Committee, or the decision of the President in an interim action. Students appeal to the Board of Review. Disciplinary actions taken under 4(a) through (f) cannot be appealed beyond the Student Discipline Committee. A student appealing by giving written notice to the Vice President of Student Services on the day he or she receives the notice of appeal, or, in the case of a disciplinary action a penalty imposed, shall be entitled to this procedure. The appeal shall begin within 10 days after the decision has been rendered. The decision of the Board of Review is final, and no appeal may be taken therefrom.

(b) Board Composition

(i) The President shall appoint Boards of Review to hear appeals under this code. Each such Board shall have three members, the names of which shall be published in the College newspaper and be available to the public.

(ii) The Board shall be composed of representatives of the College Council, the President of Student Services, and the President of the College Council.
(b) The Review Panel shall have twenty-five (25) members, selected as follows:

(i) Fifteen (15) representatives from the faculty (recommended by the President of the Faculty Association and appointed by the President of the College for three-year staggered terms)

(ii) Ten (10) students shall be appointed by the President of the College for one-year terms. Student members must have an overall 2.0 average on all college work attempted at the time of the nomination and must not have a disciplinary case pending.

(c) The President shall instruct the Board of Review members on students' disciplinary policies, rules and hearing procedures as soon as practicable after the members are appointed.

(3) Consideration of Appeal

(a) The Board of Review shall consider each appeal on the record of the Student Disciplinary Committee and, for good cause shown, original evidence and newly discovered evidence may be presented.

(b) Upon timely appeal, the President shall appoint a Board of Review as provided and shall notify the student appealing and the Vice President of Student Services in writing of the time, date, and place of the hearing as determined by the President.

(c) The President shall designate one of the members of the Board of Review to serve as Chairman.

(d) Appellate hearings will follow the procedures prescribed in 3b of this code.

(e) The Board of Review shall hear oral argument and receive written briefs from the student appellant and Vice President of Student Services or their representatives.

(f) The Board of Review, after considering all evidence, may affirm the Student Disciplinary Committee’s decision, reduce the penalty determined or otherwise modify the decision of the Student Disciplinary Committee, or dismiss the complaint.

(g) The Board of Review shall modify or set aside the finding of violation or penalty only if the substantial rights of the student were prejudiced because the Student Disciplinary Committee’s finding of facts conclusions or decisions were

(i) In violation of a Federal or State law, Board policy, college regulation, administrative rule, or authorized procedure;

(ii) Clearly erroneous in view of the relative probative and substantial evidence on the complete hearing; or

(iii) Capricious, or improperly motivated by ulterior motive or discrimination or clearly unwarranted exercise of discretion.

(h) The Board of Review may not increase a penalty assessed by the Student Disciplinary Committee.

(b) Petition for Administrative Review

(a) A student who disagrees with the action of the Board of Review may submit a written request for review to the President of the College. The President shall automatically review every appeal of a decision of the Board of Review.

(b) A petition for review is informal but shall contain, in addition to the information required by the President of the Board of Review’s action on the student’s appeal and his reasons for disagreeing with the Board’s action. A student shall file his petition within ten days after the date of the Board of Review’s action on the appeal. If the President rejects the petition, the student may appeal the decision to the Board of Review.

(c) If the President rejects the petition, the student may appeal the decision to the Board of Review.

(d) The Board of Review shall act upon the petition within ten days after the date of the Board of Review’s action on the appeal. If the President rejects the petition, the student may appeal the decision to the Board of Review.

(e) The Board of Review shall consider the petition on the record of the Student Disciplinary Committee and, for good cause shown, original evidence and newly discovered evidence may be presented.

(f) The Board of Review may affirm the Student Disciplinary Committee’s decision, reduce the penalty determined or otherwise modify the decision of the Student Disciplinary Committee, or dismiss the complaint.

(g) The Board of Review shall render a decision in writing within ten days after the date of the Board of Review’s action on the appeal. The decision of the Board of Review is final and binding on the student.

(h) The Board of Review announces its action on the appeal.

(i) The President or the Board of Review may take any action that the Student Disciplinary Committee is authorized to take. They may receive written briefs and hear oral argument during their review.

4. Penalties

(a) Authorized Disciplinary Penalties: The Vice President of Student Services, under 3b, or the Faculty-Student Board of Review, under 3e, may impose one or more of the following penalties for violation of a Board policy, college regulation, administrative rule or authorized procedure:

(i) Admonition

(ii) Warning probation

(iii) Disciplinary probation

(iv) Withholding of transcript or degree

(v) Bar against admission

(vi) Restitution

(vii) Suspension of rights and privileges

(viii) Suspension of eligibility for official athletic and non-athletic extracurricular activities

(ix) Denial of degree

(x) Suspension from the College

(xi) Expulsion from the College

(b) Definitions: The following definitions apply to the penalties provided in 4a:

(1) An “Admonition” is a written reprimand furnished by the Vice President of Student Services to the student against whom it is imposed.

(2) A “Warning probation” means that further violations may result in suspension. Disciplinary probation may be imposed for any length of time up to one calendar year and the student shall be automatically removed from probation when the imposed period expires.

(3) “Disciplinary probation” means that further violations may result in suspension. Disciplinary probation may be imposed for any length of time up to one calendar year and the student shall be automatically removed from probation when the imposed period expires.

(4) “Withholding of transcript or degree” is imposed upon a student who fails to pay a debt owed the College or who has a disciplinary case pending final disposition. The penalty terminates on payment of the debt or final disposition of the case.

(5) “Bar against admission” is imposed upon a student who has failed to pay a debt owed the College or who has a disciplinary case pending final disposition. The penalty terminates on payment of the debt or final disposition of the case.

(6) “Restitution” is reimbursement for damage to or misappropriation of property. Restitution may take the form of appropriate service to repair or otherwise compensate for damages.

(7) “Disciplinary suspension” may be either or both of the following:

(a) Suspension of rights and privileges: An order which may impose limitations or restrictions upon the student's activities within the College's campus community.

(b) Suspension of eligibility for official athletic and non-athletic extracurricular activities: A penalty which may be imposed for any length of time up to one calendar year and which may be followed by ineligibility for any length of time up to and including permanent denial.

(c) “Suspension of rights and privileges” is an order which may impose limitations or restrictions upon the student's activities within the College's campus community.

(d) “Suspension of eligibility for official athletic and non-athletic extracurricular activities” is an order which may impose limitations or restrictions upon the student's activities within the College's campus community.

(e) “Suspension of rights and privileges” is an order which may impose limitations or restrictions upon the student's activities within the College's campus community.

(f) “Suspension of eligibility for official athletic and non-athletic extracurricular activities” is an order which may impose limitations or restrictions upon the student's activities within the College's campus community.

(g) “Suspension of rights and privileges” is an order which may impose limitations or restrictions upon the student's activities within the College's campus community.

(h) “Suspension of eligibility for official athletic and non-athletic extracurricular activities” is an order which may impose limitations or restrictions upon the student's activities within the College's campus community.

(i) “Suspension of rights and privileges” is an order which may impose limitations or restrictions upon the student's activities within the College's campus community.

(j) “Suspension of eligibility for official athletic and non-athletic extracurricular activities” is an order which may impose limitations or restrictions upon the student's activities within the College's campus community.
DEFINITION OF TERMS

The following terms are used throughout the catalog and particularly in this section of Course Descriptions. A brief explanation follows each term.

1. Concurrent Enrollment
   (a) Enrollment by the same student in two different colleges of the District at the same time, or (b) enrollment by a high school senior in a high school and one of the District colleges at the same time, or (c) enrollment by a student in two related courses in the same semester.

2. Contact Hours - The number of clock hours a student spends in a given course during the semester.

3. Credit Hours (Cr.) - College work is measured in units called credit hours. A credit hour value is assigned to each course and is normally equal to the number of hours the course meets each week. Credit hours are sometimes referred to as semester hours.

4. Elective - A course chosen by the student that is not required for a certificate or degree.

5. Flexible Entry Course - A course that permits beginning or ending dates other than the beginning or ending of the semester. Consult the class schedule for further information.

6. Laboratory Hours (Lab.) - The number of clock hours in the fall or spring semester the student spends each week in the laboratory or other learning environment.

7. Lecture Hours (Lec.) - The number of clock hours in the fall or spring semester the student spends each week in the classroom.

8. Major - The student’s main emphasis of study (for example, Automotive Technology, Psychology, etc.)

9. Performance Grades - Grades assigned point values, including A, B, C, D, and F.

10. Prerequisite - A course that must be successfully completed or a requirement such as related life experiences that must be met before enrolling in another course.

In the following course descriptions, the number of credit hours for each course is indicated in parenthesis opposite the course number and title. Courses numbered 100 (except Music 199, Art 199 and Theater 199) or above may be applied to requirements for associate degrees. Courses numbered below 100 are developmental in nature and may not be applied to degree requirements. Students are urged to consult their counselors or specific college catalogs for information about transferability of courses to four-year institutions. Course prerequisites may only be waived by the appropriate division chairperson.

All courses listed in this catalog may not be offered during the 1980-1981 year.
ACCOUNTING (ACC) 131 (3)  
BOOKKEEPING I (3 LEC.)
The fundamental principles of double-entry bookkeeping are presented and applied to practical business situations. Emphasis is on financial statements, trial balances, work sheets, special journals, and adjusting and closing entries. A practice set covering the entire business cycle is completed.

ACCOUNTING (ACC) 132 (3)  
BOOKKEEPING II (3 LEC.)
Prerequisite: Accounting 131. This course covers accruals, bad debts, taxes, depreciation, controlling accounts, and business vouchers. Bookkeeping for partnerships and corporations is introduced.

ACCOUNTING (ACC) 201 (3)  
PRINCIPLES OF ACCOUNTING I (3 LEC.)
This course covers the theory and practice of measuring and interpreting financial data for business units. Topics include depreciation, inventory valuation, credit losses, the operating cycle, and the preparation of financial statements. (This course is offered on campus and may be offered via television.)

ACCOUNTING (ACC) 202 (3)  
PRINCIPLES OF ACCOUNTING II (3 LEC.)
Prerequisite: Accounting 201. Accounting procedures and practices for partnerships and corporations are studied. Topics include cost data and budget controls. Financial reports are analyzed for use by creditors, investors, and management.

ACCOUNTING (ACC) 203 (3)  
INTERMEDIATE ACCOUNTING I (3 LEC.)
Prerequisite: Accounting 202. This course is an intensive study of the concepts, principles, and practice of modern financial accounting. Included are the purposes and procedures underlying financial statements.

ACCOUNTING (ACC) 204 (3)  
MANAGERIAL ACCOUNTING (3 LEC.)
Prerequisite: Accounting 202. This course is a study of accounting practices and procedures used to provide information for business management. Emphasis is on the preparation and internal use of financial statements and budgets. Systems, information, and procedures used in management planning and control are also covered.

ACCOUNTING (ACC) 205 (3)  
BUSINESS FINANCE (3 LEC.)
Prerequisites: Economics 201 or 202 and Accounting 201. This course focuses on the financial structure in the free enterprise system. Topics include interest rates, value analysis, the financing of business firms and government, and security markets. Financial requirements for decision-making and capital formation are analyzed.

ACCOUNTING (ACC) 207 (3)  
INTERMEDIATE ACCOUNTING II (3 LEC.)
This course continues Accounting 203. Principles and problems in fixed liabilities and capital stock are examined. Equities, business combinations and the analysis and interpretation of supplementary statements are also included.

ACCOUNTING (ACC) 238 (3)  
COST ACCOUNTING (3 LEC.)
Prerequisite: Accounting 202. The theory and practice of accounting for a manufacturing concern are presented. The measurement and control of material, labor, and factory overhead are studied. Budget, variance analysis, standard costs, and joint and by-product costing are also included.

ACCOUNTING (ACC) 239 (3)  
INCOME TAX ACCOUNTING (3 LEC.)
Prerequisite: Accounting 202 or the consent of the instructor. This course examines basic income tax laws which apply to individuals and sole proprietorships. Topics include personal exemptions, gross income, business expenses, non-business deductions, capital gains, and losses. Emphasis is on common problems.

ACCOUNTING  
ACC 703, 713, 803, 813  
(See Cooperative Work Experience)

ACCOUNTING  
ACC 704, 714, 804, 814  
(See Cooperative Work Experience)

ALLIED HEALTH TECHNOLOGY (AHT)  
100 (4)  
INTRODUCTION TO ALLIED HEALTH TECHNOLOGY (3 LEC., 3 LAB.)
Prerequisites: "C" or better in Allied Health Technology 130. This course provides an orientation to histotechnology laboratory procedures and polices. Emphasis is placed on supervised practical experience with selected laboratory equipment.

ALLIED HEALTH TECHNOLOGY (AHT)  
200 (6)  
INTRODUCTION TO HISTOTECHNOLOGY (1 LEC., 35 LAB.)
Prerequisites: "C" or better in Allied Health Technology 130. This course provides an introduction to histotechnology laboratory procedures and policies. Emphasis is placed on supervised practical experience with selected laboratory equipment.

ALLIED HEALTH TECHNOLOGY (AHT)  
206 (4)  
HISTOLOGIC TECHNIQUES (4 LEC.)
Prerequisites: "C" or better in Allied Health Technology 200. This course provides theory and basic techniques in the areas of fixation, processing, staining, and microtomy.

ALLIED HEALTH TECHNOLOGY (AHT)  
210 (6)  
HISTOTECHNOLOGY PRACTICUM I (16 LAB.)
Prerequisites: "C" or better in Allied Health Technology 200. This course provides the student with supervised laboratory experience in an assigned hospital histology laboratory.

ALLIED HEALTH TECHNOLOGY (AHT)  
215 (1)  
RECORDS AND ADMINISTRATION (1 LEC., 2 LAB.)
Prerequisites: "C" or better in Allied Health Technology 206 and 210. This course provides experience in histology record keeping and administration.

ALLIED HEALTH TECHNOLOGY (AHT)  
216 (6)  
HISTOTECHNOLOGY PRACTICUM II (16 LAB.)
Prerequisites: "C" or better in Allied Health Technology 206 and 210. This course is a continuation of Histotechnology Practicum I providing the student with supervised laboratory experience in an assigned hospital histology laboratory.
ALLIED HEALTH TECHNOLOGY (AHT)
218 (5)
SPECIAL TECHNIQUES (5 LEC.)
Prerequisites: "C" or better in Allied Health Technology 208 and 210. This course provides instruction in histological special staining and techniques.

ALLIED HEALTH TECHNOLOGY (AHT)
220 (5)
NUCLEAR MEDICINE PHYSICS (4 LEC., 4 LAB.)
Prerequisites: "C" or better in Allied Health Technology 130. This course provides an introduction to nuclear medicine physics. Atomic theory, radiation safety, radiation detection instruments, and imaging devices are some of the topics discussed. Techniques are demonstrated in laboratory sessions.

ALLIED HEALTH TECHNOLOGY (AHT)
224 (4)
CLINICAL NUCLEAR MEDICINE (3 LEC., 4 LAB.)
Prerequisites: "C" or better in Allied Health Technology 130. This course provides instruction in histological special staining and techniques. Careful attention is placed on radiopharmaceutical preparations and radiochemistry. Techniques are demonstrated in laboratory sessions.

ALLIED HEALTH TECHNOLOGY (AHT)
226 (3)
RADIOCHEMISTRY-PHARMACY I (2 LEC., 4 LAB.)
Prerequisites: "C" or better in Allied Health Technology 130. An introduction to the in vitro nuclear medicine laboratory is presented. Emphasis is placed on radiopharmaceutical preparations and radiochemistry. Techniques are demonstrated in laboratory sessions.

ALLIED HEALTH TECHNOLOGY (AHT)
228 (1)
NUCLEAR MEDICINE PRACTICUM I (7 LAB.)
Prerequisites: "C" or better in Allied Health Technology 130. This course provides instruction in histological special staining and techniques. Careful attention is placed on radiopharmaceutical preparations and radiochemistry. Techniques are demonstrated in laboratory sessions.

ALLIED HEALTH TECHNOLOGY (AHT)
230 (1)
RADIATION BIOLOGY (1 LEC.)
Prerequisites: "C" or better in Allied Health Technology 240, 242, and 250. This course provides instruction in the theory of radiobiology. An understanding of the interactions between ionizing radiation and living tissue with emphasis on fundamental radiological principles and practical applications to clinical radiation therapy is developed.

ALLIED HEALTH TECHNOLOGY (AHT)
232 (3)
RADIOCHEMISTRY-PHARMACY II (2 LEC., 4 LAB.)
Prerequisites: "C" or better in Allied Health Technology 220, 224, and 226. In vitro nuclear medicine techniques are continued with emphasis on radiochemistry-pharmacy. Techniques are demonstrated in laboratory sessions.

ALLIED HEALTH TECHNOLOGY (AHT)
234 (1)
RADIATION THERAPY (1 LEC.)
Prerequisites: "C" or better in Allied Health Technology 220, 224, and 226. This course provides instruction in radiation therapy. Topics discussed include the therapeutic uses of radionuclides, health physics, and radiation safety.

ALLIED HEALTH TECHNOLOGY (AHT)
236 (2)
NUCLEAR MEDICINE PRACTICUM II (16 LAB.)
Prerequisites: "C" or better in Allied Health Technology 228. This course is a continuation of Nuclear Medicine Practicum I that provides the students with supervised clinical experiences in nuclear medicine.

ALLIED HEALTH TECHNOLOGY (AHT)
238 (1)
NUCLEAR MEDICINE SEMINAR (1 LEC.)
Prerequisites: "C" or better in Allied Health Technology 230, 232, and 234. Clinical experiences and problems that have been encountered in the nuclear medicine internship are discussed.

ALLIED HEALTH TECHNOLOGY (AHT)
239 (5)
NUCLEAR MEDICINE INTERNSHIP (35 LAB.)
Prerequisites: "C" or better in Allied Health Technology 230, 232, 234, and 236. In this course students receive practical nuclear medicine experience at affiliated hospitals.

ALLIED HEALTH TECHNOLOGY (AHT)
240 (2)
TECHNICAL RADIATION THERAPY (2 LEC.)
Prerequisites: "C" or better in Allied Health Technology 130. This course provides instruction in the therapeutic techniques and equipment used in radiation therapy.

ALLIED HEALTH TECHNOLOGY (AHT)
242 (2)
RADIATION ONCOLOGY I (2 LEC.)
Prerequisites: "C" or better in Allied Health Technology 130. This course provides instruction in radiation oncology. Specific target organ anatomy and physiology, pathology and staging, treatment planning, and dosimetry are topics of discussion.

ALLIED HEALTH TECHNOLOGY (AHT)
244 (2)
RADIATION ONCOLOGY II (2 LEC.)
Prerequisites: "C" or better in Allied Health Technology 242. This course is a continuing study in radiation oncology emphasizing specific target organ anatomy and physiology and staging, treatment planning, and dosimetry.

ALLIED HEALTH TECHNOLOGY (AHT)
246 (2)
RADIATION ONCOLOGY III (2 LEC.)
Prerequisites: "C" or better in Allied Health Technology 244. This course is a continuing study in radiation oncology emphasizing specific target organ anatomy and physiology, pathology and staging, treatment planning, and dosimetry.

ALLIED HEALTH TECHNOLOGY (AHT)
247 (1)
BRACHY THERAPY (1 LEC.)
Prerequisites: "C" or better in Allied Health Technology 240, 242, and 250. This course provides instruction in the theory and technique of brachytherapy. ECC ONLY

ALLIED HEALTH TECHNOLOGY (AHT)
250 (5)
RADIATION THERAPY PRACTICUM I (32 LAB.)
Prerequisites: "C" or better in Allied Health Technology 130. This course provides instruction in the theory of radiation physics. Therapy equipment, circuits, and calibration are discussed. ECC ONLY

ALLIED HEALTH TECHNOLOGY (AHT)
252 (5)
RADIATION THERAPY PRACTICUM II (50 LAB.)
Prerequisites: "C" or better in Allied Health Technology 250. This course is a continuation of Radiation Therapy Practicum I that provides the student with supervised clinical experience in radiation therapy. ECC ONLY

ALLIED HEALTH TECHNOLOGY (AHT)
253 (4)
RADIATION PHYSICS (4 LEC.)
Prerequisites: "C" or better in Allied Health Technology 240, 242, and 250. This course provides instruction in the theory of radiation physics. Therapy equipment, circuits, and calibration are discussed. ECC ONLY

ALLIED HEALTH TECHNOLOGY (AHT)
254 (6)
RADIATION THERAPY PRACTICUM III (32 LAB.)
Prerequisites: "C" or better in Allied Health Technology 252. This course is a continuation of Radiation Practicum II that provides the student with supervised clinical experience in radiation therapy.

APPAREL DESIGN I (APP) 232 (3)
DESIGN DEVELOPMENT (2 LEC., 4 LAB.)
Prerequisites: Sophomore standing and concurrent enrollment in Apparel Design 237 or the consent of the instructor. The principles of good design for mass-produced apparel are studied, especially as they apply to structural and decorative design. Careful attention is given to fabric selection and trimming that are appropriate for current styles. Laboratory fee.
APPAREL DESIGN II (APP) 233 (3)
DESIGN DEVELOPMENT (2 LEC., 4 LAB.)
Prerequisites: Sophomore standing and concurrent enrollment in Apparel Design 238 or the consent of the instructor. This is a continuation of Developing Design 238 or the consent of the instructor.
Concurrent enrollment in Apparel Development 239 is recommended. The student develops workroom sketches of designs for children, junior petite, junior, active sportswear, misses, and suits.

APPAREL DESIGN I (APP) 237 (2)
STYLE TRENDS AND RESEARCH (2 LEC.)
Prerequisites: Sophomore standing and concurrent enrollment in Apparel Design 233 or the consent of the instructor. This course is a study of current trends in the apparel industry. The student develops workroom sketches of designs for children, junior petite, junior, active sportswear, misses, and suits.

APPAREL DESIGN II (APP) 238 (2)
STYLE TRENDS AND RESEARCH (2 LEC.)
Prerequisites: Sophomore standing and concurrent enrollment in Apparel Design 233 or the consent of the instructor. This course is a continuation of the current trends in apparel industry. The student develops workroom sketches of designs for children, junior petite, junior, active sportswear, misses, and suits.

ARCHITECTURE (ARC) 128 (3)
HISTORY OF ARCHITECTURE I (3 LEC.)
This course includes the development of influences on architecture from ancient man through the Byzantine period.

ARCHITECTURE (ARC) 129 (3)
HISTORY OF ARCHITECTURE II (3 LEC.)
This course includes the development of influences on architecture from the Romanesque period to the Industrial Revolution.

ARCHITECTURE (ARC) 130 (3)
ARCHITECTURAL GRAPHICS I (2 LEC., 4 LAB.)
Orthographic projection, isometric and oblique drawing, shade and shadow are studied. Linework and lettering in pencil and ink are emphasized. Laboratory fee.

ARCHITECTURE (ARC) 133 (3)
ARCHITECTURAL GRAPHICS II (2 LEC., 4 LAB.)
Perspective drawing, shade and shadow are presented. Emphasis is on the theory of drawing, linework and lettering in pencil and ink. Laboratory fee.

ARCHITECTURE (ARC) 135 (3)
FREEHAND DRAWING II (2 LEC., 4 LAB.)
Drawing with pen and ink is the main focus. Also included is the use of brush with ink and ink washes for tonal effects. Exercises use book references, human models and indoor-outdoor sketching. Laboratory fee.

ARCHITECTURE (ARC) 146 (3)
ARCHITECTURAL DESIGN — GRADE I (2 LEC., 4 LAB.)
Basic design principles and their application to architectural design are studied. Human awareness and reactions to the environment and its effect on architectural problem-solving are emphasized. Laboratory fee.

ARCHITECTURE (ARC) 147 (3)
ARCHITECTURAL DESIGN — GRADE II (2 LEC., 4 LAB.)
Prerequisite: Architecture 146. The application of design principles to architectural experiences is investigated. Analysis, schematic study, and the development of spatial problems related to human occupancy and needs are studied. Emphasis is placed on the development and integration of skills needed to formulate and communicate design concepts. Laboratory fee.

ARCHITECTURE (ARC) 150 (3)
BUILDING TECHNOLOGY I — MATERIALS AND METHODS (2 LEC., 4 LAB.)
Architectural materials and their uses are analyzed. Specifications and codes are introduced, and structural systems are investigated. Laboratory fee.

ARCHITECTURE (ARC) 153 (3)
CONSTRUCTION DRAWINGS — WOOD FRAME (2 LEC., 4 LAB.)
Prerequisite: Architecture 130 or the consent of the instructor. Construction drawings are introduced. Wood frame construction is studied. The relationship with design and specifications is included. Emphasis is on the total concept of construction documents and detailing. Laboratory fee.

ARCHITECTURE (ARC) 220 (3)
PERSONALITIES IN ART AND ARCHITECTURE (3 LEC.)
This course includes an in-depth study of the influential people throughout history who were the motivating human factors behind the evolutionary development of art and architecture.

ARCHITECTURE (ARC) 226 (3)
SURVEY OF INTERIOR ARCHITECTURE I (3 LEC.)
This course includes a survey of historical interior architecture development beginning with the ancient civilizations.

ARCHITECTURE (ARC) 227 (3)
SURVEY OF INTERIOR ARCHITECTURE II (3 LEC.)
This course is a continuation of Survey of Interior Architecture I. This course includes the historical development of interior architecture to the present.

ARCHITECTURE (ARC) 230 (3)
HISTORY OF MODERN ARCHITECTURE (3 LEC.)
Prerequisite: Sophomore standing. The influences and architectural expressions of man are examined. The time period spaces the Industrial Revolution to the present day.

ARCHITECTURE (ARC) 232 (3)
BASIC ARCHITECTURAL PHOTOGRAPHY (2 LEC., 4 LAB.)
This course introduces various media used in presentations. Pencil, water color, pen and ink, colored pencil and felt tip markers are used on assorted materials in a variety of techniques.

ARCHITECTURE (ARC) 240 (3)
MEDIA SKILLS I (2 LEC., 4 LAB.)
Additional media techniques are presented. Pastel, carbon pencil, tempera, and transparent and opaque water color are included.

ARCHITECTURE (ARC) 242 (3)
PRESENTATION I (2 LEC., 4 LAB.)
Prerequisites: Architecture 133 or Interior Design 123 or Art 115 or the consent of the instructor. This is a course in professional delineation wherein the student produces from a given set of architectural drawings finished interior and exterior renderings utilizing the principles of design, perspective, composition, freehand, and mechanical drawing capabilities and rendering techniques. Laboratory fee.
ARCHITECTURE (ARC) 243 (3)
PRESENTATION II (2 LEC., 4 LAB.)
Prerequisites: Architecture 133 or Interior Design 123 or Art 115 or the consent of the instructor. This course is a continuation of Presentation I. Laboratory fee.

ARCHITECTURE (ARC) 245 (3)
DESIGN SKETCHING (2 LEC., 4 LAB.)
Prerequisites: Architecture 133 or Interior Design 123 or Art 115 or the consent of the instructor. This course includes an introduction to and the development of graphic skills needed to formulate and communicate design concepts. Study and practice of visualization and freehand perspective drawing of the students' own design. Concepts in various media are the main activities. Laboratory fee.

ARCHITECTURE (ARC) 246 (3)
ARCHITECTURAL DESIGN - GRADE II (2 LEC., 4 LAB.)
Prerequisites: Architecture 130 and 147. Research into design theory is conducted to solve architectural problems. Emphasis is on functional and aesthetic values through three-dimensional problem solving studies. Laboratory fee.

ARCHITECTURE (ARC) 247 (3)
ARCHITECTURAL DESIGN - GRADE II (2 LEC., 4 LAB.)
Prerequisite: Architecture 246. This course is a continuation of Architecture 246. Emphasis is on functional and aesthetic solutions based upon individual programming and research. Laboratory fee. ECC ONLY

ARCHITECTURE (ARC) 251 (3)
BUILDING TECHNOLOGY II - HEAVY CONSTRUCTION (2 LEC., 4 LAB.)
Prerequisite: Architecture 150. This course includes the study of construction materials, systems, and techniques used in heavy construction, with emphasis on steel and concrete. A general overview of mechanical and electrical systems and their requirements is provided. Laboratory fee.

ARCHITECTURE (ARC) 252 (3)
BUILDING TECHNOLOGY III — SPECIFICATIONS AND OFFICE PRACTICE (2 LEC., 4 LAB.)
Prerequisites: Architecture 150 and Architecture 153 or the consent of the instructor. Introduction and practice is provided in specification writing and construction estimating. Exploration is made of the organization of the construction process including the organization of an architect's office, administration of construction contracts, and governmental requirements. Laboratory fee.

ARCHITECTURE (ARC) 254 (3)
CONSTRUCTION DRAWINGS II — STEEL FRAME (2 LEC., 4 LAB.)
Prerequisites: Architecture 150 and Architecture 153 or the consent of the instructor. Steel frame construction is studied. Introduction to commercial construction drawings is provided, including plans, elevations, sections, structural drawings, details, and schedules for steel frame buildings. Laboratory fee.

ARCHITECTURE (ARC) 255 (3)
CONSTRUCTION DRAWINGS III — CONCRETE AND MASONRY (2 LEC., 4 LAB.)
Prerequisite: Architecture 153. This course involves the study of concrete and masonry construction techniques and their construction drawings. Included are structural drawings, details, schedules, plans, sections, and elevations. Laboratory fee.

ARCHITECTURE (ARC) 256 (3)
CONSTRUCTION DRAWINGS IV — DETAILING (2 LEC., 4 LAB.)
Prerequisite: Architecture 153. Study is made of the concept of detailing, viewed as a means of controlling the total building process. Detailing subjects include structural, stairs, door and window, interior-finish, roof-to-wall, and cabinets. Emphasis is placed upon technique, accuracy, and the ability to solve architectural detail problems. Laboratory fee.

ARCHITECTURAL TECHNOLOGY (ARC) 802, 812 (2)
(See Cooperative Work Experience)
ARCHITECTURAL TECHNOLOGY (ARC) 803, 813 (3)
(See Cooperative Work Experience)
ARCHITECTURAL TECHNOLOGY (ARC) 804, 814 (4)
(See Cooperative Work Experience)

ART (ART) 103 (1)
INTRODUCTION TO ART (3 LAB.)
Materials and techniques of studio art are introduced for the non-major. Included are basic design concepts and traditional media. Laboratory fee.

ART (ART) 104 (3)
ART APPRECIATION (3 LEC.)
Films, lectures, slides and discussions focus on the theoretical, cultural and historical aspects of the visual arts. Emphasis is on the development of visual and aesthetic awareness.

ART (ART) 105 (3)
SURVEY OF ART HISTORY (3 LEC.)
This course covers the history of art from prehistoric time through the Renaissance. It explores the cultural, geophysical and personal influences on art styles.

ART (ART) 106 (3)
SURVEY OF ART HISTORY (3 LEC.)
This course covers the history of art from the Baroque period through the present. It explores the cultural, geophysical and personal influences on art styles.

ART (ART) 110 (3)
DESIGN I (2 LEC., 4 LAB.)
Basic concepts of design with two-dimensional materials are explored. The use of line, color, illusion of space or mass, texture, value, shape and size in composition is considered.

ART (ART) 111 (3)
DESIGN II (2 LEC., 4 LAB.)
Basic concepts of design with three-dimensional materials are explored. The use of mass, space, movement and texture is considered. Laboratory fee.

ART (ART) 114 (3)
DRAWING (2 LEC., 4 LAB.)
This beginning course investigates various media, techniques and subjects. It explores perceptual and descriptive possibilities and considers drawing as a developmental process as well as an end in itself.

ART (ART) 115 (3)
DRAWING II (2 LEC., 4 LAB.)
Prerequisite: Art 114. This course is an expansion of Art 114. It stresses the expressive and conceptual aspects of drawing, including advanced compositional arrangements, a range of wet and dry media, and the development of an individual approach to theme and content.

ART (ART) 116 (3)
INTRODUCTION TO JEWELRY I (2 LEC., 4 LAB.)
Prerequisites: Art 110, Art 111, or the consent of the instructor. The basic techniques of fabrication and casting of metals are presented. Emphasis is on original design. Laboratory fee.

ART (ART) 117 (3)
INTRODUCTION TO JEWELRY II (2 LEC., 4 LAB.)
Prerequisite: Art 116. This course continues Art 116. Advanced fabrication and casting techniques are presented. Emphasis is on original design. Laboratory fee.

ART (ART) 118 (3)
CREATIVE PHOTOGRAPHY FOR THE ARTIST I (2 LEC., 4 LAB.)
Prerequisites: Art 110, Art 114, or the consent of the instructor. Creative use of the camera is studied. Photosensitive materials are examined as a means of making expressive graphic images. Emphasis is black and white processing and printing techniques. Laboratory fee.
ART (ART) 119 (3)  
CREATIVE PHOTOGRAPHY FOR 
THE ARTIST II (2 LEC., 4 LAB.)  
Prerequisite: Art 118 or the consent of 
the instructor. This course is a 
continuation of Art 118. Emphasis is on 
individual expression. Laboratory fee.

ART (ART) 189 (1)  
ART SEMINAR (1 LEC.)  
Area artists, critics and art educators 
speak with students about the work 
exhibited in the gallery and discuss 
current art styles and movements. They 
also discuss specific aspects of being 
artists in contemporary society. This 
course may be repeated for credit.

ART (ART) 201 (3)  
DRAWING II (2 LEC., 4 LAB.)  
Prerequisites: Art 201, Sophomore 
standing and/or permission of the 
division chair. This course continues 
Art 201. Emphasis is on individual 
expression. Laboratory fee.

ART (ART) 202 (3)  
DRAWING IV (2 LEC., 4 LAB.)  
Prerequisites: Art 201, Sophomore 
standing and/or permission of the 
division chair. This course continues 
Art 201. Emphasis is on individual 
expression. Laboratory fee.

ART (ART) 205 (3)  
PAINTING I (2 LEC., 4 LAB.)  
Prerequisites: Art 110, Art 111, or 
the consent of the instructor. This 
studio course stresses fundamental 
concepts of painting with acrylics and 
the human figure. Movement and volume are 
emphasized. Laboratory fee.

ART (ART) 206 (3)  
PAINTING II (2 LEC., 4 LAB.)  
Prerequisite: Art 205. This course 
continues Art 205. Emphasis is on 
individual expression.

ART (ART) 208 (3)  
SCULPTURE I (2 LEC., 4 LAB.)  
Prerequisites: Art 110, Art 111, or 
the consent of the instructor. Various 
sculptural approaches are explored. Different media and 
techniques are used. Laboratory fee.

ART (ART) 210 (3)  
COMMERCIAL ART II (2 LEC., 4 LAB.)  
Prerequisites: Art 110, Art 111, or 
the consent of the instructor. This 
commercial art course is designed to 
prepare students for a career in the 
commercial art field. Typical commercial 
assignments are used to develop 
professional attitudes and basic studio 
skills. Laboratory fee.

ART (ART) 211 (3)  
COMMERCIAL ART III (2 LEC., 4 LAB.)  
Prerequisite: Art 210. This course 
continues Art 210. Emphasis is on 
layout and design concepts. Work 
with simple art form reproduction 
processes and the development of a 
commercial portfolio are also 
emphasized. Laboratory fee.

ART (ART) 215 (3)  
CERAMICS I (2 LEC., 4 LAB.)  
Prerequisites: Art 110, Art 111, Art 115 
or the consent of the instructor. This 
course focuses on the building of 
clay forms by coil, slab and use of 
the wheel. Glazing and firing are also 
emphasized. Laboratory fee.

ART (ART) 216 (3)  
CERAMICS II (2 LEC., 4 LAB.)  
Prerequisite: Art 215 or the consent of 
the instructor. Glaze technology is 
emphasized. Advanced techniques in 
the creation of ceramic work are also 
emphasized. Laboratory fee.

ART (ART) 220 (3)  
PRINTMAKING I (2 LEC., 4 LAB.)  
Prerequisites: Art 110, Art 111, Art 115 
or the consent of the instructor. Basic 
printmaking processes are introduced. 
Advanced techniques in the creation of 
artistic work are also emphasized. 
Laboratory fee.

ART (ART) 222 (3)  
PRINTMAKING II (2 LEC., 4 LAB.)  
Prerequisite: Art 220. This course is a 
continuation of Printmaking I. 
Laboratory fee.

ART (ART) 228 (3)  
THREE-DIMENSIONAL DESIGN (2 LEC., 4 LAB.)  
Prerequisite: Art majors: Art 110, 111, 
114. Drafting Technology majors: 
Drafting 183, Engineering 186. 
Development of three-dimensional projects 
in metal, plastic, and wood through the 
glazes and firing of objects. Emphasis is 
on function, material and esthetic form. 
Laboratory fee.

BIOLOGY (BIO) 101 (4)  
GENERAL BIOLOGY (3 LEC., 3 LAB.)  
This course is a foundation course for 
science majors. Topics include the systems of 
the human body, disease, drug abuse, 
aging, evolution, ecology, and people 
in relation to their environment. 
Laboratory fee.

BIOLOGY (BIO) 115 (4)  
BIOLOGICAL SCIENCE (3 LEC., 3 LAB.)  
Selected topics in biological science 
are presented for the non-science 
major. Topics include the systems of 
the human body, disease, drug abuse, 
aging, evolution, ecology, and people 
in relation to their environment. 
Laboratory fee.

BIOLOGY (BIO) 120 (4)  
INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY (3 LEC., 3 LAB.)  
This course is a foundation course for 
specialization in Associate Degree 
Nursing and Allied Health disciplines. 
Other students interested in the study of 
structure and function of the human body should consult a counselor. No 
science background is presupposed. 
Major topics include cell structure and 
function, organization of the body, 
tissues, organs, the blood and cardiovascular system, and the respiratory 
system. Emphasis is on homeostasis. 
Laboratory fee.

BIOLOGY (BIO) 121 (4)  
APPLIED ANATOMY AND PHYSIOLOGY (3 LEC., 3 LAB.)  
Prerequisites: Biology 120. This course 
continues Biology 120. Major 
topics include the structure and 
function, organization of the body, 
tissues, organs, the blood and cardiovascular system, and the respiratory 
system. Laboratory fee.

BIOLOGY (BIO) 123 (4)  
APPLIED ANATOMY AND PHYSIOLOGY (3 LEC., 2 LAB.)  
This course studies human anatomy 
and physiology. The various body 
systems are studied and examined. 
This course is suggested for students of 
the health occupations in 
accordance with their program 
requirements. It is open to other 
students. This course will apply toward 
meeting the science requirement for non-science majors. No previous 
science background is presumed. Laboratory fee.

BIOLOGY (BIO) 216 (4)  
GENERAL MICROBIOLOGY (3 LEC., 4 LAB.)  
Prerequisite: Biology 102 or the 
consent of the instructor. The course 
continues Biology 101. Topics include 
Mendelian and molecular genetics, evolutionary 
mechanisms, and plant and animal 
development. The energetics and 
regulation of ecological communities 
are also studied. Laboratory fee.
reproduction, nutrition, genetics, and ecology of micro-organisms. Laboratory activities constitute a major part of the course. Laboratory fee.

**Biology (BIO) 217 (4)**
**Field Biology (3 LEC., 4 LAB.)**
Prerequisite: Eight hours of biological science or the consent of the division chairperson. Local plant and animal life are surveyed in relationship to the environment. Aquatic and terrestrial communities are studied with reference to basic ecological principles and techniques. Emphasis is upon classification, identification, and collection of specimens in the field. This course may be repeated for credit.

**Biology (BIO) 221 (4)**
**Anatomy and Physiology I (3 LEC., 3 LAB.)**
Prerequisite: Biology 102 or the consent of the instructor. This course examines the skeletal, muscular, and circulatory systems as related to humans. Emphasis is on structure, function, and the interrelationships of the systems. Laboratory fee.

**Biology (BIO) 222 (4)**
**Anatomy and Physiology II (3 LEC., 3 LAB.)**
Prerequisite: 6 hours of biology. The principles of aquatic and terrestrial communities are presented. Emphasis is on the relationship of these principles to the problems facing people in a modern technological society. Laboratory fee.

**Biology (BIO) 224 (4)**
**Environmental Biology (3 LEC., 3 LAB.)**
Prerequisite: 6 hours of biology. The principles of aquatic and terrestrial communities are presented. Emphasis is on the relationship of these principles to the problems facing people in a modern technological society. Laboratory fee.

**Biology (BIO) 226 (4)**
**Genetics (3 LEC., 3 LAB.)**
This course focuses on genetics. Topics include Mendelian inheritance, recombination genetics, the biochemical theory of genetic material, and mutation theory. Plant and animal materials are used to study population genetics, linkage, gene structure and function, and other concepts of heredity. Laboratory fee.

**Business (BUS) 105 (3)**
**Introduction to Business (3 LEC.)**
This course provides an overall picture of business operations. Specialized fields within business organizations are analyzed. The role of business in modern society is identified. (This course is offered on campus and may be offered via television.)

**Business (BUS) 234 (3)**
**Business Law (3 LEC.)**
This course presents the historical and ethical background of the law and current legal principles. Emphasis is on contracts, property, and torts.

**Business (BUS) 237 (3)**
**Organizational Behavior (3 LEC.)**
The persisting human problems of administration in modern organizations are covered. The theory and methods of behavioral science as they relate to organizations are included.

**Chemistry (CHM) 101 (4)**
**General Chemistry (3 LEC., 3 LAB.)**
Prerequisite: Developmental Mathematics 093 or the equivalent. This course is for science and science-related majors. It covers the laws and theories of matter. The laws and theories are used to understand the properties of matter, chemical bonding, chemical reactions, the physical states of matter, and changes of state. The fundamental principles are applied to the solution of quantitative problems related to chemistry. Laboratory fee.

**Chemistry (CHM) 102 (4)**
**General Chemistry (3 LEC., 3 LAB.)**
Prerequisite: Chemistry 101. This course is for science and science-related majors. It is a continuation of Chemistry 101. Previously learned and new concepts are applied. Topics include solutions and colligates, chemical kinetics and equilibrium, electrochemistry, and nuclear chemistry. Qualitative inorganic analysis is also included. Laboratory fee.

**Chemistry (CHM) 115 (4)**
**General Chemistry (3 LEC., 3 LAB.)**
Prerequisite: Developmental Mathematics 091 or the equivalent. This course is for non-science majors. It traces the development of theoretical concepts. These concepts are used to explain various observations and laws relating to chemical bonding reactions, states of matter, solutions, electrochemistry, and nuclear chemistry. Also included is the descriptive chemistry of some common elements and inorganic compounds. Laboratory fee.

**Chemistry (CHM) 116 (4)**
**General Chemistry (3 LEC., 3 LAB.)**
Prerequisite: Chemistry 115. This course is for non-science majors. It covers organic chemistry and biochemistry. The important classes of organic compounds are surveyed. The concept of structure is the central theme. Biochemistry topics include carbohydrates, proteins, lipids, chemistry of heredity, disease and therapy, and plant biochemistry. Laboratory fee.

**Chemistry (CHM) 170 (3)**
**Chemistry of Flammable Materials (3 LEC.)**
Prerequisite: Chemistry 116. Characteristics and behavior of various materials that burn or react violently are studied. Flammable liquids, combustible solids, and gases are included. Storage, transportation, and handling are covered. Emphasis is on emergency situations and methods of control.

**Chemistry (CHM) 201 (4)**
**Organic Chemistry (3 LEC., 4 LAB.)**
Prerequisite: Chemistry 102. This course is for science and science-related majors. It introduces organic chemistry. The fundamental types of organic compounds are presented. Their nomenclature, classification, reactions, and applications are included. The reactions of aliphatic and aromatic compounds are discussed in terms of modern electronic theory. Emphasis is on reaction mechanisms, stereochemistry, transition state theory, and organic synthesis. Laboratory fee.

**Chemistry (CHM) 202 (4)**
**Quantitative Analysis (2 LEC., 6 LAB.)**
Prerequisite: Chemistry 102. Mathematics 101 or Mathematics 104 or the equivalent. Principles for quantitative determinations are presented. Topics include gravimetric, oxidation-reduction, indicators, and acid-base theory. Qualitative and quantitative analysis is emphasized. Colorimetry is introduced. Laboratory fee.

**College Learning Skills (CLS) 100 (1)**
**College Learning Skills (1 LEC.)**
This course is for students who wish to enroll in courses at an accelerated pace. This course is for non-science majors. It introduces the concepts of critical thinking, problem solving, and decision making. This course may be repeated for a maximum of three credits.

**Communications (COM) 131 (3)**
**Applied Composition and Speech (3 LEC.)**
Communication skills are studied as a means of preparing for one's vocation. Practice in writing letters, applications, resumes, and short reports is included.
Computing Science 240, topics include basic telecommunications.

Computing Science (CS) 175 (3) Introduction to Computer Science (3 LEC.)

This course is an introduction to the computer. The history of computers and their cultural impact are explored. Topics include vocabulary, flow charting, data representation, and procedure-oriented languages with general applications.

Computing Science (CS) 176 (3) Telecommunications (3 LEC.)

Prerequisite: Communications 131 or consent of instructor. The study of communication processes is continued. Emphasis is on written persuasion directly related to work. Expository techniques in business letters and documented reports are covered. Practice in oral communication is provided.

Computing Science (CS) 230 (4) Fortran Programming (2 LEC., 2 LAB.)

Prerequisite: Mathematics 101 or Data Processing 137. This course provides programming skills for students who need to use the computer in their curriculum, particularly those in the math and science disciplines. Laboratory fee.

Computing Science (CS) 240 (4) Telecommunications I (3 LEC., 4 LAB.)

Prerequisite: A minimum of 2 semesters of a high level language and credit in Data Processing 231; or the consent of the instructor. Telecommunications concepts are introduced. Topics include configuration of a teleprocessing network on a third generation computer, vocabulary, modems, terminal configuration, polling simulation, and common carrier characteristics. An existing telecommunications system and a student conceived national data system are investigated, analyzed, and designed.

Computing Science (CS) 241 (4) Telecommunications II (3 LEC., 3 LAB.)

Prerequisite: Computing Science 240. This course is a continuation of Computing Science 240. Topics include basic telecommunications programming, terminal configurations, line configurations, synchronous transmission, asynchronous transmission, and polling techniques at the central unit. Laboratory fee.

Computing Science (CS) 250 (3) Contemporary Topics in Computer Science (3 LEC.)

Prerequisite: A minimum of two semesters of a high level language, or employment in the computer industry and the consent of the instructor. Recent developments and topics of current interest are studied.

Computing Science (CS) 251 (4) Special Topics in Computer Science and Data Processing (3 LEC., 3 LAB.)

Prerequisite: Completion of at least one semester of any of the 5 data processing curriculum options, or employment in the computer industry and the consent of the instructor. Current developments in the rapidly changing field of computer science and data processing are studied. Topics will vary each semester, but may include such areas as basic programming for small computer systems, advanced RPGII concepts, PL/1 programming, or advanced data entry concepts. Laboratory fee.

Cooperative Work Experience 701, 711, 801, 811 (1) 702, 712, 802, 812 (2) 703, 713, 803, 813 (3) 704, 714, 804, 814 (4)

Prerequisite: Completion of two courses in the student's major or instructor or coordinator approval. These courses consist of seminars and on-the-job experience. Theory and instruction received in the courses of the students' major curricula are applied to the job. Students are placed in work-study positions in their technical occupational fields. Their skills and abilities to function successfully in their respective occupations are tested. These work internship courses are guided by learning objectives composed at the beginning of each semester by the students, their instructors or coordinators, and their supervisors at work. The instructors determine if the learning objectives are valid and give approval for credit.

Dance (Dan) 150 (3) Beginning Ballet I (1 LEC., 3 LAB.)

This course explores basic ballet techniques. Included are posture, balance, coordination, rhythm, and flow of physical energy through the art form. Theory, terminology, ballet history, and current attitudes and events in ballet are also studied. Barre exercises and centre floor combinations are given. Laboratory fee.

Dance (Dan) 151 (3) Beginning Ballet II (1 LEC., 3 LAB.)

Prerequisite: Dance 150. This course is a continuation of Dance 150. Emphasis is on expansion of combinations at the barre. Connecting steps learned at centre are added. Jumps and pirouettes are introduced. Laboratory fee.

Dance (Dan) 155 (1) Jazz I (3 LAB.)

The basic skills of jazz dance are introduced. Emphasis is on technique and development, rhythm awareness, jazz styles, and rhythmic combinations of movement. Laboratory fee.

Dance (Dan) 156 (1) Jazz II (3 LAB.)

Prerequisite: Dance 155 or the consent of the instructor. Work on skills and style in jazz dance is continued. Technical skills, combinations of steps and skills into dance patterns, and exploration of composition in jazz form are emphasized. Laboratory fee.

Dance (Dan) 160 (3) Introduction to Dance History (3 LEC.)

A history of dance forms is presented. Primitive, classical, and contemporary forms are included.

Dance (Dan) 200 (1) Rehearsal and Performance (4 LAB.)

Prerequisite: Dance 116 or the consent of the instructor. This course supplements intermediate dance technique classes. It is a continuation of Dance 116 with emphasis on more advanced concepts as they apply to actual rehearsals and performances. This course may be repeated for credit.

Dance (Dan) 250 (3) Intermediate Ballet I (1 LEC., 3 LAB.)

Prerequisite: Dance 151. The development of ballet technique is continued. More complicated exercises at the barre and centre floor are included. Emphasis is on long series of movements, adagio and jumps. Precision of movement is stressed. Laboratory fee.

Dance (Dan) 251 (3) Intermediate Ballet II (1 LEC., 3 LAB.)

Prerequisite: Dance 250. This course begins pointe work for women. Specialized beats and tours are begun.
for men. Individual proficiency and technical virtuosity are developed. Laboratory fee.

DANCE (DAN) 252 (1)
COACHING AND REPERTOIRE (2 LAB.)
Prerequisites: Demonstrated ability in at least one technique and the consent of the instructor. This course is designed to give the dancer individual coaching in one or more dance techniques with special attention to the correction of individual problems. This course may be repeated for credit. Laboratory fee.

DATA PROCESSING (DP) 129 (4)
DATA ENTRY CONCEPTS (2 LEC., 5 LAB.)
Prerequisites: Business 172 or one year of typing in high school. This course provides skills using card-oriented and buffered display equipment. Emphasis is on speed and accuracy. Topics include performing the basic functions, record format with protected and variable fields, and using a variety of source documents. Program control and multiple program levels are also covered. Laboratory fee.

DATA PROCESSING (CS) 131 (3)
RPG PROGRAMMING (2 LEC., 2 LAB.)
Prerequisites: Data Processing 133 or the consent of the instructor. This course is for persons who require RPGII in job. Programming skills using RPGII are developed. Emphasis is on language techniques and not on operation and functioning of the equipment. Programming problems emphasize card processing, and will include basic listing, multicard records, and multi-file processing. Laboratory fee.

DATA PROCESSING (DP) 133 (4)
BEGINNING PROGRAMMING (3 LEC., 4 LAB.)
Prerequisites: Data Processing 139 and Computing Science 175 or the consent of the instructor. Concurrent enrollment in Data Processing 138 is advised. This course introduces programming skills using the COBOL language. Skills in problem analysis, flowcharting, coding, testing, and documentation are developed. Programs are designed to provide competency using cards. Laboratory fee.

DATA PROCESSING (DP) 136 (4)
INTERMEDIATE PROGRAMMING (3 LEC., 4 LAB.)
Prerequisites: Data Processing 133 and Data Processing 138. Study of COBOL language continues. Included are levels of totals, group printing concepts, table build and search techniques, ISAM disk concepts, matching record, and file maintenance concepts using disk. Laboratory fee.

DATA PROCESSING (DP) 137 (3)
DATA PROCESSING MATHEMATICS (3 LEC.)
This course introduces the principles of computer computation. Topics include the number system, fundamental processes, number bases, and the application of mathematics to typical business problems and procedures.

DATA PROCESSING (DP) 138 (3)
DATA PROCESSING LOGIC (3 LEC.)
Prerequisites: Data Processing 139 and Computing Science 175 or the consent of the instructor. Concurrent enrollment in Data Processing 133 is advised. This course presents basic logic needed for problem solving with the computer. Topics include flowcharting standards, techniques for basic logic operations, table search and build techniques, types of report printing, conditional tests, multiple record types, and sequential file maintenance. System flowcharting is introduced.

DATA PROCESSING (DP) 139 (3)
TECHNICIAN (2 LEC., 4 LAB.)
Prerequisites: Data Processing 139 and Computing Science 175 or the consent of the instructor. Concurrent enrollment in Data Processing 133 is advised. This course presents basic logic needed for problem solving with the computer. Topics include flowcharting standards, techniques for basic logic operations, table search and build techniques, types of report printing, conditional tests, multiple record types, and sequential file maintenance. System flowcharting is introduced.

DATA PROCESSING (DP) 140 (4)
OPERATIONS-CONSOLE (3 LEC., 3 LAB.)
Prerequisites: Data Processing 137 or Mathematics 130, and Data Processing 139, or the consent of the instructor. Operating systems are presented. Emphasis is on operation of a single-partitioned and multi-programming DCS environment. Opportunity is provided to analyze and respond to system messages in both environments. Laboratory fee.

DATA PROCESSING (DP) 231 (4)
ADVANCED PROGRAMMING (3 LEC., 4 LAB.)
Prerequisites: Data Processing 136 or the consent of the instructor. This course focuses on the additional language capabilities and third generation hardware concepts. The assembly language instruction set of the IBM 360/370 is used. Included is an in-depth study of the standard instruction set and the decimal feature instructions. Data structure, system organization, linkage conventions, and selected macro-instructions are also presented. Laboratory fee.

DATA PROCESSING (DP) 232 (4)
APPLIED SYSTEMS (3 LEC., 4 LAB.)
Prerequisites: Data Processing 136. This course introduces and develops skills to analyze existing systems and to design new systems. Emphasis is on a case study involving all facets of system design from the original source of data to final reports. Flowcharts and documentation are included.

DATA PROCESSING (DP) 233 (4)
OPERATING SYSTEMS AND COMMUNICATIONS (3 LEC., 4 LAB.)
Prerequisites: Data Processing 133 or the consent of the instructor. Concepts and technical knowledge of an operating system, JCL, and utilities are presented. The internal functions of an operating system are analyzed. Training is given in the use of JCL and utilities. The emphasis of the operating system depends on the computer system used. Laboratory fee.

DATA PROCESSING (DP) 236 (4)
ADVANCED COBOL TECHNIQUES (3 LEC., 4 LAB.)
Prerequisites: Data Processing 133 and 136, or the consent of the instructor. Advanced problem solving techniques are studied using the COBOL programming language. Emphasis is placed on sequential and random processing techniques using disk. Additional ANSI COBOL conventions are covered. Set/search table lookup, sort verb, report writer, and modular programming techniques are included. Laboratory fee.

DATA PROCESSING (DP) 242 (4)
COMPUTER HARDWARE AND DATABASE SYSTEMS (3 LEC., 4 LAB.)
Prerequisites: Computing Science 175, one year of a high level language, Data Processing 232, or the consent of the instructor. The organization and architecture of large, medium, small, mini, and micro computers are compared. Topics include digital number systems, machine language and assemblers, on-line and off-line data base systems, and data management. Currently used data bases (IMS, TOTAL, ADABAS, etc.) and graphic systems are emphasized. Laboratory fee.

DATA PROCESSING (DP) 243 (3)
COMPUTER CENTER MANAGEMENT (3 LEC.)
Prerequisites: Computing Science 175, a minimum of one semester of high level language, or the consent of the instructor. The management of a com-
DENTAL PROFESSION (1 LEC.)
INTRODUCTION TO THE DENTAL TEAM are included. The legal, ethical, moral, and professional responsibilities of the dentist and auxiliaries are identified. Terminology relating to this course is also included. Laboratory fee.

DENTAL ASSISTING (DA) 140 (1)
INTRODUCTION TO THE DENTAL PROFESSION (1 LEC.)
This course is a study of dentistry as it has evolved into a profession. The growth, development, and educational background of the dental association and auxiliary associations are described. The way the dental assistant student acquires and retains certification is explained. Personal requirements, professional conduct, and interpersonal relationships of the dental team are included. The legal, ethical, moral, and professional responsibilities of the dentist and auxiliaries are identified. Terminology relating to this course is also included.

DENTAL ASSISTING (DA) 141 (1)
GENERAL DENTAL ANATOMY AND PHYSIOLOGY (3 LEC., 3 LAB.)
The biology of the nine (9) body systems, embryology, and the development of the face and oral cavity are studied. Oral histology, eruption and exfoliation of the primary dentition and eruption of the secondary dentition morphology of the teeth, head, and neck anatomy are included. Laboratory fee.

DENTAL ASSISTING (DA) 142 (3)
DENTAL ASSISTING I (2 LEC., 4 LAB.)
The function of the dental assistant in the dental office is studied. Topics include terminology, safety rules and regulations, care and preparation of equipment and operatories, and seating the patient. The identification and use of dental instruments, are covered, including use of high-velocity suction apparatus. Four-handed sit-down dentistry is also covered, including different methods of passing instruments. The application and removal of rubber dam, application of topical anesthetics, preparation of local anesthetics, and different methods of charting the oral cavity findings are also covered. Laboratory fee.

DENTAL ASSISTING (DA) 143 (2)
DENTAL MICROBIOLOGY AND PATHOLOGY (2 LEC., 1 LAB.)
This course focuses on microbiology relating to methods of sterilization and disinfectants used in caring for dental instruments, equipment, and operators. Oral pathology is studied, including signs and symptoms of diseases of the hard and soft dental tissues and of the oral cavity. Terminology relating to this course is covered. Laboratory fee.

DENTAL ASSISTING (DA) 144 (4)
DENTAL MATERIALS I (3 LEC., 3 LAB.)
Prerequisite: "C" average in Dental Assisting 140, 141, 142, and 143. The history, terminology, structure and properties of dental materials are studied. Dental laboratory equipment is presented, and the care and use of it explained. Safety rules and regulations used in the dental laboratory are identified. Weights and measurements and their uses in the dental laboratory are introduced. The techniques and skills of handling various materials are covered, including gypsum products, dental waxes, alginate impression materials, compound and shellac bases, dental cements, restorative materials, thermal basis, cavity liners, and abrasive and polishing agents, gold foils, novocain fill, and sealants are also included. Pouring casts and trimming and finishing study casts are covered. Laboratory fee.

DENTAL ASSISTING (DA) 145 (2)
DENTAL ROENTGENOLOGY I (2 LEC., 1 LAB.)
Prerequisite: "C" average in Dental Assisting 140, 141, 142, and 143. The roentgen quality of X-rays and the theory of the roentgen ray. Topics include the care and safety measures of X-ray equipment, radiation, hazards, and safety precautions for the patient and operator. Other topics include the care and storage of film, types of dental films used, and film composition. Exposing, processing, and mounting X-rays are covered, including the use of the open cone bisecting angle technique. Preventing faulty roentgenograms is also covered. Laboratory fee.

DENTAL ASSISTING (DA) 146 (2)
DENTAL ASSISTING II (2 LEC., 1 LAB.)
Prerequisite: "C" average in Dental Assisting 140, 141, 142, and 143. The dental specialities are studied. Included are endodontics, oral surgery and general anesthetic, orthodontics, periodontics, and prosthetics. Pathology and public health, preparation, and instrumentation are also covered. The vital signs of a patient are explained and practice sessions are held. Hospital dentistry is introduced. The use of hand instruments is covered, including removing cement from dental restorations and bands, removing ligatures, sutures, socket dressing, periodontal packs, and temporary medicinals fillings. Terminology relating to this course is also included. Laboratory fee.

DENTAL ASSISTING (DA) 240 (2)
DENTAL MATERIALS II (1 LEC., 2 LAB.)
Prerequisite: "C" average in Dental Assisting 144, 145, and 146. This course is a continued study of dental materials. Students use all materials needed for everyday practice in the dental office. New materials are introduced, such as reversible hydrocolloids, asbestos and wax spacers, custom made trays, rubber base impression material, die stone, inlay wax, investment material, burnout, temporary acrylic jackets or crowns and temporary dentures. Sprueing and casting procedures are included. Finishing castings and repairing prostheses are also covered. Terminology relating to this course is included. Laboratory fee.

DENTAL ASSISTING (DA) 241 (2)
DENTAL ROENTGENOLOGY II (1 LEC., 2 LAB.)
Prerequisite: "C" average in Dental Assisting 144, 145, and 146. The study of dental X-ray is continued. Long, open cone, and parallel techniques, are introduced. Occlusal films, extraoral films, and panoramic procedures are covered. Practice is provided in short and long cone techniques and in processing, mounting, and filing dental films. Terminology relating to this course is included. Laboratory fee.

DENTAL ASSISTING (DA) 242 (3)
DENTAL OFFICE ADMINISTRATION (1 LEC.)
Prerequisite: "C" average in Dental Assisting 144, 145, and 146. Front
office routines of the dental office are studied in detail. Topics include dental team responsibilities, office policies for employee and patient, telephone techniques, greeting people, patient information, credit ratings, and appointment control. Referrals, patient charts, check and receipt writing, deposit slips, petty cash, day sheets, recall system inventory and supplies, filing, prescriptions, staff schedules, accounts payable, and banking procedures are also covered. Terminology relating to this course is included.

**DENTAL ASSISTING (DA) 243 (3)**
**DENTAL ASSISTING CLINIC SEMINAR I (3 LEC.)**
Prerequisite: "C" average in Dental Assisting 144, 145, and 146. Clinical experiences and problems encountered in the internship are shared and discussed. Counseling with individual students is provided.

**DENTAL ASSISTING (DA) 245 (3)**
**DENTAL OFFICE ADMINISTRATION II (3 LEC.)**
Prerequisite: "C" average in Dental Assisting 240, 241, 242, 243, and 244. This course is a continued study of front office procedures. Topics include collection control, correspondence, office records, laws pertaining to collections and records, and a business summary. Dental payment plans, third party insurance, radiographs in dental care programs, case presentations, income tax records, and patient psychology are also covered. Terminology relating to this course is covered.

**DENTAL ASSISTING (DA) 246 (3)**
**PREVENTATIVE DENTISTRY (3 LEC.)**
Prerequisite: "C" average in Dental Assisting 240, 241, 242, 243, and 244. Preventive dentistry is presented. Topics include oral hygiene, use of the phase microscope in preparing dental plaque smears, learning and teaching a preventive program, and diet and nutrition. First aid, and cardiopulmonary resuscitation emergencies are included. Pharmacology and drug and prescription laws applying to the dental office are covered. Terminology relating to this course is included.

**DENTAL ASSISTING (DA) 249 (4)**
**DENTAL ASSISTING INTERNSHIP I (13 LAB.)**
Prerequisite: "C" average in Dental Assisting 144, 145, and 146. Students receive practical assisting experience at chairside in dental clinics, dental schools, and hospital and health agencies in the community. Students rotate among clinics every 5 weeks.

**DENTAL ASSISTING (DA) 250 (1)**
**DENTAL ASSISTING CLINIC SEMINAR II (3 LEC.)**
Prerequisite: "C" average in Dental Assisting 240, 241, 242, 243, and 249. This course involves the sharing of clinical experience and the discussion of problems that have been encountered during the dental assisting internship in dental clinics, hospitals, and offices. Special counseling with individual students is provided.

**DENTAL ASSISTING (DA) 252 (3)**
**DENTAL ASSISTING INTERNSHIP II (31 LAB.)**
Prerequisite: "C" average in Dental Assisting 240, 241, 242, 243, and 249. In this course, students receive practical dental assisting experience at chairside and office procedures experience in private dental offices, dental clinics, dental schools, hospitals, and other health agencies in the community.

**DESIGN (DES) 128 (2)**
**INTRODUCTION TO MASS PRODUCED APPAREL (2 LEC.)**
Mass production in the textile industry is analyzed.

**DESIGN (DES) 129 (1)**
**INDUSTRIAL GARMENT CONSTRUCTION (3 LEC.)**
The equipment, techniques and skills used in making mass produced apparel are studied. Laboratory fee.

**DESIGN (DES) 135 (3)**
**TEXTILES (2 LEC., 2 LAB.)**
This course focuses on fibers, yarns, fabrics, and finishing processes. Included are the identification and analysis of all types of construction methods and their application in industry. The history of traditional textiles is described. Comparisons are made with contemporary developments. A guided design systems approach is used.

**DESIGN (DES) 136 (3)**
**FASHION SKETCHING (2 LEC., 4 LAB.)**
The structure of the fashion figure is explored. Simple methods for making quick sketches which communicate style information are emphasized.

**DESIGN (DES) 234 (3)**
**HISTORY OF COSTUME (3 LEC.)**
Prerequisite: Design 135. This course traces the development of garments from the earliest times through the 18th century. Emphasis is on the customs which affect styles.

**DEVELOPMENTAL COMMUNICATIONS (DC) 120 (3)**
**COMMUNICATION SKILLS (2 LEC., 2 LAB.)**
This course is for students with significant communication problems. It is organized around skill development, and students may enroll at any time (not just at the beginning of a semester) upon the referral of an instructor. Emphasis is on individual needs and personalized programs. Special attention is given to oral language. Contacts are made with other departments to provide other ways of learning for the students.

**DEVELOPMENTAL LEARNING (DL) 094 (1)**
**LEARNING SKILLS IMPROVEMENT (2 LAB.)**
Learning skills are strengthened. Emphasis is on individual needs and personalized programs. This course may be repeated for a maximum of three credits.

**DEVELOPMENTAL MATHEMATICS**
DEVELOPMENTAL MATHEMATICS (DM) 080 (1)
BASIC MATHEMATICS I (1 LEC.)
This course is designed to give an understanding of fundamental operations. Selected topics include whole numbers, decimals, and ratio and proportion.

DEVELOPMENTAL MATHEMATICS (DM) 061 (1)
BASIC MATHEMATICS II (1 LEC.)
This course is designed to give an understanding of fractions. Selected topics include primes, factors, least common multiples, percent, and basic operations with fractions.

DEVELOPMENTAL MATHEMATICS (DM) 062 (1)
PRE BUSINESS (1 LEC.)
This course is designed to introduce students to business mathematics. Selected topics include discounts and commissions, interest, metric and English measuring systems, area and volume.

DEVELOPMENTAL MATHEMATICS (DM) 063 (1)
PRE ALGEBRA (1 LEC.)
This course is designed to introduce students to the language of algebra with such topics as integers, metrics, equations, and properties of counting numbers.

DEVELOPMENTAL MATHEMATICS (DM) 064 (1)
NURSING (1 LEC.)
This course is designed to develop an understanding of the measurements and terminology in medicine and calculations used in problems dealing with solutions and dosages. It is designed primarily for students in the nursing program.

DEVELOPMENTAL MATHEMATICS (DM) 070 (1)
ELEMENTARY ALGEBRA I (1 LEC.)
Prerequisites: Developmental Mathematics 090, 063 or equivalent. This course is an introduction to algebra and includes selected topics such as basic principles and operations of sets, counting numbers and integers.

DEVELOPMENTAL MATHEMATICS (DM) 071 (1)
ELEMENTARY ALGEBRA II (1 LEC.)
Prerequisite: Developmental Mathematics 070 or equivalent. This course includes selected topics such as rational numbers, algebraic polynomials, factoring, and algebraic fractions.

DEVELOPMENTAL MATHEMATICS (DM) 072 (1)
ELEMENTARY ALGEBRA III (1 LEC.)
Prerequisite: Developmental Mathematics 071 or equivalent. This course includes selected topics such as fractional and quadratic equations, quadratic equations with irrational solutions, and systems of equations involving two variables.

DEVELOPMENTAL MATHEMATICS (DM) 073 (1)
INTRODUCTION TO GEOMETRY (1 LEC.)
This course introduces principles of geometry. Axioms, theorems, axiom systems, models of such systems, and methods of proof are stressed.

DEVELOPMENTAL MATHEMATICS (DM) 080 (1)
INTERMEDIATE ALGEBRA I (1 LEC.)
Prerequisites: Developmental Mathematics 072, 091 or equivalent. This course includes selected topics such as systems of rational numbers, real numbers, and complex numbers.

DEVELOPMENTAL MATHEMATICS (DM) 081 (1)
INTERMEDIATE ALGEBRA II (1 LEC.)
Prerequisite: Developmental Mathematics 080 or equivalent. This course includes selected topics such as graphing, exponents, and factoring.

DEVELOPMENTAL MATHEMATICS (DM) 082 (1)
INTERMEDIATE ALGEBRA III (1 LEC.)
Prerequisite: Developmental Mathematics 081 or equivalent. This course includes selected topics such as graphing, exponents, and factoring.

DEVELOPMENTAL MATHEMATICS (DM) 090 (3)
PRE ALGEBRA MATHEMATICS (3 LEC.)
This course is designed to develop an understanding of addition, subtraction, multiplication, and division of whole numbers, fractions, decimals and percentages and to strengthen basic skills in mathematics. It is the most basic mathematics course and includes an introduction to algebra.

DEVELOPMENTAL MATHEMATICS (DM) 091 (3)
ELEMENTARY ALGEBRA (3 LEC.)
Prerequisite: Developmental Mathematics 090. This course is comparable to the first-year algebra course in high school. It includes special products and factoring, fractions, equations, graphs, functions, and an introduction to geometry.

DEVELOPMENTAL MATHEMATICS (DM) 093 (3)
INTERMEDIATE ALGEBRA (3 LEC.)
Prerequisite: One year of high school algebra or Developmental Mathematics 091. This course is comparable to the second-year algebra course in high school. It includes terminology of operations of polynomials and fractions, products, factoring, radicals, and rational exponents. Also covered are solutions of linear, fractional, quadratic and systems of linear equations, and graphing.

DEVELOPMENTAL READING
Students can improve their performance in English courses by enrolling in Developmental Reading Courses. Developmental Reading 090 and 091 are valuable skill development courses for English 101. Reading 101 is especially helpful in English 102 and the sophomore-level literature courses. See the catalog descriptions in reading for full course content.

DEVELOPMENTAL READING (DR) 080 (3)
TECHNIQUES OF READING (3 LEC.)
Comprehension, vocabulary development, and study skills are the focus of this course. Emphasis is on learning how to learn. Included are reading and learning experiences to strengthen the total educational background of each student. Meeting individual needs is stressed.

DEVELOPMENTAL READING (DR) 091 (3)
TECHNIQUES OF READING AND LEARNING (3 LEC.)
This course is a continuation of developmental reading 090. Meeting individual needs is stressed.

DEVELOPMENTAL WRITING
Students can improve their writing skills by taking Developmental Writing. These courses are offered for one to three hours of credit. Emphasis is on organization skills and research paper styles, and individual writing weaknesses.

DEVELOPMENTAL WRITING (DW) 090 (3)
WRITING (3 LEC.)
Basic writing skills are developed. Topics include spelling, grammar, and vocabulary improvement. Principles of sentence and paragraph structure are also included. Organization and composition are covered. Emphasis is on individual needs and strengthening the student's skills.

DEVELOPMENTAL WRITING (DW) 091 (3)
WRITING (3 LEC.)
This course is a sequent to Writing 090. It focuses on composition. Included are skills of organization, transition, and revision. Emphasis is on individual needs and personalized assignments. Brief, simple forms as well as more complex critical and research writing may be included.
This course is a writing workshop. Students are given instruction and supervision in written assignments. The research paper and editing are both included.

DRAFTING (DFT) 135 (2) REPRODUCTION PROCESSES (1 LEC., 3 LAB.)

Equipment and processes used to reproduce technical art are studied. Included are the graphic arts process camera, lithographic offset printing, diazo reproduction, blueprinting, photodrafting, microfilming, photocopying, silk screen printing, printed circuit board etching, thermography, typographies, xerography, engravings, and others. The rapidly expanding field of computer graphics is also covered. Lab work includes the preparation of flats for offset printing of brochures. Laboratory fee.

DRAFTING (DFT) 136 (3) GEOLOGICAL AND LAND DRAFTING (2 LEC., 4 LAB.)

Prerequisite: Drafting 183 or the equivalent and Mathematics 196. Equivalent is based on high school drafting courses or on student's work experience. Examples of drawings and/or high school transcript must be presented. This is a specialty course to prepare one to work in civil drafting. Various drawings are completed, such as relief maps, plan and profile drawings, roadways, pipelines, and petroleum and geophysical maps. Calculations are made from surveyor's notes to plot a traverse and contour lines and to determine area and volume. A set of drawings is prepared for residential subdivision, a shopping center, or some other type of land development.

DRAFTING (DFT) 160 (2) MANUFACTURING FUNDAMENTALS (2 LEC.)

Manufacturing fundamentals and production methods are studied. Modern fabrication techniques and equipment used in industry are presented. The functions and role of drafting are described.

DRAFTING (DFT) 182 (2) TECHNICIAN DRAFTING (1 LEC., 3 LAB.)

This course focuses on the reading and interpretation of engineering drawings. Topics include multiview drawings, pictorial drawings, dimensioning, measurement with scales, schematic diagrams, and printed circuit boards. Laboratory fee.

DRAFTING (DFT) 183 (4) BASIC DRAFTING (2 LEC., 6 LAB.)

This course is for students who have had little or no previous experience in drafting. Skill in orthographic, axonometric, and oblique sketching and drawing is developed. Topics include lettering, applied geometry, fasteners, sectioning, tolerancing, and auxiliaries. Experience is provided in using handbooks and other resources for developing the language skills of students. Topics include creative writing, story telling, appreciation of literature, tutoring, cursive and manuscript handwriting, and listening skills.

DRAFTING (DFT) 234 (4) ADVANCED TECHNICAL ILLUSTRATION (2 LEC., 6 LAB.)

Prerequisite: Drafting 232. An area of specialization is chosen and pursued in depth. Examples are pictorials for color separation printing, airbrush renderings, letterforms for logos and hand lettering, complex exploded views in isometric, perspective renderings, design of commercial displays, and art for slide presentations. Laboratory fee.

DRAFTING AND DESIGN TECHNOLOGY (DFT) 703, 713, 803, 813 (3)

(See Cooperative Work Experience)

EARTH SCIENCE (ES) 117 (4) EARTH SCIENCE (3 LEC., 3 LAB.)

This course is for the non-science major. It covers the interaction of the earth sciences and the physical world. Geology, astronomy, meteorology, and space science are included. Selected principles and concepts of the applied sciences are explored. Laboratory fee. (This course is offered on campus and may be offered via television.)

ECONOMICS (ECO) 201 (3) PRINCIPLES OF ECONOMICS I (3 LEC.)

Sophomore standing is recommended. The principles of microeconomics are presented. Topics include economic organization, national income determination, money and banking, monetary and fiscal policy, economic fluctuations, and growth. (This course is offered on campus and may be offered via television.)

ECONOMICS (ECO) 202 (3) PRINCIPLES OF ECONOMICS II (3 LEC.)

Prerequisite: Economics 201 or the consent of the instructor. The principles of microeconomics are presented. Topics include the theory of demand, supply, and price of factors. Income distribution and theory of the firm are also included. Emphasis is on international economics and contemporary economic problems.
EDUCATIONAL PARAPROFESSIONAL (EP) 131  (3)
INTRODUCTION TO EDUCATIONAL PROCESSES 1(3 LEC.)
The role of the educational paraprofessional is defined. The organization and administration of the public school system are described. Special attention is given to the development of effective interpersonal relationships. Through direct experiences with students on a one-to-one basis, the paraprofessional trainee observes and studies the developmental patterns of students. The principles of human growth and development are included.

EDUCATIONAL PARAPROFESSIONAL (EP) 133  (3)
INTRODUCTION TO EDUCATIONAL PROCESSES II(3 LEC.)
This course focuses on developing a wholesome learning environment in the classroom. The facilitation of learning in small groups is emphasized. Factors affecting the growth and development of students in a pluralistic society are covered. The responsibilities of the educational paraprofessional are covered.

EDUCATIONAL PARAPROFESSIONAL (EP) 134  (3)
INTRODUCTION TO MEDIA (2 LEC., 2 LAB.)
Basic skills for preparing graphic and projected educational materials are developed. The operation of selected audiovisual equipment is also included.

EDUCATIONAL PARAPROFESSIONAL (EP) 135  (3)
ARTS AND CRAFTS FOR EDUCATIONAL PARAPROFESSIONALS (3 LEC.)
Creative art materials and methods used in programs for children are presented. Opportunities are provided for the use of these materials. Classroom displays, charts, poster art, and bulletin boards are included, emphasis is on creating an attractive environment in the classroom.

EDUCATIONAL PARAPROFESSIONAL (EP) 245  (1)
DIVERSIFIED STUDIES (1 LEC.)
This course provides for specialized study by the educational paraprofessional. Possible areas for study are special education, bilingualism, child development, educational media, library, physical education, counseling, and health services. Other areas may be approved by the instructor.

EDUCATIONAL PARAPROFESSIONAL (EP) 246  (2)
DIVERSIFIED STUDIES (2 LEC.)
This course provides for specialized study by the educational paraprofessional. Possible areas for study are special education, bilingualism, child development, educational media, library, physical education, counseling, and health services. Other areas may be approved by the instructor.

EDUCATIONAL PARAPROFESSIONAL (EP) 247  (3)
EDUCATIONAL PARAPROFESSIONAL (EP) 247  (3)
DIVERSIFIED STUDIES (3 LEC.)
This course provides for specialized study by the educational paraprofessional. Possible areas for study are special education, bilingualism, child development, educational media, library, physical education, counseling, and health services. Other areas may be approved by the instructor.

EDUCATIONAL PARAPROFESSIONAL (EP) 802, 812  (2)
(See Cooperative Work Experience)

EDUCATIONAL PARAPROFESSIONAL (EP) 803, 813  (3)
(See Cooperative Work Experience)

EDUCATIONAL PARAPROFESSIONAL (EP) 804, 814  (4)
(See Cooperative Work Experience)

ENGINEERING (EGR) 105  (3)
ENGINEERING DESIGN GRAPHICS (2 LEC., 4 LAB.)
Graphical fundamentals are presented for engineering communications and engineering design. Topics include standard engineering graphical techniques, auxiliaries, sections, graphical analysis, and pictorial and working drawings. Laboratory fee.

ENGINEERING (EGR) 106  (3)
DESCRIPTIVE GEOMETRY (2 LEC., 4 LAB.)
Prerequisite: Drafting 183 or Engineering 105. This course provides training in the visualization of three-dimensional structures. Emphasis is on accurately representing these structures in drawings by analyzing the true relationship between points, lines, and planes. Included are the generation and classification of lines, surfaces, intersections, developments, auxiliaries, and revolutions. Laboratory fee.

ENGLISH (ENG) 101  (3)
COMPOSITION AND EXPOSITORY READING (3 LEC.)
The development of skills is the focus of this course. Skills in writing and in the critical analysis of prose are included. (This course is offered on campus and may be offered via television.)

ENGLISH (ENG) 102  (3)
COMPOSITION AND LITERATURE (3 LEC.)
Prerequisite: English 101. This course continues the development of skills in writing. Emphasis is on analysis of literary readings, expository writing, and investigative methods of research. (This course is offered on campus and may be offered via television.)

ENGLISH (ENG) 201  (3)
BRITISH LITERATURE (3 LEC.)
Prerequisite: English 102. Significant works of British literature are studied. The Old English Period through the 18th century is covered.

ENGLISH (ENG) 202  (3)
BRITISH LITERATURE (3 LEC.)
Prerequisite: English 102. Significant works of British literature are studied. The Romantic Period to the present is covered.

ENGLISH (ENG) 203  (3)
WORLD LITERATURE (3 LEC.)
Prerequisite: English 102. Significant works of continental Europe are studied. The Greek Classical Period through the Renaissance is covered.

ENGLISH (ENG) 204  (3)
WORLD LITERATURE (3 LEC.)
Prerequisite: English 102. Significant works of continental Europe, England, and America are studied. The time period since the Renaissance is covered.

ENGLISH (ENG) 205  (3)
AMERICAN LITERATURE (3 LEC.)
Prerequisite: English 102. Significant works of American writers before Walt Whitman are studied. Emphasis is on the context of the writers' times.

ENGLISH (ENG) 206  (3)
AMERICAN LITERATURE (3 LEC.)
Prerequisite: English 102. Significant works of American writers from Walt Whitman to the present are studied.

ENGLISH (ENG) 209  (3)
CREATIVE WRITING (3 LEC.)
Prerequisite: English 102. The writing of fiction is the focus of this course. Included are the short story, poetry, and short drama.
ENGLISH (ENG) 210 (3) TECHNICAL WRITING (3 LEC.)
Prerequisite: English 101 and 102 or Communications 131 and 132. The technical style of writing is introduced. Emphasis is on the writing of technical papers, reports, proposals, progress reports, and descriptions.

ENGLISH (ENG) 215 (3) STUDIES IN LITERATURE (3 LEC.)
Prerequisite: English 102. Selections in literature are read, analyzed, and discussed. Selections are organized by genre, period, or geographical region. Course titles and descriptions are available each semester prior to registration. This course may be repeated for credit.

ENGLISH (ENG) 216 (3) STUDIES IN LITERATURE (3 LEC.)
Prerequisite: English 102. Selections in literature are read, analyzed, and discussed. Selections are organized by theme, interdisciplinary content or major author. Course titles and descriptions are available each semester prior to registration. This course may be repeated for credit.

FIRE PROTECTION (FPT) 131 (3) INTRODUCTION TO FIRE PROTECTION (3 LEC.)
The history and philosophy of fire protection are studied. Statistics on fire losses are reviewed and agencies involved in fire protection are introduced. Other topics include legislative developments, career orientation, recruitment and training for fire departments, position classification and pay plans, and employee organizations. Current and future problems are also reviewed.

FIRE PROTECTION (FPT) 132 (3) FIRE PREVENTION THEORY & APPLICATION (3 LEC.)
Fire prevention administration is studied. Both principles and procedures are covered. Other topics include inspections, organization, public cooperation and image, recognition of fire hazards, insurance problems, and legal aspects. Local, state, and national codes on fire prevention are reviewed. Relationships between building inspection agencies and fire prevention organizations are described. Engineering is presented as a solution to fire hazards.

FIRE PROTECTION (FPT) 135 (3) INTRODUCTION TO FIRE ADMINISTRATION (3 LEC.)
This course focuses on the organization and management of a fire department. Topics include budgeting, maintenance of records and reports, and management of fire department officers. Personnel administration, distribution of equipment and personnel, and relations with various government agencies are also included. Fire service leadership is viewed from the company officer's position.

FIRE PROTECTION (FPT) 136 (3) FIRE INVESTIGATION AND ARSON (3 LEC.)
The detection and investigation of arson are studied. Topics include investigation techniques, case histories, gathering and preserving evidence, and preparing for a court case. Also included is a selected discussion of laws, decisions, and opinions. Kinds of arsonists, interrogation procedures, and cooperation between fire fighters and arson investigators are also covered.

FIRE PROTECTION (FPT) 139 (4) FIRE OPERATIONS STRATEGY (3 LEC., 1 LAB.)
This course examines the nature of fire and the process of determining requirements to fight a fire. The effective use of personnel and equipment are covered. Emphasis is on pre-planning, study of conflagration problems, problem-solving, decision making, and attack tactics and strategy. The use of mutual aid and large scale command problems are also included.

FIRE PROTECTION (FPT) 231 (3) FIRE PROTECTION THROUGH BUILDING CONSTRUCTION (3 LEC.)
The fire resistance of building construction is considered. Included are building materials, assemblies and exposures. Both local and national laws and guidelines are reviewed. Model building codes and the life safety code are also studied.

FIRE PROTECTION (FPT) 232 (3) PROTECTION SYSTEMS IN INDUSTRY (3 LEC.)
Safeguards for business and industrial organizations are presented. Topics include plant layout, fire prevention programs, extinguishing factors and techniques, hazards, and prevention methods. The organization and development of an industrial fire brigade are described. Gaining cooperation between the public and private fire department organization is also covered.

FIRE PROTECTION (FPT) 233 (3) FIRE PROTECTION SYSTEMS (3 LEC.)
This course examines fire protection systems. Topics include standards for water supply, special hazards protection systems, automatic sprinklers and special extinguishing systems, and automatic signaling and detection systems. Rafting organizations and underwriting agencies are also described.

FIRE PROTECTION (FPT) 234 (3) INDUSTRIAL FIRE PROTECTION (3 LEC.)
Prerequisite: Fire Protection 232. The study of industrial fire protection is continued. Fire and safety organizations in industry are described, and relations between private and public fire protection organizations are examined. Current trends, deficiencies, and possible solutions for industrial fire problems are discussed. The role of insurance and other special organizations is considered. Other topics cover industrial processes, equipment, facilities, and work practices. Both hazards and techniques to control hazards are included. Field trips to selected plants and demonstrations of new techniques, equipment, and innovations are also included.

FIRE PROTECTION (FPT) 235 (3) FIRE ADMINISTRATION II (3 LEC.)
Prerequisite: Fire Protection 135. Various aspects of the operation of a fire department are covered. Topics include insurance rates and ratings, budgets, training, city water requirements, and fire alarm and communication systems. The importance of public relations, report writing, and record keeping are stressed. Measurement of results, use of records to improve procedures, legal aspects of fire prevention and fire protection, and the design and construction of fire department buildings are also covered.

FIRE PROTECTION (FPT) 236 (3) LEGAL ASPECTS OF FIRE PROTECTION (3 LEC.)
This course focuses on legal rights and duties. Liability of the fire department is included. Other topics include civil and criminal law, the Texas and federal judicial structure, and cities' liability for acts of the fire department and fire prevention bureaus.

FIRE PROTECTION (FPT) 237 (3) HAZARDOUS MATERIALS II (3 LEC.)
Prerequisite: Chemistry 170. Hazardous materials are studied. Included are the storage, handling, laws, standards, and fire fighting techniques associated with hazardous materials. The materials include the storage, handling, laws, standards, and fire fighting techniques associated with hazardous materials. The materials include chemicals, gases, flammable liquids, corrosives, poisons, explosives, rocket propellants and exotic fuel, and radioactive substances. The formation of toxic fumes and health hazards is also stressed. Ignition and combustion characteristics of gases, liquids, and solids are covered. Special attention is given to radiological instruments, human exposure to radiation, decontamination procedures, common uses of radioactive materials, and operational procedures.
FIRE PROTECTION (FPT) 238
(3)
FIRE SAFETY EDUCATION (3 LEC.)
Physical, chemical, and electrical hazards are surveyed and related to loss of property and life. Codes, laws, problems, and cases are studied. The physical and psychological aspects of casualties are examined. Safe storage, transportation, and handling techniques are stressed to eliminate or control potential risks.

FIRE PROTECTION (FPT) 239
(3)
FIRE SERVICE COMMUNICATIONS (3 LEC.)
This course presents various communication and fire alarm systems. The installation, operation, and testing of the most common systems are included. Receiving, dispatching, and radio communication procedures are also included. Other topics cover regulations, the fire alarm operations office, mutual aid systems, fire station communications and facilities, response and fire ground procedures, emergency operations, code and numbering systems, required records and reports, and technological advances.

FIRE PROTECTION (FPT) 240
(3)
FIRE INSURANCE FUNDAMENTALS (3 LEC.)
The relationships among fire defenses, fire losses, and insurance rates are studied. Basic insurance principles, fire loss experience, loss ratios, state regulations of fire insurance, key rate system, the I.S.O. grading schedule, and other topics are stressed. Also covered are the relationship of insurance to modern business, principles of property and casualty insurance contracts, and the corporate structure of insurance companies.

FIRE PROTECTION (FPT) 241
(3)
ADVANCED FIRE LOSS STATISTICAL SYSTEMS (3 LEC.)
This course is a study of computerized systems used for storing and retrieving fire loss statistics. Techniques for programming records and reports are covered. New systems of microfilming, including the modern technology of COM (computer output microfilm) and microfiche, are presented. Standards for uniform coding for fire protection are reviewed.

FIRE PROTECTION (FPT) 242
(3)
URBAN FIRE PROBLEM ANALYSIS (3 LEC.)
The urban fire problem is explored. Problems from lack of zoning and other land use laws are described. Research techniques and systems engineering are used to analyze water supply and fire alarm methods. Socio-economic and management factors are related to city planning. Environment problems are studied.

FIRE PROTECTION (FPT) 243
(3)
TECHNICAL WRITING FOR FIREFIGHTERS (3 LEC.)
Prerequisite: English. This course focuses on advanced writing in technical, scientific, and business fields. Included are reports, proposals, papers, and correspondence. Emphasis is on the importance of the person to be served, and the provision of nutritionally adequate meals. Food preparation techniques, selection of equipment, and the effective use of time are included. Laboratory fee.

FIRE SERVICE (FS) 119
(3)
FOOD SERVICE EQUIPMENT (3 LEC.)
FOOD SERVICE (FS) 120
(3)
BASIC FOOD PREPARATION (2 LEC., 4 LAB.)
Quality food preparation and cookery are studied. Emphasis is on the selection of equipment, and the effective use of time are also covered. Laboratory fee.

FOOD SERVICE (FS) 122
(3)
ADVANCED FOOD PREPARATION (2 LEC., 4 LAB.)
Prerequisite: Food Service 120. This course is a continuation of Food Service 120. Procedures for large quantities and management for food preparation are introduced. Topics include basic cookery, safety and sanitation factors, and selection of equipment. Emphasis on high preparation techniques for high quality. Laboratory fee.

FOOD SERVICE (FS) 124
(3)
FOOD SERVICE SANITATION AND SAFETY (3 LEC.)
The principles of microbiology are studied and applied to the need for personal cleanliness. The cause, control, and investigation of illness caused by food contamination are explored. Other topics include sanitary practices, dishwashing procedures, the use of cleaning materials, garbage and refuse disposal, general safety precautions, and elementary first aid.

FOOD SERVICE (FS) 132
(3)
FOOD PURCHASING, HANDLING AND STORAGE (3 LEC.)
This course focuses on policies and procedures for purchasing food in quantities. Storage requirements, procedures, and controls are included. The availability of food supplies, analysis of food quality, and specification writing are also covered.

FOOD SERVICE (FS) 135
(3)
FOOD SERVICE COST CONTROL (3 LEC.)
Prerequisites: Food Service 132 and Math 130. The principles and procedures of the control of food cost are presented. Emphasis is on applying the principles and procedures to any food service operation.

FOOD SERVICE (FS) 136
(3)
FOOD SERVICE (FS) 138
(3)
SUPERVISORY TECHNIQUES FOR FOOD SERVICE (3 LEC.)
FOOD SERVICE (FS) 139
(3)
ELEMENTARY BAKERY TRAINING (2 LEC., 4 LAB.)
This course covers the work of the baker. Doughs, breads, pies, and cookies are analyzed and produced in quantity. Also covered are all types of fillings, butter creams, puddings, cakes, cake decorations and frostings. The use of proper flours and the handling of the pastry bag are stressed. Laboratory fee.

FOOD SERVICE (FS) 201
(1)
SPECIAL TOPICS IN FOOD SERVICE (1 LEC.)
Prerequisite: The consent of the instructor. Students participate in identifying, defining, and analyzing current topics of interest in food service. The course emphasizes present industry needs and problems, and students are guided to offer realistic and workable solutions which include the total knowledge of food service processes. This course may be repeated for credit.

FOOD SERVICE (FS) 202
(2)
SPECIAL TOPICS IN FOOD SERVICE (2 LEC.)
Prerequisite: The consent of the instructor. Students participate in identifying, defining, and analyzing current topics of interest in food service. The course emphasizes present industry needs and problems, and students are guided to offer...
realistic and workable solutions which include the total knowledge of food service processes. This course may be repeated for credit.

FOOD SERVICE (FS) 203 (3)
SPECIAL TOPICS IN FOOD SERVICE (3 LEC.)
Prerequisite: The consent of the instructor. Students participate in identifying, defining, and analyzing current topics of interest in food service. The course emphasizes present industry needs and problems, and students are guided to offer realistic and workable solutions which include the total knowledge of food service processes. This course may be repeated for credit.

FOOD SERVICE (FS) 220 (4)
QUANTITY FOOD PREPARATION AND SERVICE (3 LEC., 5 LAB.)
Prerequisite: Food Service 22. A lecture-laboratory course offering field training study of quantity food procedures and techniques with emphasis on retention of nutritive value of foods. Kitchen organization and planning of quantity production, use of large and small institutional equipment, food control and the associated supervisory problems as related to institutional and commercial food service. Includes study and use of convenience foods. Laboratory fee required.

FOOD SERVICE (FS) 222 (4)
ADVANCED QUANTITY FOOD PREPARATION AND SERVICE (3 LEC., 5 LAB.)
Prerequisite: Food Service 22. This course emphasizes the planning and management of quantity food production. Training in the field is provided. Practice is given in producing entire meals, including evaluation and controls. Quality food standards of various cost levels are studied. The planning, layout, and maintenance of equipment are also covered. Laboratory fee.

FOOD SERVICE (FS) 231 (3)
FOOD SERVICE FINANCIAL MANAGEMENT (3 LEC.)
Financial aspects of food service are explored. Topics include profit planning, cost analysis, break-even point analysis, budgets, income statements, and balance sheets for commercial food service operations. Emphasis is on cost management, ratio analysis, and feasibility studies.

FOOD SERVICE (FS) 233 (3)
FOOD MARKETING (3 LEC.)
The distribution of the finished product is introduced. Emphasis is on the consumer. Included are the activities involved in developing markets, customers, and distribution services.

FOOD SERVICE (FS) 237 (2)
ORGANIZATION AND MANAGEMENT (3 LEC.)
The organizational structure of various types of group care institutions is studied. Administration, tools of management, budget, and cost analysis are emphasized.

FOOD SERVICE (FS) 238 (3)
GARDE-MANAGER TRAINING (2 LEC., 4 LAB.)
Prerequisite: Food Service 22. This course covers the preparation of the cold buffet. Included are salads, sandwiches, ice carvings, lard sculptures, chaud froids hors d'oeuvres, pates, cold fish, poultry, meats, and game. Also included is the proper set-up of the garde-manger station. Laboratory fee.

FOOD SERVICE (FS) 239 (3)
SAUCIER TRAINING (2 LEC., 4 LAB.)
Prerequisite: Food Service 22. This course covers the preparation of basic soups, sauces, vegetables, and garnitures. All meats, fish, poultry, and game are also covered. The proper set-up of the saucier station is also included. Laboratory fee.

FOOD SERVICE (FS) 242 (4)
COMMUNITY NUTRITION (3 LEC., 3 LAB.)
Prerequisite: Food Service 135. Nutrition knowledge is applied to the care for people. How people eat and why they eat are studied. Other topics include the racial and cultural aspects of food and nutrition, the socioeconomic and psychological aspects of providing nutrition throughout the life cycle, and techniques of evaluating nutrition care. Laboratory fee.

FOOD SERVICE (FS) 243 (4)
CLINICAL NUTRITION (3 LEC., 3 LAB.)
Prerequisite: Food Service 135. This course focuses on changes in nutrition necessary in illness and for special problems. Included are changes for individuals with cardiovascular disease, diabetes, weight control, malnutrition, and other health problems. Laboratory fee.

FOOD SERVICE (FS) 244 (4)
CHILD NUTRITION (3 LEC., 3 LAB.)
Prerequisite: Food Service 135. The nutrition of children is studied. The time period begins with birth and extends through childhood and adolescence. Emphasis is on the contribution of feeding programs in child care centers and schools. Laboratory fee.

FOOD SERVICE (FS) 245 (3)
ADVANCED PASTRY SHOP TRAINING (2 LEC., 4 LAB.)
Prerequisite: Food Service 140. This course covers the operation of the pastry shop. Topics include French pastry, hot and cold desserts, pastillage, ice creams, and ices, sugar fantasies, chocolate work, and decorations with cornet. Emphasis is on advance techniques in continental pastries. Laboratory fee.

FOOD SERVICE (FS) 247 (3)
BEVERAGE OPERATIONS AND SERVICE (3 LEC.)
This course deals with beverage service in the commercial sector. Topics include basic bar operations, sales control, beverage service, and profits. A detailed analysis is made of the organization of a beverage bar, wine cellar, or catered beverage service.

FOOD SERVICE (FS) 804, 814 (4)
(See Cooperative Work Experience)

FRENCH (FR) 101 (4)
BEGINNING FRENCH (3 LEC., 2 LAB.)
The essentials of grammar and easy idiomatic prose are studied. Emphasis is on pronunciation, comprehension, and oral expression. Laboratory fee.

FRENCH (FR) 102 (4)
BEGINNING FRENCH (3 LEC., 2 LAB.)
Prerequisite: French 101 or the equivalent. This course is a continuation of French 101. Emphasis is on idiomatic language and complicated syntax. Laboratory fee.

FRENCH (FR) 201 (3)
INTERMEDIATE FRENCH (3 LEC.)
Prerequisite: French 102 or the equivalent. Reading, composition, and intense oral practice are covered in this course. Grammar is reviewed.

FRENCH (FR) 202 (3)
INTERMEDIATE FRENCH (3 LEC.)
Prerequisite: French 201 or the equivalent. This course is a continuation of French 201. Contemporary literature and composition are studied.

FRENCH (FR) 203 (3)
INTRODUCTION TO FRENCH LITERATURE (3 LEC.)
Prerequisite: French 202 or the consent of the instructor. This course is an introduction to French literature. It includes readings in French literature, history, culture, art, and civilization.

FRENCH (FR) 204 (3)
INTRODUCTION TO FRENCH LITERATURE (3 LEC.)
Prerequisite: French 202 or the consent of the instructor. This course is a continuation of French 203. It includes readings in French literature, history, culture, art, and civilization.
GEOGRAPHY (GPY) 101 (3)
PHYSICAL GEOGRAPHY (3 LEC.)
The physical composition of the earth is surveyed. Topics include weather, climate, topography, plant and animal life, land, and the sea. Emphasis is on the earth in space, use of maps and charts, and place geography.

GEOGRAPHY (GPY) 102 (3)
ECONOMIC GEOGRAPHY (3 LEC.)
The relation of humans to their environment is studied. Included is the use of natural resources. Problems of production, manufacturing, and distributing goods are explored. Primitive subsistence and commercialism are considered.

GEOGRAPHY (GPY) 103 (3)
CULTURAL GEOGRAPHY (3 LEC.)
This course focuses on the development of regional variations of culture. Topics include the distribution of races, religions, and languages. Aspects of material culture are also included. Emphasis is on origins and diffusion.

GEOLOGY (GEO) 101 (4)
PHYSICAL GEOLOGY (3 LEC., 3 LAB.)
This course is for science and non-science majors. It is a study of earth materials and processes. Included is an introduction to geochemistry, geophysics, the earth's interior, and magnetism. The earth's setting in space, minerals, rocks, structures, and geologic processes are also included. Laboratory fee.

GEOLOGY (GEO) 102 (4)
HISTORICAL GEOLOGY (3 LEC., 3 LAB.)
This course is for science and non-science majors. It is a study of earth materials and processes within a developmental time perspective. Fossils, geologic maps, and field studies are used to interpret geologic history. Laboratory fee.

GEOLOGY (GEO) 202 (3)
INTRODUCTION TO ROCK AND MINERAL IDENTIFICATION (1 LEC., 3 LAB.)
Prerequisite: Geology 101 and Geology 102. This course introduces petrography, geochemistry, descriptive mineralogy, petrology, and phase equilibria. Crystal models and hand specimens are studied as an aid to rock and mineral identification. Laboratory fee.

GEOLOGY (GEO) 205 (4)
FIELD GEOLOGY (3 LEC., 3 LAB.)
Prerequisite: Geology 101 and/or Geology 102 or concurrent enrollment in Geology 101 or 102. Geological features, landforms, rocks, minerals, and fossils are surveyed. Map reading and interpretation are also included. Emphasis is on the identification, classification, and collection of specimens in the field. This course may be repeated for credit.

GOVERNMENT (GVT) 201 (3)
AMERICAN GOVERNMENT (3 LEC.)
Prerequisite: Sophomore standing recommended. This course is an introduction to the study of political science. Topics include the origin and development of constitutional democracy (United States and Texas), federalism and intergovernmental relations, local government, parties, politics, and political behavior. The course satisfies requirements for Texas State Teacher's Certification. (This course is offered on campus and may be offered via television.)

GOVERNMENT (GVT) 202 (3)
AMERICAN GOVERNMENT (3 LEC.)
Prerequisite: Sophomore standing recommended. The three branches of the United States and Texas government are studied. Topics include the legislative process, the executive and bureaucratic structure, the judicial process, civil rights and liberties, and domestic policies. Other topics include foreign relations and national defense. This course satisfies requirements for Texas State Teacher's Certification. (This course is offered on campus and may be offered via television.)

HISTORY (HST) 101 (3)
HISTORY OF THE UNITED STATES (3 LEC.)
The history of the United States is presented, beginning with the European background and first discoveries. The pattern of exploration, settlement, and development of institutions is followed throughout the colonial period and the early national experience to 1877. (This course is offered on campus and may be offered via television.)

HISTORY (HST) 102 (3)
HISTORY OF THE UNITED STATES (3 LEC.)
Prerequisite: History 101 recommended. This course is a continuation of History 101. The history of the United States is surveyed from the reconstruction era to the present day. The study includes social, economic, and political aspects of American life. The development of the United States as a world power is followed. (This course is offered on campus and may be offered via television.)
HOTEL-MOTEL OPERATIONS (HMO) 110 (3) PRINCIPLES OF HOTEL ADMINISTRATION (3 LEC.)
The physical aspects of hotel-motel operations are analyzed. Included are procedures for emergencies, check-in, check-out, use of credit cards, and collection of accounts receivable. Emphasis is given to guest services, guest room facilities, protection of the property, and the development of the property's growth.

HOTEL-MOTEL OPERATIONS (HMO) 112 (3) HOTEL-MOTEL HOUSEKEEPING (3 LEC.)
This course focuses on the methods, procedures, and policies of housekeeping in a hotel or motel. Topics include departmental organization, employee supervision, work organization and assignments, materials and equipment, and room design and layout.

HOTEL-MOTEL OPERATIONS (HMO) 114 (3) FRONT OFFICE PROCEDURES (2 LEC., 4 LAB.)
The everyday procedures of the front desk are covered. The use of the guest registration card and other forms are included. Also included are the operation of the room rack, selling of rooms, reservations and inquiries, and general problems. Methods of handling accounts in hotels of various sizes are presented. The operation of NCR 4200 is covered, and its uses are thoroughly analyzed.

HOTEL-MOTEL OPERATIONS (HMO) 116 (3) HOTEL-MOTEL MAINTENANCE AND ENGINEERING (3 LEC.)
This course examines the maintenance and engineering departments. Preventive programs and maintenance procedures are covered.

HOTEL-MOTEL OPERATIONS (HMO) 210 (3) HOTEL-MOTEL SALES DEVELOPMENT (3 LEC.)
The techniques of developing a marketing plan for any size operation are studied. Included is the development of the departments of the hotel into a coordinated team. Emphasis is on the organization and functioning of a sales department, sales tools, techniques, advertising, and types of markets.

HOTEL-MOTEL OPERATIONS (HMO) 212 (3) HOTEL-MOTEL ACCOUNTING (3 LEC.)
The principles of hotel and motel accounting are presented. Topics include the meaning and purposes of accounting, journalizing, periodic adjustments, and financial statements. Emphasis is on the analysis of financial statements for making decisions in the operation of hotels and motels.

HOTEL-MOTEL OPERATIONS (HMO) 214 (3) HOTEL-MOTEL LAW (3 LEC.)
This course covers the legal responsibilities and rights of the innkeeper. The consequences caused by failure in those responsibilities are illustrated. Topics include court attitudes toward an innkeeper where negligence and liability are involved.

HUMAN DEVELOPMENT (HD) 100 (1) EDUCATIONAL ALTERNATIVES (1 LEC.)
The learning environment is introduced. Career, personal study skills, educational planning, and skills for living are all included. Emphasis is on exploring career and educational alternatives and learning a systematic approach to decision-making. A wide range of learning alternatives is covered, and opportunity is provided to participate in personal skills seminars.

HUMAN DEVELOPMENT (HD) 102 (1) SPECIAL TOPICS IN HUMAN DEVELOPMENT (1 LEC.)
This is a course intended to help the student succeed in college. Topics such as stress management, communications training for the handicapped, career exploration techniques, or educational concerns of adult students may be included. This course may be repeated for credit.

HUMAN DEVELOPMENT (HD) 104 (3) EDUCATIONAL AND CAREER PLANNING (3 LEC.)
This course is designed to help the student increase self-awareness and to learn to relate more effectively to others. Students are made aware of their feelings, values, attitudes and behaviors. The course content focuses on developing communication skills such as assertiveness, verbal and non-verbal behavior, listening, and conflict resolution.

HUMAN DEVELOPMENT (HD) 106 (3) PERSONAL AND SOCIAL GROWTH (3 LEC.)
This course focuses on the interaction between the individual and society. Societal influences, adjustment to social change, personal roles, and problem-solving are stressed. Components of a healthy personality, alternative behaviors, and lifestyles that demonstrate a responsibility to self and society are studied.

HUMAN DEVELOPMENT (HD) 107 (3) DEVELOPING LEADERSHIP BEHAVIOR (3 LEC.)
The basic purpose of this course is to help the student develop leadership and human relation skills. Topics include individual and group productivity, value systems, appropriate communication skills, and positive attitudes in a group environment. The concepts of leadership are explored through both theory and practice. These leadership activities can be applied to the student's personal, business, and professional interactions.

HUMANITIES (HUM) 101 (3) INTRODUCTION TO THE HUMANITIES (3 LEC.)
Related examples of humans' creative achievements are examined. Emphasis is on understanding the nature of humans and the values of human life. (This course is offered on campus and may be offered via television. Laboratory fee required for television course.)
INTERIOR DESIGN (INT) 102 (3)
BASIC PLANNING (2 LEC., 4 LAB.)
Prerequisites: Interior Design major and concurrent enrollment in Interior Design 121. This course focuses on basic drafting and the use of drafting instruments. It includes the drawing of two and three-dimensional forms, floor plans, interior elevations, sections, and furniture. The reading of architectural drawings, producing good quality lettering and line work, use of architectural symbols, and printing are emphasized. Laboratory fee.

INTERIOR DESIGN (INT) 121 (3)
BASIC COLOR THEORY FOR INTERIOR DESIGN (6 LEC., 4 LAB.)
Prerequisites: Interior Design major and concurrent enrollment in Interior Design 120. Color theory and systems are studied. Mixing techniques for transparent and opaque pigments are covered. The use of values, tints, and intensities is practiced. Basic color schemes and color psychology are applied to Interior Design 120 projects.

INTERIOR DESIGN (INT) 123 (3)
ADVANCED PLANNING AND PERSPECTIVE (2 LEC., 4 LAB.)
Prerequisites: Interior Design 120 and 121 and concurrent enrollment in Interior Design 124 and 225. The student applies methods and principles of one and two point perspective. Orthographic, oblique, and isometric projections are made of furniture studies. Advanced plans and elevations are incorporated into portfolio presentations.

INTERIOR DESIGN (INT) 124 (3)
COLOR AND LIGHTING (2 LEC., 4 LAB.)
Prerequisites: Interior Design 120 and 121 and concurrent enrollment in Interior Design 123. The relationship of color and lighting is applied to total space concepts. Qualitative and quantitative aspects of lighting are assessed in relation to color schemes. A study is made of fixtures. Electrical plans and specifications are correlated with projects in Interior Design 123.

INTERIOR DESIGN (INT) 144 (1)
PHILOSOPHY OF DESIGN (1 LEC.)
Prerequisites: Current enrollment in Interior Design Program or the consent of the instructor. Readings and discussions of selected major designers and architects whose philosophy and work have influenced the course of 20th century design are studied.

INTERIOR DESIGN (INT) 222 (5)
HISTORY OF INTERIOR ARTS I (5 LEC.)
Prerequisites: Interior Design 123, 124, and 225 and concurrent enrollment in Interior Design 226 and 233. The evolution of the interior arts and related architectural development are surveyed. The study of the history of interior arts is continued. The English Period through the French Period is covered.

INTERIOR DESIGN (INT) 223 (5)
HISTORY OF INTERIOR ARTS II (5 LEC.)
Prerequisites: Interior Design 222, 226, and 233 and concurrent enrollment in Interior Design 224, 225 and 235. The study of the history of interior arts continues. The English Period through the Oriental Period is covered.

INTERIOR DESIGN (INT) 224 (3)
INTERIOR GRAPHICS AND ILLUSTRATION (2 LEC., 4 LAB.)
Prerequisites: Interior Design 222, 226, and 233 and concurrent enrollment in Interior Design 223, and 234. Design projects based on traditional styles are developed. Mechanical systems and acoustical considerations are studied. Both formal and informal presentations are made. Projects include working drawings.

INTERIOR DESIGN (INT) 225 (3)
ARCHITECTURAL DRAWINGS I (2 LEC., 4 LAB.)
Prerequisites: Interior Design 120 and 121 and concurrent enrollment in Interior Design 123 and 124. Wood frame construction is studied. Introduction is made to construction drawings. A basic residential floor plan, from which working drawings are prepared, is given to the student. The working drawings include plans, sections, elevations, schedules, and details. Lettering, line quality, and dimensioning are emphasized. Laboratory fee.

INTERIOR DESIGN (INT) 226 (3)
ARCHITECTURAL DRAWINGS II (2 LEC., 4 LAB.)
Prerequisites: Interior Design 123, 124, 225 and concurrent enrollment in Interior Design 222 and 233. Three-dimensional objects are rendered from static, static and human and architectural forms. Emphasis is on freehand perspective in mixed media.

INTERIOR DESIGN (INT) 233 (3)
FABRICATIONS I (2 LEC., 4 LAB.)
Prerequisites: Interior Design 123, 124, and 225 and concurrent enrollment in Interior Design 222 and 226. This course provides for the student a practical working knowledge of crafts and techniques involved in constructions and installations. The student is required to study and implement good design principles using the materials studied in this course. Laboratory fee.

INTERIOR DESIGN (INT) 234 (3)
FABRICATIONS II (2 LEC., 4 LAB.)
Prerequisites: Interior Design 222, 226, 233, and 235 and concurrent enrollment in Interior Design 223 and 224. This course is a continuation of Interior Design 233. Emphasis is on crafts and techniques involved in constructions and installations. Laboratory fee.

INTERIOR DESIGN (INT) 235 (3)
INNER SPACE COMPOSITION AND PRESENTATION (2 LEC., 4 LAB.)
Prerequisites: Interior Design 123, 124, and 225 and concurrent enrollment in Interior Design 222, 226, and 233. All elementary principles of interior design are used for problem-solving assignments. Emphasis is on quick sketch solutions.

INTERIOR DESIGN (INT) 237 (4)
ADVANCED PRINCIPLES OF INTERIOR DESIGN (3 LEC., 3 LAB.)
Prerequisites: Interior Design 223, 224, 234, and 235 and concurrent enrollment in Interior Design 340, 342, and 341 or 341. This course focuses on the organization of all aspects of interior and related exterior space. Color and design of all materials are coordinated. Professional problem solving and formal presentation for contemporary design are stressed. Emphasis is on contemporary residential interior projects.

INTERIOR DESIGN (INT) 238 (4)
CLIENT PSYCHOLOGY SURVEY AND BUSINESS PROCEDURES (3 LEC., 3 LAB.)
Prerequisites: Interior Design 237, 340, 342, and 341 or 341, and concurrent enrollment in Interior Design 239 and 343. This course is study of designer and client relations. Topics include the analysis of the client's needs by interview and survey, the calculation of the proper design and presentation for the individual client and the application of client psychology principles. The use of source catalogs, showrooms, local crafts, and workshops is also included. Cost estimates, contracts, studio organization, professional ethics, and the coordination of orders, fabrics, and installations are also covered.

INTERIOR DESIGN (INT) 239 (4)
PRINCIPLES OF COMMERCIAL INTERIOR DESIGN (3 LEC., 3 LAB.)
Prerequisites: Interior Design 237, 341, 342, or 341 and concurrent enrollment in Interior Design 238 and 343. This course is a continuation of Interior Design 237. Field trips to professional...
studios, workrooms and factories are included. Emphasis is on the study of traditional and contemporary commercial interiors. The latest trends and materials are surveyed and used. A study and application of acoustics is included.

INTERIOR DESIGN (INT) 240 (1)
DESIGN SOURCES (1 LEC.)
Prerequisite: Interior Design 123 and 124 and concurrent enrollment in Interior Design 224 and 234. This is an independent study (lecture) course designed to allow students to do in-depth research of existing sources of materials, furnishings, accessories, fabricators, and workrooms that is necessary to implement design jobs.

INTERIOR DESIGN (INT) 341 (1)
SPECIAL PROJECT (1 LEC.)
Prerequisite: Interior Design 223, 224, and 235 and concurrent enrollment in Interior Design 237 and 342. A design problem is assigned to each student. All work is accomplished outside of class, with complete presentation of the problem and its solution due at the end of the semester. Analysis, plan, illustration, and presentation are included. Consultation with the instructor is scheduled regularly. The scope of the problem is directed and controlled by the instructor.

INTERIOR DESIGN (INT) 342 (3)
20TH CENTURY DESIGNS (3 LEC.)
Prerequisite: Interior Design 223, 224, 234, and 235 and concurrent enrollment in Interior Design 237 and 381 or 341. This course focuses on interior design in the 20th century and current developments in environmental design.

INTERIOR DESIGN (INT) 343 (2)
RESEARCH AND PRESENTATION (2 LEC.)
Prerequisites: Interior Design 237, 341, or 381, and 342 and concurrent enrollment in Interior Design 238 and 239. A research problem is studied in depth and solved through the development of a complete design process. All steps are included, from the survey to the defense of the final presentation before a jury.

INTERIOR DESIGN (INT) 801, 811 (1)
(See Cooperative Work Experience)

INTERIOR DESIGN (INT) 802, 812 (2)
(See Cooperative Work Experience)

JOURNALISM (JN) 101 (3)
INTRODUCTION TO MASS COMMUNICATIONS (3 LEC.)
This course surveys the field of mass communications. Emphasis is on the role of mass media in modern society.

JOURNALISM (JN) 102 (3)
NEWS GATHERING AND WRITING (2 LEC., 3 LAB.)
Prerequisite: Typing ability. Beginning reporting is presented. Topics include types of news, leads, body treatment of a story, feature in the lead, facts, and background. A practice in writing straight news stories is provided.

JOURNALISM (JN) 103 (3)
NEWS GATHERING AND WRITING (2 LEC., 3 LAB.)
Prerequisite: Journalism 102. This course is a continuation of Journalism 102. Complex news stories are written. Specialized writing is covered for sports, police news, markets, finance, society, amusements, government, and women's stories. Laboratory work on the student newspaper is required.

JOURNALISM (JN) 104 (1)
STUDENT PUBLICATIONS (3 LAB.)
This course may not be taken for credit concurrently with Journalism 102 or 103. Individual staff assignments are made for the student newspaper. Assignments may be made in writing, advertising, photography, cartooning, or editing. Students are required to work at prescribed periods under supervision and must attend staff meetings. This course may be repeated for a total of three credits.

JOURNALISM (JN) 105 (1)
STUDENT PUBLICATIONS (3 LAB.)
This course may not be taken for credit concurrently with Journalism 102 or 103. The course is a continuation of Journalism 104.

JOURNALISM (JN) 201 (3)
EDITORIAL AND FEATURE WRITING (3 LEC.)
Prerequisites: 6 hours of journalism or the consent of the instructor. This course covers difficult news stories, editorials, and features. Research, interviewing techniques, and the development of feature stories for use in newspapers and magazines are emphasized.

JOURNALISM (JN) 202 (1)
STUDENT PUBLICATIONS (3 LAB.)
Prerequisite: The consent of the instructor. This course may not be taken for credit concurrently with Journalism 102 or 103. Individual staff assignments are made for the student newspaper. Assignments may be made in writing, advertising, photography, cartooning, or editing. Students are required to work at prescribed periods under supervision and must attend staff meetings.

JOURNALISM (JN) 203 (1)
STUDENT PUBLICATIONS (3 LAB.)
This course may not be taken for credit concurrently with Journalism 102 or 103. The course is a continuation of Journalism 202.

JOURNALISM (JN) 204 (3)
NEWS EDITING AND COPY READING (3 LEC.)
Prerequisite: Journalism 102. This course focuses on editing news for newspaper, radio, and television. Emphasis is on writing headlines and laying out pages.

LEGAL ASSISTANT (LA) 131 (3)
INTRODUCTION TO LEGAL TECHNOLOGY (3 LEC.)
Prerequisite: Concurrent enrollment in Legal Assistant 135. Legal technology is introduced. Topics include legal technology concept, legal profession and unauthorized practice, legal ethics and the "new profession" concept. The history and areas of American Law, are also included. Legal research, bibliography, legal drafting, and writing are also covered.

LEGAL ASSISTANT (LA) 132 (3)
LAW OF REAL PROPERTY AND REAL ESTATE TRANSACTION (3 LEC.)
Prerequisites: Legal Assistant 131 and 135 and English 101. The law of real property and common real estate transactions are studied. Topics include contracts, leases, and deeds of trust. Problems involved in the drafting of these instruments are examined. The system of recording and the search of public documents are also covered.

LEGAL ASSISTANT (LA) 134 (3)
PRINCIPLES OF FAMILY LAW (3 LEC.)
Prerequisites: Legal Assistant 131 and 135 and English 101. Family law is surveyed. Divorce, separation, custody, legitimacy, adoption, change of name, guardianship, support, domestic relations court procedures, and separation agreements are studied.

LEGAL ASSISTANT (LA) 135 (3)
TEXAS LEGAL SYSTEMS (3 LEC.)
Prerequisite: Concurrent enrollment in Legal Assistant 131. The court system of Texas is studied. Legal practices related to the courts and principles of court administration are examined. The federal court system is reviewed.

LEGAL ASSISTANT (LA) 139 (2)
LEGAL RESEARCH AND DRAFTING (1 LEC., 2 LAB.)
Prerequisite: Legal Assistant 131 and 135 and English 101. This course familiarizes the beginning legal assistant student with the use of a law library and the various research materials and tools contained in a standard law library and provides the student with a more comprehensive vocabulary of legal terminology. Research techniques for case reporters, federal and state statutes and constitutions, secondary research materials and Shepard's Citators are
studied. Basic citation form for all resource materials is discussed. Students are given opportunities to research rudimentary legal problems and to write short memoranda.

LEGAL ASSISTANT (LA) 225 (3)
BUSINESS ORGANIZATIONS (3 LEC.)
Prerequisites: Legal Assistant 131 and 135 and English 101. This course is a study of the practical aspects of the law of business organizations, including a "how-to-do-it" approach, with explanation of the legal principles which must be observed, in counseling and enterprise. This course covers the common law principles of proprietorships and reviews the Uniform Partnership Act, the Uniform Limited Partnership Act, and the Model Business Corporation Act (as they have been used and adopted in Texas law).

LEGAL ASSISTANT (LA) 227 (3)
CIVIL LITIGATION (3 LEC.)
Prerequisites: Legal Assistant 131 and 135, English 101 or the consent of the instructor. This course is an overview of civil litigation in both state and federal court with particular emphasis on the areas in which a legal assistant can assist the trial attorney. Particular attention is paid to preparation for litigation (interviewing client and witnesses, reviewing public information), discovery proceedings (interrogatories, requests for admissions, depositions and document production), pretrial proceedings (motions to dismiss, motions for summary judgment, pretrial orders), and trial (witnesses and exhibits). Attention is also devoted to practical techniques required to cope with protracted or complex litigation, including organization of pleadings, documents and depositions; preparation of summaries, chronologies and indices; and maintaining a complex file in an orderly manner. Mention is made of the legal theories involved in complex litigation (e.g., products liability, civil rights, securities and antitrust). Principal emphasis is on procedural techniques rather than substantive areas of law.

LEGAL ASSISTANT (LA) 231 (3)
WILLS, TRUSTS, AND PROBATE ADMINISTRATION (3 LEC.)
Prerequisites: Legal Assistant 133 and 135 or the consent of the instructor. The forms and principles of law for wills and trusts are covered. The organization and jurisdiction of the Texas Probate Court are studied. The administration of estates under Texas Probate Law is analyzed, and estate and inheritance taxes are reviewed.

LEGAL ASSISTANT (LA) 232 (3)
TORT AND INSURANCE LAW AND CLAIMS INVESTIGATION (3 LEC.)
Prerequisites: Legal Assistant 131 and 135, and English 101 or the consent of the instructor. The law of torts and insurance is the focus of this course. The techniques of investigation involved in tort and insurance claims are considered, and the various forms of pleadings for making the claims are studied.

LEGAL ASSISTANT (LA) 233 (3)
INCOME TAXATION AND LEGAL ACCOUNTING (3 LEC.)
Prerequisites: Legal Assistant 131 and 135 and Business 202 or the consent of the instructor. This course is a study of federal, state and local income taxation. Individuals and tax-paying entities such as estates, trusts and corporations are all included. Emphasis is on the preparation of basic tax returns and other tax-related documents. Accounting related to legal problems is also introduced.

LEGAL ASSISTANT (LA) 234 (3)
PERSONAL PROPERTY, SALES AND CREDIT TRANSACTIONS (3 LEC.)
Prerequisites: Legal Assistant 131 and 135 and English 101 or the consent of the instructor. The law of personal property and contracts is presented. Included are the special forms related to the law of sales and credit transactions and special drafting problems of various instruments and legal research projects. The uniform commercial code and its effect are also included.

LEGAL ASSISTANT (LA) 235 (4)
TECHNIQUES OF LEGAL PRACTICE AND PROCEDURES (3 LEC., 3 LAB.)
Prerequisites: Legal Assistant 131, 133, 135, and 231 and English 101. This course provides training in the preparation of legal documents. Topics include the statute of limitations, client interviews and interview forms, complaints, interrogatories, depositions, answers, motions, and orders to show cause. Also included are third-party practice, orders, medical records, judgments, pre-trials, settlements, and releases. Laboratory fee.

LEGAL ASSISTANT (LA) 236 (2)
LEGAL OFFICE MANAGEMENT (2 LEC.)
Prerequisites: Legal Assistant 231 and 233 and Business 202. All aspects of law office management are covered. Topics include ethics, office organization, bookkeeping and accounting, fees and billing procedures, scheduling and calendaring, and legal research. Management of personnel, proofreading, investigations, file preparation, legal drafting, and procedures for specialized areas of law are also included.

Trust accounts, law office forms, check list and files, and disbursement on behalf of clients are covered.

LEGAL ASSISTANT (LA) 248 (3)
CONSTITUTIONAL AND CRIMINAL LAW (3 LEC.)
Prerequisites: Legal Assistant 131 and 135 and English 101. This course covers freedom of communication and religion, individual privacy, private property and contractual rights, and criminal justice. Also studied are procedural due process and discrimination, rights and privileges of citizenship, states powers and limitations, theories of federal government and its powers, congressional powers, the presidency, and the courts system and judicial review of constitutional issues.

LEGAL ASSISTANT (LA) 251 (3)
COMPLEX LITIGATION AND THE ANTITRUST AND SECURITIES LAWS (3 LEC.)
Prerequisite: Legal Assistant 227. This course is a study coordinated with other legal technology courses at an advanced level. It includes specialized study and training in the preparation for and procedures of complex litigation, including discovery and pretrial procedures, and specialized study of the basic legal concepts of antitrust and securities law, as well as the practical application of those concepts as the predominant topics of complex litigation.

LEGAL ASSISTANT (LA) 255 (3)
OIL AND GAS LAW (3 LEC.)
Prerequisites: Legal Assistant 133 or the consent of the instructor. Oil and gas law's history, terminology and principles, its instruments are examined. Litigation of oil and gas matters, title determination, division of interests, and major regulatory agencies are also discussed.

LEGAL ASSISTANT (LA) 803, 813 (3)
(See Cooperative Work Experience)

LEGAL ASSISTANT (LA) 804, 814 (4)
(See Cooperative Work Experience)

LIBRARY SKILLS (LS) 101
INTRODUCTION TO LIBRARY RESEARCH (3 LEC.)
In this course the student explores the various types of print and non-print sources of information and learns to document research. Emphasis is on practical skills with a great deal of hands-on experience. The course skills consist of lectures as well as the following learning experiences: (1) examination of the specific materials covered in the lecture, (2) completion of appropriate exercises designed to build basic skills used in research, and (3) conference with each student to determine rate of progress and to provide guidance on an individual basis.
The process of management is studied. The functions of planning, organizing, leading, and controlling are included. Particular emphasis is on policy formulation, decision-making processes, operating problems, communications theory, and motivation techniques.

**MANAGEMENT (MGT) 150**  
**MANAGEMENT TRAINING (20 LAB.)**  
Prerequisite: Concurrent enrollment in approved Mid-Management Program. This course provides for supervised employment in the student’s chosen field. It gives practical experience to students preparing for careers in business management.

**MANAGEMENT (MGT) 151**  
**MANAGEMENT TRAINING (20 LAB.)**  
Prerequisite: Concurrent enrollment in approved Mid-Management Program. This course is a continuation of Mid-Management 150. It provides for supervised employment in the student’s chosen field.

**MANAGEMENT (MGT) 153**  
**SMALL BUSINESS MANAGEMENT (3 LEC.)**  
The student will be studying the fundamental approaches to planning, establishing and operating a small business. The day-to-day operation of the business and reporting procedures will be studied as well as exploring the concepts of general management.

**MANAGEMENT (MGT) 154**  
**MANAGEMENT SEMINAR: ROLE OF SUPERVISION (2 LEC.)**  
Prerequisites: Concurrent enrollment in Mid-Management 150 and preliminary interview by Mid-Management Faculty. This course is for students majoring in mid-management. Emphasis is on the development of management skills, goal-setting, planning, leadership, communication, and motivation as applied to the student’s work experiences.

**MANAGEMENT (MGT) 155**  
**MANAGEMENT SEMINAR: PERSONNEL MANAGEMENT (2 LEC.)**  
Prerequisites: Mid-Management 150 and 154 and concurrent enrollment in Mid-Management 151. The principles, policies, and practices of the personnel function as applied to the student’s work experiences are studied.

**MANAGEMENT (MGT) 157**  
**SMALL BUSINESS BOOKKEEPING AND ACCOUNTING PRACTICES (3 LEC.)**  
This course focuses on basic bookkeeping and accounting techniques for the small business. The techniques are applied to the analysis and preparation of basic financial statements.

**MANAGEMENT (MGT) 206**  
**PRINCIPLES OF MARKETING (3 LEC.)**  
The scope and structure of marketing are examined. Marketing functions, consumer behavior, market research, sales forecasting, and relevant state and federal laws are analyzed.

**MANAGEMENT (MGT) 210**  
**SMALL BUSINESS CAPITALIZATION, ACQUISITION AND FINANCE (3 LEC.)**  
The student studies alternative strategies of financial planning, capitalization, profits, acquisition, ratio analysis, and other related financial operations required of small business owners. The preparation and presentation of a loan proposal are included.

**MANAGEMENT (MGT) 211**  
**SMALL BUSINESS OPERATIONS (3 LEC.)**  
Problems of daily operations of small business are introduced. Topics include compliance with regulations, personnel administration, accounts receivable management, and business insurance.

**MANAGEMENT (MGT) 212**  
**SPECIAL PROBLEMS IN BUSINESS (1 LEC.)**  
Each student will participate in the definition and analysis of current business problems. Special emphasis will be placed upon relevant problems and pragmatic solutions that integrate total knowledge of the business process in American society. This course may be repeated for credit up to a maximum of 3 hours credit.

**MANAGEMENT (MGT) 230**  
**SALESMANSHIP (3 LEC.)**  
The selling of goods and ideas is the focus of this course. Buying motives, sales psychology, customer approach, and sales techniques are studied.

**MANAGEMENT (MGT) 242**  
**PERSONNEL ADMINISTRATION (3 LEC.)**  
This course presents the fundamentals, theories, principles, and practices of people management. Emphasis is on people and their employment. Topics include recruitment, selection, training, job development, interactions with others, labor management relations, and government regulations. The managerial functions of planning, organizing, staffing, directing, and controlling are also covered.

**MANAGEMENT (MGT) 250**  
**MANAGEMENT TRAINING (20 LAB.)**  
Prerequisites: Mid-Management 150 and Mid-Management 151; concurrent enrollment in Mid-Management 254. This course consists of supervised employment in the student’s chosen field. It is intended to provide increased supervisory responsibility for students preparing for careers in business management.

**MANAGEMENT (MGT) 251**  
**MANAGEMENT TRAINING (20 LAB.)**  
Prerequisites: Mid-Management 150 and 151; concurrent enrollment in Mid-Management 255. This course continues Mid-Management 250. It is intended to provide supervised employment in the student’s chosen field.

**MANAGEMENT (MGT) 254**  
**MANAGEMENT SEMINAR: ORGANIZATIONAL DEVELOPMENT (2 LEC.)**  
Prerequisites: Mid-Management 151 and Mid-Management 155; concurrent enrollment in Mid-Management 250. Organizational objectives and management of human resources are studied. The various approaches to organizational theory are applied to the student’s work experiences.

**MANAGEMENT (MGT) 255**  
**MANAGEMENT SEMINAR: BUSINESS STRATEGY. THE DECISION PROCESS AND PROBLEM SOLVING (2 LEC.)**  
Prerequisites: Mid-Management 250 and Mid-Management 254; concurrent enrollment in Mid-Management 251. Business strategy and the decision-making process are applied to the first-line supervisor and middle-management positions. Emphasis is on applying the student’s course knowledge to work experiences.

**MATHEMATICS**

(See also Developmental Mathematics. Supplementary instruction in mathematics is available through the Learning Resources Center.)

**MATHEMATICS (MTH) 101**  
**COLLEGE ALGEBRA (3 LEC.)**  
Prerequisite: Two years of high school algebra or Developmental Mathematics 093. This course is a study of functions and relations, absolute values, variation, quadratic equations, complex numbers, functions of two variables, systems of equations and inequalities, elementary aspects of the theory of equations, progressions, the binomial theorem, and algebraic proof.

**MATHEMATICS (MTH) 102**  
**PLANE TRIGONOMETRY (3 LEC.)**  
Prerequisite: Mathematics 101 or equivalent. This course is a study of angular measure, functions of angles, identities, solution of triangles, equations, inverse trigonometric functions, logarithms, and complex numbers.

**MATHEMATICS (MTH) 107**  
**FUNDAMENTALS OF COMPUTING (3 LEC.)**  
Prerequisite: Two years high school algebra or Developmental Mathematics 093. This course is an introductory course designed primarily for students desiring credit toward a minor or major in computer science. It includes a study of algorithms and an
introduction to a procedure-oriented language with general applications.

**MATHEMATICS (MTH) 111** (3)  
MATHEMATICS FOR BUSINESS AND ECONOMICS I (3 LEC.)
Prerequisite: Two years of high school algebra or Developmental Mathematics 093. This course includes equations, inequalities, matrices, linear programming, and linear, quadratic, polynomial, rational, exponential, and logarithmic functions. Applications to business and economics problems are emphasized.

**MATHEMATICS (MTH) 112** (3)  
MATHEMATICS FOR BUSINESS AND ECONOMICS II (3 LEC.)
Prerequisite: Mathematics 111. This course includes sequences and limits, differential calculus, integral calculus, and appropriate applications.

**MATHEMATICS (MTH) 115** (3)  
COLLEGE MATHEMATICS I (3 LEC.)
Prerequisite: One year of high school algebra and one year of high school geometry or two years of high school algebra or Developmental Mathematics 093. Designed for liberal arts students, this course includes the study of logic, mathematical patterns, mathematical recreations, systems of numeration, mathematical systems, sets and statements and sets of numbers. Historical aspects of selected topics are emphasized.

**MATHEMATICS (MTH) 116** (3)  
COLLEGE MATHEMATICS II (3 LEC.)
Prerequisite: One year of high school algebra and one year of high school geometry or two years of high school algebra or Developmental Mathematics 093. Designed for liberal arts students, this course includes the study of algebra, linear programming, permutations, combinations, probability and geometry. Historical aspects of selected topics are emphasized.

**MATHEMATICS 121** (3)  
ANALYTIC GEOMETRY (3 LEC.)
Prerequisite: Mathematics 102 or equivalent. This course is a study of the real numbers, distance, the straight line, conics, transformation of coordinates, polar coordinates, parametric equations, and three-dimensional space.

**MATHEMATICS (MTH) 124** (5)  
CALCULUS I (5 LEC.)
Prerequisite: Mathematics 105 or 106 or 121 or the equivalent. This course is a study of limits, continuity, derivatives, and integrals of algebraic and transcendental functions, with applications.

**MATHEMATICS (MTH) 130** (3)  
BUSINESS MATHEMATICS (3 LEC.)
Prerequisite: One year of high school algebra or Developmental Mathematics 091 or the equivalent. This course is intended primarily for students in specialized occupational programs. It is a study of simple and compound interest, bank discount, payrolls, taxes, insurance, mark up and mark down, corporate securities, depreciation, and purchase discounts.

**MATHEMATICS (MTH) 139** (3)  
APPLIED MATHEMATICS (3 LEC.)
Prerequisite: One year of high school algebra or Developmental Mathematics 091 or equivalent. This course is intended primarily for students in specialized occupational programs. It is a study of simple and compound interest, bank discount, payrolls, taxes, insurance, mark up and mark down, corporate securities, depreciation, and purchase discounts.

**MATHEMATICS (MTH) 195** (3)  
TECHNICAL MATHEMATICS (3 LEC.)
Prerequisite: Mathematics 196. This course is designed for technical students. It includes a study of topics in algebra, an introduction to logarithms, and an introduction to trigonometry, trigonometric functions and the solution of triangles.

**MATHEMATICS (MTH) 202** (3)  
INTRODUCTORY STATISTICS (3 LEC.)
Prerequisite: Mathematics 107 or equivalent and Mathematics 101 or Mathematics 111 or Mathematics 104 or its equivalent. This course is a study of Fortran with emphasis on applications and programming of algorithmic language to solve numerical problems.
principles of medical ethics and ethical behavior of the physician and patient are introduced. Topics include contracts, professional liability, malpractice, and the medical practice acts. The legal relationship of the medical assistant-transcriptionist is examined in regard to the physician's legal responsibilities.

MEDICAL ASSISTING TECHNOLOGY (MA) 153 (3)
MEDICAL OFFICE MICROBIOLOGY AND STERILIZATION PROCEDURES (2 LEC., 2 LAB.)
Prerequisite: Admission to the Medical Assisting Technology Program. This course is a study of fundamental microbiology and methods of sanitation, asepsis, and sterilization. The operation of sterilization equipment, application of the principles of asepsis in handwashing, dressings, and creating and maintaining a sterile field are included. The proper disposal of contaminated materials is demonstrated.

MEDICAL ASSISTING TECHNOLOGY (MA) 160 (4)
MEDICAL TRANSCRIPTION (2 LEC., 6 LAB.)
Prerequisite: Admission to the Medical Assisting Technology Program or Medical Transcription Program. Completion of Medical Assisting 151 and Business 174 or the equivalent with a GPA of 2.0 or better or the consent of the instructor. Medical transcription is presented. Speed and accuracy in typing, use of transcribing equipment, and medical-surgical terminology are all included. Practice in completing medical forms, transcribing medical-surgical reports, and handling medical correspondence is emphasized.

MEDICAL ASSISTING TECHNOLOGY (MA) 161 (3)
MEDICAL OFFICE ADMINISTRATIVE AND MANAGEMENT PROCEDURES (3 LEC.)
Prerequisite: Admission to the Medical Assisting Technology Program of Medical Transcription Program. This course covers the principles of medical office communications. Medical recordkeeping, types of records, reports, and computerized and statistical procedures are introduced. The function of the hospital medical record department in relation to the medical office is also introduced. The fundamentals of a medical office, care of equipment, ordering of office supplies, and office housekeeping are covered.

MEDICAL ASSISTING TECHNOLOGY (MA) 162 (3)
MEDICAL OFFICE BOOKKEEPING AND INSURANCE PROCEDURES (3 LEC.)
Prerequisite: Admission to the Medical Assisting Technology Program. The fundamentals of medical office bookkeeping and financial recordkeeping are studied. The pegboard system is covered and computerized accounting is introduced. Appraisal of health insurance plans is covered, including a study of benefits and claims procedures with an emphasis on the completion of claim forms.

MEDICAL ASSISTING TECHNOLOGY (MA) 163 (3)
MEDICAL OFFICE CLINICAL MEDICAL ASSISTING PROCEDURES (2 LEC., 2 LAB.)
Prerequisite: Admission to the Medical Assisting Technology Program. This course introduces the role of the clinical medical assistant in lectures and in laboratory experiences. Topics include techniques in the examining room, patient handling and preparation, taking and recording vital signs, and assisting the physician with examination, treatments, minor surgery, and office emergencies. The ordering, storing, and inventory of medical supplies and care of equipment are also included.

MEDICAL ASSISTING TECHNOLOGY (MA) 164 (3)
MEDICAL OFFICE PHARMACOLOGY AND DRUG ADMINISTRATION (2 LEC., 2 LAB.)
Prerequisite: Admission to the Medical Assisting Technology Program. This course prepares students to identify basic drugs, their use and effect on the body, and the calculation of dosage and solutions. The definition and use of correct abbreviations and terminology are covered. Ways to identify medications regulated by the Bureau of Narcotics and Dangerous Drugs are included and the records required on them are explained. Also included are the ordering, storage, inventory, and disposal of drugs. Methods of drug administration are identified, including techniques of giving injections and selecting of sites. Laboratory fee.

MEDICAL ASSISTING TECHNOLOGY (MA) 170 (3)
MEDICAL OFFICE X-RAY ORIENTATION AND ELECTROMEDICAL INSTRUMENTATION (5 LEC., 5 LAB.)
Prerequisite: Admission to the Medical Assisting Technology Program. This course prepares students to communicate instructions to the patient for proper preparation for X-ray examinations. The identification of safety hazards and precautions related to X-ray equipment is included. The handling and storage of X-rays are demonstrated. Methods of electrocardiography are explained, including operation of the machine, specific techniques and mounting of the tracing. The operation and care of other electromedical instruments, ultrasound, and ultraviolet light are also covered. Laboratory fee.

MEDICAL ASSISTING TECHNOLOGY (MA) 171 (3)
MEDICAL OFFICE LABORATORY PROCEDURES (5 LEC., 5 LAB.)
Prerequisite: Admission to the Medical Assisting Technology Program. The purpose, techniques, and recording of basic laboratory procedures commonly performed in a physician's office are covered in lectures and laboratory sessions. Included are urinalysis, blood counts, gram stains, sedimentation rates, and pregnancy tests. The collection, preparation, and labeling of specimens are also covered. Clinical laboratory reports are explained. The assistance of patients by giving the proper instructions for their preparation for clinical lab tests is described. Laboratory fee.

MEDICAL ASSISTING TECHNOLOGY (MA) 172 (6)
MEDICAL ASSISTING EXternship (2 LEC., 38 LAB.)
Prerequisite: Completion of all Medical Assisting Technology courses with an overall GPA of 2.0 or above. This course provides supervised work experience in a private medical office, clinic or hospital. Classroom reports and critiques are also included. The student is assigned regular duties and is responsible to the supervisor in charge. The work is coordinated by a member of the Medical Assisting faculty. A minimum of 180 hours is required in the clinical setting for externship.

MEDICAL LAB TECHNOLOGY (MLT) 133 (4)
HEMATOLOGY (3 LEC., 4 LAB.)
Prerequisite: Acceptance into the Medical Laboratory Technician Program with an ACT composite score of 18 and concurrent enrollment in Medical Laboratory Technology 135. The theory and basic techniques used in the hematological examination of blood are presented. Laboratory fee.

MEDICAL LAB TECHNOLOGY (MLT) 135 (3)
URINALYSIS (2 LEC., 4 LAB.)
Prerequisite: Acceptance into the Medical Laboratory Technician Program with an ACT composite score of 18 and a math score of 18 and concurrent enrollment in Medical Laboratory Technology 133. This course is an orientation to the medical laboratory and a study of the theory and laboratory procedures used in the analysis of urine. Laboratory fee.

MEDICAL LAB TECHNOLOGY (MLT) 138 (4)
IMMUNOLOGY (3 LEC., 4 LAB.)
Prerequisite: "C" average in Medical Laboratory Technology 133 and 135. The theory and principles of immunology are presented. Laboratory
procedures used in the serological and immunohematological examination of blood and serum are considered. Laboratory fee.

MEDICAL LAB TECHNOLOGY (MLT) 139 (8)
CLINICAL PRACTICE I (2 LEC., 33 LAB.)
Prerequisite: "C" average in Medical Laboratory Technology 138 and an overall "C" average in non-technical course work. This course provides supervised clinical practice in hematology, serology, blood banking, and urinalysis. The student is assigned to a clinical laboratory.

MEDICAL LAB TECHNOLOGY (MLT) 229 (4)
MEDICAL MICROBIOLOGY I (3 LEC., 4 LAB.)
Prerequisite: Completion of the first year of the Medical Laboratory Technician Program. The fundamentals of microbial life are studied. Methods and procedures used in diagnostic microbiology are covered. Included are the principles of aseptic technique, susceptibility testing of bacteria, quantification of bacteria in body fluids, and the isolation and identification of selected bacteria. The normal body flora are discussed, and the relationship of these bacteria to disease in humans is emphasized.

MEDICAL LAB TECHNOLOGY (MLT) 231 (4)
CLINICAL CHEMISTRY (3 LEC., 4 LAB.)
Prerequisite: "C" average in Medical Laboratory Technology 229 and completion of Chemistry 203. This course focuses on the theory and procedures used in the clinical chemistry laboratory. Both manual and automated methods are presented in lectures and laboratory assignments. Laboratory fee.

MEDICAL LAB TECHNOLOGY (MLT) 236 (4)
MEDICAL MICROBIOLOGY II (3 LEC., 4 LAB.)
Prerequisite: Medical Lab Technology 229. This course is a continuation of Medical Lab Technology 229. It includes the study of the isolation and identification procedures for selected bacteria, fungi and parasites.

MEDICAL LAB TECHNOLOGY (MLT) 238 (6)
CLINICAL PRACTICE II (2 LEC., 33 LAB.)
Prerequisite: "C" average in Medical Lab Technology 229 and 231 with an overall "C" average in non-technical course work. This course provides supervised experience in diagnostic microbiology and clinical chemistry. The student is assigned to a clinical laboratory.

MUSIC (MUS) 101 (4)
FRESHMAN THEORY (3 LEC., 3 LAB.)
Musicianship skills are developed. Emphasis is on tonal and rhythmic perception and articulation. The essential elements of music are presented, and sight-singing, keyboard, and notation are introduced.

MUSIC (MUS) 102 (4)
FRESHMAN THEORY (3 LEC., 3 LAB.)
Prerequisite: Music 101 or the consent of the instructor. This course introduces part-writing and harmonization with triads and their inversions. Also included are the classification of chords, seventh chords, sight-singing, dictation, and keyboard harmony.

MUSIC (MUS) 104 (3)
MUSIC APPRECIATION (3 LEC.)
The basic elements of music are surveyed and examined in the music literature of western civilization, particularly from the Baroque Period to the present. Cultural influences on the music of each era are observed.

MUSIC (MUS) 105 (1)
ITALIAN DICTION (2 LAB.)
The phonetic sounds of the Italian language are studied. Included is selected vocabulary. This course is primarily for voice majors.

MUSIC (MUS) 106 (1)
FRENCH DICTION (2 LAB.)
The phonetic sounds of the French language are studied. Included is selected vocabulary. This course is primarily for voice majors.

MUSIC (MUS) 107 (1)
GERMAN DICTION (2 LAB.)
The phonetic sounds of the German language are studied. Included is selected vocabulary. This course is primarily for voice majors.

MUSIC (MUS) 110 (3)
MUSIC LITERATURE (3 LEC.)
The music of recognized composers in the major periods of music history is examined. Topics include the characteristics of sound, elements of music, performance media, and musical texture. Emphasis is on the music of the late Gothic, Renaissance and Baroque eras.

MUSIC (MUS) 111 (3)
MUSIC LITERATURE (3 LEC.)
Prerequisite: Music 110. This course is a continuation of Music 110. The compositional procedures and forms used by composers are studied. Emphasis is on the Classical, Romantic, and Modern periods.

MUSIC (MUS) 112-143 (1)
APPLIED MUSIC-MINOR (1 LEC.)
This course is open to students enrolled in music theory, ensembles, and other music major and minor courses. It provides private instruction in the student's secondary area and consists of a one-half hour lesson a week. Fee required. Private music may be repeated for credit.

MUSIC (MUS) 150 (1)
CHORUS (3 LAB.)
Prerequisite: Consent of instructor. A wide variety of music representing the literature of the great eras of music history is studied and performed. This course may be repeated for credit.
This course is for non-voice majors. It presents the principles of breathing, voice production, tone control, enunciation, and phrasing in two group lessons a week. This course may be repeated for credit.

This course is a continuation of Music 151. It is open to all non-voice majors. Emphasis is on solo singing, appearance in studio recital, stage deport- ment, and personality development. Two group lessons are given a week. This course may be repeated for credit.

A group of voices concentrates on excellence of performance. Membership is open to any student by audition. The director selects those who possess special interest and skill in the performance of advanced choral literature. This course may be repeated for credit.

A group of brass instrumentalists read and perform literature for small ensembles. Membership is by audition with the appropriate director. This course may be repeated for credit.

Prerequisite: The consent of the instructor. In the Lab Band students study and perform all forms of commercial music, such as jazz, pop, avant-garde, and soul. Student arranging, composing, and conducting is encouraged. This course may be repeated for credit.

Students of private lessons perform before an audience one period each week. Credit for this course does not apply to the Associate Degree. This course may be repeated for credit.

Prerequisite: Music 101 and 102 or the consent of the instructor. This course is a continuation of the study of theory. Topics include larger forms, thematic development, chromatic chords such as the Neapolitan sixth and augmented sixth chords, and diatonic seventh chords. Advanced sight-singing, keyboard harmony, and ear training are also included.

Prerequisite: Music 201 or the equivalent or the consent of the instructor. This course is a continuation of Music 201. Topics include the sonata-allegro form and the ninth, eleventh, and thirteenth chords. New key schemes, impressionism, melody, harmony, tonality and formal processes of 20th century music are also included. Sight-singing, keyboard harmony, and ear training are developed further.

Prerequisite: Music 118 or the equivalent. This course is a continuation of functional keyboard skills, including harmonization, sight-reading, accompanying, style, improvisation, and technical exercises. It is designed for the major preparing for the piano proficiency exam, but is also open to any interested student. It is recommended that music majors also study privately.

Prerequisite: Music 217 or the equivalent. This course is a continuation of functional keyboard skills in Music 217 with greater emphasis on advanced harmonization and appropriate technical skills. It is designed as a preparation for the piano proficiency exam for the music major, but is also open to any interested student. It is recommended that music majors also study privately.

This course is open to students enrolled in music theory, ensembles, and other music major and minor courses. It provides private instruction in the area of the student's concentration and consists of two half-hour lessons a week. Fee required. Private music may be repeated for credit.

This course is primarily for music performance majors and is open to students enrolled in music theory, ensembles, and other music major and minor courses. It provides private instruction in the area of the student's major instrument, and consists of two half-hour lessons a week. Fee required.

Subject to enrollment, students may receive private instruction in the following courses: piano, organ, voice, violin, viola, cello, double bass, flute, oboe, clarinet, bassoon, saxophone, trumpet, trombone, French horn, trombone, baritone, tuba, percussion, guitar, electric bass, and drum set. Private music may be repeated for credit.

This course is primarily for music performance majors and is open to students enrolled in music theory, ensembles, and other music major and minor courses. It provides private instruction in the area of the student's major instrument, and consists of two half-hour lessons a week. Fee required.

Prerequisite: Admission to the program. "C" grade in lab science elective. "C" grade in Biology 120 or concurrent enrollment. Credit or concurrent enrollment in Psychology 105 and English 101. Nursing I is the basic course in nursing which serves as a foundation on which the other nursing courses build and expand. Included are an introduction to nursing as a profession, the nursing process, communication, and basic technical skills. Based on an integrated approach, concepts of health, illness, growth and development, basic human needs, the family, stress, and loss are explored in all age groups. Selected clinical experiences enable the student to begin to assess patients and plan, implement, and evaluate nursing care for all age groups. A system of measurement competency is a required component of the pharmacology introduction. Laboratory fee.

Prerequisites: "C" grade in Nursing 141, Biology 120, and lab science elective. "C" grade in Biology 121 or concurrent enrollment. Credit or concurrent enrollment in Psychology 201 and English 102. Nursing II focuses on the application of the basic principles, concepts, and skills from Nursing I. Included are medication administration and the concepts of pain and health teaching. Psychological and physiological stress is further explored with discussion of maladaptive behavior. Adaptation to pregnancy, birth and patients experiencing surgery. Problems of cell proliferation and impaired nutrition affecting all age groups are presented and discussed. Selected clinical experiences continue to focus on the nursing process in caring for patients of all age groups. An application of pharmacology dosage and solutions competency are required components of this course. Laboratory fee.

Prerequisites: "C" grade in Nursing 141, 142, lab science elective, "C" grade in Biology 120 and 121. Nursing III focuses on the care of postpartum and newborn patients, patients with problems of immunological/inflammatory response, and patients exhibiting...
psychotic behavior. Emphasis is on the application of the nursing process. Selected clinical experiences include a psychiatric rotation. Laboratory fee.

**NURSING (NUR) 250 (9)**

**Prerequisites:** "C" grade in Nursing 141, 142, 240, lab science elective and Biology 120 and 121. Psychology 105 and 201 and English 101 and 102. Credit or concurrent enrollment in Sociology 101. Nursing IV emphasizes a conceptual approach to care of patients in all age groups with more complex health care problems. Discussion includes rehabilitation, problems of immobility, moderately impaired oxygen exchange, inflammation, and elimination. Selected clinical experiences focus on application of the nursing process, with emphasis on priority setting. A pharmacology application competency is a required component of this course. Laboratory fee.

**NURSING (NUR) 255 (9)**

**Prerequisites:** "C" grade in Nursing 141, 142, 240, 250, lab science elective and Biology 120 and 121. Psychology 105 and 201, English 101 and 102, and Sociology 101. Credit or concurrent enrollment in elective above 100 level. Nursing V is a continuation of Nursing IV with emphasis on increasingly complex situations. Concepts related to problems of sensory deprivation and overload, severely impaired oxygen exchange, severe fluid and electrolyte imbalance and crisis are discussed as related to the nursing process. In addition, the role transition process is explored. Selected clinical experiences focus on continued application of the nursing process to a group of patients, stressing independent decision making. A pharmacology application competency is a required component of the course. Laboratory fee.

**OFFICE CAREERS (OFC) 143 (1)**

**Prerequisite:** Office Careers 172 or one year of typing in high school. Emphasis is on problem solving. Increasing speed and accuracy in typing business forms, correspondence, and manuscripts is also stressed.

**OFFICE CAREERS (OFC) 231 (3)**

**Prerequisites:** Credit in Office Careers 172 or one year of typing in high school; credit in Communications 131 or English 101. This practical course includes a study of letter forms, the mechanics of writing and the composition of various types of communications. A critical analysis of the appearance and content of business correspondence is emphasized.

**OFFICE CAREERS (OFC) 256 (3)**

**Prerequisite:** Office Careers 165. This course concerns translating ideas into words, putting those words on paper, and turning that paper into communication. Emphasis is on training in composing and dictating business communications. Teamwork skills, priorities, scheduling, and procedures are included. Researching, storing, and retrieving documents, and managing word processing systems are also covered. Transcribing and magnetic keyboarding skills are developed. Typing skills and English mechanics are reinforced.

**OFFICE CAREERS (OFC) 266 (4)**

**Prerequisites:** Office Careers 166 or two years of shorthand in high school. Office Careers 174 or two years of typing in high school. Emphasis is on building dictation speed. Producing mailable, typed transcriptions under time conditions is also stressed. Vocabulary and extensive production work capabilities are developed.

**OFFICE CAREERS (OFC) 273 (2)**

**Prerequisites:** Office Careers 174 or two years of typing in high school. Decision-making and production of all types of business materials under time conditions are emphasized. A continuation of skill development and a review of typing techniques are also
stressed. Accuracy at advanced speeds is demanded.

**OFFICE CAREERS (OFC) 275 (3)**
SECRETARIAL PROCEDURES (3 LEC.)
Prerequisites: Credit or concurrent enrollment is Office Careers 174, credit or concurrent enrollment in either Office Careers 166 or Office Careers 265. Emphasis is on initiative, creative thinking, and follow-through. Topics include in-basket exercises, decision-making problems, and use of shorthand and transcription skills. Public and personal relations, supervisory principles, business ethics, and the organizing of time and work are also covered.

**OFFICE CAREERS (OFC) 803, 813**
(See Cooperative Work Experience)

**OFFICE CAREERS (OFC) 804, 814**
(See Cooperative Work Experience)

**PATTERN DESIGN (DES) 110 (3)**
BASIC COLOR THEORY AND APPLICATION (2 LEC., 4 LAB.)
The principles of color theory are studied using a selected color system. The effect of light on color and the psychological impact of color are explored. Color pigment is mixed in opaque media. The content of the course is applied to the student's discipline. Laboratory fee.

**PATTERN DESIGN (DES) 140 (1)**
DRAPEING (2 LAB.)
Prerequisite: Pattern Design 153. Dress designs are creatively interpreted on individual dress forms. Sketches or abstract designs are translated to muslin. Laboratory fee.

**PATTERN DESIGN (DES) 141 (1)**
DRAPING (2 LAB.)
Prerequisite: Pattern Design 153. The standard production pattern is emphasized. Both large and small sizing is included. Laboratory fee.

**PATTERN DESIGN (DES) 229 (3)**
ADVANCED CLOTHING CONSTRUCTION (2 LEC., 3 LAB.)
Prerequisite: Design 129. Advanced techniques of garment construction are studied. Total garments are completed. Laboratory fee.

**PATTERN DESIGN (PDD) 151 (3)**
PATTERN DRAFTING (2 LEC., 4 LAB.)
The principles of drafting and draping basic patterns for collars, skirts, bodices, and sleeves are presented. Cutting out garments is also included. Laboratory fee.

**PATTERN DESIGN (PDD) 152 (3)**
PATTERN DRAFTING II (2 LEC., 4 LAB.)
Prerequisite: Pattern Design 151. Drafting and draping basic patterns for separates and dresses are covered. Basic techniques are developed in pattern grading. Laboratory fee.

**PATTERN DESIGN (PDD) 153 (3)**
PATTERN DRAFTING III (2 LEC., 4 LAB.)
Prerequisite: Pattern Design 152. Techniques are developed for drafting and draping patterns for girls, junior petite and junior sizes. Laboratory fee.

**PATTERN DESIGN (PDD) 254 (3)**
PATTERN DRAFTING IV (2 LEC., 4 LAB.)
Prerequisite: Pattern Design 153. Techniques are developed for drafting and draping patterns for misses and half-sizes of casual, daytime dresses. Laboratory fee.

**PATTERN DESIGN (PDD) 255 (3)**
PATTERN DRAFTING V (2 LEC., 4 LAB.)
Prerequisite: Pattern Design 153. Techniques are developed for drafting and draping patterns for junior sportswear and misses sportswear. Laboratory fee.

**PATTERN DESIGN (PDD) 256 (3)**
PATTERN DRAFTING VI (2 LEC., 4 LAB.)
Prerequisite: Pattern Design 153. Techniques are developed for drafting and draping patterns for misses and junior tailored garments. Laboratory fee.

**PATTERN DESIGN (PDD) 257 (3)**
PATTERN DRAFTING VII (2 LEC., 4 LAB.)
Prerequisite: Pattern Design 255. Techniques are developed for drafting and draping patterns for misses and junior tailored garments. Laboratory fee.

**PHOTOGRAPHY (PHO) 110 (3)**
INTRODUCTION TO PHOTOGRAPHY AND PHOTO-JOURNALISM (2 LEC., 4 LAB.)
Photography and photo-journalism are introduced. Topics include the general mechanics of camera lenses and shutters and the general characteristics of photographic films, papers, and chemicals. Darkroom procedures are presented, including enlarging, processing, contact printing, and exposing films and papers. Artificial lighting is studied. Laboratory fee.

**PHOTOGRAPHY (PHO) 111 (3)**
ADVANCED PHOTOGRAPHY AND PHOTO-JOURNALISM (2 LEC., 4 LAB.)
Techniques learned in Photography 110 are refined. Emphasis is on photographic communication. Laboratory fee.

**PHOTOGRAPHY (PHO) 120 (4)**
COMMERCIAL PHOTOGRAPHY I (3 LEC., 3 LAB.)
Commercial or contract photography is studied. Field, studio, and darkroom experience for various kinds of photography is discussed. Include social photography, portrait and studio photography, fashion and theatrical portfolio, publicity photography, and convention photography. The use of natural, stationary, flash, and strobe artificial lights is covered. Laboratory fee.

**PHOTOGRAPHY (PHO) 121 (4)**
COMMERCIAL PHOTOGRAPHY II (3 LEC., 3 LAB.)
This course is a continuation of Photography 120. Publicity photography, architectural photography, interior photography, and advertising photography are included. The latest equipment, papers, films, and techniques are explored. Exchanges are made with sample clients, employers, studios, and agencies. Laboratory fee.

**PHYSICAL EDUCATION ACTIVITY COURSES**
The Physical Education Division provides opportunity for each student to become skilled in at least one physical activity for personal enjoyment of leisure time. Activity courses are open to both men and women. A laboratory fee is required. Students are urged to take advantage of the program by registering for a physical education activity course each semester.

**PHYSICAL EDUCATION NON-ACTIVITY COURSES**
PEH 101, 108, 109, 110, 144
Various lifetime sports are offered. Courses offered may include archery, badminton, bowling, golf, handball, racquetball, softball, swimming, tennis, and other sports. Activities may be offered singularly or in combinations. Instruction is presented at the beginner and advanced-beginner levels. Both men and women participate. This course may be repeated for credit when students select different activities. Laboratory fee.

PHYSICAL EDUCATION (PEH) 101  (3)
FUNDAMENTALS OF HEALTH (3 LEC)
This course is for students majoring or minoring in physical education or having other specific interest. Personal health and community health are studied. Emphasis is on the causes of mental and physical health and disease transmission and prevention.

PHYSICAL EDUCATION (PEH) 104  (1)
TOUCH FOOTBALL/SOCCER (3 LAB)
Touch football and soccer are taught and played. Emphasis is on skill development. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 108  (3)
SOCIAL RECREATION (3 LEC)
The methods and materials for social activities for different age groups are introduced. Planning, organizing, and conducting the activities are included.

PHYSICAL EDUCATION (PEH) 109  (3)
OUTDOOR RECREATION (3 LEC)
Outdoor recreation and organized camping are studied. Both the development of these activities and present trends are covered.

PHYSICAL EDUCATION (PEH) 111  (1)
BEGINNING WRESTLING (3 LAB)
The fundamentals, techniques, rules, and strategy of wrestling are presented. Emphasis is also on spectator appreciation. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 112  (1)
SOFTBALL AND SOCCER (3 LAB)
Softball and soccer are taught and played. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 113  (1)
HANDBALL AND RACQUETBALL (3 LAB)
Handball and racquetball are taught and played. Emphasis is on the development of skills. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 114  (1)
BEGINNING BADMINTON (3 LAB)
The history, rules, and skills of badminton are taught. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 115  (1)
PHYSICAL FITNESS (3 LAB)
The student's physical condition is assessed. A program of exercise for life is prescribed. Much of the course work is carried out in the physical performance laboratory. A uniform is required. This course may be repeated for credit. Laboratory fee.

PHYSICAL EDUCATION (PEH) 116  (1)
INTRAMURAL ATHLETICS (3 LAB)
Intramural competition in a variety of activities is offered for men and women. A uniform is required. This course may be repeated for credit. Laboratory fee.

PHYSICAL EDUCATION (PEH) 117  (1)
BEGINNING ARCHERY (3 LAB)
Beginning archery is taught and played. Equipment is furnished. Laboratory fee.

PHYSICAL EDUCATION (PEH) 118  (1)
BEGINNING GOLF (3 LAB)
Beginning golf is taught and played. Equipment is furnished. Laboratory fee.

PHYSICAL EDUCATION (PEH) 119  (1)
BEGINNING TENNIS (3 LAB)
This course is designed for the beginner. Tennis fundamentals are taught and played. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 120  (1)
BEGINNING BOWLING (2 LAB)
Beginning bowling is taught and played. Equipment is furnished. Laboratory fee.

PHYSICAL EDUCATION (PEH) 122  (1)
BEGINNING GYMNASTICS (3 LAB)
Beginning gymnastics is offered. Emphasis is on basic skills in tumbling and in the various apparatus events. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 123  (1)
BEGINNING SWIMMING (2 LAB)
This course teaches a non-swimmer to survive in the water. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 124  (1)
SOCIAL DANCE (3 LAB)
This course is for students who have limited experience in dance. Ballroom and social dancing are offered. Laboratory fee.
PHYSICAL EDUCATION (PEH) 134 (1)
OUTDOOR EDUCATION (3 LAB.)
Knowledge and skills in outdoor education and camping are presented. Planned and incidental experiences take place, including a week-end camp-out. Laboratory fee.

PHYSICAL EDUCATION (PEH) 144 (3)
INTRODUCTION TO PHYSICAL EDUCATION (3 LEC.)
This course is for students majoring in education and camping are presented. Topics include teacher qualifications, vocational opportunities, expected competencies, and skill testing.

PHYSICAL EDUCATION (PEH) 147 (3)
INTRODUCTION TO PHYSICAL EDUCATION (3 LEC.)
This course is for students who choose officiating for an avocation and who want to increase their knowledge and appreciation of sports. Sports covered in this course are football, basketball, and other sports as appropriate. Students are expected to officiate intramural games.

PHYSICAL EDUCATION (PEH) 148 (3)
SPORTS OFFICIATING I (2 LEC., 2 LAB.)
This course is for students who choose officiating for an avocation and who want to increase their knowledge and appreciation of sports. Special emphasis is on the production of images, the formation of images, the properties of matter, mechanics, and heat are introduced. Emphasis is on classical mechanics, acoustics, electricity and magnetism, and atomic theory. The rules, terminology, and finer points of the sports. Emphasis is on coaching techniques.

PHYSICAL EDUCATION (PEH) 200 (1)
LIFETIME SPORTS ACTIVITIES II (3 LAB.)
This course is a continuation of Physical Education 100. Students participate in selected activities. Instruction is at the intermediate and intermediate/advanced levels. This course may be repeated for credit. Laboratory fee.

PHYSICAL EDUCATION (PEH) 210 (3)
SPORTS APPRECIATION FOR THE SPECTATOR (3 LEC.)
This course is for students who desire a broader knowledge of major and minor sports. The rules, terminology, and philosophies of many sports are studied. Special emphasis is on football and basketball.

PHYSICAL EDUCATION (PEH) 219 (1)
INTERMEDIATE TENNIS (3 LAB.)
Prerequisite: The consent of the instructor. Skills and techniques in tennis are developed beyond the "beginner" stage. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 222 (1)
INTERMEDIATE GYMNASTICS (3 LAB.)
Prerequisite: Physical Education 122. Skills and techniques in gymnastics are developed beyond the "beginner" stage. A uniform is required. Laboratory fee.

PHYSICAL EDUCATION (PEH) 236 (3)
The coaching of football and basketball (2 LEC., 2 LAB.)
The skills and techniques of coaching football and basketball are presented. Included are the history, theories, philosophies, rules, terminology, and finer points of the sports. Emphasis is on coaching techniques.

PHYSICAL EDUCATION (PEH) 257 (3)
ADVANCED FIRST AID AND EMERGENCY CARE (3 LEC.)
The Advanced First Aid and Emergency Care course of the American Red Cross is taught, presenting both theory and practice. Various aspects of safety education also are included.

PHYSICAL SCIENCE (PSC) 118 (4)
CONCEPTS IN PHYSICS (3 LEC., 3 LAB.)
This course is primarily for non-science majors. It introduces principles of physics and does not require a mathematical background. Emphasis is on classical mechanics and thermodynamics. Historical developments and their impact on daily life are included. The principle of energy conservation is stressed, and current problems of world-wide energy production are examined. Laboratory fee.

PHYSICAL SCIENCE (PSC) 119 (4)
APPLIED PHYSICS (3 LEC., 3 LAB.)
This is for non-science majors. It introduces principles of physics and does not require a mathematical background. Emphasis is on modern developments in physics. Topics include acoustics, electricity and magnetism, light and the electromagnetic spectrum; atomic physics, and relativity. Laboratory fee.

PHYSICS (PHY) 111 (4)
APPLIED PHYSICS (3 LEC., 3 LAB.)
Prerequisite: Mathematics 195 or concurrent enrollment in Mathematics 195. This course is primarily for students in technical programs. The properties of matter, mechanics, and heat are introduced. Emphasis is on uses and problem-solving. Laboratory fee.

PHYSICS (PHY) 132 (4)
APPLIED PHYSICS (3 LEC., 3 LAB.)
Prerequisite: Physics 131. This course is a continuation of Physics 131. Concepts of sound, light, electricity, magnetism, and atomic theory are explained. Laboratory fee.
PHYSICS (PHY) 201 (4)
GENERAL PHYSICS (3 LEC., 1 LAB.)
Prerequisite: Credit or concurrent enrollment in Mathematics 126 or 222. This course is designed primarily for physics, chemistry, mathematics, and engineering majors. The principles and applications of mechanics, wave motion, and sound are studied. Emphasis is on fundamental concepts, problem solving, notation, and units. The laboratory includes a one-hour problem session. Laboratory fee.

PHYSICS (PHY) 202 (4)
GENERAL PHYSICS (3 LEC., 1 LAB.).
Prerequisite: Physics 201 and credit or concurrent enrollment in Mathematics 223 or 227. This course presents the principles and applications of heat, electricity, magnetism, and optics. Emphasis is on fundamental concepts, problem solving, notation, and units. The laboratory includes a one-hour problem session. Laboratory fee.

POLICE SCIENCE (POL) 134 (3)
CRIMINAL EVIDENCE AND PROCEDURE (3 LEC.)
This course is a study of trial and courtroom procedure. Topics include parties in the case, rules of evidence, decision, and punishment. Due process is emphasized.

POLICE SCIENCE (POL) 137 (3)
POLICE COMMUNITY RELATIONS (3 LEC.).
The role of the individual officer in getting and holding public support is examined. Topics include human relations, public information and relationships with violators and complainants.

POLICE SCIENCE (POL) 140 (3)
INTRODUCTION TO LAW ENFORCEMENT (3 LEC.)
The history of U.S. systems of justice is surveyed, including the police system. Topics include police problems, and crime trends and statistics. The organization and jurisdiction of local, state, and federal enforcement agencies are covered. Professional opportunities and personnel qualifications are also studied. Emphasis is on analysis of modern trends and thinking in the police service.

POLICE SCIENCE (POL) 141 (3)
POLICE ORGANIZATION AND ADMINISTRATION (3 LEC.)
Prerequisite: Police Science 140. This course focuses on organization and administration. Topics include philosophies of organization structures, and administrative processes and management. Traditional organizational concepts, administrative techniques, personnel policies, and operating systems are also covered.

POLICE SCIENCE (POL) 142 (3)
LEGAL ASPECTS OF LAW ENFORCEMENT (3 LEC.)
Prerequisite: Police Science 140. This course is an orientation to criminal law in the American justice system. Topics include criminal statutes, case law, legal definitions, and procedures of law enforcement.

POLICE SCIENCE (POL) 143 (3)
PRACTICAL SPANISH FOR PUBLIC SERVICE PERSONNEL (3 LEC.)
This course is primarily for police officers. It focuses on communication skills with the Spanish-speaking community. Skills in understanding, speaking, and listening to the Spanish of the local area are included. Emphasis is on a highly specialized vocabulary taught in English and Spanish. Extensive conversational drills in Spanish are included.

POLICE SCIENCE (POL) 144 (3)
PRACTICAL SPANISH FOR PUBLIC SERVICE PERSONNEL (3 LEC.)
Prerequisite: Police Science 143. This course is a continuation of Police Science 143. Emphasis continues on the skills of understanding, speaking, and listening. Specialized vocabulary and conversational drills in Spanish and English are also continued.

POLICE SCIENCE (POL) 146 (3)
PATROL ADMINISTRATION (3 LEC.)
Prerequisite: Police Science 140. All aspects of patrol are presented. The philosophy, history, role, functions, organization, and operation of patrol are included. Operational and administration problems are studied and alternate solutions analyzed.

POLICE SCIENCE (POL) 233 (3)
INTRODUCTION CRIMINALISTICS (3 LEC.)
Prerequisites: Police Science 140 and 240. Physical evidence in criminal investigation is studied. Topics include the recognition, collection, preservation, and laboratory processing of evidence. Instrumental methods are surveyed. Photographs of evidence from actual cases are examined using various identification and comparison techniques.

POLICE SCIENCE (POL) 240 (3)
CRIMINAL INVESTIGATION (3 LEC.)
Prerequisite: Police Science 140. This course covers the theory and practical aspects of a complex investigation. Topics include investigative techniques, legal procedures, and scientific analysis. Criminalistics and crime scene search are also included.

POLICE SCIENCE (POL) 241 (3)
POLICE ROLE IN CRIME AND DELINQUENCY (3 LEC.)
Prerequisite: Police Science 140. Philosophies of preventing and controlling delinquency are introduced. Topics include police services for delinquent, neglected, and special-problem juveniles, and organization for dealing with delinquent behavior. Sociological, psychological, and biological factors relating to criminal activity are explored. Legal concepts in the treatment of juvenile offenders are reviewed.

POLICE SCIENCE (POL) 242 (3)
JUVENILE PROCEDURES (3 LEC.)
Prerequisite: Police Science 140. The course covers recent research and new materials in juvenile procedures. Emphasis is on the major responsibilities of police work with children and youth.

POLICE SCIENCE (POL) 243 (3)
PROBATION AND PAROLE (3 LEC.)
Prerequisite: Police Science 140. Criminal corrections are introduced. The history of corrections is included.

POLICE SCIENCE (POL) 244 (3)
TRAFFIC PLANNING AND ADMINISTRATION (3 LEC.)
Prerequisite: Police Science 140. The magnitude and complexities of traffic problems are presented. Topics include techniques used by various agencies to eliminate or control these problems. Emphasis is on evaluation of problems and solutions.

POLICE SCIENCE (POL) 245 (3)
TRAFFIC LAW (3 LEC.)
Prerequisite: Police Science 140. This course focuses on the principles of traffic control, traffic law enforcement, and traffic court procedures. Texas traffic laws are stressed. Topics include professional approaches to deal with traffic law violators and the police role in accident prevention and investigation. The principles of education, enforcement, and engineering are also included.

POLICE SCIENCE (POL) 246 (3)
PENOLOGY (JAIL OPERATION AND MANAGEMENT) (3 LEC.)
Prerequisite: Police Science 140. The concepts of penology are presented. The operation and management of a penal institution are studied, and the rationale for the penal institution is covered.

PSYCHOLOGY (PSY) 103 (3)
SEX ROLES IN AMERICAN SOCIETY (3 LEC.)
Students may register for either Psychology 103 or Sociology 103 but receive credit for only one of the two. Human sexuality is studied. The physiological, psychological, and sociological aspects are included.
PSYCHOLOGY (PSY) 105 (3)
INTRODUCTION TO
PSYCHOLOGY (3 LEC.)
Principles of human behavior and
problems of human experience are
presented. Topics include heredity and
environment, the nervous system,
motivation, learning, emotions,
thinking, and intelligence. (This course
is offered on campus and may be
offered via television.)

PSYCHOLOGY (PSY) 131 (3)
HUMAN RELATIONS (3 LEC.)
Psychological principles are applied to
human relations problems in business
and industry. Topics include group
dynamics and adjustment factors for
employment and advancement.

PSYCHOLOGY (PSY) 201 (3)
DEVELOPMENTAL PSYCHOLOGY (3 LEC.)
Prerequisite: Psychology 105. This
course is a study of human growth,
development, and behavior. Emphasis
is on psychological changes during
life. Processes of life from prenatal
beginnings through adulthood and
aging are included. (This course is
offered on campus and may be offered
via television.)

PSYCHOLOGY (PSY) 205 (3)
PSYCHOLOGY OF PERSONALITY (3 LEC.)
Prerequisite: Psychology 105. Important
factors of successful human
adjustment such as child parent
relationships, adolescence, anxiety
states, defense mechanisms, and
psychotherapeutic concepts are
considered. Methods of personality
measurement are also included.

PSYCHOLOGY (PSY) 207 (3)
SOCIAL PSYCHOLOGY (3 LEC.)
Prerequisite: Psychology 105 or
Sociology 101. Students may register
for either Psychology 207 or Sociology
207 but may receive credit for only
one. Theories of individual behavior in
the social environment are surveyed.
Topics include the socio-psychological
process, attitude formation and
change, interpersonal relations, and
group processes.

PSYCHOLOGY (PSY) 210 (3)
SELECTED TOPICS IN
PSYCHOLOGY (3 LEC.)
Prerequisite: Psychology 105. An
elective course designed to deal with
specific topics in psychology.
Examples of topics might include
"adult development," "adolescent
psychology," and "behavioral
research." Course may be repeated
once for credit.

RADIOGRAPHY TECHNOLOGY
(RAD) 150 (3)
INTRODUCTION TO
RADIOGRAPHY TECHNOLOGY (2 LEC., 2 LAB.)
Prerequisites: Admission to program
and concurrent enrollment in
Radiography Technology 152, 154, and
156. This course introduces students to
the goals, philosophies, and
organization of the radiography
program. Other topics included are
history of x-ray, medical ethics, basic
radiation protection, interpersonal
relationships, and principles of
patient care.

RADIOGRAPHY TECHNOLOGY
(RAD) 152 (4)
RADIOGRAPHIC PROCEDURES I
(3 LEC., 2 LAB.)
Prerequisites: Admission to program
and concurrent enrollment in
Radiography Technology 150, 154, and
156. This course is an introduction to
medical terminology, patient care,
osteology and positioning of the
upper extremities and lower
extremities, pectoral and pelvic girdle.
Laboratory fee.

RADIOGRAPHY TECHNOLOGY
(RAD) 154 (3)
RADIOGRAPHIC EXPOSURE AND
PHYSICS I (2 LEC., 2 LAB.)
Prerequisites: Admission to program
and concurrent enrollment in
Radiography Technology 150, 152, and
156. This course is an introduction to
exposure factors and factors
influencing radiographic quality. An
analysis of physical principles related
to matter, energy and basic electricity
is included. Laboratory fee.

RADIOGRAPHY TECHNOLOGY
(RAD) 156 (2)
CLINICAL EDUCATION I,
FILM EVALUATION (16 LAB.)
Prerequisites: Concurrent enrollment
in Radiography Technology 150, 152,
and 154. The first seven weeks consist of
a study of radiographic procedures,
induction principles and transformers,
basic x-ray tubes and rectifiers are
covered. Laboratory fee.

RADIOGRAPHY TECHNOLOGY
(RAD) 170 (1)
RADIOGRAPHIC PROCEDURES III (1 LEC., 1 LAB.)
Prerequisites: "C" grade in
Radiography Technology 160, 162, and
164. Biology 120 (summer start), and
Biology 121 (fall start) and concurrent
enrollment in Radiography Technology
172, 174, and 176. This course is an
integrated study of medical
terminology, patient care, and
osteology and positioning of the skull.
Laboratory fee.

RADIOGRAPHY TECHNOLOGY
(RAD) 172 (1)
RADIOGRAPHIC EXPOSURE III (1 LEC., 1 LAB.)
Prerequisites: "C" grade in
Radiography Technology 160, 162, and
164 and concurrent enrollment in
Radiography Technology 170, 174, and
176. This course is an intermediate
study of exposure factors.
Laboratory fee.

RADIOGRAPHY TECHNOLOGY
(RAD) 174 (1)
RADIOGRAPHIC PHYSICS III (1 LEC., 1 LAB.)
Prerequisites: "C" grade in
Radiography Technology 160, 162, and
164 and concurrent enrollment in
Radiography Technology 170, 172, and
176. This course is an analysis of physical principles involved in
the production of X-rays, and
interaction of X-rays in matter and
detection of X-rays.
RADIOGRAPHY TECHNOLOGY (RAD) 176 (4)
CLINICAL EDUCATION III
FILM EVALUATION (32 LAB.)
Prerequisites: "C" grade in Radiography Technology 160, 162, and 164 and concurrent enrollment in Radiography Technology 170, 172, and 174. Students receive clinical education in a hospital radiology department.

RADIOGRAPHY TECHNOLOGY (RAD) 250 (1)
RADIOGRAPHIC EXPOSURE IV (1 LEC., 1 LAB.)
Prerequisites: "C" grade in Radiography Technology 170, 172, 174, and 176 and concurrent enrollment in Radiography Technology 252, 254, and 256. Image quality and quality assurance are covered. Laboratory fee.

RADIOGRAPHY TECHNOLOGY (RAD) 252 (1)
RADIOGRAPHIC PROCEDURES IV (1 LEC., 1 LAB.)
Prerequisites: "C" grade in Radiography Technology 170, 172, 174, and 176. Biology 120 and 121, and concurrent enrollment in Radiography Technology 252, 254, 256. Basic procedures pertinent to invasive special procedures are introduced.

RADIOGRAPHY TECHNOLOGY (RAD) 254 (1)
SPECIAL PROCEDURES (1 LEC., 1 LAB.)
Prerequisites: "C" grade in Radiography Technology 170, 172, 174, and 176. Biology 120 and 121, and concurrent enrollment in Radiography Technology 250, 252, and 256. The equipment, anatomy, and basic procedures pertinent to invasive special procedures are introduced.

RADIOGRAPHY TECHNOLOGY (RAD) 256 (4)
CLINICAL EDUCATION IV,
FILM EVALUATION (24 LAB.)
Prerequisites: "C" grade in Radiography Technology 170, 172, 174, and 176. Biology 120 and 121, and concurrent enrollment in Radiography Technology 250, 252, and 256. Students receive clinical education in a hospital radiology department.

RADIOGRAPHY TECHNOLOGY (RAD) 260 (2)
IMAGING AND PATHOLOGY (2 LEC.)
Prerequisites: "C" grade in Radiography Technology 250, 252, 254, and 256 and concurrent enrollment in Radiography Technology 262 and 264. This course is an integrated study of the various imaging modalities utilized in radiography and related fields. Various pathologic conditions of the body and their impact on the radiographic process are introduced.

RADIOGRAPHY TECHNOLOGY (RAD) 262 (3)
RADIATION BIOLOGY AND RADIATION PROTECTION (2 LEC., 2 LAB.)
Prerequisites: "C" grade in Radiography Technology 250, 252, 254, and 256 and concurrent enrollment in Radiography Technology 260 and 264. This course is an analysis of the effects of ionizing radiation on biologic systems. The application of radiation limiting devices and techniques utilized in radiography to protect the public from excessive radiation during radiographic examinations are covered. Laboratory fee.

RADIOGRAPHY TECHNOLOGY (RAD) 264 (4)
CLINICAL EDUCATION V,
FILM EVALUATION (32 LAB.)
Prerequisites: "C" grade in Radiography Technology 250, 252, 254, and 256 and concurrent enrollment in Radiography Technology 260 and 262. Students receive clinical education in a hospital radiology department.

RADIOGRAPHY TECHNOLOGY (RAD) 270 (2)
DEPARTMENTAL MANAGEMENT (2 LEC.)
Prerequisites: "C" grade in Radiography Technology 260, 262, and 264 and concurrent enrollment in Radiography Technology 272 and 274. This course is an introduction to radiology department planning, design and management.

RADIOGRAPHY TECHNOLOGY (RAD) 272 (3)
SEMINAR (1 LEC., 3 LAB.)
Prerequisites: "C" grade in Radiography Technology 260, 262, and 264 and concurrent enrollment in Radiography Technology 270 and 274. This course is a seminar session to prepare students for job interviews, to write resumes, and to develop appreciation for their role as a radiographer in the community. A comprehensive review of major subject areas is included.

RADIOGRAPHY TECHNOLOGY (RAD) 274 (4)
CLINICAL EDUCATION VI,
FILM EVALUATION (32 LAB.)
Prerequisites: "C" grade in Radiography Technology 260, 262, and 264 and concurrent enrollment in Radiography Technology 270 and 272. Students receive clinical education in a hospital radiology department.

READING (RD) 101 (3)
SPEED READING AND LEARNING (3 LEC.)
Prerequisites: "C" or better in all Respiratory Therapy courses. Practice in procedures related to cleaning and sterilization, periodic positive therapy, humidities and aerosol therapy, and chest physiotherapy is provided.
RESPIRATORY THERAPY (RES) 141 (2)
MEDICATIONS (2 LEC.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course provides instruction in the identification, classification, dosage, and principal side effects of inhalational medications. The identification of other medications in common use and their possible effect on cardio-respiratory function is included.

RESPIRATORY THERAPY (RES) 144 (2)
PATHOLOGY AND TREATMENT RATIONALE I (2 LEC.)
This course provides a description of the normal conditions and the deviation from normal in specific disease states with an assessment of reversibility and an expression of the intent of therapy.

RESPIRATORY THERAPY (RES) 145 (4)
BASIC TECHNOLOGY I (3 LEC., 4 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course provides instruction in specific details of design and function of respiratory therapy equipment, routine maintenance procedures, and detection and correction of malfunction. It also provides practice in adapting, applying, and modifying equipment in the patient care situation. Laboratory fee.

RESPIRATORY THERAPY (RES) 147 (2)
CLINICAL PROCEDURES II (8.8 LEC.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
Practice in procedures related to cleaning and sterilization, periodic positive pressure therapy, humidity and aerosol therapy, and chest physiotherapy is provided.

RESPIRATORY THERAPY (RES) 150 (2)
CLINICAL PROCEDURES III (16 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course is a continuation of practice of procedures related to periodic positive pressure therapy, humidity and aerosol therapy, and chest physiotherapy, with emphasis on the critically ill patient.

RESPIRATORY THERAPY (RES) 152 (2)
PHARMACOLOGY (2 LEC.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course provides instruction in the identification, classification, dosage, and principal effects and side effects of cardiopulmonary medications. Drugs affecting the cardiopulmonary system are also discussed. ECG ONLY

RESPIRATORY THERAPY (RES) 160 (3)
CLINICAL PRACTICE III (24 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course is a continuation of Clinical Practice II with introduction to continuous ventilation.

RESPIRATORY THERAPY (RES) 162 (4)
CLINICAL PRACTICE IV (32 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
Continued practice in respiratory therapy procedures with emphasis on continuous ventilation and pediatric and neonatal therapy is provided.

RESPIRATORY THERAPY (RES) 164 (3)
BASIC TECHNOLOGY II (4 LEC., 6 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
A continuation of Basic Technology I with emphasis on continuous ventilation and volume ventilators. Laboratory fee.

RESPIRATORY THERAPY (RES) 233 (3)
ADVANCED TECHNOLOGY AND INSTRUMENTATION I (2 LEC., 3 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course provides instruction in measurement of spirometry, pulmonary mechanics, lung volumes, and airway resistance. Emphasis is on equipment operation, testing techniques, data calculations, and interpretation. Laboratory fee.

RESPIRATORY THERAPY (RES) 243 (3)
ADVANCED TECHNOLOGY AND INSTRUMENTATION II (2 LEC., 3 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course is a continuation of Advanced Technology and Instrumentation I. Laboratory fee.

RESPIRATORY THERAPY (RES) 249 (3)
SEMINAR AND CASE PRESENTATION (3 LEC.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course provides physician-directed in-depth study, presentation, and discussion of case histories involving cardiopulmonary problems.

RESPIRATORY THERAPY (RES) 254 (1)
INSTRUCTION AND MANAGEMENT METHODS I (1 LEC., 1 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course is designed to give the potential therapist direction and practice in education of co-workers, physicians, patients, families of patients, and departmental trainees or students. Laboratory fee.

RESPIRATORY THERAPY (RES) 255 (1)
INSTRUCTION AND MANAGEMENT METHODS II (1 LEC., 1 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course is designed to provide the potential therapist with instruction, discussion, and practice in problem-solving related to respiratory therapy department operations. Laboratory fee.

RESPIRATORY THERAPY (RES) 256 (2)
INSTRUCTION AND MANAGEMENT METHODS II (2 LEC.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course is designed to provide instruction, discussion, and practice in problem solving related to respiratory therapy department operations.

RESPIRATORY THERAPY (RES) 257 (3)
ADVANCED PHYSIOLOGY AND PATHOLOGY (3 LEC.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course provides an in-depth study of disease states related to cardiopulmonary function and the application and interpretation of related diagnostic, evaluative, and therapeutic procedures.

RESPIRATORY THERAPY (RES) 260 (4)
CLINICAL PROCEDURES IV (16 LAB.)
Prerequisite: "C" or better in all previous Respiratory Therapy courses.
This course provides practice in intensive care procedures, including ventilator monitoring, airway care, and weaning. Students participate in preoperative evaluation, observation of thoracic surgery, and postoperative management of thoracic surgery patients. Practice in emergency and recovery room procedures is also provided.

RESPIRATORY THERAPY (RES) 261 (4)
CLINICAL PROCEDURES V (16 LAB.)
Prerequisite: A grade of "C" or better in all Respiratory Therapy courses.
Practice is provided in assuming total responsibility for continuous ventilator patients. Monitoring, airway care, and weaning are all included. Students participate in preoperative evaluation, observation of surgery, and postoperative management of thoracic surgery patients. Students also participate in pediatric intensive care, acute and chronic disease management, and cardiopulmonary rehabilitation.
This course is the student's final exposure to critical care procedures and validation of all respiratory therapy procedures previously learned. It is the last clinical course before graduation.

**RESPIRATORY THERAPY (RES) 270 (2)**
**VENTILATOR PATIENT MANAGEMENT (2 LEC.)**
Prerequisite: "C" or better in all previous Respiratory Therapy courses. The need for mechanical ventilation, complications which may incur, and basic weaning procedures are discussed. This course correlates different disease states with alternative methods of ventilator management.

**SOCIOLOGY (SOC) 204 (3)**
**AMERICAN MINORITIES (3 LEC.)**
Prerequisite: Sociology 101 or 6 hours of U.S. history recommended. Students may register for either History 204 or Sociology 204 but may receive credit for only one. The principal minority groups in American society are the focus of this course. The sociological significance and historic contributions of the groups are presented. Emphasis is on current problems of intergroup relations, social movements, and related social changes.

**SOCIOLOGY (SOC) 206 (3)**
**INTRODUCTION TO SOCIAL WORK (3 LEC.)**
The development of the field of social work is studied. Topics include the techniques of social work and the requirements for training in social work.

**SOCIOLOGY (SOC) 207 (3)**
**SOCIAL PSYCHOLOGY (3 LEC.)**
Students may register for either Psychology 207 or Sociology 207 but may receive credit for only one. Theories of individual behavior in the social environment are surveyed. Topics include the socio-psychological process, attitude formation and change, interpersonal relations, and group processes.

**SOCIOLOGY (SOC) 209 (3)**
**SELECTED TOPICS (3 LEC.)**
Prerequisite: Sociology 101 or the consent of the instructor. This is an elective course designed to deal with specific topics in sociology. Examples of topics might be: "urban sociology," "women in society," or "living with divorce." As the topics change, this course may be repeated once for credit.

**SPANISH (SPA) 202 (3)**
**INTERMEDIATE SPANISH (3 LEC.)**
Prerequisite: Spanish 201 or the equivalent. This course is a continuation of Spanish 201. Contemporary literature and composition are studied.
SPEECH (SPE) 206 (3)
ORAL INTERPRETATION (3 LEC.)
Techniques of analyzing various types of literature are examined. Practice is provided in preparing and presenting selections orally. Emphasis is on individual improvement.

SPEECH (SPE) 208 (3)
GROUP INTERPRETATION (3 LEC.)
Prerequisite: Speech 105 and 206. Various types of literature are studied for group presentation. Emphasis is on selecting, cutting and arranging prose and poetry, and applying reader’s theatre techniques to the group performance of the literature. Although not an acting class, practical experience in sharing selections from fiction and non-fiction with audiences will be offered.

SURGICAL TECHNOLOGY (SGT) 140 (2)
MEDICAL TERMINOLOGY (2 LEC.)
The origin and structure of medical terms are studied. Emphasis is on building a medical vocabulary.

SURGICAL TECHNOLOGY (SGT) 141 (8)
OPERATING ROOM TECHNIQUES (6 LEC., 10 LAB.)
Prerequisites: Admission to the Surgical Technology Program, credit or concurrent enrollment in Biology 120 and 121, or Biology 123. This course is an introduction to the operating room. The basic principles of asepsis, sterilization, preparation care of surgical supplies and equipment and ethical-legal implications studied. Also the basic care and safety of the patient in the operating room is presented. Laboratory fee.

SURGICAL TECHNOLOGY (SGT) 152 (8)
OPERATING ROOM PROCEDURES (4 LEC., 20 LAB.)
Prerequisites: A grade of “C” in Surgical Technology 140 and 141, credit or concurrent enrollment in Biology 120 and 121, or Biology 123. In this course the student expands the basic principles from Surgical Technology 141 to include specific patient preparation, medication, instrumentation, and complications related to selected surgical procedures. Laboratory fee.

SURGICAL TECHNOLOGY (SGT) 154 (2)
SEMINAR (2 LEC.)
Prerequisites: A grade of “C” in Surgical Technology 140, 141, and 152 and successful completion of curriculum requirements. This course is a study of special problems which correlate with the individual needs of students during clinical practice. Continuing education is discussed in this seminar.

SURGICAL TECHNOLOGY (SGT) 160 (8)
Operating Room Procedures for Registered Nurses (4 LEC., 20 LAB.)
Prerequisites: A grade of “C” in Surgical Technology 140 and 141 and current licensure by the Texas State Board of Nurse Examiners. In this course the student expands the principles presented in Surgical Technology 141. Included are specific patient preparation, roles, and legal and ethical responsibilities of operating room nursing. Roles of the registered nurse in pre-operative and post-operative visitation and in complications of surgery are presented.

THEATRE (THE) 100 (1)
REHEARSAL AND PERFORMANCE (4 LAB.)
Prerequisite: To enroll in this course, a student must be accepted as a member of the cast or crew of a major production. Participation in the class will include the rehearsal and performance of the current theatrical presentation of the division. This course may be repeated for credit.

THEATRE (THE) 101 (3)
INTRODUCTION TO THE THEATRE (3 LEC.)
The various aspects of theatre are surveyed. Topics include plays, playwrights, directing, acting, thees, artists, and technicians.

THEATRE (THE) 102 (3)
CONTEMPORARY THEATRE (3 LEC.)
This course is a study of the modern theatre and cinema as art forms. The historical background and traditions of each form are included. Emphasis is on understanding the social, cultural, and aesthetic significance of each form. A number of modern plays are read, and selected films are viewed.

THEATRE (THE) 103 (3)
STAGECRAFT I (2 LEC., 3 LAB.)
The technical aspects of play production are studied. Topics include set design and construction, stage lighting, make-up, costuming, and related areas.

THEATRE (THE) 104 (3)
STAGECRAFT II (2 LEC., 3 LAB.)
Prerequisite: Theatre 103 or the consent of the instructor. This course is a continuation of theatre 103. Emphasis is on individual projects in set and lighting design and construction. The technical aspects of play production are explored further.

THEATRE (THE) 105 (3)
MAKE UP FOR THE STAGE (3 LEC.)
The craft of make-up is explored. Both theory and practice are included. Laboratory fee.

THEATRE (THE) 106 (3)
ACTING II (2 LEC., 3 LAB.)
Prerequisite: Theatre 106 or the consent of the instructor. This course is a continuation of Theatre 106. Emphasis is on complex characterization, ensemble acting, stylized acting, and acting in period plays.

THEATRE (THE) 107 (3)
MOVEMENT FOR THE STAGE (2 LEC., 3 LAB.)
Movement is studied as both a pure form and as a part of the theatre arts. It is also presented as a technique to control balance, rhythm, strength, and flexibility. Movement in all the theatrical forms and in the development of characterization is explored. This course may be repeated for credit.

THEATRE (THE) 109 (3)
VOICE AND ARTICULATION (3 LEC.)
Students may register for either Speech 109 or Theatre 109 but may receive credit for only one of the two. Emphasis is on improving voice and pronunciation.

THEATRE (THE) 110 (3)
HISTORY OF THEATRE I (3 LEC.)
Theatre is surveyed from its beginning through the 16th century. The theatre is studied in each period as a part of the total culture of the period.

THEATRE (THE) 111 (3)
HISTORY OF THEATRE II (3 LEC.)
Theatre is surveyed from the 17th century through the 20th century. The theatre is studied in each as a part of the total culture of the period.
Basic movements of the dance are explored. Emphasis is on swing movements, circular motion, fall and recovery, contraction and release, and contrast of literal and abstract movements. Body balance, manipulation of trunk and limbs, and the rhythmic flow of physical energy are developed.

THEATRE (THE) 112 (3)
BEGINNING DANCE TECHNIQUE IN THEATRE (2 LEC., 3 LAB.)
Prerequisite: Theatre 112 or the consent of the instructor. This course is a continuation of Theatre 112 and 107. Emphasis is on swing movements, circular motion, fall and recovery, contraction and release, and contrast of literal and abstract movements. Topics include the role of dance in society, the evolution of dance styles, and the jazz style. Emphasis is on the flow of movement, body placement, dynamic intensity, level, focus, and direction.

THEATRE (THE) 113 (3)
INTERMEDIATE DANCE (2 LEC., 3 LAB.)
Prerequisite: Theatre 112 or the consent of the instructor. This course is a continuation of Theatre 112 and 107. Emphasis is on the flow of movement, body placement, dynamic intensity, level, focus, and direction.

THEATRE (THE) 199 (1)
DEMONSTRATION LAB (1 LAB.)
This course provides practice before a live audience of theory learned in theatre classes. Scenes studied in various drama classes are used to show contrast and different perspectives. This course may be repeated for credit.

THEATRE (THE) 201 (3)
TELEVISION PRODUCTION I (2 LEC., 3 LAB.)
Station organization, studio operation, and the use of studio equipment are introduced. Topics include continuity, camera, sound, lights, and video-tape recording.

THEATRE (THE) 202 (3)
TELEVISION PRODUCTION II (2 LEC., 3 LAB.)
Prerequisite: Theatre 201. This course is a continuation of Theatre 201. Emphasis is on the concept and technique of production in practical situations.

THEATRE (THE) 203 (3)
BROADCASTING COMMUNICATIONS I (3 LEC., 2 LAB.)
The nature and practice of broadcasting are covered. Basic techniques of radio and television studio operations are introduced.

THEATRE (THE) 204 (3)
BROADCASTING COMMUNICATIONS II (3 LEC., 2 LAB.)
This course is a continuation of Theatre 203. Emphasis is on radio and television as mass media and practical applications in both radio and television.
Students not meeting the clinical requirements will be dropped from the program.

**VOCATIONAL NURSING (VN) 142 (6)**
**MEDICAL AND SURGICAL NURSING (100 CONTACT HOURS)**
Prerequisite: Successful completion of all spring and summer semester courses in Vocational Nursing. This course is a study of medical and surgical conditions involving the body systems. Emphasis is on nursing care, observations, reporting, and recording. This is an 18-week course, 100 clock hours. Students not completing this course successfully will be dropped from the program.

**VOCATIONAL NURSING (VN) 143 (9)**
**CLINICAL EXPERIENCE (462 CONTACT HOURS)**
Prerequisite: Successful completion of all previous Vocational Nursing courses. The theory and skills of vocational nursing are applied in a hospital. Emphasis is on safe, competent nursing care. This is an 18-week course, 462 clock hours. Students who do not meet the requirements of this course will be dropped from the program.

*This course will be offered in the fall only.

Recommended Electives:
- ACC 238—Cost Accounting
- ACC 239—Income Tax Accounting
- PSY 105—Introduction to Psychology
- MGT 206—Principles of Marketing
- ACC 205—Business Finance
- ACC 207—Intermediate Accounting II
- ACC 703—Cooperative Work Experience
- ACC 704—Cooperative Work Experience

ACC 714—Cooperative Work Experience
ACC 803—Cooperative Work Experience
ACC 804—Cooperative Work Experience
ACC 813—Cooperative Work Experience
ACC 814—Cooperative Work Experience

GENERAL INFORMATION AND OBJECTIVES
This program provides the student with a basic background for the many varied jobs in accounting. Graduates of this program should be able to maintain a set of books, assist in developing a set of books, make accounting entries in the accounting department of larger companies, and perform other duties required of junior accountants.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

*Students may be placed in OFC 174 based on proficiency level determined by previous training, experience, and/or placement tests.

GENERAL INFORMATION AND OBJECTIVES
This program provides the student with a basic background for completing the accounting cycle which is the basic work of an accountant's assistant. The training a student receives is in the form of journalizing, posting, making a work sheet, preparing financial statements, adjusting and closing the books, and taking an after closing trial balance. This program is available for both day and evening students.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

SPECIALIZED TRACK PROGRAMS

After the completion of the basic academic, special math and science requirements, and the core curriculum, the sophomore student will begin the specialized track of didactic and clinical study. There are three specific program tracks. Each specific track program will have class and clinical studies designed to meet the essentials for registration and certification as specified by each accrediting body.

HISTOTECHNOLOGY

The histologic technician is concerned with the preparation of sections of body tissue for examination by a pathologist. This includes the preparation of tissue specimens both of human and animal origin for diagnostic, research, or teaching purposes. Sections of body tissue are processed by a variety of methods which enable the pathologist to diagnose body dysfunction and malignancy.

NUCLEAR MEDICINE TECHNOLOGIST

The nuclear medicine technologist is concerned with diagnostic, therapeutic (exclusive of sealed radiation sources), and investigative use of radionuclides. The technologist receives, positions, and attends to patients. He/she has skills in mathematical computation to make dose calculations for in vivo studies and assists the physician in the operation of scanning devices using isotopes. The nuclear medicine technologist is concerned with safety and has responsibility for disposal of radioactive waste, safe storage of radioactive material, and the inventory and control of radiopharmaceuticals.
### Radiography Technology

The radiography technologist assists the radiologist in the treatment of disease by exposing specific areas of the patient's body to prescribed doses of x-ray or other forms of ionizing radiation. The technologist assists in maintaining proper operation of controlling devices and equipment used in treatment. Observes radiation safety measures, observes patients for unusual reactions and reports to the radiation therapist, and assists in tumor localization and dosimetric procedures.

GENERAL INFORMATION AND OBJECTIVES
The apparel designer converts the design idea into an industrial paper pattern used in the mass production of clothing. New style trends each season demand individual creative thinking to develop salable designs. Upon successful completion of the two-year associate degree program the student enters a women's wear or children's wear manufacturing company as an assistant in the design department.

ADMISSION TO THE PROGRAM
1. Contact the Humanities Division for a Design Institute Information form and for the schedule showing when indicator tests are given.
2. Fulfill all requirements for admission to El Centro College.

†Lab science elective may include biology, chemistry, microbiology, but not geology or astronomy. ADN liaison counselor approval needed.

### GENERAL INFORMATION AND OBJECTIVES

This program requires two calendar years of study. Upon completion of the program, the student is awarded an associate in applied arts and sciences degree. In order to be certified by the college as eligible to write the State Board Test Pool Examination for qualification as a registered nurse, a student must, in addition to satisfying degree requirements, comply with the minimum standards for testing prescribed by the Board of Nursing Examiners for the State of Texas. Students are required to be covered by professional liability insurance.

### ADMISSION TO THE PROGRAM

1. Fulfill all requirements for admission to El Centro College.
2. Contact counseling office for admission packet.
3. Admission to the first nursing course occurs twice a year, August and January. The curriculum plan must be followed in sequence under the plan entered.

**NOTE:**
- May be taken during the initial summer session or prior to enrolling in the first nursing course.
- Lab science elective may include biology, chemistry, microbiology, but not geology or astronomy. ADN liaison counselor approval needed.

## GENERAL INFORMATION AND OBJECTIVES

This curriculum is intended for the preparation of entry-level or trainee computer programmers who will work in an applications setting to support the general, administrative, and organizational information processing function of industry, commerce, business and government service. It is designed as a two-year career program to prepare students for jobs. Graduates should be able to work in conjunction with a systems analyst in the programming environment usually found in a medium to large job shop. It is intended to provide a sufficient foundation so that graduates with experience and continued learning may advance in career paths appropriate to their own particular interests and abilities.

## ADMISSION TO THE PROGRAM

Fulfill all requirements for admission to El Centro College.

## INFORMATION SYSTEMS OPTION

- Any DP or CS course
- PSY 105—Introduction to Psychology
- Sophomore English or American History or Government or Humanities

GENERAL INFORMATION AND OBJECTIVES
This curriculum is intended for the preparation of students interested in systems work or other four-year degree programs. The curriculum includes many of the basic data processing courses as well as the basic requirements for four-year programs. There is a heavy emphasis on accounting. Students who plan to obtain baccalaureate degrees should determine what school they wish to transfer to and then seek the assistance of a counselor in planning their program to meet the requirements of the particular college to which they plan to transfer.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

GENERAL INFORMATION AND OBJECTIVES
This certificate program is designed to develop skills and knowledge necessary to meet the demands of computer operations in today's modern business world; and to enable the student to function as a data entry operator in any business data processing environment. Typical operator-trainee is a terminal operator, microcomputer operator, mini computer operator, I/O or peripheral device operator, junior computer operator, or possibly console computer operator.

The program includes both classroom and laboratory work directed by experienced professionals using large, modern equipment.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

GENERAL INFORMATION AND OBJECTIVES
The primary objective of this curriculum is to produce well prepared data device operators for entry level positions in local area industries. A secondary objective of this curriculum is to provide data entry operators with sufficient background to enable them, with further on-the-job training, to progress into other positions such as data entry supervisor, data control clerk, data control supervisor, tape/disk librarian, computer operator, documentation specialist, or possible programmer.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

Students who wish to continue for the second year must complete a minimum of 60 credit hours to obtain the Associate in Applied Science Degree.

The following courses are suggested:
HD 105—Basic Processes of Interpersonal Relationships | 3 | 0 | 3 |
BIO 123—Human Anatomy and Physiology | 3 | 2 | 4 |
Electives | 5 | 0 | 5 |

GENERAL INFORMATION AND OBJECTIVES
This program prepares the student for area employment in private dental offices and dental clinics. In addition to classroom work, students receive clinical experience in dental clinics, dental schools and other health agencies in the community.

The program is designed so that the student is awarded a certificate of completion in one year and may complete a required number of support courses either before or after the program to receive an Associate in Applied Arts and Sciences. The student will also be eligible to write the certification examination offered by the Dental Assisting National Board to become a "Certified Dental Assistant."

ADMISSION TO THE PROGRAM
1. Fulfill all requirements for admission to El Centro College.
2. Contact counseling office for admission packet.
3. Students are required to carry professional liability insurance.

ACREDITATION
The Dental Assistant Program has received full accreditation status from the Commission on Dental Accreditation of the American Dental Association.

Psychology or Human Development

Total 60-61

### TECHNICAL ELECTIVES

Choose one of the following:
- DFT 713—Cooperative Work Experience
- DFT 813—Cooperative Work Experience
- DFT 203—Advanced Technical Illustration
- EGR 105—Engineering Graphics
- CS 175—Introduction to Computer Science

Other drafting courses including DFT 713 and 813—Cooperative Work Experience, may be substituted upon approval. Cooperative work experience courses must have approval of instructor and cooperative education director.

### GENERAL INFORMATION AND OBJECTIVES

This two-year program is designed to prepare the student for employment as a draftsman in the fields of electronic, structural, civil, mechanical, general drafting, and technical illustrating. In addition, most, if not all, of the courses may be used for transfer credit to several other institutions that offer the bachelor's degree in technology. The program is offered both day and evening. Many employers in Dallas provide part-time work for students while they are in school.

### ADMISSION TO THE PROGRAM

Fulfill all requirements for admission to El Centro College. No prior knowledge of drafting is required.

### SUPPORT COURSES:

Choose 12 hours from any of the following: Developmental Studies Reading and/or Writing, Communications 131-132, English 101-102, or sophomore-level English courses.
- EP 245, 246, 247—Diversified Studies
- HD 105—Basic Processes of Interpersonal Relationships
- DM 090 or 091 or Math Elective
- OFC 172—Beginning Typing
- OFC 174—Intermediate Typing
- OFC 160—Office Machines
- PSY 105—Introduction to Psychology
- PSY 201—Developmental Psychology
- SOC 101—Introduction to Sociology
- SOC 102—Social Problems
- PEH 101—Fundamentals of Health
GENERAL INFORMATION AND OBJECTIVES
This program is designed to prepare educational paraprofessionals in a wide range of competencies needed for effective roles in public and non-public schools. A student can take courses required for the one-year educational assistant certificate and continue in the program to receive the two-year educational associate degree or may work directly toward the associate degree.

Educational paraprofessionals are employed under job titles such as teacher aide, assistant teacher, library assistant, P.E. aide, study hall teacher, tutor, tutoring coordinator, youth worker, and special education aides. Individuals working with handicapped children have found this program to be especially beneficial.

GENERAL INFORMATION AND OBJECTIVES
The course work in this associate degree program is geared to improve the fireman's professional qualifications in fire prevention, administration, supervision, and fire control techniques. Another objective is to promote an understanding of municipal government with emphasis on the fireman's role in today's society.
ADMISSION TO THE PROGRAM
1. Fulfill all requirements for admission to El Centro College.
2. Should be currently employed in one of the organized fire departments of Dallas County.

HST 101 and 102—History of the United States or GVT 201 and 202—American Government
HD 105—Basic Processes of Interpersonal Relationships or HD 107—Developing Leadership Behavior or
PSY 105—Introduction to Psychology or SOC 101—Introduction to Sociology

Total | 31

Before completing this program, the student will be required to work a minimum of 640 hours in an approved work station—equal time to be spent in food preparation and supervision. A weekly seminar enables the student to discuss his or her work experiences in a classroom setting.

GENERAL INFORMATION AND OBJECTIVES
The Dietetic Technician Program trains men and women to assume responsible positions in the institutional field of food service such as hospitals, extended care facilities, nursing homes, and community nutrition programs.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

Before completing this program, the student will be required to work a minimum of 320 hours in an approved work station—equal time to be spent in food preparation and supervision. A weekly seminar enables the student to discuss his or her work experiences in a classroom setting.

GENERAL INFORMATION AND OBJECTIVES
The Dietetic Assistant Program trains men and women to assume a responsible position in the institutional field of food service such as hospitals, extended care facilities, nursing homes, school lunch programs, and college dormitories. Courses in nutrition and dietetics, basic and quantity food preparation, and institutional food service management are the core of this curriculum.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

### GENERAL INFORMATION AND OBJECTIVES

The Interior Design Program qualifies the student to provide solutions for interior spaces of public structures and private residences. The curriculum includes studies in art, architecture, business, communications, sociology, and textiles with major concentration in interior design.

The program consists of six semesters of study in Interior Design and related courses. However, a student may file for an Applied Arts and Sciences degree after successful completion of the first two years of the program. A professional certificate is awarded upon successful completion of all courses identified in the six semester curriculum. This program is fully accredited by F.I.D.E.R. (Foundation for Interior Design Education Research).

### ADMISSION TO THE PROGRAM

1. Contact the Division of Counseling for application to the Interior Design program and for scheduling a time to take the design indicator test.
2. Fulfill all requirements for admission to El Centro College including the evaluation of transfer of credit from a recognized school.

- **GVT 202—American Government**
- **BUS 237—Organizational Behavior**
- **SOC 101—Introduction to Sociology**
- **CS 175—Introduction to Computer Science**
- **HD 105—Basic Processes of Interpersonal Relationships**
- **ECO 201—Principles of Economics**
- **PHI 105—Logic**
- **POL 134—Criminal Evidence and Procedure**

### REQUIRED ELECTIVE COURSES
The student will be required to take 2 courses from the LA Elective courses listed below:

- **LA 803 or 804—Cooperative Work Experience**
- **LA 813 or 814—Cooperative Work Experience**
- **LA 236—Legal Office Management**
- **LA 248—Constitutional and Criminal Law**
- **LA 251—Complex Litigation and the Anti-Trust and Securities Laws**
- **LA 255—Oil and Gas Law**
- **LA 232—Torts and Insurance Law and Claims Investigation**

### GENERAL INFORMATION AND OBJECTIVES
The Legal Assistant Program is an associate degree program designed to prepare the student to function as a technically qualified assistant to a lawyer. The program was developed at the request of and in conjunction with the Dallas Bar Association. The four-semester curriculum consists of legal technology courses combined with liberal arts and business courses.

### ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

### MANAGEMENT CAREERS
This business management program offers several options of study designed to develop the fundamental skills, knowledge, attitudes, and experiences which enable men and women to function in decision-making positions as supervisors or junior executives. Successful completion of this program leads to the Associate in Applied Arts and Sciences Degree.

MID-MANAGEMENT OPTION

The Mid-Management option is a cooperative plan with members of the business community whereby the student attends college classes in management related courses and concurrently works at a regular, paid, part-time or full-time job in a sponsoring business firm. To enter the Mid-Management option, students must make formal application and be interviewed by a member of the Mid-Management faculty before final acceptance will be granted.

Elective

Total for Associate Degree 62

* If typing skills can be demonstrated with a minimum of 50 corrected wpm, OFC 174 will not be required.

GENERAL INFORMATION AND OBJECTIVES
This program provides specialized training in which the student develops basic skills and knowledge necessary to function as a medical secretary, administrative and clinical medical-office assistant. Employment is available in medical offices, clinics, hospitals and other organizations requiring a background in medical office procedures.

The program is designed so that the student may receive a certificate in one year or may complete a required number of support courses either before or after taking the medical assisting courses and receive an associate degree in applied arts and sciences.

A student must, in addition to satisfying certificate requirements for the college, comply with the minimum standards for testing prescribed by the Certifying Board of the American Association of Medical Assistants before being able to sit for the National Board Examination.

ADMISSION TO THE PROGRAM
1. Fulfill all requirements for admission to El Centro College.
2. Conference with counselor and program coordinator.
3. New students may enter in fall or spring semester.

Students are required to be covered by professional liability insurance.

ACCREDITATION
The educational program for Medical Assistants has been accredited by the Committee on Allied Health Education and Accreditation in collaboration with the American Association of Medical Assistants, Inc.

* Students without two years of high school algebra will take MTH 093 and then MTH 101.

GENERAL INFORMATION AND OBJECTIVES
This two-year program prepares the student to perform tests and related duties in a medical laboratory under the supervision of a medical technologist. Upon successful completion of the program, the student is awarded an associate degree in applied arts and sciences. In order to be eligible to take the National Certifying Examination for Medical Laboratory Technician Associate Degree, a student must, in addition to satisfying degree requirements, comply with the minimum standards prescribed by the American Society of Clinical Pathologists. Students are required to be covered by professional liability insurance.
ADMISSION TO THE PROGRAM
1. Fulfill all requirements for admission to El Centro College.
2. Interview with liaison counselor.
3. Interview with MLT faculty member.
4. Fulfill all requirements for admission to the Medical Laboratory Technician Program.
5. High school courses in biology and chemistry strongly recommended.

PSY 105—Introduction to Psychology or HD 105—Basic Processes of Interpersonal Relationships
American History, American Government
HUM 101—Introduction to Humanities

Total 62-64
GENERAL INFORMATION AND OBJECTIVES

The pattern designer converts the fashion sketch or original garment into an industrial paper pattern used in the mass production of clothing. Drafting is the skill of developing a flat pattern with measurements. Draping is the skill of developing a pattern by placing cloth over a dress form. Upon completion of the program the student enters a women's wear or children's wear manufacturing company as an assistant in the pattern department. The following courses are sometimes offered in the evening:

DES 135, DES 136.

ADMISSION TO THE PROGRAM

1. Fulfill all requirements for admission to EI Centro College.
2. Contact the Humanities Division for a Design Institute Information Form and for the schedule showing when indicator tests are given.

POLICE SCIENCE

(associate degree in applied arts and sciences)

RECOMMENDED ELECTIVES:

- POL 146—Patrol Administration
- POL 233—Introduction to Criminalistics
- POL 242—Juvenile Procedures
- POL 243—Probation and Parole
- POL 244—Traffic Planning and Administration
- POL 245—Traffic Law
- POL 246—Penology
- POL 143—Practical Spanish for Public Service Personnel
- POL 144—Practical Spanish for Public Service Personnel
- HD 105—Basic Processes of Interpersonal Relationships

GENERAL INFORMATION AND OBJECTIVES

The curriculum of this program is designed for those with law enforcement backgrounds as well as for recent high school graduates interested in preparing for an essential field of employment. Courses are offered in both day and evening college.

ADMISSION TO THE PROGRAM

1. Fulfill all requirements for admission to EI Centro College.
2. Those who are not currently in law enforcement should confer with police science liaison counselor.

RADIOGRAPHY TECHNOLOGY

(associate degree in applied arts and sciences)

FALL ADMISSION

RECOMMENDED SUPPORT COURSES

*ENG 101—Composition and Expository Reading and Writing
*ENG 102—Composition and Literature or
*COM 131, 132—Applied Composition and Speech
*HST 101, 102—History of the United States Government
*PSY 105—Introduction to Psychology
*SOC 101—Introduction to Sociology or
*SOC 102—Social Problems

†Electives

†Recommended for students transferring into a BS or BA degree plan.
†If you plan to transfer to a bachelor of science degree program in criminal justice, you should check the four-year college or university catalog to determine elective courses you should take. If you plan to terminate your formal education with the associate degree (60 hours) it is recommended that you select at least three courses from the following list:

Total 60

SUMMER SESSION

RAD 170—Radiographic Procedures III
RAD 172—Radiographic Exposure III
RAD 174—Radiographic Physics III
RAD 176—Clinical Education III, Film Evaluation

- ENG 101—Composition and Expository Reading 3 0 3

### GENERAL INFORMATION AND OBJECTIVES
This program is designed to prepare radiographers with understanding and skills in the field of diagnostic radiography. The student is assigned to several Dallas area hospitals for clinical education. Upon successful completion of the twenty-four month program, the student is awarded an associate in applied arts and sciences degree. In order to be certified by the College as prepared to write the American Registry of Radiologic Technologists Exam, a student must, in addition to satisfying degree requirements, comply with minimum standards for testing prescribed by the accrediting agency.

### ADMISSION TO THE PROGRAM
1. Fulfill all requirements for admission to El Centro College.
2. Take battery of tests.
3. High school courses in biology and math suggested.
4. Attend program orientation session.
5. Personal interview with program coordinator.
# Respiratory Therapy Technology (Associate Degree in Applied Arts and Sciences)

## Required Courses

### FALL SEMESTER I
- CHM 101—General Chemistry or CHM 115—General Chemistry
  - LEC: 3
  - LAB: 3
  - CR: 4
- BIO 120—Human Anatomy and Physiology or BIO 221—Anatomy and Physiology I
  - LEC: 3
  - LAB: 3
  - CR: 4
- RES 137—Basic Respiratory Therapy Skills and Procedures I
  - LEC: 6
  - LAB: 4
  - CR: 10
- RES 144—Pathology and Treatment Rationale I
  - LEC: 2
  - LAB: 0
  - CR: 2
- ENG 101—Composition and Expository Reading
  - LEC: 3
  - LAB: 0
  - CR: 3

### SPRING SEMESTER I
- CHM 102—General Chemistry or CHM 116—General Chemistry
  - LEC: 3
  - LAB: 3
  - CR: 4
- BIO 121—Human Anatomy and Physiology or BIO 222—Anatomy and Physiology
  - LEC: 3
  - LAB: 3
  - CR: 4
- RES 145—Basic Technology I
  - LEC: 3
  - LAB: 4
  - CR: 4
- RES 147—Clinical Procedures II
  - LEC: 0
  - LAB: 8.8
  - CR: 2
- RES 152—Pharmacology
  - LEC: 2
  - LAB: 0
  - CR: 2

### SUMMER SESSION
- RES 150—Clinical Procedures III (6 Weeks)
  - LEC: 0
  - LAB: 16
  - CR: 2

---

## General Information and Objectives

The associate degree program seeks to qualify the individual upon graduation to perform at a high level of competence in the areas of specialized patient care, technical expertise, administrative, and educational functions.

The program is accredited by the American Medical Association Council on Medical Education through the Joint Review Committee for Respiratory Therapy Education. Upon completion of the program, the student is awarded an associate in applied arts and sciences degree. In order to be certified by the College as eligible to write the American Registry Exam, a student must, in addition to satisfying degree requirements, comply with the minimum standards for testing prescribed by the above mentioned committee.

### Admission to the Program

1. High school diploma or GED.
2. Completion of testing including basic math and reading level.
3. Completion of interviews with liaison counselor and program instructors.
4. Completion of “Requirements for Admission” to El Centro College.
5. Completion of math prerequisite for CHM 101 or 115.
6. Students are required to be covered by professional liability insurance.

Equivalency testing for advanced standing is available. Written requests should be submitted well in advance of enrollment date.

GENERAL INFORMATION AND OBJECTIVES
The Respiratory Therapy Technician Program seeks to provide the training necessary to qualify individuals for entrance into the field of skilled in-patient care and technical and therapeutic procedures. For individuals already working in the field, the program serves to broaden and deepen technical and background knowledge and upgrade technical and therapeutic skills.

The program has been designed to conform to the "Essentials for an Approved Educational Program for the Respiratory Therapy Technician" approved by the American Medical Association Council on Medical Education and has been fully accredited by the Joint Review Committee for Respiratory Therapy Education, accrediting designate of the AM-A-CME. Upon completion of the program, the student is awarded a certificate. In order to be certified by the College as eligible to write the National Technician Certification Exam administered by the NBRT, a student must, in addition to satisfying certificate requirements, comply with the minimum standards for testing as required by the accrediting agency.

ADMISSION TO THE PROGRAM
1. High school diploma or GED.
2. Completion of testing including basic math and reading level.
3. Completion of interviews with liaison counselor and program instructors.
4. Completion of "Requirements for Admission" to ElCentro College.
5. Students are required to be covered by professional liability insurance. Equivalency testing for advanced standing is available. Written requests should be submitted well in advance of enrollment date.

A "C" (2.0) average is required in major field—all food service courses.

Before completing this program, the student will be required to work a minimum to 640 hours in an approved work station in a school food facility. A weekly seminar enables the student to discuss his or her work experiences in a classroom setting.

GENERAL INFORMATION AND OBJECTIVES
The School Food Service Program trains men and women to assume responsible positions in the management of school food service facilities in the public or private sector. Courses in food management, nutrition, basic, and quantity food preparation are the core of this curriculum. Afternoon and evening courses are offered during the regular academic semesters. During the months of June, July, and August accelerated courses are scheduled for those who desire to participate.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to ElCentro College.

- MGT 136 — Principles of Management
- BUS 143 — Personal Finance
- OFC 803 — Cooperative Work Experience
- OFC 804 — Cooperative Work Experience
- OFC 813 — Cooperative Work Experience
- OFC 814 — Cooperative Work Experience
- PSY 105 — Introduction to Psychology
- SPE 105 — Fundamentals of Public Speaking
- BUS 237 — Organizational Behavior
- ECO 201 — Principles of Economics
- OFC 143 — Contemporary Topics in Office Careers

*Students will be placed in typing and shorthand courses on a proficiency level determined by previous training, experience, and/or placement tests.

†Total number of hours must equal 64-67 for graduation.

CREDIT GIVEN FOR CPS RATING
Credit toward an associate degree may be granted upon successful completion of all parts of the Certified Professional Secretary (CPS) Exam. The courses for which credit may be granted are:
- ACC 131 — Bookkeeping
- OFC 159 — Beginning Shorthand
- OFC 162 — Office Procedures
- OFC 166 — Intermediate Shorthand
- OFC 172 — Beginning Typing
- OFC 174 — Intermediate Typing
- OFC 231 — Business Communications
- BUS 234 — Business Law
- OFC 275 — Secretarial Procedures
- PSY 131 — Human Relations

Total 31

In order to receive credit, the applicant must:
1. Request direct notification be given to the registrar of the College by the Institute for Certification that the applicant has passed all sections of the exam.
2. Have earned 12 hours credit for courses at El Centro College before the advanced standing credit is posted on the applicant's record.

GENERAL INFORMATION AND OBJECTIVES
The purpose of this program is to prepare students to become alert and responsible secretaries capable of performing the tasks required of them in the modern business office. The program is designed to provide a high level of proficiency in typing, shorthand, office machines, and other secretarial techniques, as well as a general educational background. Emphasis is also placed on the development of logical thought, human relations, business etiquette and business ethics. Courses are available in both the day and evening college.

ADMISSION TO THE PROGRAM
Fulfill all requirements for admission to El Centro College.

GENERAL INFORMATION AND OBJECTIVES
The Surgical Technology Program trains a person to provide services in the operating room under the supervision and responsibility of the operating room supervisor. The technologist, as part of the operating room team, aids in providing for the safety, cleanliness, and efficiency necessary for good patient care in the operating room. The surgical technologist prepares materials for use at the operating room table and assists in the use of these materials in a variety of operative procedures. Summer session is ten weeks in length. Students are required to be covered by professional liability insurance.

ADMISSION TO THE PROGRAM
1. Fulfill all requirements for admission to El Centro College.
2. Conference with liaison counselor for the Surgical Technology Program.

**GENERAL INFORMATION AND OBJECTIVES**

This option teaches the registered nurse to provide safety, cleanliness and efficiency necessary for good patient care in the operating room. Basic principles of asepsis, preparation and care of surgical supplies and ethical-legal aspects are taught, as well as perioperative role responsibilities of the registered nurse.

**ADMISSION TO THE PROGRAM**

1. Fulfill all requirements for admission to El Centro College and the Surgical Technology Program.
2. Conference with liaison counselor for the Surgical Technology Program.
3. Current licensure by the Texas State Board of Nurse Examiners, or a graduate of an R.N. program.

*American Red Cross-First Aid required during spring semester, 15 clock hours.
†American Red Cross-Disaster Nursing included during fall semester, 12 clock hours.

**GENERAL INFORMATION AND OBJECTIVES**

This is a one-year program which meets the accreditation requirements of the State Board of Licenses Vocational Nurse Examiners. In addition to classroom and laboratory work at the college, clinical experience at various hospitals is part of the program. This course is offered only during the day.

**ADMISSION TO THE PROGRAM**

1. Fulfill all requirements for admission as a full-time student to El Centro College.
2. Complete an application sheet to the Vocational Nursing program in addition to the application to El Centro.
3. Contact liaison counselor to the Vocational Nursing program for additional information.
**RECIPROCAL TUITION AGREEMENT**

**DCCCD PROGRAMS**

**STUDENTS CONSIDERING TRANSFER TO A FOUR-YEAR INSTITUTION**
The following programs have been designated to provide marketable skills in varied occupations. All courses in these technical/occupational programs are credit courses leading to an associate degree. Some courses are transferable to four-year institutions. Students who plan to transfer are advised to consult with a counselor to develop a technical/occupational course plan which best meets the degree requirements of the chosen four-year college or university.
