This catalog contains policies, regulations, and procedures in existence at the time this publication went to press. The District Colleges reserve the right to make changes at any time to reflect current Board policies, administrative regulations and procedures, and applicable State and Federal regulations. This catalog is for information purposes and does not constitute a contract.

This publication prepared by the Dallas County Community College District and El Centro Offices of Public Information.

Educational opportunities are offered by the Dallas County Community College District without regard to race, color, age, national origin, religion, sex or disability.
In 1987, the Texas Legislature passed House Bill 2182. This bill, effective with the 1989 Fall Semester, requires that all Texas public colleges and university students be tested for reading, writing, and mathematics skills. This legislation applies to students enrolling in the Dallas Community Colleges - Brookhaven, Cedar Valley, Eastfield, El Centro, Mountain View, North Lake and Richland.

Q. What is the Texas Academic Skills Program (TASP)?
A. TASP is a diagnostic testing program to assess the academic skills of students entering Texas public colleges and universities. It is designed to determine if students have the reading, writing, and math skills necessary to succeed in college courses. The results of the test point to specific academic strengths and weaknesses and help advisors and counselors place students in courses in which they can do well and develop the necessary skills for college success. If students score poorly in one or more areas of the test, TASP requires them to immediately participate in appropriate remediation until all sections of the test are passed.

Q. Who must take the TASP test?
A. All Texas public college students must take TASP either before or during the semester of completing nine (9) college-level credit hours. Such scores must be reported to the college prior to the next registration. All students planning to become a certified teacher in Texas MUST take and pass TASP.

Q. Are there any exemptions from taking the TASP test?
A. Students who completed at least three (3) credit hours of college-level work prior to the 1989 Fall Semester will be exempt from taking TASP. Courses that count toward this exemption are those taken at the DCCCD or other regionally-accredited colleges or universities and which will count toward graduation; also, various credit-by-exam programs taken prior to Fall 1989 will result in an exemption. Students enrolled in a DCCCD academic program leading to a certificate may receive a waiver from TASP. Blind and deaf students are exempt from TASP. Other exemptions include students who meet the following: (1) score at least 1800 on each of the three sections of TAAS; (2) score of at least 29 or higher on both ACT math and ACT English and have an ACT composite score of at least 27; or (3) score at least 550 or higher on both SAT verbal and SAT math with a SAT composite score of at least 1200. The following DCCCD courses or their equivalents will NOT count toward the three-hour requirement: Any courses numbered below 100, Art 199, College Learning Skills 100, Developmental Communications 120, Human Development 100, Human Development 110, Library Skills 101, Music 199, and Theatre 199.

Q. Must a student take TASP prior to entering a DCCCD college?
A. No, it is not necessary that a student take TASP prior to enrolling. However, DCCCD students must take TASP prior to completing nine (9) hours of college-level courses and report scores prior to the next registration. In most cases, three courses will equal nine hours of credit. PERFORMANCE GRADES (A - D) earned in courses will count toward the nine hours of credit.

Q. If students must take TASP by the completion of their ninth credit hour, does this mean they must pass TASP by that same time?
A. No, students are required only to take TASP prior to completing their ninth credit hour and report scores before their next DCCCD registration. If students do not "pass" a section or sections of TASP, they will be immediately mandated into remediation. Students must pass all sections of TASP before they can be awarded a degree from the DCCCD. Students who transfer to a four-year state college or university will NOT be allowed to take junior or senior courses until they have passed all sections of TASP.

Q. How and when will the TASP test be given?
A. The three-part (reading, writing and mathematics) test will be given on a statewide basis at designated testing sites. Each DCCCD college is a test site. During 1994, the test will be given on June 18, July 23, September 17 and November 12. During 1995, the test dates are February 25, April 22, June 10 and July 15. TASP registration materials are available in the Counseling Centers and/or Testing Centers of each of the DCCCD colleges.

Q. What is the cost of the TASP test? Is there a study guide available?
A. The cost for the total test is $26. An official TASP Study Guide can be purchased in DCCCD College Bookstores or be ordered by writing to TASP Project, P.O. Box 1403478, Austin, Texas, 78714-0347. Study Guides are available for reference use in each of the DCCCD college libraries.

Q. How will TASP affect students planning to attend a DCCCD college?
A. Students planning to attend a DCCCD college will continue to complete the usual steps for enrollment. TASP scores should be reported after being admitted by those who have taken TASP. However, for students who have not taken TASP, the college will indicate whether or not they should take the DCCCD's assessment test. Then, before completing their ninth credit hour, students must take the TASP test and report their scores before their next registration.

Q. Are students transferring into the DCCCD required to take TASP?
A. Unless transfer students qualify for one of the exemptions discussed above, they are required to take TASP no later than the semester of enrollment in nine college-level credit hours in a Texas public institution. Students who have scores must report them before registering for college-level hours in the DCCCD.

If you would like more information on the Texas Academic Skills Program, please contact the college's Counseling Center.
## Academic Calendar for 1994-95

### Summer Sessions, 1994

**First Summer Session:** (Based on 4 day class week, except for first week)
- May 30 (M)  Memorial Day Holiday
- June 1-2 (W-R)  Registration (Varies by Campus)
- June 6 (M)  Classes Begin
- June 9 (R)  4th Class Day
- June 10 (F)  Class Day (Only Friday Class Day)
- June 18 (S)  TASP Test Administered
- June 28 (T)  Last Day to Withdraw with a Grade of "W"
- July 4 (W)  Fourth of July Holiday
- July 7 (R)  Final Exams
- July 7 (R)  Semester Ends
- July 11 (M)  Grades due in Registrar's Office by 10 a.m.

**Second Summer Session:** (Based on 4 day class week, except for first week)
- July 13 (W)  Registration (All Campuses)
- July 14 (R)  Classes Begin
- July 15 (F)  Class Day (Only Friday Class Day)
- July 19 (T)  4th Class Day
- July 23 (S)  TASP Test Administered
- August 8 (M)  Last Day to Withdraw with a Grade of "W"
- August 16 (T)  Final Exams
- August 16 (T)  Semester Ends
- August 18 (R)  Grades due in Registrar's Office by 10 a.m.

### Fall Semester, 1994

- August 22 (M)  Faculty Reports
- August 22-25 (M-R)  Registration Period (Varies by College)
- August 26 (F)  Faculty Professional Development
- August 29 (M)  Classes Begin (M-R Classes)
- September 2 (F)  Friday Only Classes Begin
- September 3 (S)  Saturday Only Classes Begin
- September 5 (M)  Labor Day Holiday
- September 12 (M)  12th Class Day
- September 17 (S)  TASP Test Administered
- November 12 (S)  TASP Test Administered
- November 18 (F)  Last Day to Withdraw with a Grade of "W"
- November 24 (R)  Thanksgiving Holidays Begin
- November 28 (M)  Classes Resume
- December 9 (F)  Final Exams for Friday Only Classes
- December 10 (S)  Final Exams for Saturday Only Classes
- December 12-15 (M-R)  Final Exams for M-R Classes
- December 15 (R)  Semester Closes
- December 19 (M)  Grades due in Registrar's Office by 10 a.m.
- December 24 (S)  College Buildings and Offices Closed for the Holidays

### Spring Semester, 1995

**First Summer Session:** (Based on 4 day class week, except for first week)
- May 29 (M)  Memorial Day Holiday
- May 31-June 1 (W-R)  Registration Period (Varies by College)
- June 5 (M)  Classes Begin
- June 8 (R)  4th Class Day
- June 9 (F)  Class Day (Only Friday Class Meeting)
- June 10 (S)  TASP Test Administered
- June 27 (T)  Last Day to Withdraw with "W"
- July 4 (T)  Fourth of July Holiday
- July 6 (R)  Final Exams
- July 6 (R)  Semester Closes
- July 10 (M)  Grades due in Registrar's Office by 10 a.m.

**Second Summer Session:** (Based on 4 day class week, except for first week)
- July 12 (W)  Registration (All Campuses)
- July 13 (R)  Classes Begin
- July 14 (F)  Class Day (Only Friday Class Meeting)
- July 15 (S)  TASP Test Administered
- July 18 (T)  4th Class Day
- August 7 (M)  Last Day to Withdraw with "W"
- August 15 (T)  Final Exams
- August 15 (T)  Semester Closes
- August 17 (R)  Grades due in Registrar's Office by 10 a.m.

EL CENTRO COLLEGE

El Centro, a college of the Dallas County Community College District, is centrally located in downtown Dallas and plays a vital role in its educational advancement.

El Centro’s central location allows students from all parts of Dallas County to take advantage of pre-professional courses transferable to four-year institutions, as well as career training in over 40 exciting fields. There is no typical student at El Centro. Students are of all ages and come from all walks of life.

The campus has gained international attention for making use of a nine-story, turn-of-the-century department store, renovated to accommodate classrooms, laboratories, student center, learning center, and administrative offices, as well as a modern wing that houses labs, arts facilities, a cafeteria, gymnasium and library. Nestled between the two wings is an inviting green space which has been commended for beautifying the downtown area.

Accreditation

El Centro College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the Associate of Arts and Sciences Degree and the Associate of Applied Science Degree.

Institutional Memberships

El Centro belongs to: The American Association of Community Colleges; The Association of Texas Colleges and Universities; and The League for Innovation in the Community College.

EI Centro College is recognized and sanctioned by the Texas Higher Education Coordinating Board and the Texas Education Agency and is an affirmative action, equal opportunity institution.

DCCCD Statement of Purpose

The purpose of the DCCCD is to equip students for successful living and responsible citizenship in a rapidly changing local, national and world community. We do this by providing accessible, accredited, affordable, cost-effective, quality educational opportunities for development of job skills, personal growth and/or transfer to a baccalaureate program. In fulfilling our purpose, we further cultural and economic development in the communities we serve.

EI Centro’s Mission

Valuing the student as its primary commitment, El Centro College provides opportunities for all individuals, recognizing that they bring diversity of purpose, circumstance, background, skills, and ability. Innovative professional and academic curricula offer quality instruction to enhance the mind and equip students with the knowledge and skills required to reach their fullest potential. The faculty and staff of El Centro College join with students and the community in a partnership of learning to serve the educational needs of a diverse population drawn together in an urban setting.

El Centro College offers counseling, guidance, placement, and instruction—as well as a time and place for students to develop, reflect, learn, and grow according to their intellectual and career goals. The college cultivates in students an understanding of community, which encompasses a global perspective, promotes civic responsibility, and develops leadership, enabling them to contribute to society.

I. GENERAL INFORMATION

History of the Dallas County Community College District

The Dallas County Community College District is comprised of seven colleges located strategically throughout Dallas County. Together the colleges enroll approximately 50,000 credit and 45,000 non-credit students per long semester and employ over 2,000 full-time faculty and staff members.

The growth of the District into an educational system with such impact was not by chance. In May, 1965, voters created the Dallas County Junior College District and approved a $41.5 million bond issue to finance it. The next year the District's first college, El Centro, began operation in downtown Dallas. Eastfield and Mountain View Colleges enrolled their first students in 1970, and the plans for a multi-campus district became a reality. Richland College became the District's fourth college in 1972.

The voters of Dallas County approved the sale of an additional $85 million in bonds in September, 1972. This step provided for expansion of the four existing colleges and the construction of three more colleges. A key part of the expansion program was the remodeling and enlarging of EI Centro College, a project completed in 1979. Construction of new facilities resulted in the opening of Cedar Valley College and North Lake College in 1977. Brookhaven College, the final campus in the seven college master plan, opened in 1978.

In 1989, the Bill J. Priest Institute for Economic Development opened south of downtown Dallas. Named for the DCCCD's founding chancellor, the BJIPED serves the community through the Business and Professional Institute, Edmund J. Kahn Job Training Center, Small Business Development Center, Center for Government Contracting, Business Incubation Center and International Trade Resource Center.

Mission of the Dallas County Community College District

The mission of the DCCCD is to equip students for successful living and responsible citizenship in a rapidly-changing local, national and world community. We do this by providing accessible, accredited, affordable, cost-effective, quality educational opportunities for development of intellectual skills, job skills, personal growth and/or transfer to a baccalaureate program. In fulfilling our purpose, we further cultural, economic and workforce development in the communities we serve.

District Philosophy And Goals

Since 1972, the District has been known as the Dallas County Community College District. The name shows that the District has outgrown the term “junior college.” The name also reflects the District’s philosophy. The colleges truly are community institutions, meeting the varied educational needs of the growing Dallas County region. The primary goal of the District and its colleges is to help students of all ages achieve effective living and responsible citizenship in a fast-changing region, state, nation and world. Each college is therefore committed to providing a broad range of educational programs for the people it serves.

The needs, abilities and goals of each student are considered important. The focus is on creating an educational program for the individual rather than squeezing or stretching the individual to fit an “educational mold.”

The Dallas County Community Colleges and the Bill J. Priest Institute for Economic Development are teaching, learning, community-building institutions. To fulfill the public trust the DCCCD:
- offers a student guarantee to the institutions and employers receiving its graduates;
- measures its collective and individual behaviors against a code of ethics and a statement of organizational values;
- makes decisions through a line organizational structure which receives input from those most affected by the decisions;
- strives to provide its services with revenues of
  - no more than 20% from student tuition
  - no more than 30% from local taxes; and
  - a minimum of 50% from the State
- seeks to maintain the highest possible credit ratings;
- views itself as a team player in the local community of educators, business people, elected officials and other community leaders; and
- sees its role as a weaver of a seamless fabric of educational opportunity for the people of Dallas County.

As a major employer, the DCCCD:
- follows open search procedures which solicit the best available candidates for positions and which will provide a balanced workforce which reflects the ethnic composition of the adult workforce in Dallas County;
- involves those most directly affected by hiring decisions in the candidate review process; and
- seeks to assure that competent performers do not lose real compensation through inflation.
In its organizational culture, the DCCCD:
• places ultimate value on student success;
• applies the principles of continuous quality improvement to achieve student success; and
• uses technology not only to teach distant learners, but also to educate, train and retool both its students and its employees.

How do the colleges meet the educational needs of such a varied family? The answer is found in four categories of programs:

1. For the student working toward a bachelor’s or higher degree, the colleges offer a wide range of first-year and second-year courses which transfer to senior colleges and universities.

2. For the student seeking a meaningful job, the colleges offer one-year and two-year programs in technical and occupational fields.

3. For the employed person wishing to improve job skills or to move into a new job, the colleges offer credit and non-credit adult educational courses.

4. For the person who simply wants to make life a little more interesting, the colleges offer continuing education programs on cultural, civic and other topics.

Additional programs are available for the high school student, dropout and others with special needs. The colleges help each student design the educational program that best meets individual needs. Every student is offered intensive counseling to define goals and identify abilities. Continued guidance is available throughout the student’s college career in case goals and plans change. This emphasis on counseling, rare for some institutions, is routine at all District colleges.

District Responsibilities
To carry out the District philosophy, the colleges obviously must offer a wide range of programs and courses, including guidance services. These programs and courses must help each individual attain a high level of technical competence and a high level of cultural, intellectual and social development. In addition, high professional standards for the academic staff must be maintained within a framework prescribed by the Board of Trustees. At the same time, the program and organization of each college must make maximum use of faculty and facilities.

The colleges have a basic responsibility to provide educational and cultural leadership to the community. They must be sensitive to changing community needs and adapt readily to those needs. Individuals capable of continuing their educational development should be given the opportunity to improve their skills. Finally, to continue to meet its responsibilities in changing times, the college system must guard against stagnation. Creativity and flexibility are therefore fostered at the District level and on each campus.

League for Innovation
The Dallas County Community College District is a member of the League for Innovation in the Community College. The League is composed of 19 outstanding community college districts throughout the nation. Its purpose is to encourage innovative experimentation and the continuing development of the community college movement in America. Membership commits the District to research, evaluation and cooperation with other community college districts. The goal is to serve the community with the best educational program and the fullest use of resources.

Equal Educational And Employment Opportunity Policy
The Dallas County Community College District is committed to providing equal educational and employment opportunity regardless of sex, race, color, religion, age, national origin or disability. The District provides equal opportunity in accord with federal and state laws. Equal educational opportunity includes admission, recruitment, extracurricular programs and activities, access to course offerings, counseling and testing, financial aid, employment, health and insurance services and athletics. Existing administrative procedures of the College are used to handle student grievances. When a student believes a condition of the College is unfair or discriminatory, the student can appeal to the administrator in charge of that area. Appeals to a higher administrative authority are considered on the merits of the case.

Family Educational Rights And Privacy Act Of 1974
In compliance with the Family Educational Rights and Privacy Act of 1974, the College may release information classified as "directory information" to the general public without the written consent of the student. Directory information includes: (1) student name, (2) student address, (3) telephone number, (4) date and place of birth, (5) weight and height of members of athletic teams, (6) participation in officially recognized activities and sports, (7) dates of attendance, (8) educational institution most recently
attended and (9) other similar information, including major field of study and degrees and awards received.

A student may request that all or any part of the directory information be withheld from the public by giving written notice to the Registrar's Office during the first 12 class days of a fall or spring semester or the first four class days of a summer session. If no request is filed, directory information is released upon written inquiry. No telephone inquiries are acknowledged; all requests must be made in person. No transcript or academic record is released without written consent from the student, except as specified by law.

Student Consumer Information Services
Pursuant to the Educational Amendment of 1980, Public Law 96-374, the College provides all students with information about its academic programs and financial aid available to students.

Standard Of Conduct
The college student is considered a responsible adult. The student's enrollment indicates acceptance of the standards of conduct published in this catalog.

If you are unable to complete the course (or courses) for which you have registered, it is your responsibility to withdraw formally from the course (or courses). Failure to do so will result in your receiving a performance grade, usually an "F."

Accreditation
Details and procedures relating to the review of accreditation, approval, and various licensing documents are available through the administrative offices located on each campus.

II. IMPORTANT TERMS AND ABBREVIATIONS

Add: During any single semester, to enroll in additional course(s) after registration.

Admission: Formal application and acceptance as a credit student. A person wishing to enroll must complete an application, be accepted and receive a letter of acceptance from the Registrar before registering.

Audit: Enrollment in a credit course without receiving academic credit.

Catalog: The book containing course descriptions, certificate and associate degree requirements and general information.

Class schedule: A booklet which is published prior to each semester listing classes, sections, dates, times, instructors' names and meeting places. This booklet is used by students in preparing personal class schedules each semester.

Common Course Numbers: Some course descriptions also indicate a Common Course Number. Beginning in the Fall of 1994, the Common Course Number will become the official number of the course. This same Common Course Number is being used for this same course by a number of colleges throughout Texas to help students identify how a course will transfer. However, the lack of a Common Course Number does not necessarily mean a course will not transfer.

Common Learning: "General Education" as defined by the DCCCD. Common Learning courses contain learning experiences which provide knowledge and skills necessary for living well and functioning competently in rapidly-changing local; state, national and world communities.

Concurrent enrollment: (a) Enrollment by the same student in two different DCCCD colleges at the same time; (b) Enrollment by a high school senior in one of the DCCCD colleges while still enrolled in high school; (c) Enrollment by a student in two related courses in the same semester; (d) Enrollment in both a DCCCD institution and a four-year institution at the same time; (e) Enrollment in both credit and Continuing Education courses at the same time.

Course Load: The number of hours or courses in which a student is enrolled in any given semester.

Credit: The numerical value assigned to a course (see "CREDIT HOURS/SEMESTER HOURS").

Credit hours/semester hours: The unit of credit earned for course work. Each college course is worth a certain number of credit or semester hours. This number is determined by the type of class and the number of hours per week it meets. For example, a 3-credit-hour class (English, history, etc.) meets 3 hours per week during the fall/spring semesters; a 4-credit-hour class (science, languages, etc.) meets 6 hours per week. Check this catalog or the current class schedule for the value of any course you wish to take.

Credit/non-credit: Credit classes are those which award academic credit and may apply toward a degree. Non-credit classes do not apply toward a degree and are usually offered through Continuing Education.
DCCCD: Dallas County Community College District comprised of Brookhaven, Cedar Valley, Eastfield, El Centro, Mountain View, North Lake and Richland Colleges, plus the Bill J. Priest Institute for Economic Development.

Developmental studies courses: Courses which develop prerequisite skills in reading, writing and mathematics. Because of the nature of these courses, the credit earned will not count toward graduation requirements and may not be transferred to colleges outside the DCCCD.

Drop: The act of officially withdrawing from a particular course without penalty before a specified date. See the calendar at the first part of this catalog for “Last Day To Withdraw.” It is the student’s responsibility to drop a course by the date published.

Dual credit: Credit earned for both high school and college via concurrently enrolled high school students.

Electives: Courses which do not count toward a major but are required for most college degrees. Electives are selected for personal interest, skill development or to increase one’s knowledge or understanding. Consult with an advisor before deciding upon electives.

Fee: A charge which the college requires for services in addition to tuition charges.

Flexible-entry course: A course beginning and ending on dates which are different from the regular semester. This is also referred to as “flex-entry” or “short semester registration.” Consult the class schedule for further information.

Former student: One who has attended a DCCCD college in the past but not during the previous long semester.

Full-time student: A student who is enrolled for at least 12 credit hours during a semester or for 6 credit hours during a summer session.

GPA: Grade Point Average. Two different ways of computing a GPA are utilized. For further explanation, see catalog section entitled “Scholastic Standards.”

Grade points: See catalog section entitled “Scholastic Standards.”

Grades: See catalog section entitled “Scholastic Standards.”

Lab hours: The number of hours a student spends each week in a laboratory or other learning environment.

Lecture hours: The number of hours a student spends each week in a classroom other than a laboratory.

Major: The subject or field of study in which the student plans to specialize. For example, one “majors” in automotive technology, business, etc.

Part-time student: A student who is enrolled for less than 12 credit hours during a semester or less than 6 credit hours in a summer session.

Performance grade: A grade of A, B, C, D or F. This does not include the grades of W, I or WX. See catalog section on “Academic Information” for more on grades and grade point averages.

Prerequisite: A requirement which must be met BEFORE enrolling for a specific course. For example, the prerequisite for English 102 is the successful completion of English 101. A prerequisite may be another course (high school or college), an appropriate assessment score or permission of the instructor.

Probation: A warning for a student whose academic work or behavior is unsatisfactory. Students on academic probation may be suspended if their academic performance does not improve.

Registration: The official process for enrolling in courses. This involves selecting classes with the help of an advisor, completing all registration forms and paying fees. Check the class schedules for registration dates.

Section: A number indicating day/evening, hour, room number and name of instructor for a particular course. For example, the section number differentiates among the various classes of English 101.

Semester: A term denoting the length of time a student is enrolled in a specific course. For example, there are two long semesters (Fall and Spring) which last approximately 16 weeks. There are two summer sessions or “semesters” (Summer I and Summer II) which last approximately 5 1/2 weeks.

Skills for Living: Skills needed for living well with oneself, others and changing environments. Skills for Living are discussed and learned throughout the curriculum and provide basic goals for all Common Learning courses.

Student services fee: A fee for activities and services to students, which are considered separate and apart from the regularly scheduled academic functions of the college. Such activities and services include, but are not necessarily limited to, the following: health services; recreational activities; automobile parking privileges; intramural and intercollegiate athletics; artists and lecture series; cultural entertainment series; student publications; and/or student government.

TASP: Texas Academic Skills Program; see special section in this catalog about this testing program.

Technical/occupational courses: Courses which lead to a certificate or Associate of Applied Science Degree in a technical or occupational program. These courses are designed to aid the student in developing entry-level skills to be utilized in the job market. Consult an advisor regarding transferability if you plan to attend a four-year institution.

Tech-Prep: Tech-Prep is an educational program which prepares students for emerging, technologically-advanced careers.

Telecourses: Courses providing flexibility and convenience for students seeking college credit with minimum campus visits. Students watch the course television programs at home on regular broadcasts or cablecasts, complete the study guide and reading assignments, take tests on campus and attend optional discussion meetings. Instructors are available during regular office hours or via telephone when assistance is needed.

Transfer courses: Courses which are designed to transfer to other colleges and universities. Students need to consult with an advisor or counselor about the transferability of specific courses. Because a course will transfer does not mean it will apply toward a specific major or degree at a four-year college or university.
Transcript: An official copy of a student's academic record which can be obtained through the Admissions Office. An official transcript must have the seal of the college affixed and the signature of the Registrar.

Withdrawal: The act of ending enrollment in classes. A student withdrawing must go through a formal procedure. It is the student's responsibility to withdraw officially by the appropriate date. See the calendar in this catalog or the class schedule for the "Last Day to Withdraw."

III. ADMISSIONS AND REGISTRATION

General Admissions Policy

The College has an "open door" admissions policy. It insures that all persons who can profit from post-secondary education have an opportunity to enroll. The College requires certain assessment procedures for use in course placement prior to admission to a certificate or degree program, but the assessment is not used to determine admission.

Admission Requirements

Documentary evidence of Texas residency must be provided by all applicants claiming Texas residence and requesting resident tuition classification. This evidence must be submitted with the application for admission and must prove twelve (12) months of Texas residency immediately prior to the semester of enrollment. Failure to provide evidence will result in an applicant being classified as a non-resident for tuition/fee purposes. Contact the Admissions Office for specific information detailing required documentation.

It is recommended, although not required, that all prospective students have adequate immunization for diphtheria, rubella, rubella, mumps, tetanus and poliomyelitis. Health-related programs may require specific immunizations prior to admission. Information is provided at orientation sessions.

Beginning Freshmen

Students enrolling in college for the first time who fit one of the following categories may apply for admission:

a. Graduates from an accredited high school;
b. Graduates of an unaccredited high school who are 18 years of age or older;
c. Those who have earned a General Education Diploma (G.E.D.);
d. Those who are at least 18 years of age and who do not have a diploma or G.E.D. may be admitted by individual approval;
e. Those who are under the age of 18, are no longer enrolled in high school of any kind, and who do not have a diploma or G.E.D. may be admitted by one of the following:
   (1) Written recommendation of the principal or superintendent of the last high school attended, or
   (2) On the basis of completion of the college's assessment program with the results indicating the student has the ability to benefit from the college's curricular offerings.
   (3) On the basis of age and not having completed the equivalent of the junior year (12 units) in high school.
   (4) On the basis of G.E.D. or equivalent high school achievement.

f. Those who are under the age of 18, did not graduate from an accredited school, but who graduated from an unaccredited high school, or were schooled in a non-traditional setting (i.e., home-schooled) may be admitted by meeting all of the following conditions:
   (1) Written recommendation of the principal or superintendent of the last school attended, or on the basis of completion of the college's assessment program with the results indicating the student has the ability to benefit from the college's curricular offerings;
   (2) Present a notarized record of the high school equivalent work completed and the date of successful completion;
   (3) Agree to limitations on conditions of admission established by the college.

Students Enrolled In High School

Students still enrolled in high school may be admitted under the following conditions:

a. Students who have completed their junior year in an accredited high school may be admitted upon the written recommendation of the high school principal. Such students may take no more than two courses each semester.

b. Students who have not completed their junior year at an accredited high school may be admitted upon meeting all the following conditions:
   (1) The written recommendation of the high school principal;
   (2) Presentation of scores on the ACT/SAT/or college assessment program which indicate the student does not need remedial/developmental courses;
   (3) Approval of the Vice President of Instruction or designate. Such students may take no more than two courses each semester.

c. Students who are enrolled in non-accredited high schools or schooled in a non-traditional setting (i.e., home-schooled) and who have completed the equivalent of the junior year (16 units) in high school may be admitted by meeting all the following conditions:
   (1) Provide a notarized record of the school subjects completed (consistent with the Texas Education Agency minimum...
requirements); (2) Presentation of scores on the ACT/SAT/or college’s assessment program which indicate the student does not need remedial/developmental courses; and (3) Agree to limitations on conditions of admission. Students may take no more than two courses each semester.

d. Students who are enrolled in non-accredited high schools or schooled in a non-traditional setting (i.e., home-schooled) and have not completed the equivalent of the junior year (16 units) in high school may be admitted by meeting all the following conditions:

(1) Provide a notarized record of the school subjects completed (consistent with the Texas Education Agency minimum requirements);
(2) Presentation of scores on the ACT/SAT/or college’s assessment program which indicate the student does not need remedial/developmental courses;
(3) Agree to limitations on conditions of admission. Students may take no more than two courses each semester; and
(4) Approval of the Vice President of Instruction or designate.

Transfer Students

An applicant is eligible for admission for enrollment from an accredited collegiate institution as defined in the “Transfer of Credit” section of the catalog and must meet the following conditions:

a. Present a complete transcript bearing impression of seal and signature of college/university official of each institution attended. Transcripts, which must be received no later than the mid-semester date of the semester in which the student first enrolls, should include the previous admission record and evidence of honorable dismissal. Students not submitting transcripts prior to enrollment may be excluded from taking certain courses having prerequisites. Transcripts received become the permanent property of the college. Recipients of baccalaureate and/or graduate degrees from accredited colleges and universities may submit a copy of a college/university diploma in lieu of transcripts. A student transferring from another collegiate institution is not at liberty to disregard his/her collegiate record and apply as a beginning student. The college reserves the right to review academic credentials and/or transcripts from other higher education institutions for purposes of evaluating the acceptability of credits. An applicant who fails to report all accredited college/university course work will be subject to disciplinary action (including expulsion) and possible loss of credit for subsequent course work taken at the college.

b. Meet the minimum academic standards of the college. If an applicant on enforced scholastic withdrawal or suspension from another institution meets the minimum academic standards of the college, the applicant may petition for admission to the Admissions Committee of the college. Admission may be provisional and enrollment may be limited as to credit hours and course work.

c. Meet all TASP requirements as shown below:

(1) Transfers from other Texas public colleges/universities and who are not TASP exempt must present TASP scores if they have accumulated 9 or more college-level hours if they wish to enroll in any college-level coursework;
(2) Transfers from any college/university, who are not TASP exempt, and who have accumulated less than 9 college-credit hours must take TASP in the semester in which they accumulate their 9th college-level credit hour; and
(3) Transfers from private and/or out-of-state colleges/universities, who are not TASP exempt, and who have accumulated more than 9 college-level hours, must take TASP during their initial semester of enrollment.

Former Students

Students formerly enrolled in the Dallas County Community College District must submit an application for readmission to any District college. Students with unsettled financial debts or whose record is blocked for any other reason at any District college will not be allowed to register.

Academic Forgiveness Policy

In keeping with SB 1321, passed into legislation in 1993, any state resident may elect not to have the college utilize college credits on courses which are ten (10) years or older. Should the student elect this option, then no college courses or credits ten (10) years or older will be evaluated for credit. Students may not selectively choose courses ten (10) years or older to be utilized. This provision does not relieve students from notifying the college of attendance at previous institutions nor of the need to submit transcripts indicating all previous course work attempted. Students electing this option must notify the Office of the Registrar upon submission of admission application.

Non-Credit Students

Students enrolling for non-credit courses apply through the Office of Continuing Education.

International Students

The College is authorized under federal law to enroll non-immigrant students carrying valid visas. International students are admitted once all admissions requirements are complete. International students on F-1, J-1, M-1, B-1, B-2 visas must:

1. Contact the institution to request international student admission information;
2. Provide official TOEFL (Test of English as a Foreign Language) scores of 525 or higher to meet the English proficiency requirement and be considered for academic credit.
Students who meet one of the following criteria will be excused from the TOEFL requirement:

a. A graduate of an accredited U.S. college or university;
b. A native speaker of English from a country in which English is the primary language of the majority as documented by the Cambridge Encyclopedia of Languages. (See international admissions advisor for list of approved countries.)

Upon admission, all students are required to complete DCCCD assessment for academic advisement and placement. If adequate English proficiency is not demonstrated through this assessment, placement in additional English language courses will be required.

3. Show documented evidence of sufficient financial support for the academic year;
4. Provide written proof of negative tuberculin skin test or chest X-ray, diphtheria/tetanus immunizations taken within the last ten years, measles and rubella vaccines taken since January 1, 1968 and polio immunization if student is under nineteen years of age;
5. Submit official transcripts from each college or university previously attended with a minimum of "C" average;
6. Fulfill all admission requirements before the deadline designated by the College for international students and receive approval for admission from international admissions advisor.

Upon admission, students must present all original immigration documents including a valid visa (I-94 arrival/departure record) and unexpired passport to be copied and kept on file.

F-1 students must receive and secure the Form I-20AB from each new school attended. F-1 students must enroll in a minimum of 12 credit hours and maintain full-time enrollment during each regular semester in order to maintain visa status.

In addition to the requirements stated above, international students wishing to transfer from another U.S. institution must also:
1. Present documentation indicating valid non-immigrant status;
2. Provide official transcripts or documented proof verifying that the student is "in-status" and has been pursuing a full course of study during the term immediately preceding the transfer from the institution last authorized by INS for attendance.

International students are subject to the requirements of the Texas Academic Skills Program (TASP).

Evaluation of Foreign Credentials

Coursework completed at colleges and universities outside the United States will be considered for transfer on an individual basis. All foreign credentials submitted to the college must include the original plus a certified English translation.

An official evaluation of foreign credentials must be completed before transfer credit can be granted. The student is responsible for arranging for credential evaluation.

A list of acceptable professional evaluation services is available in the District Office of Student and International Programs or the Office of the College Registrar. The student is expected to pay all costs of translation and/or evaluation of foreign credentials.

Evaluations of foreign credentials completed by individuals and/or by professional evaluation services are subject to review and approval by the Director of Admissions and Registrar.

Application and Admissions Procedures

Applications may be submitted any time prior to registration. Early application is essential because the student’s place in registration is determined by the date of the applicant’s file; submitting admissions documents early also insures that there is adequate time for effective counseling and schedule planning. A later place in registration often means that the classes a student desires are already filled, as all District colleges conduct early registration in some form.

Applicants must submit the following material to the Admissions Office to have a complete admissions file:

a. An official application, available from the Admissions Office;
   b. Test Scores: Students who have ACT, SAT and/or TASP test scores taken within the last five (5) years are strongly urged to submit those scores to the college.
   c. Official Transcripts: The following MUST be submitted—
      (1) a beginning student is required to furnish a transcript of the student’s high school record; (2) a college transfer student is required to furnish official transcripts of all college work attempted. The College accrediting agency requires transcripts, and the College uses them in program advisement. IT IS ABSOLUTELY ESSENTIAL THAT TRANSFER STUDENTS SUBMIT OFFICIAL TRANSCRIPTS FROM PREVIOUS COLLEGES ATTENDED. If transcripts are not submitted, future enrollment of the student will be blocked and a transcript of work attempted at any DCCCD institution will not be released.
      An official transcript must bear the institution’s embossed seal and signature of the Registrar. Although transcripts sent electronically over the Electronic Transcript Network will be considered official, a photocopy or facsimile (FAX) is not an official transcript.
   d. Students entering with academic deficiencies or low assessment scores may be admitted on probation and will be required to enroll in developmental or other programs designated by the college.

All applicants may select only those classes available when they register. Students may enroll in certain courses at times other than regular semester registration. See the Flexible Entry courses section in this catalog and contact the Registrar’s Office for additional information.
Reciprocal Tuition Agreement

The following Associate of Applied Science Degrees offered by the Dallas County Community College District may be taken by Tarrant County residents at in-county tuition rates:

PROGRAM | CAMPUS
----------|--------
Apparel Design | ECC
Automotive Technology | BHC
Dealership-sponsored Technician | SHC
Service Technician | MVC
Aviation Technology | MVC
Air Cargo | BHC
Aircraft Dispatcher | MVC
Airline Marketing | MVC
Career Pilot | MVC
Fixed Base Operations | MVC
Avionics | MVC
Commercial Music | CVC
Construction Technology | NLC
Diagnostic Medical | ECC
Sonography | MVC
Educational Personnel | RLC
Electrical Technology | NLC
Electronic Telecommunications | EFC, RLC
Electronics Computer Technology | EFC, MVC, NLC
Automated Manufacturing | MVC
Engineering Technology | BHC, RLC
Computer Integrated Manufacturing | RLC
Electronics Engineering | BHC, RLC
Industrial Technology | BHC
Food & Hospitality Service | ECC
Interior Design | ECC
Invasive Cardiovascular Technology | ECC
Mortgage Banking | NLC
Pattern Design | ECC
Physical Fitness Technology | NLC
Plumbing and Pipelining | NLC
Social Work Associate | EFC
Substance Abuse Counseling | EFC
Veterinary Technology | CVC
Video & Film Technology | NLC
Visual Communications | BHC
Vocational Nursing | ECC

Construction Technology programs offered by the DCCCD may be taken by residents of Collin County, Cooke County, Grayson County, Hill County and Weatherford Colleges at in-county tuition rates.

Tuition

Tuition is charged on a sliding scale according to the number of credit hours for which a student is enrolled and the student’s place of legal residence. Tuition is subject to change without notice by the Board of Trustees or the Texas Legislature.

Additional Fees

Additional fees may be assessed as new programs are developed with special laboratory costs. These fees will always be kept to a practical minimum. A graduation fee is not assessed, but each student must pay for cap and gown rental.

Concurrent Enrollment and Fees

Students planning to enroll at more than one DCCCD college should complete applications for each DCCCD college they wish to attend. Also, all fees must be paid at the first college prior to enrolling at a second college.

Special Fees And Charges

Technology Fee: There will be a student technology fee of $10.00 assessed for each credit student each semester.

Registration Fee (Non-refundable): There will be a $5 non-refundable Registration Fee assessed each semester.

Schedule Change Fee: A schedule change fee will be charged for any form of “drop” from a class. The fee is $10 per transaction during early registration and $15 per transaction beginning on the first day of regular registration. No fee will be applied after the appropriate official reporting date of the regular semester or summer session. A schedule change fee will not be assessed on “add only” transactions.

Laboratory Fee: $4 to $12 a semester (per lab).

Class Fee: Variable special costs of course not otherwise defined as “Laboratory Fee.” Rental costs of specialized equipment and off-campus facilities are examples of “class fees.”

Physical Education Activity Fee: $4 a semester.

Dance Activity Fee: $8 a semester.

Bowling Class Fee: Student pays cost of lane rental.

Private Music Lesson Fee: $45 for one hour per week (maximum) for one course, $25 for one half hour per week.

Audit Fee: The charge for auditing a course is the same as if the course were taken for credit.

Credit by Examination: A fee will be charged for each examination. This fee can change without prior notice.

Refund Policy

The refund policy of the District is based upon state regulations and on the fact that student tuition and fees provide only a fraction of the cost of offering educational opportunities. When students enroll in a class, they reserve places which cannot be made available to other students.

TUITION AND STUDENT SUPPORT FEES

Fall and Spring Sessions

NOTE: A STUDENT REGISTRATION FEE OF $5.00 WILL BE INCLUDED IN THE TUITION FOR EACH CREDIT STUDENT EACH SEMESTER. THIS FEE IS NON-REFUNDABLE UNLESS A CLASS IS CANCELLED OR INSTITUTIONAL ERROR IS MADE.

**TUITION REQUIREMENTS FOR LONG TERM:**

1. Dallas County Residents: $16.00 per credit unit through ten credit units and $14.00 for each additional credit unit over ten credit units; minimum of $48.00.
2. Out-of-District Residents: $35.00 per credit unit through ten credit units and $14.00 for each additional credit unit over ten credit units; minimum of $105.00.
3. Out-of-State Residents: $65.00 per credit unit; minimum of $200.00.
4. Out-of-Country Residents: $85.00 per credit unit; minimum of $200.00.

The following definitions are brief guidelines only; please discuss any questions regarding proper tuition classification with the admissions office personnel.

"Out-of-State Residents" are defined to be students of less than 18 years of age, living away from their family and whose family resides in another state or whose family has not resided in Texas for twelve months immediately preceding the date of registration; or students 18 years of age or older who have not been residents of the state twelve months subsequent to their 18th birthdays or for the twelve months immediately preceding the date of registration.

The description of resident and non-resident status contained above are generally applicable, but the determination of residence status for tuition purposes is specifically governed by the provisions of V.T.C.A. Education Code, Section 4.052, the rules and regulations of the Coordinating Board, Texas College and University System, and judicial and/or administrative interpretations thereof. In the event of conflict between the above-noted descriptions and the latter authorities, the latter shall govern.

A foreign national on any other than a permanent resident visa must pay out-of-country tuition and fees.

The tuition schedule above is subject to change without notice by action of the District Board of Trustees or the State of Texas.

By law (TEC section 4, subchapter B, chapter 54, sec. 54.052, 1985), the STATE OF TEXAS requires the OATH OF RESIDENCY be signed.

The law states that if the institution later determines that the individual was falsely registered as a resident at the time of the individual's registration, the individual shall pay to the institution the amount the individual should have paid as a non-resident. If the individual fails to make a timely payment as required, the individual is not eligible for a waiver or to receive a transcript or to receive credit for courses taken during the time the individual was falsely registered as a resident student.

The OATH OF RESIDENCY IS NOT ACCEPTABLE IN LIEU OF DOCUMENTARY EVIDENCE.

If you are an out-of-state resident or an out-of-country student AND if you (or the parent on whom you are dependent) own property subject to ad valorem tax by the College District, you may qualify for a waiver of tuition to the In-District rate. Please check with the college Admissions Office for additional details. A foreign national is not eligible for the waiver unless under a permanent resident visa.
until they officially drop the class. In addition, the original enrollment of students represents a sizable cost to the District regardless of continuance in that class. Therefore, a refund is made only under the following conditions:

1. Official withdrawal:
   Students who officially withdraw from the institution shall have their tuition and mandatory fees refunded according to the following schedule:

   **Fall and Spring Semesters**
   - Prior to the first class day of the semester: 100%
   - During the first five class days of the semester: 80%
   - During the second five class days of the semester: 70%
   - During the third five class days of the semester: 50%
   - During the fourth five class days of the semester: 25%
   - After the fourth five class days of the semester: NONE

   **Summer Semesters**
   - Prior to the first class day of the semester: 100%
   - During the first, second or third class day of the semester: 80%
   - During the fourth, fifth or sixth class day of the semester: 50%
   - After the sixth class day of the semester: NONE

2. Official drop of a course or courses:
   Students who reduce their semester credit hour load by officially dropping a course or courses and remain enrolled at the institution will have applicable tuition and fees refunded according to the following schedule:

   **Regular Session**
   - During the first twelve class days of the semester: 100%
   - After the twelfth class day: NONE

   **Summer Session**
   - During the first four class days: 100%
   - After the fourth class day: NONE

   *Registration and any applicable Schedule Change Fees are non-refundable even if one is due a refund.

   The federal law requires that the college refund unearned tuition and fees to all first-time students receiving financial aid who have not completed 60% of the enrollment period for which they have been charged.

   The calculated refund will be returned to the federal funds in the following order:
   1. Federal Family Educational Loan Programs
   2. Federal Direct Loan Programs
   3. Federal Pell Grant Program
   4. Federal SEOG Program
   5. Other Title IV programs
   6. Student

   For additional information about this pro-rata refund, contact the Financial Aid Office.

   The first “class day” is to be counted as the officially published date when the semester begins. The first “class day” means the first day ALL classes begin for the semester, not the first day a student’s class is scheduled to meet. No refunds are issued after the last class day of each semester.

   Separate refund schedules may be established for optional fees such as intercollegiate athletics, cultural entertainment, parking, etc.

   Tuition and fees paid directly to the institution by a sponsor, donor or scholarship shall be refunded to the source rather than directly to the student.

3. A student dropping a portion of his or her class load after the twelfth class day of a fall or spring semester (fourth class day of a summer session) is not entitled to a refund unless approved by the Refund Petitions Committee.

   a. Refund petitions, accompanied by an explanation of any existing circumstances, shall be submitted to the Refund Petitions Committee on the campus.

   b. If the petition is approved by the committee, the student shall be notified and shall receive a refund of tuition and fees according to the appropriate schedules in this policy.

4. Requests for refunds will not be accepted after the end of the semester or summer session for which the refund is sought. Cash refunds are not issued. Refund checks are mailed to the student at the address on file in the Admissions/Registrar’s Office.

5. Mandatory fees shall include, but not be limited to, registration fee, student activity fees, laboratory fees, private lesson fees and physical education activity fees.

6. Flexible entry courses are to be handled as regular semester-length courses. The refund schedule will be prorated accordingly.

7. Refund checks normally require a minimum of one month from date of approval for processing.

8. The college academic calendar and the class schedule shall specify the last day for withdrawal with refund.

**Returned Checks**

Checks returned to the Business Office must be paid with cash or a cashier’s check within the time limits prescribed by the notification letter. An additional fee is added for returned checks. If a check for tuition is returned by the bank for any reason, including stop payment, the College Business Office may submit the check to the Justice of the Peace for appropriate legal action and collection. The Vice President of Student Development may also implement disciplinary procedures. Students may be dropped from courses due to returned checks.
Assessment and Advisement Procedures

Assessment is the process of evaluating readiness for certain college courses and the probabilities for success in those courses. The College has an assessment and advisement program for entering students which is a required part of the enrollment process.

The assessment program includes the completion of a questionnaire which documents information on career and work plans, previous academic achievement and other relevant information. Assessment also includes an examination of individual skill levels in reading, writing and mathematics. Information on skills may come from ACT, SAT, previous college-level work or from scores on the standardized tests administered free of charge by the College. Students who have taken TASP also need their TASP scores.

Because of the importance of such information, students should have official copies of ACT, SAT or TASP scores and transcripts mailed to the Admissions Office or bring them personally at the time of application. It is the responsibility of the student to have these available at the time of enrollment.

The assessment program provides information needed in advisement. Academic advisement sessions provide a framework for informed decision-making on the part of students and advisors. Information on a student's skills, abilities, career plans, educational background, life experiences and motivation is important in helping the student and advisor make selections from the many educational options available. However, the College reserves the right to insist students enroll in the appropriate remediation should assessment results indicate a need for the improvement of skills in reading, writing and/or mathematics.

Details of assessment and advisement procedures are available through the College Counseling/Advisement Center, International Center or in the "Schedule of Classes" each semester.

Students who did not have at least 3 college-level credit hours prior to the 1989 Fall Semester must take the TASP (Texas Academic Skills Program) test either prior to, or during, their semester of enrollment in their 9th college-level credit hour. Such students must report TASP scores prior to their next semester of enrollment. Should students fail either the reading, writing or mathematics section of TASP, they will be required, as mandated by Texas state law, to participate in the appropriate remediation continuously until the failed section is passed.

Change of Schedule

Students should be careful in registering to schedule courses only for the days and hours they can attend. Students requesting class changes should contact the Registrar's Office during the time specified in the current class schedule. A schedule change fee will be charged for any form of "drop" from a class, except in the case of classes canceled by the college. No change is complete until it has been processed by the Registrar's Office.

Non-Credit Student (Audit)

A person who meets the admission requirements of the District may, with the consent of the division chairperson and instructor, enroll in a credit course as a non-credit student. A non-credit student may attend class, but may not receive a final grade nor credit for a course. An instructor may give an examination if he or she determines the examination is an essential component of the learning process. The fee in a credit course is the same for a non-credit student as for a credit student, except that a student service fee may not be charged.

Acceptance of Credit in Transfer

Credit for courses in which a passing grade (D or better) has been earned may be transferred to the College from colleges and universities accredited through one of the following associations:

• Middle States Association of College and Schools/Commission on Higher Education
• New England Association of Schools and Colleges
• North Central Association of Colleges and Schools
• Northwest Association of Colleges and Schools
• Southern Association of Colleges and Schools/Commission on Colleges
• Western Associations of Schools and Colleges/Accrediting Commission for Senior Colleges
• Western Association of Schools and Colleges/Accrediting Commission for Community and Junior Colleges

It is the policy of the College not to transfer credits received from any United States institution not so accredited except where signed agreements between the college and other institutions exist. However, students who have gained proficiency through completion of coursework from non-accredited institutions may receive college credit through credit-by-examination/credit by experience.

Course-by-course evaluation will be completed by the registrar or other appropriate college personnel as needed for degree or program planning. Individual courses transferred will not be posted to the college's student record. Official transcripts from all higher education institutions must be on file in the Registrar's Office.
Students are referred to the section found elsewhere in this catalog entitled "Academic Forgiveness Policy."

Credits earned through other education programs, such as credit-by-examination, military experience, the U.S. Armed Forces Institute, are reviewed by the Registrar and credit is granted, if applicable.

Official transcripts from all higher education institutions and a request for a degree plan evaluation must be on file before the evaluation can be accomplished in the Registrar's Office. Any questions concerning the validity of the document(s) will result in the need to have an official transcript(s) sent directly from the other institution(s) to the Registrar's Office. Transfer students admitted with a grade point deficiency cannot graduate until the deficiency is cleared by earning additional grade points.

Address Changes And Social Security Number

Each student has the responsibility to inform the Registrar's Office of changes in name or address. Each applicant for admission is asked to furnish a Social Security number. This number doubles as a student identification number and insures accuracy of student records. If a student does not have a Social Security number, or does not choose to use the Social Security number, the College will assign a student identification number.

TASP (Texas Academic Skills Program) Test

The Texas Academic Skills Program (TASP) is required by state law to insure that students enrolled in Texas public colleges possess the academic skills needed to perform effectively in college-level coursework. TASP includes a testing component designed to identify and provide diagnostic information about the reading, mathematics and writing skills of students.

Students who entered the DCCCD Fall, 1989, or thereafter, must take the TASP test prior to accumulating, or during the semester of enrollment in, 9 hours of college credit, and must report TASP scores prior to their next DCCCD enrollment. Students who have had at least 3 hours of college-level credit prior to Fall, 1989 are exempt from the TASP requirement. Students enrolled in certain DCCCD Certificate programs may be waived from the TASP requirement.

Deaf and blind students are TASP-exempt, as are students whose composite Enhanced ACT is 29 or higher with individual math and English scores of at least 27; or whose SAT composite score is at least 1200 with Verbal and Math scores each of at least 550; or with TAAS scores of at least 1800 on each of the three sections. (ACT/SAT scores must have been taken within the last five (5) years; TAAS scores must have been within the last three (3) years and are valid for TASP exemption ONLY if testing occurred in grades 10, 11 or 12.)

Students transferring with hours earned at other Texas public institutions must take TASP before or during the semester in which they earn nine (9) college-level hours; in other words, the hours earned at other Texas public institutions are used to compute the nine hours. Students transferring from private, out-of-state institutions must take TASP before or during the semester in which they have earned nine college-level hours in a Texas public college/university; in other words, while public hours count toward the nine hours, private/out-of-state hours do not count toward this limit.

Students who earned between nine and 14 college-level hours in the DCCCD between Fall, 1989 and Summer II, 1993 AND who have not attended a Texas public college since that time must take TASP during their next semester of enrollment in the DCCCD. While these students entered when state TASP rules allowed DCCCD students to take up to 15 college-level hours before they had to take TASP, these state regulations have been changed.

TASP scores may be utilized in place of the DCCCD Assessment Program, except in math. Students scoring below the state-determined level must continuously participate in appropriate remediation until such time as the TASP Test is passed. A student who wishes to withdraw from a mandated remediation course must drop all college-level courses. The successful completion of TASP may be a prerequisite to enrollment in some courses. In addition, course placement also may be based on the results of the DCCCD Assessment.

DCCCD students must pass all sections of TASP prior to being awarded the Associate of Arts and Sciences Degree, the Associate of Arts and Sciences in Business Degree, the Associate of College/University Transfer or the Associate of Applied Science Degree. Students planning to transfer must pass all TASP sections before enrolling in upper division (junior or senior level) courses.

For more complete information on TASP, contact the Counseling Center; to obtain a copy of the TASP Registration Bulletin, contact the Testing/Appraisal Center. Students must preregister to take TASP. All test fees are to be paid by the student although financial aid may be available to offset the cost for eligible students.
IV. ACADEMIC INFORMATION

Scholastic Standards: Grades And
Grade Point Average
Final grades are reported for each student for every course according to the following grading system.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Interpretation</th>
<th>Grade Point Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4 points</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3 points</td>
</tr>
<tr>
<td>C</td>
<td>Average</td>
<td>2 points</td>
</tr>
<tr>
<td>D</td>
<td>Poor</td>
<td>1 point</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0 points</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
<td>Not Computed</td>
</tr>
<tr>
<td>WX</td>
<td>Progress; re-enrollment required</td>
<td>Not Computed</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawn</td>
<td>Not Computed</td>
</tr>
<tr>
<td>CR</td>
<td>Credit</td>
<td>Not Computed</td>
</tr>
</tbody>
</table>

Grade points earned for each course are determined by multiplying the number of points for each grade by the number of credit hours the course carries. For example, a student who takes a three hour course and earns an "A" accumulates 12 grade points for that course. A student's grade point average is computed by adding the total grade point values for all courses and dividing by the number of credit hours attempted during the same period. For example, a student who takes the following courses and earns the following grades has a grade point average 2.93:

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>2-hour course</td>
<td>A</td>
<td>8</td>
</tr>
<tr>
<td>3-hour course</td>
<td>B</td>
<td>9</td>
</tr>
<tr>
<td>4-hour course</td>
<td>B</td>
<td>12</td>
</tr>
<tr>
<td>3-hour course</td>
<td>C</td>
<td>6</td>
</tr>
<tr>
<td>Total Hours:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>35</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Total Credit</td>
<td></td>
<td></td>
</tr>
<tr>
<td>12</td>
<td></td>
<td></td>
</tr>
<tr>
<td>35</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Grade point average is computed by adding the total grade points for all courses and dividing by the number of credit hours attempted during the same period. For example, a student who takes the following courses and earns the following grades has a grade point average 2.93:

- The student's transcript and grade reports will indicate two different GPA's. GPA.(1) is based upon all DCCCD courses in which the student received a performance grade of A-F. GPA.(1) is utilized to determine Suspension/Probation status, athletic participation eligibility, and financial aid eligibility. GPA.(2) is based upon grade points earned in all DCCCD courses with the exception of those courses numbered 099 and below, Art 199, College Learning Skills 100, Developmental Communications 120, Human Development 100 and 110, Library Skills 101, Music 199, and Theatre 199 in which a student received a performance grade of A-F. GPA.(2) is utilized to determine eligibility for graduation, honor rolls, and eligibility in Who's Who in American Junior Colleges. It is also the GPA which may be considered by four-year institutions when a student transfers.

For repeated courses, only the latest grade earned is included in cumulative grade point averages, even if the latest grade is lower than a preceding grade. However, transcripts do indicate all work attempted and completed in the District. When a student withdraws from a course being repeated, the cumulative grade point average is calculated by using the immediately preceding grade in the same course.

If a student believes an error has been made in determining a course grade, the instructor or appropriate division office should be contacted as soon as possible. Requests for grade changes will not be considered later than two years following the last day of the semester for which the grade was assigned.

An incomplete grade "I" may be given when an unforeseen emergency prevents a student from completing the work in a course. The "I" must be converted to a performance grade (A-F) within 90 days after the first day of classes in the subsequent regular semester. If the work is not completed after 90 days, the "I" is converted to a performance grade.

An Incomplete Contract is used to convert an incomplete grade to a performance grade and states the requirements for the satisfactory completion of the course. The Incomplete Contract must be agreed upon and signed by the instructor, the student and the division chairperson and submitted with the final grade report. When an Incomplete Contract must be submitted without the student's signature, the instructor must include a statement indicating that the student is aware of and in agreement with the contract.

Students who do not complete course requirements may receive a "WX" grade when the instructor determines that reasonable progress has been made and, when the student can reenroll for course completion prior to the certification date in the next regular semester. If the student does not complete the course requirements, the "WX" is converted to a performance grade.

Acceptable Scholastic Performance
College work is measured in terms of credit hours. The number of credit hours offered for each course is given with the course description.

Acceptable scholastic performance is the maintenance of a grade point average, based on GPA.(1), of 2.0 (on a 4.0 scale) or better. Students may not be graduated from any degree or certificate program unless they have a cumulative grade point average of 2.0, based on GPA.(2), or better. Grade points and hours earned in courses numbered 99 and below, Art 199, College Learning Skills 100, Developmental Communications 120, Human Development 100, Human Development 110, Library Skills 101, Music 199, and Theatre 199 cannot be used to meet graduation requirements.

Recommended Academic Load
The maximum academic load is 18 credit hours of course work per semester or five classes plus physical education. Students must receive permission of the appropriate college official to carry a heavier load. Employed students carrying a full load (12 credit hours or more)
should not work more than 20 hours per week. Students working more hours should reduce their academic load proportionately. The recommended load limit for day or evening students who are employed full-time is six credit hours. The recommended load limit in a six-week summer session is six credit hours. A total of 14 credits is the maximum that may be earned in any 12-week summer period.

Classification Of Students

Freshman:
A student who has completed fewer than 30 credit hours.

Sophomore:
A student who has completed 30 or more credit hours.

Part-time:
A student carrying fewer than 12 credit hours in a Fall or Spring semester.

Full-time:
A student carrying 12 or more credit hours in a Fall or Spring semester.

Class Attendance

Students are expected to attend regularly all classes in which they are enrolled. Students have the responsibility to attend class and to consult with the instructor when an absence occurs.

Instructors are responsible for describing attendance policies and procedures to all students enrolled in their classes. If a student is unable to complete a course (or courses) in which he/she is registered, it is the student's responsibility to withdraw from the course by the appropriate date. (The date is published in the academic calendar each year and in each semester's class schedule.) If the student does not withdraw, he/she will receive a performance grade, usually a grade of "F".

Students who are absent from class for the observance of a religious holiday may take an examination or complete an assignment scheduled for that day within a reasonable time after the absence if, not later than the 15th day of the semester, the student notified the instructor(s) that the student would be absent for a religious holiday. Sec. 51.911 Tx. Educ. Code.

Dropping A Course Or Withdrawing From College

To drop a class or withdraw from the College, students must obtain a drop or withdrawal form and follow the prescribed procedure. It is the student's responsibility to drop or withdraw.

Failure to do so will result in receiving a performance grade, usually a grade of "F." Should circumstances prevent a student from appearing in person to withdraw from the College, the student may withdraw by mail by writing to the Registrar. A drop/withdrawal request by mail must be received in the Registrar's Office by the semester deadline. No drop or withdrawal requests are accepted by telephone. Students who drop a class or withdraw from the College before the semester deadline receive a "W" (Withdraw) in each class dropped. The deadline for receiving a "W" is indicated on the academic calendar and the current class schedule. See "Refund Policy" for possible eligibility for a refund.

STUDENTS WHO WITHDRAW FROM A MANDATED REMEDIATION COURSE AS A RESULT OF TASP PERFORMANCE MUST ALSO WITHDRAW FROM ALL COLLEGE-LEVEL COURSES.

Academic Recognition

Full-time students who complete at least 12 hours of college-level credit and earn a grade point average of 3.5-3.79 are listed on the Vice President's Honor Roll. Full-time students who complete at least 12 hours of college-level credit and average 3.8-4.0 are placed on the President's Honor Roll. Part-time students who take 6-11 college-level credit hours and maintain a 3.5 or higher grade point average are placed on the Academic Recognition List. GPA(2) is utilized to determine honor roll inclusion.

Scholastic Probation, Scholastic Suspension and Academic Dismissal

Scholastic Probation

Students who have completed a total of nine(9) credit hours with a performance grade of A, B, C, D or F and who have a grade point average based on GPA (1) of less than 2.00 will be placed on Scholastic Probation. A student on Scholastic Probation may re-enroll at the College if a minimum 2.00 grade point average based on GPA (1) is earned in each semester or summer term.

If a student on scholastic probation fails to meet the above requirements in a given semester or summer term, the student will be placed on Scholastic Suspension and will not be allowed to register.

Scholastic Suspension

A student on Scholastic Probation who is ineligible to re-enroll shall be suspended from the college for not less than one long term. After students have served their first suspension, they may continue to re-enroll with the completion of a semester/summer term GPA of 2.00 or greater. Students who do not meet the required standards and be placed on continued Scholastic Suspension for a second time, they will be suspended for a period of 12 months. Prior to application for readmission, a student must present to the Admissions Committee a written explanation of how he/she plans to improve his/her academic standing. The student will be readmitted on continued Scholastic Probation, and may have his/her coursework and total hours limited.
Academic Dismissal

Students readmitted after having been on Scholastic Suspension a second time, and who subsequently fail to achieve a GPA (1) of 2.0 or higher, shall be placed on Academic Dismissal. After a 12-month period of Academic Dismissal, these students may be recommended for readmission only by the vice president of Student Development or designate.

Students are responsible for knowing if they have passed the minimum standards for continuing in the College. Students who are on Academic Suspension or Academic Dismissal from other institutions are ineligible for admission to the College unless they have met the academic standards required of students at the college.

Grade Reports

A grade report is mailed to the address on record of enrollment to each student at the end of each semester. The grade report contains a listing of all credit courses attempted within the DCCCD, as well as information on academic standing. Interim grade reports are issued for other-than-semester length classes.

DCCCD Transcript of Credit

The DCCCD transcript of credit is a chronological listing of college credit courses attempted within the seven college system of the DCCCD. The transcript is official if the document is embossed with the college seal and imprinted with the signature of the Registrar. It includes both GPA(1) and GPA(2).

Upon written request of the student, the Registrar’s Office will send an official transcript to the individual student or to any college or agency named. There is a minimum of two working days required for processing. A transcript will be released only if all obligations to the DCCCD have been settled.

The Electronic Transcript Network permits member colleges to send transcripts to one another through a computer network. Member colleges prefer to receive transcripts in this fashion rather than through the generation of an “official transcript.” Transfer credits from other institutions are not recorded on DCCCD transcripts. If a student desires a transcript of work completed at another institution, the student should secure it from that institution.

Degree Requirements

The College confers the Associate of Arts and Sciences Degree, the Associate of Arts and Sciences in Business Degree, the Associate of Applied Science Degree, the Associate of College/University Transfer Degree and certificates upon students who have completed all requirements for graduation. Each degree candidate must earn the last 25% of the hours for a degree (15 hours for a 60-hour degree, 18 hours for a 72-hour degree, etc.) as a resident student in the DCCCD, or accrue 45 hours in residence in the DCCCD. At least 25% of the credit hours required for graduation must be earned through instruction (not credit-by-examination) by the college granting the degree.

Students seeking certificates or associate degrees must submit official transcripts of all previous work attempted before a certificate or degree will be awarded. Failure to submit official transcripts directly from the institutions attended will result in the degree or certificate not being awarded.

The degree must be awarded by the college which offers the program in which the student majored. If two or more schools offer the program, the student is granted the degree where the majority of the hours were taken, but at least 25% of the credit hours required for graduation must be earned at the college granting the degree. Correspondence work must be approved by the Registrar for graduation credit.

Students entering the DCCCD Fall 1989, or thereafter, must successfully complete all sections of the TASP (Texas Academic Skills Program) Test before a degree can be awarded. See the TASP catalog section for additional information.

The Common Learning Curriculum

The Common Learning curriculum is composed of required courses and clusters of courses designed to advance the learning which is common to all candidates for a degree. Therefore, the courses students take toward a DCCCD degree are designed around a series of skills to be achieved in order to be a successful, contributing member of society. The courses required in DCCCD degrees should equip students to learn to live better with themselves, others and environments, as well as to learn to live as producers, consumers and as members within a community. It is also expected that students will learn to live more creatively, become more proficient in understanding future trends and how those trends impact their own lives, and how to develop effective learning skills. While not each of the skills will be found in each and every course within a DCCCD degree, the faculty believe that by taking those courses required for a degree program, students will encounter many of the above-named skills.

The Core Curriculum consists of English 101, Speech Communication 101, and a math course numbered 100 or above. A grade of “C” or better in each of the three courses is required for graduation. Students are strongly advised to enroll in these courses in the first two semesters of study because skills necessary for success in other courses are taught in Core courses.

Common Learning course requirements beyond the Core are designed to help ensure that all graduates have general knowledge as well as the specific knowledge ordinarily associated with a major course of study or a technical program. Candidates for the Associate of Arts and Sciences must take 34-36 hours in approved Common Learning courses beyond the Core. Candidates for the Associate of Applied Science must choose six to eight hours of course work from two of the following clusters: Laboratory Science, Behavioral/Social Science, Business, and Humanities.
Associate of Arts and Sciences Degree

This degree is primarily designed as the first two years of a four-year degree. Students desiring to transfer should seek this degree after consultation with the college counseling/advising center.

Students must have a minimum of 61 credit hours, a grade of "C" or better in each of the three Core courses (English 101, Speech Communication 101, and math course numbered 100 or above), a grade point average of at least "C" (2.0), based on GPA, and a passing score on all sections of TASP (if students who are not TASP exempt) to receive the Associate of Arts and Sciences Degree. These 61 hours may be earned at any district college and must include:

- English 101 (3 credit hours) [ A CORE COURSE REQUIREMENT; A GRADE OF "C" OR BETTER MUST BE EARNED]
- Speech Communication 101 (3 credit hours) [A CORE COURSE REQUIREMENT; A GRADE OF "C" OR BETTER MUST BE EARNED]
- A math course numbered 100 or above (3 credit hours) [ A CORE COURSE REQUIREMENT; A GRADE OF "C" OR BETTER MUST BE EARNED]
- English 102 (3 credit hours).
- A sophomore literature course (3 credit hours) to be chosen from English 201, 202, 203, 204, 205, 206, 215, or 216 (English 209 and English 210 do not meet the sophomore literature requirements.)
- Laboratory Science (8 credit hours) to be chosen from Astronomy, Biology, Chemistry, Geology, Physical Science, OR Physics. (For Astronomy to meet this requirement, the student must successfully complete Astronomy 101 in combination with 103, and Astronomy 102 in combination with 104 OR successfully complete Astronomy 111-112.)
- Humanities (3 credit hours) to be chosen from: Art 104, a foreign language, Humanities 101, English 201, 202, 203, 204, 205, 206, 215 or 216, Music 104, Philosophy 101 OR Theatre 101.
- Physical Education activity course (1 credit hour) (NOTE: Neither chronological age nor military service are acceptable excuses for waiving the physical education requirement.)
- Behavioral Science (3 credit hours) to be chosen from Anthropology, Human Development, Psychology, OR Sociology
- History 101 AND 102 (6 credit hours) (NOTE: Only three credit hours of History may be earned through credit-by-examination.)
- Government 201 AND 202 (6 credit hours) (NOTE: Only three credit hours of Government may be earned through credit-by-examination.)
- Business (3 credit hours) to be chosen from Business, Accounting, Management 136, Computer Information Systems, OR Economics. Cooperative Work Experience courses may not be used to meet Common Learning requirements
- Electives (16 - 18 credit hours)

A maximum of four physical education activity hours may be counted as credit toward requirements for graduation. The GPA for graduation is based on the credit earned for all DCCCD work and all credit which is transferred from other institutions. The following courses will not count toward graduation nor the GPA for graduation: Courses numbered 099 and below, Art 199, College Learning Skills 100, Developmental Communications 120, Human Development 100, Human Development 110, Music 199 and Theatre 199.

All students planning to transfer to a four-year institution may complete their four semester requirements in physical education during their freshman and sophomore years. Students are urged to consult the catalogs of the institutions to which they may transfer for their special requirements. These catalogs should be used by students and advisors in planning programs.

Associate of Arts and Sciences Degree with major in Business

This degree is available only at Brookhaven, Eastfield, El Centro, Mountain View, North Lake and Richland Colleges.

This degree is designed to meet the needs of students who plan to major in business but who are unsure about where they wish to transfer in order to complete a baccalaureate in a business field. This is a general plan and may or may not satisfy the requirements of a specific transfer university. Students planning to transfer to a four-year institution must consult that institution's catalog to
insure selected courses will both transfer and apply toward the intended major. Once students have decided on the specific four-year institution to which they plan to transfer and a specific major within business, they are strongly encouraged to utilize the transfer degree plan which is customized to meet specific requirements of the selected four-year institution. Such students may also wish to take advantage of the DCCCD Transfer Guarantee Program. Transfer information materials are available in the Counseling/Advisement Center.

Students must have a minimum of 61 credit hours, a grade of "C" or better in each of the three core courses (English 101, Speech Communications 101 and Math 111), a grade average of at least "C" (2.0) based on GPA (2) and a passing score on all sections of TASP (if students are not TASP exempt) to receive this degree. These 61 hours must include:

- English 101 (3 credit hours) [A CORE COURSE REQUIREMENT: A GRADE OF "C" OR BETTER MUST BE EARNED]

- Speech Communication 101 (3 credit hours) [A CORE COURSE REQUIREMENT: A GRADE OF "C" OR BETTER MUST BE EARNED]

- Math 111 (3 credit hours) [A CORE COURSE REQUIREMENT: A GRADE OF "C" OR BETTER MUST BE EARNED]

- English 102 (3 credit hours)

- A sophomore literature course (3 credit hours) to be chosen from English 201, 202, 203, 204, 205 or 206

- Laboratory Science (8 credit hours) to be chosen from: Biology 101 and 102, Biology 115 and 116, Chemistry 101 and 102; Astronomy 111 and 112, Geology 101 and 102, Physics 111 and 112, Physics 117 and 118, Physics 201 and 202, or Physical Science 118 and 119

- Humanities (3 credit hours) to be chosen from: Art 104, a foreign language, Humanities 101, Sophomore Literature (select from English 201, 202, 203, 204, 205 or 206), Music 104, Philosophy 101 or Theatre 101

- Physical Education activity course (1 credit hour) [NOTE: Neither chronological age nor military service are acceptable excuses for waiving the physical education requirement.]

- History 101 and 102 (6 credit hours) [NOTE: Only three credit hours of history may be earned through credit-by-exam.]

- Government 201 and 202 (6 credit hours) [NOTE: Only three credit hours of Government may be earned through credit-by-exam.]

- Core Business courses (19 credit hours) Students must complete Accounting 201 and 202, Economics 201 and 202, Computer Information Systems 101 and Math 112.

- Electives (3 credit hours) Electives should be chosen to satisfy transfer requirements with an emphasis on business courses. Students should consult with an advisor for the appropriate course selection to meet the requirements of the four-year institution and major field of study.

A maximum of four physical education activity hours may be counted as credit toward requirements for graduation. The GPA for graduation is based on the credit earned for all DCCCD work and all credit which is transferred from other institutions. The following courses will not count toward graduation nor the GPA for graduation: Courses numbered 099 and below, Art 199, College Learning Skills 100, Developmental Communications 120, Human Development 100, Human Development 110, Music 199 and Theatre 199.

All students planning to transfer to a four-year institution may complete their four semester requirements in physical education during their freshman and sophomore years. Students are urged to consult the catalogs of the institutions to which they may transfer for their special requirements. These catalogs should be used by students and advisors in planning programs.

Associate of College/University Transfer Degree

A student may earn an Associate of College/University Transfer through an individually-negotiated degree plan that incorporates those elements of the DCCCD Associate of Arts and Sciences Degree that fall within the student’s transfer plan developed under the Student Transfer Guarantee program. Students must have a minimum of 61 credit hours, a grade of "C" or better in English 101 and in a 100 or higher math course, a grade point average of at least "C" (2.0), based on GPA (2), and a passing score on all sections of TASP (if students are not TASP exempt) to receive this degree. These 61 hours may be earned at any District college and must include:

- History 101 and 102 (6 credit hours) [NOTE: Only three credit hours of history may be earned through credit-by-examination]
• Government 201 and 202 (6 credit hours) (NOTE: Only three credit hours of government may be earned through credit-by-examination)
• English 101 (3 credit hours with a grade of "C" or better)
• A math course numbered 100 or above (3 credit hours with a grade of "C" or better if math is included in the degree plan. If more than one math course is required, a grade of "C" or better must be earned in at least one math course.)
• A speech course (3 credit hours with a grade of "C" or better, if a speech course is required)

The remaining hours will be comprised of courses equivalent to those designated by the student's selected transfer institution as being applicable to the baccalaureate degree being sought. In no case will DCCCD course prerequisites be waived. Students who qualify for an Associate of Arts and Sciences will be granted that degree rather than the Associate of College/University Transfer.

Students wishing to pursue this degree should make an appointment with the Transfer Degree Counselor/Advisor on the campus to ensure their eligibility for this degree and that all the required steps are fulfilled.

Students who qualify for the Associate of Arts and Sciences degree are not eligible for the Associate of College/University Transfer degree.

Associate of Applied Science Degree
This degree is designed to teach specific career/technical skills. The requirements for each major in the Associate of Applied Science Degree are clearly shown in the curriculum patterns elsewhere in this catalog. Students seeking such a degree should become familiar with the specific required courses in the appropriate curriculum pattern.

Students must have a minimum of 60 credit hours, a grade of "C" or better in each of the three Core courses (English 101 OR Communications 131, Speech Communication 101, AND in the math course required in the specific degree plan), a grade point average of at least "C" (2.0), based on GPA (2), and a passing score on all sections of TASP (if students are not TASP exempt) to receive the Associate of Applied Science Degree. These 60 hours must include 18 hours of the following general education requirements:

- English 101 OR Communications 131 (3 credit hours) [A CORE COURSE REQUIREMENT; A GRADE OF "C" OR BETTER MUST BE EARNED]
- Speech Communication 101 (3 credit hours) [A CORE COURSE REQUIREMENT; A GRADE OF "C" OR BETTER MUST BE EARNED]
- A math course as required in the specific degree plan (3 credit hours) [A CORE COURSE REQUIREMENT; A GRADE OF "C" OR BETTER MUST BE EARNED]
- Three credit hours from a Social/Behavioral Science course: Anthropology, Government, History, Human Development, Psychology, OR Sociology
- Three hours from a Humanities/Fine Arts course: This includes any course with the title of Humanities, Art, Music, Philosophy, Dance, Theatre, Religion, Foreign Language, English 201, English 202, English 203, English 204, English 205, English 206, English 215, OR English 216
- Three credit hours of an elective course chosen from a discipline outside the student's area of specialization.

Elsewhere in this catalog can be found specific degree plans for each technical/occupational program.

For some programs, more than 60 credit hours are required. All prescribed requirements for the specific technical/occupational program in which the student is enrolled must be completed. These programs may also have other criteria in addition to degree requirements. See the Technical/Occupational Programs section of the catalog for a more detailed explanation. A maximum of four physical education activity hours may be counted as credit toward graduation. The GPA for an Associate of Applied Science Degree is based only on the hours used to meet degree requirements. The following courses will not count toward graduation nor the GPA: Courses numbered 099 and below, Art 199, College Learning Skills 100, Development Communications 120, Human Development 100, Human Development 110, Music 199, and Theatre 199.

Tech-Prep
Tech-Prep programs provide high quality, rigorous technical preparation based on a common core of academic courses that meet Texas recommended proficiencies in English, mathematics, science and social studies. Tech-Prep students are provided with options leading to advanced training in four technical clusters: business/computer sciences, engineering technology, health and human services. DCCCD offers an associate degree and certificates as well as college transfer opportunities based on agreements among area secondary programs as well as 4-year colleges and universities which benefit Tech-Prep students. After successfully completing the required high school courses outlined in a Tech-Prep program, Tech-Prep students may receive college credit toward graduation in certain college programs. Tech-Prep students...
written educational plan for retraining.

Guarantee For Job Competency

The DCCCD makes certain guarantees to its students who earn its Associate of Applied Science degree. If an Associate of Applied Science graduate is judged by his/her employer to be lacking in technical job skills identified as exit competencies for his/her specific degree program, the graduate will be provided up to nine tuition-free hours of additional skill training by a District college under the conditions of the guarantee policy.

Special conditions which apply to the guarantee are as follows:
1. The graduate must have earned the Associate of Applied Science Degree beginning May, 1992 or thereafter in an occupational program identified in the college catalog.
2. The graduate must have completed this degree at the District (with a majority of the credits being earned at the District) and must have completed the degree within a four-year time span.
3. Graduates must be employed full-time in an area directly related to the area of program concentration as certified by the Vice President of Instruction.
4. Employment must commence within 12 months of graduation.
5. The employer must certify in writing that the employee is lacking entry-level skills identified by the DCCCD as the employee’s program competencies and must specify the areas of deficiency within 90 days of the graduate’s initial employment.
6. The employer, graduate, division dean, job placement counselor and appropriate faculty member will develop a written educational plan for retraining.
7. Retraining will be limited to nine credit hours related to the identified skill deficiency and to those classes regularly scheduled during the period covered by the retraining plan.
8. All retraining must be completed within a calendar year from the time the educational plan is agreed upon.
9. The graduate and/or employer is responsible for the cost of books, insurance, uniforms, fees and other course-related expenses.
10. The guarantee does not imply that the graduate will pass any licensing or qualifying examination for a particular career.
11. Students sole remedy against District and its employees for skill deficiencies shall be limited to nine credit hours of tuition-free education under conditions described above.
12. The program can be initiated through written contact with the office of the college president.

Certificate Programs

The requirements for certificates are detailed under specific programs in the Technical/Occupational Programs section of this catalog. A "C" (2.0) grade point average, based on GPA, is required. The GPA for a certificate is based only on the hours used to meet certificate requirements. The following courses will not count toward graduation nor the GPA for graduation: Courses numbered 099 and below, Art 199, College Learning Skills 100, Development Communications 120, Human Development 100, Human Development 110, Music 199, and Theatre 199. Students working toward a certificate may be waived from the TASP requirement; the student may enroll only in courses leading toward the certificate in order to maintain their TASP Waved status.

Transcript Evaluations

Students who have completed college coursework at a regionally accredited college or university who will be working toward an Associate of Arts and Sciences, Associate of Arts and Sciences in Business, Associate in Applied Science or an Associate of College/University Transfer degree or a one-year certificate should contact the Registrar’s Office to request a transcript evaluation.

Procedure For Filing Degree And Certificate Plans

And For Graduation

Students should request a degree plan from the Registrar’s Office at the end of their freshman year. Official transcripts of all previous college work must be on file at the time of request for degree plans. Students following a one-year certificate program should request an official plan during the first semester of their enrollment. Application for the granting of the degree or certificate should be filed in the Registrar’s Office prior to the deadline announced by the Registrar.

An annual graduation ceremony is held at the conclusion of the spring semester. Participation is ceremonial only and confers on a student no rights to a degree. December graduates may participate in the next commencement if they desire and July and August graduates may participate in the spring commencement if they desire, but neither is required to do so. The Registrar’s Office should be notified if the student wishes to participate. Instructions for graduation are mailed to all candidates prior to commencement.

In addition to other graduation requirements, students are expected to complete within five (5) years the course and hour degree requirements as outlined in the catalog in effect at the time of their entrance to a DCCCD college. Students may have the option to select a more recent catalog year in which they were enrolled, provided the degree requirements are met within five (5) years of the catalog selected and the requisite courses are still offered.

The college reserves the right to modify curricula or to make changes as appropriate.

Waiving Of Scholastic Deficiency

Any student in an academic transfer program may transfer to Applied Science degree or Certificate program. In such a case, the student may choose to have any grades below "C" disregarded. However, the procedure for disregarding low grades may only be exercised while the student is in that career program. If the student changes to an academic transfer program, the original conditions of
the academic transfer program must be followed, including the calculation of a cumulative grade point average of all college credits earned. The procedure for waiving scholastic deficiency applies both to students of this college and to students transferring from other institutions. The student who wishes to use the procedure for waiving scholastic deficiency should so state in writing to the Registrar prior to registration and should inform a counselor of such intentions during the pre-registration advisement session.

V. EDUCATIONAL AND SPECIAL OPPORTUNITIES FOR STUDENTS WISHING TO TRANSFER

Academic Transfer Programs

The Dallas County Community College District offers a broad range of educational opportunities for the student whose goal is to transfer to a four-year institution. In addition to offering a strong, creative foundation for the freshman and sophomore years, the academic transfer curriculum is coordinated with a number of Texas four-year institutions to insure the transfer of credits. Although each four-year school is different, students may guarantee transferability of their courses by being active and responsible in the advisement process. By consulting the four-year institution regularly and taking advantage of the resources available at each of the DCCCD colleges, students may insure that the transfer process is a positive experience.

The Texas Education Code Section 61.078 enacted by the 71st Texas Legislature (SB 457) provides a means to aid students in resolving disputes regarding the transfer of course credits. To qualify as a dispute the course(s) in question must be listed in the Community College General Academic Course Guide Manual and be offered at the receiving institution. The sending institution, or the student working through the senior institution, must initiate the dispute. From the date a student is notified of the denial of credit, the law allows a maximum of 45 calendar days for the resolution of the dispute through the senior institution.

In order to challenge the denial of credit, a "Transfer Dispute Resolution" form, available through the District Office of Student and International Programs (telephone 214-746-2410) must be completed within 15 days from the date the student has been notified of the denial of credit. This form is sent to the receiving institution.

The receiving institution must then inform the student, the sending institution and the State Commissioner of Higher Education of the resolution. If need be, the Commissioner, or designee, may be called upon to resolve the dispute.

Earning An Associate Degree Prior To Transferring

During the time of attendance in the DCCCD, students may elect to earn a two year associate degree. The Associate of Arts and Sciences Degree is designed specifically for those students who plan to transfer to a Texas four-year institution. The Associate of Arts and Sciences Degree requires students to complete many of the core courses that will also be required by most senior institutions. The flexibility of this degree program also allows students to complete many of the introductory courses specifically related to their major field of study. Additional information regarding this degree can be found elsewhere in this catalog or from a counselor or advisor.

The Associate of College/University Transfer is an individually negotiated degree designed to permit students to take only those courses which will apply toward a specific major at a specific university. Additional information about this degree can be found elsewhere in this catalog.

Transfer Dispute Resolution

The Texas Higher Education Coordinating Board intends that approved academic coursework transfer between Texas public institutions, providing that the course(s) are within approved transfer curriculum of the declared major field and provided that published transfer policies are met. Texas public institutions are required to notify students if approved academic coursework earned at another institution will not transfer.

Students transferring to the College can expect that approved academic courses earned at any Texas public institution will be accepted in transfer. Students who contest a transfer decision made by the College should contact the District Office of Student and International Programs to appeal the denial of transfer credit for any approved academic course.

If an academic course is not accepted in transfer by another Texas public college or university, students can request that the College submit a Transfer Dispute Form to the receiving institution. Forms are available through the District Office of Student and International Programs. The form must be completed within 15 days from the date the student is notified of the non-transfer. If the College cannot identify an appropriate reason for the course not transferring, the form will be forwarded to the receiving institution and/or to the Coordinating Board for resolution.
Choosing A Major And Developing An Educational Plan

Some students will enter college with a clear idea of what major they will choose and to which senior institution they will transfer. However, the fact is that many students do not know where they will transfer or what their major may be.

There are several freshman level core courses that will apply toward most majors. Students are encouraged to use the first semester to investigate their own interests. By the second or third semester, students should begin to develop a clear sense of which senior institution they will enter and the requirements for their chosen degree program. Working closely with a counselor or advisor, and utilizing current information from four-year institutions, students who plan to transfer are encouraged to follow the Associate in Arts and Sciences Degree plan as many of the required courses are often required at four-year institutions.

The Counseling personnel at each of the DCCCD campuses can provide assistance in developing a degree plan for almost any major. Listed below are some of the four-year majors students can begin in the DCCCD:

Accounting
Advertising
Agriculture
American Studies
Anthropology
Architecture
Art
Biological Science
Botany
Business Administration
Chemistry
City/Regional Planning
Computer Science
Dance
Dental Hygiene
*Dentistry
Diabetes
Marketing
Mathematics
Medical Technology
*Medicine
Meteorology
Microbiology
Music
Music Education
Nursing
Occupational Therapy
Oceanography
Optometry
Pharmacy
Philosophy
Photography
Physical Education
Physical Science
Physical Therapy
Physics
Political Science
Psychology
Public Relations
Radio/TV/Film
Recreation
Social Work
Sociology
Speech Communication
Speech Pathology
Substance Abuse Counseling
Teacher Preparation
Telecommunications
Theatre
*Veterinary Medicine
Wildlife Management
Zoology
* These fields require study beyond the bachelor’s degree.

College Resources For Transfer Students

Each of the DCCCD colleges offers many resources designed specifically for those students planning to transfer to a four-year institution. Students are encouraged to take advantage of these resources early in their collegiate experience, particularly if they are undecided upon a major or have not selected a senior institution. Many of the resources can assist students in making informed decisions when selecting courses, choosing a transfer institution, and completing all of the necessary steps in the transfer process.

The Counseling Center

Students are invited to utilize the valuable resources found in the Counseling Center, and are encouraged to seek the advice of a counselor/advisor when planning each semester of study.

The Counseling Center has several resources to assist students, including a large collection of senior institution catalogs and bulletins, senior college admission application forms, and other specialized brochures and information. Students can also take advantage of several computer resources, such as DISCOVER, GIS, and SIGI. These simple computer programs are designed to help students clarify goals, identify career and occupational interests, and research information about senior institutions.

In addition, there are many activities planned especially for transfer students. These activities include College Days where officials from senior institutions visit on-campus to talk directly with students, special transfer workshops and seminars, and events designed to assist students in making career decisions.

A number of other materials are available to aid students who plan to transfer. These materials are outlined below:

Course Selection Guides

Course Selection Guides offer a listing, in DCCCD course numbers, of courses necessary for a number of majors at many institutions throughout Texas. Course Selection Guides may be available for the following majors:

Accounting
Advertising
Aerospace Engineering

Agriculture
Architecture
Art
Although the information on these guides has been reviewed by officials at the various senior institutions, the content is subject to change, and it is the responsibility of the student to verify with the institutions of their choice the applicability of this information. Counselors and academic advisors can also assist students with preparation for majors other than those listed above.

Equivalency Guides

Equivalency Guides offer a listing of how every course offered in the DCCC transfers to a given senior institution. This information is helpful for those students who have selected a senior institution, but have yet to determine a major. Students should note that the transfer equivalencies shown on these guides offer information on how, or if, courses are generally accepted by the senior institution, and do not indicate how these courses will apply toward a particular major or degree program. A counselor/advisor can assist students in determining the applicability of courses to a particular major.

Common Course Numbering System

To help meet the transfer needs of its students, the Dallas County Community College District has joined the Texas Common Course Numbering System Consortium. At the time of this printing, all Texas community/junior colleges had moved, or will be moving, to this system. Most universities are cooperating with this new numbering system indicating courses equivalent to the common course system.

Institutions teach courses similar in nature and these courses have been designated by a common number. The common number is to facilitate the transfer of these courses between and among the participating institutions. Elsewhere in this catalog can be found course descriptions for every course offered in the DCCC. If a course has been assigned a common course number, it can be found in parenthesis. For example, the common course number for our English 101 course will be shown as "(ENGL 1301)," and our Math 101 as "(MATH 1314)." Students should not assume that only courses with common course numbers will transfer.

Choosing A Catalog Year

Students who plan to transfer to a four-year school have a choice to make regarding their requirements for graduation. They may choose the catalog year under which they wish to graduate. This choice is subject to restrictions that are outlined in the four-year school's catalog. Students should consult the catalog of their choice to learn about any such limitations.

Transferring students should keep a copy of the DCCC catalog, the four-year institution's catalog, and the Course Selection Guide valid at the time of initial enrollment in the DCCC and at the time when a major was selected. DCCC course syllabi should also be kept.

Other Things To Consider

During the time of study in the DCCC, students should begin to determine the necessary steps for completing the transfer admission process. The process may require a great amount of preparation, and students should be certain that they understand all of the requirements for admission, such as application deadlines, minimum grade point average requirements, limitation on the number of credit hours that are acceptable in transfer, policies regarding acceptance of repeated courses, housing information, and financial aid application procedures. Of equal importance is a personal visit to the chosen institution. Many senior institutions plan special activities and campus visitation periods where students can meet with representatives from all areas of the institution.
IT IS THE RESPONSIBILITY OF STUDENTS TO KNOW ANY SPECIFIC REQUIREMENT OF THE COLLEGE OR UNIVERSITY TO WHICH THEY WISH TO TRANSFER. THIS RESPONSIBILITY INCLUDES KNOWING COURSE REQUIREMENTS, NUMBER OF CREDIT HOURS ACCEPTED, AND GRADE POINT AVERAGE REQUIREMENTS.

Guarantee For Transfer Credit

The DCCCD guarantees to its Associate of Arts and Sciences graduates and other students who have met the requirements of a 60-credit-hour transfer plan the transferability of course credits to those Texas colleges or universities which cooperate in the development of DCCCD Course Selection Guides. If such courses are rejected by the college or the university, the student may take tuition-free alternate courses at a District college which are acceptable to the college or university. In addition, students may receive the Associate of College/University Transfer upon the completion of 61 credit hours which are included in the Student Transfer Guarantee.

Special Conditions which apply to the guarantee are as follows:

1. Transferability means the acceptance of credits toward a specific major and degree. Courses must be identified by the receiving university as transferable and applicable in Course Selection Guides dated 1991-92 or later;
2. Limitations of total number of credits accepted in transfer, grades required, relevant grade point average and duration of transferability apply as stated in the catalog of the receiving institution; and
3. The guarantee applies to courses included in a written transfer plan—which includes the institution to which the student will transfer, the baccalaureate major and degree sought, and the date such a decision was made—which must be filed with the appropriate DCCCD college.

This guarantee is designed specifically for those DCCCD students who have made firm decisions about their major and the institution to which they planned to transfer. The DCCCD is working with a number of Texas institutions, such as the University of North Texas, East Texas State University, the University of Texas at Arlington, the University of Texas at Dallas, Texas Woman's University, Texas Tech, Dallas Baptist University, Baylor University, Southern Methodist University and others, in order to make such guarantees possible. In order to secure such a guarantee, students should begin the process in their college Counseling/Advisement Center by scheduling an appointment with the Transfer Guarantee advisor.

Students who have completed a Transfer Guarantee may be eligible to receive the Associate of College/University Transfer Degree. Such students will be notified of this opportunity.

VI. OTHER EDUCATIONAL PROGRAMS

Technical/Occupational Programs

Students who desire to enter a chosen field as a skilled employee after one or two years of college work may enroll in one of the many technical/occupational programs offered by the College.

Technical/occupational courses are accredited college courses which lead to a Certificate of Completion or an Associate of Applied Science Degree. These programs are established only after studies verify that employment opportunities exist in business and industry.

The College attempts to match the community's labor requirements with the ambitions and goals of its students. This realistic approach to occupational education is made possible by the excellent cooperation of local industry, business, and public agencies who increasingly depend on District colleges to supply skilled personnel.

A continuous liaison is maintained with prospective employers to help place graduates and to keep the training programs current with job requirements. Recommendations for adding new programs to the College offerings are made periodically and are based on community studies which identify additional needs.

Many technical/occupational courses can be offered on company sites for their employees.

Credit By Examination

Students who believe they already meet the requirements of a course by experience or previous training may request credit by examination. The Registrar's Office has knowledge of courses available through this method. The examination may be an approved subject examination (not a general examination) of the College Level Examination Program (CLEP), Advanced Placement Exams (CEEB), Defense Activity for Nontraditional Education Support (DANTES) or a teacher-made test, depending on the course. Students should insure DCCCD acceptance of specific national exams prior to taking them.

The student pays an examination fee for each course examination. This fee must be paid prior to taking the examination and is not refundable. The College's credit by examination program is coordinated with similar programs of four-year institutions. Final acceptance of credit by examination for specific degree purposes is determined by the degree-granting institution. Students planning to use credit by examination to meet degree requirements at other institutions should check the requirements of the receiving institution.

Students must be currently enrolled at a DCCCD college to receive credit by examination. Students may not request credit by examination in courses for which they are currently enrolled. Students may earn as many credits through examination as their ability permits and needs require, but the last 25% of the credit hours required for graduation in any degree or certificate program may not be earned through credit by examination except as approved by the Vice President of Instruction.
Credit by examination may be attempted only one time in any given course, and a minimum score must be earned in order for credit to be recorded. A student may use credit by examination for only three (3) credit hours to apply toward the degree requirements in history and only three (3) credit hours to apply toward the degree requirements in government.

As of the publication date of this catalog, the following national tests are approved for credit-by-examination procedures:

**CLEP Subject Exams (CLEP General Exams are NOT approved)**

Students taking advantage of these tests should check with the Office of the Registrar to ensure these tests will be accepted in lieu of coursework. This should be done prior to taking the test as the above list may change.

**Non-Traditional Learning**

The College is committed to serve students and the community in the most effective manner possible while maintaining high standards of education. Students learn in a variety of ways and through a multitude of experiences. Therefore, the College will evaluate these learning experiences and grant equivalent college credit applicable to an Associate of Applied Science degree or certificate program. The following guidelines pertain to such evaluations:

1. The student must be currently enrolled in the college to receive equivalent credit for non-traditional learning.
2. Credit for specific courses offered by the college may be granted for non-traditional learning experiences after proper assessment of those experiences. Credit will be awarded on a course by course basis only. The student must be enrolled in the college which is assessing the learning experiences.
3. A student is required to complete at least 12 semester hours of course work with the District, six of which are in the student's major occupational area, prior to awarding of equivalent credits for non-traditional activities. The “CR” grade is awarded for non-traditional course work accepted for credit.

4. Credit may be granted for occupational courses approved by the Coordinating Board of Colleges and Universities.

5. The number of equivalent credits awarded may not exceed 25% of the total number of credits required. The number of equivalent credits awarded may not exceed the total number of credits required for the student's specific associate degree objectives. No graduation, residency, degree or program requirements will be waived as a result of credits earned as provided by this policy.

Students desiring to take advantage of this opportunity should consult with the College Advocate for Non-traditional Learning for additional information. Students making application for assessment of prior learning through life experiences are required to enroll in Human Development 110 to facilitate the process.

Flexible Entry Courses

In keeping with its commitment to meet individual educational needs, the College makes available flexible entry courses. These courses are often self-paced, allowing students to work at their own speed. Students are cautioned to be aware of the time specified by the College as to when the course requirements need to be completed. Students may register for flexible entry courses during the pre-semester registration periods or at regular times during the semester. Students should check with the Registrar to determine times for registration in these courses. Approval must be obtained for enrollment.

Distance Learning Courses

Telecourses

Students have the option of taking a variety of credit courses through the TELECOURSE program of learning. Telecourses require viewing a series of video programs, along with studying a textbook, completing specific assignments and taking course tests. In addition, students use a course Study Guide, which provides detailed directions for reading and viewing lessons. At a required orientation at the beginning of the course, students meet with the telecourse instructor who is available by telephone or in person throughout the semester. Course testing is done through the campus testing center. Telecourses are equivalent to the on-campus sections of the same courses in terms of objective, content, rigor and transferability.

Most telecourses are shown on open broadcast through KDTN-TV2 and on local cable system channels, as well as being available for viewing on campus. A few courses are offered as video cassettes for lease through the colleges' bookstores. Telecourses may be taken in conjunction with on-campus classes and students enroll for telecourses through the normal registration processes. Successful TELECOURSE students are goal oriented and self directed, know how to learn independently and have prerequisite skills such as a college reading level. Telecourse offerings are listed in the credit class schedules published by all DCCCD colleges each semester and subject matter includes:

- Accounting
- Anthropology
- Business
- Computer Information Systems
- Economics
- English
- History
- Humanities
- Government
- Management
- Health
- Psychology
- Sociology

For additional information, interested students should consult a DCCCD Telecourse Information brochure containing course descriptions, requirements, viewing schedules and other pertinent information. This brochure is available on all campuses each semester or by calling the TELECOURSE HOTLINE at 952-0300.

Teleclasses Via DC-NET

A growing number of courses are offered for the LeCroy Center for Educational Telecommunications on Dallas College Network. DC-NET is live television, but with a difference. It is interactive: students watch and listen to the instructor on television and talk with the instructor and with classmates at other sites by using special microphones.

DC-NET classes are available at DCCCD colleges, select business sites and in Dallas, Mesquite, Farmers Branch and Richardson on cable television. Students taking the courses via cable TV interact by using the telephone.

DC-NET provides students with several important benefits:

** access to courses which otherwise might not be available at individual colleges because of low enrollments.

DC-NET allows students at multiple colleges, businesses and homes with cable TV to be combined so that the class has enough students to be offered.

** access to high-demand courses which are filled and not available at an individual college. A class on DC-NET can make additional enrollments available for those courses.

** access to courses at times which may be more convenient for students. Because DC-NET courses have small numbers of students at any one college receive site, and because they often have students at business sites and in homes, courses can be scheduled for the convenience of the few.

DC-NET courses are listed in the colleges' class schedules with special designations. Tests are administered at the testing centers of the colleges of the DCCCD. For more information, call 952-0340.
Cooperative Work Experience

Students may enrich their education by enrolling in cooperative education courses. Cooperative education is a method of instruction that offers the student the opportunity to earn college credit for the development and achievement of learning objectives which are accomplished through current on-the-job experience.

Work experience must be related to a field of study and an occupational goal. This work experience takes place at work training stations approved by the College. Employers must be willing to enter into training agreements with the College and the student/employee. The College will assist a student in seeking approvable employment, if needed.

To enroll in a cooperative education course, students must:

* complete an application for a student cooperative work experience program
* have completed at least six semester hours in an occupational major or secure waiver or requirement from the instructor
* declare a technical/occupational major or file a degree plan
* be currently enrolled in a course related to the major area of study;
* be approved by the instructor.

Additional information regarding cooperative education may be secured from the Cooperative Education Office, the Division Office, or Counseling Office at each college. Technical/occupational programs which include cooperative education are indicated in this catalog.

International Studies

An important part of the DCCCD's commitment to enhancing student appreciation for and understanding of diverse cultures is its international studies programs. These are available in a variety of countries during both the regular semesters and in the summer. Semester-length programs are currently available in England, France, Mexico, Spain, Germany, and Ireland. Students are usually sophomore level and have at least a 2.5 cumulative grade point. In most programs, no prior knowledge of a foreign language is required, allowing even novices to learn a language in its cultural context while taking other credit courses taught in English to complete their study of the native culture.

Also offered by many of the campuses are study-abroad opportunities during the summer sessions. Such courses are taught by DCCCD faculty and normally last two to three weeks. In previous years these courses have been offered in Austria, Australia, China, France, Great Britain, USSR, Mexico, Jamaica, Spain, and Italy. For information about any of the semester-length or summer programs, contact the District Office of Student and International Programs at 214-746-2410.

Students from institutions belonging to the North Texas Community and Junior College Consortium may enroll in DCCCD international courses by paying "in-District" tuition charges plus related fees.

Human Development Courses

The Human Development curriculum is composed of several different credit courses designed to help students master skills that are necessary for successful everyday living. The courses emphasize different life skills, including educational and career/life planning, interpersonal communication, relationship building, personal and social growth, conflict resolution, leadership, decision making, and success in college. Some campuses offer special sections of Human Development courses which focus on various issues, such as multicultural understanding, gender differences, career change, and life transitions. Some sections are designed for special populations, such as women returning to school, adults making career or job changes, students in academic difficulty, young adults, or academically underprepared students.

Many Human Development courses transfer to many 4-year institutions as elective credit. These courses use an experimental model which allows for the use of a wide variety of teaching/learning strategies including small group work, journal writing, mini-lectures, selected readings, classroom discussion, team teaching, peer teaching, outside guest speakers, psychometric testing, and volunteer experiences in the community. The Human Development classes are intentionally small to allow students to actively participate in discussions and practice new skills.

Developmental Studies

Students whose assessment test scores (DCCCD, SAT, ACT, or TASP) indicate they lack the skills necessary to be successful in college-level courses will be advised to enroll in developmental courses. Successful completion of these courses will provide prerequisite skills for college-level work and satisfy TASP remediation requirements. Other students who wish to review and improve basic skills may also elect to take one or more developmental courses.

Reading, writing and mathematics courses are offered in classroom settings with laboratory support. These developmental courses provide instruction directly related to the personal, academic and career goals of students.

Evening And Weekend College

In order to serve those people whose work schedule and/or personal involvements make it impossible for them to attend college during normal daytime hours, most courses offered during the day also are available in the Evening and
Weekend College. Courses are offered both on campus and at selected community locations.

Evening and weekend courses offer high quality instruction and excellent facilities. A variety of student services, including counseling, health, library, bookstore, food services, financial aid, and recreation may be available. Instructors are selected from the College's own full-time staff, from outstanding Dallas area educators, and from other professional specialists interested in teaching. To enroll in the evening and weekend courses, contact the Director of Admissions.

Library and Student Obligations

The library is an information center where students can find print, non-print materials and database services to supplement classroom learning. The library has a growing collection of books on a wide variety of general information subjects to support academic transfer programs and technical/occupational programs. Other resources provided may include slides, tapes, compact discs, computer software, videotapes and films. In addition, there are special collections of career materials and pamphlets as well as subscriptions to popular and technical periodicals and newspapers.

Willful damage to library materials (or property) or actions disturbing users of the library may lead to the loss of library privileges. Damage cases are referred to the appropriate authorities for further action. All books and other library materials must be returned before the end of each semester. No transcript is issued until the student's library record is cleared.

Servicemen's Opportunity College

In cooperation with other community colleges in the United States, colleges of the Dallas County Community College District participate in the Servicemen's Opportunity College. Through this program, students can plan an educational experience regardless of location requirements of the military. For further information, contact the Admissions Office.

Continuing Education Programs

Within the Dallas County Community College District, Continuing Education is an educational development process which creates an instructional delivery system that is flexible, diverse, visionary, and responsive to the needs of its public, private, and corporate citizens. Continuing Education provides non-credit skills training, personal and professional courses, and programs for human, community, and economic development, and thus expands the available educational opportunities for all persons of all ages to participate in college programs.

Continuing Education instructors are professionals from the community chosen because they have proven experience in their field. Their objective is to share their knowledge, insight and expertise, to insure that students acquire a knowledge of the subject, and through a meaningful learning experience to become equipped to serve better their community, business, and themselves.

Courses are offered as seminars, workshops and institutes—the type of course is determined by the nature of the material, instructional approach, and the needs of the students. Usually there are no entrance requirements or examinations; however, some courses may have age restrictions and others may require a certain amount of experience in the subject field for enrollment. Admission is on a first-come, first-served basis. Registration is simple, quick and easy, and may even be accomplished by phone. Continuing Education classes are held on the campus of each college and in a variety of locations throughout the community. Classes and activities are conducted throughout the week, both during the day and evening hours, and also on Saturday and Sunday.

Because of the nature of Continuing Education course offerings, textbooks may not be required in some courses; however, other courses will require the purchase of texts and/or special class materials. To enhance the educational experience of those students who enroll in Continuing Education classes, library privileges are afforded them during the term in which they are registered.

Scholarship funds are available for specific vocationally oriented courses. To apply for these scholarship funds please inquire at the Continuing Education Office.

Continuing Education Units (CEU's)

College credit may be awarded for some courses related to DCCCD vocational/technical/occupational programs. Continuing Education Units (CEU's) are transcripted upon successful completion of the course. In all recognized educational circles, one CEU is equal to "ten contact hours of participation in an organized Continuing Education or extension experience under responsible sponsorship, capable direction, and qualified instruction."

The CEU is a means of recording and accounting for Continuing Education activities and meeting the certification requirements of certain professional organizations.

The Bill J. Priest Institute for Economic Development

The Bill J. Priest Institute for Economic Development is located at 1402 Corinth, just south of downtown Dallas. The Institute houses non-credit programs serving the business community.

The Institute's program areas include:

The Business & Professional Institute (BPI)—Offers non-credit customized contract training to business and industry;

The Edmund J. Kahn Job Training Center (JTC)—Provides short-term, intensive career training and basic skills instruction as well as evening and weekend continuing education courses; career training and instruction to unemployed and under-employed individuals;

The Dallas Small Business Development Center (SBDC)—Provides counseling, training, and resources to small businesses throughout Dallas County.

The International Business Center SBDC (IBC), Located in the World Trade Center, provides services to businesses interested in international trade;
The Center for Government Contracting SBDC (CGC)—Assists businesses seeking government contracts on municipal, county, state or federal levels;

Technology Assistance Center SBDC (TAC)—Offers counseling services and training seminars focusing on technology transfer, product development and commercialization, the invention process and licensing; and

The Business Incubation Center (BIC)—Offers cost-shared facilities and services to small businesses which can provide a viable business plan. Time-shared services are also provided on a contract basis for businesses which do not need to locate their home offices on-site.

The North Texas-Dallas SBDC—One of four regional SBDC offices in Texas, is also located in the Priest Institute for Economic Development. It administers SBDC activities in 49 counties and comprises 16 field centers, including the Dallas SBDC, IBC, CGC and TAC.

For more information about any of these programs, please consult the BJCIED section at the back of the comprehensive District Catalog or call (214) 565-5803.

VII. STUDENT DEVELOPMENT

The College is committed to providing opportunities for each individual student’s total educational development. Specific student services are integrated with the instructional program of the College to address individual needs for educational, personal, social, cultural, and career development.

Student Programs and Resources

The Student Programs and Resources Office plans and presents a wide variety of programs and activities for the general campus population and the surrounding community, including lectures, art gallery activities, and performance events. Programs often are coordinated with the various instructional divisions to provide students with valuable educational experiences. Leadership conferences, retreats, and service learning programs offer students opportunities to develop skills that can enrich the quality of their own lives and the life of their community. Student Programs and Resources seeks to involve students meaningfully in campus life. Recent research in higher education indicates that for many students involvement is an important contributor to academic success.

The Dallas County Community College District invites all students to take an active role in their college experience. There are many opportunities for students to become involved in the decision-making processes for the College. You may want to join a student club, participate in student government/ambassador activities or serve on one of several committees that engage in real decision making for the College. Depending on the college you attend, students may be involved regularly in decisions regarding:

- selecting the use of student activity fees and other institutional funds;
- determining improvements for an aspect of the college (facilities, services provided, instruction, etc.);

- programming speakers and special events offered to the student body;
- participating in student disciplinary hearings;
- conducting (or completing) surveys and questionnaires designed to gather information about your college experiences; and
- assisting in the selection process of new college administration.

Counseling Center Services

Individuals may find the counseling services helpful as they make plans and decisions in various phases of their development. For example, counselors can assist students in selecting courses of study, determining transferability of courses, choosing or changing careers, gaining independence, and confronting problems of daily living. Assistance is provided by the counseling staff in the following areas:

1. Career counseling to explore possible vocational directions, occupational information, and self appraisal of interest, personality and abilities. Career Counseling may be available to students enrolled in credit classes only.
2. Academic advisement to develop and clarify educational plans and make appropriate course choices.
3. Confidential counseling sessions to assist students in managing academic environment and dealing with issues which can hinder classroom participation.
4. Small group discussions led by counselors focusing on such areas as interpersonal relationships, test anxiety, and assertiveness. Counselors will consider forming any type of group for which there is a demand.
5. Problem identification and referral sources to provide in-depth assistance for such matters as legal concerns, financial aid, tutoring, job placement, medical problems, or emotional problems.

Tutoring Services

For students needing special assistance in course work, tutoring services are available. Students are encouraged to seek services through self referral as well as through instructor referral.

Testing/Appraisal Center

The Testing Center administers various tests. Types of tests include:

1. Psychological tests of personality, vocational interests, and aptitudes;
2. Academic tests for college instructional programs. Many courses are individualized and self-paced, permitting students to be tested at appropriate times;
3. Assessment tests, required for appropriate class placement;
4. Tests for selected state and national programs;
5. Testing for correspondence courses.

Individuals desiring to take tests in the Centers must provide picture identification and also may be asked to show their student identification card prior to receiving testing materials. Students must be referred by a counselor for psychometric testing. Exceptions must be arranged by faculty in writing.
The Student Code of Conduct provisions regarding disruptive behavior and/or academic dishonesty apply equally to Test Centers and classrooms. Irregularities will be referred to the proper authorities for disciplinary action.

Health Services
The Health Center is a multi-purpose facility that promotes health, wellness and preventive care for the college community. Registered nurses coordinate and provide the health services which include:

- First aid for accident, injury or illness
- Health information and brochures
- Some over-the-counter (non-prescription) medicines such as Tylenol, aspirin and antacids
- Referral information for community health services
- Selected health education and screening programs
- Confidential health counseling
- A rest area

The health services are available to current students and staff. Students do not need to be sick to come to the Health Center. Health questions and concerns are welcomed. Students with chronic health problems are encouraged to visit the Health Center to discuss any special concerns with the nurse before attending classes and/or whenever problems arise. A small portion of the student activity fees goes to support the health services so no additional fees are charged. No information about the individual’s health is released without the written permission of that individual unless required to do so by law.

Student Health Insurance
Optional student health insurance, with optional coverages of spouse and children, is available at the college. This limited coverage policy is administered by a local insurance company for a relatively-inexpensive fee.

Job Placement Services
The Dallas County Community College District provides job placement services free of charge to DCCCD students (credit and non-credit), alumni, former students, and those in the process of enrolling. Although services may vary among DCCCD colleges, most Placement Offices provide opportunities for students to learn job search skills including how to establish employment contacts, complete an application, write a resume and cover letter, and interview for a job.

All DCCCD colleges participate in a computer-assisted job bank which contains full and part-time opportunities in the Metroplex. Such opportunities are categorized by the career program areas offered by the DCCCD. All Placement Offices strictly adhere to EEO and Affirmative Action Guidelines. Employers listing positions with the DCCCD Job Placement Service must be EEO employers. All services are free of charge.

Special Services
The Special Services Office offers a variety of support services to enable students with disabilities and/or special needs to participate in the full range of college experiences. Services are arranged to fit the individual needs of the student and may include sign language interpreters, notetakers, tutors, mobility assistants, readers/audio tapers, and loan of specialized equipment such as wheelchairs, audio tape recorders, talking calculators, closed captioning decoders, raised-line drawing kits and large print materials. Academic, career and personal counseling, special testing accommodations, registration assistance and extensive information and referral services are also available. Students with special needs are encouraged to contact the office at least one month prior to registration. They will be provided orientation and registration information. For additional information, please contact the Special Services Office on the campus you plan to attend.

Student Organizations
Information about participation in any organization may be obtained through the Student Programs and Resources Office. The development of student organizations is determined by student interest. Categories of organizations include:

- Co-curricular organizations pertinent to the educational goals and purposes of the College; social organizations to provide an opportunity for friendships and promote a sense of community among students; service organizations to promote student involvement in the community; pre-professional and academic organizations to contribute to the development of students in their career fields.

Intercollegiate Athletics
Participation on athletics teams is voluntary on a non-scholarship basis for students who meet requirements established by the Metro Athletic Conference. Most teams are associated with the National Junior College Athletic Association. For more information regarding eligibility, rules, standards, and sports offered, contact the Physical Education Office.

Intramural Sports
The College provides a campus intramural program for students and encourages participation. For additional information contact the intramural director in the Physical Education Office or the Student Programs and Resources Office.

Housing
The College does not operate dormitories of any kind nor maintain listings of available housing for students. Students who do not reside in the area must make their own arrangements for housing.

College Police Departments
Campus safety is provided within the framework of state law to “protect and police buildings and grounds of state institutions of higher learning.” Because all laws of
the state are applicable within the campus community, specially trained and educated personnel are commissioned to protect college property, personal property, and individuals on campus. Officers of the College Police Departments are licensed Peace Officers of the State of Texas. These officers are vested with full authority to enforce all Texas laws and rules, regulations, and policies of the College, including the Code of Student Conduct.

All colleges of the DCCCD comply with the provisions of the Campus Security Act of 1990, Public Law 101-542. Copies of the document for each campus are available upon request through the College Police Department.

Drug-Free Schools and Communities Act

To satisfy the requirements of the "Drug Free Schools and Communities Act," the DCCCD, its colleges and facilities are committed to creating an educational and work environment free from use or distribution of illicit drugs and abuse of alcohol. All of the DCCCD facilities prohibit the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities. Information and confidential referrals concerning counseling and treatment programs for drug and alcohol abuse may be obtained from the Counseling/Advisement Center, Health Center and location Human Resources Office.

VIII. FINANCIAL AID

Reauthorization of the Higher Education Act of 1965 was signed into law by President Bush on July 23, 1992. The Higher Education Amendments of 1992 included several significant changes to the Federal Financial Aid Programs. Several of these changes altered the methodology for determining students' eligibility and the administration of the programs at the campus level.

Financial aid is available to help those students who, without such aid, would be unable to attend college. The primary resources for meeting the cost of education are the student, the parents and/or spouse. Financial aid, however, can remove the barriers for those families who cannot afford the cost of education beyond high school and can fill in the gap for families who can afford only part of the cost.

How to Apply

The Free Application For Federal Student Assistance (FAFSA) must be completed using data from the Federal Income Tax Return. This form is used to provide an analysis of the financial need. It may be obtained from a high school counselor or from any DCCCD Financial Aid Office. The FAFSA is to be mailed directly to the address indicated on the application. Six to eight weeks should be allowed for processing. The student should mail the FAFSA at least TWO MONTHS before the priority deadline for the semesters for which the student is applying. In addition to the FAFSA, all students must complete the DCCCD Financial Application and return it to the Financial Aid Office of the DCCCD college the student plans to attend.

The Department of Education will randomly select some applicants and require that information reported on the FAFSA be verified for accuracy. If the student's application is one that is selected, the student will be required to provide additional documents before financial assistance can be awarded. All eligible non-citizens may be required to submit a copy of an INS card as proof of immigration status before financial assistance can be awarded.

For students who attended other colleges (including our DCCCD colleges), universities, vocational or trade schools, a Financial Aid Transcript must be sent from each previous institution to the Financial Aid office of the school where the student is applying. This procedure is required even though the student may not have received financial assistance at the previous institution.

Students born after December 31, 1959, and who are required under the Military Selective Service Act to register for the draft, must do so before financial aid can be approved. All students who apply for financial aid must sign a Registration Compliance Statement giving their selective service registration status before financial aid can be awarded. All students receiving Federal Pell Grants must also sign an Anti-Drug Abuse statement certifying that they will not violate drug laws, "in conducting any activity with the grant."

Deadlines for Applying

Application for financial assistance received by the following dates will be given first priority:

- Academic Year — May 1
- Spring Only — October 1
- Summer Sessions — April 1

APPLICATIONS RECEIVED AFTER THESE DATES WILL BE PROCESSED AS TIME AND AVAILABILITY OF FUNDS PERMIT. Late applicants need to be prepared to pay their own registration costs until their application can be completed. Applicants should contact the Financial Aid Office at the school to which they plan to attend for additional deadlines and requirements.

The student must reapply for financial assistance once each academic year (fall/spring). The award does not continue automatically beyond the period awarded.

Grants

Federal Pell Grant

The Federal Pell Grant is a federally-funded program designed to help undergraduate pre-baccalaureate students continue their education. The purpose of this program is to provide eligible students with a "foundation" of financial aid to assist with the cost of attending college.

All students applying for financial assistance through the College must apply for a Federal Pell Grant. This is done through the FAFSA application discussed earlier. Other types of financial aid may be awarded if the student applies and qualifies. Eligibility for Federal Pell Grant is based on financial need and satisfactory academic progress. Applications and additional information concerning the Pell Grant Program are available in the Financial Aid Office and
in the counseling offices of most high schools. The application process takes approximately 8-10 weeks. In response to the Federal Pell Grant application, a Student Aid Report (SAR) will be mailed directly to the student. The student should immediately review the SAR to make sure it is correct, sign the certification statement, and bring all copies to the Financial Aid Office. The exact amount of the Federal Pell Grant award will depend upon the Estimated Family Contribution (EFC) on the SAR and the number of hours for which the student enrolls.

**Federal Supplemental Educational Opportunity Grant (SEOG)**
The Federal SEOG program provides assistance for eligible undergraduate students who show exceptional financial need and are making satisfactory academic progress toward their educational goal. The maximum award for an academic year is $4,000; however, the actual amount of the grant may be limited to less than this, depending on the availability of funds at the school, the student’s family financial condition and other financial aid the student is receiving. Priority is given to students receiving the Federal Pell Grant. Students must apply each year for the Federal SEOG Grant.

**Texas Public Educational Grant (TPEG)**
The TPEG Program was enacted by the 64th Texas legislature to assist needy students attending state supported colleges in Texas. To be eligible students must show financial need and be making satisfactory academic progress toward their educational goal. The actual amount of the grant will vary depending on the availability of funds at the school, the student’s family financial condition and other financial aid the student is receiving. This grant is available to students enrolled in credit and certain non-credit courses. Students must apply each year for the TPEG grant.

**Texas Public Educational-State Student Incentive Grant (TPE-SSIG)**
The TPE-SSIG Program is a state grant that is matched with federal funds to provide financial assistance to needy students attending state-supported colleges in Texas. No more than 10% of the funds may be awarded to non-resident students. To qualify, students must show satisfactory academic progress toward their educational goal and have financial need. The maximum grant for an academic year is $5,000; however, the actual amount of the grant award may be less depending on the availability of funds and the degree of financial need. Grants are awarded by eligibility on a first-come, first-served basis. Students must apply each year for the TPE-SSIG grant.

**Scholarships**

**DCCCD Foundation Scholarships**
The DCCCD Foundation provides a scholarship program for students who attend the colleges of the DCCCD. These funds are made available through the colleges to needy students who also meet additional criteria of the scholarship funds. Students holding student visas are not eligible. Application forms for these Foundation scholarships and information concerning other requirements and deadlines are available in the Financial Aid Office at each college.

**Miscellaneous Scholarships**
Several of the colleges have a limited number of scholarships available as a result of gifts from individuals, private industry, and community organizations. Generally, the eligibility criteria is the same as noted for the DCCCD Foundation Scholarships, and application forms are available in the Financial Aid Office.

**Loans**

**Federal Stafford Loans (formerly GSL):**
The Higher Education Act of 1965, as amended, provided for student loans from private commercial lending agencies such as banks, savings and loan associations, credit unions and insurance companies. To be eligible students must now have financial need, make satisfactory academic progress toward their educational goal, and be enrolled for at least six (6) credit hours. As an undergraduate, the student may borrow up to $2,625 per year for the first year and $3,500 for the second year, with a maximum of $23,000 for all years of undergraduate study. The actual loan amount may be limited to less than this, depending on the cost of attendance, other financial aid, and family financial condition.

The interest rate is variable with a maximum of 9%. Borrowers do not pay interest until six months after ceasing at least half-time enrollment. The U.S. Dept. of Education pays the interest during the time the student is enrolled and during the grace period of six months following enrollment. Repayment begins six months after the student leaves school or drops to less than half-time enrollment. The minimum payment will be $50 per month, and the loan must be repaid within 10 years. Lenders may charge a loan origination fee on each loan in addition to the insurance premium charged on the loan. These charges will be deducted from the proceeds of the loan.

**Federal Unsubsidized Stafford Loans**
The Federal Unsubsidized Stafford Loan program was created by the Higher Education Amendments of 1992 and is available for all students regardless of income. The interest rate and loan limits are the same as the Federal Stafford Loan Program. Interest payments begin the day the loan is disbursed and the student is responsible for interest accrued during in-school and deferment periods. Repayment of principle begins 6 months after the student ceases to be enrolled at least half-time.

**Federal Supplemental Loans to Students (FSLs)**
Under the Federal Supplemental Loans to Students (FSLs) Program, independent undergraduate students may be eligible to borrow up to $4,000 each year for the first two years of academic study. Legislation requires an undergraduate to complete a needs analysis to determine
whether there is federal aid eligibility before a Federal SLS can be completed. The loan maximum is $23,000 for all the years of undergraduate study. The interest rate is variable with a maximum of 11%. For students receiving FLS only, lenders should be contacted regarding repayment. Most lenders will capitalize the interest if the payments are deferred.

**Federal Parent Loan for Undergraduate Students (FPL US)**

Under the Federal Parent Loan for Undergraduate Students, parents may now borrow up to the cost of education, less other aid, per year for each dependent undergraduate student. The interest rate is variable with a cap of 10%. Repayment of principle and interest begins within 60 days after disbursement of the loan. The parents credit rating will be checked to determine eligibility and disbursement checks will be made co-payable to the parent and the institution.

**Hinson-Hazlewood College Student Loan Program (HHCSLP)**

The Hinson-Hazlewood Loan is a state-funded Federal Stafford Student Loan Program for students who are attending Texas colleges and are eligible to pay Texas resident tuition rates. All Hinson-Hazlewood Loan applicants must demonstrate financial need before a loan can be approved. The loan limit is $2,625 for the first year and $3,500 for the second year of undergraduate study and a maximum of $23,000 for all years of undergraduate study. The actual loan amount may be limited to less than this depending on the cost of attendance, other financial aid, and the family’s financial condition. A loan origination fee and an insurance premium on the life of the student will be taken from the total amount of each loan. No interest or payments are paid by the student while enrolled at least half-time or during the six-month grace period. The interest rate will be variable and will be disclosed by the Coordinating Board at time of disbursement. The minimum payment will be $50 per month over a 5- to 10-year period dependent on the total amount borrowed. Participation in this loan program is on an individual campus basis.

**Emergency Short-Term Loans**

The colleges of the DCCCD have limited short-term loan funds available which have been established by individuals and organizations, including the DCCCD Foundation, to meet emergency needs to students. Loans are usually limited in amount and bear no interest. These loans must be repaid within 60 days of the date of the loan or the end of the term. A late fee of $10 will be added for late payment. Because the funds are very limited, students should apply early if financial assistance is needed for registration costs.

**Employment**

**Federal Work-Study Program (FWSP)**

The Federal Work-Study Program provides part-time employment for students with financial need who are making satisfactory academic progress toward their educational goal. The wage rate is $4.25 per hour and most students work 15 to 20 hours per week. Students will be paid on the last working day of the month. The amount students can earn in a school year is determined by the amount of their financial need and other aid awarded as part of their financial aid package. The majority of the students are employed on campus; however, some off-campus employment is also available. Students must apply each year for Federal Work-Study.

**Student Assistants Employment Program (Non-Work-Study)**

Part-time employment for students who do not have financial need is available on campus. The wage rate and the average hours worked per week are the same as the Federal Work-Study Program.

**Off-Campus Employment**

Students who need help finding a job off-campus should apply at the Placement Office of the college they plan to attend. The wage rate varies with each job and financial need is not a requirement of employment.

---

### Sample Repayment Schedule

The chart below shows estimated monthly payments and total interest charges for 9% loans of varying amounts, with typical repayment periods. Remember that 9% is the highest the interest rate can be. Your rate may be lower.

Tuition Exemption Programs
In addition to the grants, scholarships, employment and loan programs already mentioned, the State of Texas and DCCCD offer a number of exemptions from tuition and fee charges. These exemptions are often overlooked simply because of their unusual nature. They are not related to family income or “financial need,” nor do they require completion of a regular financial aid application. Check with the Business Office for information concerning tuition exemption programs and the criteria for eligibility.

Vocational Rehabilitation
The Texas Rehabilitation Commission offers assistance for tuition and fees to students who are vocationally challenged as a result of a physically- or mentally-disabling condition. This assistance is generally limited to students not receiving other types of aid. For information, contact Texas Rehabilitation Commission, 13612 Midway, Suite 530, Dallas, Texas 75234.

Bureau of Indian Affairs
The Bureau Of Indian Affairs offers educational benefits to American Indian/Native American students. Students need to contact the regional Bureau of Indian Affairs Office regarding eligibility.
Bureau of Indian Affairs

P.O. Box 368
Anadarko, OK 73005
(405) 247-6673

Veteran's Benefits Programs
The Veteran's Benefits Programs are coordinated by the Veterans' Services Office of the College. Services of this office include counseling the veteran concerning benefits, Veterans' Administration loans, Veterans' Administration work study programs, financial problems, career counseling, and other areas related to the veteran's general welfare. Tutoring services are also available to the veteran who is having learning difficulties in one or more subjects. The veteran student should be aware of the Veterans' Administration guidelines and should consult them before taking developmental or television courses. Violation of these guidelines causes complications in receiving monthly benefits or loss of those benefits.

1. A veteran student who plans to enroll in developmental courses must be tested and show a need in basic skills before enrolling in these courses.
2. A veteran student enrolled in television courses must be enrolled in three on-campus semester credit hours. VA payments for TV courses are limited to five semester credit hours per student.
3. A veteran student who has successfully completed credit hours at another college or university before applying for V.A. benefits must submit official academic transcripts to the Admissions Office. The transcript is evaluated and credit granted when applicable. The Admissions Office will evaluate all previous course work and prepare an educational plan.
4. A veteran student must enroll in courses required for a degree program. Information about degree requirements may be obtained from the Admissions Office.
5. A veteran student who withdraws from all courses attempted during a semester is considered as making unsatisfactory progress by the V.A. and may lose future benefits. A veteran student must also maintain a satisfactory grade point average as outlined in this catalog.

The above V.A. regulations are subject to change without notice. Students should contact the Veterans' Services Office in order to be aware of current regulations and procedures.

Hazlewood Act
Under the Hazlewood Act, certain Texas veterans who have exhausted remaining educational benefits from the Veterans' Administration can attend Texas state supported institutions and have some fees waived. To be eligible, students must have been residents of Texas at the time they entered the service, have an honorable discharge, must now be residents of Texas, and be ineligible for federal grants. Applications are available at the Financial Aid Office and will take a minimum of eight weeks to process. To apply, students must submit a Hazlewood Act application, a copy of their discharge papers and a Student Aid Report stating ineligibility to the Financial Aid Office.

Academic Progress Requirements
To comply with applicable laws and accreditation standards the Dallas County Community College District has developed a policy describing satisfactory progress for both applicants and recipients of student financial aid.
STUDENT FINANCIAL AID STANDARDS OF ACADEMIC PROGRESS

I. Purpose and Scope
The following Standards of Academic Progress are effective beginning with the fall 1993 semester and are adopted according to federal mandates for the purpose of determining continuing student eligibility for financial aid. These Standards shall apply to all need-based financial assistance, unless the terms of a particular grant provide otherwise. These provisions apply only to students who apply and are awarded financial aid.

II. Grade Point Average (GPA) Requirement
A. All new and continuing students applying for financial assistance must have a cumulative GPA that meets the District’s requirements (see following chart) on all credit hours earned from District colleges prior to the semester for which aid is requested.
B. Transfer students from colleges outside the district may be eligible for funding only on a probationary basis (unless an academic transcript is provided to the Financial Aid Office indicating a cumulative GPA of at least 2.0).
C. Each fall and spring semester students must complete both the minimum number of hours from those attempted as well as achieve the Cumulative GPA requirements. The following chart states the minimums that all Financial Aid students must meet:

<table>
<thead>
<tr>
<th>Semester Requirements</th>
<th>Cumulative GPA Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hours Attempted</td>
<td>Hours Required to Complete</td>
</tr>
<tr>
<td>12 or more</td>
<td>9</td>
</tr>

<td>9 to 11</td>
<td>6</td>
</tr>
<tr>
<td>6 to 8</td>
<td>6</td>
</tr>
<tr>
<td>5 or less</td>
<td>All</td>
</tr>
</tbody>
</table>

III. Failure to Meet the Standards of Academic Progress
In these provisions, probation or suspension refers only to financial aid probation or suspension.
A. Following the first semester in which the above standards of academic progress are not met, the student will be placed on probation for the next semester of funding.
B. The student may be allowed to receive financial aid funds while on probation, but must complete the subsequent term by meeting all of the minimum requirements at the close of that term.
C. The student who fails to meet the Standards of Academic Progress during the semester of attendance while on probation will be placed on suspension and denied further funding for one semester.
D. During the first period of suspension, the student must enroll at least half-time (6 credit hours) for one semester at a District college, pay the expenses related to that enrollment and pass the semester with a GPA of 2.0 or better.
E. If failure to meet satisfactory progress results in a second (or any subsequent) suspension from financial aid, the student must enroll in at least 6 credit hours and complete the semester with a GPA of 2.0 or better.
F. Students who have been reinstated from any suspension status may continue only on a probationary status for at least one term, regardless of their CGPA at the time of reinstatement.
G. Students placed on probation or suspension will be notified in writing of their status at the end of the semester.
H. If failure to meet Satisfactory Progress results in a third suspension from Financial Aid, no additional aid will be awarded.

IV. Appeal Process
A student who has been denied financial aid because of a failure to meet any of the criteria of the standards may petition the Director of Financial Aid to consider any mitigating circumstances. The student’s appeal must be in writing and supporting documentation regarding special circumstances must be provided. Should the Director deny a reinstatement of aid, the student may appeal the Director’s decision by following the same procedure of written appeal to the appropriate vice president overseeing the aid office.

V. Maximum Time Allowed For Completion of Educational Objectives
All financial aid recipients will have a maximum time frame in which to complete their educational requirements of 75 credit hours.

Additional Information
A. Financial Aid will not be provided for:
   • courses taken by audit;
   • credit hours earned by placement tests;
   • non-credit coursework;
   • any course registered for after the last official day of late registration (i.e. flex entry, fast track, mini term courses);
   • transfer students attending for summer only.
B. Grades of “W”, “WX” or “I” will not be treated as completed coursework.
C. An “F” grade is a completed grade and will be taken into consideration when calculating the number of hours completed and CGPA.
D. Developmental remedial coursework may receive funding up to a maximum of “30 credit hours” according to Federal Regulations.
E. Support Services: Many services are available at each district college to help students attain academic success. The services include Counseling, Testing, Tutoring, Health Services, Placement, the Career Development Center, and the Learning Resource Center. Information on such services shall be made available to all financial aid students.
1. PURPOSE

The purpose of this document is to provide guidelines to the educational environment of the Dallas County Community College District. This environment views students in a holistic manner, encouraging and inviting them to learn and grow independently. Such an environment presupposes both rights and responsibilities. Free inquiry and expression are essential parts of this freedom to learn, to grow, and to develop. However, this environment also demands appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students must exercise these freedoms with responsibility.

2. POLICIES, RULES, AND REGULATION

a. Interpretation of Regulations

Disciplinary regulations at the college are set forth in writing in order to give students general notice of prohibited conduct. The regulations should be read broadly and are not designed to define misconduct in exhaustive terms.

b. Inherent Authority

The college reserves the right to take necessary and appropriate action to protect the safety and well-being of the campus community.

c. Student Participation

Students are asked to assume positions of responsibility in the college judicial system in order that they might contribute their skills and insights to the resolution of disciplinary cases. Final authority in disciplinary matters, however, is vested in the college administration and in the Board of Trustees.

d. Standards of Due Process

Students who allegedly violate provisions of this code are entitled to fair and equitable proceedings under this code.

The focus of inquiry in disciplinary proceedings shall be the guilt or innocence of those accused of violating disciplinary regulations. Formal rules of evidence shall not be applicable, nor shall deviations from prescribed procedures necessarily invalidate a decision or proceeding, unless significant prejudice to a student respondent or the college may result.

e. Prohibited Conduct

Students may be accountable to both civil authorities and to the college for acts which constitute violations of law and this code. Disciplinary action at the college will normally proceed during the pendency of criminal proceedings and will not be subject to challenge on the ground that criminal charges involving the same incident have been dismissed or reduced.

f. Definitions

In this code:

(1) "aggravated violation" means a violation which resulted or foreseeably could have resulted in significant damage to persons or property or which otherwise posed a substantial threat to the stability and continuance of normal college or college-sponsored activities.

(2) "cheating" means intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.

(3) "college" or "institution" means the colleges of the Dallas County Community College District.

(4) "college premises" means buildings or grounds owned, leased, operated, controlled, or supervised by the college.

(5) "college-sponsored activity" means any activity on or off campus, which is initiated, aided, authorized, or supervised by the college.

(6) "collusion" means the unauthorized collaboration with another person in preparing work offered for credit.

(7) "complaint" means a written summary of essential facts which constitute an alleged violation of published college regulation or policy.

(8) "controlled substance" and "illegal drugs" are those as defined by the state-controlled substances act, as amended.

(9) "distribution" means sale or exchange for personal profit.

(10) "fabrication" means intentional and unauthorized falsification or invention of any information or citation in an academic exercise.

(11) "group" means a number of persons who are associated with each other and who have not complied with college requirements for registration as an organization.

(12) "hazing" is defined in Appendix B of this code.

(13) "intentionally" means conduct that one desires to engage in or one's conscious objective.

(14) "organization" means a number of persons who have complied with college requirements for registration.

(15) "plagiarism" means intentionally representing the words or ideas of another as one's own in any academic exercise.

(16) "published college regulation or policy" means standards of conduct or requirements located in the:

(a) College Catalog

(b) Board of Trustees Policies and Administrative Procedures Manual

(c) Student Handbook

(d) Any other official publication

(17) "reckless" means conduct which one should reasonably be expected to know would create a substantial risk or harm to persons or property or which would otherwise be likely to result in interference with normal college or college-sponsored activities.

(18) "sanctions" means any or all of the punitive actions described in Appendix A of this code.

(19) "student" means a person who has paid fees and is taking or auditing courses through the Dallas County Community College District.

(20) "violation" means an act or omission which is contrary to a published college regulation or policy.

(21) "weapon" means any object or substance designed to inflict a wound, cause injury, or incapacitate, including, but not limited to, all firearms, knives, clubs, or similar weapons which are defined and prohibited by the state penal code, as amended.

(22) "will" and "shall" are used in the imperative sense.

g. Prohibited Conduct

The following misconduct is subject to disciplinary action:

(1) intentionally causing physical harm to any person on college premises or at college-sponsored activities, or intentionally or recklessly causing reasonable apprehen-
sion of such harm or hazing

(2) unauthorized use, possession, or storage of any weapon on college premises or at college-sponsored activities.

(3) intentionally initiating or causing to be initiated any false report, warning or threat of fire, explosion or other emergency on college premises or at college-sponsored activities.

(4) intentionally interfering with normal college or college-sponsored activities, including, but not limited to, studying, teaching, research, college administration, or fire, security, or emergency services.

(5) knowingly violating the terms of any disciplinary sanction imposed in accordance with this chapter.

(6) unauthorized distribution or possession for purposes of distribution of any controlled substance or illegal drug on college premises or at college-sponsored activities.

(7) intentionally furnishing false information to the college.

(8) forgery, unauthorized alteration, or unauthorized use of any college document or instrument of identification.

(9) unauthorized use of computer hardware or software.

(10) all forms of academic dishonesty, including cheating, fabrication, facilitating academic dishonesty, plagiarism, and collusion.

(11) intentionally and substantially interfering with the freedom of expression of others on college premises or at college-sponsored activities.

(12) theft of property or of services on college premises or at college-sponsored activities; having possession of stolen property on college premises or at college-sponsored activities.

(13) intentionally destroying or damaging college property or property of others on college premises or at college-sponsored activities.

(14) failure to comply with the direction of college officials, including campus security/safety officers, acting in performance of their duties.

(15) violation of published college regulations or policies. Such regulations or policies may include those relating to entry and use of college facilities; use of vehicles and media equipment, campus demonstrations, misuse of identification cards, and smoking.

(16) use or possession of any controlled substance or illegal drug on college premises or at college-sponsored activities.

(17) unauthorized presence on or use of college premises.

(18) nonpayment or failure to pay any debt owed to the college with intent to defraud.

(19) use or possession of an alcoholic beverage on college premises with the exception of specific beverage-related courses within the El Centro food service program.

Sanctions for violations of prohibited conduct for (1) through (6) may result in EXPULSION; for (7) through (12) may result in SUSPENSION; for (13) through (19) may result in sanctions other than expulsion or suspension.

Repeated or aggravated violations of any provision of this code may also result in expulsion or suspension or in the imposition of such lesser penalties as are appropriate.

3. DISCIPLINARY PROCEEDINGS

a. Administrative Disposition

(1) Investigation, Conference and Complaint

(a) When the Vice President of Student Development (VPSD as referred to in this code) receives information that a student has allegedly violated a published college regulation or policy, the VPSD or a designee shall investigate the alleged violation. After completing the preliminary investigation, the VPSD may:

(i) Dismiss the allegation as unfounded, either before or after conferring with the student; or

(ii) Proceed administratively and impose disciplinary action; or

(iii) Prepare a complaint based on the alleged violation for use in disciplinary hearings along with a list of witnesses and documentary evidence supporting the allegation.

The VPSD will notify the complainant of the disposition of the complaint. If the VPSD dismisses the allegation, the complainant may appeal to the President for review in writing within (5) working days after disposition.

(b) The President or a designee may suspend a student immediately and without prior notice for an interim period pending disciplinary proceedings, when there is evidence that the continued presence of the student on college premises poses a substantial threat to himself or herself, to others, or to the stability and continuance of normal college functions. A student who is suspended on an interim basis shall be given an opportunity to appear before the President or a designee within five (5) working days from the effective date of the interim suspension. A hearing with the President shall be limited to the following issues only.

(i) the reliability of the information concerning the student's conduct, including the matter of his or her identity; and

(ii) whether the conduct and surrounding circumstances reasonably indicate that the student's continued presence on college premises poses a substantial threat to himself or herself, to others or to the stability and continuance of normal college functions.

After the hearing, the President or designee may modify the interim suspension as reasonable to protect the student, public, and college.

(c) No person shall search a student's personal possessions for the purpose of enforcing this code unless the student's prior permission has been obtained or unless a law enforcement officer conducts the search as authorized by law.

(2) Summons

(a) The VPSD shall summon a student regarding an alleged violation of this code by sending the student a letter. The letter shall be sent by certified mail, return receipt requested, addressed to the student at his or her last known address as it appears in the records of the Registrar's Office or shall be delivered personally to the student.

(b) The letter shall direct a student to appear at a specific time and
(c) The VPSD has authority to place a student on disciplinary probation if the student fails, without good cause, to comply with a letter of summons, or to apply sanctions against the student as provided in this code.

(3) Disposition

(a) At a conference with a student in connection with an alleged violation of this code, the VPSD shall provide the student with a copy of this code and discuss administrative disposition of the alleged violation.

(i) If a student accepts the administrative disposition, the student shall sign a statement that he or she understands the charges, his or her right to a hearing or to waive same, the penalty or penalties imposed, and that he or she waives the right to appeal. The student shall return the signed form by 5:00 p.m. of the day following administrative disposition.

(ii) If a student refuses administrative disposition of the alleged violation, the student is entitled to a hearing as provided herein. The VPSD shall note the date of refusal in writing and the student shall acknowledge in writing such date.

Administrative disposition means:

- the voluntary acceptance of the penalty or penalties provided in this code,
- other appropriate penalties administered by the VPSD,
- without recourse by the student to hearing procedures provided herein.

(b) The VPSD shall prepare an accurate, written summary of each administrative disposition and send a copy to the student (and, if the student is a minor, to the parent or guardian of the student), to the Director of Campus Security, to the complainant, and to other appropriate officials.

b. Student Discipline Committee

(1) Composition: Organization

(a) When a student refuses administrative disposition of a violation, the student is entitled to a hearing before the Student Discipline Committee. The hearing request must be made to the VPSD in writing; on or before the sixth (6th) working day after the date of refusal of administrative disposition. The committee shall be composed of equal numbers of students, administrators and faculty of the college. The committee and its chair shall be appointed by the President for each hearing on a rotating basis or on a basis of availability. The committee chair will be selected from the administration or faculty.

(b) The chairman of the committee shall rule on the admissibility of evidence, motions, and objections to procedure, but a majority of the committee members may override the chairman's ruling. All members of the committee are expected to attend all meetings and are eligible to vote in the hearing.

(c) The chairman shall set the date, time, and place for the hearing and may summon witnesses and require the production of documentary and other evidence.

(d) The VPSD shall represent the college before the Student Discipline Committee and present evidence to support any allegations of violations.

(2) Notice

(a) The committee chairman shall notify the student of the date, time, and place for the hearing by sending the student a letter by certified mail, return receipt requested, addressed to the student at his or her address appearing in the Registrar's Office records. The letter shall specify a hearing date not less than five (5) nor more than ten (10) working days after date of the letter. If a student is under 18 years of age, a copy of the letter shall be sent to the parents or guardian of the student.

(b) The chairman may for good cause postpone the hearing so long as all interested parties are notified of the new hearing date, time, and place.

(c) The notice shall advise the student of the following rights:

(i) To a private hearing or a public hearing (as he or she chooses);

(ii) To appear alone or with legal counsel if the alleged violation subjects the student to expulsion or suspension. The role of legal counsel is limited as provided in the code;

(iii) To have a parent or legal guardian present at the hearing;

(iv) To know the identity of each witness who will testify;

(v) To cause the committee to summon witnesses, and to require the production of documentary and other evidence possessed by the College;

(vi) To cross-examine each witness who testifies;

(d) A student who fails to appear after proper notice and without good cause will be deemed to have pleaded guilty to the violation pending against him. The committee shall impose appropriate penalty and notify the student in the same manner as the notice of hearing.

(e) Legal counsel who represents a student in a hearing where the alleged violation subjects the student to expulsion or suspension is limited to advising and assisting the student. This limitation means that legal counsel shall not cross-examine witnesses, make objections, testify, or perform other similar functions generally associated with legal representation. The same preceding limitation applies to counsel who represents the college. Student representation by legal counsel is not permitted in a hearing where the alleged violation does not subject the student to expulsion or suspension.

(3) Preliminary Matters

(a) Charges arising out of a single transaction or occurrence, against one or more students, may be heard together, or, upon request by one of the students-in-interest, separate hearings may be held.

(b) There will be disclosure of all evidence to both sides prior to the hearing.

(c) At least by 12:00 noon, five (5) full working days before the hearing date, the student concerned shall furnish the committee chairman with;

(i) The name of each witness he or she wants summoned and a description of all documentary and other evidence possessed by the college which he or she wants produced.

(ii) An objection that, if sustained by the chairman of the Student Disciplinary Committee, would prevent the hearing;

(iii) The name of the legal counsel, if any, who will appear with the student;

(iv) A request for a separate hearing, if any, and the grounds for such a request.

(a) The hearing shall be conducted by the chairman who shall
(4) Procedure

provide opportunities for witnesses to be heard. The college will be represented by legal counsel if the student is represented by legal counsel in a hearing where the student is subject to expulsion or suspension.

(b) If a hearing may result in expulsion or suspension of a student, the college will have a court reporter present to transcribe the proceedings. If a hearing will not result in expulsion or suspension of a student, legal representation is not permitted and recording of the hearing by any means is not permitted unless authorized by law.

(c) If the hearing is a private hearing, the committee shall proceed generally as follows:

(i) Persons present: the complainant, the VPSD and the student with a parent or guardian if desired.
(ii) Before the hearing begins, the VPSD or the student may request that witnesses remain outside the hearing room.
(iii) The VPSD shall read the complaint.
(iv) The VPSD shall inform the student of his or her rights, as stated in the notice of hearing.
(v) The VPSD shall present the college’s case.
(vi) The student may present his or her defense.
(vii) The VPSD and the student may present rebuttal evidence and argument.
(viii) The committee, by majority vote, shall determine the guilt or innocence of the student regarding the alleged violation.
(ix) The committee shall state in writing each finding of a violation of a published college regulation or policy. Each committee member concurring in the finding shall sign the statement. The committee may include in the statement its reasons for the finding. The committee shall notify the student in the same manner as the notice of hearing.
(x) A determination of guilt shall be followed by a supplemental proceeding in which either party may submit evidence or make statements to the committee concerning the appropriate penalty to be imposed. The past disciplinary record of a student shall not be submitted to the committee prior to the supplemental proceeding. The committee shall determine a penalty by majority vote and shall inform the student, in writing, of its decision as in (ix) above.

(d) If the hearing is a public hearing, the committee shall proceed generally as follows:

(i) Persons present: the complainant, the VPSD and the student with a parent or guardian if desired. Designated college representatives for the following groups may have space reserved if they choose to attend:
- Faculty Association
- College Newspaper
- President
Other persons may attend based on the seating available. The Chairman may limit seating accommodations based on the size of the facilities.
(ii) Before the hearing begins, the VPSD or the student may request that witnesses remain outside the hearing room.
(iii) The VPSD shall read the complaint.
(iv) The VPSD shall inform the student of his or her rights, as stated in the notice of hearing.
(v) The VPSD shall present the college’s case.
(vi) The student may present his or her defense.
(vii) The VPSD and the student may present rebuttal evidence and argument.
(viii) The committee, by majority vote, shall determine the guilt or innocence of the student regarding the alleged violation.
(ix) The committee shall state in writing each finding of a violation of a published college regulation or policy. Each committee member concurring in the finding shall sign the statement. The committee may include in the statement its reasons for the finding. The committee shall notify the student in the same manner as the notice of hearing.
(x) A determination of guilt shall be followed by a supplemental proceeding in which either party may submit evidence or make statements to the committee concerning the appropriate penalty to be imposed. The past disciplinary record of a student shall not be submitted to the committee prior to the supplemental proceeding. The committee shall determine a penalty by majority vote and shall inform the student, in writing, of its decision as in (ix) above.

(5) Evidence

(a) Legal rules of evidence shall not apply to hearings under this code. Evidence that is commonly accepted by reasonable persons in the conduct of their affairs is admissible. Irrelevant, immaterial, and unduly repetitious evidence may be excluded.

(b) The committee shall recognize as privileged communications between a student and member of the professional staff of the Health Center, Counseling or Guidance Center where such communications were made in the course of performance of official duties and when the matters discussed were understood by the staff member and the student to be confidential. Committee members may freely question witnesses.

(c) The committee shall presume a student innocent of the alleged violation until there is a preponderance of evidence, presented by the VPSD, that the student violated a published college regulation or policy.

(d) All evidence shall be offered to the committee during the hearing.

(e) A student defendant may choose not to testify against himself or herself. The committee will make a determination based on the evidence presented.

(6) Record

The hearing record shall include: a copy of the notice of hearing; all documentary and other evidence offered or admitted in evidence; written motions, pleas, and other materials considered by the committee; and the committee’s decisions.

(7) Petition for Administrative Review

(a) A student is entitled to appeal in writing to the President who may alter, modify, or rescind the finding of the committee and/or the penalty imposed by the committee. A student is ineligible to appeal if the penalty imposed is less than suspension or expulsion. The President shall automatically review every penalty of expulsion. Sanctions will not be imposed while appeal is pending.

(b) A student is entitled to appeal in writing to the Board of Trustees through the President, the Chancellor, and the Chairman of the Board. An appeal from the Student Discipline Committee is by review of the record (not de novo).

(c) A petition for review is informal but shall contain, in addition to the information required, the date of the Student Discipline Committee’s action and the student’s reasons for disagreeing with the committee’s action. A student shall file his or her petition with the President on or before the third working day after the day the Discipline committee determines the penalty. The President may deny the petition and the student wishes to petition the Chancellor, he or she shall file the petition with the Chancellor on or before the third working day after the day the Discipline Committee determines the penalty. If the President rejects the petition, and the student wishes to petition the Chancellor, he or she shall file the petition with the Chancellor on or before the third working day after the day the Discipline Committee determines the penalty. If the President rejects the petition, and the student wishes to petition the President, the Chancellor, or the Board of Trustees, he or she shall file the petition with the President, the Chancellor, or the Board of Trustees, as noted in section (b) above. If the President rejects the petition, the student wishes to petition the Chancellor, he or she shall file the petition with the Chancellor on or before the third working day after the President rejects the petition in writing. If the Chancellor rejects the petition, and the student wishes to petition the Board of Trustees, he or she shall file the petition with the Board of Trustees on or before the third working day after the Chancellor rejects the petition in writing. The Board of Trustees may deny the petition or, at the request of the appellant, may direct a hearing on the petition. The Board of Trustees shall not be bound by the findings of the Student Discipline Committee or by any hearing conducted on the petition.
with the Chairman of the Board on or before the third working day after the day the Chancellor rejects the petition in writing.

(d) The President, the Chancellor, and the Board of Trustees in their review may take any action that the Student Discipline Committee is authorized to take; however, none may increase the penalty. They may receive written briefs and hear oral argument during their review.

(e) The President, Chancellor and Board of Trustees shall modify or set aside the finding of violation, penalty, or both, if the substance rights of a student were prejudiced because of the Student Discipline Committee's finding of facts, conclusions or decisions were:

(i) in violation of federal or state law or published college regulation or policy;
(ii) clearly erroneous in view of the reliable evidence and the preponderance of the evidence; or
(iii) capricious, or characterized by abuse of discretion or clearly unwarranted exercise of discretion.

APPENDIX A - SANCTIONS

1. Authorized Disciplinary Penalties:

The VPSD or the Student Discipline Committee may impose one or more of the following penalties for violation of a Board policy, College regulation, or administrative rule:

a. Admonition
b. Warning probation
c. Disciplinary probation
d. Withholding of transcript of degree
e. Bar against readmission
f. Restitution
g. Suspension of rights or privileges
h. Suspension of eligibility for official athletic and nonathletic extracurricular activities
i. Denial of degree
j. Suspension from the college
k. Expulsion from the college

2. Definitions:

The following definitions apply to the penalties provided above:

a. An "Admonition" means a written reprimand from the VPSD to the student on whom it is imposed.

b. "Warning probation" means further violations may result in suspension. Disciplinary probation may be imposed for any length of time up to one calendar year and the student shall be automatically removed from probation when the imposed period expires.

c. "Disciplinary probation" means further violations may result in suspension. Disciplinary probation may be imposed for any length of time up to one calendar year and the student shall be automatically removed from probation when the imposed period expires. Students may be placed on disciplinary probation for engaging in activities as illustrated by, but not limited to the following: being intoxicated, misuse of I.D. card, creating a disturbance in or on college premises and gambling.

d. "Withholding of transcript of degree" may be imposed upon a student who fails to pay a debt owed the college or who has a disciplinary case pending final disposition or who violates the oath of residency. The penalty terminates on payment of the debt or the final disposition of the case or payment of proper tuition.

e. "Bar against readmission" may be imposed on a student who has left the College on enforced withdrawal for disciplinary reasons.

f. "Restitution" means reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

g. "Disciplinary suspension" may be either or both of the following:

(1) "Suspension of rights and privileges" is an elastic penalty which may impose limitations or restrictions to fit the particular case.

(2) "Suspension of eligibility for official athletic and nonathletic extracurricular activities": prohibits, during the period of suspension, the student on whom it is imposed from joining a registered student organization; taking part in a registered student organization's activities, or attending its meetings or functions; and from participating in an official athletic or nonathletic extracurricular activity. Such suspension may be imposed for any length of time up to one calendar year. Students may be placed on disciplinary suspension for engaging in activities as illustrated by, but not limited to the following: having intoxicating beverages in any college facility, with the exception of specific beverage related courses within the El Centro food service program; destroying property or student's personal property; giving false information in response to requests from the college; instigating a disturbance or riot; stealing, possession, use, sale or purchase of illegal drugs on or off campus; any attempt at bodily harm, which includes taking an overdose of pills or any other act where emergency medical attention is required; and conviction of any act which is classified as a misdemeanor or felony under state or federal law.

h. "Denial of degree" may be imposed on a student found guilty of scholastic dishonesty and may be imposed for any length of time up to and including permanent denial.

i. "Suspension from the college" prohibits, during the period of suspension, the student on whom it is imposed from being initiated into an honorary or service organization; entering the college campus; any attempt at bodily harm, which includes taking an overdose of pills or any other act where emergency medical attention is required; and conviction of any act which is classified as a misdemeanor or felony under state or federal law.

j. "Expulsion" is permanent severance from the college. This policy shall apply uniformly to all the colleges of the Dallas County Community College District.

In the event any portion of this policy conflicts with the state law of Texas, the state law shall be followed.

APPENDIX B - HAZING

1. Personal Hazing Offense

a. A person commits an offense if the person:

(1) engages in hazing:

(2) solicits, encourages, directs, aids, or attempts to aid another person in engaging in hazing;

(3) intentionally, knowingly, or recklessly permits hazing to occur; or

(4) has firsthand knowledge of the planning of a specific hazing incident involving a student in an educational institution, or firsthand knowledge that a specific hazing incident has occurred, and knowingly fails to report said knowledge in writing to the VPSD or other appropriate official of the institution.

b. The offense for failing to report hazing incident is a misdemeanor punishable by a fine not to exceed $1,000,
5. Definition

2. c. Any other hazing offense which does not cause serious bodily injury to another is a misdemeanor punishable by a fine of not less than $500 nor more than $1,000, confinement in county jail for not less than 90 days nor more than 180 days, or both such fine and confinement.

d. Any other hazing offense which causes serious bodily injury to another is a misdemeanor punishable by a fine of not less than $1,000 nor more than $5,000, confinement in county jail for not less than 180 days nor more than one year, or both such fine and confinement.

e. Any other hazing offense which causes the death of another is a misdemeanor punishable by a fine of not less than $5,000 nor more than $10,000, confinement in county jail for not less than one year nor more than two years, or both fine and confinement.

3. Consent Not a Defense

Consent not a defense to prosecution of a hazing offense that the person against whom the hazing was directed consented to or acquiesced in the hazing activity.

4. Immunity from Prosecution

Any person reporting a specific hazing incident involving a student in an educational institution to the VP/SD or other appropriate official of the institution is immune from liability, civil or criminal, that might otherwise be incurred or imposed as a result of the report. A person reporting in good faith or with malice is not protected.

5. Exception To Procedures

6. Appeal Committee

Student Grievance Procedure

1. Definition

Student grievance is a college-related internal problem or condition which a student believes to be unfair, inequitable, discriminatory, or a hindrance to the educational process. This includes sexual harassment that a student may suffer from another student or employee of the district.

2. Scope

This student grievance procedure is not intended to supplant the Student Code of Conduct, which allows the student procedural due process in disciplinary proceedings initiated by the college. This student grievance procedure is designed to provide the student with the opportunity to question conditions which the student believes impede his or her education or instruction. This student grievance procedure is not designed to include changes in policy nor does it apply to grading practices. Recommendations for initiating new policy or changing established policy are handled through normal administrative channels. Problems with grades will be dealt with first by the instructor, then by the division chair, and so forth to the President if necessary.

3. Limitations

The Student Grievance Procedure is not intended to supplant campus administrative procedures that address matters of policy or student grades.

4. Procedures

Students who believe that they have a college-related grievance:

a. Should discuss it with the college employee most directly responsible for the condition which brought about the alleged grievance.

b. If discussion does not resolve the matter to the student's satisfaction, the student may appeal to the next level of authority. The student may consult with the Administrative Office to determine the next level of authority.

c. If an appeal does not resolve the grievance, the student may proceed to the appropriate Vice President with a written presentation of the grievance.

d. If the Vice Presidential level of appeal does not prove satisfactory to the student, the student may appeal the grievance to an appeal committee.

5. Appeal Committee

Procedures:

Sexual Harassment:

All students and employees shall report complaints of sexual harassment to the VP/SD or college President. A complaint includes sexual harassment that a student may suffer from another student or employee, or that an employee may suffer from a student.

a. Authority for Regulations: The Board of Trustees, for the benefit of its colleges, is authorized by state law (Sec. 51.202, Education Code) to promulgate and enforce rules and regulations for the safety and welfare of students, employees, and property and other rules and regulations it may deem necessary to govern the institution, including rules for the operation and parking of vehicles on the college campuses and any other property under institutional control.

b. Authority of Campus Peace Officers: Pursuant to the provisions of Sec. 51.2203, Education Code, campus peace officers are commissioned peace officers of the State of Texas, and as such have full authority to enforce all parking regulations, and other regulations and laws within areas under the control and jurisdiction of the District. In addition, campus peace officers may enforce all traffic laws on public streets and highways which are in proximity to areas under District control. Campus peace officers may issue citations to violators or take other action consistent with the law.

c. Permits:

Vehicle: In accordance with Sec. 51.207, Education Code, each college may issue and require use of a suitable vehicle identification decal as permits to park and drive on college property. Permits may be suspended for violations of applicable state law or parking and driving regulations. Each person who is required to have a vehicle identification decal shall apply to the Department of Campus Security for the decal. No fee is charged for the decal which must be placed on the rear window of the driver's side of a motor vehicle and on the gas tank of the motorcycle or motorbike.

Handicap: All authorized decals for handicap parking areas must be displayed prior to parking in such areas.

d. Posting of Signs: Under the direction of the college president, the Department of Campus Safety shall post proper traffic and parking signs.

e. Applicability of Regulations: The rules and regulations in this Chapter apply to motor vehicles, motorbikes and bicycles on college campuses or other District property, and are enforceable against students, employees of the District and visitors.

Prohibited Acts: The following acts shall constitute violations of these regulations:

a. Speeding: The operation of a vehicle at a speed greater than is reasonable and prudent under existing conditions. The prima facie maximum reasonable and prudent speed on campus streets is twenty (20) miles per hour, and ten (10) miles per hour in parking areas, unless the street or area is otherwise posted.

b. Double parking, or otherwise parking, standing or stopping so as to impede the flow of traffic.

c. Driving the wrong way on a one-way street or lane.

d. Driving on the wrong side of the roadway.

e. Improper parking, so that any portion of a vehicle is outside the marked limits of a parking space.

f. Parking in unauthorized areas, as illustrated by, but not limited to those areas posted as visitor parking, no parking, handicapped parking or loading zones, designated crosswalks, motorcycle areas, or other unauthorized areas as designated by sign.

g. Parking trailers or boats on campus.
h. Parking or driving in areas other than those designated for vehicular traffic, as illustrated by, but not limited to courtyards, sidewalks, lawns, or curb areas.

i. Failure to display a parking permit.

j. Collision with another vehicle, a person, sign or immovable object.

k. Reckless driving.

l. Failure to yield the right-of-way to pedestrians in designated crosswalks.

m. Violation of any state law regulating vehicular traffic.

3. Tow-away Areas: A vehicle may be towed if parked without authority in the following areas:

a. Handicapped parking.

b. Fire lanes.

c. Courtyards.

d. "No Parking" zones.

e. Areas other than those designated for vehicular traffic.

f. Other unauthorized areas as designated by sign.

4. Citations:

a. Types: Citations shall be of two types:

(1) Campus Citations: A campus citation is a notice that the alleged violator's parking and driving privilege or permit has been suspended pending appeal or disposition.

(2) Court Citations: A court citation is a notice of alleged violation of the type used by the Texas Highway Patrol, as authorized by Education Code, Sec. 51.206. Generally, such citations shall be used for violations by visitors, other persons holding no college permit, and employees of the District for excessive violations. However, such citations may be used for the enforcement of any provisions of these regulations.

b. Disposition

(1) Campus Citation: A campus citation is returnable to the Department of Campus Safety, and a permit or driving privilege may be reinstated by the payment of a five dollar ($5.00) service charge per citation at the college business office.

(2) Court Citation: A court citation is returnable to the justice or municipal court in which the case is filed. Disposition of the citation may be made in the same manner as any other criminal case within the jurisdiction of such court.

5. Suspension Review: A person receiving a campus citation shall have
the right to appeal the suspension of rights by submitting to the college safety committee, within ten (10) days after the date of violation, notice of appeal in writing, which shall state the reasons for such appeal.

6. Safety Committee: The safety committee shall consist of not less than three (3) persons appointed by the President, none of whom shall be a campus peace officer. The committee shall meet as needed, but not less than five (5) business days after receipt of notice of appeal. Notice of such meetings shall be given to an appellant not less than twenty-four (24) hours prior thereto.

7. Penalties

a. Impoundment: Failure to pay the service charge within ten (10) days after receipt thereof, or, if appealed, within ten (10) days after denial of appeal, shall result in impoundment of the vehicle, denial of readmission to any District college, and withholding of any transcript or degree. If a vehicle is impounded, the owner is liable for any wrecker charges and storage fees in addition to the service charge.

b. Multiple Citations: Receipt of four (4) citations during the period from August 15 of a year to August 14 of the year following will result in suspension of the parking and driving permit or driving privilege for the balance of such year.

c. Court Citations: Penalties for convictions in municipal or justice court are as prescribed by state law, not to exceed $200 per conviction.

8. Miscellaneous: The District nor any of its colleges or employees are responsible for damage to or theft of a vehicle or its contents while on the college campus.

Communicable Disease Policy

The Board acknowledges the serious threat to our community and nation posed by the AIDS epidemic. This policy and other procedures developed by the Chancellor shall emphasize educating employees and students concerning AIDS and managing each case of AIDS individually with sensitivity, flexibility, and concern for the individual as well as employees and students. In addition, this policy defines and addresses other communicable diseases which from time to time arise in the colleges and District among students and employees.

The District's decisions concerning a person who has a communicable disease shall be based upon current and well-informed medical judgement which includes the nature of the disease, risk of transmission to others, symptoms and special circumstances of the person, and balancing identifiable risks and available alternatives to respond to a student or employee with a communicable disease.

Discrimination

Students: No student will be required to cease attending a college or participating in college functions solely on the basis of diagnosis of a communicable disease.

Employees: An employee who has a communicable disease will be treated in the same manner as other employees who have other illnesses or injuries.

Confidentiality

The District shall comply with applicable statutes and regulations which protect the privacy of persons who have a communicable disease.

Education

The Chancellor shall develop and maintain a comprehensive educational program regarding HIV infection for students and employees.

Each college shall have a Communicable Disease Coordinator. The coordinator shall be a registered nurse who has received training in communicable diseases, particularly HIV infection. A student or employee who has a communicable disease is strongly encouraged to report the disease to the coordinator.

Counseling

The Communicable Disease Coordinator shall refer students and employees to sources of testing for HIV infection and counseling upon voluntary request. An individual shall bear the expenses of such testing and counseling.

</tbody>
</table>

**MEASLES** (aka. rubeola, Red Measles, Hard Measles, 10-day Measles)
Measles is a highly contagious viral disease. Antibiotics are NOT available to treat persons infected with this organism. Recent outbreaks of this illness have included many hospitalizations and several deaths among college-aged persons, for these reasons it is strongly recommended that students of Institutions of Higher Education have two doses of the vaccine prior to beginning classes. Most young adults have had only one dose.
The measles vaccine is most often given in combination with the vaccines for mumps and rubella which are also caused by viruses.

**TETANUS** (aka. Lockjaw)
The illness caused by tetanus results from the poison produced by a bacteria. Again this is a very difficult illness to treat once it occurs and prevention is the most appropriate choice. The vaccine is effective for about 10 years and needs to be boosted at that interval. It is now common for older adults to develop Tetanus in the United States as many adults do not receive the recommended 10 year boosters.
The Tetanus vaccine should be given in combination with the diphtheria vaccine.

**POLIOMYELITIS**
In the United States, polio immunization is not routinely recommended for persons 18 years of age or older. However, if travel to other parts of the world is planned, a physician should be contacted for specific recommendations.

**SECTION 2.09 AND 2.09A TEX. EDU. CODE**
The campus health centers have information regarding local providers of immunization services. Check with the health center for specific local information.
ASSOCIATE OF ARTS AND SCIENCES DEGREE

IN ORDER TO BE ELIGIBLE TO RECEIVE AN ASSOCIATE OF ARTS AND SCIENCES DEGREE, A STUDENT MUST:

1. Complete a minimum of 61 credit hours
2. Receive a grade of "C" or better in each of three CORE courses
3. Have a passing score on all sections of TASP (for students entering the DCCCD Fall. 1989 or thereafter)
4. Complete 61 hours, including the following courses:

Students who plan to transfer to a four-year institution must consult the catalog of that institution to insure that selected courses will both transfer and apply toward the intended major. Material about transfer information is available in the Counseling Center.

ASSOCIATE OF ARTS AND SCIENCES DEGREE IN BUSINESS
(Available at Brookhaven, Eastfield, El Centro, Mountain View, North Lake, and Richland Colleges)

THIS DEGREE PLAN IS DESIGNED TO MEET THE NEEDS OF STUDENTS WHO PLAN TO MAJOR IN BUSINESS BUT ARE UNSURE ABOUT WHERE THEY WISH TO TRANSFER. THIS IS A GENERAL PLAN AND MAY OR MAY NOT SATISFY THE REQUIREMENTS OF A SPECIFIC TRANSFER UNIVERSITY.

IN ORDER TO RECEIVE AN ASSOCIATE OF ARTS AND SCIENCES DEGREE, A STUDENT MUST:

1. Complete a minimum of 61 credit hours including the following courses.
2. Receive a grade of "C" or better in core courses.
3. Have a passing score on all sections of TASP (for students entering DCCCD Fall, 1989, or thereafter).

Students planning to transfer to a four year institution must consult that institution to insure selected courses will both transfer and apply toward the intended major. Once students have decided on the specific four year institution to which they plan to transfer and a specific major within Business, they are strongly encouraged to utilize the transfer degree plan which is customized to meet specific requirements of the selected institution. Material about transfer information is available in the Counseling/Advisement Center.

** Please consult an advisor for the appropriate course selection for your major and the requirements of the four year institution to which you plan to transfer because each institution may specify a specific course to satisfy the requirement in this area of study.

- Students should have a proficiency in keyboarding.
- Many universities accept more than 61 transfer credits. Students are encouraged to take additional elective courses.

ACCOUNTING ASSOCIATE

Offered at all seven campuses

(Associate Degree)

The Accounting Associate two-year program is designed to prepare a student for a career as a junior accountant in business, industry and government. Emphasis will be placed on internal accounting procedures and generally accepted accounting principles.

The Associate in Applied Sciences Degree is awarded for successful completion of at least 67 credit hours as outlined below. Students desiring a less comprehensive program that includes some bookkeeping procedures and practices should consider the General Office Certificate. The General Office Certificate is available in the Office Technology Program.

APPAREL DESIGN

El Centro only

(Associate Degree)

The apparel designer converts the design idea into an industrial paper pattern used in the mass production of clothing. New style trends each season demand individual creative thinking to develop saleable designs. Upon successful completion of the program, the student enters a women's wear or children's wear manufacturing company as an assistant in the design department.

Minimum Hours Required ........................................... 71

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
ASSOCIATE DEGREE NURSING

El Centro and Brookhaven only

(Associate Degree)

The Associate Degree Nursing Program is a two-year, 72 credit hour program, leading to the Associate of Applied Science Degree. The program prepares graduates to be eligible to write the NCLEX-RN Examination to become licensed as a Registered Nurse (R.N.) in Texas. The program is accredited by the Board of Nurse Examiners for the State of Texas, and the National League for Nursing.

The program combines classroom and skills laboratory experience with hospital clinical experience. Students are required to be covered by professional liability insurance.

The program offered at Brookhaven is under the administration and accreditation of the El Centro College Associate Degree Nursing Program. Students apply for admission and attend classes at Brookhaven but receive their degrees from El Centro.

Contact the Testing Center at El Centro College (746-2178) to sign up for the pre-entrance assessment testing and 746-2242, Health Occupations Admissions to receive an information packet.

ADMISSION TO THE PROGRAM

Applicants are rank ordered for admission based on the G.P.A. earned on four prerequisite courses.

Applicants Must:

1. Fulfill all requirements for admission to both the college and the Associate Degree Nursing Program.

2. Complete the designated assessment testing process and any required remediation.

3. Complete the four prerequisite courses in English, Biology and Mathematics with a cumulative grade point average of 2.5 or better.

4. Submit a completed admission application packet to the nursing admission office at El Centro or Brookhaven on or before the enrollment period deadline. Information sessions are available to further discuss the application process to the program.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.

A "C" grade is required in all courses. Support courses must be completed before or during the semester indicated.
ASSOCIATE DEGREE NURSING – LVN OPTION

El Centro only

(Associate Degree)

A Licensed Vocational Nurse in Texas may qualify to complete the Associate Degree Nursing program at an accelerated pace. Students must meet all entrance requirements for the Associate Degree Nursing Program, and complete twenty-seven hours of prerequisite courses to enter this articulation option. Upon completion of the “bridging” course, which focuses on the change in role from LVN to RN, the student is granted equivalency credit for the first two semesters of the Associate Degree Nursing Program. The student will then complete the second year of the curriculum. Graduates of this program will receive an Associate of Applied Science Degree, and they will be eligible to write the NCLEX-RN Examination to become licensed as a Registered Nurse (RN) in Texas.

ADMISSION TO THE PROGRAM:

Applicants must:

1. Fulfill any requirements for admission to both the college and the Associate Degree Nursing Program.

2. Complete the designated assessment testing process and any required remediation.

3. Complete the four prerequisite courses in English, Biology and Mathematics with a grade point average of 2.5 or better. Complete the remaining prerequisite courses with a grade of “C” or better.

4. Submit a completed admission application packet to the nursing admission office at El Centro on or before the enrollment period deadline. Information sessions are available to further discuss the application process to the program.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
This one-year certificate program is designed to develop skills and knowledge related to the use of personal computers for business. The graduate will be qualified to be a trainee in any number of categories: personal computer operator/software package user, data entry specialist, or information processing assistant. A touch typing speed of 20 words per minute is suggested for most CIS courses with a lab component. Students are advised to develop this proficiency.

Minimum Hours Required 36

1CIS 265, AS/400 Concepts level I, may be substituted for CIS 205

2CIS 702, 703 or 704 may be substituted for CIS 701
This option is designed to develop entry-level skills and knowledge in computer information systems. The option includes several business courses found in university degree programs as well as CIS courses which will prepare students for CIS course work at a university. A touch typing speed of 20 words per minute is suggested for most CIS courses with a lab component. Students are advised to develop this proficiency.

**CREDIT HOURS**

**SEMESTER I**
- CIS 101 Introduction to Computer Concepts and Applications ........................................... 4
- CIS 106 Problem Solving with the Computer ........................................................................... 4
- BUS 105 Introduction to Business OR ....................................................................................... 3

**Minimum Hours Required** ................................. 65

- + Elective—Any CIS including but not limited to CIS 701, CIS 702, CIS 703 or CIS 704
- + + Elective—must be selected from the following:
  - HUM 101 Introduction to the Humanities ............................................................................ 3
  - PHI 103 Critical Thinking ..................................................................................................... 3

**NOTE:** Students may obtain credit toward a degree for only one of each of the pairs of courses listed below:
- CIS 172 or CS 122
- CIS 210 or CS 212

**NOTE:** Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
COMPUTER INFORMATION
SYSTEMS — BUSINESS
SOFTWARE
PROGRAMMER/DEVELOPER

Offered at all seven campuses

( Associate Degree )

This option is intended for the preparation of entry-level computer programmers who will work in an applications setting to support the information processing function. It is designed as a two-year career program to prepare students for direct entry into the work environment. It is intended to provide a sufficient foundation so the graduate with experience and continued learning may advance in career paths appropriate to their own particular interests and abilities. Touch typing speed of 20 words per minute is suggested for most CIS courses with a lab component. Students are advised to develop this proficiency.

+ Elective—Any CIS or CS course including but not limited to CIS 701, CIS 702, CIS 703, CIS 704

+ Elective—must be selected from the following:

| HUM 101 Introduction to the Humanities | 3 |
| PHI 103 Critical Thinking | 3 |

NOTE: Students may obtain credit toward a degree for only one of each of the pairs of courses listed below:

| CIS 172 or CS 122 |
| CIS 210 or CS 212 |

1 MTH 111 may be substituted for MTH 115

2 PSY 101 may be substituted for PSY 131

First in a two-course programming language series or CIS 164 or CIS 292

4 ACC 131 and ACC 132 may be substituted for ACC 201

Second in a two-course programming language series or any CIS programming course if CIS 164 or CIS 292 is completed

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
COMPUTER INFORMATION
SYSTEMS – MIDRANGE
COMPUTER CENTER SPECIALIST

El Centro only

(Associate Degree)

This option is intended to prepare students to function in programmer/analyst/operator positions within a mid-sized computer center. It may also serve as a career path for those completing the operations certificate program, as all courses within that curriculum can be applied to the first year of this curriculum. A touch typing speed of 20 words per minute is suggested for most CIS courses with a lab component. Students are advised to develop this proficiency.

COMPUTER INFORMATION SYSTEMS – MIDRANGE
COMPUTER TECHNICIAN

El Centro only

(Certificate)

This one-year certificate is designed to develop skills and knowledge to meet the demands of computer operations in any mainframe business data processing environment. The graduate will be qualified to be an operator-trainee in any of a number of categories: RJE terminal operator, microcomputer operator, mini computer operator, I/O or peripheral device operator, or junior computer operator. A touch typing speed of 20 words per minute is suggested for most CIS courses with a lab component. Students are advised to develop this proficiency.

COMPUTER INFORMATION
SYSTEMS – PERSONAL
COMPUTER SUPPORT

Eastfield, El Centro, Mountain View, and Richland only
(Associate Degree)

This program includes education/training to qualify students to provide support for personal computer users; to
trouble-shoot software and hardware problems, implementing corrections where possible; to evaluate new
software and hardware, matching company standards to product specifics; to install hardware and software, includ-
ing equipment assembly and diagnostics; and to assist in the development of training courses, providing training for
users.

A touch typing speed of 20 words per minute is suggested
for most CIS courses with a lab component. Students are
advised to develop this proficiency.

</tbody>
</table>

A student enrolling in the Criminal Justice program should meet the Texas Commission on Law Enforcement Officer Standards and Education Requirements for minimum standards if you plan to seek employment in the law enforcement field. Licensing: (a) not currently on probation for any criminal offense; (b) not convicted of a Class B misdemeanor in the last six (6) months, or a Class A misdemeanor in the last twelve (12) months, or DWI or DWD in the last two (2) years; (c) never been convicted of a felony.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
FIRE PROTECTION TECHNOLOGY

El Centro only

(Associate Degree)

The curriculum is primarily designed to provide professional training for firefighters. Students who do not work for a fire department may be admitted to the program after a review of their backgrounds by the FPT consultant, the FPT counselor or the Physical and Social Science Division Chairperson. Three Fire Protection Technology courses are offered each long semester at night on the “flip-flop” basis to accommodate work shift changes. The following curriculum guide is designed for full-time students; those attending part-time will find the program takes considerably longer.

Minimum Hours Required ..................................... 66

+ Electives—9 hours of electives must be selected from the following:

| FPT 131 Fundamentals of Fire Protection .................................. 3 |
| FPT 235 Fire Administration II .................................. 3 |
| FPT 236 Legal Aspects of Fire Protection .................................. 3 |
| FPT 237 Hazardous Materials II .................................. 3 |
| FPT 238 Fire Safety Education .................................. 3 |
| FPT 240 Fire Inspections Fundamentals .................................. 3 |
| FPT 244 Industrial Fire Protection .................................. 3 |
| FPT 245 Water Systems .................................. 3 |
| FPT 246 Fire and Arson Investigation II .................................. 3 |
| FPT 247 Building Codes .................................. 3 |

+ + Electives—3 hours must be selected from the following:

| ART 104 Art Appreciation .................................. 3 |
| ENG (200 Level Literature Course) .................................. 3 |
| Foreign Language .................................. 4 |
| HUM 101 Introduction to Humanities .................................. 3 |
| MUS 104 Music Appreciation .................................. 3 |
| PHI 101 Introduction to Philosophy .................................. 3 |
| THE 101 Introduction to the Theatre .................................. 3 |

For Associate Degree of Applied Science, students must complete:

1. 7 required fire courses
2. 3 fire electives
3. 9 required academic courses
4. 3 hours of electives outside student’s major field for a total of 65 semester hours.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
FOOD AND HOSPITALITY SERVICE

El Centro only

(Associate Degree)

The Food and Hospitality Service Program trains students to assume responsible positions in the Food Hospitality Industry. Courses are designed to cover the various operational functions of restaurants, clubs, cafeterias, coffee shops and other types of hospitality service.

INTERIOR DESIGN

El Centro only

(First Professional Level Certificate in Interior Design)

(Associate Degree—Semesters I through IV)

The interior designer provides design solutions for environmental spaces of public structures and private residences. In the designer's presentation, the needs of the client are met by shaping the physical environment. A knowledge of construction and materials, both structural and decorative, is essential for the planning of aesthetic yet functional spaces "to enhance the quality of life and protect the health, safety and welfare of the public." A Professional Level Certificate program "is the first component of a sequence including formal education, entry level experience and satisfactory completion of a qualifying examination, the National Council for Interior Design Qualification (NCIDQ)." Upon completion of these three steps the individual is qualified to become a professional registered interior designer in the State of Texas.

This program is fully accredited by F.I.D.E.R. (Foundation for Interior Design Education Research), the source of the above quotations.

INVASIVE CARDIOVASCULAR TECHNOLOGY

El Centro only
(Associate Degree)

The El Centro Invasive Cardiovascular Technology program is a two year associate degree program. The intensive didactic and clinical training program prepares the graduate for employment in the medical specialty of invasive cardiovascular technology as an invasive cardiovascular technologist.

Invasive Cardiovascular Technology students study the theory of diagnostic techniques used in diagnosis, treatment, and follow-up of cardiovascular disease in humans. The first year of the program concentrates on cardiovascular anatomy and physiology, medical electronics/instrumentation and application of clinical skills in cardiovascular techniques. The second year of the program enables the student to apply acquired cardiovascular skills in actual clinical situations in area hospital cardiovascular labs.

Invasive cardiovascular technologists work in cardiac catheterization laboratories. They assist the cardiologist in performing intracardiac pressure and electrical measurements, oximetry determination, angiocardiography, and measurement/calculation of cardiac function indices. The technologist assists in all phases of the cardiac catheterization including catheter insertion, operation of the electronic instruments, and calculation of the cardiac data used by the physician in confirming diagnosis and designing treatment for the cardiac patient.

Admission requirements include an orientation session, satisfactory scores on pre-entrance assessment testing, completion of program prerequisite courses with a cumulative grade point of 2.5 or better, and completion of all requirements for admissions as a full-time student to the College. Applicants are rank ordered for admission based on the grade point earned on four prerequisite courses. Contact the Testing Center at El Centro College (746-2178) to sign up for the assessment tests and 746-2242, Health Occupational Admissions, to receive an information packet.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.

*Students may substitute ACC 131 and ACC 132 for ACC 201. Only three hours may be applied to the required number of hours for granting the degree.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
MANAGEMENT CAREERS – MIDDLE-MANAGEMENT OPTION

Offered at all seven campuses

(Associate Degree)

The Mid-Management Program provides an opportunity for students to acquire knowledge in the management field and at the same time update and sharpen personal management skills. In addition to learning about supervision, personnel management, human relations psychology, problem-solving, decision-making, and other related business topics, students also participate in an on-the-job management training course with their present employers. These management training courses at work allow students to apply what is learned in the classroom environment and obtain the valuable practical experience necessary to become competent business managers. The Mid-Management Program allows students the opportunity to bridge the gap between theory and practice as professional managers.

MANAGEMENT CAREERS – MID-MANAGEMENT

Offered at all seven colleges

(Certificate)

The Mid-Management program is designed to develop the fundamental skills, knowledge, attitudes and experiences which enable men and women to function in leadership and decision-making positions as managers. Students combine management classes and on-the-job management training with their present employers. All of the courses for this certificate are applicable to the Mid-Management associate degree option.

The Medical Laboratory Technician program prepares the student to perform tests and related duties in a medical laboratory. The program is a balanced curriculum of science, liberal arts, and technical courses including didactic and clinical education.

Admission requirements include an orientation session, satisfactory scores on pre-entrance assessment testing, rank ordering by grade point average earned on the two pre-requisite courses, and completion of all requirements for admission as a full-time student to the college. Contact the Testing Center at El Centro College (746-2178) to sign up for the assessment tests and 746-2242, Health Occupations Admissions, to receive an Information packet.

Upon completion of the program, the student is awarded an Associate of Applied Science Degree.

MEDICAL TRANSCRIPTION

El Centro only

(Certificate)

The nine-month certificate program in Medical Transcription prepares the student to function as a medical typist or medical transcriptionist with a thorough knowledge of medical terminology, advanced typing, word processing skills, and work experience. Proper form, editing abilities, and legal implications are stressed. Entry requirement to this program is a typing skill of 50 words per minute. Job opportunities are available in medical records, pathology and radiology departments of hospitals and clinics; physician's offices; the health insurance industry; public and private health foundations and institutions; medical schools; and research centers. Cooperative work experience is a part of this program.

Admission requirements include an orientation session, satisfactory scores on assessment tests and a typing test, rank ordering by grade point average, and meeting all requirements for admission as a full-time student. Call 746-2242, Health Occupations Admissions, to receive an information packet.

6 For legal emphasis, BUS 234 (Business Law) may be taken.

7 Elective—must be selected from the following Astronomy, Biology, Chemistry, Earth Science, Ecology, Geology, Physical Science or Physics.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
OFFICE TECHNOLOGY –
CERTIFIED PROFESSIONAL
SECRETARY ARTICULATION

Offered at all seven campuses

Credit toward an associate degree in Office Technology will be granted upon successful completion of all parts of the Certified Professional Secretary (CPS) Exam. In order to receive credit, the registrar at the college must receive notification from the Institute for Certifying Secretaries that the applicant has passed all sections of the exam. The student must complete 12 credit hours (excluding developmental courses) within the District of which at least two courses must be completed in the area of Office Technology. The student must complete the courses with a grade of "C" or higher.

The courses for which credit may be granted are:

ACC 131 Bookkeeping I ........................................... 3
ACC 132 Bookkeeping II ........................................... 3
BUS 234 Business Law ........................................... 3
OFC 162 Office Procedures ........................................ 3

PATTERN DESIGN

El Centro only

(Associate Degree)

The pattern designer converts the fashion sketch or original garment into an industrial paper pattern used in the mass production of clothing. Drafting is the skill of developing a flat pattern with measurements. Draping is the skill of developing a pattern by placing cloth over a dress form.

Upon completion of the program, the student enters a women's wear or children's wear manufacturing company as an assistant in the pattern department.

Any ART course

CIS 101 Introduction to Computer Applications and Concepts 4

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
The Radiologic Sciences freshman student is provided a core curriculum of study related to the delivery of health care. The basic health core, along with the general education courses, enables the student to enter a specialized track of either Radiographic Technology or Diagnostic Medical Sonography. Each program track offers didactic and clinical education designed to meet the essentials for certification as specified by each accrediting agency. Upon completion, an Associate of Applied Science Degree is awarded.

Admission requirements include an orientation session, satisfactory scores on pre-entrance assessment testing, completion of the two prerequisite courses with at least a 2.5 grade point average or better, and completion of all requirements for admission as a full-time student to the college. Applicants are rank ordered for admission based on the grade point average earned on two prerequisite courses. Contact the Testing Center at El Centro College (746-2178) to sign up for the assessment tests and 746-2242, Health Occupations Admissions, to receive an information packet.

Foreign Language

* For all first year students in Radiologic Sciences.

Upon successful completion of the academic requirements of the Core Curriculum, the student will begin the selected specialty track.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
RADIOLOGIC SCIENCES –
DIAGNOSTIC MEDICAL
SONOGRAPHY

El Centro only
(Associate Degree)

The Diagnostic Medical Sonography program prepares
the student to function as a medical sonographer.

The diagnostic medical sonographer performs sonogra-
phy examinations using high frequency sound waves to
visualize soft tissue structures, including the gall bladder,
kidneys, pregnant uterus and other organs as requested
by the physician.

This program is accredited by the Committee on Allied
Health Education and Accreditation (CAHEA) in coopera-
tion with the Joint Review Committee on Education in
Diagnostic Medical Sonography.

Admission requirements include an orientation session,
satisfactory scores on pre-entrance assessment testing,
rank ordering by grade point, interviews and recommenda-
tion letters, and completion of all requirements for
admission as a full-time student to the college. Contact
the Testing Center at El Centro College (746-2178) to sign
up for the assessment tests and 746-2242, Health Occupa-
tions Admissions, to receive an information packet.

Minimum Hours Required: 72

NOTE: Students enrolling in this program who plan to
transfer to a four-year institution should consult an advisor
or counselor regarding transfer requirements and the
transferability of these courses to the four-year Institution
of their choice.
The Diagnostic Medical Sonography Certificate Option is for students having at least a previous Associate Degree in a designated allied health field or a B.S. degree with a major in a science discipline. Potential students will be considered on an individual basis to determine if they have an adequate background in anatomy and physiology, math and physics. Upon completion, a certificate will be awarded.

The diagnostic medical sonographer performs sonography examinations using high-frequency sound waves to visualize soft tissue structures including the gall bladder, kidneys, pregnant uterus, and other organs as requested by the physician.

This program is accredited by the Committee on Allied Health Education and Accreditation (CAHEA) in cooperation with the Joint Review Committee on Education in Diagnostic Medical Sonography.

Admission requirements include an orientation session, satisfactory scores on pre-entrance assessment testing, rank ordering by grade point, interviews and recommendation letters, and completion of all requirements for admission as a full-time student to the college. Contact the Testing Center at El Centro College (746-2178) to sign up for the assessment tests and 746-2242, Health Occupations Admissions, to receive an information packet.

RADIOLOGIC SCIENCES - RADIOPHGRAPHY TECHNOLOGY

El Centro only
(Associate Degree)

The Radiography Technology program prepares the student for a career as a medical radiographer (X-ray technologist).

The medical radiographer assists the radiologist and other physicians in the use of radiographs to examine patients for broken bones, ulcers, tumors, disease or malfunctioning of various body organs. The radiographer positions the patient and operates radiographic equipment.

This program is accredited by the Committee on Allied Health Education and Accreditation (CAHEA) in cooperation with the Joint Review Committee on Education in Radiologic Technology (JRCERT).

RESPIRATORY CARE PROGRAM — LEVEL I

El Centro only
(Certificate)

The Respiratory Care Program - Level I prepares individuals with entry-level skills for care of patients with pulmonary diseases. Diagnostic, technical and therapeutic procedures are taught to prepare students for entry into the field of Respiratory Care.

A Certificate of Completion is awarded for successful completion of the courses outlined below. This Certificate enables the graduate to apply for the Entry-Level Credential Examination of the National Board for Respiratory Care (NBRC). In order to be eligible to write this examination, a student must comply with the minimum standards for testing as required by the NBRC.

Upon successful completion of this program, the student is eligible to enroll in the Respiratory Care Program - Level II.

The Respiratory Care Program - Level I is accredited by the Committee on Allied Health Education and Accreditation (CAHEA) in cooperation with the Joint Review Committee for Respiratory Therapy Education (JRCRTE).

Admission requirements include an orientation session, satisfactory scores on pre-entrance assessment testing, completion of program prerequisite courses with a cumulative grade point average of 2.5 or better, and completion of all requirements for admission as a full-time student to the college. Applicants are rank ordered on the grade point average earned on three prerequisite courses. Contact the Testing Center at El Centro College (746-2178) to sign up for the assessment tests and 746-2242, Health Occupations Admissions, to receive an information packet.

RESPIRATORY CARE PROGRAM – LEVEL II

El Centro only

(Associate Degree)

The Respiratory Care Program - Level II prepares students to become respiratory therapists and perform complex patient care procedures in specialized patient care units and diagnostic laboratories.

The Associate in Applied Sciences degree is awarded for successful completion of the program outlined below. A Certificate of Completion is also awarded to enable the graduate to apply for the Advanced Practitioner Examination of the National Board for Respiratory Care (NBRC).

In order to be eligible to write the Advanced Practitioner Examination, a student must comply with the minimum standards for testing as required by the National Board for Respiratory Care (NBRC).

The Respiratory Care Program - Level II is accredited by the Committee on Allied Health Education and Accreditation (CAHEA) in cooperation with the Joint Review Committee for Respiratory Therapy Education (JRCRTE).

Admission requirements include satisfactory scores on pre-entrance assessment testing, rank ordering by grade point average, and completion of all requirements for admission as a full-time student to the college. Clinical skills testing may be required. Contact the Health Occupations Admissions Office at El Centro College (746-2242) to receive an information packet.

CREDIT HOURS

PREREQUISITES FOR PROGRAM ADMISSION:
Successful completion of all course requirements of the Respiratory Care Program - Level I:

Respiratory Care - Level I Program Prerequisites .......... 11
Respiratory Care - Level I ........................................... 33

SEMESTER III

RES 278 Technology IV ................................................. 6
RES 275 Advanced Pathology/Pharmacology ............... 3
+ Elective Humanities/Fine Arts ................................... 3

12

13

72

+ Humanities/Fine Arts elective—must be selected from the following:

ART 104 Art Appreciation .............................................. 3
HUM 101 Introduction to Humanities .............................. 3
MUS 104 Music Appreciation ........................................... 3
PHI 101 Introduction to Philosophy ................................... 3
THE 101 Introduction to the Theatre ................................. 3
ENG (200 Level Literature Courses) .................................. 3
Foreign Language

+ Elective—Any NON-RES course.

NOTE: Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.
The one year certificate program in Surgical Technology teaches the student to provide services in the operating room under the supervision of the operating room director. The technologist, as part of the operating team, aids in providing for the safety, cleanliness and efficiency necessary for good patient care in the operating room. The technologist prepares the materials for use at the operating room table and assists in the use of these materials during surgical procedures.

The Surgical Technology program is accredited by the Committee on Allied Health Education and Accreditation (CAHEA) in cooperation with the Accreditation Review Committee for Educational Programs in Surgical Technology.

ADMISSION TO THE PROGRAM:

Admission requirements include:

1. Completion of all requirements for admission as a full-time student to the college.
2. High school diploma or GED.
3. Satisfactory scores on assessment exams.
4. An Information session.
5. Must complete prerequisites to program with a 2.5 G.P.A. or better.
6. Must have a G.P.A. of 2.5 or better from previous college courses. Developmental course grades are not included in the G.P.A. calculation.
7. Applicants are rank ordered for admission based on the grade point average earned on two prerequisite courses.

Contact the Testing Center at El Centro College (746-2178) to sign up for the assessment exam. Call Health Occupational Admissions (746-2242) to receive an information packet.

Minimum Hours Required: **37**

*Support courses may be completed before, but not after, the semester indicated.

**If BIO 120 is taken as the prerequisite biology, then BIO 121 must be taken in fall semester. BIO 115 is recommended prior to BIO 120 if no previous high school biology.

***May be taken prior to program admission with Surgical Technology Program Coordinator's approval.

A "C" grade or better is required in all courses.
SURGICAL TECHNOLOGY OPTION
FOR REGISTERED NURSES

El Centro only
(Skills Achievement Award)

The two semester Surgical Technology Option for Registered Nurses teaches the R.N. principles of surgical asepsis, patient care and use of surgical supplies. Ethical-Legal aspects and perioperative role responsibilities are emphasized. A skills achievement award is awarded upon coursework completion.

Nurses enrolled in this option must hold a current registered nurse license from the Board of Nurse Examiners for the State of Texas.

VOCATIONAL NURSING

El Centro only

(Certificate)

The Vocational Nursing program is a twelve month program that prepares students to give direct patient care under the supervision of a registered nurse or a physician. The program is accredited by the Board of Vocational Nurse Examiners for the State of Texas. Upon completion of the program, the student is awarded a certificate and may write the Licensing Examination for Vocational Nurses (NCLEX-PN) in order to become a Licensed Vocational Nurse (LVN) in Texas. The program includes classroom and laboratory work on campus as well as clinical experience at various area hospitals.

Admission requirements include an orientation session, satisfactory scores on pre-entrance assessment testing, completion of program prerequisite courses with a cumulative grade point average of 2.5 or better and completion of all requirements for admission as a full-time student to the college. Applyants are ranked according to grade point average earned on three prerequisite courses. Contact the Testing Center at El Centro College (746-2178) to sign up for the pre-entrance assessment tests and 746-2242, Health Occupations Admissions, to receive an information packet.

The one hour credit in HD 100 is not counted toward the degree requirements.

A grade of "C" or better is required in all courses.
ACCOUNTING

ACC 131 Bookkeeping I (3)
(Next year's course prefix/number ACCT 1371)
The fundamental principles of double-entry bookkeeping are presented and applied to practical business situations. Emphasis is on financial statements, trial balances, work sheets, special journals, and adjusting and closing entries. A practice set covering the entire business cycle is completed. (3 Lec.)

ACC 132 Bookkeeping II (3)
(Next year's course prefix/number ACCT 1372)
Prerequisite: Accounting 131. This course covers accruals, bad debts, taxes, depreciation, controlling accounts, and business vouchers. Bookkeeping for partnerships and corporations is introduced. (3 Lec.)

ACC 201 Principles Of Accounting I (3)
(Common Course Number ACCT 2301)
This course covers the theory and practice of measuring and interpreting financial data for business units. Basic concepts, principles, and procedures are applied to the following topics: operating cycle, accruals and deferrals, financial statements, internal controls, receivables, inventory, fixed assets, and liabilities. (3 Lec.)

ACC 202 Principles Of Accounting II (3)
(Common Course Number ACCT 2302)
Prerequisite: Accounting 201. This course is a continuation of Accounting 201. This course covers the theory and practice of measuring and interpreting financial data for business units, with emphasis on corporations and managerial applications. Basic concepts, principles, and procedures are applied to the following topics: preparation and analysis of financial statements, budgeting, cash flow, cost systems, responsibility accounting, and cost-volume-profit analysis. (3 Lec.)

ACC 203 Intermediate Accounting I (3)
(Next year's course prefix/number ACCT 2376)
Prerequisite: Accounting 202. This course is an intensive study of the concepts, principles, and practice of modern financial accounting. Included are the purposes and procedures underlying financial statements. (3 Lec.)

ACC 204 Managerial Accounting (3)
(Next year's course prefix/number ACCT 2377)
Prerequisite: Accounting 202. This course is a study of accounting practices and procedures used to provide information for business management. Emphasis is on the preparation and internal use of financial statements and budgets. Systems, information, and procedures used in management planning and control are also covered. (3 Lec.)

ACC 205 Business Finance (3)
(Next year's course prefix/number ACCT 2375)
Prerequisites: Economics 201 or 202 and Accounting 201. This course focuses on the financial structure in the free enterprise system. Topics include interest rates, value analysis, the financing of business firms and government, and security markets. Financial requirements for decision-making and capital formation are analyzed. (3 Lec.)

ACC 207 Intermediate Accounting II (3)
(Next year's course prefix/number ACCT 2376)
Prerequisite: Accounting 203. Principles and problems in fixed liabilities and capital stock are examined. Equities, business combinations, and the analysis and interpretation of supplementary statements are also included. (3 Lec.)

ACC 231 Cost Accounting (3)
(Next year's course prefix/number ACCT 2376)
Prerequisite: Accounting 202. The theory and practice of accounting for a manufacturing concern are presented. The measurement and control of material, labor, and factory overhead are studied. Budgets, variance analysis, standard costs, and joint and by-product costing are also included. (3 Lec.)

ACC 239 Income Tax Accounting (3)
(Next year's course prefix/number ACCT 2372)
Prerequisite: Accounting 202 or demonstrated competence approved by the instructor. This course examines basic income tax laws which apply to individuals and sole proprietorships. Topics include personal exemptions, gross income, business expenses, non-business deductions, capital gains and losses. Emphasis is on common problems. (3 Lec.)

ACC 250 Microcomputer-Based Accounting Applications (3)
(Next year's course prefix/number ACCT 2370)
Prerequisites: Accounting 202 and Computer Information Systems 101 or demonstrated competence approved by the instructor. This course is designed to provide students with an overview of microcomputer-based accounting systems for small businesses. Actual "hands-on" experience will be provided utilizing an integrated general ledger accounting package, including accounts receivable and accounts payable. In addition, various electronic spreadsheet applications and other topics will be covered. Laboratory fee. (2 Lec., 2 Lab.)
ACC 703 Cooperative Work Experience (3)
(Next year's course prefix/number ACCT 7371)
Prerequisites: Completion of Accounting 201 and 202 or
instructor approval. This course combines work experi-
ence with academic study. The student, employer and
instructor will develop a written competency-based learn-
ing plan with varied learning objectives and work
experiences. Each student must complete three objec-
tives and work a minimum of 15 hours per week for a total
of three credit hours. Seminar topics include an orienta-
tion session, setting and writing job objectives, career
planning, interpersonal skills, and an exit session. (1 Lec.,
15 Lab.)

ACC 704 Cooperative Work Experience (4)
(Next year's course prefix/number ACCT 7471)
Prerequisites: Completion of Accounting 201 and 202 or
instructor approval. This course combines work experi-
ence with academic study. The student, employer and
instructor will develop a written competency-based learn-
ing plan with varied learning objectives and work
experiences. Each student must complete four objectives
and work a minimum of 20 hours per week for a total of
four credit hours. Seminar topics include an orientation
session, setting and writing job objectives, career plan-
ing, interpersonal skills, and an exit session. (1 Lec.,
20 Lab.)

ACC 713 Cooperative Work Experience (3)
(Next year's course prefix/number ACCT 7372)
Prerequisite: Completion of Accounting 703 or 704. This
course combines work experience with academic study.
The student, employer and instructor will develop a written
competency-based learning plan with varied learning ob-
jectives and work experiences. Each student must
complete three new objectives and work a minimum of 15
hours per week for a total of three credit hours. Seminar
topics include an orientation session, setting and writing
job objectives, and additional independent study of busi-
ness topics. The independent study topics in this course
must be different from those included in the previous
cooperative education course. (1 Lec., 15 Lab.)

ACC 714 Cooperative Work Experience (4)
(Next year's course prefix/number ACCT 7472)
Prerequisite: Completion of Accounting 703 or 704. This
course combines work experience with academic study.
The student, employer and instructor will develop a written
competency-based learning plan with varied learning ob-
jectives and work experiences. Each student must
complete four new objectives and work a minimum of 20
hours per week for a total of four credit hours. Seminar
topics include an orientation session, setting and writing
job objectives, and additional independent study of busi-
ness topics. The independent study topics in this course
must be different from those included in the previous
cooperative education course. (1 Lec., 20 Lab.)

ANTHROPOLOGY

ANT 100 Introduction To Anthropology (3)
(Common Course Number ANTH 2346)
This course surveys the origin of mankind involving the
processes of physical and cultural evolution, ancient man,
and preliterate man. Attention is centered on fossil evi-
dence, physiology and family/group roles and status. (3
Lec.)
(Coordinating Board Academic Approval Number 4502015142)

ANT 101 Cultural Anthropology (3)
(Common Course Number ANTH 2351)
This course introduces students to the elements and pro-
cesses that create culture, society and social interaction.
Language, cross-cultural communication, fieldwork, and
analysis of multicultural societies are covered. A special
emphasis is given to cross-cultural comparison and anal-
ysis of basic social institutions on a global scale in order
to provide students with an appreciation and understand-
ing of the underlying unity of diverse cultural expressions.
(3 Lec.)
(Coordinating Board Academic Approval Number 4502015342)

ANT 110 The Heritage Of Mexico (3)
(Next year's course prefix/number ANTH 1371)
This course (cross-listed as History 110) is taught in two
parts each semester. The first part of the course deals with
the archeology of Mexico beginning with the first humans
to enter the North American continent and culminating
with the arrival of the Spanish in 1519 A.D. Emphasis is on
archaic cultures, the Maya, the Toltec, and Aztec empires.
The second part of the course deals with Mexican history
and modern relations between the United States and
Mexico. The student may register for either History 110 or
Anthropology 110 but may receive credit for only one of
the two. (3 Lec.)
(Coordinating Board Academic Approval Number 4511015342)

APPAREL DESIGN

APP 232 Design Development I (3)
(Next year's course prefix/number APPD 2370)
Prerequisites: Sophomore standing and concurrent en-
rollment in Apparel Design 237 or demonstrated
competence approved by the instructor. The principles of
good design for mass produced apparel are studied,
especially as they apply to structural and decorative de-
sign. Careful attention is given to fabric selection and
trimming that are appropriate for current styles. Labora-
tory fee. (2 Lec., 4 Lab.)
APP 233 Design Development II (3)
(Next year's course prefix/number APPD 2372)
Prerequisites: Sophomore standing and concurrent enrollment in Apparel Design 238 or demonstrated competence approved by the instructor. This is a continuation of developing design principles. The garment cost and construction techniques are emphasized along with selection of fabric and trimming. Laboratory fee. (2 Lec., 4 Lab.)

APP 237 Style Trends And Research I (2)
(Next year's course prefix/number APPD 2270)
Prerequisites: Sophomore standing and concurrent enrollment in Apparel Design 232 or demonstrated competence approved by the instructor. This course is a study of current trends in the apparel industry. The student develops workroom sketches of designs for children, junior petite, junior, active sportswear, misses, and suits. (2 Lec.)

APP 238 Style Trends And Research II (2)
(Next year's course prefix/number APPD 2271)
Prerequisites: Sophomore standing and concurrent enrollment in Apparel Design 233 or demonstrated competence approved by the instructor. This course is a continuation of the current trends in the apparel industry. The student develops sketches of designs for half sizes, dressy dresses, and lingerie. The student selects one size range for a complete research report. (2 Lec.)

ARCHITECTURE

ARC 101 Introduction to Architecture (3)
(Common Course Number ARCH 1311)
This course is an introduction to the elements of architecture; opportunities within the architectural profession are explored. (3 Lec.)
(Coordinating Board Academic Approval Number 0402015922)

ARC 102 Architectural Aesthetics (3)
(Common Course Number ARCH 1205)
Visual experiences in the aesthetics of architecture are studied in context with architecture as a contemporary philosophical concept. (3 Lec.)
(Coordinating Board Academic Approval Number 0402015222)

ARC 130 Architectural Graphics I (3)
(Common Course Number ARCH 1307)
Basic architectural drafting techniques are studied including orthographic projection and isometric drawing. Linework in pencil and ink are emphasized. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 4801025322)

ARC 133 Architectural Graphics II (3)
(Common Course Number ARCH 1308)
Prerequisite: ARC 130 or demonstrated competence approved by the division dean. Three-dimensional drawing utilizing perspective and shade/shadow theory is studied in pencil and ink. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 4801025322)

ARC 134 Freehand Drawing I (3)
(Common Course Number ARCH 2301)
Representational drawing is studied with emphasis upon eye-to-hand coordination utilizing light, shade, line, and tonal quality. Pencil media is utilized. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 4801025122)

ARC 135 Freehand Drawing II (3)
(Common Course Number ARCH 2302)
Prerequisite: Architecture 134. Representational drawing is continued using a variety of techniques in pen and ink media. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 4801025122)

ARC 151 Materials Of Construction (3)
(Common Course Number ARCH 2312)
The nature and use of materials in construction are explored. Emphasis is placed upon appropriateness and use in design as they relate to design expression and codes. (3 Lec.)
(Coordinating Board Academic Approval Number 1501015122)

ARC 161 Architectural Design I (3)
(Common Course Number ARCH 1303)
Basic concepts of design are studied including form, scale, proportion, rhythm, unity, accent, texture, and pattern, as applied to two-dimensional and three-dimensional abstract projects. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 0402015422)

ARC 162 Architectural Design II (3)
(Common Course Number ARCH 1304)
Prerequisites: For architecture majors only, Architecture 130 and 161. This course is a continuation of Architecture 161, with emphasis upon architecture theories, perceptions, environmental factors and communication of those elements in design. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 0402015422)

ARC 230 History Of Modern Architecture (3)
(Common Course Number ARCH 1302)
The evolution of 20th Century design theory is surveyed, from the Industrial Revolution to the present. Special attention is given to significant architects, designers, and personalities and their effect on the modern movement. (3 Lec.)
(Coordinating Board Academic Approval Number 3012015122)
ARC 233 History Of Architecture Survey To 1850 (3)
(Common Course Number ARCH 1301)
The architectural contributions of Ancient, Classical, Medieval, and Renaissance societies are surveyed, along with their relationships to the cultural heritage of the Western World. (3 Lec.)
(Coordinating Board Academic Approval Number 3012015122)

ARC 237 Freehand Drawing III (3)
(Next year's course prefix/number ARCH 2370)
Prerequisite: Architecture 133 or demonstrated competence approved by the instructor. This course includes an introduction to and the development of rapid graphic skills needed to formulate and communicate design concepts, including the study and practice of visualization and freehand perspective drawing of design elements. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 4801025122)

ARC 257 Architectural Computer Graphics I (3)
(Common Course Number ARCH 1315)
Basic computer terminology and software applications utilizing the microcomputer in architecture and design are studied. Laboratory fee. (2 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 4801025222)

ARC 258 Architectural Computer Graphics II (3)
(Next year's course prefix/number ARCH 2371)
Prerequisite: Architecture 257 or demonstrated competence approved by the division dean. This course is a continuation of the study of computer aided design (CAD) in architecture. Emphasis will include detailed applications in design and drawing. Laboratory fee. (2 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 4801025222)

ART

ART 104 Art Appreciation (3)
(Common Course Number ARTS 1301)
Films, lectures, slides, and discussions focus on the theoretical, cultural, and historical aspects of the visual arts. Emphasis is on the development of visual and aesthetic awareness. (3 Lec.)
(Coordinating Board Academic Approval Number 5007035130)

ART 105 Survey Of Art History (3)
(Common Course Number ARTS 1303)
This course covers the history of art from prehistoric time through the Gothic period. It explores the cultural, geographical, and personal influences on art styles. (3 Lec.)
(Coordinating Board Academic Approval Number 5007035230)

ART 106 Survey Of Art History (3)
(Common Course Number ARTS 1304)
This course covers the history of art from the Renaissance through the present. It explores the cultural, geophysical, and personal influences on art styles. (3 Lec.)
(Coordinating Board Academic Approval Number 5007035230)

ART 110 Design I (3)
(Common Course Number ARTS 1311)
Basic concepts of design with two-dimensional materials are explored. The use of line, color, illusion of space or mass, texture, value, shape, and size in composition is considered. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5004015330)

ART 111 Design II (3)
(Common Course Number ARTS 1312)
Basic concepts of design with three-dimensional materials are explored. The use of mass, space, movement, and texture, line, plane, volume, color, and scale is considered. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5004015330)

ART 114 Drawing I (3)
(Common Course Number ARTS 1316)
This beginning course investigates various media, techniques, and subjects. It explores perceptual and descriptive possibilities and considers drawing as a developmental process as well as an end in itself. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007055230)

ART 115 Drawing II (3)
(Common Course Number ARTS 1317)
Prerequisite: Art 114. This course is an expansion of Art 114. It stresses the expressive and conceptual aspects of drawing, including advanced compositional arrangements, a range of wet and dry media, and the development of an individual approach to theme and content. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007055230)

ART 116 Jewelry Design And Construction (3)
(Common Course Number ARTS 2341)
This course explores the uses of metal in design, basic fabrication techniques in metal, bezel setting of stones, and simple casting. Emphasis is on original design. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007135130)

ART 117 Advanced Jewelry Design And Construction (3)
(Common Course Number ARTS 2342)
Prerequisite: Art 116. This course continues Art 116. Advanced fabrication, lost wax casting, setting of faceted stones, and forging and shaping of metal, including repousse and chasing are presented. Emphasis is on original design. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007135130)

94
ART 118 Creative Photography For The Artist I (3)
(Next year’s course prefix/number ARTS 1370)
Prerequisites: Art 110, Art 114, or demonstrated competence approved by the instructor. Creative use of the camera is studied. Photosensitive materials are examined as a means of making expressive graphic images. Emphasis is on black and white processing and printing techniques. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5006057130)

ART 165 Fundamental Design Studio I (4)
(Common Course Number ARCH 1403)
Prerequisites: Interior Design program major. Basic concepts of design limited to black and white values are studied including form, scale, space, proportion, rhythm, theme, variety, accent, unity, texture, and pattern as applied to two-dimensional and three-dimensional abstract projects. This course is intended for students enrolled in applied arts programs. Laboratory fee. (2 Lec., 5 Lab.)
(Coordinating Board Academic Approval Number 4002015422)

ART 199 Problems In Contemporary Art (1)
(Next year’s course prefix/number ARTS 1170)
Area artists, critics, and art educators speak with students about the work exhibited in the gallery and discuss current art styles and movements. They also discuss specific aspects of being artists in contemporary society. This course may be repeated for credit. (1 Lec.)
(Coordinating Board Academic Approval Number 5007035330)

ART 201 Drawing III (3)
(Common Course Number ARTS 2323)
Prerequisites: Art 110, Art 111, Art 115, sophomore standing, or demonstrated competence approved by the instructor. This course covers the analytic and expressive drawing of the human figure. Movement and volume are stressed. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007035330)

ART 202 Drawing IV (3)
(Common Course Number ARTS 2324)
Prerequisites: Art 201, sophomore standing, or demonstrated competence approved by the instructor. This course continues Art 201. Emphasis is on individual expression. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007055330)

ART 203 Art History (3)
(Next year’s course prefix/number ARTS 2370)
Prerequisites: Art 105 and Art 106. The development of the art of western culture during the Renaissance Period is presented. Emphasis is on the development of Renaissance art in Northern and Southern Europe. (3 Lec.)
(Coordinating Board Academic Approval Number 5007035230)

ART 204 Art History (3)
(Next year’s course prefix/number ARTS 2371)
Prerequisites: Art 105 and Art 106. The development of the art of western culture from the late 19th century through today is presented. Emphasis is on the development of modern art in Europe and America. (3 Lec.)
(Coordinating Board Academic Approval Number 5007035230)

ART 205 Painting I (3)
(Common Course Number ARTS 2318)
Prerequisites: Art 110, Art 111, Art 115, or demonstrated competence approved by the instructor. This studio course stresses fundamental concepts of painting with acrylics and oils. Emphasis is on painting from still life, models, and the imagination. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007085230)

ART 206 Painting II (3)
(Common Course Number ARTS 2317)
Prerequisite: Art 205. This course continues Art 205. Emphasis is on individual expression. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007085230)

ART 208 Sculpture I (3)
(Common Course Number ARTS 2326)
Prerequisites: Art 110, Art 111, Art 115, or demonstrated competence approved by the instructor. Various sculptural approaches are explored. Different media and techniques are used. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007085130)

ART 209 Sculpture II (3)
(Common Course Number ARTS 2327)
Prerequisite: Art 208. This course continues Art 208. Emphasis is on individual expression. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007095130)

ART 210 Commercial Art I (3)
(Next year’s course prefix/number ARTS 2372)
Prerequisites: Art 110, Art 111, Art 115 or demonstrated competence approved by the instructor. The working world of commercial art is introduced. Typical commercial assignments are used to develop professional attitudes and basic studio skills. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 4802037129)
ART 215 Ceramics I (3)
(Common Course Number ARTS 2348)
Prerequisites: Art 110, Art 111, Art 115 or demonstrated competence approved by the instructor. This course focuses on the building of pottery forms by coil, slab, and use of the wheel. Glazing and firing are also included. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007115130)

ART 216 Ceramics II (3)
(Common Course Number ARTS 2347)
Prerequisite: Art 215 or demonstrated competence approved by the instructor. Glaze technology is studied. Advanced problems in the creation of artistic and practical ceramic ware. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007115130)

ART 217 Watercolor I (3)
(Common Course Number ARTS 2366)
Prerequisites: Art 110, Art 111, and Art 115 or demonstrated competence approved by the instructor. This course explores studio techniques in water base media. Emphasis is placed on exploration of a variety of modes and techniques as a means to original expression. This course may be repeated for credit. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007085330)

ART 218 Watercolor II (3)
(Common Course Number ARTS 2367)
Prerequisite: Art 217. This course continues the development of skills in water base media. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007085330)

ART 220 Printmaking I (3)
(Common Course Number ARTS 2333)
Prerequisites: Art 110, Art 111, Art 115, or demonstrated competence approved by the instructor. Basic printmaking processes are introduced. Included are pianographic, intaglio, stencil and relief processes. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007105130)

ART 222 Printmaking II (3)
(Common Course Number ARTS 2334)
Prerequisite: Art 220. This course is a continuation of Printmaking I. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007105130)

ART 227 Design III (3)
(Common Course Number ARTS 2311)
Prerequisites: Art 110, 111, 114, and 115. This course is a development of two- and three-dimensional projects in a variety of materials. Emphasis is on individual expression. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5004015330)

ART 229 Design IV (3)
(Next year's course prefix/number ARTS 2373)
Prerequisite: Art 227. This course is a continued investigation into the problems of two- and three-dimensional concepts. Emphasis is on individual expression. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5004015330)

ART 232 Fibers I (3)
(Common Course Number ARTS 2336)
Prerequisites: Art 110, 111, 114, and 115. This course explores the problems of design, construction, and form utilizing basic fiber techniques. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007125130)

ART 233 Fibers II (3)
(Common Course Number ARTS 2337)
Prerequisite: Art 232. This course is a continuation of Art 232. It further explores fiber techniques and processes. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5007125130)

BIOLOGY

BIO 101 General Biology (4)
(Common Course Number BIOL 1406)
This course is the first of a two semester sequence designed for students majoring or minoring in biology and related disciplines. Topics include but are not limited to the scientific method, general and biological chemistry, cell structure and function, cell reproduction, and molecular genetics. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 2601015124)

BIO 102 General Biology (4)
(Common Course Number BIOL 1407)
This course is a continuation of Biology 101 and is intended for students majoring or minoring in biology and related disciplines. Topics include but are not limited to development, evolution, ecology, population genetics, and a review of the diversity of life. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 2601015124)

BIO 115 Biological Science (4)
(Common Course Number BIOL 1408)
This course is designed for all majors except science. Selected topics in biological science are presented to students not majoring in the sciences to promote their understanding of biological concepts and to enable them to use these concepts in their daily lives. Topics include chemistry and biochemistry, the cell, respiration, photosynthesis, cell reproduction, genetics, and reproduction and development. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 2601015124)
BIO 118 Biological Science (4)
(Common Course Number BIOL 1409)
This course is designed for all majors except science. Selected topics in biological science are presented to students not majoring in the sciences to promote their understanding of biological concepts and to enable them to use these concepts in their daily lives. Topics include plant and animal systems, diversity of life and population dynamics, taxonomy, evolution, and ecology. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 2601015124)

BIO 120 Introduction To Human Anatomy And Physiology (4)
(Next year's course prefix/number BIOL 1470)
Prerequisite: Prior enrollment in Biology 115 is recommended for those with no previous high school biology. Major topics include cell structure and function, tissues, organization of the human body, and the following organ systems: skeletal, muscular, nervous, and endocrine. This course is a foundation course for specialization in Associate Degree Nursing and allied health disciplines. Other students interested in the study of structure and function of the human body should consult a counselor. Emphasis is on homeostasis. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 2607065124)

BIO 121 Introduction To Human Anatomy And Physiology (4)
(Next year's course prefix/number BIOL 1472)
Prerequisite: Biology 120. This course is a continuation of Biology 120. Major topics include the following organ systems: digestive, circulatory, respiratory, urinary, and reproductive. Emphasis is on homeostasis. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 2607065124)

BIO 123 Applied Anatomy And Physiology (4)
(Next year's course prefix/number BIOL 1473)
This course surveys human anatomy and physiology. The various body systems are studied and examined. This course is suggested for students of the health occupations in accordance with their program requirements. It is open to other students. This course will apply toward meeting the science requirement for non-science majors. No previous science background is presumed. Laboratory fee. (3 Lec., 2 Lab.)

BIO 218 General Microbiology (4)
(Common Course Number BIOL 2420)
Prerequisite: Biology 102 or 121 or demonstrated competence approved by the instructor. Topics include growth, reproduction, nutrition, genetics, and ecology of microorganisms, as well as aspects of microbial disease, immunology and chemotherapy. Laboratory activities constitute a major part of the course. Laboratory fee. (3 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 2605015124)

BIO 221 Anatomy And Physiology I (4)
(Common Course Number BIOL 2401)
Prerequisite: Biology 102 or demonstrated competence approved by the instructor. This course examines cell structure and function, tissues, and the skeletal, muscular, and nervous systems. Emphasis is on structure, function, and the interrelationships of the human systems. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 2607065124)

BIO 222 Anatomy And Physiology II (4)
(Common Course Number BIOL 2402)
Prerequisite: Biology 221 or demonstrated competence approved by the instructor. This is the second course of a two course sequence. Structure and function as related to the human circulatory, respiratory, urinary, digestive, reproductive, and endocrine systems are studied. Emphasis is placed on the interrelationships of these systems. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 2607065124)

BUSINESS

BUS 105 Introduction To Business (3)
(Common Course Number BUSI 1301)
This course provides an introduction to business operations. Topics include: the business system, legal forms of business, organization and management, business functions (production, marketing, finance, risk management, information systems, accounting) and the environments affecting business (the economy, labor, government regulation, social responsibility, law, international business, and technology). (3 Lec.)
(Coordinating Board Academic Approval Number 5201015125)

BUS 143 Personal Finance (3)
(Common Course Number BUSI 1307)
Personal financial issues are explored. Topics include financial planning, insurance, budgeting, credit use, home ownership, savings, investment, and tax problems. (3 Lec.)
(Coordinating Board Academic Approval Number 1904015125)

BUS 234 Business Law (3)
(Common Course Number BUSI 2301)
This course presents the legal principles affecting business decisions. The law of contracts, agency, sales, negotiable instruments, and secured transactions are specifically covered. (3 Lec.)
(Coordinating Board Academic Approval Number 2201015125)
CHEMISTRY

CHM 101 General Chemistry (4)
(Common Course Number CHEM 1411)
Prerequisites: Developmental Mathematics 093 or equivalent and any one of the following: high school chemistry, Chemistry 115, or the equivalent. This course is for science and science-related majors. Fundamental concepts of chemistry are presented including states and properties of matter, the periodic table, chemical reaction types and energy relationships, chemical bonding, atomic and molecular structure, stoichiometry, gas laws and solutions. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 4005015239)

CHM 102 General Chemistry (4)
(Common Course Number CHEM 1412)
Prerequisite: Chemistry 101. This course is for science and science-related majors. It is a continuation of Chemistry 101. Previously learned and new concepts are applied. Topics include reaction kinetics and chemical equilibrium, acids, bases, salts and buffers, thermodynamics, colligative properties of solutions, electrochemistry, transition-metal chemistry, nuclear chemistry, qualitative inorganic analysis and an introduction to organic chemistry. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 4005015239)

CHM 115 Chemical Science (4)
(Next year's course prefix/number CHEM 1470)
Prerequisite: Developmental Mathematics 091 or the equivalent. This course is for non-science majors. Fundamental concepts are presented in lecture and laboratory including the periodic table, atomic structure, chemical bonding, reactions, stoichiometry, states of matter, properties of metals, nonmetals and compounds, acid-base theory, oxidation-reduction, solutions and nuclear chemistry. Descriptive chemistry is emphasized. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 4005015239)

CHM 116 Chemical Science (4)
(Next year's course prefix/number CHEM 1471)
Prerequisite: Chemistry 115 or demonstrated competence approved by the instructor. This course is for non-science majors. It surveys organic chemistry and biochemistry. The reactions, syntheses, nomenclature, uses, purposes and properties of the important classes of organic and biochemical compounds are studied. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 4005015239)

CHM 201 Organic Chemistry I (4)
(Common Course Number CHEM 2423)
Prerequisite: Chemistry 102. This course is for science and science-related majors. It introduces the fundamental classes of organic (carbon) compounds and studies aliphatic and aromatic hydrocarbons in detail. It includes occurrence, structure, stereo-chemistry, nomenclature, and reactions and mechanisms of synthesis. Lab includes: synthesis, purification by distillation, recrystallization, extraction and chromatography, and identification by spectroscopic, physical and chemical methods. Laboratory fee. (3 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 4005045239)

CHM 202 Organic Chemistry II (4)
(Common Course Number CHEM 2425)
Prerequisite: Chemistry 201. This course is for science and science-related majors. It is a continuation of Chemistry 201. Topics studied include properties and syntheses of aliphatic and aromatic systems of aldehydes, ketones, carboxylic acids, esters, ethers, amines, alcohols and amides. Further topics include polyfunctional and heterocyclic compounds, amino acids, proteins, lipids and carbohydrates. Laboratory includes qualitative organic analysis. Laboratory fee. (3 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 4005045239)

CHM 203 Quantitative Analysis (4)
(Common Course Number CHEM 2401)
Prerequisite: Chemistry 102, Mathematics 101. A survey of methods used in analytical chemistry: gravimetric and volumetric methods based on equilibria, oxidation-reduction, and acid-base theory, spectrophotometry, chromatography and electroanalytical chemistry. (2 Lec., 6 Lab.)
(Coordinating Board Academic Approval Number 4005025139)

COLLEGE LEARNING SKILLS

CLS 100 College Learning Skills (1)
(Next year's course prefix/number DCLS 0100)
This course is for students who wish to extend their learning skills for academic or career programs. Individualized study and practice are provided in reading, study skills, and composition. This course may be repeated for a maximum of three credits. TASP remediation and/or preparation may be included. Students may enroll in up to three different sections of CLS during one semester. (1 Lec.)
(Coordinating Board Academic Approval Number 3201015235)
COMPUTER INFORMATION SYSTEMS

CIS 101 Introduction to Computer Applications And Concepts (4)
(Next year’s course prefix/number CISC 1470)
This course introduces the use of computers in business organizations, professional activities and personal life. Topics include terminology, hardware components, systems and application software, systems development of applications, and use of contemporary software application packages (such as word processing, spreadsheet, database, and graphics). Laboratory fee. (3 Lec., 3 Lab.)

CIS 106 Problem Solving With The Computer (4)
(Next year’s course prefix/number CISC 1471)
Prerequisite: Credit or concurrent enrollment in Computer Information Systems 101 or demonstrated competence approved by the instructor. This course explores the methods of providing computerized solutions to business problems. Analysis and design methods and tools are studied and applied to practical situations involving various business functions. Topics include problem solving skills, logic structures, and programming. Laboratory fee. (3 Lec., 4 Lab.)

CIS 111 Data Entry Applications And Concepts (3)
(Next year’s course prefix/number CISC 1371)
Prerequisite: One semester of high school or college-level typing or keyboarding or demonstrated competence approved by the instructor. This course provides hands on experience using a personal computer for data entry applications. Students will learn to use a data entry utility program to create, change, and modify data sets, as well as enter variable data. Speed and accuracy will be stressed. Laboratory fee. (2 Lec., 4 Lab.)

CIS 116 Systems Management/Operations I (4)
(Next year’s course prefix/number CISC 1473)
Prerequisite: Credit or concurrent enrollment in Computer Information Systems 101 and Computer Information Systems 106 or demonstrated competence approved by the instructor. The interrelationships among computer systems, hardware and software are covered. Topics include tasks associated with systems management and computer operations; peripheral device fundamentals; physical file concepts; using job documentation, standards, operating procedures, control language; and analyzing output and audit logs. Laboratory fee. (3 Lec., 4 Lab.)

CIS 121 Text Processing Applications (4)
(Next year’s course prefix/number CISC 1474)
Prerequisite: Computer Information Systems 101 or demonstrated competence approved by the instructor. The course covers the use of microcomputers in preparing and editing documents, the mechanics of writing and the composition of various types of communications including letters. Topics include entry and editing, reformatting, search and replace, cut-and-paste, file and print operations, utilities including spelling checkers, outliners, and office productivity tools. Office automation concepts including desk top publishing, facsimile and networking are covered. Students will learn to use commercially available text processors. Laboratory fee. (3 Lec., 4 Lab.)

CIS 126 Systems Management/Operations II (4)
(Next year’s course prefix/number CISC 1475)
Prerequisites: Computer Information Systems 101, Computer Information Systems 106, and Computer Information Systems 116 or demonstrated competence approved by the instructor. Management theories and multi-user operating system concepts are covered. Topics include physical and logical files; system commands and control language programming; interpretation of messages and codes; maintaining system security; introduction to data communications; data base screen and report design aids, query and update methods used on mainframes, midrange, and personal computer systems. Laboratory fee. (3 Lec., 4 Lab.)

CIS 160 Data Communications And Operating Systems (3)
(Next year’s course prefix/number CISC 1372)
Prerequisite: Computer Information Systems 101 or demonstrated competence approved by the instructor. This course provides a survey of operating environments and data communications, including vocabulary, concepts, and uses. Topics include connectivity, operating system functions, data communications hardware, software, networks, and protocols. (3 Lec.)

CIS 162 COBOL Programming I (4)
(Next year’s course prefix/number CISC 1476)
Prerequisites: Computer Information Systems 101 and Computer Information Systems 106 or demonstrated competence approved by the instructor. This course develops structured programming skills using the COBOL language. Topics include input/output, comparisons, control breaks, introductory table concepts, and report formats. Skills in problem analysis, using design tools, coding, testing, and documentation are also developed. Laboratory fee. (3 Lec., 4 Lab.)
CIS 164 COBOL Programming II (4)  
(Next year's course prefix/number CISC 1477)  
Prerequisites: Computer Information Systems 106 and Computer Information Systems 162 or demonstrated competence approved by the instructor. This course continues the development of programming skills using the COBOL language. Topics include advanced table concepts, sort techniques, disk file organizations and maintenance, debugging techniques, copy techniques, and subprograms. Laboratory fee. (3 Lec., 4 Lab.)

CIS 169 Application Development Tools (4)  
(Next year's course prefix/number CISC 1478)  
Prerequisite: Computer Information Systems 101 and Computer Information Systems 106 or demonstrated competence approved by the instructor. This course introduces application development tools and their relationship to software productivity. Topics include survey and definition of available products and their uses, current functions, evaluation standards, selection and implementation. Laboratory fee. (3 Lec., 4 Lab.)

CIS 171 RPG Programming (4)  
(Next year's course prefix/number CISC 1476)  
Prerequisite: Computer Information Systems 101 and Computer Information Systems 106 or demonstrated competence approved by the instructor. This course introduces programming skills using an RPG language. Topics include basic listings with levels of totals, array processing, exception reporting, sequential and keyed file processing and introduction to interactive processing applications. Laboratory fee. (3 Lec., 4 Lab.)

CIS 172 BASIC Programming (3)  
(Next year's course prefix/number CISC 1373)  
Prerequisite: Computer Information Systems 101 and Computer Information Systems 106 or demonstrated competence approved by the instructor. This course covers the fundamentals of the BASIC programming language. Topics include structured program development, input/output operations, interactive concepts and techniques, selection and iteration, arrays, functions, string handling, and file processing. Laboratory fee. (2 Lec., 2 Lab.)

CIS 192 UNIX Operating System I (4)  
(Next year's course prefix/number CISC 1480)  
Prerequisite: Computer Information Systems 101 and Computer Information Systems 106 or demonstrated competence approved by the instructor. This course introduces the UNIX operating system and includes topics about the file system, both the C and Bourne shells, standard editor (vi), and an introduction to shell programming. (3 Lec., 4 Lab.)

CIS 200 Fundamentals Of Networking (3)  
(Next year's course prefix/number CISC 2370)  
Prerequisite: Computer Information Systems 160 or demonstrated competence approved by the instructor. This course presents the fundamentals of computer networking. Topics include network planning, cost evaluation, design, and implementation. Laboratory fee. (3 Lec., 1 Lab.)

CIS 205 Control Language And Operating Environments (4)  
(Next year's course prefix/number CISC 2470)  
Prerequisite: Computer Information Systems 101 and Computer Information Systems 106 or demonstrated competence approved by the instructor. This course introduces operating systems concepts, terminology, control language, and utilities. Laboratory fee. (3 Lec., 4 Lab.)

CIS 209 X-base Programming II (4)  
(Next year's course prefix/number CISC 2472)  
Prerequisites: Computer Information Systems 109 or demonstrated competence approved by the instructor. This course continues programming skills in an Xbase language. Topics include advanced array concepts, subroutine concepts, advanced screen handling techniques, index techniques, and integrated system development and organization. Laboratory fee. (3 Lec., 4 Lab.)

CIS 210 Assembly Language I (4)  
(Next year's course prefix/number CISC 2473)  
Prerequisite: Computer Information Systems 109 or demonstrated competence approved by the instructor. This course focuses on basic concepts and instructions using a current mainframe assembler language and structured programming techniques. Topics include decimal features, fixed point operations using registers, selected macro instructions, introductory table concepts, editing printed output, and reading memory dumps. Laboratory fee. (3 Lec., 4 Lab.)

CIS 212 C Programming (4)  
(Next year's course prefix/number CISC 2474)  
Prerequisite: Six credit hours in programming language courses or demonstrated competence approved by the instructor. This course covers the fundamentals of the C Programming language. Topics include structured programming and problem solving techniques. Laboratory fee. (3 Lec., 4 Lab.)
CIS 218 Spreadsheet Applications (4)
(Next year's course prefix/number CISC 2476)
Prerequisites: Computer Information Systems 101 and
Computer Information Systems 106 or demonstrated
competence approved by the instructor. The course cov-
ers the theory and uses of electronic spreadsheets using
commercially available packages. Topics include formula
creation, template design, formatting features, statistical,
mathematical and financial functions, file operations, re-
port generation, graphics, and macro programming.
Labortory fee. (3 Lec., 4 Lab.)

CIS 221 PC Operating Systems And Utilities (4)
(Next year's course prefix/number CISC 2476)
Prerequisites: Computer Information Systems 101 and
Computer Information Systems 106 or demonstrated
competence approved by the instructor. This course cov-
ers operating system concepts and includes data and
memory management, the use of batch files, and “path
techniques” to facilitate efficient use of secondary storage.
Back-up techniques, operating system commands, and
operating system enhancer programs and utilities will be
analyzed. Laboratory fee. (3 Lec., 3 Lab.)

CIS 225 Systems Analysis And Design (4)
(Next year's course prefix/number CISC 2478)
Prerequisite: Minimum of six credit hours of program-
ing language courses or demonstrated competence approved
by the instructor. This course introduces and develops
skills to analyze existing business systems, to design new
systems using structured methodology, and to prepare
documentation. Emphasis is on a case study involving all
facets of systems analysis and design. Laboratory fee.
(3 Lec., 4 Lab.)

CIS 228 PC Hardware (4)
(Next year's course prefix/number CISC 2480)
Prerequisite: Minimum of six credit hours in Computer
Information Systems courses or demonstrated competence approved
by the instructor. This course presents a functional systems-level review of PC hardware and the organization of components and devices into architectural configurations. Students will learn how to prepare and evaluate system specifications, trouble-shoot minor hardware problems, configure and install hardware, manage memory, modify and patch short assembler language programs. Laboratory fee. (3 Lec., 3 Lab.)

CIS 228 Database Applications (4)
(Next year's course prefix/number CISC 2481)
Prerequisites: Minimum of nine credit hours in Computer
Information Systems courses or demonstrated competence approved by the instructor. This course covers database management concepts using commercially available software. Topics include terminology, organizing data and designing files, report and menu generation, indexing, selection/queries, browsing, file operations, and program development. Laboratory fee. (3 Lec., 3 Lab.)

CIS 254 Data Base Systems (4)
(Next year's course prefix/number CISC 2482)
Prerequisite: Minimum of six credit hours in Computer
Information Systems courses or demonstrated competence approved by the instructor. This course is an introduction to applications program development in a database environment with emphasis on loading, modifying, and querying a database. Topics include database design, data management, and structured query language. Laboratory fee. (3 Lec., 4 Lab.)

CIS 258 On-Line Applications (4)
(Next year's course prefix/number CISC 2483)
Prerequisites: Minimum of six credit hours of program-
ing language courses or demonstrated competence approved
by the instructor. This course introduces the concepts required to program on-line applications. Topics include on-line applications design, program coding techniques, testing methods, and file handling. Laboratory fee. (3 Lec., 4 Lab.)

CIS 260 Contemporary Topics In Computer
Information Systems (1)
(Next year's course prefix/number CISC 2170)
Prerequisite: Will vary based on topics covered and will
be annotated in each semester's class schedule. Recent
developments and topics of current interest are studied.
May be repeated when topics vary. (1 Lec.)

CIS 262 Contemporary Topics In Computer
Information Systems (3)
(Next year's course prefix/number CISC 2372)
Prerequisite: Will vary based on topics covered and will
be annotated in each semester's class schedule. Recent
developments and topics of current interest are studied.
May be repeated when topics vary. (3 Lec.)

CIS 263 Special Topics In Computer Information
Systems (3)
(Next year's course prefix/number CISC 2373)
Prerequisite: Will vary based on topics covered and will
be annotated in each semester's class schedule. Current
developments in the rapidly changing field of computer
information systems are studied. May be repeated when
topics vary. Laboratory fee. (2 Lec., 2 Lab.)
CIS 265 Special Topics In Computer Information Systems (4)
(Next year's course prefix/number CISC 2484)
Prerequisites: Will vary based on topics covered and will be annotated in each semester's class schedule. Current developments in the rapidly changing field of computer information systems are studied. May be repeated as topics vary. Laboratory fee. (3 Lec., 4 Lab.)

CIS 268 Advanced C Programming (4)
(Next year's course prefix/number CISC 2486)
Prerequisites: Computer Information Systems 212 or demonstrated competence approved by the instructor. This course continues a study of the C Programming language. Topics include lists, linked lists, searching, tables, sorting, recursion, binary trees and graphs. Laboratory fee. (3 Lec., 4 Lab.)

CIS 270 Object Oriented Programming (4)
(Next year's course prefix/number CISC 2487)
Prerequisites: Minimum of three credit hours in programming courses or demonstrated competence approved by the Instructor. This course presents the basic elements of object oriented design and development and object oriented programming. Laboratory fee. (3 Lec., 4 Lab.)

CIS 271 RPG Interactive Subfile Processing (4)
(Next year's course prefix/number CISC 2482)
Prerequisites: Computer Information Systems 116, Computer Information Systems 126, and Computer Information Systems 171 or demonstrated competence approved by the Instructor. The course continues the study of RPG/400. Topics include interactive processing using SDA with add, update and delete; subfile inquiry and update using READC; parameter passing, calling programs and LD; programmer commands including FILE and DEBUG; INDSA, SDA, record locking, QCMDEXEC, message files and data structures. Laboratory fee. (3 Lec., 4 Lab.)

CIS 275 User Documentation And Training (3)
(Next year's course prefix/number CISC 2375)
Prerequisites: Speech Communication 101, Computer Information Systems 101 and Computer Information Systems 106 or demonstrated competence approved by the instructor. This course covers the practical application of adult learning theory, product documentation, creating user guides and reference manuals, using tutorials, evaluating and using training materials, effective training experiences, concepts of desktop publishing, and presentation graphics. Laboratory fee. (3 Lec., 1 Lab.)

CIS 281 Applied Studies (3)
(Next year's course prefix/number CISC 2489)
Prerequisites: Minimum of eighteen credit hours of PC-oriented Computer Information Systems courses including Computer Information Systems 226 or demonstrated competence approved by instructor. This course applies PC analyst skills to business situations. Topics include planning and implementing solutions to business-related problems, incorporating student knowledge of hardware, software, applications packages, training, documentation, communication skills, and problem solving skills. Laboratory fee. (2 Lec., 3 Lab.)

CIS 292 UNIX Operating System II (4)
(Next year's course prefix/number CISC 2490)
Prerequisites: Computer Information Systems 192 or demonstrated competence approved by the instructor. This course continues the development of UNIX concepts and tools. Topics include advanced file system management, additional editors, text formatting, multi-tasking support and advanced shell programming. Laboratory fee. (3 Lec., 4 Lab.)

CIS 295 UNIX System Administration (4)
(Next year's course prefix/number CISC 2491)
Prerequisites: Computer Information Systems 192 or demonstrated competence approved by the instructor. This course provides students with an introduction to UNIX systems administration. Topics include the administration of data communications, file systems, processes, operations, security and resources. In addition, system configuration and generation will be explored. Some network considerations will also be addressed. Laboratory fee. (3 Lec., 4 Lab.)

CIS 701 Cooperative Work Experience (1)
(Next year's course prefix/number CISC 7171)
Prerequisite: Completion of two courses in the Computer Information Systems program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include job interview and application techniques, job site interpersonal relations, preparation of resumes, building self-esteem, setting and writing job objectives, time and stress management techniques, career interest/aptitude test, evaluation and planning, vendor presentation and professional development. (1 Lec., 5 Lab.)
CIS 702 Cooperative Work Experience (2)
(Next year’s course prefix/number CISC 7271)
Prerequisite: Completion of two courses in the Computer Information Systems program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include job interview and application techniques, job site interpersonal relations, preparation of resumes, building self-esteem, setting and writing job objectives, time and stress management techniques, career interest/aptitude test, evaluation and planning, vendor presentation and professional development. (1 Lec., 10 Lab.)

CIS 703 Cooperative Work Experience (3)
(Next year’s course prefix/number CISC 7371)
Prerequisites: Completion of two courses in the Computer Information Systems program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include job interview and application techniques, job site interpersonal relations, preparation of resumes, building self-esteem, setting and writing job objectives, time and stress management techniques, career interest/aptitude test, evaluation and planning, vendor presentation and professional development. (1 Lec., 10 Lab.)

CIS 704 Cooperative Work Experience (4)
(Next year’s course prefix/number CISC 7471)
Prerequisites: Completion of two courses in the Computer Information Systems program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include job interview and application techniques, job site interpersonal relations, preparation of resumes, building self-esteem, setting and writing job objectives, time and stress management techniques, career interest/aptitude test, evaluation and planning, vendor presentation and professional development. (1 Lec., 20 Lab.)

CIS 712 Cooperative Work Experience (2)
(Next year’s course prefix/number CISC 7272)
Prerequisite: Completion of one course in Computer Information Systems 701, 702, 703 or 704. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include setting and writing job objectives and directed independent studies of computer-related topics such as expert systems, new vendor products or presentation graphics. (1 Lec., 10 Lab.)

CIS 713 Cooperative Work Experience (3)
(Next year’s course prefix/number CISC 7372)
Prerequisite: Completion of one course in Computer Information Systems 701, 702, 703 or 704. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include setting and writing job objectives and directed independent studies of computer-related topics such as expert systems, new vendor products or presentation graphics. (1 Lec., 15 Lab.)

CIS 714 Cooperative Work Experience (4)
(Next year’s course prefix/number CISC 7472)
Prerequisite: Completion of one course in Computer Information Systems 701, 702, 703 or 704. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include setting and writing job objectives and directed independent studies of computer-related topics such as expert systems, new vendor products or presentation graphics. (1 Lec., 20 Lab.)

CRIMINAL JUSTICE

CJ 130 Fundamentals Of Criminal Law (3)
(Common Course Number CRJ 1310)
A study of the nature of criminal law is presented. The philosophical and historical development of criminal law is covered. Major definitions and concepts are given. The classification of crime is covered. The elements of crimes and penalties are discussed using Texas statutes as illustrations. Criminal responsibility is defined. (3 Lec.)
CJ 132 The Courts And Criminal Justice (3)  
(Common Course Number CRIJ 1306)  
The judiciary in the criminal justice system is explained.  
The structure of the American Court System is defined.  
Prosecutional right to counsel is explained. Other areas  
covered are pretrial release, grand juries, adjudication  
process, and types of rules of evidence and sentencing.  
(3 Lec.)

CJ 139 Crime In America (3)  
(Common Course Number CRIJ 1307)  
American crime problems are studied in the historical  
perspective. Social and public policy factors affecting  
crime are discussed. The impact of crime and crime  
trends are shown along with the social characteristics of  
specific crimes. The prevention of crime is emphasized.  
(3 Lec.)

CJ 140 Introduction To Criminal Justice (3)  
(Common Course Number CRIJ 1301)  
This course is a study of history and philosophy of criminal  
justice including ethical considerations. Topics include  
the definition of crime, the nature and impact of crime, an  
overview of the criminal justice system, law enforcement,  
court system, prosecution and defense, trial process, and  
corrections. (3 Lec.)

CJ 148 Texas Peace Officers Law (3)  
(Common Course Number CRIJ 2333)  
Prerequisite: Thirty semester hours of approved acade-  
ic courses to include fifteen hours of the transfer  
curriculum in Law Enforcement. This course is a study of  
laws that are directly related to police field work. Topics  
include traffic, Intoxicated driver, Penal Code, elements of  
crimes, the Family Code, Alcoholic Beverage Code and  
civil liability. This course qualifies for four TCLEOSE train-  
ing points. (3 Lec., 2 Lab.)

CJ 150 Texas Peace Officer Procedures (3)  
(Common Course Number CRIJ 2334)  
Prerequisite: Criminal Justice 148 or concurrent enroll-  
ment. This course is a study of the techniques and  
procedures used by police officers on patrol. Topics  
include controlled substance identification, handling ab-  
normal persons, traffic collision investigation, note taking  
and report writing, vehicle operation, traffic direction,  
crowd control and jail operations. This course qualifies for  
four TCLEOSE training points. (3 Lec., 2 Lab.)

CJ 240 Criminal Investigation (3)  
(Common Course Number CRIJ 2314)  
Prerequisite: Criminal Justice 140. This course covers  
investigative theory. Topics include the collection and  
preservation of evidence, sources of information, and  
interview and interrogation. The uses of forensic sciences  
and case and trial preparation are also included. (3 Lec.)

CJ 242 Juvenile Procedures (3)  
(Common Course Number CRIJ 2322)  
Prerequisite: Criminal Justice 140. This course covers  
recent research and new materials in juvenile procedures.  
Emphasis is on the major responsibilities of police work  
with children and youth. (3 Lec.)

CJ 244 Traffic Planning And Administration (3)  
(Common Course Number CRIJ 2331)  
Prerequisite: Thirty semester hours of approved acade-  
ic courses to include fifteen hours of the transfer  
curriculum in Law Enforcement. This course is a study of  
laws that are directly related to police field work. Topics  
include traffic, Intoxicated driver, Penal Code, elements of  
crimes, the Family Code, Alcoholic Beverage Code and  
civil liability. This course qualifies for four TCLEOSE train-  
ing points. (3 Lec., 2 Lab.)

CJ 247 Legal Aspects of Law Enforcement (3)  
(Common Course Number CRIJ 2323)  
This course covers police authority, responsibilities, and  
constitutional constraints. Topics include laws of arrest,  
search and seizure, and police liability. (3 Lec.)

CJ 248 Police Systems and Practices (3)  
(Common Course Number CRIJ 2328)  
The police profession is studied. The organization of law  
enforcement systems is explained. Other topics include  
the police role, police discretion, ethics, and police/com-  
munity interaction. Current and future issues are  
emphasized. (3 Lec.)

CJ 250 Correctional Systems And Practices (3)  
(Common Course Number CRIJ 2313)  
The relationship of corrections in the Criminal Justice  
system, the organization of correctional systems, and the  
correctional role are covered. Attention is given to institu-  
tional operations, alternatives to institutionalization,  
treatment and rehabilitation, and current and future issues.  
(3 Lec.)

CJ 251 Community Resources In Corrections (3)  
(Common Course Number CRIJ 2301)  
This course is an introductory study of the role of the  
community in corrections. Community programs for  
adults and juveniles and the administration of community  
programs are covered. Legal issues and future trends are  
presented. (3 Lec.)
CJ 703 Cooperative Work Experience (3)
(Next year's course prefix/number CRIJ 7371)
Prerequisites: Completion of two courses in the Criminal Justice program. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include job interview and application techniques, job site interpersonal relations, preparation of resumes, building self-esteem, setting and writing job objectives, time and stress management techniques, career interest/aptitude test, evaluation and planning, and professional development. (1 Lec., 15 Lab.)

CJ 704 Cooperative Work Experience (4)
(Next year's course prefix/number CRIJ 7471)
Prerequisites: Completion of two courses in the Criminal Justice program. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include job interview and application techniques, job site interpersonal relations, preparation of resumes, building self-esteem, setting and writing job objectives, time and stress management techniques, career interest/aptitude test, evaluation and planning, and professional development. (1 Lec., 20 Lab.)

CJ 713 Cooperative Work Experience (3)
(Next year's course prefix/number CRIJ 7372)
Prerequisite: Completion of one course in Criminal Justice 703 or 704. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include setting and writing job objectives. (1 Lec., 15 Lab.)

CJ 714 Cooperative Work Experience (4)
(Next year's course prefix/number CRIJ 7472)
Prerequisite: Completion of one course in Criminal Justice 703 or 704. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Student must develop new learning objectives each semester. The seminar consists of topics which include setting and writing job objectives. (1 Lec., 15 Lab.)

DANCE

DAN 118 Rehearsal and Performance (1)
(General Course Number DANC 1151)
This course supplements beginning dance technique classes. Basic concepts of approaching work on the concert stage—stage directions, stage areas, and the craft involved in rehearsing and performing are emphasized. This course may be repeated for credit. (4 Lab.)

DAN 155 Jazz I (1)
(General Course Number DANC 1147)
The basic skills of jazz dance are introduced. Emphasis is on technique and development, rhythm awareness, jazz styles, and rhythmic combinations of movement. Laboratory fee. (3 Lab.)

DAN 156 Jazz II (1)
(General Course Number DANC 1148)
Prerequisite: Dance 155 or demonstrated competence approved by the instructor. Work on skills and style in jazz dance is continued. Technical skills, combinations of steps and skills into dance patterns, and exploration of composition in jazz form are emphasized. Laboratory fee. (3 Lab.)

DAN 161 Beginning Ballet I (2)
(General Course Number DANC 1241)
This course explores basic ballet techniques. Included are posture, balance, coordination, rhythm, and flow of physical energy through the art form. Theory, terminology, ballet history, and current attitudes and events in ballet are also studied. Barre exercises and center floor combinations are given. Laboratory fee. (1 Lec., 3 Lab.)

DAN 163 Beginning Ballet II (2)
(General Course Number DANC 1242)
Prerequisite: Dance 161. This course is a continuation of Dance 161. Emphasis is on expansion of combinations at the barre. Connecting steps learned at center are added. Jumps and pirouettes are introduced. Laboratory fee. (1 Lec., 3 Lab.)

DAN 165 Beginning Contemporary Dance I (2)
(General Course Number DANC 1245)
This course explores basic contemporary techniques. Emphasis is on technique development, and familiarity with contemporary meters and rhythms. An awareness of major influences on concert dance is developed. Laboratory fee. (1 Lec., 3 Lab.)
DAN 166 Beginning Contemporary Dance II (2)
(Prerequisite: Dance 165. This course continues and further develops an exploration of Dance 165. Laboratory fee. (1 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 5003015230)

DAN 200 Rehearsal and Performance (1)
(Prerequisite: Dance 160 or demonstrated competence approved by the instructor. This course supplements intermediate dance technique classes. It is a continuation of Dance 160 with emphasis on more advanced concepts as they apply to actual rehearsals and performances. This course may be repeated for credit. (4 Lab.)
(Coordinating Board Academic Approval Number 5003015230)

DAN 252 Coaching and Repertoire (1)
(Prerequisite: Demonstrated competence approved by the instructor. Variations (male and female) and pas de deux from standard ballet repertoire are studied and noted. The dancer is given individual coaching, with special attention given to the correction of problems. This course may be repeated for credit. Laboratory fee. (2 Lab.)
(Coordinating Board Academic Approval Number 5003015230)

DAN 253 Improvisation (1)
(Prerequisite: Dance 156 or 163. This course consists of creative problem-solving utilizing basic elements of design. This course may be repeated for credit. Laboratory fee. (2 Lab.)
(Coordinating Board Academic Approval Number 5003015230)

DESIGN

DES 110 Basic Color Theory And Application (3)
The principles of color theory are studied using a selected color system. The effect of light on color and the psychological impact of color are explored. Color pigment is mixed in opaque media. The content of the course is applied to the student's discipline. Laboratory fee. (2 Lec., 4 Lab.)

DES 128 Introduction To Mass Production Apparel (2)
(Mass production in the fashion industry is analyzed. (2 Lec.)

DES 129 Industrial Garment Construction (1)
The equipment, techniques and skills used in making mass produced apparel are studied. Laboratory fee. (3 Lab.)

DES 135 Textiles (3)
(Next year's course prefix/number DES 1371)
This course focuses on fibers, yarns, fabrics, and finishing processes. Included are the identification and analysis of all types of construction methods and their application in industry. The history of traditional textiles is described. Comparisons are made with contemporary developments. A guided design systems approach is used. (2 Lec., 2 Lab.)

DES 136 Fashion Sketching (3)
(Next year's course prefix/number DES 1372)
The structure of the fashion figure is explored. Simple methods for making quick sketches which communicate style information are emphasized. (2 Lec., 4 Lab.)

DES 140 Draping (1)
(Prerequisite: Pattern Design 151. Dress designs are creatively interpreted on individual dress forms. Sketches or abstract designs are translated to muslin. Laboratory fee. (2 Lab.)

DES 141 Grading (1)
(Prerequisite: Pattern Design 151. The standard production pattern is emphasized. Both large and small sizing is included. The student is introduced to computerized grading. Laboratory fee. (2 Lab.)

DES 229 Advanced Clothing Construction (3)
(Prerequisite: Design 129. Advanced techniques of garment construction are studied. Total garments are completed. Laboratory fee. (2 Lec., 3 Lab.)

DES 234 History Of Costume (3)
(Next year's course prefix/number DES 2371)
This course traces the development of garments from the earliest times through the 18th Century. Emphasis is on the customs which affect styles. (3 Lec.)

DES 235 History Of Costume (3)
(Next year's course prefix/number DES 2372)
This course traces the development of garments from the 18th century to the present day. Emphasis is on the customs which affect styles. (3 Lec.)
DEVELOPMENTAL COMMUNICATIONS

DC 120 Communication Skills (3)
(Next year's course prefix/number DEVC 0120)
This course is for students with significant communication problems. It is organized around skill development, and students may enroll at any time (not just at the beginning of a semester) upon the referral of an instructor. Emphasis is on individual needs and personalized programs. Special attention is given to oral language. Contacts are made with other departments to provide other ways of learning for the students. (2 Lec., 2 Lab.)
(Coordinating Board Academic Approval Number 3201085135)

DEVELOPMENTAL LEARNING

DL 094 Learning Skills Improvement (1)
(Next year's course prefix/number DEVL 0094)
Learning skills are strengthened. Emphasis is on individual needs and personalized programs. This course may be repeated for a maximum of three credits. (2 Lab.)
(Coordinating Board Academic Approval Number 320105235)

DEVELOPMENTAL MATHEMATICS

DM 060 Basic Mathematics I (1)
(Next year's course prefix/number DEVM 0060)
This course is designed to give an understanding of fundamental operations. Selected topics include whole numbers, decimals, and ratio and proportions. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 061 Basic Mathematics II (1)
(Next year's course prefix/number DEVM 0061)
This course is designed to give an understanding of fractions. Selected topics include primes, factors, least common multiples, percents, and basic operations with fractions. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 062 Pre Business (1)
(Next year's course prefix/number DEVM 0062)
This course is designed to introduce students to business mathematics. Selected topics include discounts and commissions, interest, metric and English measuring systems, areas, and volumes. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 063 Pre Algebra (1)
(Next year's course prefix/number DEVM 0063)
This course is designed to introduce students to the language of algebra with such topics as integers, metrics, equations, and properties of counting numbers. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 064 Mathematics For Nursing I (1)
(Next year's course prefix/number DEVM 0064)
This course is designed to develop an understanding of the measurements and terminology in medicine and calculations involving conversions of applicable systems of measurement. It is designed primarily for students in all nursing programs. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 065 Mathematics For Nursing II (1)
(Next year's course prefix/number DEVM 0065)
Prerequisite: Developmental Mathematics 064. This course includes medical calculations used in problems dealing with solutions and dosages. It is designed primarily for students in the nursing programs. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 070 Elementary Algebra I (1)
(Next year's course prefix/number DEVM 0070)
Prerequisites: Developmental Mathematics 090, 063, or equivalent. This course is an introduction to algebra and includes selected topics such as basic principles and operations of sets, counting numbers, and integers. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 071 Elementary Algebra II (1)
(Next year's course prefix/number DEVM 0071)
Prerequisite: Developmental Mathematics 070 or equivalent. This course includes selected topics such as rational numbers, algebraic polynomials, factoring, and algebraic fractions. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 072 Elementary Algebra III (1)
(Next year's course prefix/number DEVM 0072)
Prerequisite: Developmental Mathematics 071 or equivalent. This course includes selected topics such as fractional and quadratic equations, quadratic equations with irrational solutions, and systems of equations involving two variables. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)

DM 073 Introduction To Geometry (1)
(Next year's course prefix/number DEVM 0073)
This course introduces principles of geometry. Axioms, theorems, axiom systems, models of such systems, and methods of proof are stressed. (1 Lec.)
(Coordinating Board Academic Approval Number 3201045137)
DM 080 Intermediate Algebra I (1)  
(Next year’s course prefix/number DEVM 0080)  
Prerequisites: Developmental Mathematics 071, 091 or equivalent. This course includes selected topics such as systems of rational numbers, real numbers, and complex numbers. (1 Lec.)  
(Coordinating Board Academic Approval Number 3201045137)

DM 081 Intermediate Algebra II (1)  
(Next year’s course prefix/number DEVM 0081)  
Prerequisite: Developmental Mathematics 080 or equivalent. This course includes selected topics such as sets, relations, functions, inequalities, and absolute values. (1 Lec.)  
(Coordinating Board Academic Approval Number 3201045137)

DM 082 Intermediate Algebra III (1)  
(Next year’s course prefix/number DEVM 0082)  
Prerequisite: Developmental Mathematics 081 or equivalent. This course includes selected topics such as graphing, exponents, and factoring. (1 Lec.)  
(Coordinating Board Academic Approval Number 3201045137)

DM 090 Pre Algebra Mathematics (3)  
(Next year’s course prefix/number DEVM 0090)  
This course is designed to develop an understanding of fundamental operations using whole numbers, fractions, decimals, and percentages and to strengthen basic skills in mathematics. The course is planned primarily for students who need to review basic mathematical processes. This is the first three-hour course in the developmental mathematics sequence. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201045137)

DM 091 Elementary Algebra (3)  
(Next year’s course prefix/number DEVM 0091)  
Prerequisite: Developmental Mathematics 090 or an appropriate assessment test score. This is a course in introductory algebra which includes operations on real numbers, polynomials, special products and factoring, rational expressions, and linear equations and inequalities. Also covered are graphs, systems of linear equations, exponents, roots, radicals, and quadratic equations. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201045137)

DM 093 Intermediate Algebra (3)  
(Next year’s course prefix/number DEVM 0093)  
Prerequisite: One year of high school algebra and an appropriate assessment test score or Developmental Mathematics 091. This course includes further development of the terminology of sets, operations on sets, properties of real numbers; polynomials, rational expressions, linear equations and inequalities, the straight line, systems of linear equations, exponents, roots, and radicals. Also covered are products and factoring, quadratic equations and inequalities, absolute value equations and inequalities, relations, functions, and graphs. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201045137)

DEVELOPMENTAL READING

Students can improve their academic success by taking the appropriate reading courses. For an assessment of which course to begin with, talk with a reading faculty member or a counselor.

DR 090 Developmental Reading (3)  
(Next year’s course prefix/number DEVR 0090)  
This course presents basic reading comprehension and vocabulary skills. Basic study skills are introduced. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085235)

DR 091 Developmental Reading (3)  
(Next year’s course prefix/DEVR 0091)  
This course continues the development of reading comprehension and vocabulary skills. Study skills are also included. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085235)

DR 093 Developmental Reading (3)  
(Next year’s course prefix/DEVR 0093)  
This course offers further development of reading comprehension, vocabulary, and study skills. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085235)

DEVELOPMENTAL WRITING

Students can improve their writing skills by taking Developmental Writing. These courses are offered for three hours of credit.

DW 090 Developmental Writing (3)  
(Next year’s course prefix/number DEVW 0090)  
This course introduces the writing process. Course topics include practice in getting ideas, writing and rewriting, making improvements, and correcting mistakes. A learning lab is available to provide additional assistance. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085335)

DW 091 Developmental Writing (3)  
(Next year’s course prefix/number DEVW 0091)  
This course focuses on the writing process. Course topics include inventing, drafting, revising, and editing multi-paragraph papers. Building reading skills, using resources, developing thinking skills, and improving attitudes toward writing comprise other course topics. A learning lab is available to provide additional assistance. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085335)

DW 093 Developmental Writing (3)  
(Next year’s course prefix/number DEVW 0093)  
This course refines student writing skills in inventing, drafting, revising, and editing multi-paragraph papers. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085335)
DIAGNOSTIC MEDICAL SONOGRAPHY

DMS 208 Cross Sectional Anatomy (3)  
(Next year's course prefix/number SONO 2370)  
Prerequisite: Minimum grade of "C" or better in all previous Radiologic Sciences courses. This course focuses on a detailed study of the anatomy of the abdomen, including the anatomical relationships of organs such as the liver, gallbladder, spleen, vascular system, and pelvis, as it relates to an ultrasound examination. Laboratory fee. (3 Lec.)

DMS 210 Acoustical Physics (3)  
(Next year's course prefix/number SONO 2371)  
Prerequisite: Minimum grade of "C" or better in all previous Radiologic Science courses. This course is designed to introduce the student to the study of acoustical physics, with the discussion of such topics as the interaction of ultrasound with tissues, mechanics of ultrasound production, various transducer design and construction, and principles of doppler devices. (3 Lec.)

DMS 216 Ultrasound Science I (2)  
(Next year's course prefix/number SONO 2270)  
Prerequisite: Minimum grade of "C" or better in all previous Radiologic Sciences courses. This course discusses the history of sonography, related diagnostic research, and departmental procedures. Patient history and clinical findings relative to sonographic examination will be discussed. (2 Lec.)

DMS 217 Clinical Education I (3)  
(Next year's course prefix/number SONO 2372)  
Prerequisite: Minimum grade of "C" or better in all previous Radiologic Sciences courses. The student will participate in supervised experiences in an affiliated hospital ultrasound department. (20 Lab.)

DMS 218 Clinical Medicine I (4)  
(Next year's course prefix/number SONO 2470)  
Prerequisite: Minimum grade of "C" or better in all previous Radiologic Sciences courses. A detailed study of scanning techniques, transducers, normal and abnormal abdominal anatomy, patient history and laboratory data, as it relates to sonographic examination are the focus of this course. (4 Lec.)

DMS 222 Pathophysiology (3)  
(Next year's course prefix/number SONO 2373)  
Prerequisite: Minimum grade of "C" or better in all previous Radiologic Sciences courses. This course presents a study of the pathology and pathophysiology of abdominal structures visualized with ultrasound examination, including urinary and reproductive systems, breast and thyroid. Correlations will be made between sonographic examination and disease processes of these organs. (3 Lec.)

DMS 225 Clinical Medicine II (4)  
(Next year's course prefix/number SONO 2471)  
Prerequisite: Minimum grade of "C" or better in all previous courses. This is a continuation of Clinical Medicine I with emphasis on the male and female pelvis, and obstetrics. (4 Lec.)

DMS 227 Instrumentation/Standardization (2)  
(Next year's course prefix/number SONO 2271)  
Prerequisite: Minimum grade of "C" or better in all previous courses. This course focuses on the components and functions of the scanner, display systems, scan converter, and hard copy units of sonographic examination. Discussion will include a comparison of various real time units, B scan units. Operations and calibration of an ultrasound unit will also be discussed. (2 Lec.)

DMS 229 Clinical Education II (4)  
(Next year's course prefix/number SONO 2472)  
Prerequisite: Minimum grade of "C" or better in all previous courses. This is a continuation of Clinical Education I. Students will be assigned to affiliated hospital ultrasound departments. (24 Lab.)

DMS 237 Clinical Medicine III (1)  
(Next year's course prefix/number SONO 2170)  
Prerequisite: Minimum grade of "C" or better in all previous courses. This course is a continuation of Clinical Medicine II, with emphasis on the neonatal head. (3 Lec.)

DMS 242 Clinical Medicine IV (1)  
(Next year's course prefix/number SONO 2172)  
Prerequisite: Minimum grade of "C" or better in all previous courses. This course is a continuation of Clinical Medicine III with emphasis placed on review of adult abdominal organ systems. (3 Lec.)

DMS 252 Clinical Education III (2)  
(Next year's course prefix/number SONO 2272)  
Prerequisite: Minimum grade of "C" or better in all previous courses. This course is a continuation of Clinical Education II. Students will be assigned to affiliated hospital ultrasound departments. (32 Lab.)

DMS 253 Clinical Education IV (2)  
(Next year's course prefix/number SONO 2273)  
Prerequisite: Minimum grade of "C" or better in all previous courses. This course is a continuation of Clinical Education III. Students will be assigned to affiliated hospital ultrasound departments. (32 Lab.)
ECONOMICS

ECO 105 Economics Of Contemporary Social Issues (3)
(Common Course Number ECON 1303)
This course is a study of the economics of current social issues and public policy, including such matters as antitrust policy, business deregulation, social security, wage and price controls, budget deficits, economic growth, medical care, nuclear power, farm policy, labor unions, foreign trade, and economic stabilization. This course is a credit course that can serve as a transfer elective and/or introductory course for the Principles sequence (Economics 201 or 202). This course, however, will not replace either Economics 201 or 202 where these courses are required in a university transfer curriculum. (3 Lec.)
(Coordinating Board Academic Approval Number 1904025242)

ECO 201 Principles Of Economics I (3)
(Common Course Number ECON 2301)
Sophomore standing is recommended. The principles of macroeconomics are presented. Topics include economic organization, national income determination, money and banking, monetary and fiscal policy, macroeconomic applications of international trade and finance, economic fluctuations, and growth. (3 Lec.)
(Coordinating Board Academic Approval Number 4506015142)

ECO 202 Principles Of Economics II (3)
(Common Course Number ECON 2302)
Prerequisite: Economics 201 or demonstrated competence approved by the instructor. The principles of microeconomics are presented. Topics include the theory of demand, supply, and price of factors. Income distribution and theory of the firm are also included. Emphasis is given to microeconomic applications of international trade and finance as well as other contemporary microeconomic problems. (3 Lec.)
(Coordinating Board Academic Approval Number 4506015142)

ENGLISH

(Also see Developmental Reading and Developmental Writing.) Additional instruction in writing and reading is available through the Learning Skills Center.

ENG 101 Composition I (3)
(Common Course Number ENGL 1301)
Prerequisite: An appropriate assessment test score (ACT, DCCCD test, or SAT). This course focuses on student writing. It emphasizes reading and analytical thinking and introduces research skills. Students practice writing for a variety of audiences and purposes. (3 Lec.)
(Coordinating Board Academic Approval Number 2304015135)

ENG 102 Composition II (3)
(Common Course Number ENGL 1302)
Prerequisite: English 101. In this course students refine the writing, research, and reading skills introduced in English 101. A related goal is the development of critical thinking skills. Writing assignments emphasize argumentation and persuasion. Students will also write a formal research paper. (3 Lec.)
(Coordinating Board Academic Approval Number 2304015135)

English In The Sophomore Year

ENG 201 British Literature (3)
(Common Course Number ENGL 2322)
Prerequisite: English 102. This course includes significant works of British writers from the Old English Period through the 18th century. (3 Lec.)
(Coordinating Board Academic Approval Number 2308015135)

ENG 202 British Literature (3)
(Common Course Number ENGL 2323)
Prerequisite: English 102. This course includes significant works of British writers from the Romantic Period to the present. (3 Lec.)
(Coordinating Board Academic Approval Number 2308015135)

ENG 203 World Literature (3)
(Common Course Number ENGL 2333)
Prerequisite: English 102. This course includes significant works of Continental Europe and may include works from other cultures. It covers the Ancient World through the Renaissance. (3 Lec.)
(Coordinating Board Academic Approval Number 2303015235)

ENG 204 World Literature (3)
(Common Course Number ENGL 2334)
Prerequisite: English 102. This course includes significant works of Continental Europe and may include selected works of other cultures from the Renaissance to the present. (3 Lec.)
(Coordinating Board Academic Approval Number 2303015235)

ENG 205 American Literature (3)
(Common Course Number ENGL 2327)
Prerequisite: English 102. This course includes significant works of American writers from the Colonial through the Romantic Period. (3 Lec.)
(Coordinating Board Academic Approval Number 2307015135)

ENG 206 American Literature (3)
(Common Course Number ENGL 2328)
Prerequisite: English 102. This course includes significant works of American writers from the Realistic Period to the present. (3 Lec.)
(Coordinating Board Academic Approval Number 2307015135)
ENG 215 Studies in Literature (3)
(Common Course Number ENGL 2352)
Prerequisite: English 102. This course includes selections in literature organized by genre, period, or geographical region. Course descriptions are available each semester prior to registration. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 2303015335)

ENGLISH AS A SECOND LANGUAGE

The English As A Second Language ESL credit curriculum is designed to develop a student's pre-academic language proficiency in the areas of listening, speaking, reading, and writing. The plan of study consists of sixteen courses divided into four proficiency levels and four skill areas (Listening-Speaking, Reading, Writing, and Grammar). The credit curriculum is designed to interface both with other ESL programs and with developmental studies or college level programs on each campus. A student enters this program by taking an English placement test and then by being advised by a specially trained ESL academic advisor.

ESL 031-034 (Listening-Speaking)
These courses prepare students to communicate orally in both public and academic environments. Emphasis is placed on developing language functions, pronunciation, and listening skills, and improving social and intercultural communication skills. Activities range from one-on-one conversation and brief descriptions to formal oral presentations and debates.

ESL 041-044 (Reading)
These courses engage students in reading material from daily experience and prepare them for college reading tasks. Each course instructs students in reading skills, vocabulary development, critical thinking skills, and the use of resources.

ESL 051-054 (Writing)
These courses are designed to help students increase fluency and build confidence in writing. The courses focus on writing as a process. Through inventing, drafting, and revising, students write for specific audiences and purposes.

ESL 061-064 (Grammar)
These courses are designed to complement the ESL 051-054 writing series. They provide instruction and practice with discrete grammar points necessary for effective writing.

INGLES COMO SEGUNDO IDIOMA

El programa de crédito académico de Inglés Como Segundo Idioma ESL está diseñado para desarrollar el dominio del idioma pre-academico del estudiante en las áreas de escuchar, hablar, leer y escribir. El plan de estudio consiste en dieciséis cursos divididos en cuatro niveles de dominio y cuatro áreas de habilidades (Escuchar/Hablar, Lectura, Escritura y Gramática). El programa de crédito académico está diseñado para complementar otros programas de ESL y con los estudios de desarrollo o programas de nivel universitario de cada campus. El estudiante comienza este programa al tomar un examen de clasificación y después de una entrevista individual con un asesor académico entrenado especialmente en ESL.

ESL 031-034 (Escuchar y Conversar)
Estos cursos preparan al alumno para comunicarse con confianza en situaciones sociales y académicas. Se desarrollan las varias funciones del lenguaje, se mejora la pronunciación y comprensión auditiva y se practica la comunicación académica y transcultural. Las actividades didácticas incluyen describir lugares y objetos, proyectos en grupo, presentaciones orales y debates formales.

ESL 041-044 (Lectura)
Estos cursos permiten a los estudiantes el acceso a material de lectura de la vida diaria y los prepara para tareas de lectura académica. Cada curso instruye a los estudiantes en habilidades de lectura, desarrollo de vocabulario, pensar en forma crítica y el uso de los varios recursos disponibles en la institución.

ESL 051, ESL 052, ESL 053, ESL 054
Estos cursos están diseñados con el objeto de ayudar los alumnos a obtener fluidez y confianza en escritura. Los cursos se enfocan en el proceso de escritura. A través de crear, planear y revisar, los estudiantes producen escritos para diferentes audiencias y con diversos propósitos.

ESL 061, ESL 062, ESL 063, ESL 064
Estos cursos están diseñados para complementar la serie de Escritura 051-054. Dichos cursos proveen instrucción y ejercicios prácticos, así como puntos esenciales de gramática necesarios para la efectiva comunicación escrita.
ENGLISH AS A SECOND LANGUAGE

ESL 031 ESL Listening/Speaking (3)
(Next year's course prefix/number ESOL 0031)
This course focuses on developing basic social and pre-academic listening and speaking skills. It includes skills such as describing, giving directions, and learning to understand explanations. Conversation conventions will be practiced as well as non-verbal communication skills. (Pronunciation is introduced through the study of basic phonetic segments and intonation patterns.) This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085535)

ESL 032 ESL Listening/Speaking (3)
(Next year's course prefix/number ESOL 0032)
This course develops intermediate social and pre-academic listening and speaking skills through situational activities. Students will express ideas and opinions in small groups and learn to understand and react appropriately. Intercultural communication will be incorporated. (Pronunciation skills will be practiced through identifying phonetic correctness and applying concepts of stress and intonation.) This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085535)

ESL 033 ESL Speaking (3)
(Next year's course prefix/number ESOL 0033)
This course develops public/academic oral language skills through active participation in group projects and presentations. Rhetorical skills such as narration and description will be practiced, and improving cross-cultural communication skills will be emphasized. (Pronunciation skills, including stress and intonation, will be refined with focused effort on areas of need through monitoring of oral production.) This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085535)

ESL 034 ESL Academic Speaking (3)
(Next year's course prefix/number ESOL 0034)
This course stresses academic speaking skills. Students learn formal presentation techniques as they defend a point of view and participate in seminars, panels, and debates. Formal rhetorical skills such as cause/effect, process, and summary will be practiced. The course will emphasize the value of cultural diversity. (Pronunciation skills, including stress and intonation, will continue to be refined with focused effort on areas of need through monitoring of oral production.) This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085535)

ESL 041 ESL Reading (3)
(Next year's course prefix/number ESOL 0041)
This course focuses on language development through reading activities. It includes reading comprehension, vocabulary building, study skills techniques, and intercultural sharing. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085635)

ESL 042 ESL Reading (3)
(Next year's course prefix/number ESOL 0042)
This course continues language development through reading comprehension and vocabulary building. It introduces paragraph organization, idiom study, and adapting reading rate for different purposes. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085635)

ESL 043 ESL Reading (3)
(Next year's course prefix/number ESOL 0043)
This course includes specific reading comprehension skills, reading efficiency strategies, critical thinking skills, vocabulary expansion, and the use of campus resources such as labs and libraries. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085635)

ESL 044 ESL Reading (3)
(Next year's course prefix/number ESOL 0044)
This course is designed to build on skills taught in previous reading classes but with a more academic emphasis. Students are taught reading skills and critical thinking skills as they relate to academic topics and to literature. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085635)

ESL 051 ESL Writing (3)
(Next year's course prefix/number ESOL 0051)
This course stresses the creation of sentences and groups of sentences. It also introduces basic spelling rules and vocabulary development. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085735)

ESL 052 ESL Writing (3)
(Next year's course prefix/number ESOL 0052)
This course introduces the development of controlled and guided paragraphs using a variety of organizational structures and stresses logic patterns of English. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085735)

ESL 053 ESL Writing (3)
(Next year's course prefix/number ESOL 0053)
This course stresses the process of paragraph writing and the characteristics of effective paragraph structure. It also introduces modes of discourse such as description, cause-effect, and comparison-contrast. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 3201085735)
**ESL 054 ESL Writing (3)**  
*(Next year's course prefix/number ESOL 0054)*  
This course emphasizes modes of discourse in expository writing for academic purposes. Particular attention is given to improving unity, coherence, transition, and style as students progress to multi-paragraph compositions. Paraphrasing and summarizing are also introduced. This course may be repeated for credit. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085735)

**ESL 061 ESL Grammar (3)**  
*(Next year's course prefix/number ESOL 0061)*  
This course introduces the basic aspects of English grammar needed to write simple and compound sentences. It includes the study of basic verb tenses, parts of speech, subject-verb agreement, and question formation. This course may be repeated for credit. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085735)

**ESL 062 ESL Grammar (3)**  
*(Next year's course prefix/number ESOL 0062)*  
This course reviews basic elements of English grammar introduced in ESL 061 and introduces grammar points necessary for writing controlled paragraphs. It includes further study of verb tenses, parts of speech, and question formation and introduces two-word verbs, modals, gerunds, and infinitives. This course may be repeated for credit. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085735)

**ESL 063 ESL Grammar (3)**  
*(Next year's course prefix/number ESOL 0063)*  
This course reviews grammar points studied in ESL 061 and ESL 062 and introduces elements necessary for students to write effective one-paragraph essays. It continues the study of verb tenses, parts of speech, and modals and introduces adverb, adjective, and noun clauses. This course may be repeated for credit. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085735)

**ESL 064 ESL Grammar (3)**  
*(Next year's course prefix/number ESOL 0064)*  
This course reviews grammar points studied in ESL 061, ESL 062, and ESL 063 and analyzes complex elements of those points. In addition, it introduces passive voice and conditional sentences. This course may be repeated for credit. (3 Lec.)  
(Coordinating Board Academic Approval Number 3201085735)

**FIRE PROTECTION**

**FPT 131 Fundamentals Of Fire Protection (3)**  
*(Next year's course prefix/number FIRE 1370)*  
The history and philosophy of fire protection are studied. Statistics on fire losses are reviewed and agencies involved in fire protection are introduced. Other topics include legislative developments, career orientation, recruitment and training for fire departments, position classification and pay plans, and employee organizations. Current and future problems are also reviewed. (3 Lec.)

**FPT 132 Fire Prevention (3)**  
*(Next year's course prefix/number FIRE 1371)*  
Fire prevention administration is studied. Both principles and procedures are covered. Other topics include inspections, organization, public cooperation and image, recognition of fire hazards, insurance problems, and legal aspects. Local, state, and national codes on fire prevention are reviewed. Relationships between building inspection agencies and fire prevention organizations are described. Engineering is presented as a solution to fire hazards. (3 Lec.)

**FPT 137 Hazardous Materials I (3)**  
*(Next year's course prefix/number FIRE 1372)*  
Prerequisite: Chemistry 102. This course includes the study of the chemical characteristics and behavior of various materials related to storage, transportation, handling hazardous materials, i.e., inflammable liquids, combustible solids and gases. Emphasis is on emergency situations and methods of handling fire fighting and control. (3 Lec.)

**FPT 140 Fire Fighting Tactics And Strategy (3)**  
*(Next year's course prefix/number FIRE 1373)*  
This course examines the nature of fire and the process of determining requirements to fight a fire. The effective use of personnel and equipment are covered. Emphasis is on preplanning, study of conflagration problems, problem-solving, decision-making, and attack tactics and strategy. The use of mutual aid and large scale command problems are also included. (3 Lec.)

**FPT 141 Fire Administration I (3)**  
*(Next year's course prefix/number FIRE 1374)*  
This course focuses on personal skill building in goal setting, human relations and personal counseling. Topics included are written and oral communications, desirable instructor qualifications, and methods and techniques used in teaching and learning. The use of the five stage lesson plan and introduction to management theorists and principles are discussed. (3 Lec.)
FPT 146 Fire And Arson Investigation I (3)
(Next year's course prefix/number FIRE 1375)
This course covers a study of the detection of arson. Subjects included are investigation techniques, case histories, gathering and preserving of evidence. Selected discussions of laws, decisions and opinions; and kinds of arsonists are presented. (3 Lec.)

FPT 229 Building Construction (3)
(Next year's course prefix/number FIRE 2370)
Fundamental consideration and exploration of building construction and design with emphasis on fire resistance of building materials and assemblies are presented. Related data focuses on fire protection concerns, elements of structural collapse and failure during a fire are also included. (3 Lec.)

FPT 233 Fire Protection Systems (3)
(Next year's course prefix/number FIRE 2371)
This course examines fire protection systems. Included are the required standards for water supply, special hazards protection systems, automatic sprinklers, special extinguishing systems, automatic signaling and detection systems. (3 Lec.)

FPT 235 Fire Administration II (3)
(Next year's course prefix/number FIRE 2372)
Prerequisite: Fire Protection 135. This course focuses on the study of the five functions of management. This includes organizational effectiveness, management information systems, program analysis, public finance, public relations, labor relations, and measurement of productivity. Management of an EMS, fire prevention bureau, training division and suppression division are also included. (3 Lec.)

FPT 236 Legal Aspects Of Fire Protection (3)
(Next year's course prefix/number FIRE 2373)
This course focuses on legal rights and duties. Liability of the fire department is included. Other topics include civil and criminal law, the Texas and federal judicial structure, and cities' liability for acts of the fire department and fire prevention bureaus. (3 Lec.)

FPT 237 Hazardous Materials II (3)
(Next year's course prefix/number FIRE 2374)
Hazardous materials are studied. Included are the storage, handling, laws, standards, and fire fighting techniques associated with hazardous materials. The materials include chemicals, gases, flammable liquids, corrosives, poisons, explosives, rocket propellants and exotic fuel, and radioactive substances. The formation of toxic fumes and health hazards is also stressed. Ignition and combustion characteristics of gases, liquids, and solids are covered. Special attention is given to radiological instruments, human exposure to radiation, decontamination procedures, common uses of radioactive materials, and operational procedures. (3 Lec.)

FPT 238 Fire Safety Education (3)
(Next year's course prefix/number FIRE 2375)
This course includes the study of methods used in fire brigade organization and training for industrial occupancies, industrial safety demonstrations, extinguishment techniques, public relations, news media relations, and utilization of the five step planning process for public fire safety education. Fire demonstration kits, indurate of flame spread, flammable liquids, gases, explosions, home and industrial hazards, methods of teaching the sick or immobile patient supervisors evacuation and safety in hospitals and nursing homes are studied. How to teach children in kindergarten and elementary grades fire safety is explored. (3 Lec.)

FPT 240 Fire Insurance Fundamentals (3)
(Next year's course prefix/number FIRE 2376)
The relationships among fire defenses, fire losses, and insurance rates are studied. Basic insurance principles, fire loss experience, loss ratios, state regulations of fire insurance, key rate system, the I.S.O. grading schedule, and other topics are stressed. Also covered are the relationship of insurance to modern business, principles of property and casualty insurance contracts, and the corporate structure of insurance companies. (3 Lec.)

FPT 244 Industrial Fire Protection (3)
(Next year's course prefix/number FIRE 2377)
The history and growth of the Occupational Safety and Health Act of 1970 is studied. Topics include safety program organization, workmen's compensation insurance, human behavior and safety, industrial toxicology and chemical hazards. (3 Lec.)

FPT 245 Water Systems (3)
(Next year's course prefix/number FIRE 2378)
This course includes the study of water supply requirements and nozzle pressure, friction loss and other factors involved in calculating pump pressures. Topics include water distribution systems, water supply evaluation and testing, advanced hydraulics, field calculations, fire ground pump operations, and foam applications. (3 Lec.)

FPT 246 Fire And Arson Investigation II (3)
(Next year's course prefix/number FIRE 2379)
This course covers the evidence needed for investigation. Evidence including photography, sketching, diagramming and incident report, interviewing and interrogation, are presented. The District Attorney relationship, Grand Jury referral and direct filing, Grand Jury presentation, courtroom demeanor, and "expert" witness are also included. (3 Lec.)
FPT 247 Building Codes (3)  
(Next year's course prefix/number FIRE 2380)  
This course presents an in-depth study of the National Fire Protection Association's life safety code. An introduction to the other model codes and the fire codes as they relate to building design is included. (3 Lec.)

FHS 116 Supervision For Hospitality Services (3)  
(Next year's course prefix/number FOOD 1375)  
Recruiting, selecting, training and supervising personnel for food and lodging services are studied. Personnel policies, job descriptions, training methods, scheduling and work improvements are included. (3 Lec.)

FHS 119 Food Service Equipment (3)  
(Next year's course prefix/number FOOD 1376)  
This course covers food service equipment. Specifications, uses, cleaning, and preventive maintenance are emphasized. Equipment for preparation, cooking, refrigeration, storage, and cleanup is included. The relation of air conditioning, electricity, gas, and plumbing to food service facilities is examined. Layout analysis, design, and effective use of equipment and space are also covered. (3 Lec.)

FHS 122 Advanced Food Preparation (3)  
(Next year's course prefix/number FOOD 1378)  
Prerequisite: Food and Hospitality Service 120. This course is a continuation of Food and Hospitality Service 120. Procedures for large quantities and management for food preparation are introduced. Topics include basic cookery, safety and sanitation factors, and selection of equipment. Emphasis is on high preparation techniques for high quality. Laboratory fee. (2 Lec., 4 Lab.)

FHS 124 Food Service Sanitation And Safety (3)  
(Next year's course prefix/number FOOD 1379)  
The principles of microbiology are studied and applied to the need for personal cleanliness. The causes, control, and investigation of illness caused by food contamination are explored. Other topics include sanitary practices, dish washing procedures, the use of cleaning materials, garbage and refuse disposal, general safety precautions, and elementary first aid. (3 Lec.)

FHS 132 Food Purchasing, Handling And Storage (3)  
(Next year's course prefix/number FOOD 1360)  
This course focuses on policies and procedures for purchasing food in quantity. Storage requirements, procedures, and controls are included. The availability of food supplies, analysis of food quality, and specification writing are also covered. (3 Lec.)
FHS 135 Nutrition And Menu Planning (3)  
(Next year's course prefix/number FOOD 1381)  
Food nutrients and their importance in maintaining health are surveyed. The digestive and absorptive characteristics of nutrients are included. The nutritional needs of all age groups are studied and applied to the planning of meals for business and institutions. Psychological needs, type of operation, and available equipment and personnel are all considered. (3 Lec.)

FHS 138 Food Service Cost Control (3)  
(Next year's course prefix/number FOOD 1382)  
Prerequisite: Mathematics. The principles and procedures of the control of food cost are presented. Emphasis is on applying the principles and procedures to any food service operation. (3 Lec.)

FHS 140 Elementary Bakery Training (3)  
(Next year's course prefix/number FOOD 1383)  
This course covers the work of the baker. Doughs, breads, pies, and cookies are analyzed and produced in quantity. Also covered are all types of fillings, butter creams, puddings, cakes, cake decorations and frostings. The use of proper flours and the handling of the pastry bag are stressed. Laboratory fee. (2 Lec., 4 Lab.)

FHS 201 Hotel-Restaurant-Institutions-Special Topics (1)  
(Next year's course prefix/number FOOD 2170)  
Prerequisite: Demonstrated competence approved by the instructor. Students participate in identifying, defining and analyzing current topics of interest in food and hospitality services. The course emphasizes present industry needs and problems, and students are guided to offer realistic and workable solutions which include the total knowledge of food and hospitality services processes. This course may be repeated for credit when topics vary. (1 Lec.)

FHS 202 Hotel-Restaurant-Institutions-Special Topics (2)  
(Next year's course prefix/number FOOD 2270)  
Prerequisite: Demonstrated competence approved by the instructor. Students participate in identifying, defining, and analyzing current topics of interest in food and hospitality services. The course emphasizes present industry needs and problems, and students are guided to offer realistic and workable solutions which include the total knowledge of food and hospitality services processes. This course may be repeated for credit when topics vary. (2 Lec.)

FHS 203 Hotel-Restaurant-Institutions-Special Topics (3)  
(Next year's course prefix/number FOOD 2370)  
Prerequisite: Demonstrated competence approved by the instructor. Students participate in identifying, defining and analyzing current topics of interest in food and hospitality services. The course emphasizes present industry needs and problems, and students are guided to offer realistic and workable solutions which include the total knowledge of food and hospitality services processes. This course may be repeated for credit when topics vary. (3 Lec.)

FHS 204 Hotel-Restaurant-Institutions-Special Topics (3)  
(Next year's course prefix/number FOOD 2371)  
Prerequisite: Demonstrated competence approved by the instructor. Students participate in lecture and laboratory situations in identifying, defining and analyzing current trends and topics of interest in the food and hospitality industry. The course emphasizes topics which are current needs and are covered in lectures. The laboratory allows each student to acquire hands-on experience in areas of food preparation, baking, pastry and other areas of the industry. This course may be repeated for credit when topics vary. (2 Lec., 4 Lab.)

FHS 210 Hotel-Motel Sales Development (3)  
(Next year's course prefix/number FOOD 2372)  
The technique of developing a marketing plan for any size operation are studied. Included is the development of the departments of the hotel into a coordinated team. Emphasis is on the organization and functioning of a sales department, sales tools, techniques, advertising, and types of markets. (3 Lec.)

FHS 214 Hotel-Motel Law (3)  
(Next year's course prefix/number FOOD 2373)  
This course covers the legal responsibilities and rights of the innkeeper. The consequences caused by failure in those responsibilities are illustrated. Topics include court attitudes toward an innkeeper where negligence and liability are involved. (3 Lec.)

FHS 220 Quantity Food Preparation And Service (4)  
(Next year's course prefix/number FOOD 2470)  
Prerequisite: Food and Hospitality Service 122. A lecture-laboratory course offering field training study of quantity food procedures and techniques with emphasis on retention of nutritive value of foods. Kitchen organization and planning of quantity production, use of large and small institutional equipment, food control and the associated supervisory problems as related to institutional and commercial food service. Includes study and use of convenience foods. Laboratory fee. (3 Lec., 5 Lab.)
FHS 222 Advanced Quantity Food Preparation And Service (4)
(Next year's course prefix/number FOOD 2471)
Prerequisite: Food and Hospitality Service 220. This course emphasizes the planning and management of quantity food production. Training in the field is provided. Practice is given in producing entire meals, including evaluation and controls. Quality food standards of various cost levels are studied. The planning, layout, and maintenance of equipment are also covered. Laboratory fee. (3 Lec., 5 Lab.)

FHS 233 Food Marketing (3)
(Next year's course prefix/number FOOD 2374)
The distribution of the finished product is introduced. Emphasis is on the consumer. Included are the activities involved in developing markets, customers, and distribution services. (3 Lec.)

FHS 238 Garde-Manger Training (3)
(Next year's course prefix/number FOOD 2375)
Prerequisite: Food and Hospitality Service 122. This course covers the preparation of the cold buffet. Included are salads, sandwiches, ice carvings, lard sculptures, chaud froid hors d'oeuvres, pates, cold fish, poultry, meats, and game. Also included is the proper setup of the garde-manger station. Laboratory fee. (2 Lec., 4 Lab.)

FHS 239 Saucier Training (3)
(Next year's course prefix/number FOOD 2376)
Prerequisite: Food and Hospitality Service 122. This course covers the preparation of basic soups, sauces, vegetables, and garnitures. All meats, fish, poultry, and game are also covered. The proper setup of the saucier station is also included. Laboratory fee. (2 Lec., 4 Lab.)

FHS 245 Advanced Pastry Shop Training (3)
(Next year's course prefix/number FOOD 2377)
Prerequisite: Food and Hospitality Service 140. This course covers the operation of the pastry shop. Topics include French pastry, hot and cold desserts, pastillage, ice creams, and ices, sugar fantasies, chocolate work, and decorations with cream. Emphasis is on advance techniques in continental pastries. Laboratory fee. (2 Lec., 4 Lab.)

FHS 247 Beverage Operations And Service (3)
(Next year's course prefix/number FOOD 2378)
This course deals with beverage service in the commercial sector. Topics include basic bar operations, sales control, beverage service, and profits. A detailed analysis is made of the organization of a beverage bar, wine cellar, or catered beverage service. (3 Lec.)

FHS 248 Advanced Nutrition And Dietetics (3)
(Next year's course prefix/number FOOD 2379)
Prerequisite: Food and Hospitality Service 135. Nutrition knowledge is applied to the care of people. How people eat and what they eat is studied. The role of community health agencies, food and nutrition assistance programs and nutrition service agencies are studied. Techniques for evaluation of nutritional status and dietary intakes are included. Special emphasis is placed on meeting the needs of persons requiring modifications of food intake. The role of nutrition services extended through schools and supplementary food assistance programs is included. (3 Lec.)

FHS 249 Child Nutrition (3)
(Next year's course prefix/number FOOD 2380)
Prerequisite: Food and Hospitality Service 135. The nutrition of children is studied. The time period begins with birth and extends through childhood and adolescence. Emphasis is on the contribution of feeding programs in child care centers and schools. (3 Lec.)

FHS 704 Cooperative Work Experience (4)
(Next year's course prefix/number FOOD 7471)
Prerequisites: Completion of two courses in the Food and Hospitality Service program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor develop a written competency-based learning plan with varied learning objectives and work experiences. Students must develop new learning objectives each semester. The seminar consists of topics which include outside reading in professional journals and books. Other topics include employment guidance in resume writing, security and holding interviews, and building a professional outlook. (1 Lec., 20 Lab.)

FHS 714 Cooperative Work Experience (4)
(Next year's course prefix/number FOOD 7472)
Prerequisites: Completion of two courses in the Food and Hospitality Service program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor develop a written competency-based learning plan with varied learning objectives and work experiences. Students must develop new learning objectives each semester. The weekly seminar consists of discussions with industry leaders on management/supervisory styles, marketing strategies, and procurement problems. Students will be involved concurrently in outside readings on topics of special interest in the food and hospitality industry. (1 Lec., 20 Lab.)
FRENCH

FR 101 Beginning French (4)
(Common Course Number FREN 1411)
The essentials of grammar and easy idiomatic prose are studied. Emphasis is on pronunciation, comprehension, and oral expression. Laboratory fee. (3 Lec., 2 Lab.)
(Coordinating Board Academic Approval Number 1609015131)

FR 102 Beginning French (4)
(Common Course Number FREN 1412)
Prerequisite: French 101 or the equivalent. This course is a continuation of French 101. Emphasis is on idiomatic language and complicated syntax. Laboratory fee. (3 Lec., 2 Lab.)
(Coordinating Board Academic Approval Number 1609015131)

GEOLOGY

GEO 101 Physical Geology (4)
(Common Course Number GEOL 1403)
This course is for science and non-science majors. It is a study of earth materials and processes. Included is an introduction to geochemistry, geophysics, the earth's interior, and magnetism. The earth's setting in space, minerals, rocks, structures, and geologic processes are also included. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 4006015139)

GEO 102 Historical Geology (4)
(Common Course Number GEOL 1404)
This course is for science and non-science majors. It is a study of earth materials and processes within a developmental time perspective. Fossils, geologic maps, and field studies are used to interpret geologic history. Laboratory fee. (3 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 4006015139)

GOVERNMENT

GVT 201 American Government (3)
(Common Course Number GOVT 2302)
Prerequisite: Sophomore standing recommended. The three branches of the United States and Texas government are studied. Topics include the legislative process, the executive and bureaucratic structure, the judicial process, civil rights and liberties, and domestic policies. Other topics include foreign relations and national defense. (To ensure transferability, students should plan to take both Government 201 and 202 within the DCCCD.)
(3 Lec.)
(Coordinating Board Academic Approval Number 4510025142)

GVT 202 American Government (3)
(Common Course Number GOVT 2302)
Prerequisite: Sophomore standing recommended. The three branches of the United States and Texas government are studied. Topics include the legislative process, the executive and bureaucratic structure, the judicial process, civil rights and liberties, and domestic policies. Other topics include foreign relations and national defense. (To ensure transferability, students should plan to take both Government 201 and 202 within the DCCCD.)
(3 Lec.)
(Coordinating Board Academic Approval Number 4510025142)

GVT 211 Introduction To Comparative Politics (3)
(Common Course Number GOVT 2333)
A comparative examination of governments, politics, problems and policies with illustrative cases drawn from a variety of political systems. (3 Lec.)
(Coordinating Board Academic Approval Number Is to be assigned. This is a unique need course.)

HISTORY

HST 101 History Of The United States (3)
(Common Course Number HIST 1301)
The history of the United States is presented, beginning with the European background and first discoveries. The pattern of exploration, settlement, and development of institutions is followed throughout the colonial period and the early national experience to 1877. (3 Lec.)
(Coordinating Board Academic Approval Number 4508025142)

HST 102 History Of The United States (3)
(Common Course Number HIST 1302)
The history of the United States is surveyed from the Reconstruction era to the present day. The study includes social, economic, and political aspects of American life. The development of the United States as a world power is followed. (3 Lec.)
(Coordinating Board Academic Approval Number 4508025142)

HST 105 Western Civilization (3)
(Common Course Number HIST 2311)
The civilization in the West from ancient times through the Enlightenment is surveyed. Topics include the Mediterranean world, including Greece and Rome, the Middle Ages and the beginnings of modern history. Particular emphasis is on the Renaissance, Reformation, the rise of the national state, the development of parliamentary government, and the influences of European colonization.
(3 Lec.)
(Coordinating Board Academic Approval Number 4508015442)
HST 110 The Heritage Of Mexico (3)  (Common Course Number HIST 2380)
This course (cross-listed as Anthropology 110) is taught in two parts each semester. The first part of the course deals with the archaeology of Mexico beginning with the first humans to enter the North American continent and culminating with the arrival of the Spanish in 1519 AD. Emphasis is on archaic cultures, the Maya, the Toltec, and the Aztec empires. The second part of the course deals with Mexican history and modern relations between the United States and Mexico. The student may register for either History 110 or Anthropology 110, but may receive credit for only one of the two. (3 Lec.)  
(208)  
HST 120 Afro-American History (3)  (Common Course Number HIST 2381)
The role of the Black in American history is studied. The slave trade and slavery in the United States are reviewed. Contributions of black Americans in the U.S. are described. Emphasis is on the political, economic, and sociological factors of the 20th century. (3 Lec.)  
(208)  
HST 204 American Minorities (3)  (Common Course Number HUMA 2319)
Prerequisite: Sociology 101 or six hours of U.S. history recommended. Students may register for either History 204 or Sociology 204 but may receive credit for only one of the two. The principal minority groups in American society are the focus of this course. The sociological significance and historic contributions of the groups are presented. Emphasis is on current problems of intergroup relations, social movements, and related social changes. (3 Lec.)  
(208)  
HUMAN DEVELOPMENT
HD 092 Student Success (3)  (Next year’s course prefix/number HDEV 0092)
In this orientation course, students are introduced to academic and personal goal-setting and learning skills that enhance their chances for educational success. Students will learn how to develop positive attitudes toward themselves, improve communication and decision-making skills, and make effective use of campus resources. This course supports students enrolling in other appropriate remediation. (3 Lec.)  
(208)  
HD 100 Educational Alternatives (1)  (Next year’s course prefix/number HDEV 0100)
The learning environment is introduced. Career, personal study skills, educational planning, and skills for living are all included. Emphasis is on exploring career and educational alternatives and learning a systematic approach to decision-making. A wide range of learning alternatives is covered, and opportunity is provided to participate in personal skills seminars. This course may be repeated for credit. (1 Lec.)  
(208)  
HD 104 Educational And Career Planning (3)  (Next year’s course prefix/number HDEV 1370)
This course is designed to teach students the ongoing process of decision-making as it relates to career/life and educational planning. Students identify the unique aspects of themselves (interests, skills, values). They investigate possible work environments and develop a plan for personal satisfaction. Job search and survival skills are also considered. (3 Lec.)  
(208)  
HD 105 Basic Processes Of Interpersonal Relationships (3)  (Next year’s course prefix/number HDEV 0105)
This course is designed to help the student develop a self-awareness that will enable him/her to relate more effectively to others. Students are made aware of their feelings, values, attitudes; verbal and nonverbal behaviors. The course content, which utilizes an experiential model, also focuses on developing communication and problem-solving skills. (3 Lec.)  
(208)  
HD 106 Personal And Social Growth (3)  (Next year’s course prefix/number HDEV 0106)
This course focuses on the interactions between the individual and the social structures in which he/she lives. Roles, social influences and personal adjustments to the world around us are explored in readings and classroom discussion. Human behavior, the diversity of lifestyles and the components of a healthy personality are studied in an effort to develop a pattern for growth that demonstrates a responsibility to self and society. (3 Lec.)  
(208)  
HD 107 Developing Leadership Behavior (3)  (Next year’s course prefix/number HDEV 0107)
The basic purpose of this course is to help the student develop leadership and human relation skills. Topics include individual and group productivity, value systems, appropriate communication skills, and positive attitudes in a group environment. The concepts of leadership are explored through both theory and practice. These leadership activities can be applied to the student’s personal, business, and professional interactions. (3 Lec.)  
(208)
HD 108 The Master Student Course (3)
(Next year's course prefix/number HDEV 0108)
This course will provide an opportunity for the student to learn, practice and adopt specific strategies to support his or her success in college. Topics include individual learning skills, self-monitoring, goal-setting, problem solving, critical thinking, stress/time management, understanding motivation and procrastination, test anxiety, memory, creativity, and the importance of supportive relationships. (3 Lec.)
(Coordinating Board Academic Approval Number 3201995140)

HD 110 Assessment Of Prior Learning (1)
(Next year's course prefix/number HDEV 0110)
Prerequisite: Limited to students in Technical-Occupational Programs. Demonstrated competence approved by the instructor is required. This course is designed to assist students in documenting prior learning for the purpose of applying for college credit. Students develop a portfolio which includes a statement of educational/career goals, related noncollegiate experiences which have contributed to college-level learning, and documentation of such experiences. This course may be repeated for credit. (1 Lec.)
(Coordinating Board Academic Approval Number 3201995140)

HUMANITIES

HUM 101 Introduction To The Humanities (3)
(Common Course Number HUMA 1301)
Introduction to the Humanities focuses on the study and appreciation of the fine and performing arts and the ways in which they reflect the values of civilizations. (3 Lec.)
(Coordinating Board Academic Approval Number 5007035130)

HUM 102 Advanced Humanities (3)
(Common Course Number HUMA 1302)
Prerequisite: Humanities 101 or demonstrated competence approved by the instructor. Human value choices are presented through the context of the humanities. Universal concerns are explored, such as a person's relationship to self and to others and the search for meaning. The human as a loving, believing and hating being is also studied. Emphasis is on the human as seen by artists, playwrights, film makers, musicians, dancers, philosophers, and theologians. The commonality of human experience across cultures and the premises for value choices are also stressed. (3 Lec.)
(Coordinating Board Academic Approval Number 2401035142)

INTERIOR DESIGN

INT 164 Color Theory And Application For Interior Designers (3)
(Next year's course prefix/number INTD 1370)
Prerequisites: Interior Design major. Actual interior design studies will be given that will involve applying various color systems (with emphasis on Munsell), along with mixing techniques to gain desired hue, value, and intensities for solving design color schemes. Color psychologies are also investigated. Laboratory fee. (2 Lec., 4 Lab.)

INT 166 Interior Design Studio II (4)
(Next year's course prefix/number INTD 1470)
Prerequisites: Art 165 and Interior Design 171. Introduction to the basic design principles as they apply to furniture layouts and space distribution for interiors. The complete design process is investigated. Freehand sketching is emphasized through plans, elevations, sections, perspectives, and schedules. Functional priorities, including circulation and spatial usages will be investigated. Building codes are introduced. Laboratory fee. (2 Lec., 5 Lab.)

INT 171 Drafting For Interior Designers (3)
(Next year's course prefix/number INTD 1371)
Prerequisites: Interior Design major. This course provides the beginning interior design student with basic drafting skills including the correct use of drafting instruments and supplies to obtain good line quality and lettering. Emphasis is placed on the ability to draw orthographic projections and paraline drawings, and an introduction to architectural symbols, dimensioning and notes, and the use of the print machine to reproduce drawings. Building codes and barrier free design are utilized. Laboratory fee. (2 Lec., 4 Lab.)

INT 173 Construction Drawings For Interior Designers (3)
(Next year's course prefix/number INTD 1372)
Prerequisite: Interior Design 171. This course teaches the student how to take design drawings and develop the necessary construction drawings needed to build a structure. Emphasis is on the knowledge of building construction as well as the correct representation of building materials and construction assemblies in construction drawings. Typical wood frame residential construction will be utilized with plans, elevations, sections, details, schedules, and specifications included to produce a representative set of building documents. Laboratory fee. (2 Lec., 4 Lab.)
INT 176 Perspective Drawing For Interior Designers (2)  
(Next year's course prefix/number INTD 1270)  
Prerequisites: Interior Design 171. This course introduces the student to the principles of one- and two-point perspective construction. The "office method" of mechanical plotting will be utilized to teach basic perspective vocabulary. The "grid system" and perspective charts will be employed to teach speed and aesthetic values in interior spaces. Perspective shades and shadows will also be included. Laboratory fee. (6 Lab.)

INT 191 History Of Modern Design (3)  
(Next year's course prefix/number INTD 1373)  
This course surveys the evolution of 20th Century design from the Industrial Revolution to the present, including 19th Century developments and major influences of the 20th Century. Special attention is given to significant designers, architects, and personalities and their affect on the modern movement. Laboratory fee. (3 Lec.)

INT 245 Design Sketching (2)  
(Next year's course prefix/number INTD 2370)  
Prerequisite: Architecture 133 or Interior Design 176 or Art 114 or demonstrated competence approved by the instructor. This course includes an introduction to and the development of graphic skills needed to formulate and communicate design concepts. Study and practice of visualization and freehand perspective drawing of the student's own design are emphasized. Concepts in various media are the main activities covered. Laboratory fee. (2 Lec., 4 Lab.)

INT 281 Interior Design Studio III (3)  
(Next year's course prefix/number INTD 2371)  
Prerequisites: Interior Design 166, 164, 173 and 176. The principles studied in Interior Design 166 are expanded to include studies and experimentation dealing with abstract spatial concepts leading to conceptual planning of specific spaces. Projects deal with general furnishings and simple manipulations of surfaces and volumes. Laboratory fee. (2 Lec., 4 Lab.)

INT 282 Interior Design Studio IV (3)  
(Next year's course prefix/number INTD 2372)  
Prerequisites: Interior Design 261, 281, and 293. The principles studied in Interior Design 261 are expanded to include detailed space planning and selection of specific furnishings and accessories as well as design and detailing of millwork and other interior construction. Laboratory fee. (2 Lec., 4 Lab.)

INT 276 Delineation Techniques for Interior Designers (3)  
(Next year's course prefix/number INTD 2373)  
Prerequisites: Interior Design 164 and 176. This course introduces the student to basic delineation techniques to render two- and three-dimensional drawings of interior architectural spaces. Emphasis is on the development of black and white and color rendering procedures dealing with plans, elevations, and perspectives. Medias applied include graphite pencil, pen and ink, color pencil, markers, opaque media, and mixed media techniques of presentation. Laboratory fee. (2 Lec., 4 Lab.)

INT 281 Textiles For Interior Design (3)  
(Next year's course prefix/number INTD 2374)  
This course is a study of the textile products, characteristics, and their uses as applied to the interior design industry. Fibers, yarns, construction, and finishes are individually studied. A history of decorative textiles and their uses in traditional interiors is included. Contemporary textiles and their application to new uses in interior design are studied. A project notebook is required. (3 Lec.)

INT 283 Materials For Interior Design (3)  
(Next year's course prefix/number INTD 2375)  
Prerequisites: Interior Design major. A comprehensive overview is presented to introduce the student to the various interior design materials, finishes, and methods of construction installation that are available for specification today, and to compile an actual working source file through field trips, guest speakers, demonstrations, and class lectures. How to specify through measurements, millwork, finish types, quantities, and costs is stressed. (2 Lec., 4 Lab.)

INT 284 Lighting Design (3)  
(Next year's course prefix/number INTD 2376)  
Prerequisites: Interior Design 164 and 173. Qualitative and quantitative aspects of lighting are assessed. Topics include lamp types, fixture systems, design calculations, system layouts, electrical symbols, electrical plans and specifications, lighting schedules, and emphasis on the effects of lighting systems on colors. Laboratory fee. (2 Lec., 4 Lab.)

INT 293 History Of Interior Arts (3)  
(Next year's course prefix/number INTD 2377)  
Prerequisites: Art 105 and Art 106. This course is a historical survey of the interior arts and interior architecture covering the Antiquities, Italian Renaissance and the French styles. Emphasis for the semester is placed on the French styles. An illustrated research notebook is required. Laboratory fee. (3 Lec., 1 Lab.)
INT 294. Comparative Survey of Styles (3)
(Next year's course prefix/number INTD 2378)
Prerequisite: Interior Design 293. This course is a comparative survey of the interior arts and interior architecture of the English, Oriental, and American styles. Emphasis for the semester is placed on the English styles. An illustrated research notebook is required. Laboratory fee. (3 Lec., 1 Lab.)

INT 383 Interior Design Studio V (3)
(Next year's course prefix/number INTD 3370)
Prerequisites: Interior Design 262, 276, 283, 284, and 294. The principles studied in Interior Design 262 are expanded to include consideration of spatial psychologies, historical design applications, and interior mechanical equipment. Laboratory fee. (2 Lec., 4 Lab.)

INT 364 Interior Design Studio VI (3)
(Next year's course prefix/number INTD 3371)
Prerequisites: Interior Design 191, 363, 385, and 395. The principles studied in Interior Design 363 are expanded to include project management. Advanced construction documents are prepared. Efforts are made to achieve advanced levels of fully developed creative projects. Laboratory fee. (2 Lec., 4 Lab.)

INT 385 Professional Practice For Interior Designers (3)
(Next year's course prefix/number INTD 3372)
Prerequisite: Interior Design 262 or demonstrated competence approved by the instructor. This course involves the theory and application of design office practices and procedures as well as discussion of client psychology. Various management systems and methods are studied. Topics include the marketing of professional services, coordination with consultants, professional organizations, sales and tax issues, business insurance, project management forms, building codes, and consumer issues. (3 Lec.)

INT 395 Restoration And Preservation (3)
(Next year's course prefix/number INTD 3373)
Prerequisites: Interior Design 294 and concurrent enrollment in Interior Design 363 and 385. This is an introductory course to the many aspects of restoration, preservation, and adaptive reuse of structures and spaces. Emphasis is placed on the architectural interior. Legal and tax issues are discussed. Restoration projects involving actual local structures are studied, along with theoretical problems. Specialized resources are included. (2 Lec., 2 Lab.)

INT 702 Cooperative Work Experience (2)
(Next year's course prefix/number INTD 7271)
Prerequisites: All second year major courses. This course provides practical work experience in a Dallas interior design studio with emphasis placed in the specialty of the students' choice. Areas of specialization are: commercial, residential, institutional, medical, architectural, retail, specifiers, lighting, restaurants, hotels, workroom vendors, computer aided drafting, education and others. The student, employer and instructor compile a written competency-based learning plan in the form of work objectives to be accomplished on the job. Sixteen seminar sessions each semester consist of informational speakers and film presentations concerning special problems and interests in the workplace. This course may be repeated for credit. (1 Lec., 10 Lab.)

INT 703 Cooperative Work Experience (3)
(Next year's course prefix/number INTD 7371)
Prerequisites: All second year major courses. This course provides practical work experience in a Dallas interior design studio with emphasis placed in the specialty of the students' choice. Areas of specialization are: commercial, residential, institutional, medical, architectural, retail, specifiers, lighting, restaurants, hotels, workroom vendors, computer aided drafting, education and others. The student, employer and instructor compile a written competency-based learning plan in the form of work objectives to be accomplished on the job. Sixteen seminar sessions each semester consist of informational speakers and film presentations concerning special problems and interests in the workplace. This course may be repeated for credit. (1 Lec., 15 Lab.)

INVASIVE CARDIOVASCULAR TECHNOLOGY

ICV 101 Introduction to Cardiovascular Technology (2)
(Next year's course prefix/number ICVT 1270)
Prerequisite: A grade of "C" or better in prerequisite courses of Biology 120 or 221, Mathematics 101, Chemistry 115 and English 101. Concurrent enrollment in Invasive Cardiovascular Technology 110 and 112. This course is designed to introduce the student to the field of invasive cardiovascular technology and the role of the Cardiovascular Technologist. Medical terminology, ethical legal aspects and communication skills will be covered. (2 Lec.)
ICV 110 Cardiovascular Physiology (3)
(Next year's course prefix/number ICVT 1370)
Prerequisite: A grade of "C" or better in prerequisite courses of Biology 120 or 221, Mathematics 101, Chemistry 115 and English 101. Concurrent enrollment in Invasive Cardiovascular Technology 101 and 112. This course provides a study of the anatomy, physiology, and structural relationships of the human heart and vascular system. This course will concentrate on cardiac anatomy, electrocardiology, cardiac hemodynamics, and the innervation of the heart. (3 Lec.)

ICV 112 Medical Instrumentation I (3)
(Next year's course prefix/number ICVT 1371)
Prerequisite: A grade of "C" or better in prerequisite courses of Biology 120 or 221, Mathematics 101, Chemistry 115 and English 101. Concurrent enrollment in Invasive Cardiovascular Technology 101 and 110. This course emphasizes basic principles in medical electronics and computers for the cardiovascular student. The theory and operation of medical instrumentation will be the focus. (3 Lec.)

ICV 120 Cardiovascular Physiology II (3)
(Next year's course prefix/number ICVT 1372)
Prerequisite: A grade of "C" or better in all previous support courses and Invasive Cardiovascular Technology 101, 110, and 112. Concurrent enrollment in Invasive Cardiovascular Technology 122 and 124. This course is a continuation of Invasive Cardiovascular Technology 110 with emphasis on cardiac disease states. The methods of hemodynamic data collection and implications in relation to cardiac diseases will be studied. (3 Lec.)

ICV 122 Medical Instrumentation II (3)
(Next year's course prefix/number ICVT 1373)
Prerequisite: A grade of "C" or better in all previous support courses and Invasive Cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 120 and 124. This course is a continuation of Invasive Cardiovascular Technology 112. The course will focus on the theory, calibration, operation and clinical application of cardiovascular diagnostic instrumentation. Methods of hemodynamic data collection, calculation, analysis and implications will be studied. Laboratory fee. (2 Lec., 2 Lab.)

ICV 124 Cath Lab Fundamentals I (3)
(Next year's course prefix/number ICVT 1374)
Prerequisite: A "C" or better in all previous support courses and invasive cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 120 and 122. This course introduces the diagnostic procedures used in the cath lab. Prior didactic instruction in cardiac physiology and medical instrumentation will be applied to cath lab procedures including patient preparation and monitoring, angiographic equipment setup and the coronary angiography procedure itself. Laboratory fee. (2 Lec., 2 Lab.)

ICV 130 Cath Lab Fundamentals II (1)
(Next year's course prefix/number ICVT 1170)
Prerequisite: A grade of "C" or better in all previous support courses and invasive cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 132. This course is a continuation of Invasive Cardiovascular Technology 124. This course emphasizes x-ray technology and interventional procedures in the cardiac cath lab. Discussion will also focus on the beginning cath lab clinical experience. (3 Lec.)

ICV 132 Introduction To The Cath Lab (1)
(Next year's course prefix/number ICVT 1171)
Prerequisite: A grade of "C" or better in all previous support courses and invasive cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 130. This course introduces the student to a working cath lab. Under the supervision of faculty and clinical staff, the student will observe and familiarize themselves with different cath labs, including setups, standard procedures, and laboratory operations. Laboratory fee. (8 Lab.)

ICV 134 Cardiac Cath I (1)
(Next year's course prefix/number ICVT 1172)
Prerequisite: A grade of "C" or better in all previous support courses and invasive cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 136. In this course, basic life support, cardiac pharmacology, and emergency procedures as they relate to the cath lab experience will be covered. (3 Lec.)

ICV 136 Cath Lab Clinical I (2)
(Next year's course prefix/number ICVT 1271)
Prerequisite: A grade of "C" or better in all previous support courses and invasive cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 134. This course is a continuation of Invasive Cardiovascular Technology 132. Under the supervision of faculty and clinical staff, the student will observe, assist, and perform tasks specific to the cath lab in assigned affiliated hospital cath labs. Laboratory fee. (32 Lab.)
ICV 210 Cardiac Cath II (3)
(Next year's course prefix/number ICVT 2370)
Prerequisite: A grade of "C" or better in all previous support courses and invasive cardiovascular courses. Concurrent enrollment in Invasive Cardiovascular Technology 212. This course is a continuation of Invasive Cardiovascular Technology 134. An intensive study of advance cardiovascular diagnostic and therapeutic procedures will occur. Topics include percutaneous transluminal coronary angioplasty and electrophysiology studies. A term paper will be required. (3 Lec.)

ICV 212 Cath Lab Clinical II (5)
(Next year's course prefix/number ICVT 2570)
Prerequisite: A grade of "C" or better in all previous support courses and invasive cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 210. This course is a continuation of Invasive Cardiovascular Technology 136. This course will provide the student continued opportunity to observe, assist, and perform tasks specific to the cath lab. Student will be assigned to an affiliated hospital cath lab. Laboratory fee. (24 Lab.)

ICV 220 Cath Lab III (3)
(Next year's course prefix/number ICVT 2371)
Prerequisite: A grade of "C" or better in all previous support courses and invasive cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 222. This course is a continuation of Invasive Cardiovascular Technology 210. The student will study areas of opportunity outside the cath lab. These will include non-invasive cardiology, cardiac surgical procedures, and hospital administration as related to the cath lab. The course will also assist the student in role transition from student to cath lab employee. (3 Léc.)

ICV 222 Cath Lab Clinical III (5)
(Next year's course prefix/number ICVT 2571)
Prerequisite: A grade of "C" or better in all previous support courses and invasive cardiovascular course work. Concurrent enrollment in Invasive Cardiovascular Technology 220. This course is a continuation of Invasive Cardiovascular Technology 212. The student will be provided continued opportunity to observe, assist, and perform tasks specific to the cath lab. Students will be assigned to an affiliated hospital cath lab. Laboratory fee. (24 Lab.)

JOURNALISM
NOTE: These courses will carry a Dallas County Community College prefix of "JOUR" next year; however, most can be identified by a common course number for transfer evaluation purposes. Both are listed in the parenthetical notes in the course descriptions.

JN 101 Introduction To Mass Communications (3)
(Next year's course prefix/number JOUR 1307; Common Course Number COMM 1307)
This course surveys the field of mass communications. Emphasis is on the role of mass media in modern society. (3 Lec.)
(Coordinating Board Academic Approval Number 0904035126)

LEGAL ASSISTANT

LA 131 Introduction To Legal Technology (3)
(Next year's course prefix/number LEGL 1370)
Prerequisite: Legal Assistant 131 is a prerequisite for all other Legal Assistant courses except Legal Assistant 135. Legal technology is introduced. Topics include the legal technician concept, the legal profession and unauthorized practice, legal ethics and the "new profession" concept. The history and areas of American law are also included. Legal research, bibliography, legal drafting, and writing are also covered. (3 Lec.)

LA 133 Law Of Real Property And Real Estate Transactions (3)
(Next year's course prefix/number LEGL 1371)
Prerequisites: Legal Assistant 131, 135, and English 101. The law of real property and common real estate transactions are studied. Topics include contracts, leases, and deeds of trust. Problems involved in the drafting of these instruments are examined. The system of recording and the search of public documents are also covered. (3 Lec.)

LA 134 Principles Of Family Law (3)
(Next year's course prefix/number LEGL 1372)
Prerequisites: Legal Assistant 131, 135, and English 101. Family law is surveyed. Divorce, separation, custody, legitimacy, adoption, change of name, guardianship, support, domestic relations court procedures, and separation agreements are studied. (3 Lec.)

LA 135 Texas And Federal Court Systems (3)
(Next year's course prefix/number LEGL 1373)
Prerequisite: Legal Assistant 135 is a prerequisite for all other Legal Assistant courses except Legal Assistant 131. The Texas and federal courts are studied. Legal practices related to the courts and principles of court administration are examined. (3 Lec.)
LA 138 Introductory Legal Research And Drafting (3)
(Next year's course prefix/number LEGL 1374)
Prerequisites: Legal Assistant 131 and 135 and English 101. This course familiarizes the beginning legal assistant student with operation of a typical law library and the use of various legal research materials and tools. General and Texas legal research resources are emphasized. The student also studies legal research terminology, introductory computerized legal research techniques, and "shepardizing." Basic citation form for legal material is discussed. The student is given several opportunities to research rudimentary legal problems and write short case reports and legal memoranda. (3 Lec.)

LA 203 Legal Assistant Special Topics (3)
(Next year's course prefix/number LEGL 2370)
Prerequisites: Legal Assistant 131 and 135 and English 101. Students participate in identifying, defining and analyzing current topics of interest in legal assistant services. The course emphasizes present career needs and problems, and students are guided to offer realistic and workable solutions which include the knowledge of legal concepts and principles involved in legal assistant careers. (3 Lec.)

LA 225 Business Organizations (3)
(Next year's course prefix/number LEGL 2371)
Prerequisites: Legal Assistant 131, 135, and English 101. This course is a study of the practical aspects of the law of business organizations, including a "how-to-do-it" approach, with explanation of the legal principles which must be observed in counseling and enterprise. This course covers the common law principles of proprietorships and reviews the Uniform Partnership Act, the Uniform Limited Partnership Act, and the Model Business Corporation Act as they have been used and adopted in Texas law. (3 Lec.)

LA 227 Civil Litigation I (3)
(Next year's course prefix/number LEGL 2372)
Prerequisites: Legal Assistant 131, 135, English 101 or demonstrated competence approved by the instructor. This course is an overview of civil litigation in both state and federal courts with particular emphasis on the areas in which a legal assistant can assist the trial attorney. Particular attention is paid to preparation for litigation (interviewing clients and witnesses, reviewing public information), discovery proceedings (interrogatories, requests for admissions, depositions and document production), pretrial proceedings (motions to dismiss, motions for summary judgment, pretrial orders), and trial (witnesses and exhibits). Attention is also devoted to practical techniques required to cope with protracted or complex litigation, including organization of pleadings, documents and depositions; preparation of summaries, chronologies and indices; and maintaining a complex file in an orderly manner. Mention is made of the legal theories involved in complex litigation (e.g., product liability, civil rights, securities, and antitrust). Principal emphasis is on procedural techniques rather than substantive areas of law. (3 Lec.)

LA 231 Wills, Trusts, And Probate Administration (3)
(Next year's course prefix/number LEGL 2374)
Prerequisites: Legal Assistant 131, 133 and 135 or demonstrated competence approved by the instructor. The forms and principles of law for wills and trusts are covered. The organization and jurisdiction of the Texas Probate Court are studied. The administration of estates under the Texas Probate Code is analyzed, and estate and inheritance taxes are reviewed. (3 Lec.)

LA 232 Tort And Insurance Law And Claims Investigation (3)
(Next year's course prefix/number LEGL 2375)
Prerequisites: Legal Assistant 131, 135, and English 101 or demonstrated competence approved by the instructor. The law of torts and insurance is the focus of this course. The techniques of investigation involved in tort and insurance claims are considered, and the various forms of pleadings for making the claims are studied. (3 Lec.)

LA 234 Personal Property, Sales And Credit Transactions (3)
(Next year's course prefix/number LEGL 2376)
Prerequisites: Legal Assistant 131, 135, and English 101 or demonstrated competence approved by the instructor. The law of personal property and contracts is presented. Included are the special forms related to the law of sales and credit transactions and special drafting problems of various instruments and legal research projects. The Uniform Commercial Code and its effect are also included. (3 Lec.)
LA 238 Legal Office Management (3)
(Next year's course prefix/number LEGL 2377)
Prerequisites: Legal Assistant 131 and 135 and English 101. All aspects of law office management are covered. Topics include office organization, bookkeeping and accounting, fees and billing procedures, scheduling and calendaring, and ethics. Management of personnel, proofreading, file preparation, legal drafting, and procedures for specialized areas of law are also included. Trust accounts, law office forms, checklists and files, and disbursement on behalf of clients are covered. This course may be repeated for credit. (3 Lec.)

LA 240 Advanced Legal Research and Drafting (3)
(Next year's course prefix/number LEGL 2378)
Prerequisites: Legal Assistant 131, 135 and 138 and English 101. This course familiarizes the students with advanced legal research materials, particularly federal legal resources. Students continue their study from Legal Research 138 of computerized legal research techniques. This course also continues training in citation form begun in Legal Assistant 138. The student is given several opportunities to research various legal problems and to write legal documents such as an appellate brief. This course may be repeated for credit. (3 Lec.)

LA 248 Constitutional And Criminal Law (3)
(Next year's course prefix/number LEGL 2379)
Prerequisites: Legal Assistant 131 and 135 and English 101. This course covers freedom of communication and religion, individual privacy, private property and contractual rights, and criminal justice. Also studied are procedural due process and discrimination, rights and privileges of citizenship, states' powers and limitations, theories of federal government and its powers, congressional powers, the presidency, and the courts system and judicial review of constitutional issues. Special emphasis is put on the elements of criminal law and evidence with practice given on drafting documents related to these areas. (3 Lec.)

LA 251 Civil Litigation II (3)
(Next year's course prefix/number LEGL 2380)
Prerequisite: Legal Assistant 227. This course is a study coordinated with other legal technology courses at an advanced level. It includes specialized study and training in the preparation for and procedures of advanced litigation, including discovery and pretrial procedures, and specialized study of the basic legal concepts of antitrust and securities law, as well as the practical application of those concepts as the predominant topics of advanced litigation. (3 Lec.)

LA 253 Bankruptcy and Creditors' Rights (3)
(Next year's course prefix/number LEGL 2381)
Prerequisites: Legal Assistant 131 and 135 and English 101. This course provides the student with a historical overview of the Bankruptcy Code, Title 11, U.S.C., and understanding of the stages generally applicable to bankruptcy proceedings. The student will acquire a practical, comprehensive knowledge of chapters 7, 9, 11, and 13 of the Bankruptcy Code; the operations of the United States Trustee's Office; recovery of fraudulent and preferential transfers; creditors' rights under the Bankruptcy Code; and use of bankruptcy forms and schedules. Emphasis is put on preparation of documents related to this topic. (3 Lec.)

LA 703 Cooperative Work Experience (3)
(Next year's course prefix/number LEGL 7371)
Prerequisites: Completion of two courses in the Legal Assistant program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor develop a written competency-based learning plan with varied objectives and work experiences. Students must develop new learning objectives each semester. The seminar consists of topics which include preparation of resumes, job application and interview techniques, organizational skills and building self-esteem. (1 Lec., 15 Lab.)

LA 704 Cooperative Work Experience (4)
(Next year's course prefix/number LEGL 7471)
Prerequisites: Completion of two courses in the Legal Assistant program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor develop a written competency-based learning plan with varied learning objectives and work experiences. Students must develop new learning objectives each semester. The seminar consists of topics which include preparation of resumes, job application and interview techniques, organizational skills and building self-esteem. (1 Lec., 20 Lab.)

LA 713 Cooperative Work Experience (3)
(Next year's course prefix/number LEGL 7372)
Prerequisites: Completion of two courses in the Legal Assistant program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives each semester. The seminar consists of topics which include job site interpersonal relations, employer expectations of employees, analysis of job market research and changing jobs. (1 Lec., 15 Lab.)
LA 714 Cooperative Work Experience (4)
(Next year's course prefix/number LEGL 7472)
Prerequisites: Completion of two courses in the Legal Assistant program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives each semester. The seminar consists of topics which include job site interpersonal relations, employer expectations of employees, analysis of job market research and changing jobs. (1 Lec., 20 Lab.)

MANAGEMENT

MGT 136 Principles Of Management (3)
(Next year's course prefix/number MGMT 1370)
This course emphasizes the managerial functions of planning, organizing, staffing, directing, and controlling. Communication, motivation, leadership, and decision making are included. (3 Lec.)

MGT 171 Introduction To Supervision (3)
(Next year's course prefix/number MGMT 1374)
This course is a study of today's supervisors and their problems. The practical concepts of modern-day, first-line supervision are described. Emphasis is on the supervisor’s major functions, such as facilitating relations with others, leading, motivating, communicating, and counseling. (3 Lec.)

MGT 212 Special Problems In Business (1)
(Next year's course prefix/number MGMT 2170)
Each student will participate in the definition and analysis of current business problems. Special emphasis will be placed on relevant problems and pragmatic solutions that integrate total knowledge of the business process in American society. This course may be repeated for credit up to a maximum of three credit hours. (1 Lec.)

MGT 237 Organizational Behavior (3)
(Next year's course prefix/number MGMT 2373)
The persisting human problems of administration in modern organizations are covered. The theory and methods of behavioral science as they relate to organizations are included. (3 Lec.)

MGT 242 Human Resources Management (3)
(Next year's course prefix/number MGMT 2374)
This course presents the fundamentals, theories, principles, and practices of people management. Emphasis is on people and their employment. Topics include recruitment, selection, training, job development, interactions with others, labor/management relations, and government regulations. The managerial functions of planning, organizing, staffing, directing, and controlling are also covered. (3 Lec.)

MGT 244 Problem Solving And Decision-Making (3)
(Next year's course prefix/number MGMT 2375)
The decision-making process and problem-solving as key components are the focus of this course. Topics include: individual, group, and organizational decision-making; logical and creative problem-solving techniques; and the use of decision aids by managers. Application of theory is provided by experiential activities such as small group discussions, case studies, and simulations. (3 Lec.)

MGT 704 Cooperative Work Experience (4)
(Next year's course prefix/number MGMT 7471)
Prerequisite: Previous credit in or concurrent enrollment in Management 171 or demonstrated competence approved by the instructor. This course is designed to develop the student's managerial skills through the completion of a written competency-based learning plan describing varied student learning objectives and planned work experience. Emphasis is on improving leadership skills and goal-setting. (1 Lec., 20 Lab.)

MGT 714 Cooperative Work Experience (4)
(Next year's course prefix/number MGMT 7472)
Prerequisite: Previous credit in or concurrent enrollment in Management 242 or demonstrated competence approved by the instructor. This course is designed to develop the student's managerial skills through the completion of a written competency-based learning plan describing varied student learning objectives and planned work experience. Emphasis is on improving motivational techniques and communicating. (1 Lec., 20 Lab.)

MGT 804 Cooperative Work Experience (4)
(Next year's course prefix/number MGMT 8481)
Prerequisite: Previous credit in or concurrent enrollment in Management 237 or demonstrated competence approved by the instructor. This course is designed to develop the student's managerial skills through the completion of a written competency-based learning plan describing varied student learning objectives and planned work experience. Emphasis is on improving motivational techniques and communicating. (1 Lec., 20 Lab.)

MGT 814 Cooperative Work Experience (4)
(Next year's course prefix/number MGMT 8482)
Prerequisite: Previous credit in or concurrent enrollment in Management 244 or demonstrated competence approved by the instructor. This course is designed to develop the competency-based learning plan describing varied student learning objectives and planned work experience. Emphasis is on individual and group decision-making and rational and creative problem solving. (1 Lec., 20 Lab.)
MKT 206 Principles of Marketing (3) (Next year's course prefix/number MRKT 2370)
The scope and structure of marketing are examined. Marketing functions, consumer behavior, market research, sales forecasting, and relevant state and federal laws are analyzed. (3 Lec.)

MKT 230 Salesmanship (3) (Next year's course prefix/number MRKT 2373)
The selling of goods and ideas is the focus of this course. Buying motives, sales psychology, customer approach, and sales techniques are studied. (3 Lec.)

MATHEMATICS
(See Developmental Mathematics also. Supplementary instruction in mathematics is available through the Learning Resources Center.)

MTH 101 College Algebra (3) (Common Course Number MATH 1314)
Prerequisites: Two years of high school algebra and an appropriate assessment test score or Developmental Mathematics 093. This course is a study of relations and functions including polynomial, rational, exponential, logarithmic, and special functions. Other topics include variation, complex numbers, systems of equations and inequalities, theory of equations, progressions, the binomial theorem, proofs, and applications. (3 Lec.)
(Coordinating Board Academic Approval Number 2701015137)

MTH 102 Plane Trigonometry (3) (Common Course Number MATH 1316)
Prerequisite: Mathematics 101 or equivalent. This course is a study of angular measures, functions of angles, identities, solutions of triangles, equations, inverse trigonometric functions, and complex numbers. (3 Lec.)
(Coordinating Board Academic Approval Number 2701015337)

MTH 111 Mathematics For Business And Economics I (3) (Common Course Number MATH 1324)
Prerequisites: Two years of high school algebra and an appropriate assessment test score or Developmental Mathematics 093. This course includes equations, inequalities, matrices, linear programming; linear, quadratic, polynomial, rational, exponential, and logarithmic functions; and probability. Applications to business and economics problems are emphasized. (3 Lec.)
(Coordinating Board Academic Approval Number 2703015237)

MTH 112 Mathematics For Business And Economics II (3) (Common Course Number MATH 1325)
Prerequisite: Mathematics 111. This course includes limits, differential calculus, integral calculus, and appropriate applications. (3 Lec.)
(Coordinating Board Academic Approval Number 2703015237)

MTH 115 College Mathematics I (3) (Common Course Number MATH 1332)
Prerequisites: Two years of high school algebra and an appropriate assessment test score or Developmental Mathematics 093. Designed for liberal arts students, this course includes the study of sets, logic, sets of numbers, and mathematical systems. Additional topics will be selected from mathematics of finance, introduction to computers, introduction to statistics, and introduction to matrices. Recreational and historical aspects of selected topics are also included. (3 Lec.)
(Coordinating Board Academic Approval Number 2701015137)

MTH 116 College Mathematics II (3) (Common Course Number MATH 1333)
Prerequisites: Two years of high school algebra and an appropriate assessment test score or Developmental Mathematics 093. Designed for liberal arts students, this course includes the study of algebra, linear programming, permutations, combinations, probability, and geometry. Recreational and historical aspects of selected topics are also included. (3 Lec.)
(Coordinating Board Academic Approval Number 2701015137)

MTH 115 Analytic Geometry (3) (Common Course Number MATH 1348)
Prerequisite: Mathematics 102 or equivalent. This course is a study of the real numbers, distance, the straight line, conics, transformation of coordinates, polar coordinates, parametric equations, and three-dimensional space. (3 Lec.)
(Coordinating Board Academic Approval Number 2701015537)

MTH 130 Business Mathematics (3) (Next year's course prefix/number MATH 1371)
Prerequisites: One year of high school algebra and an appropriate assessment test score or Developmental Mathematics 091 or equivalent. This course is intended primarily for students in specialized occupational programs. It is a study of simple and compound interest, bank discount, payrolls, taxes, insurance, mark up and mark down, corporate securities, depreciation, and purchase discounts. (3 Lec.)
MTH 138 Mathematics for Allied Health (3)
(Next year's course prefix/number MATH 1372)
Prerequisite: Developmental Mathematics 090 or an appropriate test score. This course is a study of percents, apothecary system, metric system, linear equations, literal equations, gas laws, magnification laws, and statistics which includes histograms, bar graphs, pie-charts, averages, standard deviations and variances. Also included are basic concepts of geometry. (3 Lec.)

MTH 139 Applied Mathematics (3)
(Next year's course prefix/number MATH 1373)
The course is a study of commercial, technical, and other applied uses of mathematics. Topics vary to fit the needs of the students enrolled in a particular technical/occupational program. The prerequisite will vary accordingly and be determined by the needed skills. (3 Lec.)

MTH 202 Introductory Statistics (3)
(Common Course Number MATH 1342)
Prerequisite: Two years of high school algebra or demonstrated competence approved by the instructor. This course is a study of collection and tabulation of data, bar charts, graphs, sampling, measures of central tendency and variability, correlation, index numbers, statistical distributions, probability, and application to various fields. (3 Lec.)
(Coordinating Board Academic Approval Number 2705015137)

MEDICAL LABORATORY TECHNOLOGY

MLT 130 Introduction Seminar (1)
(Next year's course prefix/number MDLT 1170)
Prerequisite: Acceptance into the Medical Laboratory Technology Program and completion of BIO 221 or BIO 120 and ENG 101 with a minimum grade of "C". Laboratory mathematics with clinical applications, quality assurance, laboratory safety, phlebotomy and medical ethics are presented. Laboratory fee. (2 Lab.)

MLT 133 Hematology (4)
(Next year's course prefix/number MDLT 1470)
Prerequisite: Acceptance into the Medical Laboratory Technician Program, completion of BIO 221 or BIO 120 and ENG 101 with a minimum grade of "C", and concurrent enrollment in Medical Laboratory Technology 130 and 134. The theory and basic techniques used in the hematological examination of blood are presented. Laboratory fee. (3 Lec., 4 Lab.)

MLT 134 Instrumentation (2)
(Next year's course prefix/number MDLT 1270)
Prerequisites: Acceptance into the Medical Laboratory Technology Program, completion of BIO 221 or BIO 120 and ENG 101 with a minimum grade of "C", and a minimum grade of "C" or concurrent enrollment in Medical Laboratory Technology 130. The theory of laboratory instruments including microscopes, centrifuges, hematological and clinical chemistry instrumentation is presented. Trouble shooting problems is included. Laboratory fee. (1 Lec., 3 Lab.)

MLT 136 Immunology/Serology (3)
(Next year's course prefix/number MDLT 1370)
Prerequisites: Minimum grade of "C" in Medical Laboratory Technology 130 or demonstrated competence approved by instructor. The theory and practice of clinical immunology are presented. Serological laboratory procedures are performed and applied to diagnostic correlations. Laboratory fee. (2 Lec., 3 Lab.)

MLT 137 Immunohematology (3)
(Next year's course prefix/number MDLT 1371)
Prerequisites: Acceptance into the Medical Laboratory Technology Program and a minimum grade of "C", or concurrent enrollment in Medical Lab Technology 136. The theory and practice of clinical immunohematology are presented. An overview of modern blood banking will include component preparation to specialized testing necessary for antibody identification. Laboratory fee. (2 Lec., 4 Lab.)

MLT 141 Clinical Practice I (4)
(Next year's course prefix/number MDLT 1471)
Prerequisites: Minimum grade of "C" in all previous Medical Laboratory Technology course work and an overall minimum grade of "C" in nontechnical course work. This course provides supervised clinical practice in hematology, serology, blood banking, and phlebotomy. The student will perform procedures associate with the various laboratory areas including computer applications. The student is assigned to a clinical laboratory. (35 Lab.)

MLT 225 Urinalysis And Body Fluids (3)
(Next year's course prefix/number MDLT 2370)
Prerequisites: Minimum grade of "C" in Medical Laboratory Technology 130, 134 and 137 or demonstrated competence approved by the instructor. This course is a study of the theory and laboratory procedures used in the analysis of urine and other body fluids. Laboratory fee. (2 Lec., 4 Lab.)
MLT 229 Medical Microbiology I (4)
(Next year's course prefix/number MDLT 2470)
Prerequisites: Completion of the first year of the Medical Laboratory Technology Program or demonstrated competence approved by the instructor. The fundamentals of microbial life are studied. Methods and procedures used in diagnostic microbiology are covered. Included are the principles of aseptic techniques, susceptibility testing of bacteria, quantification of selected bacteria. The normal body flora are discussed, and the relationship of these bacteria to disease in humans is emphasized. Laboratory fee. (3 Lec., 4 Lec.)

MLT 231 Clinical Chemistry (4)
(Next year's course prefix/number MDLT 2471)
Prerequisites: Minimum grade of "C" in Medical Laboratory Technology 229 and completion of Chemistry 203. This course focuses on the theory and procedures used in the clinical chemistry laboratory. Both manual and automated methods are presented in lectures and laboratory assignments. Laboratory fee. (3 Lec., 4 Lab.)

MLT 237 Medical Microbiology II (2)
(Next year's course prefix/number MDLT 2270)
Prerequisite: Minimum grade of "C" in Medical Laboratory Technology 229. This course is a continuation of Medical Laboratory Technology 229. It includes a study of the isolation and identification procedures for selected bacteria, fungi, and parasites. Laboratory fee. (2 Lec., 4 Lab.)

MLT 241 Clinical Practice II (4)
(Next year's course prefix/number MDLT 2471)
Prerequisites: Minimum grade of "C" in all previous Medical Laboratory Technology course work and an overall minimum grade of "C" in nontechnical course work. This course provides supervised clinical practice in diagnostic microbiology and clinical chemistry and urinalysis. The student will perform procedures associated with the various laboratory areas including computer applications. The student is assigned to a clinical laboratory. (35 Lab.)

MEDICAL TRANSCRIPTION

MTR 131 Medical Terminology (4)
(Next year's course prefix/number MEDT 1370)
Prerequisite: Admission to Medical Transcription program and concurrent enrollment in Biology 123 or approval by the instructor. This course is a study of the basic structure of medical words. Included are prefixes, suffixes, roots, combining forms and plurals. Emphasis is placed on pronunciation, spelling, and definitions. Exercises in the use of the medical dictionary are included. (4 Lec.)

MTR 133 Fundamentals of Medical Transcription (3)
(Next year's course prefix/number MEDT 1370)
Prerequisite: Admission to the Medical Transcription program and typing skills of 50 words per minute corrected or instructor approval. This course is an introduction to the health care record and medical documentation. Included will be transcription of basic medical dictation utilizing English mechanics and machine transcription skills. Proofreading, editing and accuracy and production will be stressed. Medicolegal and ethics issues will also be covered. Laboratory fee. (2 Lec., 3 Lab.)

MTR 135 Disease Processes I (2)
(Next year's course prefix/number MEDT 1270)
This course includes the study of common human disease conditions, including prevention, etiology, signs and symptoms, diagnostic and treatment modalities and prognosis. Medical references will be used for research and verification. (2 Lec.)

MTR 137 Introduction to Medical Word Processing (2)
(Next year's course prefix/number MEDT 1271)
Prerequisite: Admission to the Medical Transcription program. This course is designed to introduce students to the concepts of word processing with actual experience in composing, dictating, and producing simulated written communications as used in the medical field. Laboratory fee. (1 Lec., 2 Lab.)

MTR 141 Medical Transcription (4)
(Next year's course prefix/number MEDT 1471)
Prerequisite: Admission to the Medical Transcription program and completion of Medical Transcription 133 and prior course work with a "C" or better or instructor approval. Speed and accuracy in transcription, use of transcribing equipment, and medical-surgical terminology are included in this course. Practice in completing medical forms, transcribing medical-surgical reports, and handling medical correspondence is emphasized. Laboratory fee. (2 Lec., 6 Lab.)

MTR 145 Disease Processes II (4)
(Next year's course prefix/number MEDT 1472)
Prerequisite: "C" or better in previous courses and completion of Medical Transcription 135. This course is a continuation of Medical Transcription 135. Common human disease conditions will be covered. Included will be prevention, etiology, signs and symptoms, diagnostic and treatment modalities and prognosis. (4 Lec.)
The phonetic sounds of the German language are studied.
The phonetic sounds of the French language are studied.
The phonetic sounds of the English language are studied.

MUSIC

MUS 103 Guitar Ensemble (1)
(Common Course Number MUSI 1137)
Music composed and arranged for a guitar ensemble is performed. Works for a guitar and a different instrument or for guitar and a voice are also included. This course may be repeated for credit. (3 Lab.)
(Coordinating Board Academic Approval Number 5009035630)

MUS 104 Music Appreciation (3)
(Common Course Number MUSI 1306)
The basic elements of music are surveyed and examined in the music literature of western civilization, particularly from the Baroque Period to the present. Cultural influences on the music of each era are observed. (3 Lec.)
(Coordinating Board Academic Approval Number 5009025130)

MUS 105 Italian Diction (1)
(Common Course Number MUSI 1160)
The phonetic sounds of the Italian language are studied. Included is selected vocabulary. This course is primarily for voice majors. (2 Lab.)
(Coordinating Board Academic Approval Number 5009085330)

MUS 106 French Diction (1)
(Common Course Number MUSI 2161)
The phonetic sounds of the French language are studied. Included is selected vocabulary. This course is primarily for voice majors. (2 Lab.)
(Coordinating Board Academic Approval Number 5009085330)

MUS 107 German Diction (1)
(Common Course Number MUSI 2160)
The phonetic sounds of the German language are studied. Included is selected vocabulary. This course is primarily for voice majors. (2 Lab.)
(Coordinating Board Academic Approval Number 5009085330)

MUS 108 English Diction (1)
(Common Course Number MUSI 1161)
The phonetic sounds of the English language are studied. Included is selected vocabulary. This course is primarily for voice majors. (2 Lab.)
(Coordinating Board Academic Approval Number 5009085330)

MUS 110 Music Literature (3)
(Common Course Number MUSI 1308)
The music of recognized composers in the major periods of music history is examined. Topics include the characteristics of sound, elements of music, performance media, and musical texture. Emphasis is on the music of the late Gothic, Renaissance, and Baroque eras. (3 Lec.)
(Coordinating Board Academic Approval Number 5009025230)

MUS 111 Music Literature (3)
(Common Course Number MUSI 1309)
This course is a continuation of Music 110. The compositional procedures and forms used by composers are studied. Emphasis is on the Classical, Romantic, and Modern periods. (3 Lec.)
(Coordinating Board Academic Approval Number 5009025230)

MUS 113 Foundations Of Music I (3)
(Common Course Number MUSI 1300)
This course is the initial course to prepare students with limited music training for Music 145. It focuses on notation (music reading), musical terminology, analysis, listening to and creating rhythmic and melodic responses. (3 Lec.)
(Coordinating Board Academic Approval Number 5009045430)

MUS 114 Foundations Of Music II (3)
(Next year’s course prefix/number MUSI 1371)
Prerequisite: Music 113 or demonstrated competence approved by the instructor. This course prepares students with limited music training for Music 145 and increases their general music understanding. Emphasis is on rhythmic and melodic training, chord functions, melody, textures, and basic analysis of music. (3 Lec.)
(Coordinating Board Academic Approval Number 5009045430)

MUS 115 Jazz Improvisation (2)
(Common Course Number MUSI 1263)
The art of improvisation is introduced. Basic materials, aural training, analysis, and common styles are presented. This course may be repeated for credit. (1 Lec., 2 Lab.)
(Coordinating Board Academic Approval Number 5009036530)

MUS 117 Piano Class I (1)
(Common Course Number MUSI 1181)
This course is primarily for students with no piano background. It develops basic musicianship and piano skills. This course may be repeated for credit. (2 Lab.)
(Coordinating Board Academic Approval Number 5009075130)
MUS 118 Piano Class II (1)
(Common Course Number MUSI 1182)
Prerequisite: Music 117 or demonstrated competence approved by the instructor. The study of piano is continued. Included are technique, harmonization, transposition, improvisation, accompanying, sight reading, and performing various styles of repertoire. This course may be repeated for credit. (2 Lab.)
(Coordinating Board Academic Approval Number 5009075130)

MUS 119 Guitar Class I (1)
(Common Course Number MUSI 1192)
This course is primarily for students with limited knowledge in reading music or playing the guitar. It develops basic guitar skills. This course may be repeated for credit. (2 Lab.)
(Coordinating Board Academic Approval Number 5009035130)

MUS 120 Guitar Class II (1)
(Common Course Number MUSI 1193)
Prerequisite: Music 119 or demonstrated competence approved by the instructor. This course is a continuation of Music 119. Emphasis is on classical guitar techniques and music reading skills. This course may be repeated for credit. (2 Lab.)
(Coordinating Board Academic Approval Number 5009035130)

MUS 121-143 Applied Music-Minor (1)
This course is open to students enrolled in music theory, ensembles, and other music major and minor courses. It provides private instruction in the student's secondary area and consists of a one-half hour lesson a week. Private music may be repeated for credit. Laboratory fee required. (1 Lec.)

MUS 121 Applied Music-Piano (1)
(Common Course Number MUAP 1169)
(Coordinating Board Academic Approval Number 5009035430)

MUS 122 Applied Music-Organ (1)
(Common Course Number MUAP 1165)
(Coordinating Board Academic Approval Number 5009035430)

MUS 123 Applied Music-Voice (1)
(Common Course Number MUAP 1181)
(Coordinating Board Academic Approval Number 5009035430)

MUS 124 Applied Music-Violin (1)
(Common Course Number MUAP 1101)
(Coordinating Board Academic Approval Number 5009035430)

MUS 125 Applied Music-Viola (1)
(Common Course Number MUAP 1105)
(Coordinating Board Academic Approval Number 5009035430)

MUS 126 Applied Music-Cello (1)
(Common Course Number MUAP 1109)
(Coordinating Board Academic Approval Number 5009035430)

MUS 140 Applied Music-Guitar (1)
(Common Course Number MUAP 1161)
(Coordinating Board Academic Approval Number 5009035430)

MUS 145 Music Theory I (3)
(Common Course Number MUSI 1311)
Prerequisite: Music 113 and 114 or demonstrated competence approved by the instructor. This course is designed for music majors and minors. Emphasis is on notation, cadences, classification of diatonic triads, scales, and modes. It is recommended that students enrolled in Music 161 enroll in this course. (3 Lec.)
(Coordinating Board Academic Approval Number 5009045130)

MUS 146 Music Theory II (3)
(Common Course Number MUSI 1312)
Prerequisite: Music 145 or demonstrated competence approved by the instructor. This course focuses on part-writing and harmonization with triads and their inversions. Also included is a chord vocabulary expanded to include materials from the common practice period as well as contemporary periods. It is recommended that students enrolled in Music 162 enroll in this course. (3 Lec.)
(Coordinating Board Academic Approval Number 5009045130)

MUS 147 Synthesizer Class I (1)
(Next year's course prefix/number MUSI 1170)
Prerequisite: Music 117 or prior keyboard experience. This course is an entry-level performance course designed to teach students the basic theoretical concepts and performance skills necessary to perform on synthesizers. (3 Lab.)
(Coordinating Board Academic Approval Number 5009037130)

MUS 148 Synthesizer Class II (1)
(Next year's course prefix/number MUSI 1172)
Prerequisite: Music 147 or prior music synthesizer experience. This course is a continuation of Music 147. This course emphasizes the rehearsal and performance of commercial music styles. FM synthesis is introduced and a variety of programmable equipment is surveyed including drum machines, sequencers, digital samplers and computer software. (3 Lab.)
(Coordinating Board Academic Approval Number 5009037130)

MUS 150 Chorus (1)
(Common Course Number MUSI 2143)
Prerequisite: Demonstrated competence approved by the instructor. A wide variety of music representing the literature of the great eras of music history is studied and performed. This course may be repeated for credit. (3 Lab.)
(Coordinating Board Academic Approval Number 5009035730)
MUS 151 Voice Class I (1)
(Common Course Number MUSI 1183)
This course is for non-voice majors. It presents the principles of breathing, voice production, tone control, enunciation, and phrasing in two group lessons a week. This course may be repeated for credit. (2 Lab.)
(Coordinating Board Academic Approval Number 5009085130)

MUS 152 Voice Class II (1)
(Common Course Number MUSI 1184)
This course is a continuation of Music 151. It is open to all non-voice majors. Emphasis is on solo singing, appearance in studio recital, stage deportment, and personality development. Two group lessons are given a week. This course may be repeated for credit. (2 Lab.)
(Coordinating Board Academic Approval Number 5009085130)

MUS 155 Vocal Ensemble (1)
(Common Course Number MUSI 1143)
Prerequisite: Demonstrated competence approved by the instructor. Activities include study and performance of specialized choral literature suitable for more advanced students. This course may be repeated for credit. (3 Lab.)
(Coordinating Board Academic Approval Number 5009035730)

MUS 156 Madrigal Singers (1)
(Common Course Number MUSI 1152)
A group of vocalists read and perform literature for small ensembles. Membership is by audition with the appropriate director. This course may be repeated for credit. (3 Lab.)
(Coordinating Board Academic Approval Number 5009035830)

MUS 161 Musicianship I (1)
(Common Course Number MUSI 1116)
Prerequisite: Music 113 and 114 or demonstrated competence approved by the instructor. Keyboard skills and aural skills (including sight-singing and ear training) are developed. It is recommended that students enrolled in Music 145 enroll in this course. (3 Lab.)
(Coordinating Board Academic Approval Number 5009045630)

MUS 162 Musicianship II (1)
(Common Course Number MUSI 1117)
Prerequisite: Music 161. This course is a continuation of Music 161. It is recommended that students enrolled in Music 146 enroll in this course. (3 Lab.)
(Coordinating Board Academic Approval Number 5009045630)

MUS 186 History Of Jazz/Rock Music (3)
(Common Course Number MUSI 1310)
The study of social and musical influences on Jazz/Rock music and the influence of Jazz/Rock Music on society and the music industry. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 5009025330)

MUS 174 Keyboard Ensemble (1)
(Common Course Number MUSI 1132)
Prerequisite: Demonstrated competence approved by the instructor. A group of keyboard instrumentalists read and perform literature for small ensembles. This course may be repeated for credit. (3 Lab.)
(Coordinating Board Academic Approval Number 5009035630)

MUS 175 String Ensemble (1)
(Common Course Number MUSI 1139)
Prerequisite: Demonstrated competence approved by the instructor. A group of string instrumentalists read and perform literature for small ensembles. This course may be repeated for credit. (3 Lab.)
(Coordinating Board Academic Approval Number 5009035630)

MUS 177 Chamber Ensemble (1)
(Common Course Number MUSI 1151)
Prerequisite: Demonstrated competence approved by the instructor. A group of chamber instrumentalists or vocalists read and perform literature for small ensembles. This course may be repeated for credit. (3 Lab.)
(Coordinating Board Academic Approval Number 5009035830)

MUS 192 Music In America (3)
(Next year's course prefix/number MUSI 1174)
American music and musicians from early times to the present are surveyed. Various styles and periods are covered. Religious, folk, jazz, rock, musical theater, and contemporary developments are included. (3 Lec.)

MUS 199 Recital (1)
(Next year's course prefix/number MUSI 1175)
This is an on-campus concert/seminar series designed to provide a laboratory and listening experience as an extension of classroom music studies. Concerts, seminars and workshops are presented by guest artists and lecturers, faculty members and students. This is a one-hour credit course and may be repeated for credit. (2 Lab.)

MUS 203 Composition (3)
(Common Course Number MUSI 1188)
Prerequisites: Music 145 and 146 or demonstrated competence approved by the instructor. This course covers composing in small forms for simple media in a variety of styles. This course may be repeated for credit. (3 Lec.)
(Coordinating Board Academic Approval Number 5009045330)

MUS 217 Piano Class III (1)
(Common Course Number MUSI 2181)
Prerequisite: Music 117 and 118 or demonstrated competence approved by the instructor. This course is a continuation of functional keyboard skills, including harmonization, sight-reading, accompanying styles, improvisation, and technical exercises. It is designed for the music major preparing for the piano proficiency exam, but is also open to any interested student. It is recommended that music majors also study privately. (2 Lab.)
(Coordinating Board Academic Approval Number 5009075130)
MUS 218 Piano Class IV (1)
(Common Course Number MUSI2182)
Prerequisite: Music 217 or demonstrated competence of
the Instructor. This course is a continuation of functional
keyboard skills in Music 217 with greater emphasis on
advanced harmonization and appropriate technical skills.
It is designed as a preparation for the piano proficiency
exam for the music major, but is also open to any interested student. It is recommended that music majors also study privately. (2 Lab.)
(Coordinating Board Academic Approval Number 5009075130)

MUS 221-243 Applied Music-Concentration (2)
This course is open to students enrolled in music theory,
ensembles, or other music major and minor courses. It
provides private instruction in the area of the student's
concentration and consists of one hour of instruction per week. Private music may be repeated for credit. Laboratory fee required. (1 Lec.)

MUS 221 Applied Music-Piano (2)
(Common Course Number MUAP 2269)
(Coordinating Board Academic Approval Number 5009035430)

MUS 222 Applied Music-Organ (2)
(Common Course Number MUAP 2265)
(Coordinating Board Academic Approval Number 5009035430)

MUS 223 Applied Music-Voice (2)
(Common Course Number MUAP 2281)
(Coordinating Board Academic Approval Number 5009035430)

MUS 224 Applied Music-Violin (2)
(Common Course Number MUAP 2201)
(Coordinating Board Academic Approval Number 5009035430)

MUS 225 Applied Music-Viola (2)
(Common Course Number MUAP 2205)
(Coordinating Board Academic Approval Number 5009035430)

MUS 226 Applied Music-Cello (2)
(Common Course Number MUAP 2209)
(Coordinating Board Academic Approval Number 5009035430)

MUS 240 Applied Music-Guitar (2)
(Common Course Number MUAP 2261)
(Coordinating Board Academic Approval Number 5009035430)

MUS 245 Music Theory III (3)
(Common Course Number MUSI 2311)
Prerequisite: Music 145 and 146 or demonstrated competence
approved by the instructor. This course is a continuation of the study of music theory. It includes
the materials of modulation, larger forms, and thematic development, and more advanced analysis. It is recommended that students enrolled in Music 271 enroll in this course. (3 Lab.)
(Coordinating Board Academic Approval Number 5009045230)

MUS 246 Music Theory IV (3)
(Common Course Number MUSI 2312)
Prerequisite: Music 245 or demonstrated competence
approved by the instructor. This course is a continuation of the topics developed in Music 245. The preceding
materials are expanded to include melody, harmony, tonality, and the formal processes of 20th century music. It is recommended that students enrolled in Music 272 enroll in this course. (3 Lec.)
(Coordinating Board Academic Approval Number 5009045230)

MUS 251-270 Applied Music-Major (3)
This course is primarily for music performance majors and
is open to students enrolled in music theory, ensembles, or other music major and minor courses. It
provides private instruction in the area of the student's major instrument and consists of one hour of instruction per week. This course may be repeated for credit. Laboratory fee.
(1 Lec.)

MUS 251 Applied Music-Piano (3)
(Common Course Number MUAP 2369)
(Coordinating Board Academic Approval Number 5009035430)

MUS 252 Applied Music-Organ (3)
(Common Course Number MUAP 2365)
(Coordinating Board Academic Approval Number 5009035430)

MUS 253 Applied Music-Voice (3)
(Common Course Number MUAP 2381)
(Coordinating Board Academic Approval Number 5009035430)

MUS 254 Applied Music-Violin (3)
(Common Course Number MUAP 2301)
(Coordinating Board Academic Approval Number 5009035430)

MUS 255 Applied Music-Viola (3)
(Common Course Number MUAP 2305)
(Coordinating Board Academic Approval Number 5009035430)

MUS 256 Applied Music-Cello (3)
(Common Course Number MUAP 2309)
(Coordinating Board Academic Approval Number 5009035430)

MUS 270 Applied Music-Guitar (3)
(Common Course Number MUAP 2361)
(Coordinating Board Academic Approval Number 5009035430)

MUS 271 Musicianship III (1)
(Common Course Number MUSI 2116)
Prerequisite: Music 161 and 162 or demonstrated competence
approved by the instructor. Keyboard and aural skills (including sight-singing and ear training) are developed. It is recommended that students enrolled in Music 245 enroll in this course. (3 Lab.)
(Coordinating Board Academic Approval Number 5009045730)
MUS 272 Musicianship IV (1)
(Common Course Number MUSI 2118)
Prerequisite: Music 271 or demonstrated competence approved by the instructor. This course is a continuation of Music 271. It is recommended that students enrolled in Music 246 enroll in this course. (3 Lab.)
(Coordinating Board Academic Approval Number 5009045730)

MUS 283 Independent Study (3)
(Next year's course prefix/number MUSI 2371)
This course is for advanced work in music and is designed to meet specific needs of the student. On approval of the instructor and division chairperson, the student prepares and executes a written contract (proposal for learning). Credit is given upon completion of all aspects of the contract. This course may be repeated for credit. (3 Lec.)

NURSING

NUR 101 Basic Pharmacology (3)
(Next year's course prefix/number NURS 1370)
Prerequisites: Minimum grade of "C" in Biology 120 or 221 and concurrent enrollment in Biology 121 or 222. Registered Nurses or Licensed Vocational Nurses may enroll for refresher purposes. This course will be a comprehensive study of pharmacologic agents utilized by nurses and other health care workers. The focus is on the overall classification and pharmacokinetic properties of that classification. Drugs affecting all body systems are included. (3 Lec.)

NUR 102 Introduction To Pathophysiology (3)
(Next year's course prefix/number NURS 1371)
Prerequisites: Biology 120 and concurrent enrollment in Biology 121. Registered nurses or licensed vocational nurses may enroll for refresher purposes. This course will provide a basic introduction to pathophysiology of disease processes. The focus of the course will include a systems approach to the development of disease, abnormal physiological responses, clinical manifestations, and some treatment modalities. (3 Lec.)

NUR 144 Nursing I (8)
(Next year's course prefix/number NURS 1870)
Prerequisites: Admission to the program and "C" grade or better in Biology 120 or BIO 221, BIO 121 or BIO 222, BIO 216, ENG 101 and MTH 101 equating a grade point average of 2.5 or better. Concurrent enrollment in Biology 121 or 222 and Psychology 101. This basic nursing course will serve as a foundation on which four courses will build and expand. Topics include an introduction to nursing as a profession, the nursing process, communication, health teaching, and basic technical skills. Based on an integrated approach, concepts of health, illness, growth and development, basic human needs, the family, stress, pain, and loss are explored in all age groups. Selected clinical experiences and computer simulations will enable the student to begin to assess, analyze, plan, implement, and evaluate nursing care for all age groups. A system of measurements competency is a required component of the pharmacology introduction. Laboratory fee. (4 Lec., 12 Lab.)

NUR 146 Nursing II (9)
(Next year's course prefix/number NURS 1970)
Prerequisites: Minimum grade of "C" in Nursing 144, and in all Semester I support courses. Concurrent enrollment in Speech Communication 101 and Psychology 201. This course focuses on the application of the basic principles, concepts, and skills from Nursing 144. Included is medication administration and intravenous fluid therapy. Psychological and physiological stress is further explored with discussion of the nursing care of patients experiencing pregnancy, delivery, including care of the newborn, postpartum, surgery, abnormal cell proliferation, impaired nutrition, and maladaptive behavior in all age groups. Selected clinical experiences including an obstetric rotation and computer simulations continue to focus on the nursing process in caring for patients of all age groups. An application of pharmacology dosage and solution competency is a required component of this course. Laboratory fee. (5 Lec., 13 Lab.)
NUR 147 Nursing II A (5)
Prerequisites: Current Texas LVN license, admission to the Associate Degree Nursing Program, and "C" grade or better in Biology 120 or Biology 221, Biology 121 or Biology 222, English 101, and Math 101 equaling a grade point average of 2.5 or better. Additional prerequisites include Biology 121 or 222, 216, Psychology 101, 201 and Speech Communication 101 with a minimum grade of "C". Licensed Vocational Nurses will take this course in place of Nursing 144 and 146. This course will include assessment of the student’s theoretical, attitudinal, and psychomotor skills. Content will focus on the change in role from LVN to RN, communication, application of the nursing process, and maintenance of homeostasis. Specific areas of emphasis include problems of fluid and electrolytes, inflammation/immune response, abnormal cell proliferation, nutrition, pregnancy, birth, the neonate, and psychosocial aspects. Upon successful completion of this course, the student will be granted 12 hours of equivalency for Nursing 144 and 146. Laboratory fee. (4 Lec., 3 Lab.)

NUR 245 Nursing III (3)
Prerequisites: August admission: minimum grade of "C" in Nursing 146, and in all required Semester II support courses. January admission: minimum grade of "C" in Nursing 250, and in all required Semester III support courses. This course emphasizes the application of the nursing process to the care of patients experiencing crisis, and patients exhibiting severely impaired behavior. Selected clinical experiences include a psychiatric rotation. Nursing 250 precedes Nursing 245 in the January admission curriculum plan. Laboratory fee. (6 Lec., 10 Lab.)

NUR 250 Nursing IV (9)
Prerequisites: August admission: minimum grade of "C" in Nursing 245. January admission: minimum grade of "C" in Nursing 146. Minimum grade of "C" in Nursing 147 for LVN bridge students. Concurrent enrollment in a humanities elective. This course emphasizes a conceptual approach to care of patients in all age groups with complex health care needs pertaining to immobility, problems of moderately impaired oxygen exchange, immunological/inflammatory response, and elimination. Selected clinical experiences and computer simulations focus on application of the nursing process with emphasis on priority setting. A pharmacology application competency is a required component of this course. Laboratory fee. (5 Lec., 12 Lab.)

NUR 258 Nursing V-Care Of Patients With Complex Illnesses (9)
Prerequisites: August admission: Minimum grade of "C" in Nursing 250. January admission: Minimum grade of "C" in Nursing 245. Concurrent enrollment in Nursing 259 and an approved elective course. This course emphasizes conceptual approaches to the care of patients with complex illnesses which often involve multiple body systems. Problems of sensory deprivation and overload, severely impaired oxygen exchange, and severe fluid and electrolyte imbalance are addressed. Clinical experiences and computer simulations focus on the management of care for these patients, using the nursing process, and emphasizing decision making and priority setting. A supervised role transition clinical practicum provides an opportunity for students to apply knowledge gained from this course at the end of the semester. A pharmacology application competency is a required component of the course. Laboratory fee required. (4 Lec., 15 Lab.)

NUR 259 Nursing V - A Role Transition (1)
Prerequisites: Minimum grade of "C" in Nursing 250. Concurrent enrollment in Nursing 258 and an approved elective course. This seminar focuses on role transition and current issues affecting the practice of nursing. Topics will include decision making in nursing, principles of management, work organization, processes of communication and change theory. (1 Lec.)

NUTRITION
NTR 101 Principles of Nutrition (3)
This is an introduction to human nutrition. Topics will include classes, sources, and function of nutrients, digestion and absorption, and metabolism with applications to normal and therapeutic nutritional needs. (3 Lec.)

OFFICE TECHNOLOGY
OFC 143 Contemporary Topics In Office Technology (1)
Prerequisites: Demonstrated competence approved by the instructor. This course emphasizes current topics of interest in office technology fields. Realistic solutions to problems relevant to the needs of industry are presented. This course may be repeated for credit with different emphasis up to six hours. (1 Lec.)
OFC 144 Contemporary Topics in Office Technology (2)
(Next year's course prefix/number OFCT 1270)
Prerequisites: Will vary based on topics covered and will be annotated in each semester's class schedule. Current developments in the rapidly changing field of office technology are studied. This course may be repeated for credit when topics vary. (2 Lec.)

OFC 145 Contemporary Topics in Office Technology (3)
(Next year's course prefix/number OFCT 1370)
Prerequisites: Will vary based on topics covered and will be annotated in each semester's class schedule. Current developments in the rapidly changing field of office technology are studied. This course may be repeated for credit when topics vary. (3 Lec.)

OFC 150 Automated Filing Procedures (3)
(Next year's course prefix/number OFCT 1371)
Prerequisite: Office Technology 172 or demonstrated competence approved by the Instructor. This course introduces the basic principles and procedures of records storage and control. Topics include records storage methods; procedures for the operation and control of manual and automated storage systems; rules for indexing; and principles for the selection of records equipment and supplies. (2 Lec., 2 Lab.)

OFC 152 Office Calculating Machines (3)
(Next year's course prefix/number OFCT 1372)
This course focuses on the development of skills in using electronic calculators. Emphasis is on developing the touch system for both speed and accuracy. Business math and business applications are included. Laboratory fee. (3 Lec.)

OFC 156 Office Procedures (3)
(Next year's course prefix/number OFCT 1373)
Prerequisites: Office Technology 172 or demonstrated competence approved by the instructor. This course bridges the gap between the basic skills courses and current office practices. Topics include records management, electronic filing, reprographics, mail, telephone usage, financial transactions, and interpersonal relations. (3 Lec.)

OFC 167 Legal Terminology And Transcription (3)
(Next year's course prefix/number OFCT 1374)
Prerequisites: Office Technology 173 and Office Technology 185 or concurrent enrollment or demonstrated competence approved by the instructor. Legal terms are the focus of this course. Included are the spelling and use of legal terms and Latin words and phrases. Intensive practice is provided in building speed and accuracy in the transcription of legal terms. Laboratory fee. (3 Lec.)

OFC 172 Beginning Typing (3)
(Next year's course prefix/number OFCT 1375)
This course is for students with no previous training in typing. Fundamental techniques in typing are developed. The skills of typing manuscripts, business letters, and tabulations are introduced. Office Technology 172 is equivalent to Office Technology 176, 177, and 178. Laboratory fee. (2 Lec., 3 Lab.)

OFC 173 Intermediate Typing (3)
(Next year's course prefix/number OFCT 1376)
Prerequisites: Office Technology 172 or demonstrated competence approved by the instructor. Typing techniques are developed further. Emphasis is on problem-solving. Increasing speed and accuracy in typing business forms, correspondence, and manuscripts are also covered. Laboratory fee. (2 Lec., 3 Lab.)

OFC 176 Keyboarding (1)
(Next year's course prefix/number OFCT 1171)
This course is for students with no previous training in typing. The course introduces the typewriter parts. Alphabetical keys, numeric keys, and symbol keys are covered. Fundamental techniques are refined, and speed is developed. Laboratory fee. (1 Lec., 1 Lab.)

OFC 179 Office Information Systems Concepts (2)
(Next year's course prefix/number OFCT 1271)
Prerequisite: Office Technology 172. This course introduces information/word processing and describes its effect on traditional office operations. Basic information/word processing principles, concepts, terminology and advantages of word processing systems are introduced. This course does not include the operation of a wordprocessor or microcomputer. (2 Lec.)

OFC 182 Introduction To Word Processing (1)
(Next year's course prefix/number OFCT 1172)
Prerequisites: Office Technology 172 or demonstrated competence approved by the instructor. This course introduces the fundamental techniques required in the operation of word processing software. Basic concepts of electronic storage and retrieval involved in creating, printing, centering, and revising documents are introduced. May be repeated for credit using different software. Laboratory fee. (2 Lab.)

OFC 183 Keyboarding For Speed And Accuracy (1)
(Next year's course prefix/number OFCT 1173)
This course provides intensive practice drills for developing speed and accuracy on one-, three-, and five-minute writings. May be taken concurrently with Intermediate Typing or Advanced Typing Applications. May be repeated for credit. Laboratory fee. (2 Lab.)
OFC 185 Basic Machine Transcription (1)
(Next year's course prefix/number OFCT 1074)
Prerequisites: Office Technology 173 or concurrent enrollment. This course introduces the basic equipment, techniques, and skills required to transcribe recorded business information into mailable documents. Emphasis is placed on grammar, punctuation, and spelling skills required in word processing operations. Automated equipment and audio transcription machines are used. Laboratory fee. (1 Lec., 1 Lab.)

OFC 190 Principles Of Word Processing (4)
(Next year's course prefix/number OFCT 1474)
Prerequisites: Office Technology 173 or concurrent enrollment. This course introduces word processing and describes its effect on traditional office operations. An understanding of basic word processing principles and fundamental techniques required in the operation of word processing and transcription equipment are introduced. Emphasis is placed on grammar, punctuation, and spelling skills required in word processing operations. Office Technology 190 is equivalent to Office Technology 179, 182, and 185. Laboratory fee. (3 Lec., 3 Lab.)

OFC 192 Office Machines I (1)
(Next year's course prefix/number OFCT 1175)
Business mathematical skills needed to operate office calculators are reviewed. Speed and accuracy skills using ten-key touch are developed. Laboratory fee. (1 Lec.)

OFC 231 Business Communications (3)
(Next year's course prefix/number OFCT 2373)
Prerequisites: Office Technology 172 and English 101 or demonstrated competence approved by the instructor. This practical course includes a study of letter forms, the mechanics of writing and the composition of various types of communications. A critical analysis of the appearance and content of representative business correspondence, proposals, and reports is made. (3 Lec.)

OFC 273 Advanced Typing Applications (2)
(Next year's course prefix/number OFCT 2270)
Decision-making and production of all types of business materials under timed conditions are emphasized. A continuation of skill development and a review of typing techniques are also stressed. Accuracy at advanced speeds is demanded. Laboratory fee. (1 Lec., 2 Lab.)

OFC 274 Legal Secretarial Procedures (3)
(Next year's course prefix/number OFCT 2371)
Prerequisite: Completion of, or concurrent enrollment in, Office Technology 167, or demonstrated competence approved by the instructor. This course focuses on procedures of the legal secretary. Topics include reminder and filing systems, telephone usage, dictation and correspondence, the preparation of legal documents, and the court system. Client contacts, use of law library, research techniques, timekeeping, billing, bookkeeping, and ethics are also covered. Ways to obtain a position as a legal secretary are described. (3 Lec.)

OFC 282 Word Processing Applications (1)
(Next year's course prefix/number OFCT 2170)
Prerequisites: Office Technology 182 or demonstrated competence approved by the instructor. This course is designed for students who have a basic knowledge of word processing. Advanced word processing concepts and machine functions are developed. Special emphasis is placed on producing mailable documents. May be repeated for credit using different emphasis. Laboratory fee. (2 Lab.)

OFC 283 Specialized Software I (1)
(Next year's course prefix/number OFCT 2171)
Specialized applications are performed using automated equipment which the student has previously mastered. Applications may include word processing, graphics, math functions, spreadsheets, databases, desk top publishing, and the use of other software packages. Microcomputers will be used in this course. May be repeated for credit using different emphasis/equipment. Laboratory fee. (2 Lab.)

OFC 284 Specialized Software II (1)
(Next year's course prefix/number OFCT 2172)
Specialized applications are performed using automated equipment that the student has previously mastered. More advanced applications may include graphics, math functions, spreadsheets, databases, and desktop publishing. This course may be repeated for credit using different emphasis/equipment. (2 Lab.)

OFC 285 Applied Machine Transcription (1)
(Next year's course prefix/number OFCT 2173)
Prerequisites: Office Technology 173 or 190 and Office Technology 185 or demonstrated competence approved by the instructor. This course is designed for students with basic skills in machine transcription. Emphasis is placed on increasing accuracy and speed in the timed transcription of recorded information. Composing and dictating business communications are introduced. Laboratory fee. (1 Lec., 1 Lab.)
OFC 703 Cooperative Work Experience (3)
(Next year’s course prefix/number OFCT 7371)
Prerequisites: Completion of two courses in the Office Technology program or Instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Students must develop new learning objectives each semester. Students must complete three objectives and work a minimum of 15 hours per week for a total of three credit hours. This seminar consists of orientation, setting/writing job objectives, interpersonal skills, career interest/aptitude test and evaluation, time management, career planning, and exit seminar. (1 Lec., 15 Lab.)

OFC 704 Cooperative Work Experience (4)
(Next year’s course prefix/number OFCT 7471)
Prerequisites: Completion of two courses in the Office Technology program or Instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Students must complete four objectives and work a minimum of 20 hours per week for a total of four credit hours. This seminar consists of orientation, setting/writing job objectives, interpersonal skills, career interest/aptitude test and evaluation, time management, career planning, and exit seminar. (1 Lec., 20 Lab.)

OFC 713 Cooperative Work Experience (3)
(Next year’s course prefix/number OFCT 7372)
Prerequisites: Completion of two courses in the Office Technology program or Instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives each semester. Students must complete three objectives and work a minimum of 15 hours per week for a total of three credit hours. This seminar consists of orientation, setting/writing job objectives, interpersonal skills, career management, Certified Professional Secretary, communication skills, job search, professional image, and exit seminar. (1 Lec., 15 Lab.)

OFC 714 Cooperative Work Experience (4)
(Next year’s course prefix/number OFCT 7472)
Prerequisites: Completion of two courses in the Office Technology program or instructor approval. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Students must develop new learning objectives each semester. Students must complete four objectives and work a minimum of 20 hours per week for a total of four credit hours. This seminar consists of orientation, setting/writing job objectives, stress management, Certified Professional Secretary, communication skills, job search, professional image, and exit seminar. (1 Lec., 20 Lab.)

OFC 803 Cooperative Work Experience (3)
(Next year’s course prefix/number OFCT 8381)
Prerequisites: Completion of previous Office Technology 703 or 704 and 713 or 714. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Students must complete three objectives and work a minimum of 15 hours per week for a total of three credit hours. This seminar consists of orientation, setting/writing job objectives, and independent study of business topics. (1 Lec., 15 Lab.)

OFC 804 Cooperative Work Experience (4)
(Next year’s course prefix/number OFCT 8481)
Prerequisites: Completion of previous Office Technology 703 or 704 and 713 or 714. This course combines productive work experience with academic study. The student, employer and instructor will develop a written competency-based learning plan with varied learning objectives and work experiences. Students must complete three objectives and work a minimum of 15 hours per week for a total of three credit hours. This seminar consists of orientation, setting/writing job objectives, and independent study of business topics. (1 Lec., 20 Lab.)

PATTERN DESIGN

POD 151 Pattern Drafting I (3)
(Next year’s course prefix/number POOD 1370)
The principles of drafting and draping basic patterns for collars, skirts, bodices, and sleeves are presented. Cutting out garments is also included. Laboratory fee. (2 Lec., 4 Lab.)
POD 162 Pattern Drafting II (3)
(Next year's course prefix/number PDDD 1371)
Prerequisite: Pattern Design 151. Drafting and draping basic patterns for separates and dresses are covered. Laboratory fee. (2 Lec., 4 Lab.)

POD 153 Pattern Drafting III (3)
(Next year's course prefix/number PDDD 1372)
Prerequisite: Pattern Design 152. Techniques are developed for drafting and draping patterns for the apparel industry. Laboratory fee. (2 Lec., 4 Lab.)

POD 254 Pattern Drafting IV (3)
(Next year's course prefix/number PDDD 2370)
Prerequisite: Pattern Design 254. Advanced techniques are developed for drafting and draping patterns for misses and junior sizes. The student will be introduced to the computer to draft patterns. Laboratory fee. (2 Lec., 4 Lab.)

POD 255 Pattern Drafting V (3)
(Next year's course prefix/number PDDD 2371)
Prerequisite: Pattern Design 255. Techniques are developed for drafting and draping patterns for junior and misses daytime and dressy dresses. The student will complete patterns on the computer. Laboratory fee. (2 Lec., 4 Lab.)

POD 256 Pattern Drafting VI (3)
(Next year's course prefix/number PDDD 2372)
Prerequisite: Pattern Design 256. Advanced techniques are developed for drafting and draping patterns for misses and junior sportswear. Computer pattern design will be explored. Laboratory fee. (2 Lec., 4 Lab.)

POD 257 Pattern Drafting VII (3)
(Next year's course prefix/number PDDD 2374)
Prerequisite: Pattern Design 257. Techniques are developed for drafting and draping patterns for misses and junior tailored garments. Advanced computer pattern design will be explored. Laboratory fee. (2 Lec., 4 Lab.)

POD 702 Cooperative Work Experience (2)
(Next year's course prefix/number PDDD 7271)
Prerequisite: Completion of one Pattern Design course or instructor approval. This course provides practical work experience with a Dallas manufacturer or related apparel business. Areas of specialization are sample cutting and pattern making - areas of relationship pertaining to fashion. The student, employer and instructor develop a written competency-based learning plan with varied learning objectives and work experience. Seminar sessions each semester consist of resumes, changing jobs, films on fashions, and building self-esteem. (1 Lec., 10 Lab.)

PHILOSOPHY

PHI 101 Introduction To Philosophy (3)
(Common Course Number PHIL 1301)
The fundamental problems in philosophy are surveyed. Methods to deal with the problems are discussed. Ancient and modern views are examined as possible solutions. (3 Lec.)
(Coordinating Board Academic Approval Number 3801015135)

PHI 103 Critical Thinking (3)
(Common Course Number PHIL 1370)
This course is designed to improve students' critical thinking ability. Students will both analyze and construct arguments. Elementary deductive forms, common fallacies, and inductive reasoning are considered. (3 Lec.)
(Coordinating Board Academic Approval Number 3801015235)

PHI 105 Logic (3)
(Common Course Number PHIL 2303)
The principles of logical thinking are analyzed. The methods and tools of logic are applied to real-life situations. Fallacies, definitions, analogies, syllogisms, Venn diagrams, and other topics are discussed. (3 Lec.)
(Coordinating Board Academic Approval Number 3801015235)
PHO 202 Introduction To Social And Political Philosophy (3)
(Common Course Number PHIL 2307)
The relationships of philosophical ideas to the community are presented. Emphasis is on concepts of natural rights, justice, education, freedom, and responsibility. (3 Lec.)
(Coordinating Board Academic Approval Number 3801015535)

PHO 203 Ethics (3)
(Common Course Number PHIL 2306)
The classical and modern theories of the moral nature of the human are surveyed. Alternative views of responsibilities to self and society are posed. Ethical issues and their metaphysical and epistemological bases are vivified. Emphasis is on applying ethical principles in life. (3 Lec.)
(Coordinating Board Academic Approval Number 3801015535)

PHO 207 History Of Ancient Philosophy (3)
(Common Course Number PHIL 2316)
The history of philosophy from pre-Socratic times to the Renaissance is examined. Connections are made between the pre-SOCRATICS, Plato, and Aristotle; Stoicism, Epicureanism, and Scholasticism are considered. (3 Lec.)
(Coordinating Board Academic Approval Number 3801015535)

PHO 208 History Of Modern Philosophy (3)
(Common Course Number PHIL 2317)
The history of philosophy from the Renaissance through the 19th century is examined. Emphasis is on continental rationalism, British empiricism, Kantian metaphysics and epistemology, and the Hegelian system as it relates to 20th century philosophies. The historical relationship between these schools of thought is explored. (3 Lec.)
(Coordinating Board Academic Approval Number 3801015535)

PHOTOGRAPHY

NOTE: These courses will carry a Dallas County Community College prefix of "PHOT" next year; however, some can be identified by a common course number for transfer evaluation purposes. Both are listed in the parenthetical notes in the course descriptions.

PHO 111 Advanced Photography And Photojournalism (3)
(Next year's course prefix/number PHOT 1317; Common Course Number COMM 1317)
Prerequisite: Photography 110 or demonstrated competence approved by the instructor. Techniques learned in Photography 110 are refined. Emphasis is on photographic communication. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 0904015526)

PHO 122 Commercial Photography I (3)
(Next year's course prefix/number PHOT 2356; Common Course Number ARTS 2356)
Prerequisites: Photography 111 and 110 or demonstrated competence approved by the instructor. Commercial or contract photography is studied. Field, studio, and darkroom experiences for various kinds of photography are discussed. Social, portrait, studio, fashion, publicity, landscape, and product photography, as well as portfolio development, are included. The use of natural and artificial lighting is covered. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5006055130)

PHO 123 Commercial Photography II (3)
(Next year's course prefix/number PHOT 2376)
Prerequisites: Photography 110 and 111 or demonstrated competence approved by the instructor. This course is a continuation of Photography 122. Publicity, architectural, interior, and advertising photography are included. The latest equipment, papers, films, and techniques are explored. Exchanges may be made with sample clients, employers, studios, and agencies. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 5006055230)

PHO 124 Introduction to Digital Imaging (3)
(Next year's course prefix/number PHOT 1371)
Prerequisite: Photography 110 or Art 118. This is a broad-based, introductory course which explores the creation and manipulation of images on the computer. The course content will include an introduction to the computer system, an overview of desktop publishing and graphic programs, use of the digital camera, scanning-in photographs, and exploring techniques of photo-manipulation. Laboratory fee. (2 Lec., 4 Lab.)
(Coordinating Board Academic Approval Number 0907015326)

PHYSICAL EDUCATION

PEH 100 Lifetime Sports Activities (1)
(Common Course Number PHED 1100)
Beginning level skills in various lifetime sports are presented as well as rules, etiquette, safety, strategy, offensive and defensive elements, and conditioning activities where appropriate. Physical Education 100 may be repeated for credit when students select different activities. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601055128)
PEH 101 Health For Today (3)
(Common Course Number PHED 1304)
Emphasis is placed on relating course content to lifestyle to foster a better understanding of the major health issues of today. Current issues include, but are not limited to: emotional health, chemical use and abuse, human sexuality, major diseases, physical fitness, nutrition, aging, death and dying. This course does not satisfy the physical education activity course requirement. (3 Lec.)
(Coordinating Board Academic Approval Number 5103015128)

PEH 110 Community Recreation (3)
(Common Course Number PHED 1337)
This course is primarily for students majoring or minoring in health, physical education, or recreation. The principles, organization, and function of recreation in American society are covered. This course does not satisfy the physical education activity course requirement. (3 Lec.)
(Coordinating Board Academic Approval Number 3101015128)

PEH 112 Beginning Softball (1)
(Common Course Number PHED 1104)
Course content includes the basic playing skills of softball at the beginner level, as well as rules, strategies, safety, offensive and defensive elements, and competitive activities. These common elements will be applied to fast pitch, slow pitch, and coed softball. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3101015128)

PEH 114 Beginning Badminton (1)
(Common Course Number PHED 1106)
Course content emphasizes the basic playing skills of badminton at the beginner level, as well as rules, strategies, safety, offensive and defensive elements, and competitive activities. Each of the above elements will be applied to the singles, doubles, and mixed-double games. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 115 Physical Fitness (1)
(Common Course Number PHED 1164)
Students are introduced to health related concepts and activities for the purpose of gaining knowledge and skills necessary to evaluate personal fitness level and to develop a personal lifelong fitness program. Activities include, but are not limited to: aerobics, circuit training, muscular development, flexibility, agility exercises, weight training and body composition. This course may be repeated for credit. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 116 Intramural Athletics (1)
(Common Course Number PHED 1107)
Intramural competition in a variety of activities is offered for men and women. Individual and team competition are offered. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 119 Beginning Tennis (1)
(Common Course Number PHED 1110)
This course emphasizes the acquisition of beginning level skills in the execution of forehand strokes, backhand strokes, the serve, and the volley. Rules, strategies of the singles and doubles games, etiquette, safety, and competitive activities are included. Equipment is furnished. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 121 Folk Dance (1)
(Common Course Number PHED 1112)
Participation is provided in a variety of folk dances from other lands. The study of cultural backgrounds and costumes is included. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 124 Social Dance (1)
(Common Course Number PHED 1115)
This course is for students who have limited experience in dance. Ballroom and social dancing are offered. Included are fundamental steps and rhythms of the fox-trot, waltz, tango, and recent dances. "Country" dancing includes the two-step, cotton-eyed Joe, square dance, and other dances. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 125 Conditioning Exercise (1)
(Common Course Number PHED 1116)
This course focuses on understanding exercise and its effect on the body. Cardiovascular endurance, muscular strength, endurance and flexibility are improved through a variety of conditioning activities. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 127 Beginning Basketball And Volleyball (1)
(Common Course Number PHED 1117)
Basic basketball and volleyball skills are taught. Rules, game strategies and competitive activities are included. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 129 Modern Dance (1)
(Common Course Number PHED 1118)
This beginning course is designed to emphasize basic dance technique, body alignment and placement, floor work, locomotor patterns, and creative movement. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 131 Weight Training And Conditioning (1)
(Common Course Number PHED 1119)
Instruction in weight training and conditioning techniques are stressed. Emphasis is placed on muscular strength and endurance. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)
PEH 132 Self-Defense (1)
(Common Course Number PHED 1120)
Various forms of self-defense are introduced. The history and philosophy of the martial arts are explored. The student should progress from no previous experience in self-defense to an adequate skill level covering basic self-defense situations. Both mental and physical aspects of the arts are stressed. Uniform required. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 133 Jogging for Fitness (1)
(Common Course Number PHED 1121)
Development and improvement of physical fitness through jogging is emphasized. Fitness concepts and jogging skills will be introduced. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 135 Walking For Fitness (1)
(Common Course Number PHED 1123)
This course is designed for the student who desires cardiovascular fitness by means of a low impact method. Maximum physical fitness is achieved by vigorous walking. The heart rate is elevated to the appropriate target zone for peak conditioning. An extensive warm-up and cool down increases joint and muscle flexibility. This course may be repeated for credit. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 137 Aerobic Dance (1)
(Common Course Number PHED 1124)
This course emphasizes the development of cardiovascular endurance by utilizing choreographed routines which may combine basic dance patterns with walking, jogging, jumping, etc. Individual fitness levels are accommodated by the intensity of the workout. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 144 Introduction To Physical Education (3)
(Common Course Number PHED 1301)
This course is for students majoring in physical education and is designed for professional orientation in physical education, health, and recreation. The history, philosophy, and modern trends of physical education are surveyed. Topics include teacher qualifications, vocational opportunities, expected competencies, and skill testing. This course does not satisfy the physical education activity course requirement. (3 Lec.)
(Coordinating Board Academic Approval Number 3105015228)

PEH 147 Sports Officiating I (3)
(Common Course Number PHED 1309)
This course is for students who choose officiating for an avocation and who want to increase their knowledge and appreciation of sports. Sports covered in this course are football, basketball, and other sports as appropriate. Students are expected to officiate intramural games. This course does not satisfy the physical education activity course requirement. (2 Lec., 2 Lab.)
(Coordinating Board Academic Approval Number 1202045128)

PEH 200 Lifetime Sports Activities II (1)
(Common Course Number PHED 1130)
Prerequisite: Associate Physical Education 100 level or demonstrated competence approved by the instructor. Intermediate and intermediate/advanced skills in a variety of lifetime sports are presented. Students participate in a selected sport. Physical Education 200 may be repeated for credit when students select different activities. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 219 Intermediate Tennis (1)
(Common Course Number PHED 1137)
Prerequisite: Demonstrated competence approved by the instructor. Emphasis is placed on refinement of basic skills and specialty shots. Competitive activities in singles, doubles and mixed doubles will be included. Equipment is furnished. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 231 Intermediate Weight Training (1)
(Common Course Number PHED 1141)
Prerequisite: Demonstrated competence approved by the instructor. Skills and instruction in weight training techniques are developed beyond the beginner level. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 232 Intermediate Self-Defense (1)
(Common Course Number PHED 1142)
Prerequisite: Demonstrated competence approved by the instructor. Students will be introduced to intermediate forms of defense and combinations of self defense methods. Emphasis is on practical application of self defense movements. Uniform required. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)

PEH 233 Intermediate Jogging (1)
(Common Course Number PHED 1143)
Prerequisite: Demonstrated competence approved by the instructor. Improvement of physical fitness through jogging is developed beyond the beginner stage. A higher level of fitness is expected. Laboratory fee. (3 Lab.)
(Coordinating Board Academic Approval Number 3601085128)
PEH 236 Walking For Physical Fitness (1)  
(Common Course Number PHED 1144)  
Prerequisite: Demonstrated competence approved by the instructor. Students participate in a low impact exercise walking program beyond the beginning level. Laboratory fee. (3 Lab.)  
(Coordinating Board Academic Approval Number 3601085128)

PEH 237 Intermediate Aerobic Dance (1)  
(Common Course Number PHED 1145)  
Prerequisite: Demonstrated competence approved by the instructor. This course emphasizes the development of cardiovascular endurance through a combination of walking, jogging, jumping, etc. Individual fitness levels are developed beyond the beginner level. (3 Lab.)  
(Coordinating Board Academic Approval Number 3601085128)

PEH 257 Advanced First Aid And Emergency Care (3)  
(Common Course Number PHED 1306)  
This course covers the theory and practice in advanced first aid and emergency care. Various aspects of safety education are included. The course content has been selected from nationally recognized organizations in safety education and first aid. This course does not satisfy the physical education activity course requirement. (3 Lec.)  
(Coordinating Board Academic Approval Number 5103015328)

PHYSICAL SCIENCE

PSC 118 Physical Science (4)  
(Common Course Number PHYS 1415)  
This course is primarily for non-science majors. It is a study of the basic principles and concepts of physics, chemistry, and nuclear science. The three basic sciences are related to the physical world at an introductory level. Laboratory fee. (3 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 4001015139)

PSC 119 Physical Science (4)  
(Common Course Number PHYS 1417)  
This course is for non-science majors. It focuses on the interaction of the earth sciences and the physical world. Geology, astronomy, meteorology, and space science are emphasized. Selected principles and concepts are explored. This course is also offered as Earth Science 117. Laboratory fee. (3 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 4001015139)

PSYCHOLOGY

PSY 101 Introduction To Psychology (3)  
(Common Course Number PSYC 2301)  
Introduction to Psychology surveys major topics in the study of behavior. Factors which determine and affect behavior are examined. Psychological principles are applied to the human experience. (3 Lec.)  
(Coordinating Board Academic Approval Number 4201015140)

PSY 131 Applied Psychology And Human Relations (3)  
(Next year’s course prefix/number PSYC 1370)  
Psychological principles are applied to human relations problems in business and industry. Topics include group dynamics and adjustment factors for employment and advancement. (3 Lec.)  
(Coordinating Board Academic Approval Number 4201015240)

PSY 201 Developmental Psychology (3)  
(Common Course Number PSYC 2314)  
Prerequisite: Psychology 101. This course is a study of human growth, development, and behavior. Emphasis is on psychological changes during life. Processes of life from prenatal beginnings through adulthood and aging are included. (3 Lec.)  
(Coordinating Board Academic Approval Number 4207015140)

PHYSICS

PHY 111 Introductory General Physics (4)  
(Common Course Number PHYS 1401)  
Prerequisite: Two years of high school algebra, including trigonometry, or the equivalent. This course is for pre-dental, biology, premedical, pre-pharmacy, and pre-architecture majors and other students who need a two-semester technical course in physics. Mechanics and heat are studied. Laboratory fee. (3 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 4008015339)

PHY 112 Introductory General Physics (4)  
(Common Course Number PHYS 1402)  
Prerequisite: Physics 111. This course is a continuation of Physics 111. Electricity, magnetism, light, and sound are studied. Laboratory fee. (3 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 4008015339)

PHY 118 Concepts In Physics (4)  
(Common Course Number PHYS 1407)  
This is for non-science majors. It introduces principles of physics and does not require a mathematical background. Emphasis is on modern developments in physics. Topics include acoustics, electricity and magnetism, light and the electromagnetic spectrum, atomic physics, and relativity. Laboratory fee. (3 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 4008015139)
PSY 202 Applied Psychology (3)
(Common Course Number PSYC 2302)
Prerequisite: Psychology 101. Psychological facts and principles are applied to problems and activities of life. Emphasis is on observing, recording, and modifying human behavior. Some off-campus work may be required. (3 Lec.)
(Coordinating Board Academic Approval Number 4201015240)

PSY 205 Psychology Of Personality (3)
(Common Course Number PSYC 2316)
Prerequisite: Psychology 101. This course is an introduction to the study of personality. Topics of personality and adjustment will be studied in the context of various personality theories. Emphasis will be on the application of those topics. (3 Lec.)
(Coordinating Board Academic Approval Number 4201015740)

RADIOGRAPHY TECHNOLOGY

RAD 112 Radiographic Positioning And Osteology (3)
(Next year’s course prefix/number RADS 1370)
Prerequisites: Minimum grade of “C” or better in all previous Radiologic Sciences courses and support courses. This course is designed to give the student an introduction to the study of basic routine positioning and osteology of various human structures. Laboratory fee. (4 Lec., 4 Lab.)

RAD 114 Principles Of Radiographic Exposure/Protection (2)
(Next year’s course prefix/number RADS 1270)
Prerequisites: Minimum grade of “C” or better in all previous Radiologic Sciences and support courses. This course will offer an introduction to radiographic exposure. The course will include basic radiation protection, radiographic quality factors, and conditions influencing technical exposure factors. Laboratory fee. (2 Lec., 2 Lab.)

RAD 118 Applied Physics (2)
(Next year’s course prefix/number RADS 1271)
Prerequisites: Minimum grade of “C” or better in all previous Radiologic Sciences and support courses. This course will cover an analysis of basic principles from applied electrodynamics to the production of x-rays. Laboratory fee. (2 Lec., 2 Lab.)

RAD 119 Clinical Education Orientation (2)
(Next year’s course prefix/number RADS 1272)
This course will introduce the student to an area Radiology Department and provide an overview of the various components of the department, and provide the student continued opportunity to observe, assist and perform tasks specific to the Radiology Department. (8 Lab.)

RAD 209 Radiographic Pathology (2)
(Next year’s course prefix/number RADS 2270)
Prerequisite: Minimum grade of “C” or better in all previous Radiologic Sciences courses. This course provides basic foundation in the pathology of human disease processes. Discussion will include the pathogenesis of disease, symptoms, radiographic diagnostic criteria, and prognosis. (2 Lec.)

RAD 227 Clinical Education I (4)
(Next year’s course prefix/number RADS 2470)
Prerequisite: Minimum grade of “C” or better in all previous Radiologic Sciences courses. Under supervision of faculty and clinical staff, the student will assist, observe, and perform basic diagnostic radiographic procedures in a clinical setting. Students are assigned to an affiliated hospital radiology department. (24 Lab.)

RAD 236 Radiographic Positioning And Osteology II (3)
(Next year’s course prefix/number RADS 2370)
Prerequisite: Minimum grade of “C” or better in all previous Radiologic Sciences courses. This course is a continuation of Radiographic Positioning and Osteology I, with emphasis on the positioning and osteology of the thoracic cage, vertebral column, skull, paranasal sinuses, facial bones, and pelvic girdle. Laboratory fee. (2 Lec., 3 Lab.)

RAD 237 Principles of Radiologic Exposure II (3)
(Next year’s course prefix/number RADS 2371)
Prerequisites: Minimum grade of “C” or better in all previous Radiologic Sciences courses. This course is a continuation of Radiologic Sciences 114 with an emphasis on the study of processor quality assurance and quality control, mathematical relationships related to technical information, and various imaging modalities. Laboratory fee. (2 Lec., 1 Lab.)

RAD 244 Clinical Education II (6)
(Next year’s course prefix/number RADS 2670)
Prerequisite: Minimum grade of “C” or better in all previous Radiologic Sciences courses. This course is a continuation of Radiologic Sciences 227. Students will be assigned to an affiliated hospital radiology department. (32 Lab.)

RAD 247 Routine Special Studies (1)
(Next year’s course prefix/number RADS 2170)
The focus of this course is on those procedures considered advanced to the Diagnostic Radiology Department. An introduction to highly specialized equipment, contrast media, and radiographic procedures will be done. (1 Lec.)

RAD 248 Clinical Education III (Externship) (4)
(Next year’s course prefix/number RADS 2471)
Prerequisite: Minimum grade of “C” or better in all previous Radiologic Sciences courses. This course is a continuation of Radiologic Sciences 244. This externship will also include a Registry review. (40 Lab.)
RAD 251 Radiation Protection And Radiation Biology (2)
(Next year's course prefix/number RADS 2271)
Prerequisites: Minimum of “C” or, better in all previous Radiologic Sciences and support courses. This course is designed to introduce the student to the application of radiation-limiting devices and techniques utilized in radiography to protect the public from excessive radiation during radiographic examinations. Discussion will include patient and personnel protective measures, as well as various methods to detect and measure radiation. This course will also provide an introduction to the theory of radiobiology. Discussion will focus on the interaction between ionizing radiation and living tissue, with emphasis on fundamental radiological principles. Cellular, systemic, and total body response to radiation from diagnostic technology, nuclear medicine technology, and radiation therapy will be presented. (2 lec.)

RAD 122 Computer Applications In Radiology (3)
(Next year's course prefix/number RADS 1373)
Prerequisites: Minimum grade of “C” or better in all previous Radiologic Sciences courses and support courses. This course presents an overview of the history, components and operation of computers related to their use in medical imaging and medical information systems. Specific applications in imaging and current trends in imaging will be presented. (3 Lec.)

(DMS) See DIAGNOSTIC MEDICAL SONOGRAPHY

READING

RD 101 College Reading And Study Skills (3)
(Next year's course prefix/number READ 1370)
Comprehension techniques for reading college texts are emphasized. Also included are vocabulary development, critical reading, and rate flexibility. Study skills addressed include listening, note taking, underlining, concentrating, and memory. (3 Lec.)

(RAD) See RADIOLOGIC SCIENCES for Other RAD courses

RADIOLOGIC SCIENCES

RAD 106 Introduction To Radiologic Sciences II (3)
(Next year's course prefix/number RADS 1371)
Prerequisites: Minimum grade of “C” or better in all previous Radiologic Sciences and support courses and concurrent enrollment and/or previous completion of required semester support courses. This course will focus on basic patient care skills for Diagnostic Radiography/Sonography students. Demonstration of patient care skills will be presented in the laboratory setting. Principles of Medical Imaging, a continuation of Medical Terminology, and visits to affiliated Radiology Departments will be included. (2 Lec., 2 Lab.)

RESPIRATORY CARE

RES 155 Technology I (4)
(Next year's course prefix/number RESP 1370)
Prerequisites: Admission to the Respiratory Care Program and minimum grade of “C” in required prerequisite courses. Basic respiratory care skills are described, demonstrated, then practiced in the laboratory and hospital setting. Equipment function, maintenance and patient response to therapy are discussed. Therapeutic procedures are generally limited to the noncritical patient. Laboratory fee. (3 Lec., 6 Lab.)

RES 159 Structure And Function Of The Cardiopulmonary System (3)
(Next year's course prefix/number RESP 1370)
Prerequisites: Admission to the Respiratory Care Program and minimum grade of “C” in required prerequisite courses. This course focuses on the normal anatomy and physiology of the cardiopulmonary system. (3 Lec.)

RES 166 Pharmacology I (3)
(Next year's course prefix/number RESP 1371)
Prerequisites: Minimum grade of “C” in all previous Respiratory Care courses and required support courses. This course introduces the student to the fundamental principles and practices of Respiratory Care pharmacology. Identification, classification, dosage calculation, and principle effects and side effects of cardiopulmonary drugs are discussed. (3 Lec.)
RES 171 Technology II (6)
(Next year's course prefix/number RESP 1670)
Prerequisites: Minimum grade of "C" in all previous Respiratory Care courses and required support courses. This course is a continuation of Respiratory Care 155. Specific details of the design and function of respiratory therapy equipment are discussed. Procedures will be demonstrated and practiced in the laboratory and clinical setting. Laboratory fee. (3 Lec., 20 Lab.)

RES 172 Basic Respiratory Pathology (4)
(Next year's course prefix/number RESP 1471)
Prerequisites: Minimum grade of "C" in all previous Respiratory Care courses and required support courses. This course provides an in-depth study of disease states related to cardiopulmonary function and the application and interpretation of related diagnostic, evaluation, and therapeutic procedures. (4 Lec.)

RES 176 Technology III (6)
(Next year's course prefix/number RESP 1671)
Prerequisites: Minimum grade of "C" in all previous Respiratory Care courses and required support courses. This course is a continuation of Respiratory Care 171. The course will focus on management of critical patient procedures. Equipment and procedures utilized in long term mechanical ventilatory support are emphasized. Topics such as patient assessment and complications of continuous mechanical ventilation are discussed. Laboratory fee. (4 Lec., 25 Lab.)

RES 275 Advanced Pathology/Pharmacology (3)
(Next year's course prefix/number RESP 2370)
Prerequisites: Minimum grade of "C" in all previous Respiratory Care courses and required support courses; concurrent enrollment in Respiratory Care 278 and Biology 216. This course provides advanced study in assessment and monitoring of patients with cardiopulmonary diseases. The student is introduced to pharmacologic agents not administered by inhalational methods which may affect the cardiopulmonary system. (3 Lec.)

RES 278 Technology IV (6)
(Next year's course prefix/number RESP 2670)
Prerequisites: Minimum grade of "C" in all previous Respiratory Care courses and required support courses. This course provides an in-depth study of fetal lung development and the cardiopulmonary disorders associated with pediatric and neonatal patients. Laboratory procedures introduce mechanical ventilators used for the pediatric and neonatal patient. In clinical activities, students will practice management of mechanically ventilated adult patients in the critical care setting. Laboratory fee. (3 Lec., 19 Lab.)

RES 280 Technology V (5)
(Next year's course prefix/number RESP 2570)
Prerequisites: Minimum grade of "C" in all previous Respiratory Care courses and required support courses. This course focuses on the assessment and rehabilitation of patients with diseases or conditions that affect the cardiopulmonary system. Problem-solving skills for clinical situations are emphasized in the laboratory. Clinical practice activities will include experiences in general and intensive adult respiratory care, pediatric and neonatal respiratory care, and rehabilitation care of patients with diseases or conditions that affect the cardiopulmonary system. Laboratory fee. (2 Lec.)

RES 282 Advanced Pulmonary Function (2)
(Next year's course prefix/number RESP 2270)
Prerequisites: Minimum grade of "C" in all previous Respiratory Care courses and required support courses. This course provides instruction in the theory and background of advanced procedures related to the diagnosis and management of diseases and conditions which affect the cardiopulmonary system. Information concerning the latest technological advances in pulmonary diagnostic equipment is presented. (2 Lec.)

SOCIOLOGY

SOC 101 Introduction to Sociology (3)
(Common Course Number SOCI 1301)
This course is a sociological study of social behavior and social structures, emphasizing the importance of a knowledge and appreciation of the multicultural and multilethnic dimensions of society. Topics include cultural elements such as values, norms, beliefs, language, and roles, as well as group processes, social conflict and social change. (3 Lec.)
(Coordinating Board Academic Approval Number 4511015142)

SOC 102 Social Problems (3)
(Common Course Number SOCI 1306)
This course is a sociological study of social problems which typically include: crime, poverty, minorities, deviance, population, and health care. Specific topics may vary from semester to semester to address contemporary concerns. (3 Lec.)
(Coordinating Board Academic Approval Number 4511015242)

SOC 103 Human Sexuality (3)
(Common Course Number SOCI 2306)
Students may register for either Psychology 103 or Sociology 103 but receive credit for only one of the two. Topics include physiological, psychological, and sociological aspects of human sexuality. (3 Lec.)
(Coordinating Board Academic Approval Number 4201015342)
SOC 203 Marriage And Family (3)
(Common Course Number SOCI 2301)
Prerequisite: Sociology 101 recommended. Courtship patterns and marriage are analyzed. Family forms, relationships, and functions are included. Sociocultural differences in family behavior are also included. (3 Lec.)
(Coordinating Board Academic Approval Number 4511015442)

SOC 204 American Minorities (3)
(Common Course Number SOCI 2319)
Prerequisite: Sociology 101 or six hours of U.S. history recommended. Students may register for either History 204 or Sociology 204 but may receive credit for only one. The principal minority groups in American society are the focus of this course. The sociological significance and historic contributions of the groups are presented. Emphasis is on current problems of intergroup relations, social movements, and related social changes. (3 Lec.)
(Coordinating Board Academic Approval Number 4511015342)

SPANISH

SPA 101 Beginning Spanish (4)
(Common Course Number SPAN 1411)
The essentials of grammar and easy idiomatic prose are studied. Emphasis is on pronunciation, comprehension, and oral expression. Laboratory fee. (3 Lec., 2 Lab.)
(Coordinating Board Academic Approval Number 1609055131)

SPA 102 Beginning Spanish (4)
(Common Course Number SPAN 1412)
Prerequisite: Spanish 101 or the equivalent or demonstrated competence approved by the instructor. This course is a continuation of Spanish 101. Emphasis is on idiomatic language and complicated syntax. Laboratory fee. (3 Lec., 2 Lab.)
(Coordinating Board Academic Approval Number 1609055131)

SPA 201 Intermediate Spanish (3)
(Common Course Number SPAN 2311)
Prerequisite: Spanish 102 or the equivalent or demonstrated competence approved by the instructor. Reading, composition, and intense oral practice are covered. Grammar is reviewed. (3 Lec.)
(Coordinating Board Academic Approval Number 1609055231)

SPA 202 Intermediate Spanish (3)
(Common Course Number SPAN 2312)
Prerequisite: Spanish 201 or the equivalent or demonstrated competence approved by the instructor. This course is a continuation of Spanish 201. Contemporary literature and composition are studied. Grammar is reviewed and expanded. (3 Lec.)
(Coordinating Board Academic Approval Number 1609055231)

SPEECH COMMUNICATION

SC 101 Introduction To Speech Communication (3)
(Common Course Number SPCH 1311)
Theory and practice of speech communication behavior in one-to-one, small group, and public communication situations are introduced. Students learn more about themselves, improve skills in communicating with others, and make formal oral presentations. This course requires college-level skills in reading and writing. (3 Lec.)
(Coordinating Board Academic Approval Number 2310015135)

SC 109 Voice And Articulation (3)
(Common Course Number SPCH 1342)
Students may register for either Speech Communication 109 or Theatre 109 but may receive credit for only one of the two. The mechanics of speech are studied. Emphasis is on improving voice and pronunciation. (3 Lec.)
(Coordinating Board Academic Approval Number 2310015835)

SC 110 Speech Communication Workshop (1)
(Common Course Number SPCH 1145)
This laboratory course offers students a wide variety of applied speech communication experiences. This course may be repeated four times for credit. (2 Lab.)
(Coordinating Board Academic Approval Number 2310016035)

SURGICAL TECHNOLOGY

SGT 145 Medical Terminology (2)
(Next year's course prefix/number SOTC 1270)
Prerequisite: Successful completion, "C" or better, in English 101, Speech Communication 101, and Biology 123 or 120. Admission to the Surgical Technology Program or by permission of the Surgical Technology Coordinator. The origin and structure of medical terms are studied. Emphasis is on building a medical vocabulary. (2 Lec.)

SGT 146 Surgical Pharmacology (2)
(Next year's course prefix/number SOTC 1271)
Prerequisites: Successful completion, "C" or better, in English 101, Speech Communication 101, and Biology 123 or 120. Admission to the Surgical Technology program or by permission of the Surgical Technology Coordinator. This course is designed to introduce students to the principles and practices of pharmacology as applied in the surgical setting. Topics include weights and measures, dosages and solutions, common routes of administration, and drug classifications. Precautions and safe practices when handling drugs specific to the operating room are discussed. (2 Lec.)
SGT 147 Surgical Techniques (8)
(Next year's course prefix/number SGTC 1870)
Prerequisites: Acceptance to the Surgical Technology Program and successful completion, "C" or better, of English 101, Speech Communication 101, and Biology 123 or 120. Concurrent enrollment in, or previous successful completion, "C" or better, of Surgical Technology 145, Surgical Technology 146, and Biology 121 if Biology 120 was taken previously. This course is an introduction to the operating room and its environment. Basic principles of surgical asepsis; preparation and care of surgical instruments, supplies and equipment; and care and safety of the patient in the operating room are studied. Ethical and legal implications are discussed. Student participation in the clinical setting is incorporated. Laboratory fee. (6 Lec., 10 Lab.)

SGT 151 Surgical Procedures (8)
(Next year's course prefix/number SGTC 1871)
Prerequisites: Successful completion, "C" or better, of all prerequisite and previous semester support and Surgical Technology course work. During this course the student expands the basic principles from Surgical Technology 147 to include specific patient preparation, medications, instrumentation and complications related to selected surgical procedures. Student participation in the clinical setting is incorporated. Laboratory fee. (4 Lec., 20 Lab.)

SGT 158 Clinical Procedures (6)
(Next year's course prefix/number SGTC 1870)
Prerequisites: Successful completion, "C" or better, of all prerequisite and previous semester support and Surgical Technology course work. Concurrent enrollment in Surgical Technology 159. The student will gain further expertise in providing patient care in the surgical setting. An effective level of practice and knowledge must be demonstrated by the student in selected surgical procedures. (35 Lab.)

SGT 159 Seminar (1)
(Next year's course prefix/number SGTC 1170)
Prerequisites: Successful completion, "C" or better, of all prerequisite and previous semester support and Surgical Technology course work. Concurrent enrollment in Surgical Technology 158. This course focuses on issues and special situations a student may face as a surgical technologist. Role transition from student to employee is incorporated. (2 Lec.)

SGT 160 Surgical Procedures For Registered Nurses (8)
(Next year's course prefix/number SGTC 1872)
Prerequisites: Minimum grade of "C" in Surgical Technology 145 and 147 and current licensure by the Texas State Board of Nurse Examiners. In this course the student expands the principles presented in Surgical Technology 147. Included are specific patient preparation, roles, and legal and ethical responsibilities of operating room nursing. Roles of the registered nurse in pre-operative and postoperative visitation and in complications of surgery are presented. (4 Lec., 20 Lab.)

THEATRE

THE 101 Introduction To The Theatre (3)
(Common Course Number DRAM 1310)
The various aspects of theatre are surveyed. Topics include plays, playwrights, directing, acting, theatres, artists, and technicians. (3 Lec.)
(Coordinating Board Academic Approval Number 5005015130)

THE 102 Contemporary Theatre (3)
(Next year's course prefix/number DRAM 1370)
This course is a study of the modern theatre. The historical background and traditions of each style are included. Emphasis is on understanding the social, culture, and aesthetic significance of each style. A number of modern plays are read and selected video tapes are viewed. (3 Lec.)
(Coordinating Board Academic Approval Number 5005055130)

THE 103 Stagecraft I (3)
(Common Course Number DRAM 1330)
The technical aspects of play production are studied. Topics include shop procedures, the planning and fabrication of scenic elements, and backstage operations. (2 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 5005025130)

THE 104 Stagecraft II (3)
(Common Course Number DRAM 2331)
Prerequisite: Theatre 103 or demonstrated competence approved by the instructor. Emphasis is placed on the design process and individual projects. (2 Lec., 3 Lab.)
(Coordinating Board Academic Approval Number 5005025130)

THE 105 Make-Up For The Stage (3)
(Common Course Number DRAM 1341)
The craft of make-up is explored. Both theory and practice are included. Laboratory fee. (3 Lec.)
(Coordinating Board Academic Approval Number 5005025230)
THE 106 Acting I (3)  
(Common Course Number DRAM 1351)  
The theory of acting and various exercises are presented.  
Body control, voice, interpretation, characterization, and  
stage movement are included. Both individual and group  
activities are used. Specific roles are analyzed and studied. (2 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 5005035130)

THE 107 Acting II (3)  
(Common Course Number DRAM 1352)  
Prerequisite: Theatre 106 or demonstrated competence  
approved by the instructor. This course is a continuation  
of Theatre 106. Emphasis is on characterization and en-  
semble acting. (2 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 5005035130)

THE 108 Voice And Articulation (3)  
(Common Course Number DRAM 2338)  
Students may register for either Speech 109 or Theatre  
109 but may receive credit for only one of the two. Em-  
phasis is on improving voice and pronunciation. (3 Lec.)  
(Coordinating Board Academic Approval Number 2310015835)

THE 112 Beginning Dance Technique In  
Theatre (3)  
(Common Course Number DANC 1345)  
Basic movements of the dance are explored. Emphasis is  
on swing movements, circular motion, fall and recovery,  
contraction and release, and contrast of literal and ab-  
stract movements. Body balance, manipulation of trunk  
and limbs, and the rhythmic flow of physical energy are  
developed. (2 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 5003015230)

THE 114 Rehearsal And Performance I (1)  
(Common Course Number DRAM 1120)  
Participation in the class may include any phase of re-  
hearsal and performance of the current theatrical  
presentation. This course may be repeated for credit. (3 Lab.)  
(Coordinating Board Academic Approval Number 5005015230)

THE 205 Scene Study I (3)  
(Next year's course prefix/number DRAM 2372)  
Prerequisites: Theatre 106 and 107. Emphasis is on the  
study, rehearsal and performance of selected scenes of  
various periods and styles. (2 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 5005035130)

THE 207 Scene Study II (3)  
(Common Course Number DRAM 2352)  
Prerequisite: Theatre 205. This course is a continuation  
of Theatre 205. Emphasis is on individual needs of the  
performer and the various styles of production. (2 Lec.,  
3 Lab.)  
(Coordinating Board Academic Approval Number 5005035130)

THE 209 Lighting Design (3)  
(Next year's course prefix/number DRAM 2374)  
The design and techniques of lighting are covered. Topics  
include instrumentation, electricity, control and practical  
experience. (2 Lec., 3 Lab.)  
(Coordinating Board Academic Approval Number 5005025130)

THE 210 Rehearsal And Performance II (2)  
(Common Course Number DRAM 1221)  
Participation in the class may include any phase of re-  
hearsal and performance of the current theatrical  
presentation. This course may be repeated for credit. (6 Lab.)  
(Coordinating Board Academic Approval Number 5005015230)

VOCATIONAL NURSING

VN 144 Health Maintenance Through The  
Life Cycle (3)  
(Next year's course prefix/number VNUR 1370)  
Prerequisite: Admission to the Vocational Nursing Pro-  
gram. This course presents the concepts necessary for  
general health maintenance including normal growth and  
development; geriatrics; normal nutrition for all ages; men-  
tal health principles; and the prevention and control of  
disease. (3 Lec.)

VN 145 Nursing Process I (3)  
(Next year's course prefix/number VNUR 1371)  
Prerequisite: Admission to the Vocational Nursing Pro-  
gram. Nursing process provides the basic concepts that  
serve as the foundation for other nursing courses. It  
includes an introduction to the health care delivery system,  
nursing as a profession, the nursing process, and commu-  
ication techniques. The course focuses on meeting the  
basic physical and psychological needs of patients. A  
Calculation-Conversion Proficiency Test is a required  
component of this course. (3 Lec.)

VN 152 Nursing Practice (6)  
(Next year's course prefix/number VNUR 1679)  
Prerequisite: Admission to the Vocational Nursing Pro-  
gram. This course emphasizes the scientific principles  
and nursing competency in nursing skills in simulated  
laboratory situations that prepare the student to meet the  
basic needs of patients in clinical situations. Selected  
clinical experiences enable the student to assess, plan,  
implement, and evaluate nursing care. Laboratory fee.  
(24 Lab.)
VN 153 Maternal Child Health (8)
(Next year’s course prefix/number VNUR 1870)
Prerequisites: Completion of Vocational Nursing 144, 145, 152 and all support courses with a minimum grade of “C” or better. This course focuses on the theory, principles and nursing skills related to meeting the basic needs of maternity, newborn, and pediatric patients. Laboratory fee. (7 Lec., 3 Lab.)

VN 158 Nursing Process II (10)
(Next year’s course prefix/number VNUR 1070)
Prerequisites: Completion of Semester I Vocational Nursing courses, support courses, and also Maternal Child Health for spring admission curriculum plan. This course focuses on the nursing care of patients with various medical, surgical or emotional problems. Drug and diet therapy and clinical skills used in caring for acutely or chronically ill patients are included. Laboratory fee. (8 Lec., 3 Lab.)

VN 157 Nursing Practice II (7)
(Next year’s course prefix/number VNUR 1770)
Prerequisites: Completion of Semester I Vocational Nursing courses, support courses, and also Maternal Child Health for spring admission curriculum plan. Must be concurrently enrolled in Vocational Nursing 156. This course provides the opportunity for students to use the nursing process and clinical skills to meet the needs of patients experiencing medical, surgical or emotional problems. Supervised practice in the administration of medications is included. (24 Lab.)

VN 158 Maternal Child Health Clinical (4)
(Next year’s course prefix/number VNUR 1470)
Prerequisites: Completion of Vocational Nursing 144, 145, 152 and all support courses with a minimum grade of “C” or better. Concurrent enrollment or completion of Vocational Nursing 153. This course provides clinical experiences focusing on normal prenatal, labor and delivery, postpartum, and newborn nursing care situations. Students also have the opportunity to apply the nursing process to the care of pediatric patients with acute or chronic problems. Laboratory fee. (32 Lab., 6 weeks)
The following DCCCD courses have been assigned Common Course Numbers (CCN #). The Common Course Numbering scheme is an attempt by a number of Texas colleges and universities to identify similar courses by utilizing the same number in order to facilitate the transfer of courses between and among Institutions. A course, however, may transfer even if it does not have a Common Course Number.
