DCCCD History and Philosophy

The Dallas County Community College District's four innovative educational communities are dedicated to a common goal: serving in the best possible way the complex, varied and ever-changing educational requirements of a growing metropolitan community.

Each of the district's four colleges — Eastfield, El Centro, Mountain View and Richland — is therefore committed to providing every person in Dallas County a quality educational experience, whether the person is a youth setting forth toward a degree in medicine, or an adult wanting to enrich his leisure hours with an interesting hobby.

There is a place for a student who wishes to spend a year or two preparing himself to enter a trade or profession, and a place for an employed person who wants to further his training in his occupational field.

There is a place for the very bright high school student who is ready to undertake college-level training in advance of his graduation from secondary school, and a place for the high school dropout who has changed his mind about the necessity of education in today's complex, demanding society.

There is, simply stated, a place for everyone.

Of primary importance to the district's goal is making certain that a student's educational program is tailored to his needs, abilities and ambitions. The philosophy of the district is to create an educational program for an individual, rather than to try to squeeze or stretch an individual to fit an "educational mold."

Every student is offered competent, intensive counseling to help discover his goals and special abilities. Continued guidance is available to update a student's educational program if his goals change during his college experience. This emphasis on counseling, rare for some institutions, is routine procedure at all district colleges.

The district officially became the Dallas County Community College District in 1972, when its philosophy, function and breadth outgrew the traditional "junior" college label. The new name more closely states the district's mission — to meet the educational needs of the entire metropolitan community.

How do the district's colleges serve the educational requirements of such a complex family. The answer is found in educational offerings in four broad categories:

— For the student seeking the first two years of work toward the goal of a bachelor's or higher degree, the colleges offer a wide range of courses which are transferable to senior colleges and universities.

— For the student wishing to enter an occupation at a level above the bottom rung of the ladder, the colleges offer one-year and two-year programs of credit courses covering specific technical-occupational fields.

— For the employed person wishing to improve his knowledge of his field, or train for a move into a new occupational field . . . the colleges offer a broad range of credit and non-credit adult education courses.

— For the person who simply wants to make life a little more interesting there are community service programs offering a myriad of courses on cultural, civic and avocational topics.
Dallas County voters created the district in May 1965 and approved a $41.5 million bond issue.

The following year the district's first college, El Centro, opened its doors for the Fall Semester in the heart of downtown Dallas. In August 1970, Eastfield College and Mountain View College enrolled their first students and the multi-campus district envisioned by the district planners became a reality. Richland College became the district's fourth college in the fall of 1972.

In September of 1972, the voters of Dallas County approved the sale of an additional $85 million in bonds, thereby paving the way for the expansion of existing campuses as needed and the planning and construction of three more colleges. The first priority in the expansion program was the remodeling and enlarging of El Centro College.

The addition of the new campuses — Cedar Valley College (1977), North Lake College (1977), and Brookhaven College (1978) — will round out the seven-campus plan of the Dallas County Community College District.

**Philosophy of Mountain View College**

Mountain View College is further dedicated to enhancing the worth and dignity of every individual who interacts with the college. Dedication to individualizing instruction, recognizing individual differences and capabilities, and providing counseling and guidance service to every student shall be the primary objectives of the faculty and administrators. This college has established and intends to maintain an instructional faculty who are managers of class activities rather than disseminators of facts. The college adheres to the concept that teaching is a process of involvement and direction.

Mountain View College, then, commits itself to an ever-changing society and dedicates its fullest efforts to providing a stimulating, practical, varying curriculum and environment for every person within its reach.

**League for Innovation**

Mountain View College of the Dallas County Community College District is a member of the League for Innovation in the Community College. Sixteen outstanding community college districts throughout the nation compose the League membership. Innovative experimentation and the continuing development of the community college movement in America are the purposes and goals of the League. Membership commits the Dallas County Community College District to research, evaluation and cooperation with other community college districts in providing the best possible educational program and fullest utilization of its resources to serve the needs of its community.

**Accreditation**

Mountain View College was granted full accreditation by the Southern Association of Colleges and Schools in December, 1972. Mountain View College and the other colleges of the Dallas County Community College District are members of the American Association of Community Junior Colleges and are recognized and sanctioned by the Coordinating Board of The Texas College and University system. The academic transfer curriculum is coordinated with senior colleges and universities to facilitate the transfer of credits to these institutions.
Evening and Weekend College

In a dynamic, growing community such as that in which Mountain View College is located, people are involved. Their involvement often creates a need for gaining and developing knowledge and skills. Because of their involvement it is often impossible for them to attend college during daytime hours. The evening and weekend program was created to meet the needs of students who work or have other obligations during the day. The evening and weekend program offers these students the same broad spectrum of educational programs that is available to full-time day students.

It may be that the student desires to renew old skills or to acquire new ones. In the evening and weekend program there are courses to aid in building occupational, avocational, aesthetic, economic, civic, social and domestic skills. There are courses from all disciplines, both credit and non-credit. College transfer and career programs of two years or less are available. The direction a student takes will be determined by his personal goals. As a comprehensive community college Mountain View offers the student the option of electing the program best suited for him and of changing the direction of his studies if his goals change. In this manner students, with the help of qualified counselors, can draw a personalized blueprint for themselves in higher education. The course load which is attempted should be realistically determined by the amount of time available for doing quality work.

The evening and weekend program offers high quality instruction, excellence of facilities, and a variety of student services as provided in the areas of counseling, health, bookstore, food, and recreation. Instructors in the evening and weekend program are selected from Mountain View’s full-time staff and from among outstanding Dallas area educators and other professional specialists who are interested in teaching.

To enroll in the evening and weekend program at Mountain View College, call or write the Director of Admissions for an application for admission.

The Community Service Division

The Community Service Division provides opportunities for continuing education, cultural and community enrichment, personal entertainment and recreation. Individuals may explore new fields of study, increase proficiency in a profession, develop potential or enrich their life style through participation in the Division’s activities.

The program consists of courses, seminars, lectures, institutes, workshops, demonstrations and performances designed to fulfill community needs and requests. These activities are frequently referred to as continuing education, adult education, or non-credit courses, and they do not carry the traditional academic college credit designation.

No entrance requirements or previous educational experience is needed. Admission is on a first-come/first-served basis, and registration consists
of filling out a form and paying the fee. Continuing Education Unit (CEU) transcripts of Community Service courses successfully completed are available.

The Community Service Division offers programs for all interests and ages through the year in a variety of locations and times under the following areas:

- Career and Skills Training
- Citizen Involvement
- Consumer Education
- Personal and Cultural Development
- Children and Youth Activities
- Special Interest

Community Service instructors are persons from the community who possess high standards of professional preparation and experience in their career fields. They have an enthusiasm for working with people, a profound sensitivity to human needs, and a deep commitment to share their knowledge and experience with others.

Inquiries and suggestions are welcome at the Community Service Office, room E-112, or phone 746-4112.
Admissions and Registration

General Admission Policy

Mountain View College, of the Dallas County Community College District, is an open-door comprehensive college dedicated to the task of developing individuals for productive citizenship in a democratic society.

An open-door admission policy is maintained which insures that all persons who can profit from post-secondary education shall receive an opportunity to enroll.

Mountain View College is dedicated to maintaining and initiating educational projects and activities that serve the needs of a diverse "open-door" student population.

Application Information

Applications will be accepted any time prior to registration. Since registration priorities are assigned according to the date an applicant fulfills all admission requirements, applicants should plan to submit applications at least three weeks before registration in order to insure adequate counseling and schedule planning.

Applications received after this date will receive a low priority. All applicants are limited in their selection of classes to those available when they register.

Admission Requirements

1. Beginning Freshmen:
   Students enrolling in college for the first time may apply if they are:
   a. A graduate from an accredited high school.
   b. A graduate from an unaccredited high school who is eighteen years of age.
   c. A non-high school graduate who is eighteen years of age and whose high school class has graduated.
   d. A high school student recommended by the high school principal. In this case, a limited number of high school seniors may be concurrently enrolled for special study, but not for more than six hours per semester, providing the student is making normal progress toward high school graduation.

2. Transfer Students:
   a. College transfer applicants will be considered for admission on the basis of their previous college record. Academic standing for transfer applicants will be determined by the Office of Admissions based on the standards established by Mountain View College.
   b. Students on scholastic or disciplinary suspension from another institution must petition via the Admissions Office to the Committee on Admission and Retention for special approval.

3. Former Students:
   Former Dallas County Community College District students will be required to submit an application for readmission to any one of the District colleges. A student will not be readmitted
to any college within the District if he or she has unsettled financial debts at any of the District colleges.

4. Non-Credit Students:

Students seeking enrollment for non-credit courses are directed to contact the Division of Community Service Programs.

Exceptions to these requirements will be referred to the Committee on Admission and Retention.

Admission Procedures

The following material must be submitted to the Office of Admissions before a student’s entrance file is considered complete:

- an application for admission
- an official transcript from the last school (high school or college) attended. Transcripts are required by Mountain View College’s accrediting agency and are important for program advising in the Counseling Center. Students who are seeking a certificate or associate degree are required to submit transcripts of all previous college work prior to the end of the first semester.
- written proof from a medical office of
  - a negative tuberculin skin test or chest X-ray
  - a polio immunization if the applicant is under 19 years of age
  - a diphtheria/tetanus injection within the last ten years

This medical proof is required by state law (Senate Bill 27).

Advisement Procedures

When students receive their letter of acceptance, they will be invited to an advisement session. This session may be conducted individually or as a group with a counselor; however, new students are expected to attend a New Student Orientation for advisement. The session is designed to help students to make schedule choices for themselves based upon assessment in courses or programs at Mountain View College. The session requires one-half day and is designed to meet the needs of students who are enrolling in college for the first time and who expect to attend full-time.

A variety of diagnostic instruments may be used for assessment and placement in courses or programs; however, none are required for admission. These instruments are used as counseling tools for more reliable placement. For those students who wish to send their ACT scores for placement use, the ACT code for Mountain View College is 4089.

Developmental Studies are provided for those students who may require developmental assistance in reading, writing, or math. Test data, transcripts of previous work, and counseling assessment may be used to determine placement in this program.

Name, Address, and Social Security Number

Students are reminded to inform the Office of the Registrar of any changes which occur in their name or address. All applicants are required to furnish a social security number which is used as the student’s identification number and to insure accuracy of student records.
Concurrent Enrollment
The colleges in the Dallas County Community College District have no geographical boundary restrictions for enrollment at any of the campuses. Admission requirements for all of the colleges are established by the Dallas County Community College District Board of Trustees and are the same for all District colleges. Students may enroll in more than one college at the same time.

Transfer of Credits
Transfer credit will be given for all passing work completed at accredited colleges and universities. The Admissions Office will be responsible for the evaluation of all transfer credit.

Students who are admitted with a grade point deficiency will not be graduated from Mountain View College until this deficiency has been cleared.

Credits earned in military service-connected schools or through the U.S. Armed Forces Institute will be reviewed by the Director of Admissions and credit granted if applicable.

International Students
Mountain View College is authorized under Federal Law to enroll non-immigrant alien students. However, under present conditions, foreign students are not admitted until all admission requirements are complete. A personal interview with the foreign student advisor and special permission from the President of the College are required before admission can be finalized. In addition to admission requirements for all other students, international students must demonstrate proficiency in English, provide evidence of financial stability, and meet with the foreign student advisor for general counseling concerning his potential for profiting from the educational programs of Mountain View College. Admission procedures for international students are regulated by the President of the College and may require his permission for enrollment. Under present conditions, international students are not admitted until all admission requirements are complete.

Servicemen's Opportunity College
Mountain View College, along with the other colleges of the Dallas County Community College District and in cooperation with other community colleges in the United States, participates in the Servicemen's Opportunity College. This program enables the institution to plan with the serviceman an educational experience regardless of his mobility pattern. For further information, contact the Office of Financial Aid and Placement.

Student Diversity
Mountain View College encourages the attendance of mature students of all ages from all ethnic backgrounds and fully complies with the provisions of Title VI of the Civil Rights Act of 1964 (P.L. 88-352).

Family Educational Rights and Privacy Act of 1974
In compliance with the Family Educational Rights and Privacy Act of 1974, Federal Law 93-380, information classified as "directory information" may be released to the general public without the written consent of the student.

Directory information is defined as:
1. Student name
2. Student address
3. Telephone listing
4. Dates of attendance
5. Most recent previous educational institution attended
6. Other information including major field of study and degrees and awards received

A student may request that all or any part of the directory information be withheld from the public by making written request to the Registrar's Office during the first twelve class days of a fall or spring semester, or the first four class days of a summer term. If no request is filed, information will be released upon inquiry. No telephone inquiries will be acknowledged; all requests must be made in person.

Directory information is the only part of a student record that may be released without written consent from the student. No transcript or inquiries concerning an academic record will be released under any circumstances without WRITTEN CONSENT from the student specifying the information to be given out.
Tuition and Fees

Tuition is charged on a sliding scale according to the number of credit hours in which a student is enrolled and his place of legal residence. Tuition for credit courses will be charged according to the following schedule:

The Dallas County Community College District Board of Trustees defines an Out-of-District student as: (1) a student eighteen (18) years of age or older who resides in a Texas County other than Dallas County; (2) a student who is less than eighteen (18) years of age whose parents do not live in Dallas County.

A non-resident student is defined to be a student of less than eighteen (18) years of age living away from his family and whose family resides in another state, or whose family has not resided in Texas for twelve (12) months immediately preceding the date of registration; or a student of eighteen (18) years of age who resides out of the state or who has not been a resident of the state twelve (12) months.
Special Fees and Charges

Laboratory fee — (a semester, per lab) $2.00 to $8.00
Music Fees — *(private lessons a semester)
$35.00 for 1 hour per week
(maximum charge for one course)
$20 for ½-hour per week

Physical Education —
Bowling Fee —
Pilot Technology — Flight Fees

Costs per flight and/or simulator hour vary with level of instruction. Students should contact the director of the Pilot Technology Program for exact cost figures

Credit by Examination —

*Available only to music students enrolled for 12 units or more.

Audit Fee

The charge for auditing a course is at the same rate as taking a course for credit regardless of the number of hours enrolled, except that a student service fee is not charged.

Additional Fees

Additional fees may be assessed as new programs are developed with special laboratory costs. These fees will always be kept to a basic practical minimum for the program involved. A graduation fee is not assessed students receiving a degree; however, each student will pay for cap and gown rental.

Change of Schedule

Extreme care should be exercised in the Registration Process. A student should schedule only those courses for the days and hours he knowingly is able to attend. As a general policy, class changes are only authorized for students who have been incorrectly placed.

Any change action processed is not completed until it has been processed by the Registrar’s Office. No change action will be accepted by the registrar after the first week of classes.

Refund Policy

The Refund Policy is based on the fact that student tuition and fees provide only a fraction of the cost of providing educational opportunities. When a student enrolls in a class, he reserves a place which cannot be made available to another student unless he officially drops the class during the first week of the semester. Also, a student’s original enrollment represents a sizeable cost to the District whether or not he continues in that class. Therefore, a refund will be made only under the following conditions:

1. No 100% refund is granted unless college error is involved.

2. An 80% refund of tuition and fees may be obtained through the date noted in the college calendar. 80% refunds will be given through the first two class days of a six week summer session or Fasttrak semester. Refunds for flexible entry courses will be considered through completion of the second day of class from the date of enrollment.

3. Credit by Examination: No refund will be given for advanced
placement or CLEP exams.

4. A physician's statement must be submitted with petitions related to medical reasons for withdrawing from college.

5. Requests for refunds must be submitted before the end of a semester session for which the refund is requested.

6. A refund of less than $4.00 for tuition and/or fees will not be made.

7. Refund Petition forms are available in the office of Financial Aid and Dean of Instruction and Student Development.

A student who feels that his refund request is due to an extenuating circumstance beyond the limits of the refund policy should be explicit when completing the Refund form. All requests for refund will be referred to the Refund Petition Committee. The Committee's recommendations are made to the Dean of Instruction and Student Development who notifies the student of action to be taken. Refund checks normally require a minimum of one month of process.
Student Services

Human Development Center

The primary purpose of the Mountain View College Human Development Center is to provide maximum opportunities for educational, personal, social, cultural and career development of all students. Such development is stimulated through programs of coordinated college services as needed by any individual student or by groups of students. Included as needed are identification, evaluation, counseling, planning, participation in developmental programs, research in the Career Center, supplemental instructional assistance, tutoring, and programs of student activities.

The population of Mountain View College includes a wide range of student populations that include but go far beyond traditional student groups; this diverse population brings needs that are both traditional and non-traditional. The programs and services of the Human Development Center are planned to meet needs of all groups and individuals to furnish those support services that enable each student to succeed to his potential.

The service components in the Human Development Center include:

- Counseling and Guidance
- Developmental Studies
- Health Services
- Human Development Learning Skills Center
- Placement Services
- Student Development and Programs
- Testing and Evaluation Center
- Tutoring Services

Functions of these service components are:

Counseling and Guidance

Students and prospective students are encouraged to consult with a staff of professional counselors who are available to help them resolve questions of program and career choice, college transfer requirements, self-understanding and personal adjustment problems. Group and individual techniques are employed by the counselors to meet student needs. A partial list of additional materials and services available through the counseling center includes:

1. Orientation to college.
2. Educational planning of courses to meet specific degree and program requirements.
3. Registration information.
4. Referral for tests of personality, vocational interests and aptitudes.
5. Technical and occupational information in a Career Center.
6. Catalogs from a wide selection of colleges and universities.
7. Referral for students requiring therapy for psychological problems.
8. Information about the general services offered in other divisions of the college.
9. Peer counseling program.

Developmental Studies

A staff of trained and committed instructors offer developmental courses to those students whose levels of academic achievement are below individual potential for many reasons. Classes in reading, writing, and mathematics provide learning skills development to levels necessary for success in college-level classes. Attention is given to the development of the whole student through the efforts of
the Developmental Studies staff and services of the other components of the Human Development Center.

Health Services

The Health Center, located in E-001 (next to Physical Education Department), is maintained on campus to provide health counseling and education as well as emergency and first aid care. The Health Center is open from 8:30 a.m. until 10:30 p.m. Monday through Thursday, from 8:30 a.m. until 5:00 p.m. on Friday, and 8:30 until 4:00 p.m. on Saturdays.

Confidentiality of all findings is maintained, and no information is ever released without written permission from the student. A major function of the Health Center is the referral of students to the appropriate outside source for additional treatment, if this is needed. Each student is responsible for his own transportation to referred sources.

Health education material may be secured from the Health Center. A small library is maintained containing health-related materials not available in the main library.

Students with disabilities will find the Services for Handicapped Students office in the Health Center. Among the services offered are note-takers, interpreters, mobility aides, and tutors.

Numerous other free services are available to Mountain View students through the college Health Center.

All students are encouraged to complete the health history form as fully as possible so that the Health Center can best serve their needs and coordinate service programs in the Human Development Center as needed.

The Health Center is staffed with registered nurses and a physician is on call at all times.

Human Development Instruction

The courses in Human Development are designed to explore the self and interpersonal relationships as well as to resolve the questions of meaningful education in an ever-changing society. These courses are taught in small group sessions by counselors and student advisers.

The new series of courses in human development increase the individual understanding necessary for a student to make the most of any curriculum or training program, and at the same time, offer academic credit which is transferable to most surrounding four-year institutions.

Learning Skills Center

The Learning Skills Center (LSC) offers instruction in reading, writing, and study skills. Credit for a one-hour course, offered through flexible entry, is granted for completion of work in the LSC. All students are welcome to participate in the program of the LSC. Some of the topics which are available through the Learning Skills Center include time management, vocabulary development, improvement of reading speed and comprehension, organizing themes and essays, and using proper grammar and mechanics in writing. The LSC is staffed by faculty members with expertise in writing and reading skills. A wide range of materials — books, tapes, and filmstrips — are available for use in the pursuit of more efficient learning skills.

The Learning Skills Center is located in W-176. It is open from 9:00 a.m. to 9:00 p.m. weekdays and on Saturday mornings.

Placement Services

The Placement office will assist any student desiring help in finding off-campus employment. Job openings are listed on bulletin boards in W-154.
and the Placement officer works directly with students and community employers to locate jobs and students qualified to fill those jobs.

Career placement assistance is available for students nearing completion of their course of study. All students should register with the Placement office at least one full semester before graduation. The Placement officer can be contacted through the Reception Desk of the Human Development Center in W-154.

Student Development and Programs

The Student Development and Programs office at Mountain View College develops programs that are visualized as an integral part of the learning experience available at the college. Through direct contact with a professionally trained staff, the student is encouraged to find new ways of expressing himself, to develop skills in relating to other people, to formulate a new understanding of and respect for himself and his environment. Such programs are vital components of coordinated plans for individual student development. Student-planned activities such as games, tournaments, speakers, dances, films, art shows, entertainers, intramurals, special-interest groups, clubs, and organizations provide opportunities for a more complete experience for each individual student.

Student Center

The Mountain View College Student Center occupies a major portion of the West complex. It contains conference rooms and recreational facilities including a bowling alley, pool tables, foosball, table tennis and air hockey. The student may choose to use these facilities and services, which are provided for his comfort and recreation, as his leisure time and interests dictate. Those students desiring to become more fully involved in the programming aspects of the Student Development office are encouraged to do so.

Student Organizations

Information about participating in any organization may be obtained through the Student Development and Programs office located in W-045. Most recognized organizations at Mountain View College fall within one of the following classifications:

1. Co-Curricular Organizations — These co-curricular organizations are integral to the educational goals and purposes of the College. Certain procedures affecting student life are designated as the responsibility of such organizations.

2. Social Organizations — Such organizations exist for the purpose of providing fellowship, developing social relationships and promoting a sense of community among students who wish to be involved in group social activities.

3. Service Organizations — Service organizations have as their primary function the pursuit of activities which will contribute to the development of career fields.

4. Professional Organizations — Pre-professional and academic organizations are joined by students wishing to pursue interests which will contribute positively to the school and to the community.

5. Scholastic Honorary Organizations — Scholastic honorary organizations offer membership to
students on the basis of academic excellence and performance.

6. Special Interest Organizations — Such organizations are organized by students who are intent upon developing or broadening an interest in some particular aspect of their lives as human beings.

Testing and Evaluation Center

The Mountain View College Testing Center, located in Room W-136, functions as a service component to the Human Development Center and all instructional programs. The four primary functions of the Testing Center are to administer:

1. Psychological tests of personality, vocational interests and aptitudes.
2. Academic testing for the college instructional programs. Many courses at Mountain View College are individualized and self-paced and permit students to be tested at appropriate times.
3. Diagnostic tests which make appropriate class placement possible. These tests are very strongly recommended to insure student success at Mountain View College.
4. National testing programs, including ACT, GED, CLEP, and TOEFL.

Tutoring Services

For students needing special temporary assistance in course work, arrangements for tutoring services can be made through the Reception Desk of the Human Development Center in W-154. Every attempt is made to arrange for tutoring through Developmental Studies, the Learning Skills Center, the peer counseling program, and outside sources. Students are encouraged to seek such services through self referral as well as through instructor referral.

Financial Aid Programs

The Financial Aid Program at Mountain View College is designed to function as a multi-purpose financial assistance service for students. A major objective is to provide assistance to students who, without such aid, would be unable to attend college. Basic to this philosophy is the belief that the educational opportunities of able students should not be controlled by their financial resources.

Where to apply: Requests for information should be directed to the Director of Financial Aid, Mountain View College, 4849 W. Illinois, Dallas, Texas 75211.

When to apply: Students who anticipate the need for financial assistance for college should complete an application well in advance so a realistic determination of their need may be reached.

The student should submit the application as early as possible prior to the semester in which he plans to enroll.

Federal and State Programs

Bureau of Indian Affairs

For information on educational benefits, an Indian student should contact the nearest BIA office.

Hazlewood Act

Certain veterans who have no remaining V.A. educational benefits can attend Texas state supported institutions with their tuition and fees waived if they were residents of Texas.
at the time they entered the services and are now residents of Texas. Contact the Financial Aid office for details.

Social Security Administration

Benefits under this program are available to students who meet the criteria set up by the Social Security Administration. The Office of Admissions and Records acts as liaison between Mountain View College students and the Social Security Administration.

State-Sponsored Scholarships

These scholarships waive payment of tuition for two semesters for the highest ranking graduate of each accredited high school in Texas each year.

Veterans Benefits

The Veteran’s Benefits Programs for eligible students is coordinated by the Veterans Affairs Office located in E-110B. Veterans who are interested in obtaining information should call 746-4267, or come by E-110B.

Services of Veterans Affairs Office include counseling the veteran concerning benefits, V.A. Work Study Programs, financial problems, V.A. loans, career counseling and other areas related to the veteran’s general welfare.

When testing indicates that a veteran should enroll in developmental courses such as reading, writing, or math, the student may pursue these courses with no charge to his eligibility. Tutoring services are also available to the veteran who is having learning difficulties in one or more subjects. For assistance in obtaining tutoring benefits, contact the Veterans Affairs Office.

The veteran student who enrolls at Mountain View College should be aware of some of the V.A. guidelines which the college enforces. The following information is provided for the veteran’s benefit, and violation of these policies will cause complications in receiving or loss of monthly benefits:

1. Class attendance is mandatory. Failure to attend class will result in suspension from class.
2. Veteran students who plan to enroll in developmental courses must be tested and show a need in basic skills before enrollment in these courses. Contact the Counseling Center located in W-154 for more information on testing procedures.
3. A veteran enrolled in T.V. courses must be pursuing more on-campus credit hours than hours taken by T.V.
4. A veteran student who has successfully completed credit hours at another college or university must submit a transcript from that college or university before applying for V.A. benefits at Mountain View College. The transcript will be evaluated and credit granted where applicable.
5. Only enroll in courses required for your degree program. Information on degree requirements may be obtained from the Registrar’s Office in E-110 or from Counseling in W-154.
6. A veteran who withdraws or who is dropped from all courses attempted during a semester will be considered as making unsatisfactory progress by the V.A. and may lose future benefits. A veteran student must also maintain a satisfactory grade point average as outlined in the catalog.
The Veterans Administration has provided to them by the federal government for that purpose.

Supplemental Educational Opportunity Grant. This grant is authorized under the Higher Educational Act of 1965 and is designed to help students with exceptional financial need. To be eligible a student must prove such financial need and make satisfactory progress toward the completion of his educational goal. The amount of an SEOG award must be matched by another source, usually an amount earned by the student from a work-study job on campus. SEOG amounts vary from $200.00 to $800.00 per academic year depending on need, total number of applicants, and funds available. Students must apply each academic year to be reinstated.

Vocational Rehabilitation

The Texas Education Agency, through the Vocational Rehabilitation Division, offers assistance for tuition and fees to students who are vocationally handicapped as a result of a physically or mentally disabling condition. For further information, contact Vocational Rehabilitation, 4333 North Central Expressway, Dallas, Texas 75205.

Grants

Basic Educational Opportunity Grant (BEOG). Students that enroll for at least 6 credit hours are eligible to apply for this “entitlement grant.” Applications are available in many federal offices, as well as in the Financial Aid Office, and are mailed directly by the student to a central processing place indicated in the instructions. The student receives a Student Eligibility Report which he brings to the Financial Aid Office for interpretation and determination of grant amount according to an objective table provided to them by the federal government for that purpose.

Scholarships

Mountain View College offers a limited number of scholarships to students who exhibit scholastic ability, and/or need. Individuals, private industries and groups make these scholarships available through the Office of Financial Aid and Placement.

Loans

Mountain View College has several loan funds for students needing long-term as well as short-term assistance.

Hinson-Hazlewood College Student Loan Program. The necessary requirements for this loan are:

1. Legal residence in Texas.
2. Enrolled or accepted for enrollment for at least a half-time course of study.
3. Established financial need.

The amount of loan for which a student may qualify depends upon the income of his family. Married applicants are qualified by considering the income of both husband and wife.
Qualified students may receive up to $1,500 for the nine-month school session.

Repayment begins between 9 and 12 months after the student ceases to be enrolled for at least half the normal course load. Repayment may extend up to 10 years; however, a minimum payment of $30 a month is required. Interest rate is 6.25% per year (adjusted).

Short-Terms Loans. A student may borrow up to $100 at no interest if funds are available. This loan must be repaid within 90 days or before the end of the semester in which the money is borrowed.

Revocation of Aid

The Financial Aid and Placement Office reserves the right to review and cancel awards at any time for the following reasons:

1. Failure to maintain an acceptable academic record.
2. Failure to meet the minimum course load requirements.
3. Changes in the financial status of the student or his family.
4. Any student in violation of any regulation governing the program from which he is receiving aid.

It is understood that the student is aware of the conditions under which aid is offered and agrees to meet all the necessary requirements.

Campus Employment

The Financial Aid Office will assist any student desiring on-campus employment. Typically, this part-time employment is designed as a financial aid to assist students while they are in college through:

1. On-campus placement
2. Work-study programs

Efforts are made by the Office of Financial Aid for students to gain employment in clerical work, library work, laboratories, custodial work, selling, etc.

Intercollegiate Athletics

Mountain View College offers qualified men and women students an opportunity for participation in intercollegiate athletics in the following sports:

1. Basketball
2. Baseball
3. Tennis

Participation is available on athletic teams for all full-time students, on a voluntary non-scholarship basis, who meet additional requirements established by the Metro Athletic Conference.

Intramurals

Intramurals is an important phase of student life at Mountain View College. Intramurals provides not only team sports activities, but offers other options such as dominoes, darts, and checkers. Tournaments in pool, table tennis, and bowling are also a few of the intramural sports available. Students interested in intramurals should contact the Student Development & Programs office, W-45 or call 746-4185.

College Commission System

The College Commission System includes all segments of Mountain View College — students, faculty, classified staff, and administrators. All have a vested interest in the school and are therefore entitled and urged to participate in the operation of the college and the activities sponsored by Student Development and Programs.

The College Commission System allows the total college population to share in the decision-making process and is composed of the following elements: President’s Forum, Commissions, and Ad Hoc committees.
Educational Opportunity Center

The Educational Opportunity Center is sponsored by the Dallas County Community College District and the Special Services Branch of the U.S. Office of Education. This project is designed to offer extensive counseling and information services primarily to persons from economically disadvantaged groups who may profit from further secondary or post-secondary education. This is done by the Mobile Counseling Center, satellite centers through the community and a computer terminal network. The staff will achieve its objectives through such activities as one-to-one counseling, disseminating educational information, acquiring financial aid for needy students, bringing the counseling service to the target communities, referring students to appropriate social help agencies, and assisting in the placement of individuals either in schools and/or on-the-job training programs. For further information, contact the EOC, Room 307, Main Bank Building, Main and Lamar or phone 746-2197 or 746-2258.

Housing

Mountain View College does not operate dormitories of any kind nor maintain listings of available housing for students. Students who do not reside in the area must make their own arrangements for housing.

Standards of Conduct

The College student is considered a responsible adult. The student’s enrollment indicates acceptance of those standards of conduct which appear in the Student Handbook. A copy of the Student Handbook may be obtained from the Office of Student Development & Programs.

Security Division

The department of Campus Security is required by state law to “protect and police building and grounds of state institutions of higher learning.” Since all of the general and criminal laws of the state are in full force and effect within the campus community, specially trained and educated personnel are commissioned to protect not only the physical property of the campus community but also to protect the person and the property of campus citizens. The Security Officers are responsible for enforcing rules, regulations, and Board policies of the college, including a Code of Conduct for students. The department seeks to operate a student-oriented program which encourages face-to-face contact between students and Security Officers to facilitate the open exchange of ideas and to develop a tolerance for individual points of view.

The Campus Security Office is located on the first floor of the West Complex (W-135). A Security Officer may be reached any time the campus is open for educational activities by calling the District operator: 746-2200 or the Security Office: 746-4258.
Academic Information

Scholastic Standards:
Grades and Grade Point Averages

Final grades are reported for each student for every course undertaken according to the following grading system:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Interpretation</th>
<th>Grade Point Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4 points</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3 points</td>
</tr>
<tr>
<td>C</td>
<td>Average</td>
<td>2 points</td>
</tr>
<tr>
<td>D</td>
<td>Poor</td>
<td>1 point</td>
</tr>
<tr>
<td>P</td>
<td>Progress</td>
<td>Not Computed</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0 points</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
<td>Not Computed</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawn</td>
<td>Not Computed</td>
</tr>
</tbody>
</table>

Grade points earned for each course are determined by multiplying the number of points for each grade by the number of credit units the course carries. A student's grade point average is computed by adding the total grade point values for all courses for which grade point values may be computed and dividing by the appropriate number of credit units attempted during the same period.

Incomplete grades are given when an unforeseen emergency prevents a student from completing the work in a course. Division Chairmen must approve all "I" grades. Incomplete grades must be removed within 90 calendar days after the first day of classes in the subsequent regular semester. After 90 days they will be changed to a "W".

Repetition of Courses

In computing cumulative grade-point averages, only the latest grade earned in repeated courses will be included. However, transcripts indicate all work completed in the District. This policy shall apply, even if the latest grade is lower than the preceding grade. In cases where a student withdraws from a course which he is repeating, his cumulative grade-point average shall be calculated by using the immediately preceding grade in the same course.

Classification of Students

1. Freshman: A student who has completed fewer than 30 semester hours.
2. Sophomore: A student who has completed 30 or more semester hours.
3. Part-Time: A student carrying fewer than 12 semester hours work.
4. Full Time: A student carrying 12 or more semester hours of work.

Definition of Acceptable Scholastic Performance

College work is measured in terms of semester credit hours. The number of semester hours credit offered for each course is included with the course description.

Acceptable scholastic performance is the maintenance of a grade-point average of 2.0 (on a four-point scale) or better. A student may not be graduated from any degree or certificate program unless he has a cumulative grade-point average of 2.0 or better. Grade points and hours earned in the Developmental Studies courses are computed when deriving a student's scholastic standing; however, they are not computed for graduation requirements.

Scholastic Probation and Scholastic Suspension

The policies on scholastic probation and scholastic suspension apply to full-time students (12 semester units or more) and to part-time students when they have completed a total of 12 semester units. These policies are
based on a 4.0 grade point scale (see page 33 "Scholastic Standards").

The following criteria will be used to determine academic standing:

1. Students who have completed a total of 12 semester units in a college will be placed on probation if they fail to maintain a 2.0 cumulative grade point average.

2. Students who have been placed on scholastic probation may be removed from probation when they earn a 2.0 cumulative grade point average.

3. Students on scholastic probation who achieve either a cumulative grade point average of 1.5 or above or a previous semester grade point average of 2.0 or above may continue on scholastic probation.

4. Students on probation who do not meet the requirements of paragraph 3 will be placed on scholastic suspension.

The periods of scholastic suspension are: 1) suspension for the first time — one regular semester and 2) subsequent suspension — two regular semesters.

Students previously enrolled in college who are placed on scholastic probation are expected to enroll in a Human Development course. Under special circumstances a counselor may waive this course for probationary students.

Students who have been suspended must file a petition for readmission. The conditions for readmission are established and administered by the Dean of Instruction and Community Development.

Waiving of Scholastic Deficiency

Any student pursuing an academic transfer program who wishes to transfer to a career program may have his earned credits evaluated for the possibility of disregarding any grades of his choice below "C" as long as the student follows the career program. The logic of this procedure is that many students do poorly while pursuing a course of studies for which they are not suited but make rapid improvement when faced with tasks more suited to their interests and aptitudes. This procedure is contingent upon the student remaining in a career program. A change to an academic transfer program places the student under the original conditions of the academic transfer program including the calculation of a cumulative grade point average of all college credits earned. This procedure will apply both to Mountain View College students and to students transferring from other institutions. The student who wishes to avail himself of this opportunity should state his intentions in writing to the Director of Admissions prior to registration and should assume the responsibility of informing his counselor during the pre-registration advisement session.

Honors

A full-time student who has completed at least 12 hours of credit and who earns a grade-point average of 3.00-3.49 will be listed on the college Honor Roll. Full-time students who complete at least 12 hours of credit and who average 3.50-4.00 will be placed on the Dean's Honor List. A part-time student who is taking 6-11 credit hours and who maintains a 3.5 or higher grade-point average will receive Academic Recognition. The Honor Roll, the Dean's Honor List and the Academic Recognition List will be published each semester.
Degree Requirements

Associate in Arts and Sciences Degree

A student must have a total of 60 hours and present an average grade of at least "C" (2.0).

These 60 hours may be earned at any Dallas County Community College District college and must include:

- English 101-102, plus an additional 6 hours of English
- 12 Hours Laboratory Science (Music majors are exempt from this requirement. Check listings under subject field).
- 8 Hours History 101-102* and Government 201-202* (No substitutions allowed)
- 12 Hours Humanities to be selected from Theatre 101, Art 104, Music 104 or Humanities 101.
- 3 Hours

A maximum of two physical education activity hours may be counted as credit toward requirements for graduation. All students who expect to transfer to a four-year institution are urged to complete their four semester requirement in physical education during their freshman and sophomore years.

Courses numbered 99 and below cannot be included to meet the degree or certificate requirements, except such courses which are specifically listed in the curriculum pattern of the specific program.

The minimum degree requirements of 60 hours is exclusive of Music Recital 199.

Technical occupational courses applicable toward the Associate in Applied Arts and Sciences degree are applicable for the Associate in Arts and Sciences degree.

In addition to the course requirements, each degree candidate must earn the last 15 units as a resident student in the district college or accrue 45 units in residence. The degree will be granted by the College in which the student took the last 15 units or where the majority of units were accrued. No more than ¼ of the work required for any degree or certificate may be taken by correspondence. Permission must be granted by the Director of Admissions for correspondence work.

The student is urged to consult the catalog of the institutions to which he may transfer for their special requirement. These catalogs should be used by the student and his advisor as the basis for the program plan.

*Only 3 hours of History or 3 hours Government credit may be earned by credit-by-examination. (CLEP credit does not meet this requirement).

Degree Requirements

Associate in Applied Arts and Sciences Degrees and Certificate Career Programs

A minimum of 60 hours must be presented for the Associate in Applied Arts and Sciences Degree with an average grade of at least "C" (2.0). For some programs, the semester hour total is over 60. All of the prescribed requirements for the specific technical or occupational program for which the student is enrolled must be completed.

The requirements one must meet to be awarded a certificate are detailed under specific programs listed in the technical-occupational programs section of this catalog. A "C" (2.0) grade average is necessary to meet the requirements of the certificate program in which the student is enrolled.

A maximum of two physical education activity hours may be counted as credit toward requirements for graduation. All students who expect to transfer to a four-year institution are urged-
to complete their four semester re-
requirement in physical education dur-
ing their freshman and sophomore
years.

Courses numbered 99 and below
cannot be included to meet the degree
or certificate requirements, except
such courses which are specifically
listed in the curriculum pattern of the
specific program.

The minimum requirements for the
Associate in Applied Arts and Sciences
Degree of 60 hours is exclusive of
Music Recital 199.

In addition to the course require-
ments, each degree candidate must
earn the last 15 units as a resident stu-
dent in the district college or accrue
45 units in residence. The degree will
be granted by the college in which the
student took the last 15 units or where
the majority of units were accrued. No
more than ¼ of the work required for
any degree or certificate may be taken
by correspondence. Permission must
be granted by the Director of Admis-
sions for correspondence work.

The student is urged to consult the
catalog of the institutions to which he
may transfer for their special require-
ment. These catalogs should be used
by the student and his advisor as the
basis for the program plan.

Candidates for any degree or certifi-
cate must meet the requirements as set
forth in the catalog for the year of
first enrollment unless he elects to
graduate under the requirements of a
later catalog. The candidate must in-
dicate the catalog of his choice when
he files his degree plan.

To qualify for a second degree or
certificate a student must fulfill the
residence requirement for the second
degree and must complete all required
courses in the plan for the second de-
gree or certificate.

Graduation
An annual graduation ceremony is
held at the conclusion of the spring
semester.

1. Students who have degree plans
filed in the Registrar’s Office and
who anticipate completion of
the degree requirements by the
end of the summer session are
eligible to participate in the
spring ceremony.

2. Applications for graduation must
be made in the Registrar’s Office
prior to the deadline announced
by the Registrar.

3. A graduate is expected to par-
ticipate in the ceremony.

Recommended Academic Load
No student will be permitted to
carry more than 18 semester units of
course work or more than 5 classes
plus physical education without per-
mission of the Director of Counseling. 
Employed students are advised to limit
their academic loads in accordance
with the following recommendation: If
a student carries a full college load
(12 semester units or more), he should
not work more than 20 hours per
week. If he must work more hours, his
credit unit load in college should be
reduced proportionately.

Procedure for Filing Degree and
Certificate Plans
1. The student should request a de-
gree plan from the Admissions
Office upon completion of 30
semester hours. Transcripts of all
previous college work must be
on file at the time of the request
for a degree plan.

2. A student following a 1-year cer-
tificate program should request
an official plan during his first
semester.
The recommended load limit for day or evening students who are employed full time is 6 semester units of course work.

The recommended load limit in a 6 week summer session is 6 semester units of credit. A total of 14 semester units of credit is maximum that may be earned in any 12-week summer period.

Class Attendance

Students are expected to attend regularly all classes in which they are enrolled. Class attendance is the responsibility of the student. It is also the responsibility of the student to consult with his instructors when an absence must be excused. Instructors are given the prerogative of determining the excusability of student absences.

Instructors are required to report students to the Dean's office for excessive absences. Generally, first excessive absence reports are made when absences have reached 3 consecutive hours or an accumulation of 6 hours. At this point, students are warned that failure to attend class will result in suspension from that class. Second excessive absence reports are filed with the Dean's office when, in the opinion of the instructor, a student's continued absences warrant his suspension from class.

Students dropped for excessive absence will receive a grade of "W" in the class from which they are dropped.

As a general rule the instructor will drop the student no later than three weeks from the last date attended.

Classroom Dishonesty

Dishonesty on tests, term papers, and examinations is a serious offense. Plagiarism (the act of using source material of other persons without following the accepted techniques of crediting) is never acceptable behavior in an academic community.

Dropping a Course or Withdrawal from College

A student must drop a class or withdraw from college in the following manner:

1. Obtain a drop or withdrawal form from his counselor and follow the procedure outlined by the counselor.

2. Should circumstances prevent a student from appearing in person to withdraw from college, he may withdraw by mail by writing to the Director of Admissions. No drop or withdrawal requests are accepted by telephone.

Students who drop a class or withdraw from college before the deadline will receive a "W" in each class from which they have withdrawn. The deadline for receiving a "W" is two weeks prior to the end of the semester. After that time a student will receive a performance grade in the course.

Auditing a Course

Any person 18 years of age or older may, with the consent of the instructor, enroll in the status of audit. This student may attend classes but not take the examinations or receive credit for the course. The same fee is charged for auditing as for credit.

Procedures for auditing a course will be administered by the Registrar. No audits will be approved prior to the first day of the second week of classes in any semester. Most lab courses may not be audited. In the case of a student enrolled in collegiate level courses, the combined number of semester units in credit courses and audit shall not exceed eighteen.
Credit by Examination

A person who believes he is qualified by experience or previous training may take a special examination to establish credit in a particular course. Depending upon the course, the examination may be a section of the College Level Examination Program or a teacher-made test. Not all courses offered at Mountain View College are approved for credit by examination. A list of those credits which may be established through this method is available in the Testing Center. Students will be allowed to earn as many credits through the credit-by-examination procedure as their needs require and ability permits. The last fifteen semester hours required for graduation in any degree or certificate program must be earned in residency and may not be earned through credit by examination. Credit by examination may be attempted only one time in any given course and a grade of "C" or better on the examination is required in order to receive credit. Only currently enrolled students will have the semester hours earned through examination become part of their permanent record. Request for examinations should be made to the appropriate division office who will provide the necessary petition forms and advise the student of the procedure. A student, whether part-time or full-time, will pay an examination fee of $20.00 per examination. This fee must be paid prior to taking the examination and is non-refundable. Though great effort has been made to interrelate our credit by examination program with transferring four-year institutions, final acceptance of credit by examination achieved for specific degree purposes is determined by that institution. A student can use no more than three (3) credit hours for the degree requirements in History and no more than three (3) credit hours for the degree requirements in Government. For further information concerning graduation requirements, consult the Degree Requirement section in this catalog.

Grade Reports

At the end of each semester, grade reports are issued to each student. Transcripts will be withheld if the student does not have all required student information on file in the Registrar's Office or if any financial obligations to the College have not been paid.

Transcripts of Credit from Mountain View College

The Registrar's Office will send the student's transcript upon request to the individual student or to any college or agency named. However, a student's official transcript may be withheld until he has settled all financial obligations to the college.

Telecourses

Mountain View College is offering several courses via television. Content and credit for these courses is the same as for similar courses taken on campus. Refer to the Schedule of Classes for the current offerings each semester.

Telecourses include the viewing of television programs on KERA Channel 13 each week, plus reading, study guide and writing assignments. Students come to the Mountain View College campus for an orientation session at the beginning of the semester, for one or two discussion meetings, and for three or four tests during the semester. These visits to the campus are normally scheduled so that they may be attended at a time convenient to the student.
Telecourses may be taken in conjunction with on-campus courses or by persons who are taking no on-campus instruction. Registration for telecourses may be accomplished by mail or through the normal on-campus registration procedures.

**Flexible Entry**

Realizing that individuals do not make the decision to enroll in college only at four and one-half month intervals, the Dallas County Community College District has committed its staff to providing programs which may be entered at the first of every month. In addition to the regular registration periods, registration for courses offered through Flexible Entry is held the first Monday of each month. Registration is in the Registrar’s Office and requires instructor’s approval.

Students should check with the Registrar’s Office each month to determine the sections which will be offered.

**Cooperative Work Experience Education**

Cooperative Work Experience Education offers career program students the opportunity to gain on-the-job work experience in their educational program. Students work at college-approved training stations on a job that provides experience in their chosen occupation. The college supervises the program and awards credit based on the number of approved hours worked on the job during the semester.

**Library Obligations**

Willful damage to library materials (or property) or actions disturbing to the other users of the Library may lead to revocation of library privileges. Cases involving such damage will be referred for further action by the appropriate authorities.

All books and other library materials must be returned before the end of each semester. No grades will be sent to students who have not returned all such materials or who have unpaid library fines. No transcripts of grades may be sent until the library record is cleared.
Divisions of the College

Business Division

Accounting
Bookkeeping
Computer Science
General Business
Mid-Management
Secretarial Careers

Communications Division

Communications
English
French
German
Journalism
Photography
Spanish
Speech

Human Development Center

Developmental Communications
Developmental Mathematics
Developmental Reading
Developmental Writing
Advanced Reading
Human Development
Learning Skills
Teacher Aide

---

An introduction to the areas of employment for the animal medical technologist. A description of the role of the animal medical technology graduate. A survey of the laws and ethics related to the veterinary profession.

A survey of the common breeds of domestic livestock and human pets. Detailed study of the origin of dog and cat breeds is included. Visual identification of all common animal breeds is studied.

An introductory course covering cell structure and functions, basic anatomy and physiology, general microbiology, genetics, evolution and ecology. Laboratory fee required.

Prerequisite: Chemistry 134. Classification of pharmaceuticals, terminology, measurement, administration and storage of animal medications.

Mammalian Structure is presented on a comparative basis by a histologically and gross study of selected organ systems utilizing the dog, cat, monkey, pigeon and selected organs of the cow. Laboratory fee required.

A continuation of AMT. Laboratory fee required.
Animal Medical Technology 237
Clinical Analysis I 4 Cr.
  3 Lec., 3 Lab.
Prerequisite: Animal Medical Technology 231. Basic principles associated with blood, urine and fecal analysis. Laboratory fee required.

Animal Medical Technology 238
Animal Health 2 Cr., 2 Lec.

Animal Medical Technology 239
Clinical Analysis II 4 Cr.
  3 Lec., 3 Lab.
Prerequisite: Animal Medical Technology 237. Advanced blood, urine, and fecal analysis. Emphasis placed on correlating sample data with affected physiological parameters. Laboratory fee required.

Animal Medical Technology 240
Animal Restraint 4 Cr.
  3 Lec., 3 Lab.
Large and small animal restraining techniques and procedures are presented. Laboratory fee required.

Animal Medical Technology 245
Clinical Seminar 2 Cr.
  2 Lec.
A course designed to allow the student to receive on the job instruction from an authorized veterinarian concerning daily routine procedures.

Animal Medical Technology 246
Clinical Training 2 Cr.
  10 Lab.
A course designed to allow the student to perform his duties as an animal medical technologist under the supervision of a veterinarian.

Animal Medical Technology 247
Clinical Seminar 2 Cr.
  2 Lec.
A course designed to allow the student to receive on the job instruction from an authorized veterinarian concerning daily routine procedures.

Animal Medical Technology 248
Clinical Training 2 Cr.
  10 Lab.
A course designed to allow the student to perform his duties as an animal medical technologist under the supervision of a veterinarian.

Anthropology 100
Introduction to Anthropology 3 Cr.
  3 Lec.
A survey of the origin of mankind involving the processes of physical and cultural evolution, ancient man, preliterate man today. Attention is centered on fossil evidence, physiology and family/group roles and status.

Anthropology 101
Cultural Anthropology 3 Cr.
  3 Lec.
A survey of the cultures of the world with emphasis on those of North America. The concept of culture, social and political organization, language, religion and magic; elementary anthropological theory. (This course can be offered on campus and via television.)

Art 103
Introduction to Art 1 Cr.
  3 Lab.
An introduction to materials and techniques of studio art for the non-major, involving basic design concepts and traditional media. Laboratory fee required.

Art 104
Art Appreciation 3 Cr.
  3 Lec.
Films, lectures, slides, and discussions on the theoretical, cultural, and historical aspects of the visual arts. Attempts to develop visual and aesthetic awareness, thus relating art to the student as an individual.

Art 105
Survey of Art History 3 Cr.
  3 Lec.
This course covers the chronological sequence of art from the pre-historic through the Renaissance. Explores the cultural, geophysical, and personal influences on art styles, offering the student a broader range of ideas which will enable him to relate the past to his own work and provide stimuli for his future works.
Art 106
Survey of Art History 3 Cr.
3 Lec.
This course covers the chronological sequence of art from the Baroque through the present. Explores the cultural, geophysical, and personal influences on art styles, offering the student a broader range of ideas which will enable him to relate the past to his own work and provide stimuli for his future works.

Art 110
Design I 3 Cr.
2 Lec., 4 Lab.
A study of basic concepts of design using two-dimensional materials. Use of line, color, illusion of space or mass, texture, value, shape, and size in composition. Required of all art and interior design majors. Open to all interested students.

Art 111
Design II 3 Cr.
2 Lec., 4 Lab.
A study of basic concepts of design with three-dimensional materials, using mass, space, movement and texture. Required of all art majors. Open to all interested students. Laboratory fee required.

Art 114
Drawing I 3 Cr.
2 Lec., 4 Lab.
A beginning course investigating a variety of media, techniques and subjects which explores perceptual and descriptive possibilities with consideration of drawing as a developmental process as well as an end in itself. Required of all art majors. Open to others who are interested.

Art 115
Drawing II 3 Cr.
2 Lec., 4 Lab.
Prerequisite: Art 114. Expansion of Drawing I stressing the expressive and conceptual aspects of drawing including the human figure within a spatial environment. Required of all art majors. Open to others who are interested.

Art 116
Introduction to Jewelry 3 Cr.
2 Lec., 4 Lab.
Prerequisites: Art 110, Art 111, or permission of instructor. The basic techniques of fabrication and casting of metals, with emphasis on original design. Laboratory fee required.

Art 117
Introduction to Jewelry II 3 Cr.
2 Lec., 4 Lab.
Prerequisite: Art 116. A continuation of Jewelry I. The study of advanced fabrication and casting techniques, with emphasis on original design. Laboratory fee required.

Art 201
Drawing III 3 Cr.
2 Lec., 4 Lab.
Prerequisites: Art 110, Art 111, Art 115, sophomore standing and/or permission of the Division Chairman. Analytic and expressive drawing of the human figure, stressing study of movement and volume. Laboratory fee required.

Art 202
Drawing IV 3 Cr.
2 Lec., 4 Lab.
Prerequisites: Art 201, sophomore standing and/or permission of the Division Chairman. A continuation of art 201 with emphasis on individual expression. Laboratory fee required.

Art 205
Painting I 3 Cr.
2 Lec., 4 Lab.
Prerequisites: Art 110, Art 111, Art 115 or permission of the instructor. A studio course stressing fundamental concepts of painting with acrylics and/or oils. Emphasis on painting from still life, models, and the imagination.

Art 206
Painting II 3 Cr.
2 Lec., 4 Lab.
Prerequisite: Art 205. Continuation of painting I with emphasis on individual expression.

Art 208
Sculpture I 3 Cr.
2 Lec., 4 Lab.
Prerequisites: Art 110, Art 111, Art 115 or permission of the instructor. An exploration of various sculptural approaches in a variety of media and using different techniques. Laboratory fee required.
Art 209
Sculpture II 3 Cr.
2 Lec., 4 Lab.
Prerequisite: Art 208. A continuation of Sculpture I with emphasis on individual expression. Laboratory fee required.

Art 215
Ceramics I 3 Cr.
2 Lec., 4 Lab.
Prerequisites: Art 110, Art 111, Art 115 or permission of instructor. Building of pottery forms by coil, slab and use of wheel; glazing and firing. Laboratory fee required.

Art 216
Ceramics II 3 Cr.
2 Lec., 4 Lab.
Prerequisite: Art 215 or permission of instructor. A study of glaze technology and advanced problems in the creation of sculptural and utilitarian ceramic ware. Laboratory fee required.

Astronomy 101
Descriptive Astronomy 3 Cr.
3 Lec.
A descriptive course consisting of a survey of the fundamentals of astronomy. Emphasis on the solar system, including a study of the celestial sphere, the earth's motions, the moon, planets, asteroids, comets, meteors and meteorites.

Astronomy 102
General Astronomy 3 Cr.
3 Lec.
A course emphasizing stellar astronomy which includes a study of the sun, the properties of stars, star clusters, nebulae, interstellar gas and dust, the milky way galaxy and external galaxies.

Aviation Administration 131
Introduction to Aviation 3 Cr.
3 Lec.
General introductory course to the total aviation industry covering the history, development, and advances in aircraft from balloon flight to the supersonic transport (SST), economic impact on the business economy, and the sociological effect on people and communities both local and worldwide. Special emphasis on origin and growth of airlines and the aviation industry.

Aviation Administration 133
Air Transportation 3 Cr.
3 Lec.
Prerequisite: Aviation Administration 131. A study of the need, nature and structure of the air transportation segment of the aviation industry relating to passengers and cargo. Both domestic and international. Covers the levels and categories of utilization such as air carrier, air-taxi, commuter, business, and pleasure. Explores basic costs and revenue sources; describes present status, future limiting and growth factors, and legal aspects and characteristics.

Aviation Administration 134
Aviation Law 3 Cr.
3 Lec.
Prerequisite: Aviation Administration 131 credit or concurrent enrollment in Air Transportation. A study of procedural laws and regulations, local, national, and international relating to both public and private sectors of air commerce. Outlines the development of aviation law from enactment through judicial decisions on application of those laws. Identifies regulatory agencies and quasi-official study and advisory groups along with functions. Special emphasis on flight procedures (flight plans), ports of entry, customs, clearances, contraband, quarantines, aviation hazards and liabilities as they relate to passenger and cargo movements. Develops present legal structure and possible future changes, including reciprocity agreements.

Aviation Administration 232
Transportation, Traffic and Air Cargo 3 Cr.
3 Lec.
Prerequisites: Aviation Administration freshman core, credit or concurrent enrollment in Business 136. A study of transportation modes and how these interface to provide efficient transport of passengers and cargo. Emphasis on managerial definition and solution of problems involved at transition/transfer terminals where compatibly scheduled traffic movement is crucial. Includes the evolution of air cargo; the purpose, application, and benefits of air mail, air express, and air freight to modern industry. Discusses the nature of automation, trends, and future development.
Aviation Administration 235
Airline Management 3 Cr.
Prerequisites: Aviation Administration freshman core, Business 136. A course designed to cover the complex organization, operation, and management of an airline today. Includes planning, facility requirements, financing, aircraft selection criteria, route feasibility studies, market and passenger trends, and population trends affecting load factors. Explores the managerial problem areas unique to airline operations.

Aviation Administration 236
Aviation Marketing 3 Cr.
Prerequisites: Aviation Administration freshman core, Business 136. The significance and functions of marketing in aviation stressing the airline viewpoint. Includes market research, sales, unique advertising and promotion concepts, traffic, demand analysis, and price determination theory.

Aviation Administration 239
Airport Management 3 Cr.
Prerequisites: Aviation Administration freshman core, Business 136. A presentation of the major functions of airport management: adequacy of facilities and services, financing, organization, personnel, maintenance, planning and zoning, operations, revenues and expenses, public relations, ecology, and safety. Includes a study of the socioeconomic effect of airports on the communities they serve.

Avionics Technology 129
Introduction to Aircraft Electronic Systems 3 Cr.
A survey course introducing the student to the aircraft and the nature of flight, the aircraft's electronic systems and their function related to the aircraft and its mission, basically how the systems operate, and the information supplied to the aircraft operator. Laboratory fee required.

Avionics Technology 131
Aircraft Communications Systems 4 Cr.

Avionics Technology 230
Aircraft Navigation 4 Cr.
Prerequisites: Credit or concurrent enrollment in Electronics Technology 193 or equivalent. An in-depth study of aircraft VHF and interphone systems, circuit analysis of typical systems, specialized circuitry, bench maintenance and alignment procedures, related bench and aircraft test equipment, introduction to UHF and HF systems, and related FCC regulations. Laboratory fee required.

Avionics Technology 231
Aircraft Electrical and Instrumentation Systems 4 Cr.
Prerequisites: Electronics Technology 193 and Avionics Technology 129. A study of typical aircraft navigation systems including VOR, ILS, ADF, and marker beacon. Topics covered for each system include the operation of the system in relation to the ground station, circuit analysis of a typical system, special circuitry, bench maintenance and alignment procedures, and related bench and aircraft test equipment. Laboratory fee required.

Avionics Technology 232
Aircraft Radar Systems 4 Cr.
Prerequisites: Electronics Technology 193 and Avionics Technology 129. A study of aircraft electronic power sources, buses, fusing, monitoring and warning devices and the associated instrumentation, magnetic and electronic compasses, and basic autopilot systems. Laboratory fee required.
Avionics Technology 233
Aircraft Systems Installation, Wiring and Modification 3 Cr.
1 Lec., 5 Lab.
Prerequisites: Electronics Technology 193 and Avionics Technology 129. A laboratory oriented course which gives the student practical experience in installing aircraft equipment, modifying systems and associated wiring, repairing damaged wiring, and performing equipment installations inspections, and accomplishing necessary repairs. Laboratory fee required.

Avionics Technology 234
Aircraft Electronic Systems Checkout and Trouble-Shooting Procedures 4 Cr.
2 Lec., 5 Lab.
Prerequisites: Avionics Technology 129 and credit or concurrent enrollment in three additional avionics technology courses. Primarily a laboratory course in which the student will perform systems checks of electronic equipment on the aircraft. Procedures for determining the operational condition of the equipment and techniques for correcting equipment malfunctions will be covered. Practical experience in aircraft trouble-shooting and repair will be provided for the student. Application of related test equipment to problem solutions will be stressed. Laboratory fee required.

Biology 101
General Biology 4 Cr.
3 Lec., 3 Lab.
This course is a prerequisite for all higher level biology courses and should be taken in sequence. Recommended for science majors. Emphasis is structure and function at the cell, tissue, and organ system levels of organization in both plant and animal. Laboratory fee required.

Biology 102
General Biology 4 Cr.
3 Lec., 3 Lab.
This course is a continuation of Biology 101. Emphasis is mendelian and molecular genetics, evolutionary mechanisms, plant and animal development, and the energetics and regulation of ecological communities. Laboratory fee required.

Biology 115
Biological Science 4 Cr.
3 Lec., 3 Lab.
A presentation of selected topics in biological science for the non-science major including the cell concept, basic chemistry as it relates to biology, an introduction to genetics, cellular processes such as mitosis, meiosis, respiration, photosynthesis, and plant and animal reproduction. Laboratory fee required.

Biology 116
Biological Science 4 Cr.
3 Lec., 3 Lab.
No prerequisite. A study of selected topics of biological science for the non-science major including all systems of the human body, disease, drug abuse and aging, evolution, ecology and man in relation to his environment. Laboratory fee required.

Biology 120
Introduction to Human Anatomy and Physiology 4 Cr.
3 Lec., 2 Lab.
A two semester course in anatomy and physiology, introducing the normal structure of the human body, its cells, organs, and systems, and the functioning of these units. This course serves as a foundation for present and future specialization for students of A.D. nursing and allied health disciplines. Other students interested in the study of the functioning of the human body should consult a counselor. No science background is presupposed. Thorough grounding in the basic chemistry of life processes, cell theory, genetics, embryology and anatomy and physiology will be provided. Coordination of body systems for integral functioning will be stressed. Laboratory fee required.

Biology 121
Introduction to Human Anatomy and Physiology 4 Cr.
3 Lec., 2 Lab.
Prerequisite: Biology 120. A continuation of Biology 120. Laboratory fee required.

Biology 203
Intermediate Botany 4 Cr.
3 Lec., 3 Lab.
Prerequisites: Biology 101 and 102. A survey of the major plant groups with em-
phasis placed on morphology, physiology, classification, life cycles, and evolutionary relationships to each other and their economic importance to man. Recommended for science majors. Laboratory fee required.

**Biology 216**
**General Microbiology**

3 Lec., 4 Lab.

Prerequisite: Biology 102 or consent of instructor. A study of microbes with emphasis on growth, reproduction, nutrition, genetics and ecology of micro-organisms. Laboratory activities will constitute a major part of the course. Recommended for science majors and science related programs. Laboratory fee required.

**Biology 221**
**Anatomy and Physiology I**

3 Lec., 3 Lab.

Prerequisite: Biology 102 or approval of instructor. First course of a two course sequence. Structure and function as related to the human skeletal, muscular and circulatory system. Emphasis placed on the inter-relationships of these systems. Laboratory fee required.

**Biology 222**
**Anatomy and Physiology II**

3 Lec., 3 Lab.

Prerequisite: Biology 221 or approval of instructor. Second course of a two course sequence. Structure and function as related to the human digestive, nervous, respiratory, reproductive and endocrine systems. Emphasis placed on the inter-relationships of these systems. Laboratory fee required.

**Biology 224**
**Environmental Biology**

3 Lec., 3 Lab.

Prerequisite: 6 hours biology. A one semester course dealing with the basic principles and techniques of aquatic and terrestrial communities and how these relate to the problems facing man in a modern technological society. Laboratory fee required.

**Biology 226**
**Genetics**

4 Cr.

Fundamental concepts in genetics to include mendelian inheritance, recombination genetics, the biochemical theory of genetic material and mutation theory. Plant and animal materials will be used to study population genetics, linkage, gene structure and function and other concepts of heredity. Laboratory fee required.

**Biology 230**
**Mammalian Physiology**

3 Lec., 3 Lab.

Prerequisite: 12 hours of biology, 8 hours of inorganic chemistry, concurrent registration in organic chemistry, and consent of instructor. A study of the function of various mammalian systems with emphasis placed on the interrelationships that exist. Utilization of instrumentation to measure various physiological parameters will be employed. Laboratory fee required.

**Biology 290**
(See Ecology 290)

**Blueprint Reading 177**
**Blueprint Reading**

2 Cr.

1 Lec., 3 Lab.

The description and explanation of engineering drawings is the content of the course. This includes multiview projection, sections, auxiliaries, bill of materials, symbols, notes, conventions, and standards. The skills of visualization, dimensioning, and sketching of machine parts are covered in the course.

**Blueprint Reading 178**
**Blueprint Reading**

2 Cr.

1 Lec., 3 Lab.

Prerequisite: Blueprint Reading 177. This course goes beyond the basic course in respect to the kinds and complexities of engineering drawings. The different kinds of prints read are machine, piping, architectural, civil, structural, electrical, electronic, numerical control documents, and aircraft. Calculations required in blueprint reading are learned: tolerances on shafts and holes, gear drives and dimensioning, square root, right triangle trigonometry, true position tolerances, geometric form tolerancing, and calculation of bend allowance.
Bookkeeping
(See Business 131, 132)

Business Mathematics
(See Mathematics 130)

Business 105
Introduction to Business 3 Cr.
3 Lec.
Provides overall picture of business operation; includes analysis of specialized fields within business organization; identifies role of business in modern society. (This course is offered on campus and via television.)

Business 131
Bookkeeping 3 Cr.
3 Lec.
The fundamental principles of double-entry bookkeeping as applied to practical business situations. Emphasis is given to the following: financial statements, trial balances, work sheets, special journals, adjusting and closing entries. A practice set covering the entire business cycle will be completed.

Business 132
Bookkeeping 3 Cr.
3 Lec.
Prerequisite: Business 131. Attention will be given to accruals, bad debts, taxes, depreciation, controlling accounts, and business vouchers. Bookkeeping for partnerships and corporations will be introduced.

Business 136
Principles of Management 3 Cr.
3 Lec.
A study of the process of management, including the functions of planning, organizing, leading, and controlling. Particular emphasis on policy formulation, decision making processes, operating problems, communications theory, and motivation techniques.

Business 143
Personal Finance 3 Cr.
3 Lec.
A study of everyday financial problems encountered in managing personal affairs. Includes financial planning, insurance, budgeting, use of credit, home ownership, savings, investment, and tax problems. (This course can be offered on campus and via television.)

Business 150
Management Training 4 Cr.
20 Lab.
Prerequisite: concurrent enrollment in approved mid-management program. Supervised employment in the student’s chosen field. Intended to provide practical experience for students preparing for careers in business management. Business 150 will be offered the first semester.

Business 151
Management Training 4 Cr.
20 Lab.
Prerequisite: concurrent enrollment in approved mid-management program. A continuation of Business 150. Business 151 will be offered the second semester.

Business 153
Small Business Management 3 Cr.
3 Lec.
The student will be studying the fundamental approaches to planning, establishing and operating a small business. The day-to-day operation of the business and reporting procedures will be studied as well as exploring the concepts of general management.

Business 154
Management Seminar: Role of Supervision 2 Cr.
2 Lec.
Prerequisites: concurrent enrollment in Business 150 and preliminary interview by mid-management faculty. Problem analysis and project development for students majoring in mid-management. Special emphasis is placed upon the development of management, goal setting and planning, leadership, communication and motivation as applied to the student’s work experiences.

Business 155
Management Seminar: Personnel Management 2 Cr.
2 Lec.
Prerequisites: Business 150, Business 154, and concurrent enrollment in Business 151. A study of the principles, policies, and practices relating to the personnel functions of business as applied to the student’s work experiences.
Business 159
Beginning Shorthand 4 Cr.
3 Lec., 2 Lab.
Prerequisite: credit in or concurrent enrollment in Business 173 or one year of typing in high school. Introduction of fundamental principles of Gregg Shorthand, Diamond Jubilee Series. Includes development of ability to read, write and transcribe shorthand outlines. Development of knowledge of mechanics of English.

Business 161
Office Machines 2 Cr.
1 Lec., 2 Lab.
Office machines is designed to provide the student with a skill in the operation of such machines as adding machines, printing calculators, and electronic calculators. Emphasis is placed on using the touch system in both speed and accuracy for performing the basic functions, solving problems that require the use of special keys and controls, and solving application problems.

Business 162
Secretarial Training 3 Cr.
3 Lec.
Prerequisite: credit in Business 173 or one year of typing in high school. Special emphasis is given to the most frequently performed secretarial duties. Units of work include filing, skill in the use of duplicating machines, mail, telegraph, postal and shipping service, handling travel details and meeting arrangements. Duties of the receptionist and development of a desirable secretarial appearance and personality are studied.

Business 164
Intermediate Shorthand 3 Cr.
2 Lec., 3 Lab.
Prerequisites: credit in Business 159 or one year of shorthand in high school: credit in Business 173 or one year of typing in high school. Application of principles of Gregg Shorthand to develop the ability to take and accurately transcribe shorthand notes at increased dictation speeds. Includes oral reading of shorthand outlines, speed building dictation and timed mailable transcripts. Training to strengthen knowledge of English mechanics and reinforce typing skills.

Business 165
Introduction to Word Processing 3 Cr.
3 Lec.
Development of word processing concepts and skills. Skills include writing and transcribing business communications from a variety of professions, industries, and government agencies; operating electric typewriters; using correct grammar, spelling, and punctuation; and proofreading. Training in the use of major dictating transcribing machines with electric typewriters. Goal is development of employable skill in an office or word processing center.

Business 171
Introduction to Supervision 3 Cr.
3 Lec.
Prerequisite: enrollment in technical occupational program or consent of the instructor. A course studying today’s supervisor and his problems. The course objective is to describe the practical concepts of modern-day, first line supervision. Emphasis is placed on discussing the supervisor’s major functions: relations with others, motivation, communication, grievances, recruitment, counseling, and the fundamentals of cost accounting.

Business 173
Beginning Typing 2 Cr.
1 Lec., 2 Lab.
Fundamental techniques in typewriting are developed. The skills involved in typing manuscripts, business letters and tabulation are introduced. This course is for students with no previous training in typewriting.

Business 174
Intermediate Typing 2 Cr.
1 Lec., 2 Lab.
Prerequisite: credit in Business 173 or one year of typing in high school. Further development of techniques. Emphasis will be placed on problem solving, increasing speed and accuracy in typing business forms, correspondence and manuscripts.
Business 201
Principles of Accounting 3 Cr.
3 Lec.
Theory and practice of measuring and interpreting financial data for business units; study of problems of income measurement, such as depreciation, inventory valuation, and credit losses; the operating cycle and the preparation of financial statements.

Business 202
Principles of Accounting 3 Cr.
3 Lec.
Prerequisite: Business 201. Accounting procedures and practices applicable to partnerships and corporations; the use of cost data, budgetary controls, analysis and interpretation of financial reports for use by creditors, investors, and management.

Business 203
Intermediate Accounting 3 Cr.
3 Lec.
Prerequisite: Business 202. An intensive study of the concepts, principles, and practice of modern financial accounting. Included is a complete study of the purposes and procedures underlying the financial statements.

Business 206
Principles of Marketing 3 Cr.
3 Lec.
A study of the scope and structure of marketing institutions in the marketplace today. Analysis of the marketing functions, consumer behavior, market research, sales forecasting and relevant state and federal laws.

Business 230
Salesmanship 3 Cr.
3 Lec.
A course in general salesmanship involving the factors of successful selling of goods and ideas. Buying motives, sales psychology, customer approach, and sales techniques are studied.

Business 231
Business Correspondence 3 Cr.
3 Lec.
Prerequisites: credit in Business 173 or one year typing in high school; credit in Communications 131 or English 101. A practical course that includes a study of letter forms, the mechanics of writing, and composing various types of communications. A critical analysis of the appearance and content of representative business correspondence is made.

Business 233
Advertising and Sales Promotion 3 Cr.
3 Lec.
Introduces the fundamental principles, practices and common media used in persuasive communication. Includes an insight into buyer behavior, use of advertising media to motivate consumers, and methods of stimulating salespeople and retailers. Familiarizes the student with the management of promotion programs with respect to goals, strategies, evaluation and control of promotional activities.

Business 234
Business Law 3 Cr.
3 Lec.
This course is designed to acquaint the student with the historical and ethical background of the law and to familiarize him with present day principles of law. Particular emphasis on contracts, property (bailments, sales, leases, wills, and estates), and torts.

Business 250
Management Training 4 Cr.
20 Lab.
Prerequisites: Business 150-151; concurrent enrollment in Business 254. Continuation of supervised employment in the student's chosen field. Intended to provide increased supervisory responsibility for students preparing for careers in business management. Business 250 will be offered the first semester.

Business 251
Management Training 4 Cr.
20 Lab.
Prerequisites: Business 150-151; concurrent enrollment in Business 255. A continuation of Business 250. Business 251 will be offered the second semester.

Business 254
Management Seminar — Organizational Development 2 Cr.
2 Lec.
Prerequisites: Business 151, 155 and concurrent enrollment in Business 250. A study of the organizational objectives and management of human resources including the various approaches to organizational theory as applied to the student's work experiences.

Business 255
Management Seminar — Business Strategy, The Decision Process and Problem Solving  
2 Cr.  
2 Lec.

Prerequisites: Business 250, Business 254 and concurrent enrollment in Business 251. Business strategy and the decision making process applied to the first line supervisor and middle-management positions. Specific emphasis will be placed upon the application of the student's course knowledge and work experiences.

Business 263
Advanced Shorthand  
3 Cr.  
2 Lec., 3 Lab.

Prerequisites: credit in Business 164 or two years of shorthand in high school; credit in Business 174 or two years of typing in high school. Further development of shorthand skills to attain proficiency required for stenographic work. Emphasis on speed building dictation, timed typewritten transcription of shorthand notes for mailable letters.

Business 264
Shorthand Transcription  
3 Cr.  
2 Lec., 3 Lab.

Prerequisites: credit in Business 263; credit in Business 273. Emphasis upon specialized dictation, mailable transcriptions, and vocabulary building. Development of high-level skill in production work meeting office standards.

Business 273
Advanced Typing  
2 Cr.  
1 Lec., 2 Lab.

Prerequisites: Credit in Business 174 or two years of typing in high school. Decision making and timed production of all types of business material are emphasized. A continuation of skill development and a review of typing techniques are also stressed. This course will demand accuracy at advanced speeds.

Chemistry 101
General Chemistry  
4 Cr.  
3 Lec., 3 Lab.

Prerequisite: Developmental Mathematics 093 or equivalent. Designed for science and science-related majors. The course includes the fundamental laws and theories dealing with the structure and interactions of matter and the use of these principles in understanding the properties of matter, chemical bonding, chemical reactions, the physical states of matter and changes of state. The fundamental principles are applied to the solution of quantitative problems relating to chemistry. Laboratory fee required.

Chemistry 102
General Chemistry  
4 Cr.  
3 Lec., 3 Lab.

Prerequisite: Chemistry 101. Designed for science and science-related majors, this course is a continuation of Chemistry 101. The fundamental concepts introduced previously, together with additional ones, are applied to a variety of topics, including solutions and colloids, chemical kinetics and equilibrium, electrochemistry, and nuclear chemistry. Qualitative inorganic analysis is included in the laboratory work. Laboratory fee required.

Chemistry 115
General Chemistry  
4 Cr.  
3 Lec., 3 Lab.

Prerequisite: Developmental Mathematics 091 or equivalent. Designed for non-science majors, the course traces the development of theoretical concepts and the evolution of these concepts in explaining various observations and laws relating to chemical bonding reactions, states of matter, solution, electrochemistry and nuclear chemistry. The descriptive chemistry of some common elements and inorganic compounds is included. Laboratory fee required.

Chemistry 116
General Chemistry  
4 Cr.  
3 Lec., 3 Lab.
Prerequisite: Chemistry 115. Designed for non-science majors, this course covers organic chemistry and biochemistry. The important classes of organic compounds are surveyed with the concept of structure providing the central theme. The biochemistry section includes carbohydrates, proteins, lipids, chemistry of heredity, disease and therapy and plant biochemistry. Laboratory fee required.

Chemistry 132
Applied Chemistry I
3 Lec., 3 Lab.
A survey of inorganic and organic chemistry. Applicability to veterinary medicine is stressed. The utilization of the metric system is stressed. Laboratory fee required.

Chemistry 134
Applied Chemistry II
3 Lec., 3 Lab.
Prerequisite: Chemistry 132. In-depth analysis of carbohydrates, proteins, fats, vitamins, minerals and hormones. Their role in a physiological system will be stressed. Changes in biochemical activity in the disease state will be presented. Laboratory fee required.

Chemistry 201
Organic Chemistry I
4 Cr.
3 Lec., 4 Lab.
Prerequisite: Chemistry 102. Designed for science and science related majors. An integrated introductory course in organic chemistry dealing with the fundamental types of organic compounds, their nomenclature, classification, reactions, and applications. The reactions of aliphatic and aromatic compounds are discussed in terms of modern electronic theory with emphasis on reaction mechanisms, stereochemistry, transition state theory, and technique of organic synthesis. Laboratory fee required.

Chemistry 202
Organic Chemistry II
4 Cr.
3 Lec., 4 Lab.
Prerequisite: Chemistry 201. Designed for science and science related majors, this course is a continuation of Chemistry 201. Emphasis will be given to the further development of aliphatic and aromatic systems, polyfunctional compounds including amino acids, proteins, carbohydrates, sugars, heterocyclic and related compounds. Instrumental techniques will be used to identify compounds. Laboratory fee required.

Chemistry 203
Quantitative Analysis
4 Cr.
2 Lec., 6 Lab.
Prerequisites: Chemistry 102, Mathematics 101 or Mathematics 104 or equivalent. This course includes the principles of chemistry as applied by the analytical chemist to quantitative determinations. Topics include gravimetry, oxidation-reduction, indicators, and acid-base theory. Laboratory experience focuses on the fundamentals of gravimetric and volumetric analysis with an introduction to colorimetry. Laboratory fee required.

Communications 131
Applied Composition and Speech
3 Cr.
3 Lec.
The study of communications skills as a practical means of preparing for successful performance in the student's chosen vocation. Practice in writing letters, applications, resumes, and short reports.

Communications 132
Applied Composition and Speech
3 Cr.
3 Lec.
Prerequisite: Communications 131 or consent of instructor. The study of communication processes with emphasis on written persuasion directly related to occupational training and work experience. Use of expository techniques in business letters and documented reports. Practice in oral communications.

Computing Sciences 175
Introduction to Computer Sciences
3 Cr.
3 Lec.
Provides a basic understanding of the computer, cultural impact, history of computers, vocabulary, flow charts, data representation, and an introduction to procedure-oriented languages with general applications.
Computing Sciences 208
Introductory APL
Programming 3 Cr. 3 Lec.
Prerequisites: Mathematics 101 or Mathematics 104 or Mathematics 111, and Mathematics 107 or consent of instructor.
A study of APL language with emphasis on applications. This course is designed for partial fulfillment of degree requirements in computer science, but is recommended for mathematics, science, and business majors.

Cooperative Work Experience
701, 711, 801, 811 1 Cr.
702, 712, 802, 812 2 Cr.
703, 713, 803, 813 3 Cr.
704, 714, 804, 814 4 Cr.
Prerequisite: completion of two courses in the student’s major and instructor/coordinator approval. This course constitutes an on-the-job application of theory and laboratory instruction received in the formal courses of the student’s major curricula. The student will be placed in a work-study position in his technical/occupational field that will test his skill and ability to function successfully in that respective occupation. The student’s learning in this course will be guided by a set of learning objectives formulated at the beginning of each semester by the student, his instructor/coordinator, and his supervisor at work. The instructor will determine if the learning objectives are valid and will give final approval for credit. The student will have a regularly scheduled meeting with his instructor and will complete appropriate assignments given to him by his instructor.

Developmental Communications 095
Communication Skills 3 Cr. 3 Lec.
A course designed for the student who needs grammar, paragraph structure, reading skills, and/or oral communication to enhance his proficiency in language communications. Students will be tested and given prescribed work in one or a combination of the elements of study as the individual needs indicate.

Developmental Communications 120
Communication Skills 3 Cr. 2 Lec., 2 Lab.
Designed for students with significant problems in communications development causing learning problems. Group sessions are supplemented with individual evaluations to provide a basis for the development of personalized programs based on needs. Inter-departmental planning provides alternative modes of learning. Special attention is given to oral language as the initial language form. The course is organized in terms of skills development in a competency-based mode and enrollment may be accepted on a flexible basis on instructor referral.

Developmental Learning 094
Learning Skills Improvement
Developmental Studies 1 Cr. 2 Lab.
A course designed for the student who needs improvement in developmental skills to enhance his performance in academic or career programs. Student will be assigned specific objectives as the individual needs indicate. May be repeated for a maximum of three (3) credits.

Developmental Mathematics
Developmental Mathematics courses are offered on a self-paced, individualized basis. These courses may be taken for review of mathematics skills. Developmental Mathematics 093 satisfies prerequisites for Mathematics 101, 104, 111, and 115. Developmental Mathematics 091 satisfies prerequisites for Mathematics 130, 139, and 195.

Developmental Mathematics 060
Basic Mathematics I 1 Cr. 1 Lec.
This course is designed to give an understanding of fundamental operations dealing with selected topics such as whole numbers, decimals and setting up and solving ratio and proportions.

Developmental Mathematics 061
Basic Mathematics II 1 Cr. 1 Lec.
This course is designed to give an understanding of fractions by dealing with selected topics including primes, factors, least common multiples and basic operations with fractions. This course also is designed to give an understanding of the basic operations of percent.

Developmental Mathematics 063
Pre Algebra 1 Cr. 1 Lec.
This course is designed to introduce students to the language of algebra by dealing with such topics as integers, metrics, equations and properties of counting numbers.

Developmental Mathematics 070
Elementary Algebra I 1 Cr. 1 Lec.
Prerequisites: Developmental Mathematics 090, 063, or equivalent. Designed as an introduction to algebra which includes selected topics such as basic principles and operations of sets, counting numbers and integers.

Developmental Mathematics 071
Elementary Algebra II 1 Cr. 1 Lec.
Prerequisite: Developmental Mathematics 070 or equivalent. Designed as a sequel to Developmental Mathematics 070 which includes selected topics such as rational numbers, algebraic polynomials, factoring and algebraic fractions.

Developmental Mathematics 072
Elementary Algebra III 1 Cr. 1 Lec.
Prerequisite: Developmental Mathematics 071 or equivalent. Designed as a sequel to Developmental Mathematics 071 to include selected topics such as fractional and quadratic equations, quadratic equations with irrational solutions, and systems of equations involving two variables.

Developmental Mathematics 073
Introduction to Geometry 1 Cr. 1 Lec.
This course is designed to introduce principles of geometry. Axioms, theorems, axiom systems, models of such systems, and methods of proof will be stressed.

Developmental Mathematics 080
Intermediate Algebra I 1 Cr. 1 Lec.
Prerequisites: Developmental Mathematics 072, 091 or equivalent. This course is designed to include a study of selected topics such as systems of rational numbers, real numbers, and complex numbers.

Developmental Mathematics 081
Intermediate Algebra II 1 Cr. 1 Lec.
Prerequisite: Developmental Mathematics 080 or equivalent. Designed as a sequel to Developmental Mathematics 080 and includes such selected topics as sets, relations, functions, inequalities and absolute values.

Developmental Mathematics 082
Intermediate Algebra III 1 Cr. 1 Lec.
Prerequisite: Developmental Mathematics 081 or equivalent. This course is designed as a sequel to Developmental Mathematics 081 and includes such selected topics as graphing, exponents, and factoring.

Developmental Mathematics 090
Pre-Algebra Mathematics 3 Cr. 3 Lec.
This course is designed to develop an understanding of fundamental operations using whole numbers, fractions, decimals, and percentages and to strengthen basic skills in mathematics. The course is planned primarily for students who need to review basic mathematical processes. It is the first step in the mathematics sequence and includes an introduction to algebra.

Developmental Mathematics 091
Elementary Algebra 3 Cr. 3 Lec.
Prerequisite: Developmental Mathematics 090 or equivalent. This course is designed to develop an understanding of first year algebra. It includes special products and factoring, fractions, equations, graphs, functions, and an introduction to geometry.

Developmental Mathematics 093
Intermediate Algebra 3 Cr. 3 Lec.
Prerequisite: one year of high school
algebra or Developmental Mathematics 091. Includes the terminology of sets, properties of real numbers, fundamental operations on polynomials and fractions, products, factoring, radicals, and rational exponents. Also covered are solutions of linear, fractional, quadratic, and systems of linear equations, coordinate systems, and graphing.

Developmental Reading
Students can improve and refine their performance in the English sequence by enrolling in developmental reading courses. Developmental Reading 090, 091, 092 are valuable skill development courses for English 101. Reading 101 is especially helpful in English 102 and the sophomore level literature courses. See catalogue description in reading for full course content.

Developmental Reading 090
Techniques of Reading/ Learning 3 Cr. 3 Lec.
Developmental Reading 090 is designed to meet individual needs for proficiency in reading comprehension, vocabulary development, study skills, and reading for success in academic areas and career advancement. It emphasizes learning how to learn and includes reading/learning experiences developed to strengthen the total educational background of each student. Developmental Reading 090 and Developmental Reading 091 are offered in a laboratory setting employing varied instructional methods.

Developmental Reading 091
Techniques of Reading/ Learning 3 Cr. 3 Lec.
Developmental Reading 091 is designed to meet individual needs for proficiency in reading comprehension, vocabulary development, study skills, and reading for success in academic areas and career advancement. It emphasizes learning how to learn and includes reading/learning experiences developed to strengthen the total educational background of each student. Developmental Reading 090 and Developmental Reading 091 are offered in a laboratory setting employing varied instructional methods.

Developmental Writing
Students can improve their level of success in all courses requiring writing assignments by registering for developmental writing. These courses, offered for one to three hours credit, consider organization skills, and research paper styles, as well as individual writing weaknesses.

Developmental Writing 090
Writing 3 Cr. 3 Lec.
Developmental Writing 090 emphasizes the diagnosis and correction of deficiencies in basic writing skills. Spelling, grammar, vocabulary improvement, and principles of sentence and paragraph structure (as well as experience in organization for composition) are taught in a laboratory utilizing individualized instruction techniques.

Developmental Writing 091
Writing 3 Cr. 3 Lec.
Developmental Writing 091 is a sequel to Writing 090 and concentrates on the composition process; therefore, it is important to develop the student's skills of organization, transition and prevision. His program of composition will vary according to his individual needs, which may include brief, simple forms as well as more complex critical and research writing.

Developmental Writing 092
Writing Lab 1 Cr. 3 Lab.
Developmental Writing Lab 092 is a workshop to facilitate writing success for course work and other individual interests. Students are given instruction and supervision in written assignments, including the research paper, and in editing for mechanical effectiveness.

Directed Studies
901 1 Cr.
902 2 Cr.
903 3 Cr.
Prerequisite: completion of twelve semester hours in residence and the approval of a Division Chairman and the appropriate Dean. Recommended for honor students in a major area offered by a division or for student requesting study in-depth in a par-
ticular area. The courses may include special projects, honors seminars, field study, or independent study. Upon approval, may be repeated for credit.

**Drafting, Basic**  
(See Drafting 183)

**Drafting 135**  
Production Processes 2 Cr.  
1 Lec., 3 Lab.

A study of equipment and processes used to reproduce technical art: graphic arts process camera, lithographic offset printing, Diazo reproduction, blueprinting, photodrafting, microfilming, photocopying, silk screen printing, printed circuit board etching, thermography, typographies, xerography, engravings, and others. A special section of the course is a study of the rapidly expanding field of computergraphics. Laboratory work includes the preparation of flats for the printing of a brochure. Laboratory fee required.

**Drafting 136**  
Geological and Land Drafting 3 Cr.  
2 Lec., 4 Lab.

Prerequisites: Drafting 183 and Mathematics 196. This is a specialty course to prepare one for work in the area of civil drafting. Drawings completed are relief maps, plan and profile drawings, roadways, pipelines, petroleum and geophysical maps. Calculations are made from surveyor’s notes to plot a traverse and to determine area. A set of drawings is prepared for a residential subdivision, a shopping center, or some other type of land development.

**Drafting 182**  
Technician Drafting 2 Cr.  
1 Lec., 3 Lab.

A beginning drafting course to enable students to read and interpret engineering drawings. Topics covered include multiview drawings, pictorial drawings, dimensioning, measurement change with scales, schematic diagrams, and printed circuit boards.

**Drafting 183**  
Basic Drafting 4 Cr.  
2 Lec., 6 Lab.

A beginning course for students who have had little or no previous experience in drafting. The principal objectives are basic understanding of orthographic projection; skill in orthographic, axonometric, and oblique sketching and drawing; lettering fundamentals; applied geometry; fasteners; sectioning; tolerancing; auxiliaries; experience in using handbooks and other resource materials; and development of design skills. U.S.A.S.I., government and industrial standards are used. Emphasis is placed on both mechanical skills and graphic theory.

**Drafting 184**  
Intermediate Drafting 3 Cr.  
2 Lec., 4 Lab.

Prerequisite: Drafting 183. The instructional units provide additional understanding of drafting problems, place emphasis on the design function, and introduce several specialized drafting areas that are valuable for the designer. This course includes the detailing and assembling of machine parts, gears and cams, jigs and fixtures, a study of metals and metal forming processes, drawing room standards and reproduction of drawings. The student is assigned to work that requires him to make complete and accurate detail and assembly drawings. Laboratory fee required.

**Drafting 185**  
Architectural Drafting 4 Cr.  
2 Lec., 6 Lab.

Prerequisite: Drafting 183 or equivalent. A course in basic architectural drafting beginning with the development of techniques in architectural lettering, drafting of construction details, using appropriate material symbols and conventions. Working drawings including plans, elevations, sections and details as prepared for building construction including steel, concrete, and timber structural components will be emphasized. Reference materials will be used to provide the draftsman with skills in locating data and in using handbooks.

**Drafting 230**  
Structural Drafting 3 Cr.  
2 Lec., 4 Lab.

Prerequisites: Drafting 183 and Mathematics 196. A study of stresses, thermal and
elastic qualities of materials such as beams and columns, etc.; requires the student to develop structural plans, details and shop drawings of components of buildings to include steel, reinforced concrete, and timber structures. Emphasis will be placed on drafting of appropriate drawings for fabrication and erection of structural components.

Drafting 231
Electronic Drafting 3 Cr.
2 Lec., 4 Lab.
Prerequisite: Drafting 183. Develops skills in drawing and understanding of drawings used in the electronics industry. Topics include logic diagrams, schematic diagrams, interconnecting wiring diagrams, printed circuit boards, integrated circuits, component packaging, chassis design and current practices.

Drafting 232
Technical Illustration 3 Cr.
2 Lec., 4 Lab.
Prerequisite: Drafting 183. Instruction and experience in the rendering of three-dimensional drawings. Orthographic views and engineer's sketches are developed into isometric, dimetric, perspective, and diagramatic drawings of equipments and their environments. Mechanical lettering, air brush retouching of photographs, use of commercially prepared pressure sensitive materials, and layout of electronics schematics are included in the course. Laboratory fee required.

Drafting 233
Machine Design 4 Cr.
2 Lec., 6 Lab.
Prerequisites: Physics 131 and credit or concurrent registration in Engineering 189. Consists of the application of the principles of physics, statics, strength of materials, and physical properties of materials to the design of machine elements. Factors considered are function, environment, production, problems, and cost. Emphasis is placed on the practical application of design principles in graphic form.

Drafting 234
Advanced Technical Illustration 4 Cr.
2 Lec., 6 Lab.
Prerequisite: Drafting 232. An area of specialization is chosen and pursued in depth. Examples are pictorials for color separation printing, air brush renderings, letterforms for logos and hand lettering, complex exploded views in isometric, perspective renderings, design of commercial displays, and art for slide presentations. Laboratory fee required.

Drafting 235
Building Equipment (Mechanical and Electrical) 3 Cr.
2 Lec., 4 Lab.
Prerequisite: Drafting 183 or Drafting 185. Involves the drawing of plans and details as prepared for mechanical equipment such as air conditioning, plumbing, and electrical systems by using appropriate symbols and conventions. Consideration is given to coordination of mechanical and electrical features with structural and architectural components. Laboratory fee required.

Drafting 236
Piping and Pressure Vessel Design 3 Cr.
2 Lec., 4 Lab.
Prerequisites: Drafting 183 and Mathematics 195 or equivalent. Presents the methods of piping of fluids for refineries, petrochemical plants, and industrial facilities. Consists of the application of ASME codes to the design of pressure vessels, pipe fitting, welded and seamless piping, pumps, and heat exchanges. Drawing techniques are emphasized in orthographic and isometric projections. Laboratory fee required.

Drafting 804
(See Cooperative Work Experience)

Drafting 814
(See Cooperative Work Experience)

Earth Science 117
Earth Science 4 Cr.
3 Lec., 2 Lab.
The course encompasses the interaction of the earth sciences and man's physical world. Geology, astronomy, meteorology, and space science are emphasized through the application of selected principles and
concepts of the applied sciences. The course is directed toward the non-science major. Laboratory fee required. (This course can be offered on campus and via television.)

Ecology 290
Man and his Environment I 3 Cr.
3 Lec.
Selected topics affecting man and his environment will be treated through seminars, field studies, and special lectures. Recognized authorities and specialists from the many academic disciplines will be used as guest lecturers and resource persons. Man's responsibility to his environment, both biological and physical, will be the thesis of this course and its presentation will be interdisciplinary. This course is directed to all students interested in the environmental problems of today. (This course is offered via television.)

Ecology 291
Man and his Environment II 3 Cr.
3 Lec.
A course designed to increase environmental awareness and knowledge. Areas of study include pollution, erosion, land use, energy resource depletion, overpopulation, and the effects of unguided technological development. Through documentaries and interviews with experts, an emphasis is placed on proper planning of societal and individual action in order to protect the natural environment. (This course is offered via television.)

Economics 201
Principles of Economics I 3 Cr.
3 Lec.
The fundamental principles of macroeconomics. Economic organization, national income determination, money and banking, monetary and fiscal policy, economic fluctuations and growth. Sophomore standing recommended.

Economics 202
Principles of Economics II 3 Cr.
3 Lec.
Prerequisite: Economics 201 or the consent of the instructor. The fundamental principles of microeconomics. Theory of demand, supply, and price of factors; income distribution; theory of the firm. Emphasis also on international economics and contemporary economic problems.

Electronics Technology 135
D.C.-A.C. Theory and Circuit Analysis 6 Cr.
5 Lec., 3 Lab.
Prerequisite: credit or concurrent enrollment in Mathematics 195 or equivalent. An accelerated course combining D.C. and A.C. theory in one semester's work. Topics covered include D.C. and A.C. analysis of resistive, capacitive, inductive, and combination circuits, magnetism, resonance, sine wave analysis, series, parallel and combination circuits, and schematic symbols. Laboratory fee required.

Electronics Technology 190
D.C. Circuits and Electrical Measurements 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Mathematics 195 or equivalent recommended. Combines mathematical theory and laboratory fundamentals in direct current circuits. Elementary principles of magnetism, electric concepts and units, diagrams, resistance series and parallel circuits, simple meter circuits, conductors, and insulators will be emphasized. Laboratory fee required.

Electronics Technology 191
A.C. Circuits 4 Cr.
3 Lec., 3 Lab.
Prerequisites: Electronics Technology 190 and or credit or concurrent enrollment in Mathematics 195 or equivalent. This course is directed to the study of fundamental theories of alternating current and their applications in various circuits. Laboratory experiments will include power factor, sine wave analysis, resonant circuits, capacitance, inductance, Q of coils, electromagnetism, and resistance. Laboratory fee required.

Electronics Technology 193
Active Devices 4 Cr.
3 Lec., 3 Lab.
Prerequisites: Electronics Technology 190 and credit in or taken concurrently with Electronics Technology 191. This is a course in semiconductors (active devices). This course will cover topics such as phys-
tical structure, parameters, linear and non-linear characteristics, and operation action as applied to amplifiers, rectifiers, and electronic switching devices. Laboratory fee required.

Electronics Technology 194
Instrumentation 3 Cr.
2 Lec., 3 Lab.
Prerequisites: Electronics Technology 190 and credit or concurrent enrollment in Electronics Technology 191 and 193 or permission of instructor. A study of electrical measurement and instrumentation devices and how they apply to work situations. A study of specific devices and measuring instruments in classes of measuring devices including basic AC and DC measurement meters, impedance bridges, oscilloscopes, signal generators, signa-tracers, tube and transistor testers concluding with a study of audio frequency test methods and equipment. Laboratory fee required.

Electronics Technology 231
Special Circuits with Communications Applications 4 Cr.
3 Lec., 3 Lab.
Prerequisites: Electronics Technology 193 and Electronics Technology 194. Active devices are applied to circuitry common in communications equipment. Both the theory of operation and practical applications of the circuits in laboratory experiments are included. Circuits including amplifiers, oscillators, detectors, transmitters, modulators, transmission lines, and antennas with application to various types of intelligence transmission and reception are emphasized in the course. Laboratory fee required.

Electronics Technology 232
Analysis of Electronics Logic and Switching Circuits 4 Cr.
3 Lec., 3 Lab.
Prerequisites: Electronics Technology 193 and Electronics Technology 194. The course presents circuitry common to the increasing variety of electronic control systems and automatic measuring systems. These circuits require either a certain output waveform from a device or a specific response of a device to a particular input waveform. Typical circuit functions covered in the course include clamping, gating, switching, and counting. The circuits which perform these functions are voltage discriminators, multivibrators, dividers, counters and AND, or NOR, etc. gating circuits. A review of Boolean algebra and binary numbers will be presented. Emphasis is placed on semiconductor devices. Fluidic switching devices are introduced. Laboratory fee required.

Electronics Technology 233
Industrial and Microwave Electronics Technology 4 Cr.
3 Lec., 3 Lab.
Prerequisites: Electronics Technology 194 and Electronics Technology 231. The microwave portion of this semester's work involves a study of U.H.F. and V.H.F. components, circuits, and measurement techniques including the use of distributed constant-element waveguides, microwave links, and an introduction to radar and similar systems. The industrial electronics portion of the semester's work involves a study of time constant and electronic timing circuits, photoelectric controls, synchrons and servomechanisms, induction and dielectric heating, radiation detention, applications in the field of industrial control and automation, combining of electrical electronic, magnetic, and mechanical principles. Laboratory fee required.

Electronics Technology 234
Electronic Circuits and Systems 3 Cr.
6 Lab.
Prerequisites: must have completed all electronics courses up to and including Electronics Technology 231 and may take Electronics Technology 232 and Electronics Technology 231 simultaneously with Electronics Technology 234. A supervised course consisting of design, layout construction and calibration of an electronics project. Students will utilize all tools and equipment available. The student will be required to prepare a term paper which incorporates such material as functions of components, operating specifications, and schematics. The student must develop a project independently through conferences and activities directed
by the instructor. Laboratory fee required.

Electronics Technology 235  
Fundamentals of Electricity  4 Cr.  
3 Lec., 3 Lab.
An introductory course for students requiring or desiring a background knowledge of electricity for related curriculums or occupations. Topics covered include basic A.C. and D.C. theory, voltage, current and resistance; electrical wiring principles and schematics, transformers, relays, timers, electrical measuring devices, and basic electrical calculations. Laboratory fee required.

Engineering 106  
Descriptive Geometry 3 Cr.  
2 Lec., 4 Lab.
Prerequisite: Drafting 183 or Engineering 105. Provides training in the visualization of three-dimensional structures, and in accurately representing these structures in drawings by analyzing the true relationship between points, lines, and planes. Attention is given to the generation and classification of lines and surfaces, as well as intersections, developments, auxiliaries and revolutions. Laboratory fee required.

Engineering 186  
Manufacturing Processes 2 Cr.  
1 Lec., 2 Lab.
Introduces the student enrolled in technical programs to the many steps involved in manufacturing a product. This is accomplished by involving the class in producing a device with precision. The student gains practical experience with working drawings, a variety of machine tools, and the assembly of components. The student is made aware of the factors involved in selecting materials and economical utilization of materials. Laboratory fee required.

English 101  
Composition and Expository Reading 3 Cr.
A course designed to develop the student's skills in writing and in the critical analysis of prose. (This course is offered on campus and via television.)

English 102  
Composition and Literature 3 Cr.  
3 Lec.
Prerequisite: English 101. Writing and reading activities in poetry, drama, the short story, and the novel designed to increase the student's understanding and enjoyment of good literature. (This course is offered on campus and via television.)

English in the Sophomore Year  
(English 201, 202, 203, 204, 205, 206, 215, and 216 are independent units of three credit hours each, from which any combination of two will be selected to satisfy degree requirements in sophomore English. Student should consult catalog of the senior college he expects to attend for requirements in his major before choosing English courses.)

English 201  
British Literature 3 Cr.  
3 Lec.
Prerequisite: English 102. A study of significant works of British Literature from the Old English period through the eighteenth century.

English 202  
British Literature 3 Cr.  
3 Lec.
Prerequisite: English 102. Study of important works from the Romantic period to the present.

English 203  
World Literature 3 Cr.  
3 Lec.
Prerequisite: English 102. Reading and analysis of significant continental European works from the Greek Classical period through the Renaissance.

English 204  
World Literature 3 Cr.  
3 Lec.
Prerequisite: English 102. Study of ten to twelve important post-renaissance works of continental Europe, England, and America.

<td>3 Lec.</td>
<td>Development of regional variations of culture, including the distribution of races, religions, languages, and aspects of material culture, with emphasis on origins and diffusion.</td>
</tr>
<tr>
<td>Geology 101</td>
<td>Physical Geology</td>
<td>4 Cr.</td>
<td>3 Lec., 3 Lab.</td>
<td>Study of earth materials and processes for science and non-science majors. Includes introduction to geochemistry, geophysics, examination of the earth's interior, magnetism, setting in space, minerals, rocks, structure and geologic processes. Laboratory fee required.</td>
</tr>
</tbody>
</table>
Geology 102
Historical Geology 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Geology 101 or permission of the instructor. Study of earth materials and processes within a time perspective. For science and non-science majors. Utilizes fossils, geologic maps, and field studies to interpret geologic history. Laboratory fee required.

Geology 202
Introduction to Rock and Mineral Identification 3 Cr.
1 Lec., 3 Lab.
Prerequisites: Geology 101 and Geology 102. This is an elementary course in crystallography and physical properties of minerals and rocks. The student will study hand specimen identification of common rocks and minerals. Laboratory fee required.

German 101
Beginning German 4 Cr.
3 Lec., 2 Lab.
Essentials of grammar, easy idiomatic prose, stress on pronunciation, comprehension, and oral expression. Laboratory fee required.

German 102
Beginning German 4 Cr.
3 Lec., 2 Lab.
Prerequisite: German 101 or equivalent. Continuation of German 101 with emphasis on idiomatic language and complicated syntax. Laboratory fee required.

German 201
Intermediate German 3 Cr.
3 Lec.
Prerequisite: German 102 or equivalent or consent of the instructor. Reading, composition, grammar review and intense oral practice.

German 202
Intermediate German 3 Cr.
3 Lec.
Prerequisite: German 201 or equivalent. Continuation of German 201 with reading selections drawn more directly from contemporary literary sources. Composition.

Government 201
American Government 3 Cr.
3 Lec.
Prerequisite: Sophomore standing recommended. An introduction to the study of political science; origin and development of constitutional democracy (United States and Texas); federalism and intergovernmental relations; local government; parties, politics and political behavior. Satisfies requirements for Texas State Teacher's Certification. (This course is offered on campus and via television.)

Government 202
American Government 3 Cr.
3 Lec.
Prerequisites: Government 201 and sophomore standing recommended. A study of the United States and Texas legislative process, the executive and the bureau structure, the judicial process, civil rights and liberties, domestic policies. Other topics include foreign relations and national defense. Satisfies requirements for Texas State Teacher's Certification.

History 101
History of the United States 3 Cr.
3 Lec.
A general presentation of United States history, commencing with the European background and first discoveries. The pattern of exploration, settlement and development of institutions is followed throughout the Colonial period and the early national experience to 1877.

History 102
History of the United States 3 Cr.
3 Lec.
Prerequisite: History 101 recommended. A survey of the unfolding of United States history from the Reconstruction Era to the present day. The study includes social, economic and political aspects of American life and follows the development of the United States as a world power.

History 105
Western Civilization 3 Cr.
3 Lec.
A survey of the background for development of civilization in the West from an-
cient time through the Enlightenment; the Mediterranean world including Greece and Rome; the Middle Ages and the beginnings of modern history. Particular attention is paid to Renaissance, Reformation, the rise of the National state, the development of parliamentary government and the influences of European colonization.

History 106
Western Civilization 3 Cr. 3 Lec.

The unfolding of the pattern of modern western civilization form the Enlightenment to current times. A study of the Age of Revolution and the beginning of industrialism; the nineteenth century and the social, economic, and political factors of recent world history.

History 120
Afro-American History 3 Cr. 3 Lec.

A study of the role of the Negro in American history; overview of the slave trade and slavery in the United States; focus on contributions of the Negro in the U.S. from Colonial times. Emphasis on political, economic and sociological factors of the 20th century.

History 204
American Minorities 3 Cr. 3 Lec.

Prerequisites: Sociology 101 and/or six hours of U.S. history recommended. The principal minority groups in American society; their sociological significance and historic contributions. An emphasis will be placed on problems of intergroup relations, social movements and related social changes occurring on the contemporary American scene. The student may register for either History 204 or Sociology 204.

History 205
Studies in U.S. History 3 Cr. 3 Lec.

Prerequisites: Sophomore standing and six hours of American history. A treatment of selected topics in the history of the United States.

Horology 139
Antique Clock Theory and Repair 8 Cr.

2 Lec., 23 Lab. Includes history, design and repair techniques of French, German, English and early American clock movements, both weight-driven and spring-driven. The emphasis in laboratory practice is on cleaning procedures, rebushing plates, repivoting wheels, adjusting chime and strike trains for count wheel and rack-and-snell types. The wide variety of movement design studies covers grandfather, wall, shelf and Westminster chime types. The student will develop skill in the use and care of specialized hand tools and equipment. Laboratory fee required.

Horology 140
Modern Clock Theory and Repair 8 Cr. 2 Lec., 23 Lab.

An essential course for the retail horologist/clockmaker. Covers design factors and repair techniques of American, German and Swiss clock movements with weight, spring, motor and battery power in the 1-day, 8-day, and 400-day synchronous electric variations. Laboratory practice will develop the student's skill in the repair and adjustment of anniversary, cuckoo, travel, alarm, mantel, and electric and atmos clocks. Laboratory fee required.

Horology 141
Watch Cleaning and Assembly 8 Cr. 2 Lec., 23 Lab.

The student will develop skills in hand cleaning and ultrasonic machine cleaning of watch movements, in removing rust and scale, in inspection and proper lubrication of subassemblies. Learning will progress from the pocket watch through wrist and baguette sizes. Special emphasis is placed on the use and care of precision hand tools, personal work habits and attitudes, and on polishing case, crystal and band. An introduction to timing record analysis is part of this course. Laboratory fee required.

Horology 142
Watch Part Replacement 8 Cr. 2 Lec., 23 Lab.

The objective of this course is to develop the student's skill to the highest degree in the precise selection and replacement of
damaged watch parts. Detailed procedures are covered for changing balance staffs, stems, crown, gaskets, hands, roller jewels, balance and plate jewels, pallet jewels and mainsprings. Emphasis is placed on proper nomenclature, movement identification and metric measurement. The use and care of many special tools will be introduced, and the staking tool in particular will be mastered as the most versatile tool for the horologist. Laboratory fee required.

**Horology 143**  
**Advanced Watchmaking I**  8 Cr.  
2 Lec., 23 Lab.

The fine points of the horologist’s training are presented in this course. It will emphasize lab practice in lever escapement principles, hairspring manipulations and position adjusting. The electronic timing machine records will be analyzed to determine causes of error and to prove corrective action. Self-winding devices and calendar watch features will be thoroughly presented.

**Horology 144**  
**Advanced Watchmaking II**  8 Cr.  
2 Lec., 23 Lab.

This course is devoted to the repair and adjustment techniques of the more unusual types of watch movements encountered in retail repair work, such as the stopwatch and wrist chronograph. Also covered in great detail are electric movements and the newest electronic movements with tuning fork and quartz crystal resonators and solid state modules. Customer and business relations are practiced through estimating, record keeping and participation in local and national craft organizations. Laboratory fee required.

**Human Development 102**  
**Orientation**  1 Cr.  
1 Lec.

This is a course to help the student be successful in college. The student will make an individual contract with the instructor. Student experiences will include appropriate subject ‘packages’ such as ‘improving your vocabulary’, ‘how to take notes’, ‘study skills’, and ‘listening skills’. Also, an evaluation session with a counselor is included. A ‘package’ may be made up of

**Human Development 104**  
**Educational and Career Planning**  3 Cr.  
3 Lec.

A course in Human Development designed to identify problem areas of concern to the student who is entering college for the first time and to develop approaches to problem solving in relation to educational and career decisions through the process of group counseling. Activities are planned to promote mature interpersonal involvement within the group, the college, and the community through an understanding of the causes and effects of one’s own behavior in relation to himself and others.

**Human Development 105**  
**Basic Processes of Interpersonal Relationships**  3 Cr.  
3 Lec.

A course in human development designed to explore interpersonal relations through a study of theory and concepts of small group processes and actual participation in the human experience. Students will be given an opportunity to participate in experiences planned to increase one’s sensitivity to self and to others. A variety of activities is planned, partly by each class, designed to meet certain specific human needs of the students in the class.

**Human Development 106**  
**Personal and Social Growth**  3 Cr.  
3 Lec.

A course which deals with human development from the standpoint of the interaction between a person and his society. Understanding of self, the influences of society contributing to the development of self, and the success of the individual within a society are investigated. Adjustment to family, school, and society is developed.
Human Development 107
Developing Leadership Behavior 3 Cr. 3 Lec.

A course in human development designed to meet specific needs of students through participation in activities. The focus of this course will be on the development of group dynamics, leaderships, and human relations skills. Students will be required to participate in the management experience of planning, execution, and evaluation of activities. The theoretical body of knowledge regarding leadership development and growth in group dynamics and management skills will be emphasized.

Humanities 101
Introduction to the Humanities 3 Cr. 3 Lec.

Through an examination of interrelated examples of man's creative achievements, the humanities course attempts to enlarge awareness and increase understanding of the nature of man and the values of human life. (This course can be offered on campus and via television.)

Journalism
(Also see Photography 110)

Journalism 101
Introduction to Mass Communications 3 Cr. 3 Lec.

A survey course designed to provide students with a panoramic view of the field of mass communications and an understanding of the role of mass media in modern society. Not restricted to journalism majors.

Journalism 102
News Gathering and Writing 3 Cr. 2 Lec., 3 Lab.

Prerequisite: Typing ability. Beginning reporting, study of types of news, leads, body treatment of story, feature in lead, facts, background, and practice in writing straight news story. Required for all journalism majors.

Journalism 103
News Gathering and Writing 3 Cr. 2 Lec., 3 Lab.

Prerequisite: Journalism 102. Required for all journalism majors. A continuation of Journalism 102. The writing of more complex types of news stories. Specialized writing in the fields of sports, police news, markets, finance, society, amusements, government, and news interest to women. Additional laboratory work on the student newspaper.

Journalism 104
Student Publications 1 Cr. 3 Lab.

Individual staff assignments on the student newspaper in one of the following journalistic fields: writing, advertising, photography, cartooning, editing. Students are required to work at prescribed periods under supervision and must attend staff meetings. This course may not be taken for credit concurrently with Journalism 102 or 103. Credit limited to one unit per semester. May be repeated for a total of three units credit.

Journalism 105
Student Publications 1 Cr. 3 Lab.

Individual staff assignments on the student newspaper in one of the following journalistic fields: writing, advertising, photography, cartooning, editing. Students are required to work at prescribed periods under supervision and must attend staff meetings. This course may not be taken for credit concurrently with Journalism 102 or 103. Credit limited to one unit per semester.

Journalism 201
Editorial and Feature Writing 3 Cr. 3 Lec.

Prerequisites: 6 hours of journalism or consent of instructor. Emphasis is on handling of difficult news stories, editorial matter, and feature material. Research and interviewing techniques are emphasized with careful attention to development of feature stories for use in newspapers and magazines.

Journalism 202
Student Publications 1 Cr. 3 Lab.

Prerequisite: Permission of Instructor. Individual staff assignments on the student newspaper in one of the following jour-
nalistic fields: writing, advertising, photography, cartooning, editing. Students are required to work at prescribed periods under supervision and must attend staff meetings. This course may not be taken for credit concurrently with Journalism 102 or 103. Credit limited to one unit per semester.

Journalism 203
Student Publications 1 Cr.
3 Lab.
Individual staff assignments on the student newspaper in one of the following journalistic fields: writing, advertising, photography, cartooning, editing. Students are required to work at prescribed periods under supervision and must attend staff meetings. This course may not be taken for credit concurrently with Journalism 102 or 103. Credit limited to one unit per semester.

Journalism 204
News Editing and Copy Reading 3 Cr.
3 Lab.
Prerequisite: Journalism 102. A detailed course in editing news for presentation in the newspaper and on radio and television. Special emphasis on writing headlines and laying out pages.

Machine Shop 133
Basic Lathe 5 Cr.
1 Lec., 8 Lab.
A basic course designed to provide practical experience in the areas of hand tools, layout, and hand threading. Introduction to various types of drill press work. Instruction is provided in some of the fundamental operations common to milling machine practice. The student becomes familiar with the various parts of the machine and with various cutters and arbors. Special emphasis is placed on safety measures. Instruction in the types and applications of machine oils and greases, coolants and cutting oils is included. Laboratory fee required.

Machine Shop 134
Intermediate Lathe 5 Cr.
1 Lec., 8 Lab.
Prerequisite: Machine Shop 133. Additional experience and skill are gained on the engine lathe. Workpieces become more complicated and tolerances more exacting. Operations are performed on machines of various sizes. Use is made of various work-holding methods in performing the operations of drilling, boring, and reaming on the lathe. Introduction to the various precision layout and measuring tools and practices is included. The student also develops further skill in determining cutting speeds and feeds. Laboratory fee required.

Machine Shop 135
Intermediate Milling Machine 5 Cr.
1 Lec., 8 Lab.
Prerequisite: Machine Shop 134. Additional experience and skill are gained on the milling machine. Workpieces become more complicated and tolerances more exacting. Operations are performed on machines of various sizes and types. Use is made of various workholding methods. Introduction to the various precision layout and measuring tools and practices is included. The student also develops further skill in determining cutting speeds and feeds. Laboratory fee required.

Machine Shop 151
Basic Machine Operation for Weld Tooling 3 Cr.
1 Lec., 4 Lab.
This is a basic course designed to provide the welding student with the fundamental knowledge required to build simple weld tooling. Shop safety will be stressed throughout. Actual weld fixture compo-
ments and/or weld fixtures will be fabricated using engine lathes, milling machine, and drill presses. Classroom activity will cover all supportive information required to accomplish the work program. Laboratory fee required.

**Machine Shop 233**
**Advanced Lathe**

5 Cr.
1 Lec., 8 Lab.

Further experience is gained on the engine lathe. Skill is developed in making open setups. Location of holes by means of layout and triangulation is made. Further use of various attachments and accessories used on the engine lathe is made. Introduction on surface grinding and grinding wheel safety is made during this semester. Laboratory fee required.

**Machine Shop 234**
**Advanced Milling Machine**

5 Cr.
1 Lec., 8 Lab.

Further experience is gained on the milling machine. Skill is developed in making open setups. Location of holes by means of layout and triangulation is made. Further use of various attachment and accessories used on the milling machine is made. Introduction to surface grinding and grinding wheel safety is made during this semester. Laboratory fee required.

**Machine Shop 235**
**Applied Lathe**

5 Cr.
1 Lec., 8 Lab.

During this semester emphasis is placed on independent planning in selecting the means and methods of performing laboratory assignments on the lathe. Emphasis will be placed on interchangeability of workpieces, fits, and finishes. An attempt will be made to encourage initiative and ingenuity. During this semester an introduction will be made to tool and cutter grinding. Laboratory fee required.

**Machine Shop 236**
**Applied Milling Machine**

5 Cr.
1 Lec., 8 Lab.

During this semester emphasis is placed on independent planning in selecting the means and methods of performing laboratory assignments on the milling machine. Emphasis will be placed on interchangeability of workpieces, fits, and finishes. An attempt will be made to encourage initiative and ingenuity. During this semester an introduction will be made to tool and cutter grinding. Laboratory fee required.

**Mathematics 101**
**College Algebra**

3 Cr.
3 Lec.

Prerequisite: two years of high school algebra or Developmental Mathematics 093. A study of functions and relations, absolute values, variation, quadratic equations, complex numbers, functions of two variables, systems of equations and inequalities, elementary aspects of the theory of equations, progressions, the binomial theorem and algebraic proof.

**Mathematics 102**
**Plane Trigonometry**

3 Cr.
3 Lec.

Prerequisite: Mathematics 101 or equivalent. A study of angular measure, functions of angles, identities, solution of triangles, equations, inverse trigonometric functions, logarithms and complex numbers.

**Mathematics 104**
**Elementary Functions and Coordinate Geometry I**

5 Cr.
5 Lec.

Prerequisites: two years of high school algebra or Developmental Mathematics 093. A study of the concept of function, polynomials of one variable, arithmetic and geometric sequences, combinations and the binomial theorem, rational functions, polynomials of more than one variable, exponential functions, logarithmic functions, trigonometric functions, complex numbers, vectors, functions of two variables, and analytical geometry which includes conics, transformation of coordinates, polar coordinates, parametric equations, and three dimensional space.
Mathematics 105
Elementary Functions and Coordinate Geometry II 5 Cr.
5 Lec.
Prerequisite: Mathematics 104. A continuing study of the topics of Mathematics 104.

Mathematics 106
Elementary Functions and Coordinate Geometry 5 Cr.
5 Lec.
Prerequisites: Two years of high school algebra and one semester of trigonometry. A study of the algebra of functions to include the following: polynomial, rational, exponential, logarithmic and trigonometric functions, functions of two variables, complex numbers, vectors, and analytic geometry to include conics, transformation of coordinates, polar coordinates, parametric equations, and three dimensional space.

Mathematics 107
Fundamentals of Computing 3 Cr.
3 Lec.
Prerequisite: two years high school algebra or Developmental Mathematics 093. An introductory course designed primarily for students desiring credit toward a minor or major in computer science. The content of this course includes a study of algorithms and an introduction to a procedure-oriented language with general applications.

Mathematics 111
Mathematics for Business and Economics I 3 Cr.
3 Lec.
Prerequisite: two years of high school algebra or Developmental Mathematics 093. A study of equations, inequalities, matrices, linear programming, and linear, quadratic, polynomial, rational, exponential, and logarithmic functions. Applications to business and economic problems are emphasized.

Mathematics 112
Mathematics for Business and Economics II 3 Cr.
3 Lec.
Prerequisite: Mathematics 111. Study of sequences and limits, differential calculus, integral calculus, optimization and appropriate applications.

Mathematics 115
College Mathematics I 3 Cr.
3 Lec.
Prerequisite: one year of high school algebra and one year of high school geometry or two years of high school algebra or Developmental Mathematics 093. A course designed for liberal arts students which includes the study of logic, mathematical patterns, mathematical recreations, systems of numeration, mathematical systems, sets and statements, and sets of numbers. Historical aspects of the above topics will also be emphasized.

Mathematics 116
College Mathematics II 3 Cr.
3 Lec.
Prerequisite: Mathematics 115. A course designed for liberal arts students which includes the study of algebra, linear programming, permutations, combinations, probability and geometry. Historical aspects of the above topics will also be emphasized.

Mathematics 117
Fundamental Concept of Mathematics for Elementary Teachers 3 Cr.
3 Lec.
A study of the structure of the real number system, geometry and mathematical analysis with emphasis on the development of basic concepts in mathematical thinking needed for elementary teachers.

Mathematics 121
Analytic Geometry 3 Cr.
3 Lec.
Prerequisite: Mathematics 102 or equivalent. A study of the real numbers, distance, the straight line, conics, transformation of coordinates, polar coordinates, parametric equations, and three-dimensional space.

Mathematics 126
Introductory Calculus 5 Cr.
5 Lec.
Prerequisite: Mathematics 105, 106, 121, or equivalent. A study of limits, continuity, derivatives, slopes, tangents, chain rule, implicit differentiation, higher derivatives, differentials, integration, applications of
differential and integral calculus, and trigonometric and inverse trigonometric functions.

Mathematics 130
Business Mathematics 3 Cr.
3 Lec.
Prerequisite: one year of high school algebra or Developmental Mathematics 091 or the equivalent. A study of simple and compound interest, bank discount, payrolls, taxes, insurance, markup and markdown, corporate securities, depreciation, and purchase discounts. This course is intended primarily for specialized occupational programs.

Mathematics 195
Technical Mathematics 3 Cr.
3 Lec.
Prerequisite: Developmental Mathematics 091 or the equivalent. A course designed for technical students covering a general review of arithmetic; a treatment of the basic concepts and the fundamental facts of plane and solid geometry, computational techniques and devices, units and dimensions, a treatment of the terminology and concepts of elementary algebra, functions, coordinate systems, simultaneous equations, stated problems, determinants, progressions, and the binomial theorem.

Mathematics 196
Technical Mathematics 3 Cr.
3 Lec.
Prerequisite: Mathematics 195. A course for technical students which includes a study of the following: the trigonometric functions of angles, trigonometric identities, inverse trigonometric functions, trigonometric equations, complex numbers, logarithms, vectors, and the solution of triangles.

Mathematics 202
Introductory Statistics 3 Cr.
3 Lec.
Prerequisite: two years of high school algebra or consent of instructor. A study of collection and tabulation of data, bar charts, graphs, sampling, measures of central tendency and variability, correlation, index numbers, statistical distributions, probability and applications to various fields.

Mathematics 207
Fortran Programming with Applications 3 Cr.
3 Lec.
Prerequisites: Mathematics 107 or equivalent and Mathematics 101 or Mathematics 111 or Mathematics 104 or its equivalent. Study of fortran language with emphasis on applications and programming of algorithmic language to solve numerical problems. Writing, testing and executing of typical fortran programs will be stressed. Emphasis on applications for majors and minors in engineering, the sciences, mathematics or business.

Mathematics 221
Linear Algebra 3 Cr.
3 Lec.
Prerequisite: Mathematics 126 or equivalent. A study of matrices, linear equations, dot products, cross products, geometrical vectors, determinants, n-dimensional space, and linear transformation.

Mathematics 227
Mathematical Analysis I 4 Cr.
4 Lec.
Prerequisite: Mathematics 126 or equivalent. A continued study of techniques of differentiation and integration. This will include logarithmic and exponential functions, parametric equations, polar coordinates, hyperbolic functions and vectors.

Mathematics 228
Mathematical Analysis II 3 Cr.
3 Lec.
Prerequisite: Mathematics 227 or equivalent. A continued study of vectors, functions of several variables, partial derivatives, multiple integrals, indeterminate forms and infinite series.

Mathematics 230
Differential Equations 3 Cr.
3 Lec.
Prerequisite: Mathematics 227 or consent of instructor. A study of ordinary differential equations. The course treats linear equations, systems of equations, equations with variable coefficients, existence and uniqueness of solutions, series solutions, singular points, transform methods, boundary value problems and applications.
Music 101
Freshman Theory 4 Cr.
3 Lec., 3 Lab.
Development and cultivation of musicianship skills, especially in the areas of tonal and rhythmic perception and articulation. Presentation of the essential elements of music; introduction to sight-singing, keyboard, and notation.

Music 102
Freshman Theory 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Music 101 or consent of instructor. Introduction to part-writing and harmonization with triads and their inversions; classification of chords; seventh chords, sight-singing, dictation, and keyboard harmony.

Music 104
Music Appreciation 3 Cr.
3 Lec.
A concise survey of the basic elements of music and their application in the music literature of Western civilization, particularly from the Baroque to the present. Relevant cultural influences upon the music of each era are observed.

Music 105
Italian Diction 1 Cr.
2 Lab.
A study of the phonetic sounds of the Italian language, with selected vocabulary and little or no conversation. Primarily for voice majors.

Music 106
French Diction 1 Cr.
2 Lab.
A study of the phonetic sounds of the French Language, with selected vocabulary and little or no conversation. Primarily for voice majors.

Music 107
German Diction 1 Cr.
2 Lab.
A study of the phonetic sounds of the language, with selected vocabulary and little or no conversation. Primarily for voice majors.

Music 110
Music Literature 3 Cr.
3 Lec.
A course dealing with the characteristics of sound, the elements of music, performance media, and musical texture as seen in the music of recognized composers in the major periods of music history. Special emphasis is given to the music of the late Gothic, Renaissance, and Baroque eras.

Music 111
Music Literature 3 Cr.
3 Lec.
Prerequisite: Music 110. A continuation of the studies introduced in Music 110. A study of the compositional procedures and forms employed by the creators of music. Attention is focused upon the music of the Classical, Romantic, and Modern periods.

Music 113
Foundations in Music I 3 Cr.
3 Lec.
Prerequisite: Music 111. Emphasis upon participation and the necessary skills for satisfactory performance in singing, playing an instrument, listening, creating rhythmic responses. Development of increasing ability to manage notation (music reading).

Music 114
Foundations in Music II 3 Cr.
3 Lec.
Prerequisite: Music 113. Designed to help prepare students with limited music training for Music 101 or to further their general music understanding. Course emphasis will include rhythmic and melodic training, understanding of basic chord functions, melody, textures, and basic analysis of music.

Music 117
Piano Class I 1 Cr.
2 Lab.
Class instruction in the areas of basic musicianship and piano skills designed primarily for those with no knowledge in piano skills. Open to all students. May be repeated for credit.

Music 118
Piano Class II 1 Cr.
2 Lab.
Includes techniques, skills, harmonization, transposition, improvisation, accompanying, sight-reading and performing various styles of repertoire. Open to all students. May be repeated for credit.
Music 119
Guitar Class I 1 Cr. 2 Lab.
Class instruction covering the basics of guitar skill, designed primarily for those with limited knowledge in the reading of music or playing the guitar. Open to all students. May be repeated for credit.

Music 120
Guitar Class II 1 Cr. 2 Lab.
Prerequisite: Music 119 or the equivalent.
A continuation of the skills introduced in Music 119 with emphasis on perfecting classical guitar techniques and music reading skills. May be repeated for credit.

Applied Music
Subject to enrollment, students may receive private instruction in the following courses: piano, organ, voice, violin, viola, cello, double bass, flute, oboe, clarinet, bassoon, saxophone, trumpet, french horn, trombone, baritone, tuba, percussion, guitar, electric bass, and drum set. Private music may be repeated for credit.

Music 121-143
Applied Music — Minor 1 Cr. 1 Lec.
Private instruction in the student’s secondary area. One half hour lesson a week. Open to students registered in music theory, ensembles, and other music major or minor courses. Fee required. Private music may be repeated for credit.

Music 221-241
Applied Music — Concentration 2 Cr. 1 Lec.
Private instruction in the area of the student’s concentration. Two half hour lessons a week. Open to students registered in music theory, ensembles, and other music major or minor courses. Fee required. Private music may be repeated for credit.

Music 251-270
Applied Music — Major 3 Cr. 1 Lec.
Private instruction in the area of the student’s major instrument. Primarily for music performance majors. Two half hour lessons a week. Open to students registered in music theory, ensembles, and other music major or minor courses. Fee required.

Music 150
Chorus 1 Cr. 3 Lab.
Prerequisite: Consent of instructor. Open to all students of the college, the chorus studies and performs a wide variety of music representing the literature of the great eras of music history. May be repeated for credit.

Music 151
Voice Class I 1 Cr. 2 Lab.
A course teaching the principles of breathing, voice production, tone control, enunciation and phrasing. Two group lessons a week. Open to all non-voice majors. May be repeated for credit.

Music 152
Voice Class II 1 Cr. 2 Lab.
A continuation of Music 151 with emphasis on solo singing, appearance in studio recital, stage deportment, and personality development. Open to all non-voice majors. Two group lessons a week. May be repeated for credit.

Music 155
Vocal Ensemble 1 Cr. 3 Lab.
A select group for mixed voices concentrating upon excellence of performance. Membership is open to any student by audition, who, in the opinion of the director, possesses special interest and skills in performance of advanced choral literature. May be repeated for credit.

Music 156
Madrigal Singers 1 Cr. 3 Lab.
Select group of vocalists offering experience in the reading and performing of literature for small ensembles. Membership through audition with the appropriate director. May be repeated for credit.

Music 171
Woodwind Ensemble 1 Cr. 3 Lab.
Select group of instrumentalists offering
experience in the reading and performance of literature for small ensembles. Membership through audition with the appropriate director. May be repeated for credit.

Music 172
Brass Ensemble 1 Cr.
3 Lab.
Select group of instrumentalists offering experience in the reading and performing of literature for small ensembles. Membership through audition with the appropriate director. May be repeated for credit.

Music 173
Percussion Ensemble 1 Cr.
3 Lab.
Select group of instrumentalists offering experience in the reading and performing of literature for small ensembles. Membership through audition with the appropriate director. May be repeated for credit.

Music 174
Keyboard Ensemble 1 Cr.
3 Lab.
Select group of instrumentalists offering experience in the reading and performing of literature for small ensembles. Membership through audition with the appropriate director. May be repeated for credit.

Music 175
String Ensemble 1 Cr.
3 Lab.
Select group of instrumentalists offering experience in the reading and performing of literature for small ensembles. Membership through audition with the appropriate director. May be repeated for credit.

Music 176
Symphonic Wind Ensemble 1 Cr.
3 Lab.
The symphonic wind ensemble functions as a group in which students study and perform all forms of commercial music; i.e., jazz, pop, avant-garde, and soul. Student arranging, composing, and conducting is encouraged. May be repeated for credit.

Music 199
Recital 1 Cr.
2 Lab.
One period per week designed to allow students of private lessons an opportunity to perform before an audience. Required for all music majors and open to all other students. Credit for this course does not apply to the associate degree. May be repeated for credit.

Music 201
Sophomore Theory 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Music 101-102 or consent of instructor. A continuation of freshman theory, including a study of larger forms, thematic development, chromatic chords including the Neapolitan sixth and augmented sixth chords, diatonic seventh chords with advanced sight-singing, keyboard harmony and ear training.

Music 202
Sophomore Theory 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Music 201 or equivalent or by consent of instructor. A continuation of Music 201, including a study of sonata-allegro form, ninth, eleventh and thirteenth chords, exploration of new key schemes, impressionism, melody, harmony, tonality, and formal processes as they apply to twentieth century music with a comparable advance in sight-singing, keyboard harmony and ear training.

Music 203
Composition 3 Cr.
3 Lec.
Prerequisite: Music 101 and 102. Composing in small forms for simple media in both traditional styles and styles of the student’s choice. May be repeated for credit.

Office Machines
(See Business 161)

Philosophy 102
Introduction to Philosophy 3 Cr.
3 Lec.
A survey course designed to acquaint the student with some of the fundamental problems in philosophy and with methods used to deal with them. Some principle views, both ancient and modern, are examined as possible solutions.

**Philosophy 105**

**Logic**

3 Cr.

3 Lec.

An analysis of the principles of logical thinking, an effort is made to apply logic's methods and tools to real life situations. Fallacies, definitions, analogies, syllogisms, venn diagrams, and other topics are discussed.

**Philosophy 202**

**Introduction to Social and Political Philosophy**

3 Cr.

3 Lec.

Prerequisite: Three hours of philosophy or consent of instructor. An examination of the relationships of philosophical ideas to the community with emphasis on concepts of natural rights, justice, education, freedom and responsibility.

**Philosophy 203**

**Ethics**

3 Cr.

3 Lec.

Prerequisite: Three hours of philosophy or consent of instructor. A survey of the classical and modern theories of the moral nature of man, posing alternative views of his responsibilities to self and society. The course is designed to verify the ethical issues and their metaphysical and epistemological basis so as to assist the student toward sound application of ethical principles in his own life.

**Philosophy 210**

**Studies in Philosophy**

3 Cr.

3 Lec.

Prerequisite: Three hours of philosophy and consent of the instructor. Students will study a philosophical problem, movement, or special topic. Course topic will change each semester and may be repeated for credit.

**Photography 110**

**Introduction to Photography and Photo-Journalism**

3 Cr.

2 Lec., 4 Lab.

Introduction to photography and photojournalism. The general mechanics of camera lenses and shutters, general characteristics of the photographic films, papers, and chemicals. Proper photographic darkroom procedures including enlarging, processing, contact printing, and exposing of photographic films and papers. Study of artificial lighting. Laboratory fee required.

**Photography 111**

**Advanced Photography and Photo Journalism**

3 Cr.

2 Lec., 4 Lab.

Advanced photography and photojournalism. Utilization of everything taught in 110, with emphasis on refining techniques. Special emphasis on photographic communication. Laboratory fee required.

**Physical Education Activity Courses**

One of the main objectives of the physical education division is to provide the opportunity for each student to become skilled in at least one physical activity which will prepare him for personal enjoyment of leisure time. Students are urged to take advantage of the program by registering for a physical education activity course each semester.

**Physical Education 100**

**Lifetime Sports Activities**

1 Cr.

3 Lab.

Students are provided an opportunity for participation and instruction in various lifetime sports. Selection may be made from archery, badminton, bowling, golf, handball, racquetball, softball, swimming, tennis, and other sports. Activities may be offered singularly or in combinations. Instruction shall be presented at the beginner and advanced-beginner levels. The course is designed for male and female students and may be repeated for credit providing students select different activities. Laboratory fee required.

**Physical Education 104**

**Touch Football/Soccer**

1 Cr.

2 Lab.

A course designed for those students desiring instruction and skill development in touch football and soccer. Uniform re-
Physical Education 112
Softball and Soccer
1 Cr.
2 Lab.

Designed to provide the student an opportunity for instruction and participation in softball and soccer. Uniform required. Laboratory fee required.

Physical Education 113
Handball and Racquetball
1 Cr.
2 Lab.

Designed to provide the student an opportunity for basic skills development in handball and racquetball. Uniform required. Laboratory fee required.

Physical Education 115
Physical Performance
1 Cr.
3 Lab.

This course is designed to diagnose and measure the student's physical condition and prescribe a program of exercise to carry with him through life. Much of the course will be carried on in the physical performance laboratory. Coeducational. May be repeated for credit. Uniform required. Laboratory fee required.

Physical Education 116
Intramural Athletics
1 Cr.
2 Lab.

A coeducational activity course designed to offer intramural competition in a variety of coeducational activities. May be repeated for credit. Uniform required. Laboratory fee required.

Physical Education 118
Beginning Golf
1 Cr.
2 Lab.

A coeducational course in beginning golf. Equipment furnished. No uniform required. Laboratory fee required.

Physical Education 120
Beginning Bowling
1 Cr.
2 Lab.

A coeducational course in beginning bowling. Equipment furnished. No uniform required. Laboratory fee required.

Physical Education 122
Gymnastics and Tumbling
1 Cr.
2 Lab.

A coeducational course in tumbling, horizontal bar, parallel bars, rings and trampoline. Uniform required. Laboratory fee required.

Physical Education 123
Beginning Swimming
1 Cr.
2 Lab.

A coeducational course designed to teach a non-swimmer to survive in the water. Uniform required. Laboratory fee required.

Physical Education 124
Social Dance
1 Cr.
2 Lab.

Students who have limited experience in dance will find this course beneficial. Ballroom and social dance includes fundamental steps and rhythms of the fox-trot, waltz, tango, and recent dance steps. 'Country' dancing includes reel, square dance, and other related dances. No uniform required. Laboratory fee required.

Physical Education 125
Figure Training and Conditioning Exercise
1 Cr.
3 Lab.

A course designed to develop an understanding of controlling body weight and muscular development through vigorous rhythmical activities. Uniform required. Laboratory fee required.

Physical Education 127
Basketball and Volleyball
1 Cr.
2 Lab.

Techniques, rules and strategy of the game will be taught and the emphasis will be on playing the game. Uniform required. Laboratory fee required.

Physical Education 129
Modern Dance
1 Cr.
2 Lab.

A coeducational, beginning class in modern dance. Uniform required. Laboratory fee required.

Physical Education 131
Weight Training and Conditioning
1 Cr.
3 Lab.

A course designed for those students who desire instruction and participation in weight training and conditioning tech-
Physical Education 134
Outdoor Education 1 Cr.
3 Lab.
A co-educational course designed to provide students with the opportunity to gain knowledge and skills in outdoor education and camping activities through planned and incidental experiences. Including a week end camp-out. No uniform required. Laboratory fee required.

Physical Education 200
Lifetime Sports Activities II 1 Cr.
3 Lab.
A continuation of Physical Education 100. Students are provided an opportunity for participation and instruction in selected activities. Activities shall be presented at the intermediate/advanced levels. This course number may be repeated two times for credit. For male and female students. Laboratory fee required. May be repeated for credit.

Physical Education 218
Intermediate Golf 1 Cr.
2 Lab.
Prerequisite: Permission of instructor. A course designed to develop skills and techniques beyond the ‘beginner’ stage. Laboratary fee required.

Physical Education 219
Intermediate Tennis 1 Cr.
2 Lab.
Prerequisite: Permission of Instructor. A course designed to develop skills and techniques beyond the ‘beginner’ stage. Uniform required. Laboratory fee required.

Physical Education 222
Intermediate Gymnastics 1 Cr.
2 Lab.
Prerequisite: Physical Education 122. A course designed to develop skills and techniques beyond the ‘beginner’ stage. Uniform required. Laboratory fee required.

Physical Education 223
Intermediate Swimming 1 Cr.
2 Lab.
Prerequisite: Beginning swim certificate or deep water swimmer. Co-educational course designed to advance the swimmer’s skills. Stroke analysis, refinement, and endurance to be emphasized. Uniform required. Laboratory fee required.

Physical Education 224
Skin and Scuba Diving 1 Cr.
2 Lab.
Prerequisite: Deep water swimmer. Instruction and practice in use of equipment, techniques and fundamentals of skin and scuba diving. Co-educational. Arrangements will be made regarding equipment rental. Laboratory fee required.

Physical Education 226
Advanced Life Saving 1 Cr.
2 Lab.
Prerequisite: Intermediate swimming or deep water swim ability. Co-educational course of instruction designed to qualify students for the Red Cross Advanced Life-saving Certificate. Uniform required. Laboratory fee required.

Physical Education 233
Water Safety Instructor 2 Cr.
1 Lec., 2 Lab.
Prerequisite: Current advanced life saving card. Principles and techniques for instructors in water safety and life saving classes. Satisfactory completion of course qualifies the student to test for certification by the Red Cross as water safety instructor. Uniform required. Laboratory fee required.

Physical Education 236
The Coaching of Football and Basketball 3 Cr.
2 Lec., 2 Lab.
An elective course designed for all students who desire a broader knowledge of the skills and techniques involved in football and basketball coaching; history, theories, philosophies, rules, terminology, and the finer points of the sports are studied. Emphasis directed toward coaching techniques.
A study of personal and community health. Emphasis placed on causative factors of mental and physical health and the means of disease transmission and prevention. For majors, minors, and students with specific interest.

Physical Education 110
Community Recreation

Principles, organization, and the function of recreation in American society. Designed for students planning a major or minor in health, physical education or recreation.

Physical Education 144
Introduction to Physical Education

Designed for professional orientation in physical education, health and recreation. Brief history, philosophy and modern trends of physical education, teacher qualification, vocational opportunities, expected competencies, and ‘skill testing’ comprise the contents of the course. For students majoring in physical education.

Physical Education 147
Sports Officiating I

This course is especially designed for those students who would like to choose sports officiating for an avocation and/or to increase knowledge in and appreciation of sports. Sports covered in this course will be football and basketball. As part of the course requirement student will be expected to officiate intramural games.

Physical Education 148
Sports Officiating II

This course is especially designed for those students who would like to choose sports officiating for an avocation and/or to increase knowledge in and appreciation of sports. Sports covered in this course will be softball, track and field, and baseball.

Physical Education 210
Sports Appreciation for the Spectator

A course specifically designed as an elective course for all students who desire a broader knowledge of major and minor sports. Rules, terminology, and philosophies of many sports are studied. Special emphasis shall be directed toward football and basketball.

Physical Education 257
Standard and Advanced First Aid

Theory and practice in the standard and advanced courses of the American National Red Cross in first aid safety.

Physical Science 118
Physical Science

A study of the basic principles and concepts of physics, chemistry and nuclear science. The course relates these basic sciences to man’s physical world at an introductory level. This course is intended primarily for the non-science major. Laboratory fee required.

Physical Science 119
Physical Science

This course encompasses the interaction of the earth sciences and man’s physical world. Geology, astronomy, meteorology and space science are emphasized through the application of selected principles and concepts of the applied sciences. The course is directed toward the non-science major. Laboratory fee required.

Physics 111
Introductory General Physics

Prerequisite: Two years high school algebra, including trigonometry or equivalent. The first semester of a two semester course designed for pre-dental, biology, pre-medical, pre-pharmacy, and pre-architecture majors and other students who require a two-semester technical course in physics. This course includes a study of mechanics and heat. Laboratory includes one hour problem session.
Laboratory fee required.

Physics 112
Introductory General Physics 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Physics 111. A continuation of Physics 111 which includes the study of electricity, magnetism, light, and sound. Laboratory includes one hour problem session. Laboratory fee required.

Physics 115
Physics for Liberal Arts 4 Cr.
3 Lec., 3 Lab.
An introduction to the various areas of physics as they relate to the world in which we live, accomplished through the study of selected topics including mechanics, thermodynamics, and acoustics. This course is intended primarily for the non-science major. Laboratory includes a one hour problem session. Laboratory fee required.

Physics 116
Physics for Liberal Arts 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Physics 115. A continuation of Physics 115, which includes a study of selected topics in the areas of electricity, magnetism, and acoustics. Laboratory includes a one hour problem session. Laboratory fee required.

Physics 131
Applied Physics 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Mathematics 195 or concurrent enrollment in Mathematics 195. The first half of a one year course designed to explain the basic concepts of the property of matter, mechanics, and heat. Emphasis will be placed on applications and problem solving. Designed primarily for students enrolled in technical programs. Laboratory includes a one hour problem session. Laboratory fee required.

Physics 132
Applied Physics 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Physics 131. A continuation of Physics 131 designed to explain basic concepts in the areas of sound, light, electricity, magnetism, and atomic theory. Laboratory fee required.

Physics 201
General Physics 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Credit or concurrent registration in Mathematics 126. Principles and applications of mechanics, wave motion, and sound emphasizing fundamental concepts, problem solving, notation, and units. Designed primarily for physics, chemistry, mathematics, and engineering majors. Laboratory includes a one hour problem session. Laboratory fee required.

Physics 202
General Physics 4 Cr.
3 Lec., 3 Lab.
Prerequisites: Physics 201 and credit or concurrent registration in Mathematics 227. Principles and applications of heat, electricity, magnetism and optics emphasizing fundamentals, concepts, problem solving, notation and units. Laboratory includes a one hour problem session. Laboratory fee required.

Physics 203
Introduction to Modern Physics 4 Cr.
3 Lec., 3 Lab.
Prerequisite: Physics 202. Principles of relativity, atomic and nuclear physics with emphasis on fundamental concepts, problem solving, notation and units. Laboratory includes a one hour problem session. Laboratory fee required.

Pilot Technology 120
Ground School Private 3 Cr.
3 Lec.
Basic study of Federal Aviation Regulations, flight dynamics, meteorology, navigation, use of radio and general service of aircraft. Course is designed to fulfill the ground school requirements of the FAA Private Pilot Certificate.
This course provides 25 hours of flight instruction (15 hours dual, 10 hours solo flight), preflight trainer. Medical requirements: current second-class medical certificate. Flight and laboratory fee required.

**Pilot Technology 127**  
*Aero Engines and Systems*  
3 Cr.  
48 Lec.

**Prerequisite:** Credit or concurrent enrollment in Aviation Administration 131, Electronics Technology 235, or equivalent. Basic power plant types and principles of operation such as piston reciprocating, rotary, jet and rocket; configurations such as in-line, radial, vee and horizontally opposed, turbo-prop, turbo-jet, fan-jet, and ram-jet. Systems include fuel, ignition, electrical, environmental, lubrication, hydraulics, pneumatics, fire detection and extinguishing, cooling, tachometer, monitoring, manual control, and power boosted systems.

**Pilot Technology 132**  
*Flight Private Pilot*  
1 Cr.  
20 Lec., 4 Lab.

This course provides a total of 20 hours of flight instruction (10 hours dual and 10 hours solo flight), pre-flight instruction and briefing, and instruction in a synthetic flight trainer. Students will receive credit for the course upon completion of the flight prerequisite for the private pilot flight examination. Flight and laboratory fee required.

**Pilot Technology 231**  
*Flight Commercial I*  
2 Cr.  
30 Lec., 8 Lab.

**Prerequisite:** Private Pilot Certificate. This course provides 30 hours of flight instruction (10 hours dual and 20 hours solo flight) and pre-flight instruction and briefing to apply toward the Commercial Pilot Certificate. Medical requirements: Current second-class medical certificate. Flight and laboratory fee required.

**Pilot Technology 232**  
*Ground School Commercial*  
3 Cr.  
3 Lec.

**Prerequisite:** Private Pilot Certificate. In-depth analysis of all topics covered in the Commercial Pilot written examination. Emphasis is placed on problem development and solution practices to enhance appropriate responses in practical situations. Advanced exercises in the areas of aircraft operation, meteorology, navigation, communications, theory and hazards of attitude instrument flight, flight physiology, emergency procedures. Far's and aim, flight planning. Satisfactory completion of this course should qualify the student to pass the commercial pilot written examination.

**Pilot Technology 233**  
*Flight Commercial II*  
3 Cr.  
46 Lec., 6 Lab.

**Prerequisite:** Completion of Pilot Technology 231 - Flight Commercial I and concurrent enrollment in Pilot Technology 232 - Ground School Commercial. This course provides 46 hours of flight instruction (10 hours dual instrument instruction, 6 hours dual instruction, and 30 hours of solo flight), and pre-flight instruction and briefing to apply toward the Commercial Pilot Certificate. Flight instruction leading to a commercial license conforms to current FAA regulations by including a total of five (5) hours of night flight and ten (10) hours of instrument dual flight. Flight and laboratory fee required.

**Pilot Technology 234**  
*Flight Commercial III*  
3 Cr.  
46 Lec., 6 Lab.

**Prerequisite:** Completion of Pilot Technology 232 - and Pilot Technology 233. This course provides 46 hours flight instruction (6 hours dual flight, 30 hours solo flight, and 10 hours dual and practice flight in a more sophisticated aircraft) and pre-flight instruction and briefing all of which apply to fulfill flight-law requirements for the Commercial Pilot Certificate. Students will receive course credit upon satisfactory completion of the flight prerequisite to the Commercial Pilot flight examination. Flight and laboratory fee required.
Pilot Technology 236
Aero Physics 3 Cr. 3 Lec.

Prerequisite: Credit or concurrent enrollment in Mathematics 196. The aeronautical applications of physical laws. Areas considered in the course include gravitational laws, forces and stresses, Bernoulli's principle, gyroscopic principles, velocity-sonic relationships, dynamics of airfoils, high efficiency lift devices, energy conversion to reactive forces related to aerobatics, and precision flight.

Pilot Technology 237
Meteorology 3 Cr. 3 Lec.

A study of the basic concepts of meteorological phenomena. Analysis and use of weather data, and the use and observation of measuring devices. Topics covered in weather maps and symbols, U.S. Weather Bureau documents, structure and general circulation of the atmosphere, theories of air mass, fronts, pressure areas, temperature gradients and inversions, violent atmospheric activities, and ecological considerations.

Pilot Technology 238
Advanced Navigation 3 Cr. 2 Lec., 2 Lab.

Prerequisite: Credit or concurrent enrollment in Pilot Technology 237 or consent of instructor. This course covers flight planning with consideration given to adverse atmospheric conditions, navigational capabilities, and safety; the course also includes the analysis of atmospheric maps and charts, and in-flight interpretation and use of all operational data. It also includes analysis of weather radar presentations. Laboratory fee required.

Pilot Technology 239
Ground School Instrument 3 Cr. 3 Lec.

Prerequisite: Private or Commercial Pilot Certificate. Includes 36 hours covering theory and principles of aircraft attitude control, flight procedures and maneuvering by reference solely to cockpit instruments. Prepares the student for the FAA written examination for the instrument rating. Satisfactory completion of this course should qualify the student to pass the Instrument Rating written examination.

Pilot Technology 242
Flight Instructor Ground School 2 Cr. 2 Lec.

Prerequisite: Commercial Pilot Certificate or Private Pilot Certificate with 200 hours logged flight time. Includes 40 hours covering principles of flight and ground instruction and instructional techniques on aircraft performance, analysis of maneuvers, and Federal Aviation Regulations. Satisfactory completion of this course should qualify the student to pass the flight instructor written examination.

Pilot Technology 243
Flight Instructor Airplane 2 Cr. 30 Lec., 10 Lab.

Prerequisite: Commercial Pilot Certificate or Private Pilot Certificate with 200 hours logged flight time. 30 hours of flight training in the science of flight instruction including evaluation of student performance and maneuver analysis. Covers the required instructional flight disciplines to qualify students for the FAA Flight Instructor Rating. Flight and laboratory fee required.

Pilot Technology 244
Flight Advanced I 1 Cr. 10 Lec.

Prerequisite: A Private Pilot Certificate or a Commercial Pilot Certificate. This course of flight training leads to the Federal Aviation Agency Multi-Engine Pilot Rating. All flying is given in modern twin-engine aircraft and is designed to give the advanced pilot a greater depth of aircraft experience. Includes 10 hours of flight instruction and pre-flight instruction and briefing. Flight fee required.

Pilot Technology 245
Flight Instrument 3 Cr. 26 Lab.

Prerequisite: Private or Commercial Pilot Certificate. This course provides 45 hours of flight instruction (25 hours of instrument
flight and 20 hours instruction in an instrument, synthetic trainer) and pre-flight instruction and briefing. Laboratory fee required.

Psychology 103
Sex Roles in American Society 3 Cr. 3 Lec.
A study of the physiological, psychological and sociological aspects of human sexuality. The student may register for either Psychology 103 or Sociology 103, but may receive credit for only one of the two.

Psychology 105
Introduction to Psychology 3 Cr. 3 Lec.
A study of basic problems and principles of human experience and behavior; heredity and environment, the nervous system, motivation, learning, emotions, thinking and intelligence. (This course is offered on campus and via television.)

Psychology 131
Human Relations 3 Cr. 3 Lec.
A study involving the direct application of psychological principles to human relations problems in business and industry. Consideration is given to group dynamics and adjustment factors related to employment and advancement. The presentation will be tailored to fit the needs of the students enrolled in each section.

Psychology 201
Developmental Psychology 3 Cr. 3 Lec.
Prerequisite: Psychology 105. A study of human growth, development and behavior, emphasizing the psychological changes which occur during the life pattern. The processes of life from prenatal beginnings to adulthood are treated in an integrated manner. Due attention is given to aging and its place in the developmental sequence.

Psychology 202
Applied Psychology 3 Cr. 3 Lec.
Prerequisite: Psychology 105. A course designed for the application of psychological facts and principles to problems and activities of life. Special emphasis will be placed on observing, recording, and modifying human behavior. Some off-campus work will be required.

Psychology 205
Psychology of Personality 3 Cr. 3 Lec.
Prerequisite: Psychology 105. A consideration of the important factors involved in successful human adjustment including child-parent relationships, adolescence, anxiety states, mechanisms of defense and psychoanalytic concepts. The course includes a survey of methods of personality measurement.

Psychology 209
General Psychology 3 Cr. 3 Lec.
Prerequisite: Psychology 105. An in-depth survey of behavior, including learning, motivation, perception, and emotion. An introduction to behavioral research, data collecting, and analysis will be included. Recommended for psychology majors.

Quality Control
Technology 122
Dimensional Measurement 3 Cr. 2 Lec., 2 Lab.
This course provides an opportunity to obtain a practical and theoretical understanding of many types of mechanical and optical measuring devices which are used in dimensional inspection.

Reading 101
Effective College Reading 3 Cr. 3 Lec.
Reading 101 emphasizes comprehension techniques in reading fiction and non-fiction. Improved critical reading skills including analysis, critique and evaluation of written material are explored. Reading comprehension and flexibility of reading rate are stressed. In addition, advanced learning techniques in listening, note-taking, underlining, concentration, and reading in specialized academic areas are developed.

Reading 102
Speed Reading/Learning 3 Cr. 3 Lec.
This course emphasizes improved critical reading/learning skills utilizing an aggressive, dynamic approach. Reading comprehension is stressed using speed reading techniques. Learning and memory depth skills are taught. Offered in a laboratory setting.

**Religion 101**  
Religion in American Culture  
*3 Cr.*  
*3 Lec.*  
A systematic examination of religion in American culture. Emphasis upon the characteristics of American religion, an objective study of various religious groups, and an examination of the relation of religion to the arts and other cultural phenomena.

**Religion 103**  
Introduction to Philosophy of Religion  
*3 Cr.*  
*3 Lec.*  
Investigation of basic problems in philosophy of religion: faith and reason, the existence of God, the nature of religious language and literature, evil and human destiny. Analysis of the effect of religious belief and practice upon social and moral life in both Eastern and Western traditions.

**Religion 201**  
Major World Religions  
*3 Cr.*  
*3 Lec.*  
Prerequisite: Sophomore standing or consent of instructor recommended. A survey of major world faiths, the course will concentrate on the basic texts of Eastern and Western religions and on the creative personalities of their founders. There will be some consideration of the problems of ‘objective’ study of religions, of primitive religions, and of alternatives to major world religions such as astrology and atheism.

**Social Science 131**  
American Civilization  
*3 Cr.*  
*3 Lec.*  
A course designed to provide the student with some historical perspective for understanding the economic, political, and social institutions of modern society. In this context, emphasis will be placed upon U.S. and Texas History and constitutional development. It is advised that these courses be taken in order: 131, 132.

**Social Science 132**  
American Civilization  
*3 Cr.*  
*3 Lec.*  
A continuation of Social Science 131.

**Sociology 101**  
Introduction to Sociology  
*3 Cr.*  
*3 Lec.*  
An inquiry into the nature of society and the foundations of group life, including institutions, with a broad presentation of the basis of social change, processes and problems.

**Sociology 102**  
Social Problems  
*3 Cr.*  
*3 Lec.*  
Prerequisite: Sociology 101. A study of the background, emergence and scope of current group relationships in our society, emphasizing topics as they apply to social adjustment in the family and the total community environment.

**Sociology 103**  
Sex Roles in American Society  
*3 Cr.*  
*3 Lec.*  
A study of the physiological, psychological and sociological aspects of human sexuality. The student may register for either Sociology 103 or Psychology 103, but may receive credit for only one of the two.
Sociology 203
Marriage and Family 3 Cr.
3 Lec.
Prerequisite: Sociology 101 recommended. An analysis of courtship patterns, marriage and family forms, relationships and functions, and sociocultural differences in family behavior.

Sociology 204
American Minorities 3 Cr.
3 Lec.
Prerequisite: Sociology 101 and/or six hours of U.S. History recommended. The principal minority groups in American society: their sociological significance and historic contributions. An emphasis will be placed on problems of intergroup relations, social movements and related social changes occurring on the contemporary American scene. The student may register for either History 204 or Sociology 204.

Spanish 101
Beginning Spanish 4 Cr.
3 Lec., 2 Lab.
Essentials of grammar, easy idiomatic prose, stress on pronunciation, comprehension, and oral expression. Laboratory fee required.

Spanish 102
Beginning Spanish 4 Cr.
3 Lec., 2 Lab.
Prerequisite: Spanish 101 or equivalent. Continuation of Spanish 101 with emphasis on idiomatic language and complicated syntax. Laboratory fee required.

Spanish 201
Intermediate Spanish 3 Cr.
3 Lec.
Prerequisite: Spanish 102 or equivalent or consent of the instructor. Reading, composition, grammar review and intense oral practice.

Spanish 202
Intermediate Spanish 3 Cr.
3 Lec.
Prerequisite: Spanish 201 or equivalent. Continuation of Spanish 201 with reading selections drawn more directly from contemporary literary sources. Composition.

Spanish 203
Introduction to Spanish Literature 3 Cr.
3 Lec.
Prerequisite: Spanish 202 or equivalent or consent of the instructor. Readings in Spanish literature, history, culture, art and civilization.

Speech 105
Fundamentals of Public Speaking 3 Cr.
3 Lec.

Speech 109
Voice and Articulation 3 Cr.
3 Lec.
A study of the mechanics of speech applied to the improvement of the individual’s voice and pronunciation.

Speech 110
Reader's Theatre Workshop 1 Cr.
2 Lab.
A laboratory course for the preparation and presentation of scripts, readings, and book reviews, collecting and arranging all types of literature for group interpretation and performance. May be repeated once for credit.

Speech 201
Forensic Workshop 1 Cr.
2 Lab.
A laboratory course for the preparation of speeches, readings, and debate propositions which will be presented in competition and before select audiences. May be repeated for one additional unit of credit.

Speech 205
Discussion and Debate 3 Cr.
A study of theories and application of techniques of public discussion and argumentation. Special emphasis on development of ability to evaluate, analyze, and think logically, through application to current problems.

Speech 206
Oral interpretation

A study of fundamental techniques of analyzing various types of literature, and practice in preparing and presenting selections orally. Emphasis on individual improvement.

Teacher Aide 129
Communications Skills for Teacher Aides

This course is designed to test and enhance the teacher aide's basic communication skills in reading, writing, speaking and listening. It will include also a survey of techniques and methods for encouraging the development of these language skills in students with whom the aide works. Creative writing, story telling, appreciation of literature, tutoring techniques for reading and writing, cursive and manuscript handwriting will be included in the language skills emphasized.

Teacher Aide 131
Teacher Aide Techniques I

The primary purpose of this course is to define the role of the teacher aide within the school structure and to develop an understanding of the organization and administration of the public school system. Special attention will be given to the development of effective interpersonal relationships. Through direct experiences with students on a one-to-one basis, the teacher aide trainee will observe and study the developmental patterns of students. A study will be made of the general principles of human growth and development.

Teacher Aide 132
Introduction to Media

An introduction to basic skills associated with the preparation of graphic and projected materials and the operation of selected audiovisual equipment.

Teacher Aide 133
Teacher Aide Techniques II

This course is designed to further develop the teacher aide trainees' understandings, skills and attitudes in providing a wholesome learning environment in the classroom. The facilitation of learning with small groups of students will be emphasized through didactic and field experiences. The unique factors affecting the growth and development of inner city students will be emphasized along with a study of the teacher aide responsibilities as a member of the educational team.

Teacher Aide 135
Arts and Crafts for Teacher Aides

The course acquaints the student with the variety of creative art materials and methods appropriate for use in programs for children as well as opportunities for participation in the use of these materials. Creating an attractive classroom environment with the use of classroom displays, charts, poster art, and bulletin boards will be incorporated in the course.

Teacher Aide 231
Teacher Aide Seminar I

The first seminar section is designed to provide an opportunity for the teacher aide trainees to discuss their experiences as trained observers and participants in the classroom strategies and procedures, supervision techniques and instructional skills.

Teacher Aide 232
Teacher Aide Practicum I

(See Cooperative Work Experience 804)

Teacher Aide 235
Teacher Aide Seminar II

This section of the seminar will provide the teacher aide trainee an opportunity to
continue his experiences in the classroom while obtaining professional consultation and group experiences with his classmates. Small group interaction will enable the trainee to share experiences, demonstrate specific skills and techniques, participate in simulated classroom situations and clarify hypotheses developed in the supporting educational activities. The overall objective will be to provide a means for integrating and relating the total individual and collective experiences of the curriculum into a meaningful pattern.

**Teacher Aide 236**  
Teacher Aide Practicum II  4 Cr.  
20 Lab.  
(See Cooperative Work Experience 814)  
This section of the practicum will continue to provide the teacher aide trainee supervised laboratory experiences in classrooms under the supervision of a teacher. Basic principles of learning and motivation will be applied to the teaching-learning situation.

**Teacher Aide 804**  
(See Cooperative Work Experience)  
**Teacher Aide 814**  
(See Cooperative Work Experience)  

**Theatre 100**  
Rehearsal and Performance 1 Cr.  
4 Lab.  
Prerequisite: Acceptance as a member of the cast or crew of a major production. Participation in the class includes the rehearsal and performance of the current theatrical presentation of the division. May be repeated for credit. Credit limited to one hour per semester.

**Theatre 101**  
Introduction to the Theatre 3 Cr.  
3 Lec.  
A general survey designed to acquaint the student with the various aspects of theatre, plays and playwrights, directing and acting, theatres, artists, and technicians.

**Theatre 102**  
Contemporary Theatre 3 Cr.  
3 Lec.  
A study of the modern theatre and cinema as art forms, with attention to the historical background and traditions of each. Emphasis is placed on a better understanding of the social, cultural, and aesthetic significance of these media in today's life. Includes the reading of a number of modern plays and the viewing of specially selected films.

**Theatre 103**  
Stagecraft I  
3 Cr.  
2 Lec., 3 Lab.  
A study of the technical aspects of play production including set design and construction, stage lighting, make-up, costuming, and related areas.

**Theatre 104**  
Stagecraft II  
3 Cr.  
2 Lec., 3 Lab.  
Prerequisite: Theatre 103 or consent of instructor. A continuation of Theatre 103 with emphasis on individual projects in set and lighting design and construction, including further exploration of the technical aspects of play production.

**Theatre 106**  
Acting I  
3 Cr.  
2 Lec., 3 Lab.  
Individual and group activity with theory and exercises in bodily control, voice, pantomime, interpretation, characterization, and stage movement. Analysis and study of specific roles for stage presentation.

**Theatre 107**  
Acting II  
3 Cr.  
2 Lec., 3 Lab.  
Prerequisite: Theatre 106 or consent of instructor. Continuation of Theatre 106 with emphasis on problems of complex characterization, ensemble acting, stylized acting and acting in period plays.

**Theatre 108**  
Movement for the Stage 3 Cr.  
2 Lec., 3 Lab.  
A study of movement as both a pure form as well as its relation and integration with the theatre arts. The course will include movement as a technique to control balance, rhythm, strength, and flexibility. Movement will be explored as it is used in all the theatrical forms and in development of characterization. May be repeated for credit.
Theatre 109
Voice and Articulation 3 Cr.
3 Lec.
Same as Speech 109. The student may not receive credit for both Theatre 109 and Speech 109.

Theatre 110
History of Theatre I 3 Cr.
3 Lec.
Survey of theatre from its beginning through the sixteenth century. Study of the theatre in each period as a part of the total culture of the period.

Theatre 111
History of Theatre II 3 Cr.
3 Lec.
Development of the theatre from the seventeenth century through the twentieth century.

Theatre 112
Beginning Dance Technique in Theatre 3 Cr.
2 Lec., 3 Lab.
Course designed to promote body balance, improve manipulation of trunk and limbs, and facilitate the rhythmic flow of physical energy. Exploration of basic movements of the dance with emphasis on swing movements, circular motion, fall and recovery, contraction and release, and contrast of literal and abstract movements.

Theatre 115
Mime 2 Cr.
1 Lec., 2 Lab.
Prerequisite: Stage Movement, Theatre 106. Exploration of the expressive significance and techniques of mime.

Theatre 205
Scene Study (Theatre) 3 Cr.
2 Lec., 3 Lab.
Prerequisites: Theatre 106, 107. Continuation of Acting II with emphasis on developing character through detailed study of the playscript. Students will deal with the stylistic problems presented by the staging of period plays, concentrating primarily on Ibsen, Chekov, and the development of early realism.

Theatre 206
Intermediate Dance Technique in Theatre 3 Cr.
2 Lec., 3 Lab.
Prerequisite: Theatre 112 or permission of instructor. A general survey to acquaint the student with the various aspects of dance and its role in total theatre, including the evolution of dance styles. Exploration of jazz style emphasizing flow of movement, body placement, dynamic intensity, level, focus, and direction.

Typing
(See Business 173, 174, 273)

Welding 130
Pattern Layout 3 Cr.
2 Lec., 3 Lab.
This course is devoted to the preparation of patterns, pattern development, and the shop economics involved. Job applications, general layout work with structural material. Laboratory fee required.

Welding 140
Oxyacetylene Welding I 1 Cr.
1 Lec., 7 Lab.
This is a basic manipulative skills training course designed to develop the student's ability to set up and use the equipment for flat position welding and cutting. Upon completion, the student should be able to meet general industrial requirements while using oxyacetylene equipment in the flat position. Laboratory fee required.

Welding 141
Oxyacetylene Welding II 1 Cr.
1 Lec., 7 Lab.
This is a basic manipulative skills training course designed to enable a student to meet general industrial requirements while using oxyacetylene equipment for welding sheet, thin plate and small diameter pipe in all positions. Laboratory fee required.

Welding 142
Oxyacetylene Braze Welding 1 Cr.
1 Lec., 7 Lab.
This is a basic manipulative skills training course designed to enable a student to meet general industrial requirements while using oxyacetylene equipment for braze...
welding carbon steels and coat-irons. Laboratory fee required.

Welding 143
Shielded Metal-Arc Welding I 1 Cr.
1 Lec., 7 Lab.
This is a basic manipulative skills training course designed to develop general maintenance and production welding abilities for using manual alternating current shielded metal-arc (stick) welding equipment on ferrous metal in the flat position. Laboratory fee required.

Welding 144
Shielded Metal-Arc Welding II 1 Cr.
4 Lec., 28 Lab.
This is a basic manipulative skills training course designed to develop general maintenance and production welding abilities for using manual direct current shielded metal-arc (stick) welding equipment of ferrous metal in the flat position. Laboratory fee required.

Welding 145
Plate Welding I 2 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 143 and Welding 144, or equivalent. This is a basic manipulative skills training course designed to develop general maintenance and production welding abilities while using the manual shielded metal-arc (stick) process for performing groove and fillet welds with ferrous metals in all positions. Laboratory fee required.

Welding 146
Plasma — Arc Welding I 1 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding, 140, 141, and 145; or equivalent. This is a basic manipulative skills training course designed to enable the student to set up the equipment for flat position plasma-arc welding on stainless steel and aluminum. Laboratory fee required.

Welding 147
Micro-Wire Welding I 2 Cr.
1 Lec., 7 Lab.
This is a basic manipulative skills training course designed to enable the student to meet general industrial requirements while using the micro-wire-arc (MIG) welding process in the flat position for sheet metal and thin gage plate. This course is open to both the beginning student and experienced welder. Laboratory fee required.

Welding 148
Semiautomatic Arc Welding I 1 Cr.
1 Lec., 7 Lab.
This is a basic manipulative skills training course designed to enable the student to meet general industrial requirements while using the semiautomatic arc welding process (large wire co2 and flux core) for joining heavier plates in the flat position. This course is open to both the beginning student and experienced welders. Laboratory fee required.

Welding 149
Gas Tungsten Arc Welding (TIG) I 2 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 141 and 142; or equivalent. This is a basic manipulative skills training course designed to enable a student to meet general industrial requirements while using the gas tungsten-arc welding process for joining thin gage material. Laboratory fee required.

Welding 150
Basic Welding Metallurgy 3 Cr.
3 Lec.
This is a theory type course designed to assist those students in welding or who are employed in welding and related industries to refresh and extend their knowledge of the behavior of the various fabricating metals during welding. The effects of the joining processes and procedures on the fabrication and service performance of weldments are also considered.

Welding 240
Pipe Welding I — (Shielded Metal-Arc) 2 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 145 or equivalent. This is a manipulative skills training course designed to introduce the student to the basic manual shielded metal-arc pipe welding techniques. Material preparation and set up procedures in accordance with
Section IX of the ASME Boiler and Pressure Vessel Codes. Laboratory fee required.

Welding 241
Plate Welding II 2 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 145 or equivalent. This is an advanced manipulative skills level course designed to enable the student to qualify for weld quality testing in accordance with standards established by the American Welding Society for Electric Arc Welding. Laboratory fee required.

Welding 242
Gas Tungsten — Arc Welding II 2 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 149 or equivalent. This is an advanced manipulative skills level training course designed to enable the student to qualify on the various qualification tests in accordance with industrial requirements. Laboratory fee required.

Welding 243
Semiautomatic Arc Welding II 2 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 149 or equivalent. This is an advanced manipulative skills level training course designed to enable the student to qualify on the various qualification tests, as required by industry, in all positions with the semiautomatic micro-wire and flux cored arc welding process. Laboratory fee required.

Welding 244
Micro-Wire Welding II 2 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 147, 148, and 243; or equivalent. This is an advanced skills level training course designed to enable the student to weld pipe in the horizontal and vertical fixed positions with sufficient skill to pass the API and ASME qualification test using the micro-wire arc welding process. Laboratory fee required.

Welding 245
Plasma-Arc Welding II 1 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 146 or equivalent. This is an advanced skills level training course designed to enable the student to pass applicable qualification codes with the plasma arc welding process while joining carbon steel, stainless steel, and aluminum in all positions. Laboratory fee required.

Welding 246
Pipe Welding II 2 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 143, 144, 145, and 240 or equivalent. This is an advanced skills level training course designed to enable the student to pass code qualification tests for carbon steel pipe welding in accordance with Section IX of the ASME Boiler and Pressure Vessel Codes, or on request, standard & 1104 from the American Petroleum Institute. Laboratory fee required.

Welding 247
Manual Submerged Arc Welding 1 Cr.
1 Lec., 7 Lab.
Prerequisite: Welding 147 and 149; or equivalent. This is a manipulative skills level training course designed to familiarize the student with the variables concerning industrial applications of the submerged-arc welding process. On completion of this course the student will have a practical level of technical knowledge and ability for meeting general production welding requirements. Laboratory fee required.

Welding 248
Specialized Welding Application I 2 Cr.
1 Lec., 7 Lab.
This is an advanced skills development course designed to allow the student to program his own specialization area course objectives under instructional supervision. This will allow a student to upgrade his present skills development level in order to meet employment reclassification requirements, or allow him to meet job classification requirements of a selected potential employer. This course is open only to those students in advanced standing or who are presently employed and in need of additional skill development. Laboratory fee required. This course may be repeated for credit.

Welding 249
Specific Code Competency Preparation

2 Cr.
1 Lec., 7 Lab.

This is an advanced skills level training course designed for welding operators wishing to qualify under specific welding codes or specifications. The training during this course will be conducted under instructional supervision in order to enable the operator to correct any faulty techniques he may have developed. Any specific code/codes involved must be specified when applying for admission to such training. This course is open only to experienced welding operators or students in advanced standing. Laboratory fee required. This course may be repeated for credit.

Welding 250
Specialized Welding Application II

2 Cr.
1 Lec., 7 Lab.

Prerequisite: Welding 248. A continuation of Welding 248-Specialized Welding Application I. Laboratory fee required. This course may be repeated for credit.

Welding 251
Applied Welding Metallurgy

3 Cr.
3 Lec.

Prerequisite: Welding 150, 6 credit hours Welding Lab Courses. A theory course to continue, in more depth, that material covered in Welding 150. Designed to assist the student to improve communication skills with welding engineers and metallurgists. Includes a study of welding processes and their relationship to and effect upon metals and why they can/cannot be used for certain applications; the theory of heat-treating and its many uses; the value of preheat, interpass temperature, and post heat in welding procedures. Designed to increase students knowledge of what metals are made of and why they are used for specific industrial applications; to strengthen the knowledge and understanding of the grain structure of metals and the effect that welding processes have on them.

Career Programs of Tarrant County
Available to Dallas County Residents

Dallas County residents may enroll in the below-listed programs on the appropriate Tarrant County Junior College Campus at the Tarrant County resident’s tuition rate. This reciprocal arrangement does not apply to programs of instruction which are filled to capacity with Tarrant County students.

Programs

Agribusiness ........................................ Northwest Campus
Appliance Service and Repair .......................... South Campus
Aviation Maintenance Technician ..................... Northwest Campus
Banking and Finance ................................ Northeast Campus
Civil Technology ..................................... Northeast Campus
Dental Hygiene ......................................... Northeast Campus
Emergency Medical Technician ..................... Northeast Campus
Fashion Merchandising .............................. Northeast Campus
Instructional Media ................................... Northeast Campus
Labor Studies ......................................... Northeast Campus
Legal Secretarial ....................................... Northeast and South Campus
Medical Records Technology ....................... Northeast Campus
Medical Secretarial .................................... South Campus
Operating Room Technology ....................... Northeast Campus
Physical Therapy Technology ....................... Northeast Campus
Small Gasoline Engine Repair ....................... Northwest Campus

The reciprocal arrangement with Tarrant County also applies to Tarrant County residents enrolled for programs offered on the Mountain View College Campus. Tarrant County residents may enroll in the below-listed programs at Mountain View at the Dallas County resident’s tuition rate:

Animal Medical Technology
Aviation Administration
Avionics Technology
Horology
Machine Shop
Pilot Technology
Welding Technology
Flexible Entry

In addition to the regular registration periods, registration for courses offered through Flexible Entry is held the first Monday of each month. Registration is in the Registrar's Office and requires instructor’s approval. The following career programs offer sections included in this registration arrangement.

- AVIONICS TECHNOLOGY
- DRAFTING AND DESIGN TECHNOLOGY
- HOROLOGY
- MACHINE SHOP
- PILOT TECHNOLOGY
- SECRETARIAL CAREERS
- TEACHER AIDE
- WELDING TECHNOLOGY

Students should check with the Registrar’s Office each month to determine the sections which will be offered.

Cooperative Work Experience Education

Students may enrich their education in certain Career Programs by enrolling in Cooperative Work Experience Education courses. These courses are designed to assist students in coordinating classroom study with related on-the-job experience.

Requirements:
1. Students must have completed at least two (2) courses in their occupational major to be eligible for Cooperative Work Experience.
2. A full-time student must be enrolled in twelve (12) credit hours or more; two (2) courses must relate to the student’s work experience, and up to four (4) credit hours may be in Cooperative Work Experience.
3. A part-time student may take up to four (4) credit hours of work experience.
4. Part-time students must be concurrently enrolled in a course related to his work experience.
5. To enroll in a Cooperative Work Experience course, a student must have the approval of his instructor/coordinator.

Course credit will be awarded at the rate of one credit hour for each 80 hours of approved work experience accomplished during the semester. This is approximately five (5) hours a week during a sixteen (16) week semester. The work experience credit hours available in selected Career Programs will be listed in the curriculum pattern for that program.
Accounting Technician
(One-Year Certificate Program)

The objective of this program is to provide the student with a working knowledge of bookkeeping procedures currently in use in business; to introduce the student to accounting principles supporting bookkeeping procedures; and to give the student practical bookkeeping experience by the use of problem solving.

Animal Medical Technology  
(Associate Degree of Applied Arts and Sciences)

The Animal Medical Technology program is designed to meet the need for graduate animal technicians as indicated by the Texas Veterinary Medical Association. Growing demands on the livestock industry, research areas using laboratory animals demanding proficient management and care, expanding zoological gardens, and new and other increasing uses of animals have combined to place a tremendous premium on the Doctor of Veterinary Medicine's time. This program is designed to train an individual to assist the Doctor of Veterinary Medicine in surgery and the management of various types of animals.

Admission in the Animal Medical Technology program is limited and applicants will be screened for approval.

* A student may elect to take Human Development 106 or Sociology 102
Aviation Administration
options — Air Cargo Transport
— Airline Marketing
— Fixed-Base Operations/Airport Management
(Associate Degree of Applied Arts and Sciences)

Aviation Administration concerns the various aspects of business administration as relates to the multifaceted aviation industry. General business, accounting, legal, socioeconomic, advertising, marketing, and public relations subjects are interspersed with the appropriate areas of aviation specialization.

Aviation Administration
(continued)
Air Cargo Transport
(Second Year Option)

This program prepares the student for entry into the career field of air cargo management. Typical positions span the range from management trainee, support staff member, assistant to administrative supervisor, or station manager. The curriculum provides studies in the logistics of air cargo, special regulations and laws (local, national, and international) relating to air cargo operations, and prepares the graduate to perform the responsible operations essential to air shipment and transshipment of products and material.

Aviation Administration
(continued)
Airline Marketing
(Second Year Option)

Airline Marketing prepares the student for a position as an airline or cargo management trainee in the areas of customer service, sales, or promotional efforts; to perform in advertising, public relations, economics, or marketing; and evaluation of marketing effectiveness as it relates to passenger and air cargo movement.

Aviation Administration  
(continued)  
Fixed-Base Operation/Airport Management  
(Second Year Option)  

This program prepares the student for entry into the career field of airport management. Typical positions include fixed-base operator, manager of a small airport, or staff member to operation superintendents, airport directors, or aviation authority boards. Studies provide a basic business exposure that is aviation-oriented and covers planning, organizing and administering the various functions of airport operations, local and federal regulations, facility and financial requirements.

Avionics Technology  
(Associate Degree of Applied Arts and Sciences)

This two-year program will provide the student with a general electronics background and knowledge and practical skills related to avionics systems which will prepare him for entry-level employment in the avionics industry.

Enrollment in Avionics courses is open on the first Monday of each month. In each case, such enrollment is subject to completion of specified prerequisite competencies. The program is designed to be self-paced by the student, but students can generally plan to spend 18 months of study to complete the entire program.

*A student has the option to add Cooperative Work Experience on approval of the instructor.

**AV 813, Cooperative Work Experience, may be taken in place of PSY 131 or a student may take the following Cooperative Work Experience courses in addition to PSY 131 on approval of the instructor: AV 811, AV 812, AV 813, AV 814.*
This program prepares the student for employment in a wide range of industries as a draftsman or engineering aide. Information in related fields is provided to enable the student to work effectively with the engineer and professional staff. Successful completion of this program leads to the Associate in Applied Arts and Science Degree.

Horology
(One-Year Certificate Program)

These intensive programs have the objectives of developing the student's manual dexterity, judgment, and skill in the repair and adjustment techniques required to service all types of modern timekeeping mechanisms: watches, clocks, timers, chronographs, self-winding, calendar, electric, and electronic movements. Employment opportunities for the skilled horologist may be found in jewelry stores, trade shops, or in one's own business.

*Indicates courses which are open for enrollment on the first Monday of each month. In each case, such enrollment is subject to completion of specified prerequisites.

**Completion of COM 131 and BUS 153 will fulfill the requirements for either or both certificate programs. Example: A student enrolled in Clock Repair who has completed COM 131 and BUS 153 would not be required to complete COM 131 and BUS 153 for the Watch Repair Program or vice versa.
The Machine Shop program will prepare the student for employment as an entry-level machinist in industry. It will also prepare him for entry into an apprentice or trainee program for machinist, tool and die-maker, etc. Successful students will find access to supportive type jobs in the metal working field such as planner, programmer, etc.

Enrollment in Machine Shop courses is open on the first Monday of each month. In each case, such enrollment is subject to completion of specified prerequisite competencies. The program is designed to be self-paced by the student but students can generally plan to spend 18 months of study to complete the entire program.

*Preliminary interview by Mid-Management Faculty required.  
**Suggested Electives: BUS 161, BUS 231, BUS 233, BUS 234, CS 175, BIO 115, BIO 116, MTH 130, PSY 131, SPE 105.
**Office Skills and Systems**  
*(One-Year Certificate Program)*

This program is designed to meet the needs of those students who desire to enter the business world in a minimum of time. Intensive training in the basic office skills and systems is provided — including office machines, communications systems, records management, and other related business subjects. A general orientation to the business world is given. Personal development, human relations, business etiquette, and ethics are also stressed.

**Indicates courses which are open for enrollment on the first Monday of each month. In each case, such enrollment is subject to completion of specified prerequisites.**

**A student may elect to take Cooperative Work Experience courses on approval by the instructor.**
This program is designed to provide the student with flight training and ground school through the commercial license. Both general academic and associated technical courses are included in the comprehensive program to prepare the student for a career in aviation as a flight crew member. In addition to the commercial license, options are available for the Instructor Rating and Multi-Engine Rating.

All flight training and ground school instruction conforms to Vol. 10, part 61 and 141 of the Federal Aviation Regulations and, thus, are subject to change to conform to such regulations.

A regularly enrolled student holding FAA Pilot Certificate and Rating may establish degree credit by special examination.

Registration for flight training and certain related courses is open on the first Monday of each month. Admission to the program is by application to the Chief Flight Instructor and should be approved prior to registration and payment of tuition and fees. The student should recognize that simulator fees, flight fees, and fees for pre- and post-flight briefing are in addition to the regular tuition charges.

*Students with previous training will be placed according to ability. Suggested Electives: BUS 263, BUS 273, CS 175, MTH 130, BUS 702, BUS 712, BUS 802, BUS 812, BUS 703, BUS 713, BUS 803, BUS 813. A student is required to have his last semester of typewriting and shorthand at Mountain View College to complete this program.

**Indicates courses which are open for enrollment on the first Monday of each month. In each case, such enrollment is subject to completion of specified prerequisites.
The purpose of this program is to prepare students to become alert and responsive secretaries capable of performing the tasks required of them in the modern business office. Suggested electives are such that a student may take courses which will provide general knowledge in areas such as law, selling, advertising, and accounting.

Teacher Aide
(Associate Degree of Applied Arts and Sciences)

This program is designed to prepare aides to teachers in a wide range of supportive duties common to educational processes with emphasis on special education. Special courses will prepare students in the use of instructional media and enhance their understanding of learning processes and stages of development. Enrollment in Teacher Aide courses for open enrollment will be on the first Monday of October and November in the fall semester and on the first Monday of February and March in the spring semester.

Psychology 105 3
Psychology 201 3
Sociology 101 3
Sociology 102 3
PEH 101 or PEH 144 or PEH 257 3

Total Credit Hours Required: 64

*Students may elect to enroll in TA 804 and TA 814, Cooperative Work Experience, on approval of the instructor.
Welding Technology
(Associate Degree of Applied Arts and Sciences)

The Welding Technology program is designed to prepare the student in the basic processes of oxyacetylene and arc welding plus many specialized welding applications as options to fit the specific needs of the student. In addition, instruction is offered in related support areas such as metallurgy, tooling, drafting, pattern layout and characteristics of materials. Thus, the program offers preparation for both entry level jobs as well as specialized training leading to higher level positions such as welding technicians or welding inspectors.

Enrollment in welding courses is open on the first Monday of each month. In each case, such enrollment is subject to completion of specified prerequisite competencies. The program is designed to be self-paced by the student, but in general the student should plan to spend 18 months in study to complete the program.

*Recommended Electives: BPR 177, BUS 105, CHM 115, EGR 189, PHY 115, PSY 131, SS 131, WE 146, WE 245, WE 247, WE 248, WE 249, WE 250, WE 251, or a student may elect to take Cooperative Work Experience courses on approval by the instructor.
CODES AND EXPECTATIONS

Expectations of Students

The college expects its students to conduct themselves in such a way as to reflect credit upon the institution they represent.

THE BASIC EXPECTATION

A most important concept to be understood about Mountain View College's expectations of student conduct is the basic standard. Briefly stated, the basic standard of behavior would require a student (a) not to violate any municipal, state or federal laws, or (b) not to interfere with or disrupt the orderly educational processes of Mountain View College. A student is not entitled to greater immunities of privileges before the law than those enjoyed by other citizens generally.

IDENTIFICATION CARDS

I.D. cards will be distributed during registration. They will be needed for the following events and services: library usage, concerts, lectures, campus movies, use of student center facilities, voting in campus elections, tickets for campus and community events, and for identification in the Testing Center.

If lost, duplicate I.D. cards may be obtained by initiating a process in the Business Office. There will be a $4.00 charge for replacement. All I.D. cards are the property of Mountain View College and must be shown on request of a representative of the college.

Students are required to be in possession of their I.D. cards at all times and are prohibited from loaning their I.D. cards to any other person for any reason. Likewise, it is prohibited to use any other card except the one issued by the college. On withdrawal from school, a student must return his I.D. card to the Registrar's Office.

THE AUTHORIZED USE OF FACILITIES

Mountain View College is a public facility entrusted to the Board of Trustees and college officials for the purpose of conducting the process of education. Activities which appear to be compatible with this purpose are approved by the college through a procedure maintained in the Student Development & Programs Office. Activities which appear to be incompatible or in opposition to the purpose of education are normally disapproved. It is imperative that a decision be made prior to an event in order to fulfill the trust of the public. No public facility can be turned over to the indiscriminate use of anyone for a platform or forum to promote random causes. Thus, reasonable controls are exercised by college officials of the use of facilities to ensure the maximum use of the college for the purpose for which it was intended. Therefore, anyone planning an activity at Mountain View College which requires space to handle two or more persons to conduct an activity must have prior approval. Application forms to reserve space must be acquired through the Student Development & Programs Office. This office also maintains a statement on procedures for reserving space.

SPEECH AND ADVOCACY

Students have the right of free expression and advocacy; however, the time, place, and manner of exercising speech and advocacy shall be regulated in such a manner to ensure orderly conduct, noninterference with college functions or activities, and identification of sponsoring groups or individuals.

Meetings must be registered with the Student Development & Programs Office. An activity may be called a meeting when the following conditions prevail at that activity:

a. When two or more persons are sitting, standing, or lounging so as to hear or see a presentation or discussion of a person or group of persons.

b. When any special effort to recruit an audience has preceded the beginning of discussions or presentations.

c. When a person or group of persons appear to be conducting a systematic discussion or presentation on a definable topic.

DISRUPTIVE ACTIVITIES

Any activity which interrupts the scheduled activities or processes of education may be classified as disruptive; thus, anyone who initiates in any way any gathering leading to disruptive activity will be violating college regulations and/or state law. (Sec. 4223 of the new Texas Penal Code, Revised 1/1/74.)

The following conditions shall normally be sufficient to classify behavior as disruptive:

a. Blocking or in any way interfering with access to any facility of the college.

b. Inviting others to violence and/or participating in violent behavior, i.e., assault; loud or vulgar language spoken publicly or any form of behavior acted out for the purpose of inciting and influencing others.

c. Holding rallies, demonstrations, or any other form of public gathering without prior approval of the college.

d. Conducting any activity which causes
college officials to be drawn off their scheduled duties to intervene, supervise, or observe the activities in the interest of maintaining order at the college.

Furthermore, the Dean shall enforce the following college regulations as described in state law:

1. No person or groups of persons acting in concert may willfully engage in disruptive activity or disrupt a lawful assembly on the campus or property of any private or public school or institution of higher education or public vocational and technical school or institute.

2. a. For the purpose of this Act, “disruptive activity” means
   (I) Obstructing or restraining the passage of persons in an exit, entrance, or hallway of any building without the authorization of the administration of the school;
   (II) Seizing control of any building or portion of a building for the purpose of interfering with any administrative, educational, research, or other authorized activity;
   (III) Preventing or attempting to prevent by force or violence — or the threat of force or violence — any lawful assembly authorized by the school administration;
   (IV) Disrupting by force or violence or the threat of force or violence a lawful assembly in progress; or
   (V) Obstructing or restraining the passage of any person at the exit or entrance to said campus or property or preventing or attempting to prevent by force or violence or by threats thereof the ingress or egress of any person to or from said property or campus without the authorization of the administration of the school.

   b. For the purpose of this Act, a lawful assembly is disrupted when any person in attendance is rendered incapable of participating in the assembly due to the use of force or violence or due to reasonable fear that force or violence is likely to occur.

3. A person who violates any provision of this Act is guilty of a misdemeanor and upon conviction is punishable by a fine not to exceed $200 or by confinement in jail for not less than 10 days nor more than 6 months, or both.

4. Any person who is convicted the third time of violating this Act shall not thereafter be eligible to attend any school, college, or university receiving funds from the State of Texas for a period of two years from such third conviction.

5. Nothing herein shall be construed to infringe upon any right of free speech or expression guaranteed by the Constitutions of the United States or the State of Texas.

**DRINKING OF ALCOHOLIC BEVERAGES**

Mountain View College specifically forbids the drinking of or possession of alcoholic beverages on its campus. Violation of this regulation leaves the student liable to disciplinary action by college authorities.

**GAMBLING**

State law expressly forbids gambling of any kind on State property. Gambling at Mountain View College will lead to disciplinary action.

**HAZING**

Mountain View, as a matter of principle and because it is a violation of state law, is opposed to and will endeavor to prevent hazing activities which involve any of the following factors singly or in conjunction:

a. Any actions which seriously imperil the physical well-being of any student (all walks and all calisthenics are held to be actions which seriously imperil the physical well-being of students and are, therefore, accordingly specifically prohibited).

b. Activities which are by nature indecent, degrading, or morally offensive.

c. Activities which by their nature may reasonably be assumed to have a degrading effect upon the mental or moral attitude of the persons participating therein. Accordingly, any group or individual participating in hazing activities characterized by any or all of the above stated actions may expect disciplinary action to be taken against them.

The institutional policy is one discouraging all activities incompatible with the dignity of the college student and exercising disciplinary correction over such of these activities as escape from reasonable control, regulation, and decency. From the institution’s point of view the responsibility for the control of hazing activities, if they are engaged by an organization, is squarely on the backs of the elected and responsible officials of the group, as individuals, and of the group as a whole since it sets and approves the policy to be followed in these matters. It is accordingly recommended that all groups be informed that both their officers and the group itself will be held singularly and collectively responsible for any actions consid-
erred to be unreasonable, immoral, and irresponsible with the policy limits detailed above. Individual activity falling in this category shall be handled on an individual basis and will result in disciplinary action.

CONDUCT EXPECTED OF STUDENTS

The succeeding regulations describe offenses for which disciplinary proceeding may be initiated, but the College expects from its students a higher standard of conduct than the minimum required to avoid discipline. The College expects all students to obey the law, to show respect for properly constituted authority, to perform contractual obligations, to maintain absolute integrity and a high standard of individual honor in scholastic work, and to observe standards of conduct appropriate for the community of scholars. In short, a student enrolled in the College assumes an obligation to conduct himself in a manner compatible with the College function as an educational institution.

SCHOLASTIC DISHONESTY

a. The Dean may initiate disciplinary proceedings against a student accused of scholastic dishonesty.

b. "Scholastic dishonesty" includes, but is not limited to, cheating on a test, plagiarism and collusion.

c. "Cheating on a test" includes

1. copying from another student's test paper;
2. using during a test, materials not authorized by the person giving the test;
3. collaborating with another student during a test without authority;
4. knowingly using, buying, selling, stealing, transporting or soliciting in whole or part the contents of an unadministered test;
5. substituting for another student, or permitting another student to take a test; and
6. bribing another person to obtain an unadministered test or information about an unadministered test.

d. "Plagiarism" means the appropriation of another's work and the unacknowledged incorporation of that work in one's own written work offered for credit.

e. "Collusion" means the unauthorized collaboration with another person in preparing written work offered for credit.

FINANCIAL TRANSACTIONS WITH THE COLLEGE

a. No student may refuse to pay or fail to pay a debt he owes to the college.

b. No student may give the College a check, draft or order with intent to defraud the College.

c. A student's failure to pay the College the amount due on a check, draft, or order on or before the fifth class day after the day the Business Office sends written notice that the drawee has rightfully refused payment on the check, draft or order is prima facie evidence that the student intended to defraud the College.

d. The Dean may initiate disciplinary proceedings against a student who has allegedly violated subsection a or b of this section.

CERTAIN OTHER OFFENSES

The Dean may initiate disciplinary proceedings against a student who:

1. conducts himself in a manner that significantly interferes with College teaching, research, administration, disciplinary procedures or other College activities, including its public service functions, or of other authorized activities on College premises;
2. damages, defaces or destroys College property or property of a member of the College community or campus visitor;
3. knowingly gives false information in response to requests from the College;
4. engages in hazing, as defined by state law and College regulations;
5. forges, alters or misuses College documents, records, or I.D. cards;
6. violates College policies or regulations concerning parking, registration of student organizations, use of College facilities, or the time, place and manner of public expression;
7. fails to comply with directions of College officials acting in the performance of their duties;
8. conducts himself in a manner which adversely affects his suitability as a member of the academic community or endangers his own safety or the safety of others;
9. illegally possesses, uses, sells, or purchases drugs, narcotics, hallucinogens, or alcoholic beverages on or off campus;
10. commits any act which is classified as an indictable offense under either state or federal law.

STUDENTS WILL BE PLACED ON DISCIPLINARY PROBATION FOR ENGAGING IN ACTIVITIES SUCH AS THE FOLLOWING:

1. Being intoxicated
2. Misuse of I.D. card
3. Creating a disturbance in or on campus facilities
4. Gambling
STUDENTS WILL BE PLACED ON DISCIPLINARY SUSPENSION FOR ENGAGING IN ACTIVITIES SUCH AS THE FOLLOWING:

1. Having intoxicating beverages in any College facilities.
2. Destroying state property or student's personal property.
3. Giving false information in response to requests from the College.
4. Instigating a disturbance or riot.
5. Stealing.
6. Possession, use, sale, or purchase of illegal drugs on or off campus.
7. Any attempt at bodily harm. This includes taking an overdose of pills or any other act where emergency medical attention is required.

ANY ACT WHICH IS CLASSIFIED AS A MISDEMEANOR OR FELONY UNDER STATE OR FEDERAL LAW WILL BE SUBJECT TO DISCIPLINARY ACTION.

The extreme form of disciplinary action is "EXPULSION," or permanent severance from the College. Because of the serious nature of discipline and conduct standards at Mountain View College, all students are strongly advised to read the following STUDENT DISCIPLINE AND CONDUCT CODE.

STUDENT DISCIPLINE AND CONDUCT CODE

Chapter 1-100
General Provisions

Sec. 101 Purpose

(A) A student at Mountain View College neither loses the rights nor escapes the responsibilities of citizenship. He is expected to obey both the penal and civil statutes of the State of Texas and the federal government and the Board of Trustees policies, College regulations and administrative rules. He may be penalized by the college for violating its standards of conduct even though he is also punished by the state or federal authorities for the same act.

(B) This code contains regulations for dealing with alleged student violations of college standards of conduct in a manner consistent with the requirements of procedural due process. It also contains descriptions of the standards of conduct to which students must adhere and the penalties which may be imposed for the violation of those standards.

Sec. 102. Application

(A) This code applies to individual students and states the function of student, faculty, and administrative staff members of the college in disciplinary proceedings.

(B) The college has jurisdiction for disciplinary purposes over a person who was a student at the time he allegedly violated a Board policy, college regulation, or administrative rule.

Sec. 103. Definitions

In this code, unless the context requires a different meaning:

1. "class day" means a day on which classes before semester or summer session final examinations are regularly scheduled or on which semester or summer session final examinations are given;
2. "Dean" means the Dean of Instruction & Student Development or the Dean of Instruction & Community Development, his delegate(s) or his representative(s);
3. "Director of Student Development & Programs" means the Director of Student Development & Programs, his delegate(s) or his representative(s);
4. "Director of Campus Security" means the Director of Campus Security, his delegate(s) or his representative(s);
5. "President" means the President of Mountain View College;
6. "Student" means a person enrolled at the college or a person accepted for admission to the college;
7. "Deans, Associate Deans, assistant deans, directors, and division chairmen of the college for the purposes of this handbook shall be called "Administrations";
8. "complaint" is a written summary of the essential facts constituting a violation of a Board policy, college regulation, or administrative rule;
9. "Board" means the Board of Trustees, Dallas County Community College District; "Chairman" means the Chairman of the Dallas County Community College District;
10. "major violation" means one which can result in suspension or expulsion from the college or denial of degree;
11. "minor violation" means one which can result in any disciplinary action other than suspension or expulsion from the college or denial of degree.
12. "complaint" is a written summary of the essential facts constituting a violation of a Board policy, college regulation, or administrative rule.

Chapter 2-200
Initiation of Disciplinary Proceedings and Administrative Disposition

Sec. 201. Investigation

(A) When the Dean's Office receives information that a student has allegedly violated a Board rule, college regulation, or administrative rule, the Dean or his delegate shall investigate the alleged violation. After completing the preliminary investigation, the Dean may:

1. Dismiss the allegation as unfounded; or
2. Summon the student for a conference for a determination of the severity of the allegations and, after conferring with the student, either dismiss the allegation or
(a) proceed administratively under Section 203 if it is determined that the alleged violation is a minor violation and if the facts are not in dispute;
(b) proceed administratively under Section 204 if it is determined that the alleged violation is a major violation, or
(c) prepare a complaint based on the allegation for use in disciplinary hearings along with a list of witnesses and documentary evidence supporting the allegation.
(B) The President may take immediate interim disciplinary action, suspend the right of a student to be present on the campus and to attend classes, or otherwise place the student on probation for violation of a Board rule, college regulation, or administrative rule, when in the opinion of such official the interest of the college would best be served by such action.

(C) No person shall search a student's personal possession for the purpose of enforcing this code unless the individual's prior permission has been obtained. Searches by law enforcement officers of such possessions shall be only as authorized by law.

Sec. 202. Summoning Student

(A) A student may be summoned to appear in connection with an alleged violation by sending him a letter by certified mail, return receipt requested, addressed to the student at his address appearing in the Registrar's Office record. It is the student's responsibility to immediately notify the Registrar's Office of any change of address.

(B) The letter shall direct the student to appear at a specified time and place no later than three class days after the date of the letter. The letter shall also briefly state the alleged violation and shall state the Dean's intention to handle the alleged violation as a minor or as a major violation.

(C) A student shall be inactive on disciplinary probation a student who fails without good cause to comply with a letter of summons, or the Dean may proceed against the student under Section 203 and 204.

Sec. 203. Administrative Minor Violation

(A) When the facts are not in dispute, the Dean may administratively dispose of any violation that he determines is a minor violation.

(B) In administratively disposing of a minor violation the Dean may impose any disciplinary action authorized under Section 501 (A) 1, 2, 3, 4, 5, 6, 7, or 8.

(C) At a conference with a student in connection with an alleged minor violation the Dean shall advise the student of his rights.

(D) The Dean shall prepare an accurate, written summary of each administrative disposition of a minor violation and forward a copy to the parents or guardian of an unmarried student under 18 years of age, to the Director of Student Development & Programs, and to the Director of Campus Security.

(E) A student may refuse administrative disposition of his alleged minor violation and on refusal is entitled to a hearing under Chapter 300. If a student accepts administrative disposition, he shall sign a statement that he understands the nature of the charges, his right to a hearing or to waive the same, the penalty imposed, and his waiver of the right to appeal.

Sec. 204. Administrative Disposition of a Major Violation

(A) The Dean may administratively dispose of any violation that he determines is a major violation, if

(1) It is the best interest of the college and the student concerned; and

(2) The student concerned consents in writing to administrative disposition.

(B) At a conference with a student in connection with an alleged major violation the Dean shall advise the student of his rights.

(C) A student may refuse administrative disposition of his alleged major violation and on refusal is entitled to a hearing under Chapter 300. If a student accepts administrative disposition, he shall sign a statement that he understands the nature of the charges, his right to a hearing or to waive the same, the penalty imposed, and his waiver of the right to appeal.

(D) In administratively disposing of a major violation the Dean may impose any disciplinary action authorized under Section 501 (A).

(E) The Dean shall prepare an accurate, written summary of each administrative disposition of a major violation and forward a copy to the student, to the parents or guardian of an unmarried student under 18 years of age, to the Director of Student Development & Programs, and to the Director of Campus Security.

Chapter 3-300

Hearing

Sec. 301. Student Discipline Committee

(A) When a student refuses administrative disposition of either a major or a minor violation, he is entitled to a hearing before the Student Discipline Committee. This request must be made in writing on or before the third day following the administrative disposition authorized under Sec. 203 and Sec. 204. The committee shall be composed of any three administrative officers of the college. The committee shall be appointed by the President for each hearing on a rotating basis or on a basis of availability.

(B) The Student Discipline Committee shall elect a chairman from the three appointed members. The chairman of the committee shall rule on the admissibility of evidence, motions, and objections to procedures, but a majority of the committee members may override the chairman's ruling. All members of the committee are eligible to vote in the hearing.

(C) The Dean shall set the date, time, and place for the hearing and notify the student defendant of the date, time, and place. He shall also summon witnesses and require the production of documentary and other evidence.

(D) The Dean shall represent the college before the Student Discipline Committee and present evidence to support any allegations of violations of Board policy, college regulation, or administrative rules. The Dean may be assisted by legal counsel when in the opinion of the Dean the best interests of the student or the college would be served by such assistance.

Sec. 302. Notice

(A) The Dean shall notify the student concerned by letter of the date, time, and place for the hearing. The letter shall specify a hearing date not less than three (3) nor more than ten (10) class days after the date of the letter. If the student is under 18 years of age, a copy of the letter shall be sent to the parents or guardian.

(B) The Dean may for good cause postpone the hearing so long as all interested parties are notified of the new hearing date, time, and place.

(C) The Student Discipline Committee may hold a hearing at any time if

(1) The student has actual notice of the date, time, and place of the hearing;

(2) The President, or his designated representative in his absence, states in writing to the Dean that, because of extraordinary circumstances, the requirements of subsection (A) above are inappropriate.

(D) The notice under (A) above shall

(1) Specify whether the charge or charges are considered major or minor violations

(2) Direct the student to appear before the committee on the date and at the time and place specified

(3) Advise the student of his rights

(a) to a private hearing

(b) to appear alone or with legal counsel (if charges have been evaluated as a major violation)

(c) to have his parents or legal guardian present at the hearing

(d) to know the identity of each witness who will testify against him

(e) to summon witnesses, require the production of documentary and other evidence possessed by the college and offer evidence and argue in his own behalf

(f) to cross-examine each witness who testifies

(g) to have a stenographer present at the hearing to make a stenographic transcript of
of their affairs. The committee shall exclude irrelevant, immaterial, and unduly repetitious evidence. The committee shall recognize as privileged communications between a student and a member of the professional staff of the Health Center, Counseling and Guidance Center, or the office of the Dean where such communications were made in the course of performance of official duties and when the matters discussed were undertaken by the staff member for the student to be confidential. Committee members may freely question witnesses.

(B) The committee shall presume a student innocent of the all disciplinary action until it is convinced by clear and convincing evidence that the student violated a Board rule, college regulation or administrative rule.

(C) All evidence shall be offered to the committee during the hearing record. Documentary evidence may be admitted in the form of copies or extracts, or by incorporation by reference. Real evidence may be photographed or described.

(D) A student defendant may not be compelled to testify against himself.

Sec. 306. Record

(A) The hearing record shall include:

(1) A copy of the notice required under Section 302;

(2) All documentary and other evidence offered or admitted in evidence;

(3) Written motions, ideas, and any other materials considered by the committee; and,

(4) The committee's decisions.

(B) If notice of appeal is timely given as provided in Section 401 (A), the Dean, at the direction of the appeal committee's chairman, shall send the record to the appeal committee, with a copy to the student's appointee, on or before the tenth class day after the notice of appeal is given.

Chapter 4-400

Appeal

Sec. 401. Right to Appeal to Faculty-Student Board of Review

(A) In those cases in which the disciplinary penalty imposed was authorized under Section 501 (A) 6, 7, 8, 9, 10, or 11, the student may appeal the decision of the Student Discipline Committee, or the decision of the President in an interim action under Section 401 (B) to the Faculty-Student Board of Review. Disciplinary action taken under Section 501 (A) 1, 2, 3, 4, or 5 cannot be appealed beyond the Student Discipline Committee. A student appeals by giving written notice to the Dean on or before the third class day after the day the decision or action is announced. The notice is informal, but shall contain the student's name, the date of the decision or action, the name of his legal counsel, if any, and a simple request for appeal.

(B) Notice of appeal timely given under Section 401 (A) suspends the imposition of penalty until the appeal is finally decided, but interim action may be taken as authorized under Section 201 (B).

Sec. 402. Faculty-Student Board of Review

(A) The President shall appoint boards of review to hear appeals under this chapter. Each such board shall have three faculty representatives and two students appointed by the President and alphabetically rotation from available members of the review panel.

(B) The review panel has twenty-five members.

(1) Fifty percent of the representatives from the Faculty recommended by the President of the Faculty Association and appointed by the President of the College for three-year staggered terms.

(2) Ten students from the total student body recommended by the student members of the Campus Commissions and appointed by the President of the College for one-year terms. Students nominated must have an overall C-
average on all college work attempted at the time of the nomination and must not have a
discipline case pending.

(C) The President shall instruct the Faculty-Student
Board of Review members on student disciplinary
policies, rules, and hearing procedures as soon as prac-
ticable after the members are appointed.

Sec. 403. Consideration of Appeal

(A) The Faculty-Student Board of Review shall con-
sider each appeal made under Section 401 on the
Student Discipline Committee and for good cause
shown, original evidence and newly discovered
evidence may be presented.

(B) At the student appellant's timely request, the
President shall appoint an ad hoc Board of Review
under the provisions of Section 302 (A) and notify
the student appellant and Dean in writing of the
time, date, and place of the hearing as determined
by the President.

(C) The President will designate one of the members of
the ad hoc Board of Review to serve as Chairman.

(D) Appellate hearings will follow the same procedure
as described in Section 301 (A) and (B).

(E) The ad hoc Board of Review will hear oral argu-
ments and receive written briefs from the student
appellant and Dean or their representatives.

(F) The Board of Review after considering the appeal
may

(1) Affirm the Student Discipline Committee's deci-

(2) Reduce the penalty determined or otherwise

(3) Dismiss the complaint.

(G) The ad hoc Board of Review shall modify or set
the finding of violation or penalty or both if the
substantial rights of the student appellant were
prejudiced because the Student Discipline Com-
mittee's findings of facts, inference, conclusions or
decisions were

(1) In violation of federal or state law, Board
policies, college regulation or administrative rule;

(2) Made in violation of authorized procedure;

(3) Clearly erroneous in view of the reliable proba-
tive and substantial evidence on the complete
hearing; or

(4) Capricious, characterized by abuse of discretion
or clearly unwarranted exercise of discretion.

(H) The ad hoc Board of Review may not increase a
penalty assessed by the Student Discipline
Committee.

Sec. 404. Petition for Administrative Review

(A) A student is entitled to appeal in writing to the
Board of Trustees through the President, the Chan-
cello and the Chairman of the Board. The Presi-
dent shall automatically review every penalty of
expulsion.

(B) A petition for review is informal but shall contain,
in addition to the information required by Section
401 (A), notice of appeal, the date of the ad hoc
Board of Review's action on the student's appeal
and his reasons for disagreeing with the Board's
action. A student shall file his petition with the
President or before the third class day after the
day the ad hoc Board of Review announces its
action on the appeal. If the President rejects the
petition or, the student appellant wishes to posi-
tion the Chancellor, he shall file the petition with
the Chancellor, or on or before the third class day
after the President rejects the petition in writing.
If the Chancellor rejects the petition, and the stu-
dent appellant wishes to position the Board of
Trustees, he shall file the petition with the Chair-
man of the Board or on or before the third class day
after the day the Chancellor rejects the petition in
writing.

(C) The President, the Chancellor, and the Board of
Trustees in their review may take any action that
the Student Discipline Committee is authorized
to take by Section 301 (B) 6. They may receive writ-
ten briefs and hear oral argument during their
review.

Chapter 5-500
Penalties

Sec. 501. Authorized Disciplinary Penalties

(A) The Dean, under Section 203 and 201, or the
Student Discipline Committee, under Section 201,
or the Faculty-Student Board of Review, under
Section 303, may impose or modify the following
penalties for violation of a Board rule, college
regulation, or administrative rule:

(1) Admission

(2) Warning Probation

(3) Disciplinary Probation

(4) Withholding of transcript or degree

(5) Appeal against recommendation

(6) Restitution

(7) Suspension of rights or privileges

(8) Suspension of eligibility for official athletic
and non-athletic extracurricular activities

(9) Denial of degree

(10) Suspension from the College

(11) Expulsion from the College

(B) The following definitions apply to the penalties
provided in Section 501 (A):

(1) Admission is a reprimand from the Dean to
the student not accompanied by any

(2) Warning probation indicates that further viola-
tions of regulations will result in non-
disciplinary action. Warning probation may be
imposed for any length of time up to one
calendar year, and the student shall be auto-
matically removed from probation when the
specified period expires.

(3) Disciplinary Probation indicates that further viola-
tions may result in suspension. Disciplin-
ary suspension may be imposed for any length
of time up to one calendar year and the stu-
dent shall be automatically removed from
probation when the specified period expires.

(4) Withholding of transcript or degree is im-
posed upon a student who fails to pay a debt
owed the college or who has a disciplinary
suspension pending final disposition. The pen-
alty terminates on payment of the debt or final
disposition of the case.

(5) Bar against competition is imposed on a stu-
dent who has left the college or enforced
withdrawal for disciplinary reasons.

(6) Restitution is reinforcement for damage to or
misappropriation of property. Restitution
may take the form of appropriate service to
repair or otherwise compensate for damages.

(7) Suspension of rights and privileges, an elastic
penalty which may impose limitations or
restrictions to fit the particular case

(8) Suspension of eligibility for official athletic
and non-athletic extracurricular activities
pro-
hibits, during the period of suspension, the
student upon whom it is imposed from joining or
becoming an officer or member of any
organizational activity that is a part of the
student organization's activities, attending its
meetings or functions; and from participating in an
official athletic or non-athletic extracurricular activity. Such sus-
pension may be imposed for any length of
time up to one calendar year.

(9) Denial of degree may be imposed on a student
found guilty of scholastic dishonesty and may be
imposed for any length of time and

(10) Suspension from the college prohibits, during
the period of suspension, the student upon whom it is imposed from being initiated into an
honorary or service organization; from enter-
ing the college campus except in response to
an official summons; and from registering,
either for credit or for non-credit, for schol-
astic activities at work or through the college.

(11) Expulsion is permanent severance from the college.

THIS POLICY APPLIES UNIFORMLY TO ALL OF THE
COLLEGES OF THE DALLAS COUNTY COMMUNITY
COLLEGE DISTRICT. IN THE EVENT ANY PORTION
OF THIS POLICY CONFLICTS WITH THE STATE LAW
OF TEXAS, THE STATE LAW SHALL BE FOLLOWED.
PARKING AND TRAFFIC CODE

Reserved Parking Areas
1. Handicapped persons
2. Motorcycles

These reserved areas are designated by signs; all other parking areas are open and are non-reserved.

Tow Away Areas (7 AM - 10 PM)
1. Handicapped persons’ area
2. Fire Lanes
3. Parking or driving on campus in areas other than those designated for vehicular traffic
4. Parking in “No Parking” zone
5. Parking in courtyards

GENERAL INFORMATION
1. College parking areas are regulated by state, municipal and campus statutes. College campus officers are commissioned to cite violators.
2. All vehicles which park on the campus of Mountain View College must bear a parking decal emblem. The parking decal may be secured from the College Security Division (Room W-135) or during fall and spring registration periods. No fee is charged for the decal.
3. Placement of Decal Emblem:
   a. Cars: Lower left corner of rear window.
   b. Convertibles and Trucks: Lower left corner of front windshield, just above state inspection sticker.
   c. Motorcycles, Motor Bikes, etc.: Gas tank.
4. Campus Speed Limits: *
   a. 10 M.P.H. in parking areas.
   b. 20 M.P.H. elsewhere on campus.
   * Unless otherwise posted.
5. All handicapped parking must be authorized by Health Center Nurse (E-01) and handicapped decal displayed on vehicle prior to parking in handicapped reserved area.

CAMPUS PARKING AND DRIVING REGULATIONS
1. The college and their Board of Trustees, are authorized by state law to promulgate, adopt and enforce campus parking and driving regulations. Campus officers are commissioned police officers, and as such, all traffic and criminal violations are within their jurisdiction.
2. The college has authority for the issuance and use of suitable vehicle identification insignia as permits to park and drive on campus. Permits may be suspended for the violation of campus parking and driving regulations.
3. The college campus officers have the authority to issue and use traffic tickets and summonses of type now used by the Texas Highway Patrol. It is the general policy to issue these tickets for violations by visitors and persons holding no college permit. (Senate Bill 162, Section 6). These tickets are turnable to the Justice of the Peace Court in which the college is located. Furthermore, the campus officers are authorized to issue campus tickets which are returnable to the Safety or Security Division at the Business Office.
4. Under the direction of the College President, the Safety or Security Division shall post proper traffic and parking signs.
5. Each student shall file an application for a parking permit with the Security Office upon forms prescribed by the college.
6. These traffic regulations apply not only to automobiles but to motorcycles, motorbikes and ordinary bicycles.

PROCEDURES
1. All motor vehicles must be parked in the parking lots between the parking lines. Parking in all other areas, such as campus drives, curb areas, courtyards, and loading zones, will be cited.
2. Citations may be issued for:
   a. Speeding (the campus speed limit is 20 M.P.H., except where posted)
   b. Reckless driving
   c. Double parking
   d. Driving wrong way in one-way lane
   e. Parking in “No Parking” lane
   f. Improper parking (parts of car outside the limits of a parking space)
   g. Parking on wrong area (for example, handicapped or “No Parking” area)
   h. Parking trailers or boats on campus
   i. Parking or driving on campus in areas other than those designated for vehicular traffic
   j. Violations of all state statutes regulating vehicular traffic
   k. Failure to display parking permit
   l. Collision with another vehicle or any sign or immovable object
3. A citation is notice that a student’s parking permit has been suspended. The service charge to reinstate the parking and driving permit must be paid at the Business Office. Failure to pay the service charge will result in impoundment of a vehicle that is parked on campus and whose decal has been suspended.
4. A person who receives a campus citation shall have the right within ten days to appeal in writing to the Safety Committee, accompanied
by whatever reasons the person feels that the citation should not have been issued. The Safety Committee will be composed of at least three members appointed by College President. No Security Officer shall serve on this committee. Contact the Business Office regarding the committee's meeting times and dates.

5. If it becomes necessary to remove an improperly parked vehicle, an independent wrecker operator may be called. The owner of the vehicle will be charged the wrecker fee in addition to the service charge for reinstatement of driving and parking privileges.

6. Visitors to campus are also required to follow college regulations.

7. The service charge for reinstatement of the parking and driving permit will be $2.00 per citation.

8. Four citations per car during an academic year will result in permanent suspension of the parking and driving permit for the balance of that academic year. A new total commences on August 1 of each year.

9. The college is not responsible for the theft of vehicles on campus or their contents.
Board of Trustees — DCCC District

Left to right, Standing: Durwood A. Sutton, Robert H. Power, Mrs. Pattie Powell, Carie E. Welch, Jim Scoggins; Seated: Mrs. Eugene McDermott, Vice Chairman; Dr. Bill J. Priest, Chancellor and Secretary to the Board; R. L. Thornton, Jr., Chairman.
